Gardener,
Care Mr. H.A. Noble,
GLACIER PARK, Montana.

I purchased at Spokane and will leave at Glacier Park five or six boxes of perennial flowers.

Would like to have these planted around the border and around in the flower beds near the big hotel.

There are a number of annual stocks, also, that it might be well to plant right close to the hotel, by the porch.

These should go in the ground as soon as possible, as it is already a little late for moving them.

Mr. H. A. Noble:

Wish you would get samples from the Bussa Company, Minneapolis, of their gift parchments, dedicated to father, mother, sisters, brothers, sons, daughters, homes and sentimental subjects.

I think they would find sale in Glacier Park and I think we could get special ones for Glacier Park.

Would like to see line of samples with their prices.

MARCONI'S WIRELESS PHONE IS A SUCCESS

(By Associated Press.)

Rome, May 17.—Wireless telephone communication over a distance of 500 miles with apparatus of a strength of only three kilowatts has been achieved by William Marconi, the Italian inventor, he announced here upon his return from a cruise in the Atlantic and Mediterranean on board the yacht Tletral. Signor Marconi said he regarded it a greater success than those which have been attained in speaking with a stronger apparatus for a distance of 1,000 miles.

Another experiment carried out on board the Elctra was the use of a "radio gonometer," with the aid of which it was possible to navigate to Cape Finisterre during a heavy fog. Signor Marconi said the radio gonometer made it possible to approach within a short distance of the rocks without danger.

Dear Mr. Hill,

Mr. C. Herwin has written
me, very kindly offering to see that
some of my material is distributed.
I am grateful to you for your in-
terest.

I have no doubt of the ultimate
success of my camp. Someday
I hope to have my own building
at either Two Medicine or Many
Glacier, either on an Endowed

foundation or buying it outright
myself. Some day I want my
own Country day school, near
some city, and can then work
the two in together.

Please remember us very
kindly to Louis.

Thank you so much for your
interest.

Yours sincerely

Mr. H. A. Noble:

I dislike to trouble you, and trust you will overlook it. You will remember the three girls (the two Miss Thompson's and Miss Johnson) who I took down to you about a month ago and all of whom you kindly took care of.

This morning I got a phone message from Miss Perry. The Miss Thompson's have received notice and leave next Saturday the 12th, but Miss Johnson has not yet received notice. Miss Perry says on account of being a young girl she would much prefer that she leave the same time as the Thompson girls. I explained to her that as the Thompson girls were working in the accounting department, their notice was mailed from St. Paul but that Miss Johnson was working in the operating department and her order will come from Glacier Park. However, if it will be convenient for you to mail Miss Johnson her order so that she could leave next Saturday, it would be appreciated by all concerned; but I would not want you to go out of your way to do this.

Enclosed is itinerary of Mr. W. L. Mellon, who will move in private car "Washington" from Eaton's Ranch to Glacier Park and go on through to Bala, Ontario. He will spend six days in Glacier Park and will, I understand, have a party of six. His accommodations have been arranged for at the hotel by Mr. Noble.

Mr. W. L. Mellon is Chairman of the Board of the Gulf Refining Company and has a heavy interest in the Mellon Bank and Trust Companies, Pittsburgh, and is a cousin of A. W. Mellon, President of the Mellon Bank.

THE NOBLEST VIEW IN AMERICA--By Franklin K. Lane.

Now let us go up North again, into MONTANA. You are at GLACIER PARK. I have not seen all the grand places of the world; but if I were to be asked what one thing in nature had most impressed me, I would not say the Grand Canyon of the Colorado, overwhelming in majesty and inspiring as it is; but I would say that when you stand at the edge of ST. MARY'S LAKE IN GLACIER NATIONAL PARK, and look across and up to the two mountains--one named by the Indians "Going-to-the-Sun" and the other "Almost-a-Dog," you would find probably THE ONE THING ON THE NORTH AMERICAN CONTINENT that would inspire you most and make you feel most properly humble.
