they boat was loaded before the iron and that the ice would cut out the oakum and render her liable to sink. The telegraphed you immediately and to instruct me to unload ^{or} at five o'clock in cars and the next morning I received a message to load in cars. Had six cars put in there and loaded what was on deck. I ask Mr Gordon and the Captain to have everything ready for hoisting next morning as the boat is laid up and we must use horses and bands are needed on the deck for us to cut it up. I was led to think there would be no trouble, all then wanted to see us to ask the Mate who has charge of her. The next morning the team was there and we were ready to get everything in shape so as to commence hoisting as soon as we could get cars. I did not expect cars immediately but wished to have everything ready to as not to

Mr Geo Sucker
[Sucker] Dear Sir

^{was} I forgot to mention in yesterday's duplicate report that the Vent was not screened. There was five cars, three for Hra and three for Gof. This was direct from Craig. There was no cars loaded yesterday but the report bearing date of the 6th more cars that was loaded on the 5th after they had got through weighing. There was no barrels used in the shipment of bloss to St Harrington Laverne. The quantity was small and we put it in the middle of car.

Very Respectfully
A C [unclear]

P.S. I do not know as I will be able to do any thing about the excess of Wright W Armstrong claims he has been charged. He wrote to me about the matter but I have been over the figures of the railroad book and can find ~~nothing~~ ^{nothing} ~~at all~~ ^{at all}
