MEETING AT YWCA AMERICAN FEDERATION OF TEACHERS EDUCATIONAL CONFERENCE - October 24, 1946 - REMARKS BY MAYOR HUBERT H. HUMPHREY

The pattern of rehabilitation of the school system which has been established in Minneapolis under the leadership of Superintendent Goslin is a challenge to every city in America. This revitalization of our educational facilities was made possible by a public awakening. Men and women of all walks of life - labor and business, professional and common labor - grew to realize their common interest in public schools. With a clear knowledge of the situation and with a program placed before them, the people of Minneapolis move forward to strengthen the fountainhead of our democracy, the public schools.

Teachers have a responsibility second to none. It is from the teachers that the youth of our nation receives its first insight into the economic, political, and social structure. Responsibility for accuracy, responsibility for objectivity, is the challenge that faces every teacher.
