SHARON SAYLES BELTON
MAYOR

5 August 1995

Greetings:

I would like to take this opportunity to welcome you and join in celebrating the 101st Anniversary of the Prince Hall Grand Lodge Free and Accepted Masons for the Minnesota Jurisdiction.

Fraternal organizations, uniting the common brother/sisterhood bond between people have been a part of world history since the beginnings of civilization. They have assisted in addressing the concerns of our communities on many issues. Prince Hall Grand Lodge F. & A.M. is such a fraternal organization that continues to be a foundation for those seeking a solid social, spiritual and moral foundation.

I wish you continued success in your future efforts.

Sincerely,

Sharon Sayles Belton,
Mayor Of Minneapolis

GRAND MASTER'S MESSAGE

Greetings Brothers!

Behold how good and pleasant it is to meet on this our 101st Anniversary. May we truly "MEET, ACT and PART" in brotherly love on this festive occasion.

As Most Worshipful Grand Master for the Jurisdiction of Minnesota, I want to welcome all our Members and visiting Brethren to the 101st Grand Lodge Communication. May your stay be one of enjoyment and the proceedings provide contentment. May the blessings of the "Deity" preside during our work.

If my Officers or I can be of any assistance, please let us know, as we want your stay to be a pleasant one.

Fraternally,

William A. Richardson Sr.

A HEALTH MESSAGE TO:
M.W. PRINCE HALL GRAND LODGE, F. & A.M.
HIGH BLOOD PRESSURE AND AFRICAN-AMERICANS

High Blood Pressure (also called hypertension) is a major health problem among African-Americans in the United States. In fact, **HIGH BLOOD PRESSURE IS THE NUMBER ONE PREVENTABLE CAUSE OF 60,000 EXCESS DEATHS EACH YEAR AMONG AMERICAN BLACKS AS COMPARED TO WHITES.**

As an African-American, even if you don't have high blood pressure yourself, there's a good chance that one of your relatives does. High blood pressure affects about one in three African-American adults, and approaches one in two higher in the older African-American population.

High blood pressure develops earlier in life in African-Americans than Whites and is generally more severe. The longer it's left untreated, the more serious the complications can be. **THEREFORE, EARLY DETECTION AND TREATMENT ARE ESPECIALLY IMPORTANT.**

Whether you are Black or White, high blood pressure is a major risk factor for heart attack and stroke. But when compared to Whites, African-Americans have about 1 1/2-2 times more heart failure related to high blood pressure.

The American Heart Association, International Society on hypertension in Blacks and the Association of Black Cardiologists, INC. All agree that high blood pressure is a life-long disease that can be controlled. When controlled, you'll lower your risk of diseases like Stroke, Heart Attack, Heart Failure, and Kidney Disease. Brothers, we both hope that you will take due notice and govern yourselves accordingly.
