J. J. Hill, Esq.,

Great Northern Ry.,

City.

Dear Sir:-

We are at work upon your account and hope to present it to you in full in proper shape in a few days.

There are four items of material supplied you, namely: Underground cable, dynamo, the switch board and instruments, and the motors, each of which is upwards of \$1,000.00

The material and work of installing the batteries and the work done at your house in changing the lighting circuits, and wiring the little theater, will make up several thousand dollars additional.

We will esteem it a great favor if you could send us a check for say \$3,000.00 We had not expected to ask for any money until the plant was completed but, as our part of the work has now *practically* been finished some time, with the exception of putting the acid into the batteries, and as the entire plant should have been in

operation long before this, we were counting on receiving our pay in full before this time.

We trust you will recognize our position and make us remittance at an early day and greatly oblige,

Yours very truly,

THE ELECTRICAL ENGINEERING & SUPPLY CO.
