SUGGESTED NOTES

*Honorary  
Chairman*

I am proud as your Honorary Chairman to  
welcome you to our Nation's Capital.

My remarks will be brief -- especially  
because this is a day when filibusters are at issue.

TRIBUTE

I want to congratulate the members of the Senate  
~~and House~~ who have worked so devotedly with this program.

↳ We are especially pleased to have with us  
today the leaders of the William Randolph Hearst  
Foundation through whose vision, patriotism and generosity  
this program is much a successful reality.

LOWER THE VOTING AGE

You who hold student body offices in America's  
high schools are tomorrow's leaders -- tomorrow's astronauts,  
scientists, statesmen, business, labor and Government VIP's.

↳ I think so much of you that I personally want  
your generation to have the vote -- at the age of 18

*where the  
Action  
is.*

A "GO-GO" GOVERNMENT

↳ You will find the Executive and Legislative  
Branches are really "go-go."

We are wrestling with more constructive issues  
simultaneously than at any previous time in our history.

- -- combatting Communist aggression in Viet Nam
- -- waging the War Against Poverty *at home*
- -- Rebuilding our cities
- -- Cleaning our air and water
- -- Improving highway safety
- -- Strengthening American education  
*Expanding Science & Technology*

SUMMER JOBS

When school recesses, the President's Youth  
Opportunity Program is going to help open Summer Jobs for  
you.

*Youth Opportunity Program*

We're going to top our 1965 and 1966 records  
of a million extra jobs.

↳ Please pass the word: There will be jobs.

Plan now for them. Increase your skills, so  
as to prepare for them.

VICE PRESIDENT'S ROLE

↳ My own activities include -- in addition to  
this work with youth:

*Peace Corps*  
*War on Poverty*

- Presiding over the Senate
- Liaison with the Mayors
- Member, National Security Council
- Chairman, National Space Council
- Chairman, National Oceanography Council

AGE OF ADVENTURE

In these 2 latter roles, I am privileged to be a  
part of America's great adventures into the unknown.

Truly, this is an age of exploration, an age of  
discovery, of fulfillment.

We can do more good -- for our and for other

Communist  
Satellites!

peoples and for the unborn -- than at any previous  
time in man's history.

It is you who hold the key to the future in  
your able hands.
