GLACIER NATIONAL PARK

Location and Scenic Features:

Glacier National Park is a mountain region of marvelous scenic beauty, covering an area of over 1,500 square miles. The main range of the Rocky Mountains extends from north to south through the entire Park. There are over sixty living glaciers in the Park of which Blackfeet, Sperry, Sexton and Grinnell Glaciers are easily accessible. It contains over 250 mountain lakes of which Lake St. Mary, on the east, is one of the largest, being about 10 miles long. Trout abound in many of the lakes and streams and afford splendid fly fishing. It is located in Northwestern Montana on the main transcontinental line of the Great Northern Ry. Distance from St. Paul, 1101 miles, from Chicago, 1,532 miles, from Portland, 734 miles, from Seattle, 693 miles, from Spokane, 298 miles.

Glacier Park Station: (Eastern Entrance)

Glacier Park Station on the Great Northern Ry. is the Eastern and principal entrance to the Park and the gateway to Glacier Park Hotel, Two Medicine, Cut Bank, St. Mary, Going-to-the-Sun and Granite Park Chalets and to Many-Glacier Hotel. Through sleeping car service to Glacier Park is available from Chicago, St. Paul, Minneapolis, Kansas City, Spokane, Seattle, Tacoma, Portland and intermediate points via Burlington—Great Northern Ry.

THE GLACIER PARK HOTEL COMPANY, under concession from the United States Government, Department of Interior, owns and operates several hotels and chalets in the park as follows:

An attractive rest and recreation resort for the comfort and convenience of tourists entering and leaving the Park. 190 rooms, accommodations for over 400 people—electric lighted, steam heat, running water, rooms with private bath, cuisine and service of high order, plunge pool, shower baths, sun parlor, open camp fire in lobby, dancing in Japanese room every evening except Sunday. Large verandas face the main range of the Rocky Mountains. Saddle horse trip to Mt. Henry, Scenic Point and open country rides available and starting point for trips in Park.

Many-Glacier Hotel:

This is the principal focal point for many trail trips to points of interest.

Hotel Rates:

The hotel rates are American plan (including meals) per person per day.

Rates at Glacier Park Hotel and Many-Glacier Hotel \$6.50 per day for accommodations in rooms without bath. \$8.00, \$9.00 and \$10.00 per day with bath, based on two or more guests in a room. For exclusive use of a room with bath by one person \$1.00 per day higher is charged. Room use for any part of a day, without bath, \$1.00; with bath, \$2.00. Meal rate: Breakfast \$1.25, Lunch \$1.25, Dinner \$1.50.

Basis of Rates:

Hotel rates will be computed on the basis of \$1.25 for breakfast, \$1.25 for lunch and \$1.50 for dinner plus the lodging value which is \$2.50 and upward for lodging, according to class of accommodations; for instance—on the basis of \$6.50 per day one-half day consisting of lodging and breakfast would be \$3.75, viz.: \$2.50 for room and \$1.25 for breakfast. Similarly at \$8.00 per day, dinner, lodging and breakfast would be \$6.75, viz.: \$1.50 for dinner, \$4.00 for lodging and \$1.25 for breakfast. All fractions of a day will be figured on the unit of service basis, not by dividing the day rate into halves or quarters.

Chalet Rates:

Throughout Glacier National Park, distant from ten to eighteen miles from each other, the Glacier Park Hotel Company maintains and operates the following permanent Swiss Chalets or small hotels. Rates at chalets \$5.00 per day, American plan, viz.: \$1.00 for breakfast, \$1.25 for lunch, \$1.25 for dinner and \$1.50 for lodging. Rates are on basis of two or more guests in a room.

Each of these artistic chalet groups consist of rustic log or stone buildings, attractively grouped, in vicinity of a central structure used for a dining and lounging room. Most of the sleeping chalets have one or more attractive lounging rooms, equipped with large stone fireplaces. The camps have no rooms with bath but detached bath rooms are available at Two Medicine, St. Mary, Going-to-the-Sun and Many-Glacier Chalets. The service is plain and simple, the object of the management being to furnish clean, comfortable beds, plain food, well cooked, plenty of it, and served in family style. The chalets are unusually attractive and comfortable and those desiring a vacation of several weeks will find them very economical.

GENERAL INFORMATION.

What to Wear: As a rule tourists are inclined to carry too much in the way of baggage on trail trips. There are no conventionalities in Glacier Park—outing clothes are the rule and stout shoes are necessary, warm clothing is essential as it is generally cool in the mountains. For a week or two weeks' trip, either afoot or horseback, the following list is about all that is required:

- | | |
|---|--|
| <ul style="list-style-type: none"> 1 Suit of warm outing clothes. 1 Pair riding breeches or knickerbockers. 1 Sweater or wool jacket. 2 Suits of underwear, either heavy cotton or light weight woolen. 3 Pairs of wool socks. 1 Rubber blanket or rain coat, if on walking tour. Water proof slickers are furnished free with saddle horses. | <ul style="list-style-type: none"> 1 Pair stout lace shoes or hiking shoes. Do not use hob nails or calks in shoes or boots except on hiking trips, they are not necessary, are dangerous if Horseback Riding and are not allowed in Lobby or Dining Room of Hotels. 1 Pair canvas leggings, puttees or golf stockings. 2 Pair of cotton, wool or leather gloves. 1 Felt hat or cap. 1 Cloth dunnage bag. |
|---|--|

Women should have either stout shoes or walking boots and knickerbockers or riding breeches. All riding is western style—astride the saddle.

Do not wear low shoes or high heel shoes or thin silk stockings if riding or walking the trails. Haversacks or cloth dunnage bags can be purchased at Glacier Park. "Saddle" slickers are furnished free with all saddle horses. The slicker is always kept on the saddle ready for immediate use in case of rain. A pair of amber goggles is a good thing to protect one's eyes when on the glaciers or snow fields. The most comfortable footwear is heavy winter shoes or outing boots of soft leather. Wear heavy wool socks if doing much walking. If you cannot stand the wool next to the skin use light weight cotton socks and draw the wool ones over.

Its largest and most beautiful body of water, Waterton Lake, is about nine miles long, the south portion lying in Glacier Park and the north portion in Waterton Lakes Park. At the north or Canadian end of the lake, on the summit of a commanding promontory, flanked by Mt. Crandall on one side and Sofa Mountain on the other, is the site of the charming New Prince of Wales Hotel, the broad, high observation windows of which overlook the mountain-framed lake to the south, focusing on a marvelous panorama of mountains, lakes and forests.

Auto road, saddle horse trails and a new 250 passenger launch on the lake, link the two parks together with transportation facilities and the New Prince of Wales Hotel will provide modern and attractive comforts for tourists.

The Prince of Wales Hotel is of attractive Swiss type architecture with roomy lobby, clubby lounge room and a cheerful dining room on the ground floor and on the floors above are guest rooms, each with private bath. It is steam heated and electric lighted. The Prince of Wales Hotel will be conducted by the Canadian Rockies Hotel Company, closely affiliated with the Glacier Park Hotel Company, thus assuring for its guests the same high standard of excellence in American Plan hotel service as prevails at Many-Glacier and Glacier Park Hotels in Glacier National Park.

(See next page)

From the Prince of Wales Hotel saddle-horse and hiking trails lead in every direction to lovely streams and lakes where fishing is good; to lofty lookouts above charming lakes and waterfalls and to many points of interest and rare beauty deep in the Canadian Rockies of Waterton Lakes National Park. Cameron Lake, Bertha Lake, Wall Lake, Washboard Falls, the heights of Vimy Ridge and Sofa Mountain, Hell Roaring Canyon and Falls are but a few of the many objectives reached by trails of from a mile to fifteen miles in length through beautiful valleys and over awe-inspiring heights. There is a wealth of wild life in Waterton Park as there is in Glacier Park and it is not uncommon to see deer, elk, sheep, goat and bear along the trails. Saddle horses and guides will be available at the new hotel for these side trips. The saddle-horse service is supervised and the rates are approved by the Parks Department of the Dominion Government.

Lake Linnet, just over the knoll on which the new hotel is situated, is favored with a fine beach and the Canadian Parks Department has provided a bathing pavilion so that outdoor swimming may be enjoyed.

There are excellent golf facilities near the new hotel—a fine nine hole course, a club house with modern conveniences and suitable shelters on the course for players. A nominal fee is charged for use of the golf facilities which will be available to guests of the Prince of Wales Hotel.

Waterton Lake is accessible by saddle-horse trail from Going-to-the-Sun Chalets, Lake McDonald and Many-Glacier Hotel in Glacier National Park. A choice of two routes is offered from Many-Glacier; one via Swift Current Pass, Granite Park Chalets, Flattop Mountain and the Little Kootenai River and one via Red Gap Pass, Belly River and Indian Pass. The first route over Swift Current is a three day trip and the second route via Belly River is a two day trip. Service of horses and guides for these trips is provided by the Park Saddle Horse Company and meals and lodgings enroute are had at the North Circle Camps operated by the Park Saddle Horse Company. From Goathaunt Camp at the south end of Waterton Lake, trail riders will be transported to the Prince of Wales Hotel by launch. Rates for the saddle-horse trips to Waterton Lake will be based on the charges now made for trips of similar distances in Glacier Park and will vary according to the number of persons making the trips in one party. The launch rate on Waterton Lake will be \$1.50 for the round trip between Goathaunt Camp and the Prince of Wales Hotel.

The present plans are to open the Prince of Wales Hotel in July and with the opening of the hotel, automobile transportation will be inaugurated between Glacier Park Hotel, St. Mary Chalets and Many-Glacier Hotel and Waterton Lake over an extension of the Glacier Park Highway beyond the Canadian boundary to Cardston, Alberta, and from there west into Waterton Lakes Park, on the following time and rate schedules:
