I am just out for the first time in
three weeks to attend to business. Mess
Stone & Wold have been running the coal
storage department for me "ad interim"
and say that the Car of Mt Park Coal
was very dirty & inferior, judging
from what is left they are correct.
I think you will see to it that I
get no more like it if you please
as the three other parties here have all nice
clean, large lump coal. I believe your intention
is to do the right thing but some one did not
certainly on Car # 84. Please add another

St. Paul / Dear Sir.

What
Cans are weighed and loaded fills all
outside orders excepting the thirty tons
Coke for the Harvester Works. If ever it
gets raining and drives up some, we will
get that order off. Could have loaded
it to day, but could not get it out in
good shape. By outside orders, Minneapolis
was excluded. The Company do not
care to have their cars go there, as they
come back loaded with flour and re-
main on the track, so the use of the
car is lost. There is a long string of
loaded cars of flour awaiting shipment.
Several of these are Minneapolis cars and
the Agent has promised them to us as
soon as unloaded. I expect will have
to dock most of the Youghy Coal. I
wanted to have some of the cars we loaded
to day but if we did not load them, they would

Gentlemen
Yours of 18th ult at hand
and noted. I do not exactly understand you.
Your Invoice is dated Aug 17th and I am very
certain we did not receive any of the Coal
until in August and as you admit on your
Statement the Coal was bought on 90 days
time which as I see it would be November 7.
If you wish to discount the Invoice we might
think of paying now otherwise will send you
