James J. Hill, Esq.,

St. Paul, Minnesota.

My Dear Sir:-

I venture to write you although I cannot claim your personal acquaintance.

My brothers George and Fred Gould were neighbors of your daughter's last winter at Montecito, and I believe had the pleasure of meeting you.

My friend Mr. James A. Garland, of the First National Bank of New York, has given me a letter of introduction to you. As I am exceedingly anxious to see your collection, I propose to stop over a day in St. Paul on my way to Montana on a hunting trip about the 10th of July, or a little later, if you will be at home.

I take the liberty of writing in advance to ask you, and beg you will tell me frankly, whether it will be convenient to you or no for me to stop.

I hope to be in the mountains during August, and about the 1st of September I trust to start for Santa Barbara, Cal., returning to New York early in October.

As I shall return from Santa Barbara probably by the Atchison or Union Pacific, I shall not have the opportunity of making your

acquaintance unless I am so fortunate as to find you at liberty  
on or about July 10th.

I pray you will pardon the liberty I have taken, but I have  
heard so much of your people and yourself, that I almost feel  
as if I already had the pleasure of your acquaintance.

Faithfully yours,

Dear Sir:-

We received lately from Mr. Cass Gilbert, Architect, a letter requesting us to give an estimate on the heating of the new Catholic School Building located near your city. We, knowing that it is through your liberality that these buildings are being constructed, take the liberty of corresponding with you. Our reason for this is not because of any doubt in our mind as to Mr. Gilbert's authority in the matter, but simply because we prefer in all instances dealing with the owner of the building if possible, thoroughly appreciating the fact that while the Architect maybe deeply interested in the success of every portion of the building, yet the owner being the one who furnishes the capital should be the one to be consulted.

We can refer you to such work as the Metropolitan Theatre and St. Luke's Hospital in your city, and hundreds of other equally as successful plants throughout the United States, and beg leave to say to you that for buildings designed for the purpose for which these buildings are to be used, there is no system so economical in

operation or durable and efficient, as the SMITH PLENUM SYSTEM.

We shall be glad to prepare for your inspection full detail drawings showing the arrangement we would propose furnishing, and give a proposal embracing the furnishing of the work complete and guaranteed, and if we are advised by you that our work will be given due consideration and contract be given us if we prove our claims, and our price is considered in comparison with quantities furnished, we will do so.

Awaiting your reply, we remain,

Very respectfully yours,

Huyett & Smith Mfg. Co.,

Dear Sir:-

My father writes me from Paris that he has just bought a number of important pictures, both from the large public sales which took place recently and also from private parties.

I would be very obliged to you, if you could conveniently send me some money on account, as I want to send all my available funds to Paris for the heavy payments we have to make.

Business seems to be very good in Paris of late and the prices for paintings of the French School remain quite firm.

I hear that the Exposition of Renoir, which took place in our galleries last month, has been a great success.

Yours truly,

Dear Sir

I beg to introduce to you Jonathan G. Clark Esq of Bangor Maine - who is one of the directors of the Spokane & Northern Ry. Co. - You will recall a conversation I had with you relative to the building of a line from this city through the Palouse Country - I have investigated the matter since you were here, and am of the opinion that it will be very much to your interest as well as ours to construct this line at once - Mr Clark calls upon you for the purpose of discussing the matter with you more fully than I can by letter -

Yours truly

Dear Sir:

Enclosed please find another letter from Mr. Burgess, my driver, part of which is in relation to the mares Senora and Senorita. I send this to confirm what I have already written you and to show you that the utmost pains have been taken to have these mares just right, for I believe them, everything considered, the finest matched team that I ever saw. I hope that they reached you all right and that there will be no trouble in getting them used to the many new sights that they will see in the city.

Yours truly,

Dear Sir

Yours of May 31 at hand I will be sure  
 and have the mares and colts have the  
 Ranch in first class shape in every  
 particular and neglect on part of  
 your instructions. The mares have  
 become very gentle & today could  
 harness and hitch and drive them  
 with perfect safety. Now at the Ranch  
 but you know that Annette is very  
 nervous and be very badly used  
 and will stand no foolishness  
 or nonsense if she will pay no  
 attention to her she went to  
 the office she had appointed of.  
 Cases I have had no opportunity  
 to brake the to them cars and  
 so forth and they must go  
 a hardingby

I don't think we should breed  
 Terak. Donk might memento Song  
 we will have to go claw with Song  
 this year but she is surely a goat  
 more Terak had ought to that in  
 30 or better this fall and Donk might  
 in 25 or better Kappa is lame and getting  
 no better and I shall breed her to  
 come the first opportunity. Her  
 will not hit goat this year but  
 will be a good mare with age. The  
 others are going well and what I  
 haven't bred I have soaked and will  
 the Hound on Pat get out of  
 the field Sunday night and if  
 she go to bothering I will have  
 to hire a shepherd for a few weeks.  
 Cithyren is still a good colt  
 you are right about trying to beat the  
 watch and I will be cautious
