J. J. Hill Esq.
Dear Sir.

The Coal is all here & 25 cars have been sent forward. I wish to God it was back here or in some safe place until the water subsides for although it is put up on high ground, back of Baumgartner's little track - now it is likely to be submerged.

The remaining Eighteen cars are here up on the hill on side track & I shall keep them there till everything is safe. I am in great anxiety about our Winnipeg property as well as the general outlook for the R.R. Co.

I candidly think that \$50,000. would not make good the difference to the Co's interest between what it now will be with the next timber months & what it would have been if the Agricultural interest of Manitoba had had a prosperous season this year.

I refer you to my letter to Mr. Michael of this date & will keep you all posted in regard to Manitoba matters. Am going to St Paul again when I can do so safely.

Yours Truly
