D.S.L.:

There are some locusts between Valley City and Bismarck. It is too early estimate probable damage. Think years business will grow in other places more than it will lose. I told Mellen that any reduction of capital which did not bring the amount of stock and bonds to fifty thousand per mile was absolutely worthless. The Company's testimony in North Dakota case places cost of lines in that State at twenty eight thousand. To exchange all Common for Preferred would only reduce capital to sixty two thousand per mile. Have asked Morgan to put a stop to the whole thing.
