Embossing Plates,

GENERAL OFFICE AND FACTORY:
Corner St. Peter and Exchange Streets and 40 Exchange Street.

Heating Tables,
Warming Pads,
Car Heaters,
Glue Pots,
Broilers, Etc.

SPECIAL DEVICES MADE TO ORDER.
Water Heaters, Process applied to all parts of movable machinery requiring heat.
Apparatus made for any voltage of current.

St. Paul, Minn., November 10th, 1891.

Mr. J. J. Hill,

St. Paul, Minn.

Dear Sir,----

We wish to call your attention to our Electrical Heating devices with a view to placing them in your residence.

The apparatus that would be applicable for your use, would be sad irons for the laundry, griddle cake bakers and Atmospheric Heaters.

This is a most convenient and inexpensive method, in view of the fact that you have an isolated plant.

The method of introducing electricity in the form of heat has occupied the attention of a great many electricians, but the successful application, is ours alone, and we guarantee satisfaction. We will be pleased to place sad irons and atmospheric heater in your house for trial.

Awaiting your reply, we are,

Yours respectfully,

Carpenter Electric Heating Mfg Co.

J. B. Swinton
General Manager.

Sioux Falls, S. D. Nov. 10th 1891.

A. L. Mohler, Esq.,

St. Paul, Minn.

Dear Sir:--

I shall be ready to ship the buffalo as soon as next Monday, but it will take quite a large number of cars. They must be box cars and only a few can be put in a car as they are liable to kill each other; some of them are very large, powerful animals. I think it will be best to send Thos. Hardwick and another man with the, therefore I wish you would send me transportation for Thos. Hardwick and one other. I wrote you for transportation yesterday not knowing that Hardwick wished to take another man with him. I now think it is necessary. I don't believe we can put on an average more than four of these animals in a car, therefore it would take five cars, but I believe we had better be provided with six.

I wish you would notify Mr. Hill, if you have to do so by telegraph, when I will ship.

Yours truly,

R. J. Pettigrew

BABCOCK & GARRIGUES,

ATTORNEYS AT LAW,

309-310 KASOTA BUILDING.

Minneapolis, Minn., Nov 10th 1891

Dear Mr Stephens:

I herewith enclose you two letters which were referred to me by Mr Hill - I did not feel authorized to instruct Davis or Amidon to take any legal steps in the matter. It is a peculiar situation. If Schuyler, after having been notified by Shaw, to act, fails to compel Edwards to agree upon a receiver for the mail, why it seems to me that he renders himself liable under the warranty in bill of sale. There is no need of haste in enforcing that liability if it exists. The thing to do is to effect some arrangement by means of which Shaw can get the mail, and it seems he has done about all we could do at the present time. I also enclose voucher from the Citizens Bank for October & November rent - I am alone today or would come down and see you. If anything occurs to you that we can do to 'loose the mail' we will take steps at once to do it - yours Respectfully
 Chas. H. Babcock.

GREAT NORTHERN RAILWAY LINE.

After transmitting telegrams which in their judgment would have served the Company's interest if sent by train mail, or which appear unnecessarily long, operators are required to make a copy of them and forward to Superintendent of Telegraph. Operators will write all telegrams in ink, and enclose those for delivery on trains (except to trainmen) in sealed envelope.

GATES A. JOHNSON.
INSPECTOR.

St. Paul, Minn. Nov. 11th 1891

Hon. Jas. J. Ailly
Dear Sir

On May 30th 1888 a building permit was issued from this Office for the construction of your dwelling house on Summit Ave. at a cost of \$225,000 as estimated by your builder James Brodie. At this time this Office made objection to the low estimate of cost, but was assured by Mr. Brodie that it would not exceed that amount.

Now as the work of construction has gone on from that ^{date} up to its completion I have no doubt the cost of this magnificent structure has greatly exceeded the original estimate of \$225,000⁰⁰, and in order that the records of this Office may show the actual cost on completion

GATES A. JOHNSON,
INSPECTOR.

2 St. Paul, Minn. 189

of said building, you will confer a favor on me by informing me of the actual cost of said building with a view that you be credited with a proper record of the same, and the issuance of another permit for the completion of the same based on the actual cost less the \$225,000⁰⁰ as submitted by Mr. Brodie at the date of issue of the first permit.

I have every confidence that you desire only what are the facts in the premises and believing it to be my duty in thus calling your attention to the within subject matter, and awaiting your reply.

I am your very Obedt. Servt.
Gates A. Johnson
Inspector of Buildings

Farmington Main
Nov 11, 1891.

Mr. J. Hill
St Paul
Main.

Dear sir. I have a Picheon
Norman Stallion, bay with black
points heavy tail dragging on the
ground wt about 15.00 lbs. that I would
like to trade for a Cleveland bay
horse colt. I think there is an
opening for a Coach horse here, there
are none of them here yet at
Farmington. This horse of mine
is 4 yr old & a sure foal getter as
his colts will show. If gelded, would
make a grand Coupe horse. I have
a registered bred bull that I

[11-11-91]

would like to dispose of.

Please let me know what you
would do. It would be an ad-
vertisement for "North Oaks" to
have some of its stock along the
"Hilwigukie" as well as along
the "Great Northern" Road. I am
into horses now exclusively having
sold off my cattle & sheep.

yours truly

November 11, 1891

My dear Sir

To-day, I received an official
copy of some appreciative resolutions passed
by the Trustees of Macalester College which
it gives me pleasure to transmit.

While I was gratified at your dis-
-cription of the heavy debt your college caused
by the poor judgment of the trustees, I have
regretted that the monthly check for
the development of the Reference Library
has ceased.

A Reference Library open to all
is needed. It is different from the
popular public library. It can only
be slowly built up, and I really hope
that you may still do for these
two cities, at Macalester a midway
point, what Benjamin Franklin's
great foresight has done for Philadelphia.

Within a few weeks have
received some more manuscripts
from Paris showing additional

CIRCULAR.

To the Municipal and School Officers of.....

Doctor Edward D. Neill of Saint Paul, Professor of History and Political Economy in Macalester College, proposes to deliver a course of lectures on the Development of the American Government, in those communities which may make the request. The topics of the course will be:

1. The Beginnings and some of the Democratic Elements of the English Nation.
2. The Colonization of English North America.
3. The Contest for Supremacy in Central North America between France and Great Britain.
4. The Form and Defects of American Government during the War for Independence.
5. The Framers and Framing of the Constitution of the United States of America.
6. The Administration of Washington as First President.

No charge for admittance will be allowed. It is, however, expected that a public hall will be provided, and the few incidental expenses met by some method which may be adopted by the attendants upon the lectures.

Further information may be obtained by addressing

EDWARD D. NEILL,
515 Portland Avenue,
SAINT PAUL, MINN.

COLLEGE AND PEOPLE.

The American college is not a cloistered institution. Its mission is more than the teaching of young men the dead languages, in a quiet class room. It strives to be abreast with those who guide the thoughts of the community in science and philosophy.

Carleton College, through its observatory, has regulated the railroad time of this state; Macalester College, by its printed monthly bulletins, has gained the respect of Harvard, Cornell, Brown and Johns Hopkins universities, and its researches are sought for by historical writers.

It is rumored that arrangements may be made by which Dr. Neill, of Macalester, will bring the college closer to the people while continuing his present duties. At stated intervals he may deliver, in prominent towns, with no charge for admittance, a course of lectures upon the growth, institutions and conditions of permanence of the American republic.—*St. Paul Pioneer Press, June 16, 1891.*

THE AMERICAN GOVERNMENT.

The American government is unique, duplex in form, and not fully understood by other nations. Thomas Jefferson built up a party by the constant declaration that the government was best which governed least and promoted the greatest good of the greatest number.

If the people only understood its principles, there will be no anarchical strife nor conflict of labor and capital. The professor of history and political economy of Macalester College is hoping to see created a movable professorship in Minnesota, the incumbent of which will move from town to town, and in a public hall, under the auspices of the civic officers, editors and school trustees, deliver a course of lectures upon the distinctive features of the American government and the history of its development.

It appears to us that this may be a beginning in the right direction, and might be supplemented by the other institutions of learning until there would be a college on wheels, constantly moving and showing that professors are not like the Dryasdust of Thomas Carlyle.—*St. Paul Globe.*

Figus Falls Minn Nov 11 1888

A. S. Breck, Esq

St Paul Minn

Dear Sir. Last week Mr O. F. Callin put in a new
apron & repaired the old one. also when we
come to strip the timber at Head gates we found
it was so badly rotted that we could not do
much good by putting a new timber in the
place & instead we braced the timbers holding
flumes & put on a new gate just back of the
old one & braced the timber making a good
substantial job. also the work done on apron
is well done & makes it in good shape.
Mr Brown agt of the Wright estate let out the water
last Sunday morning & let it out so fast that it
washed out the dam below us. Our party who
is interested in the dam below said to me that he did
not see how our dam stood it, I think it would
be well for you to notify B. F. Brown at once that you
will hold him responsible for all damage done. as I understand
he intends letting off the water again on Sunday night. I believe
reports today, that they let off the water last night.

Received from Mr. O. F. Callin
the sum of \$100.00 for
the work done on the
dam at Figus Falls
Minn. on the 11th of
Nov. 1888.
