NOTES FOR HUMPHREY REMARKS -- 5th DISTRICT NFL UNITY NIGHT

JANUARY 30, 1971

Nicollet Hotel, Minneapolis

1 year ago - W/11/MAR (MOE)

I. NIXON ADMINISTRATION

mp's  
take  
city!!

- Doubletalk about things leveling off
- Gameplan working. Nonsense.
- Prices look better.
- Modern version of prosperity around corner.
- Doesn't fool anybody -- social security inadequate.

WAR - Cambodia

2. WHAT ARE WE GOING TO DO ABOUT IT?

000981

← --Can't just take partisan delight -- too high a price to pay in economic and social losses, setbacks.

Ⓟ --Democratic Party and Congress must lead and lead now.

--Must lay out policy and programs -- 70's a decade of decency and development.

← --Economic recovery for private income and public resources to help heal our social wounds.

--Lay the base for economic and social rehabilitation in America.

--But we must show agressive leadership, party unity and high purpose -- knows no politics when it comes to the needs of our people -- but paves the way for Democratic victory at polls in '72.

3. DEMOCRATIC PARTY REFORM

000982

--Can't just condemn the Republicans for the leadership vacuum - failure to meet the social and human needs of our Nation.

--Is the Democratic Party ready to speak out and strike out with viable alternatives?

--Are we going to be united in high purpose or wrangle and fuss ourselves into oblivion?

--We must open the party.

--We must reform the party.

--We must provide for regular financing of the party.

--We must invite the youth of America into the Party.

--We must have a party not controlled by bosses but a party that is owned and governed by the people.

--We must follow the recommendations of the McGovern and O'Hara Commissions.

#### 4. THE ECONOMY

- The economy is in trouble
  - Losing \$50 billions yearly in unrealized GNP. Cripples our ability to meet the needs of the 70's.
  - Need an expansionist budget to get country moving again -- deficit spending not bad if it gets us out of the doldrums.
  - We're the party that believes in jobs, profits, business expansion and investment
  - Let's get with it in stimulating our economy to stable growth for financinc
    - programs for our cities
    - providing jobs instead of welfare
    - programs that attract people to

4a. THE ECONOMY

000985

paramedical professions.

--programs and policies that stimulate  
business, employment and the total economy-

5. HEALTH CARE

000986

--Let's quit bemoaning the fact that the U.S. is 14th in  
infant mortality.

--Let's provide Americans with a comprehensive health insurance  
plan that looks to prevention before a cure becomes our  
last resort.

--Let's get on with a program for doctor training and for  
medical schools and others in the health service system.

--The world's wealthiest nation should also be the worlds'  
healthiest. And it can be!

6. WELFARE -- SOCIAL SECURITY AND HUNGER.

000987

- The Administration introduced a welfare bill.
- The Republicans in the Finance Committee killed it.
- The Democrats must institute a program that restores dignity to the qualified recipient and peace of mind to the taxpayer.
- Social Security benefits increased -- cost of living.
- Greater need for food stamps and school lunch programs -- No American should go hungry or suffer chronic malnutrition -- Cost to the Nation is manpower and brainpower -- stunted American children.

7. LAW AND JUSTICE.

000988

- We need a single, unified, goal-directed system.
- A system that is as interested in rehabilitation as it is in capture and punishment.
- Juveniles must be helped before they become hardened.
- Drug addicts must be helped and the cycle of crime and addiction must be broken.
- Court delays must be eliminated.
- Corrections must be related to the community.
- Rehabilitation should return people with respect for themselves and the rights of others.

8. URBAN - RURAL ENVIRONMENT

000989

--We must initiate and follow through on long term programs for our urban-rural environment;

--programs for housing

--for transportation

--urban renewal

--public services

--manpower development

--economic development

--Public facilities and services must keep pace with private development. They are complimentary.

--Leadership and commitment and sacrifice needed.

9. REVENUE SHARING

000990

--We have catalogued the needs of our localities.

--But local revenue bases are eroded and stretched to the breaking point.

--What is needed is additional funds on a grant basis.

--These grants should provide the incentive to local governments to modernize.

--Humphrey-Reuss bill will do this and provide \$3, 5, 7, and 9 billions over a four ~~year~~ period -- no strings attached.

10. AGRICULTURE.

000991

--Nixon Administration first Administration since Hoover not to send up a farm message.  
--Parity is at 67% -- lowest in 37 years -- depth of depression.  
--Not only doing nothing, now trying to fool the farmer --  
Using new 1967 base for parity ration --  
--Can't fool the farmer with slick statistical manipulation.  
--We need solid programs to restore farm income to where it ought to be.

11. CLOSING

000992

The Democratic-Farm-Labor Party right here can show the way by its advocacy of the issues we have discussed tonight. The Party in Washington and Democratic leaders in Congress listen to what is being said around the Nation. The Democratic voices in Congress are your voices. They are the voice of the people. They must know the thoughts and hopes and feelings of the people. Together -- the people and the leaders that truly reflect the thinking of the people -- can lead the way and provide the leadership America must have to make the '70's a decade of decency and development.
