J. J. Hill Esq.

St. Paul. Minn.

Dear Sir.

Please let me know if  
you would "lease" the "Silver  
Cord" Quartz Lode Mining claim.  
This is one of the properties  
formerly owned by my father  
and myself and transferred  
to L. A. Broadwater in 86.  
The Lee Mountain Syndicate owns  
the adjoining claim on the  
west of Silver Cord. and have

have leased it to other parties who are sinking a shaft near the dividing line between the two claims. I have taken out and shipped some Ore. I have known for years that there was some ore in the Silver Cord as I have mined and shipped Ore from this lode fifteen years ago.

I was down in their shaft when 9 feet deep have not been at Rimini since that time. The shaft is down 32 feet and they intend to run a level at present. I have heard recently that they would not allow any one in the shaft at present. I think it would be well enough for and to the interest of Red Mountain Consolidated Mining Co. and

the stockholders of the same to have some one to investigate this affair. Which could be done by sinking a shaft near west end line of Silver Cord, the dividing line between these two claims. If I could secure a lease on this property I would commence work at once. This would be beneficial in more ways than one. It would prove which of the two lodes ~~was~~ is producing the Ore, and at the same time develop Silver Cord vein. The parties working the lease on the adjoining ground are of course working it for what there is in it - and should they have no opposition could easily work any where in

in the vicinity and no one  
be the wiser V. If you will  
lease said property, please  
let me know at once, giving  
terms. What % of net proceeds  
would you require?

I hoping to hear from  
you at your earliest  
convenience,

Very, Respectfully,

Thos. M. Russell,

546 Park Ave,      Helena  
Mont.
