Dear Sir:-

I send you herewith copies of slips giving details of the four deposits made for account of The Mille Lacs Lumber Company ~~made~~ on 13th inst. I also send you the Lumber Company's bank book, and, after taking up the matter of 2¢ difference I find that the amount shown in the book as having been deposited on October 16th accords exactly with the deposit slip of that date, and after seeing Mr. Lloyd in the matter he is forced to admit that the Bank people are correct and that the error must exist in the Lumber Company's cash book for month of October.

You will find enclosed two letters from H. W. Donaldson, which deal with matters connected with the Lumber Company.

Mr. Breed did not get a chance to see Mr. Bruns on his recent trip, but Mr. Bruns happened to call at this office this morning to see you, when Mr. Breed took advantage of the opportunity to have the assignment executed by Mr. Bruns.

Yours truly,

J. J. Rooney

Dear Sir,

We have nothing from you
in reference to the adjustment of
the water. We are suffering more & more
& can now only run two thirds time
fall on account of the unreasonable
use they make of the water.
Last Saturday P.M. we requested that they
let us have the water during the night &
they could hold it & fill their pond Sunday
they would not & Sunday their pond filled
early in the day & their large quantities
wasted until midnight Sunday & then I
had my men ready at that time to start & the
water was shut off & we could not do anything
either night. & we are sorely in need of it being
behind our orders; The heavy ice has split one
of the posts that support the South West corner of mill;
partly attached to the water. The Lease contemplates some adaptation
to the water. Resp. W. A. Barclay

W. A. Stephens Esq. Sir:

Your favor of the 12th inst is before me, but before I can intelligently answer you I must know the exposure & the means you have of putting out the fire. I got a pretty good idea of your mill & its exposure & your water facilities, will you please post me on these matters & oblige.

Of course the rate would be lower with the 80% coinsurance clause I think with very thing. Considering I would be in your place, I have the 4/5 clause.

If I make a bid on the risk, I want you "to tote fair"
