CONGRESSIONAL LEADERSHIP BREAKFAST

Tuesday, July 25, 1978

8:00 a.m.

Family Dining Room

From: Frank Moore

I. PRESS PLAN

White House Photo Only

II. PARTICIPANTS

See Attached List

III. AGENDA

1. Civil Service Reform. You should ask the advice of the House Leadership as to how to best proceed in order to remove the Hatch Act from the final bill and to correct the Spellman amendment on Senior Executive Service. You should ask Senator Byrd how we should proceed in order to get some movement in the Senate.

2. Airline Deregulation. We believe that we have worked out our problems with the House Rules Committee and anticipate a vote in the committee possibly by tomorrow (Tuesday). You need to urge the Speaker to schedule floor action as soon as possible.

3. Security Assistance. I recommend that you state directly to Senator Byrd your concerns over the Helms' amendment on Rhodesia. In addition, I think it would be good if either before or just after the breakfast, you could talk to the Speaker and Jim Wright separately and try to secure their support. I don't believe the Speaker will commit yet but we believe that Wright is ready. See attached addendum on Korea and Taiwan.

4. Tax Bill. You should simply re-state your position.

5. Hospital Cost Containment. You should ask Dan Rostenkowski when he plans to move on this bill stressing the fact that you consider this a very important issue and that you very much want that bill.

You should ask Senator Byrd for his help with the Senate Finance Committee in getting the Nelson compromise through. We have not determined if we want the Nelson compromise adopted in Committee or if we should wait until the bill comes to the floor -- the key is whether the Republicans will filibuster the bill in committee if the Nelson compromise is attached.

6. 1978 Campaigns

a. You should mention that you have reviewed your travel plans for the remainder of the year and they will be extensive.

b. You should mention that you have sent a letter to the Cabinet and discussed your interest in this with them at yesterday's Cabinet meeting. You have asked them to make 4-5 days each month available. Frank Moore's staff will be meeting with their schedulers to work out the appearances.

c. The number of appearances by Administration officials is now 470.

d. Frank Moore and Tim Kraft are coordinating with Senator Ford and Congressman Corman. They meet this Thursday for a campaign breakfast.

e. DNC is gearing up their plans to assist candidates. You should ask John White if he wishes to comment.

7. Supplemental Fiscal Assistance. Democrats on the Intergovernmental Relations Committee (L.H. Fountain) are caucusing today. The Speaker should be urged to push Fountain to schedule a mark-up as soon as possible.

ADDENDUM TO TALKING POINTS FOR LEADERSHIP BREAKFAST

Security Assistance Bill

1. Korean Troop Withdrawal

Senator Percy's amendment to the Mutual Security Act expressed concern that your ground troop withdrawal plan will harm Korean security and prospects for peace in Asia. On July 20 you sent letters to Senator Byrd and Speaker O'Neill expressing your willingness to implement the withdrawal program flexibly and in close consultation with Congress and our Allies.

It would be useful if you could mention to the Leadership that you plan to share with Congress the results of reviews of the impact of our plans, the force balance, and the international environment in connection with further ground force withdrawals from Korea. Meanwhile, you need the necessary authority to begin equipment transfers and training operations to safeguard the military balance on the peninsula.

2. Relations with China/Taiwan

Senator Dole and others will probably be offering another amendment dealing with our future relations with Taiwan and linking any change in our security interests with Taiwan to those of Korea and Japan.

In response, you could point out that of course we plan to consult with Congress about any changes in our relationship with Taiwan. We are troubled, however, about the linking of Taiwan's security interests with those of Korea and Japan. This has never been agreed to by our Allies and would clearly be unsettling to them. As far as normalization is concerned, you can assure the Members that whenever it comes, it will not be done at the expense of the well-being of the people of Taiwan.

WFM ECON CLUB SP - BRADSHAW

June 6, 1978

Mr. Speaker:

White House says the President probably will talk about the following at the Wednesday breakfast:

1. Labor Law Reform
(Ask Senator Byrd to report.)
2. Labor-HEW Appropriations
(White House is looking for a sponsor to move for a \$441 million Floor cut. See attached memo.)

Also, a list is being prepared of Authorizations and Appropriations that are possible veto items and the President may mention this. The list will be in a letter to the Speaker this week.

3. Water Policy
(Message sent up today.)
4. New York City Loans
(Vote Thursday.)
5. Cotton Dust Rules
(Dispute within the Administration. Labor Department proposed tough rules requiring large expenditures for new equipment. Schultze and inflation fighters argue large dollar savings can be made with little loss in health protection.)

Attached is legislative checklist.

A handwritten signature in dark ink, appearing to be "JW" or similar, located at the bottom right of the page.

June 6, 1978

MEMO TO: The Speaker
FROM : Gene Bernhardt
SUBJECT: Labor-HEW Appropriations

The Labor-HEW Appropriations bill for FY 1979 totals \$58 billion, which is a net increase of \$643.3 million over the Administrations's requests.

The Administration says the increase is really \$890 million over the budget requests and they want to cut it on the House Floor by \$441 million.

The cut would come mainly in education funds, eliminating the \$100 million the committee increased the budget request by for Title I funds for poverty area grade and high schools; the \$233 million the Appropriations Committee increased the budget request for student assistance; and \$108 million in increases for health professions and training programs.

The White House is looking for a sponsor for such a cutting amendment and included in those being talked to are Bill Burlison, Jin Mattox, Norm Mineta, Andy Jacobs and Bob Giaimo. Earlier, the Administration tried to get Dave Obey and then George Mahon to offer the amendment and were turned down.

Obey said the health cuts, and NIH in particular, cannot be justified. The \$305 million increase for NIH over last year would merely keep all programs going because of a 12% inflation impact in the past year. Carter also asked for and got a big increase in student assistance, \$1.4 billion over last year, to counter the tuition tax credit drive and now wants to cut back on that, says Obey.

An Obey aide said some \$17 billion in Labor-HEW programs were not funded in this bill for lack of authorization, including about \$11 billion in job programs which he said the committee has indicated it will reduce from Administration requests. He said the White House is aware of this but is still pushing for the additional \$441 million cut.
