(C) Economic Development - Neighborhood/Commercial -- I work hard and am successful at expanding our neighborhood tax base -- which provides residents with neighborhood employment -- retains the jobs that exist therein and creates new ones.

(D) Housing -- I am working with my colleagues, neighborhood groups and organizations and will continue to use creative and available financial resources for preservation of our housing stock -- increasing homeownership opportunity for first-time buyers, removing blighted housing and keeping our already fragile neighborhoods from further deterioration.

I was successful at garnering \$55.7 million for these housing needs in the 5th Ward.

(E) Senior Livability --

(1) I am working with our Community Development Agency to provide safe, decent and affordable housing for our seniors.

(2) Our seniors are our predecessors who handed us our legacy and they deserve a safe and secure environment in their golden years.

(3) Already \$2.5 million has been allocated for Senior Highrise Livability Programs.

These are just some of the "CHALLENGES" we face in the '90's.

I have the experience, the knowledge and continue to demonstrate my ability to address the CHALLENGES for the '90's.
