My dear Mr. Wile

I must send you a
line to wish you & Mrs. Wile and
family a very happy New Year
& to express the hope that we shall
have carried the "blessed old road"
through to the Pacific Ocean.
You will take things more easy
& cease burning the candle at both
ends as you have been doing for
the last few years. Your boys
have now reached an age when
if you give them a chance, they
may be a great help to you &
in a short time relieve you

to some extent of a part of the
burden you have been carrying
for so many years. It is now
15 years since we made
the deal with the Duluth
and 15 years are a big gap in
one's life. In 15 more years
of I live as long, I shall be
79 years old.

I read your annual report
with great interest. It is a very
modest document & let's
the figures speak for themselves;
for the information of your
shareholders in both camps
& the board holders on this
side, I have persuaded Mr
Skinner to print in a leaflet
the Financial Chronicle article
commenting

on the report. This article makes
the report clear & intelligible
to the dullest of ordinary ^{investors}
I have ceased trying to bring up
the price of the guaranteed shares
to which I have always ^{consented}
to be their investing volume to
English investors, who as a
rule think 4% a high return;
for the reason that I have been
under the impression that
you did not wish the shares
to go higher than for 112/115.
So that for a long time past
I have done nothing beyond
recommending them to
investors who were content
with a 5% return for their
money. The difficulty

here is that western, cannot
understand how it is that
a security so good as still
there these shares are, sells
for such a low price as
116 hundred shares as 112 U.S.
They think there would be
something wrong about it.
because it does not sell on
a 4% basis.

The market here for the
4% S. & W. bonds has been very
good; the best market in
the whole list of American
bonds. There have been sold
nearly several blocks of
\$50,000 each. Bonds of another
100,000. at 90 cents dis.
without depressing the

[1-6-93]

price a simple position, & now
I expect to see the price go
up & go on rising until it
gets to a level with N.Y. &
Camb. 4% is: par.

I assume that this will be
satisfying to you notwithstanding
your having given up the idea
of looking to this side as a
market for your securities.
a decision which I cannot
help regretting. though there may
be good reasons for it which
I am not in a position to
appreciate. In this as in
everything else concerning
the interests of the Comby
I am & have always been
ready to defer to your judgment.

I may however mention
in this connection, that all
your friends in London were
surprised & puzzled by Hambro's
offering in this market for
Wilsons 5% bonds guaranteed
by the S. & A. at 96. They
could not understand why
with your 4% bonds selling at
90 you sold these 5% at 95.
Had you thought of cabling
either to Skinner or myself
that you had \$3,000,000 of these
bonds which you wanted
to sell. I think, may I feel
sure, I could have sold
them out at 10% higher
price. I hear today from
London

that \$100,000 of these bonds
have been sold in London
at par. & 2 1/2 terms, and
a bid has been made for
\$500,000 more. K. L. & Co
are good people but you
will agree with me, that
it would have been better
if the Comby had made
the money they ^{indeed} make
by this deal with you.
Their services may be
too dearly purchased. I
have thought in the
interest of the Comby you
would like to know
all this. Now that a
4% further guaranteed

5-7-10-(2).

and is known in London.
It will always be worth
while to test both markets
before making a sale.

A cable to Skinner or
myself will be enough.

Again wishing you
all a happy New Year

Believe me

Yrs always
