

St. Paul, August 16th, 1895.

E. T. Nichols,

New York.

Message received. Our counsel advise against outside Company. Their former advice that Great Northern had ample power confirmed by outside counsel here, all of whom are ready to secure judicial confirmation of charter power. Representatives of committee trying to substitute plan for personal pledge of Great Northern stock, parties making such pledge to receive Northern Pacific new shares - all of which is impracticable. I will notify them that we are ready to carry out London agreement in legal manner, and can have judicial construction of charter by any shareholder asking for injunction. If they are not willing to do this we will withdraw from further consideration.

Jas. J. Hill
