

LEAD-IN FOR NEW YORK SPEECHES.

It's good to be back in New York.

I understand the Republicans describe New York in a novel way -- "Richard Nixon's hometown."

↳ It's funny, I've never visualized it that way.

I've seen pictures of Nelson Rockefeller eating Käsh-neeshes blintzes and knishes in New York. Have you ever seen Richard Nixon with a blintz?

↳ I've seen pictures of Jacob Javits eating pizza. Have you ever seen Richard Nixon with pizza?

↳ I've seen pictures of John Lindsay going into the slums of New York and eating soul food. Have you ever seen Richard Nixon with soul food? ↳ Of course, he doesn't have to go into the slums. Spiro Agnew visited one and told him all about it. ↳

So you can see why I've never been able to buy that line about New York being "Dick Nixon's hometown." When I think about it, it always came out this way, "Mr. Nixon maintains a residence in New York"--and that's quite different.

↳ You see, they don't serve blintzes or pizza or soul food in Wall Street law offices or in those plush Fifth Avenue apartments.

↳ I don't think Dick Nixon knows the New York I know or the New York you know. It's not just a corridor of skyscrapers between Fifth Avenue and Wall Street. It's the Grand Concourse, and Harlem, and Sheepshead Bay and Kew Gardens and Flatbush and Washington Heights -- places where people live.

↳ Despite all that, however, it now can be said with certainty, that our friend Richard does at least have a friend in New York. It's a computer....

VICE PRESIDENT HUBERT H. HUMPHREY  
HARLEM RALLY, 136th STREET AND EDGECOMB  
AVENUE AND ST. NICHOLAS AVENUE  
NEW YORK, NEW YORK  
NOVEMBER 2, 1968

Ladies and gentlemen, take a look at me. I'm  
Hubert Humphrey, a candidate for the Presidency of the United  
States.

Take a good look because I guarantee I'm the only  
candidate you're going to see in this election.

Has anyone here seen Agnew?

Has anyone here seen Nixon?

You're not likely to, and I'll tell you why. They  
don't care. And they don't dare.

Let me tell you. Hubert Humphrey and Ed Muskie  
care. We're here to ask for your vote and to tell you what  
we'll do if you send us to Washington.

We care about the war on poverty. We're going to bring up the big guns and win that war. Nixon wants to fight it with a water pistol.

We care about good schools for all the people. Mr. Nixon voted against it.

We care about the Job Corps. Mr. Nixon wants to kill it.

We care about jobs for everybody. The Nixon Republicans are against it. They think "a little unemployment" is good for the country.

Make no mistake -- if the Republicans get in, they will deliberately throw men out of work. They have said so.

I'll tell you: With friends like Nixon and Agnew, you don't need enemies.

Mr. Nixon started the campaign talking about law and order with justice. Well, my friends, in recent speeches, the word "justice" has turned up missing.

I say disorder cannot be tolerated -- but neither can order without justice. Order without justice becomes brute force. That's not what I want. And it's not what the American people want.

Did you know Mr. Nixon has a big machine -- a computer, to help run his campaign? He wants to boil people down to little punch cards. You can't put people on punch cards, and the people don't want a punch card President.

Let's get together and send Nixon back to Wall Street. And let's send Agnew back to Maryland.

Mr. Agnew has said if you've seen one slum you've seen them all.

I say if you've seen one slum you've seen one too many.

It's not right when --

-- We send a man to risk his life in Vietnam but won't give him a decent place to live when he comes home;

-- When children go to bed hungry on Western Indian reservations;

-- When kids are out of school and out of work on the sidewalks of New York;

-- When Mexican-American children drown in irrigation canals in California because their mothers don't have day-care nurseries for them.

And when I am your President, I will change it.

Today is Saturday.

- 5 -

On Tuesday you will vote.

Vote your hopes, not your hates; vote to heal, not  
to hurt; vote for the party that cares.

Give us your help. Talk to your friends. Take  
them to the polls. We need every vote.

Give us your help next Tuesday -- and we'll  
help for the next four years.

Humphrey, a candidate for the Presidency of the United States.

Take a good look because I guarantee I'm the only candidate  
you're going to see in this election.

Has anyone here seen Agnew?

You're not likely to, and I'll tell you why. They don't care.

They don't give a damn.

Let me tell you. Hubert Humphrey and Ed Muskie care. We're  
here to ask for your vote and together we're going to give Nixon a licking  
he'll never forget.

We care about the war on poverty. We're going to bring up the  
big guns and win it. Nixon wants to fight that war with a water pistol.

We care about good schools for all people. Mr. Nixon voted  
against aid to education.

We care about the Job Corps. Mr. Nixon wants to kill it. I'll tell you with friends like Nixon and Agnew, you don't need any enemies.

We care about stamping out the drug traffic, and rehabilitating the victims of this cruel racket.

We don't think America has the right to demand that you take an equal chance to die for your country when it denies you an equal chance to live in your country.

Mr. Nixon started the campaign talk<sup>ing</sup> about law and order with justice. Well, my friends, in recent speeches, the word justice has turned up missing. I say law without justice cannot be tolerated. Order without justice becomes brute force.

Did you know Mr. Nixon has a big machine -- a computer, to help run his campaign? He wants to boil you down to little punch cards. I suggest if he tries that in this neighborhood, it will blow out his machine. You can't put proud people on punch cards. And proud people don't want a punch card President.

Let's get together and send Nixon back to Wall Street and Agnew back to Maryland.

Vote your hopes, not your hates; vote to heal, not to hurt, vote for the party that cares. Let's get out the vote -- we need everybody. Let's give Nixon a big surprise on November 5th. Let's give America a great tomorrow -- a united America -- free of fear ... free of hate ... full of hope.

NOTES  
VICE PRESIDENT HUBERT H. HUMPHREY  
CONEY ISLAND RALLY  
NOVEMBER 2, 1968

We're almost at the end of this campaign.

We're down to the rock-bottom issue.

Whom can you trust with the greatest office on  
earth?

Whom can you trust to end the war and build a  
solid peace?

Whom can you trust to hold this country  
together -- and keep it prosperous?

Whom can you trust ... period.

\* \* \*

I'll have to ask you to forgive me if I look a little  
pale. You see I haven't had time to cultivate that beautiful tan

that Mr. Nixon devotes so much time to getting. He figured he had time either to get a tan or to debate the issues -- and his motto is first things first.

You probably know he has a big computer to help him make his decisions. It didn't pick Spiro Agnew. Strom Thurmond did that -- not even a machine could make that big a mistake.

But this is a marvelous gadget it has created -- an all new, brand new Nixon, a modern, push-button, punch-card politician.

He has been packaged by Madison Avenue, untouched by human hands. And his lips are vacuum sealed.

Mr. Agnew says if you've seen one slum you've seen them all.

I say if you've seen one Nixon you've seen them all.

This is the same old Nixon who voted against Social Security ... against Medicare ... against federal aid to education. It's the same old Nixon that Jack Kennedy beat, and we're going to beat him again ... with your help.

My stand on Vietnam has been clear. Mr. Nixon has been above debating that issue -- but not above using the faces of wounded American boys on a so-called funny commercial.

It's not a laughing matter, Mr. Nixon. And the American people know it.

Mr. Nixon wants to put the American people on little punch cards to run through his machine. Well, you can't put people on punch cards. And people don't want a punch card President.

He says he's for law and order with justice, and so am I. But listen carefully -- in recent speeches, the word

justice has turned up missing. Well, it's still in my speeches, and in my Presidency, it's going to stay there.

When I am President, we'll have order. And we'll have justice, too.

I ask for your vote, not just for myself . . . but for a whole new generation of leaders, a generation of men like Ed Muskie, Ted Kennedy, George McGovern, Abe Ribicoff.

Mr. Nixon took the American people for granted -- until the public opinion polls began to surprise him.

Next Tuesday the real poll -- the only one that matters -- is going to give him the surprise of his life.

And you're the ones to do it.

Talk to your friends. Take them to the polling place. We need every vote. We can win this election. You in New York can decide it.

Well, folks, how does it feel to be in Mr. Nixon's back pocket? That's where he thinks he has you. Yes, sir, he's positive that he has the election in the bag. Well, let me tell you, Mr. Nixon, you'd better check your back pocket and one more thing, Mr. Nixon, when you open that bag on November 5th, Hubert Humphrey and Ed Muskie are going to jump out.

You better fire that big computer that makes your decisions, Mr. Nixon. You can't make punch cards out of the American people and the American people don't want a punch-card President. You want a people's President, and that's the kind of President I intend to be.

I've been listening to the people of America, and I like what you say. I plan to keep listening when I get to the White House. If I can't hear you from Washington, I'll put wheels on the White House and come to you. Fair enough?

Isn't the issue in this campaign -- who can you trust as President, and who trusts you?

Can you trust a man who voted against Social Security, Medicare, and Federal aid to education?

Can you trust him on full employment? Listen to these cockeyed Republican experts. They think 'a little more unemployment would be good to cool off the economy. You bet it will cool it off. It will freeze it into another Republican recession. Yes, the Republicans attract depressions like a barn attracts flies.

What about Spiro Agnew? Isn't he something else? In all fairness, Mr. Nixon's computer did not pick him -- Strom Thurmond did. No machine could make that big a mistake.

Nixon's trying to make an issue out of law and order. That's no issue. You have to add a couple of words -- law and order with justice. Those last two words have turned up missing in Mr. Nixon's more recent speeches.

Just like he turned up missing when I offered to debate him time and time again. Jack Kennedy licked him once. I guess he doesn't want to risk it again.

He's been saving all of his hot air to blow up his balloons.

I want your vote. I want you to go to the polls. I want you to take a friend with you. I want you to take everyone you know <sup>to the polls</sup> with you.

Your child's education, your job security, your country's future depend on it.

You get out there and let Mr. Nixon hear the sound of America's voice.

He's not going to like it, but its music to my ears!

Let's win -- Let's win big.
