DEMOCRATIC DINNER

RUTLAND, VERMONT

OCTOBER 18, 1965

Gov - to Japan  
+ Viet

It's good to be back in the Democratic state of Vermont.

I'll always remember the wonderful people who stood in a cold rain here in Rutland during the campaign last year -- almost exactly a year ago -- and waited so patiently under such adverse conditions for my arrival.

Bargain

I'm sure you remember the bargain we made that day. I said I would guarantee that we'd carry Minnesota and you indicated you would carry Vermont. I remember telling you of the great challenge then to put Vermont for the first time in the Democratic column in a Presidential election.

Well, as it turned out, the national ticket got a bigger percentage of the vote here in Vermont than out in Minnesota.

Ut & Minn

This big margin showed how well you had laid the groundwork for these Democratic gains. The old Republican pattern in state office had been ended two years earlier by Governor Hoff, who became Vermont's

first Democratic governor in 109 years. *but Governor of all the People.*

1094/20

The people of this state not only returned Governor Hoff to office with a smashing two-to-one margin last fall, but also gave him Jack Daley as lieutenant governor. They also gave these men support for their legislative program -- electing 33 additional Democratic members to the Vermont House and four more to the Senate.

Lt Gov  
Jack Daley

↳ Tonight, I want to express to you my appreciation for your help and support last fall in electing these outstanding Democrats. I also want you to know that the President and I are truly grateful for your superlative performance in the national campaign.

↳ Now, while you still feel the satisfaction of this accomplishment, you have an opportunity to rise to a new challenge. You have the chance to make more important political changes next month in the special election for the legislature.

yes L You have the chance to give Vermont a Democratic legislature.

L Governor Hoff needs a Democratic legislature to help him carry out his commitments to the future -- commitments to equal opportunity, to education, to regional planning .... beautification.... mental health.... to economic development.

L Governor Hoff seeks for Vermont what President Johnson seeks for all America: a fuller, more prosperous, happier life for each citizen, for each community.

L In nine short months an American Congress has made into law the hopes and ideas of 40 years. And we have only begun.

# Need of Stronger America for Long Pull.

- 7 -

↳ We hear many voices these days saying that America is overextended in the world ... that other people's problems need not be our problems...and that we ought to close up shop overseas and enjoy things here in the good old U. S. A.

My friends, when that time comes, this country is doomed. Who in the world will work for democracy if we do not?

*Who in the world can help, if we fail or refuse.*

↳ Who in the world can set the example, <sup>can</sup> offer the needed hand, if we do not?

*Who can <sup>can</sup> be with you if we do not.*

↳ Our choice is clear. We must resist aggression.

*Our Choice*

↳ We must help those in the world who need our help.

↳ We must pursue peace to the ends of the earth or face

"the end of the earth."

Week End Demonstrations

Our Aim - Peace - Our Purpose - Peaceful Progress

- No Territory - No Dominion - No Conquest

Just at a time when we have the means to  
destroy mankind - or to extend the benefits of  
modern civilization to mankind.

In this nuclear age, there is no place to hide.

We realize today how small and vulnerable our world really is. We know that we must do in our time whatever we can to preserve life and to make it full and free and happy and useful. We know that what happens anywhere in the world also touches us.

*Thank goodness,* Today we Americans ~~are led by~~ <sup>have</sup> a President who knows the challenges of the times -- and is meeting them. We ~~are led by~~ <sup>have</sup> a President who has brought this nation to a recognition of the realities of 1965:

↳ The recognition that a second car and power mowers <sup>cocktail parties</sup> and dry martinis are not enough.

↳ The recognition that we can right old wrongs and create in America full and equal opportunity.

↳ The recognition that we can offer each person and each community the chance to be better tomorrow than today.

The recognition that we Americans can, with our wealth and power, lead all mankind toward more than the day-to-day search for food, clothing and shelter.

President Johnson has made his commitment to that future. I join him in that commitment. We ask your help.
