The Blessing Coal
from the Sparta appears to be choice and
hereafter, I will not load any of it, unless
special mention is made of it in the order.
The Rocket instead of getting off before
daylight, will not get away until noon.
In backing down from the outside elevator
she got upon a Sunken beam and was
detained several hours. I think we will
get the salt loaded today.

Sir,
You ordered some more from the receipt that
was so unfortunate as not to get here. I do
not know whether you wish this order filled
or not. We are sending you two of Stone and
one of Briss. Hill a day. Today I think I
will send you a couple of cars of rock. If you
wish more than three cars a day, you can
inform me. We shall finish 20 W. Jones
order today, if it does not seem to much
to prevent us loading.

Very Respectfully

Yours of the
16th at hand. The salt to Breckin
Miner were in clean packages, Every barrel
was swept before it went into the car. Used
two barrels.

The report dated yesterday embraces all the
salt ordered for D W Jones, unless you wished
time to have 300 tons. Could only get ^{our} S City
car for Northampton. Loaded you more
car of salt than ordered, it was the last of
the season large and indications of a
snow storm decided us to finish it up.
Will load the three cars of M & B and
one of M Bank for D W Jones today.

The two cars
of Nut and five of Stone in the enclosed report
are ordered through Mr Chase Agent at
this point for Geo H Smith Lupt. Also
one case of M R Bloss for the road at
Rice's Point which is loaded but not
weighed yet. The Car of M R Bloss
for D H Jones is also loaded but not
weighed. I suppose you want a car
of Pine Hill a day until you get the
10 ordered, for and. At least I have been
sending you one a day under this supposition.
By yours of the 17th I should judge you
want the 25 cars of Nut ordered when this cargo
arrives, also 15 cars for D H Jones. Mr
Armstrong has been ordering Nut more or
less every day and I have filled his orders.
If you want more than forty cars of Nut
