PREFATORY.

YOU have neither the time nor the inclination, possibly, to keep a full diary. Suppose, however, out of the multitude of matters that crowd each day, you jot down in a line or two those most worthy of remembrance. Such a book will be of the greatest value in after years. What a record of events, incidents, joys, sorrows, successes, failures, things accomplished, things attempted. This book is designed for just such a record. It can be commenced at any day of the year, and is so printed that it is good for any five years.

To illustrate how it should be used, suppose that it is begun on January 1. Under that day, in the first space, add the proper figures for the year to the date as printed. On the next day, January 2, do likewise, and so on through the year. When the year is ended begin again under January 1 for the second year, adding the appropriate figures in each of the second spaces, and so right through the remaining years.

MEMORANDA

19 Tune. "Whoop it up for Yale"
words by R. Keator.

Hail nineteen eight!
Hey loyal daughters are out for glory,
Cheer for our Tree,

19 And tell the Juniors the joyful story
The fight is off, here we are
To raise a slogan "nought-eight" triumphant
Smash! Bang! We'll find the Juniors
Whoop it up for 1908!

19

Tune. "Solomon Levi" words by R. Keator.

We are the jolly seniors & we have a song to sing
The Juniors have been working hard but
They don't know anything.

19 Our Tree is safely in the ground
The Juniors are too late -
Come, sing a song that will resound
To the class of nineteen-eight.

19 Chorus 1908 Tra-la-la-la-la-la
Isn't this great? Tra-la-la-la-la-la-la
The Juniors dear are very smart,
They certainly will bate
To hear us spout their gentle art.
The class of nineteen-eight.

MEMORANDA

19 Tune. "Just my style"
Words by R. Keator.

If you ask us why we're singing,
We will ask you if you know
Of the joyful news we're bringing -

19 (To you Juniors, just a Hint)
You may all be very clever
But you're just a little late -
Don't you see that you can never
Get ahead of nought-eight?
