VICE PRESIDENT HUBERT HUMPHREY

OUTDOOR RALLY

DOWNTOWN CHICAGO, ILLINOIS

OCTOBER 24, 1966

*Mayor Daley*

*Paul Douglas*

*Howe Kerner*

*Jimmy Davis!*

*State + Madison  
Success for  
the world*

I am here for Senator Paul Douglas of Illinois.

I am here to ask you to return to Congress your

strong Cook County Democratic delegation -- and to add to it

*REbacki*  
Ray Rybacki, Frank Jerka, and Jim McCabe, who are fighting

the good fight in opposition territory.

I am here to bring *another* Adlai Stevenson back into the service of the people of Illinois.

The people of Illinois, and of America face a test

November 8th.

Shall they, or shall they not, return to leadership the men who have made this country the strongest ... the most prosperous ... the freest nation on earth?

We face tasks that call, above all, for leadership.

*a giant of a man*

*Can you imagine  
showing up  
without Jimmy  
& Senate without  
Douglas*

*Marriotts*

↳ No one knows better than Mayor Daley the tremendous problems we face -- despite all the progress we have made.

↳ We face the problems of young people trying to get a good education amid a shortage of classrooms and good teachers ...

young  
and

↳ of old people living out their lives in empty, lonely rooms ...

↳ of people of all ages falling victim to crime and violence ...

↳ of citizens held back by old barriers of discrimination ... of

↳

workers who need retraining for new skills ... of men and women trying to get decent jobs at decent wages.

↳ We face problems of air and water unfit to breathe or drink and of housing unfit to live in.

↳ We face the need to continue the work we have begun:  
To make this land the strong and happy nation we want it to be ...  
and to make our cities places where every single child growing up can live healthy and safe, with a good and equal chance to make his way in life.

*and we are on the way!  
Here in Chic, here in Illinois*

That is what Mayor Daley is trying to do here in Chicago. That is what your Congressmen ... what President Johnson and Vice President Humphrey ... what Senator Paul Douglas are trying to do in Washington.

↳ I wonder if the people of Illinois and of America really know how much they owe to Senator Paul Douglas.

↳ Suppose you are over 65. Do you draw social security benefits? So see

Paul Douglas helped draft the original Social Security Act for the nation.

↳ Are you under Medicare? - medicare

Paul Douglas was one of the chief sponsors of that bill in the Senate. He received the highest award from the National Council of Senior Citizens this year for the part he played in passing Medicare.

↳ Are you able to earn a few extra dollars without losing your social security benefits?

Sal's Show  
Sum  
crabtree

Paul Douglas' amendment to the law made that possible.

L Do you have children?

No man has done more for education than Paul Douglas. Paul Douglas sponsored the first Federal Aid to Education laws. He has supported bills for federal scholarships, funds for vocational education, and job training. *creditor H.I. Bill*

L Do you believe in clearing up the slums, housing the poor, and making it possible for all people to live peacefully in our cities?

L Paul Douglas got the first slum clearance bill ever passed through the Senate. He was the leader of the fight for rent supplements. *housing for the poor*

L Are you a housewife who cooks and heats her home with gas?

L Twice Paul Douglas led the fight which saved American consumers at least six hundred dollars a year in lower gas prices.

↳ Were you for the tax cut which helped get our economy moving again? —

*well* ~~↳ Paul Douglas proposed that tax cut during the 1958 recession, but the Republicans wouldn't put it through, so we had to wait for the Democrats to do it.~~ *led the fight for that tax cut*

↳ Are you a working man? —

You know where Paul Douglas stands. He is for federal standards for unemployment compensation. He is for decent jobs and decent wages. — *Minimum Wage*

↳ It was Paul Douglas who helped protect the Workers' Pension and Welfare funds by his bill which called for a regular accounting and full disclosure of the books.

↳ But as much as we owe to Senator Paul Douglas for what he has done to build a stronger and more prosperous America, we owe him just as much for what he has done to build a safer and freer world.

*Dunes for Protection  
Man of Tomorrow*

I don't have to remind you that Paul Douglas, at age 50, enlisted as a private in the Marine Corps because he knew that we could not stand by in the face of international bullying during World War II.

And I don't have to remind you, either, that today -- when there is international bullying in another part of the world -- Paul Douglas stands just as firm and strong as he did in World War II.

For none of us can be safe in a world in which might makes right, and in which big countries can get away with pushing their small neighbors around.

There is no question where Paul Douglas stands on this issue. And President Johnson and Vice President Humphrey stand with him.

We will stand up to aggression. We are not afraid to meet it. Nor are we afraid to work for a just and honorable peace. We will see it through in Vietnam until aggression ceases and a lasting peace can be established.

And we will not fall victim to those who offer easy shortcuts or simple solutions to complex problems of war and peace.

Paul Douglas is a man of courage ... a man of loyalty ... a man who stands by his word. He is a man who stands not only for truth in lending and truth in packaging, but for truth in people and truth to himself.

He is a man with a great mind ... and an even bigger heart. He has given all his life to the people.

In two weeks the people must decide whether or not Paul Douglas will remain in the United States Senate.

He needs your help. I ask you to give that help, every day between now and election day. And the people will win.
