Lieutenant Commander Harold E. Stassen, U.S.N.R.F.
c/o Fleet Postmaster
San Francisco, California

Dear Governor:

I read with a great deal of interest the clean-cut, dignified statement of yours which was carried in the Public Press on March 21 with respect to your attitude towards the Republican Presidential Nomination.

I just wanted to say to you, as I have before, that should the time ever come when I could be of any assistance to you, politically or otherwise, please do not hesitate to call on me.

Your duties in the Navy may possibly at some time or other bring you into contact with a Captain George Edmund Peterson, U.S.N. He happens to be my brother and at present has command of Submarine Division #141, based somewhere in the Pacific. If you do happen to contact him, it would please me if you would make yourself known to him. I am sure that he would be happy to make your acquaintance. Likewise, I am quite sure you would like him.

With warmest regards,

Very sincerely yours,

M. F. Peterson

Dear Harold:

This will acknowledge your fine letter of March 16. I was delighted to hear from you and appreciate your congratulations. I hope when the war is over, Mrs. Bridges will have an opportunity to meet you.

I had a very interesting time in St. Paul, and your many friends were very kind and courteous to me. I enjoyed so much meeting Judge Rensch and Governor Thyne.

I follow indirectly your activities, and we are all very proud of the service you are rendering.

My oldest boy, Styles, Jr., recently returned from the Pacific where he has been the past year. He is having a brief leave and has some interesting tales to tell. He was at Tarawa and Kwajalein among other places.

My very best wishes to you always.

Sincerely yours,

Styles Bridges

Dear Red:

Your letter of Dec. 13th finally arrived here a couple of weeks ago--taking an inordinately long time because it had to be forwarded on from London and Algiers.

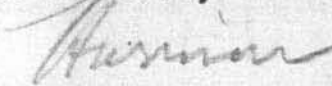

You can almost see it grow from week to week and month to month as a factor in world affairs. These people have very definite ideas about what they want all up and down the line. Often enough they are things which we have no basic objection to but they talk a different language from us and it is going to be a long time before we learn to get along with them and vice versa. It is so important, however, that it is going to be worth all the effort we can spare. And it is not going to be easy. This is probably not the time and place to go into a critique on our methods of conducting affairs with Russia. But I think it is damn important for the American people to be realistic about the Russians and not go off daydreaming that just because we have Teheran that everything is going to be rosy. It aint. They are going to irritate us and ruffle our hair. And we are going to do the same thing to them. I think, in the end, it will come out all right because the basic ingredients are right--they want to get along with the world (altho the world, as they see it is not exactly the world as we know it) and, I think, we want to get along with them. But good intentions are certainly not enough. It is going to take shrewd, hard diplomacy--an ability to take it and to hand it back--to make the thing work.

I envy you your assignment in the Pacific. It has been a top show this past eight or ten weeks and even the Red Army has had to hump to keep up with your headlines. If you are still out there this summer, as I suppose you will be, I may see you. My current program will keep me here until June, probably, then on to India and, I hope, the Pacific show. I am afraid that I am going to miss the fireworks from England but even so I think the chance of seeing all the war fronts around the world is one to be grabbed.

I see your presidential boom is coming along very smartly and I hardly need add that I wish you all the luck in the world on that. I'd certainly like to get back to the states for the Republican convention and the campaign. It should be a honey.

Meantime, keep giving the Japs the old stuff and take care of yourself.

All the best,

If Tremaine is still with you give him my regards.

Dear Harold:

Was certainly glad to hear from you. Your present assignment sounds very interesting to me for you no doubt have a ring side seat.

As to the shooting the opportunity to practice at Quantico made it possible to keep in fair shape but I think with the job I now have the shooting days are over. I read of some accounts of your qualification firing some time ago and noticed that you came through with an excellent score each time, the ability to put them in when it was necessary has never been lost. What you should do with the skeptics is have them put up a little side money and conduct a match of your own. I have always felt that you were the toughest person in the world to beat when the pressure is on.

The last Rifleman magazine had accounts of the deaths of two persons with whom you were acquainted, one was Cal Lloyd and the other Harry Renshaw. Lloyd disappeared from home at Quantico shortly before Christmas and was found in the woods on the reservation about five weeks later. Evidently he was despondent over the loss of a son. Renshaw was killed in a plane crash in India.

Life at Quantico was very pleasant for there were many old friends stationed there. The job I had was assisting in running the Ordnance School, they finally made me the dean and shortly thereafter I was transferred to the West Coast. I am doing ordnance work in the Division and am well pleased with the job. Not long ago while at San Francisco I read that your skipper had passed through and thought perhaps that you may have been along. It was impossible to learn how to reach you so gave up.

How are Esther and the children? Greet them for me when you write. Have you been able to get home to see the family at all and to do any hunting?

June, the wife, and I drove to Minneapolis last November so I made a trip to the woods and had fair luck at deer. I talked with Johnny Crew and also friends of Ernie's. Mylk is now a captain in the Army. Don Gibson wrote not long ago from India, he has been there for about two years so I believe he is anxious

to get back home. Con Schmitt was working at the Twin City Ordnance Plant for a time but is now doing other defense work. Col. Cotton has now retired so spends his spare time giving marksmanship instruction to inductees and Boy Scouts. Owen Emswiler, John Oien, Morse and others of the Minneapolis gang are still pounding out good scores. The St. Paul Club is going strong, they are celebrating their club birthday this month, I believe it is the fifteenth year for them.

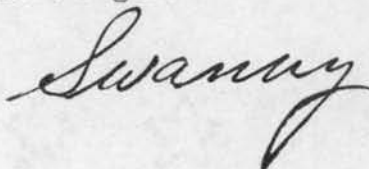

I met Captain, now Colonel, Porter P. Wiggins in Washington the summer of '42. He asked about you and the rest of the old team. He is the only one of the former officers that were on duty at school whom I have met. Sgt. Lowery of Headquarters of the 88th Division (Res.) of Minneapolis was stationed at Washington for some time so we talked over old times with him, he holds the rank of Lt. Colonel, he worked hard for it.

Am also looking forward to the time when we may talk things over. Perhaps a two man team match can be arranged, I'll furnish the ammunition, boatloads of it, so keep your eye open for two offhand shots who may feel like taking us on.

old times

In the meantime, Good Luck and

Kindest regards

Dear Harold:

Just a line to acknowledge yours of the 3rd and to thank you very much indeed for your kind thought of the new Senator from Massachusetts. I was not only glad to have your congratulations, but particularly glad to hear from you and to know that you are well and busy. I should say the news from your section of the world is very good. My son-in-law just returned after a year and a half in command of a PT boat and his story is extremely interesting - and I may say encouraging.

I am enjoying my work here in the Senate very much indeed and hope I can do some good on the way through. You probably don't know, but I do not expect to run in the fall, but Leverett does and as I can't see anybody on the horizon capable of beating him I expect he will take the seat next January 3rd. Now if the home front can do as well as the boys in the lines, I guess we will have no cause of complaint in any direction.

I hope all goes well with you and I wish you the best of luck always.

Sincerely yours,

Sinclair Weeks

DEAR

Dear Tom:-

I deeply regret Joe Ball's amazing action. At the time of my brief stop at home in early August it was my information that Ed Tye, Joe Ball, Doc Radabaugh, George Jones, Rose Spencer and all of my close friends would support you and were determined to carry Minnesota for you.

Letters I have received today indicate that all of the others have redoubled their efforts to carry the state. I hope they are successful. I sent in my own absentee ballot for you on October 6th.

We stopped in at an advance anchorage today for the first time since the 6th of October. We have been at sea continuously since that date. You know from the daily radio press where we have been. The Jap Navy has been decisively defeated, and unless the nation follows a suicide course this war will not last much longer.

I am writing directly to Joe Ball to the same effect as this letter to you. I have not heard from him since August.

Best of luck to you on November 7th.

Sincerely,

Dear Lt. Commander:

We are mailing you today, birthday greetings from your friends and supporters from the Northwest Sportsmen's Show at which the entire State of Minnesota is represented and who today are paying tribute to you and all loyal sons and daughters now serving in our armed forces.

This, of course, is but a small expression of the sincere appreciation that we in Minnesota feel toward you for the splendid service you are now giving our country, as well as for the great service you have already rendered our State.

Sincerely,
