Dean Russell Cooper
Folwell Hall
University of Minnesota
Minneapolis 14, Minnesota

Dear Russell:-

You should be back in the routine by now. I have, in any event, waited with this letter until now for that reason. I trust your trip was an enjoyable one for you as well as meaningful.

You have probably heard by now of my decision to accept the position at Bennington for next year. In many ways, I am, of course, sorry to leave Minnesota, my many friends and the spirit of true academic freedom which you have been very much responsible for insofar as my experience is concerned, but I am confident that the decision was a wise one.

Dean McConnell, you may know, asked to see me in May and suggested that I ought to consider remaining at Minnesota. He was very kind and liberal in his evaluation of my record and thought that there might well be a place for me on the permanent faculty in the future if I remained. There was, however, quite understandably no assurance of that. Furthermore, my conversations with Mr. Quigley and Mr. Anderson led me to see their preference for preserving the "no inbreeding" rule, a preference with which I agree. In the latter connection, I ought to state that I fully appreciate that their decision was not personal as to me. Both were overly generous in their letters of recommendation in my behalf and made it clear that there would be an opportunity for me to remain another year at an increase in salary. Furthermore, Mr. Quigley expressed his hope that I might rejoin the Minnesota faculty in the future after adding another veneer of another campus influence and I, of course, joined in that hope.

In view of these circumstances, therefore, I decided to investigate a number of offers that came my way. I narrowed the latter down to Roosevelt College, the London School of Economics which finally did not materialize on terms I could accept, and Bennington College. None of these offers, incidentally, was matched by Minnesota. I finally decided on Bennington after a visit and a number of pleasant chats with Fred Burkhardt, President, a Wisconsin man.

-page 2-

The Bennington position, you may be interested in knowing, is quite attractive. I am to teach two courses, meeting twice weekly. One, for beginners, is "Man and the State", similar to the "Fundamentals" I taught. The other is "Problems of Democracy" for advanced students. The classes are no larger than 25. I am also encouraged by long weekends to continue labor and political activities in the New York and New England areas if I wish. The school schedule calls for a two month summer vacation and three months in the winter for faculty while students gain work experience in a field of their study. An apartment on the campus is also being made available for me, which will be quite convenient, particularly since I plan soon to get married (You met Maggie in my apartment one evening). The salary is \$4500.

Well, there you have it. I trust you will understand my decision. It bears no reflection at all on Minnesota and my very stimulating and enjoyable experience there. I am especially grateful, Russell, to you. I will remember your very friendly and helpful cooperation and encouragement. It was through your efforts that I entered the academic profession and I shall always appreciate that. You have ~~also~~ also demonstrated to me the rare combination of good administration with deep appreciation of human personality, a very fine lesson for me. Permit me, therefore, to express my most profound respect for you and I trust that we shall in the not too distant future be able to make our friendship grow.

Cordially,

Max M. Kampelman

University of Minnesota
Minneapolis 14, Minnesota

Dear Mr. Anderson:-

Thank you very much for your letter of April 11 and the opportunity afforded me to continue as a teaching assistant. I am particularly appreciative of the confidence you and the Department have expressed in me and I look forward to further pleasant associations with you and the staff.

May I take the occasion too of again expressing my availability for any instructorship that may be available next year. I would be extremely grateful for your consideration if such a vacancy should arise.

Respectfully,

Max M. Kampelman

Gentlemen:

I would appreciate it if you would consider this letter to be my application for the position of teaching assistant during the two summer terms of 1946.

It is my plan to continue with my studies during the summer and an assistantship would go far toward defraying my tuition and living expenses for the period.

Respectfully,

Max M. Kampelman

William Anderson
Department of Political Science
University of Minnesota
Minneapolis 14, Minnesota

Dear Dr. Anderson:-

Since my recent letter, accepting a teaching assistant's position in the Department, I have been offered the opportunity of becoming an instructor in the Social Science study course under Dean Cooper and Dr. Kendall.

The challenge of that opportunity, my desire for classroom teaching and the advance in rank have led me, as you know, to accept the offer and look forward to the experience with anticipation.

Since the Social Science instructorship, however, will only call for the teaching of one class, four hours a week, I should still hope to keep my appointment as a half-time assistant, if that meets with the wishes of the Department and does not unduly deprive another student of an opportunity to comm with his studies.

I make the request, confident of my ability to maintain high standards and motivated by the fact that the added income would go far toward helping me meet expenses next year and continue my studies without interruption. I am also anxious to keep my identity as a member of the Department, for Political Science remains my primary field of interest.

I have also been informed that I shall be teaching Humanities during the two terms this summer and I, therefore, withdraw my application for part-time employment in the Department this summer.

May I, in conclusion and for your records, again note my availability in the event there should be a need to add an instructor in the Department next year for the teaching of a course or two.

Thank you again for your consideration and cooperation.

Respectfully yours,

Max M. Kampelman

Re: Your memorandum of February 10.

You will recall from our conversations that I am planning to be on the campus both terms this summer and am interested in teaching full time during that period.

1) Dean Cooper informs me that I am at present scheduled to teach two courses during the first term in the General Studies program. Should there be need for me in Political Science during the first term, however, it may be that a replacement for me can be found by Dean Cooper, for he knows of my primary interest in Political Science.

2) I am available and would prefer to teach full time in Political Science during the second term. I am not scheduled to teach any courses in General Studies during the second term.

I feel confident that I can teach any of the following courses being offered during the summer:

- 1,2,3- American Government (I assisted Mr. Christensen and have lectured in Mr. Kirkpatrick's class last summer.)
- 7- Comparative Government.
- 15- Elements (I am teaching Fundamentals and will teach 15 in Spring)
- 101-106- The Constitution (Public Law is one of my fields. I studied Constitutional Law in Law School.)
- 126, 127- Government and the Economic Order (Labor Law and the study of Industrial Regulations was one of my law fields.)
- 137- American Political Parties.
- 160, 161, 162- Theory (One of my fields. I have lectured in all three classes.)
- 180, 181, 182- International Law (One of my fields.)
- 184, 185- International Organization (One of my fields.)

3) With reference to my availability next year, you know of my desire to become a full time instructor in the Department. Dean Cooper has assured me a place in the General Studies Program which is of genuine satisfaction to me and would satisfy my needs if a full time appointment and regular teaching in Political Science can be arranged.

+ should be pleased to discuss any of the above with you or with a committee of the Department.

Thank you for your interest.

Department of Political Science
University of Minnesota
Minneapolis 14, Minnesota

Gentlemen:-

Will you kindly consider this letter to be my application for the renewal of my status as a teaching assistant in Political Science for the 1946-1947 school year. My original application blank is already on file.

I am submitting herewith for your examination copies of two recent studies I have made in connection with my graduate work in Political Science. The study of T.V.A. collective bargaining is now being considered for publication by the University of Minnesota Law Review and the study on international copyright has been submitted to the American Journal of International Law. I am at present also engaged in the writing of a chapter on the political, economic and sociological effects of famine for a forthcoming book on semi-starvation to be published by the Laboratory of Physiological Hygiene here at the university.

May I take the liberty as well of adding that I would welcome the opportunity, if the vacancy should be available, of gaining further experience next year as a part-time instructor in the Department. I have had the opportunity within the past months to appreciate that I enjoy teaching and I am confident of my ability to do so. The supplement in income will be particularly welcome to me at that time. You will be interested in knowing that in addition to my duties as an assistant this past quarter, I had the privilege of teaching a Business School course in "Labor and Socialist Movements" for one week.

Thank you very much for your consideration.

Respectfully,

Max M. Kampelman

THE CAMPUS FEDERALIST

KAMPLEMAN TO TALK TUES.

FADIMAN COILING

Clifton Fadiman, master of ceremonies of Information Please, will speak Friday, May 9 to highlight the close of a two-day World Affairs Conference at University of Minnesota.

Four forums on May 8 and 9 will set the groundwork for the concluding talks Friday evening Union Main Ballroom.

Fros and cons of the present world issues will be presented.

Sponsoring the World Affairs Conference are our chapter, the University YCA and University chapter AVC.

***** QUESTION OF THE WEEK?

Q. IS IT POSSIBLE TO DEVELOP A WORLD GOVERNMENT FROM THE UNITED NATIONS, USING ITS EXISTING MACHINERY?

A. Yes, The General Assembly of the UN can consider amendments to the charter at any time. It could propose revisions sufficient to change the charter into a true constitution.

The difficulty is that any one of five nations can veto any amendment and thus prevent its adoption.

Therefore, while the desired amendments could be proposed, it is improbable that they would be adopted unless an overwhelming majority agreed by some kind of "common consent" to violate the veto provisions of the charter.

KAMPLEMAN OPENS LECTURE SERIES

The first lecture in a series of four will be given by Mr. Kampleman of the university Political Science department. Room 345, 3 P.M., Tuesday, April 22.

This lecture series will trace the four phases of world politics. Mr. Kampleman's subject will be, "Why Government?"

April 29 Mr. Herbert McCloskey will speak on "Federalism - Its Purposes and Development". May 13 Mr. Alfred Burt presents "International Anarchy". May 23 Mr. Werner Levi talks on "International Government".

These are the A,B,C's of world government. Knowledge of them will provide depth to your knowledge, give added force to your expressions.

Take advantage of the lectures.

FIRST LECTURE--TUESDAY, ROOM 346, UNION 3 P.M.

NATIONAL HEADQUARTERS, located at World Government House, 31 East 74th St., New York 21, New York, has asked for funds from all its chapters.

Our chapter is pledged for \$100. The money is due as soon as the treasurer, "Sandy" Boyd, can send it in.

Dues for the chapter are \$1 per year, for Nat'l. \$1 per year. A total of \$2.

If your dues are way back yonder in arrears, help keep the record straight and put up.

Nat'l. needs \$10,000 to keep the World Government house going. With several hundred UWF chapters thruout the country--they need it.

ECONOMIC AND CULTURAL advantages accruing from the efficiency of a federal world government stagger the imagination.

This aspect of benefit from a world government needs much greater emphasis.

For, as Mortimer J. Adler has said, "A world government organized for a restricted aim of preventing or might come into being, but it could not long endure with so negative an aim. The functions of government must be positive and progressive."

Carlos P. Romulo (Philippine delegate to the UN, Nov. 16, 1946)

"As a spokesman for a small nation, I want to make it very plain that my nation for one--and I am sure I speak the sentiments of many more--would be very happy indeed to trade the fiction of equality in a powerless assembly for the reality of a vote equal to our actual position in the world in an Assembly endowed with real power..."

Atoms are the most democratic of elements. They hold this truth to be self-evident; "That all men may be cremated equal".

"THOSE who think and ACT have an influence far out of proportion to their numbers."

The above mouthful is the basis for the success of nearly every work that amounted to anything.

Everyone from the Communists to the disciples of Christ have realized there is no substitute for hard work.

"An hour a week for UWF"

PUT SHOW ON THE ROAD

"The task of bringing world federation seriously to the attention of the people is not an easy one."

"But it is one we will not shirk."

"We are expected to be leaders. We cannot rid ourselves of this responsibility in democracy and still hope for the benefits of a democracy."

"Merely being for world government is not enough."

"We must spread the realization that world government is a necessity to all the people."

---Chicago Federalist

2 1/2 BILLION PERFECT FITS

One of the beauties of the world government idea is its universal appeal.

Left, right center--every one who gives world government any thought at all realizes it is the best way out of this jungle world of power politics.

Harold Stassen says, "The world needed government on a world level before the atomic bomb--now it is imperative."

MEMORANDUM

February 11, 1948

TO: Dean Russell Cooper
FROM: Max M. Kampelman
RE: Faculty Filing for SPAN Project

This memorandum is to supplement our occasional conversations and officially notify you of my filing for a faculty position with the English SPAN group. You are, I know, aware of my interest in the undertaking since its origin last year and of my meetings with a number of the students whose efforts later produced the SPAN program.

My choice of England flows naturally from two sources. First, is my long time interest in the British Labor Party as such, arising out of my experience with the American labor movement prior to joining the University staff and my continued activity as a labor consultant in the community.

Second, is my interest as a political scientist, specializing in theory, in the problems and application of socialist planning within a democratic framework. A large part of the course I now teach in "Problems of Democracy" and a major part of the course I shall teach next quarter in "Recent Political Thought" have the problems of democratic planning and socialism as their core. The English experiment is basic to such an approach.

Recent articles of mine, in fact, relate in part to the British experience. I refer to my article on "TVA Labor Relations", a copy of which was recently requested by a member of the British Government for possible adaptation in England; and "Harold J. Laski: A Current Analysis", which will appear in the February issue of the Journal of Politics.

I find too that my doctoral dissertation on "The Political Philosophy of the CIO" requires a comparison with the activities of British trade unions in politics before adequate analysis is possible. It might well be wise for me, therefore, to postpone the completion of the thesis until after a trip to England and a more intimate understanding of that development is acquired than is afforded in the literature.

My associate membership on the Graduate School faculty and the responsibility placed on me by the Political Science Department this year to supervise the graduate study projects of students in political theory relate to the question of my adequacy as adviser and research supervisor to the students in the SPAN project.

Similarly, my intimate association as participant and director of the semi-starvation and rehabilitation nutritional experiment sponsored by the University, 1944-46, have given me an understanding of the problems facing a people recovering from war devastation.

With the above as broad background, there follows now a brief series of experience fact statements which bear upon this filing:

- 1) A.B. (1940-New York University); M.A. (1946-University of Minnesota); Ph.D. thesis now being prepared.
- 2) Attorney and member of the New York Bar; LL.B. (1945-New York University).
- 3) Staff member of the International Ladies Garment Workers Union (1941, 1942-New York). Chief duties were those of liaison with governmental agencies.
- 4) Labor Relations Consultant to Textile Workers Union, Minneapolis; labor education lecturer in Minnesota and Wisconsin on problems of democracy and related issues.
- 5) Faculty, University of Wisconsin School for Workers (summer of 1947).
- 6) Instructor and Associate Member of the Graduate School Faculty, University of Minnesota, Departments of Political Science and General Studies.
- 7) Publications: "TVA Labor Relations" in Minnesota Law Review, April 1946; "The United States and International Law" in The American Journal of International Law, April 1947; "The U.S. Conciliation Service" in Minnesota Law Review, June 1947; and "Harold J. Laski: A Current Analysis" in Journal of Politics, February 1948.

If there are other questions not answered in the above brief account which you or other members of the committee haven't please do not hesitate to call on me. Dr. Quigley informs me that he has already, at his own initiative, expressed his views to you as to the desirability of my becoming part of the SPAN project.

Sincerely,

Max M. Kampelman

NOTES

Explanation: The Shevlin Fellowships yield \$500 annually; the Albert Howard Scholarship \$240; and the Caleb Dorr Fellowships \$500. The Clara H. Ueland Memorial Fellowship at \$400 is open to graduate women whose interests are in politics and government. The Grace Ellis Ford Fellowship of the Minneapolis College Women's Club and the Fellowship of the Minnesota State Division of the American Association of University Women, each carrying a stipend of \$750, are open in alternate years to graduate women without restriction as to major field. These fellowships carry exemption from tuition and entail no service.

The Teaching Assistantships yield from \$332 to \$1,328 for the academic year depending upon the per cent of full-time service given. All fellows, scholars, and assistants giving 25 per cent or more of full-time service to the University when regularly enrolled as students in the Graduate School shall not be required to pay tuition fees. This does not apply to commercial fellowships. These appointments are available for the academic year only, with stipends paid only in the academic year and not in the summer session.

For information about other fellowships, see the Graduate School announcement of fellowships and assistantships, or consult the department.

(Questions 12, 13, and 15.) A complete official transcript or statement of undergraduate work done and any graduate credits earned, with record of degree or degrees, certified by the proper officer, must accompany this application.

(Question 19.) A reading knowledge of a language here designates such a knowledge as will enable the student to make use of books written in that language relating to the subject in which he seeks an assistantship or fellowship.

(Question 24.) Original papers and other records of original work constitute the important evidence of the applicant's attainments, and should accompany the application.

Personal letters addressed directly to the Dean or to the head of the department concerned by persons cognizant of the applicant's merits will be considered confidential, and the applicant will not be acquainted with their contents.

Remarks and supplementary information, if any, may be appended to this sheet.

At least three letters of recommendation from persons under whom you have worked and from others who know you or your work well must be in the hands of the Graduate School or the department soon after this application is filed. It is your responsibility to see to it that these letters are sent directly to the University in time to become a part of this application. Dear Mr. Kampelman:

In a large lecture class it isn't always possible for a student to show the instructor his appreciation. I was in your Political Science class 9f and 10w, and I want to tell you that I enjoyed the course very much, as well as your teaching.

The subject matter was well selected, and I feel that your course has made a deeper impression on me than any other course I have taken at the University. Your lectures were always interesting, entertaining, and informative, and I would never skip them if I could possibly help it.

I liked your program of bringing in guest speakers, I feel that should be done in more U. classes. I also felt your tests were thorough but very fair, and your grading system ok, too.

I just thought you might like to know that most of ~~the~~ ^{your} class feels the same as I do, and that we'd all like to have you as a teacher in some other class again.

Sincerely,

A student.

Dear Mr. Kampelman:

Dean Cooper was good enough to let me see the letter to you from a student in one of your classes expressing appreciation of your teaching. The letter is certainly a sincere compliment, and I think you may well take great satisfaction from it.

Professor William Anderson is chairman of a committee that is working on means of appraising the teaching ability of members of the staff. I hope that some feasible means of evaluation may be suggested by his committee. If we could get systematic information about teaching, it would probably do more than any one thing to give it its proper influence on promotions and salary increases.

Sincerely yours,

Dear Mr. Kampelman:

I am very much pleased to have copies of your excellent articles on "The United States Conciliation Service" and "The United States and International Copyright." You have a gift for succinct statement and I was particularly struck by two lines in the articles. One was your closing statement on international copyright that "the equity of one age becomes the law of the next." The other was the final paragraph in your analysis of the Conciliation Service.

With my thanks and congratulations to you, I am

Dear Max:

I deeply appreciate your generous letter of June 28. I was sorry to miss seeing you before you left Minnesota. I well remember the first time you came into my office at the Public Administration Center during the days of the semi-starvation diet investigation. You more than justified any aid and encouragement which I was able to give you then and later.

Congratulations upon the position at Bennington College. It sounds interesting indeed. Certainly you are unusually well qualified to give the course mentioned. The salary, residence accommodations and winter recess add to the attractiveness of the position and I am sure you will get along well with the caliber of young women I understand are admitted to Bennington.

I trust you are having an interesting time at the Wisconsin School for Workers. With best wishes for the future, I am

Dear Mr. Kampelman:

I appreciate your thoughtfulness in sending me the two reprints that were enclosed in your letter of December 12th. It is encouraging indeed to find a younger member of the staff engaging in an active program of research and publication. I shall read these articles at the earliest opportunity.

I am glad to have a summary of your training and experience. I should think that your academic and non-academic activities would both be useful in your future professional responsibilities.

Some time I should like to have an opportunity to talk to you about the teaching you have been doing here and your reactions to some of the problems of general education, as well as departmental planning, in which you are interested.

March 11, 1947

To: Teaching Assistants and Part-time Instructors
Department of Political Science

A departmental committee will start soon to consider applications for teaching assistantships for 1947-48. All members of the present staff who wish to be considered for appointment for next year should submit a written note to that effect not later than Monday, March 17th. If your application is not on file, it should be submitted by that date on the regular Graduate School form, together with supporting documents.

There will be a few part-time instructorships, but at this time we cannot say how many, or for what courses. It is our hope to give each one who is appointed to a teaching assistantship some opportunity to instruct a class during the year, but this may not be possible in all cases. We hope that you will understand that one who has a part-time instructorship for a quarter or more is not being demoted when he is returned to the basis of teaching assistant.

Very truly yours,

To: Instructors and Teaching Assistants
From: Professor William Anderson

This note is being sent to the part-time instructors and teaching assistants in the Department who have had more than one quarter of experience. I have been talking with Janice Christensen about recruiting several part-time instructors and some teaching assistants for the two terms of the Summer Session. The number of positions to be filled is not as large as in the regular quarter, and it may not be possible to give appointment to each one who desires it. If you are interested in acting either as a teaching assistant or as a part-time instructor in the Summer Session of 1947, please let me know about your availability, and let me have the following information in writing: (1) In which term would you be most interested in helping? The first term runs from June 16th to July 25th, and the second term from July 28th to August 29th; (2) in connection with which of the larger courses do you feel most competent to render assistance? (3) Which of the beginning and intermediate courses do you feel most competent to handle as an instructor? (4) If you are interested in serving both terms, and will be available, please so indicate, but also state your choice of terms if you can be appointed for only one term.

The Department will soon be making up its list of assistants and part-time instructors for the academic year 1947-48. If you wish to be considered for appointment for that year, please let me know in writing. If there has been any change in your status in any way, so that the information upon your former application is not complete or correct, please supply the additional information.

SUPPLEMENTARY STATEMENT

(A) The study, "The Political Philosophy of the C.I.O." is proposed to be an analysis of that organization's political theories, if there are any, their consistency, their effectiveness and their relation to the problems of a democratic society. It was stimulated by Adolf Sturathal's book, The Tragedy of European Labor, and may very well, therefore, have an orientation similar to the one of that significant work.

I am proposing, in connection with my study, to spend part of the coming summer in Washington, D.C., the home of the C.I.O. and the headquarters of its Political Action Committee, to examine the political, legislative, and legal files to be found there. I have been in communication with Mr. Merritt May, Director of the C.I.O.'s Department of Education and Research, and have assurance of his cooperation.

My plans also call for travel to New York, Detroit and Chicago for a study of regional C.I.O. political activity. I also hope to spend time at the offices of the United Automobile Workers in Detroit, the Textile Workers Union in New York and the United Electrical, Radio and Machine Workers Union in Washington to observe possible differences in political ideologies as expressed through "right wing" and "left wing" unions. I am acquainted with a number of people in the respective unions whose cooperation I can depend upon. Such a regional and specific union study is helpful for a more complete picture of the C.I.O.'s political philosophy.

I have estimated that three months will be sufficient time for me to visit the unions and examine their records. Since it will not be difficult for me to obtain a leave of absence from the University of Minnesota for the three summer months, June 15 to September 15 is the time I have chosen. Before that time and after that date, I shall be on the campus of the University in connection with my duties as an instructor and plan to utilize my time then to do most of my writing and research in books and periodicals. If the three month period should turn out to be too short, it will be necessary for me to do intermittent travelling during short vacation periods during the academic year.

SUPPLEMENTARY STATEMENT

Mr. Max M. Kampelman
Rm 200 Nicholson Hall
University of Minnesota

Dear Mr. Kampelman:

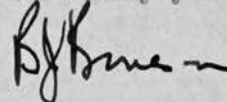

On January 22, 1948, Student Fellowship of Reconciliation was recognized by the Senate Committee on Student Affairs as an official student organization. At the time your name was presented by the organization and approved by the Committee as advisor. Your cooperation and services to a student group are sincerely appreciated.

As advisor to this group, you may have some of the following functions to perform:

- (1) To assist and guide the organization in attaining the purpose for which it was organized;
- (2) To assist the organization in developing a sense of responsibility for the welfare of the group as well as individuals within the group;
- (3) To suggest program ideas for the achieving of the broader objectives;
- (4) To aid in maintaining an adequate organization budget;
- (5) To serve on occasion as liaison officer between the faculty and administration and the student organization;
- (6) To interpret the University to the group and the group to the University;
- (7) To aid students in learning certain mechanics of group organization--parliamentary law, committee organization, etc.;
- (8) To aid the group in its selection of student leadership;
- (9) To provide continuity over a period of time;
- (10) To aid the group each year in re-establishing the program plans of the campus as a whole.

You may or may not be called upon to fulfill these functions listed above. At times you may find it necessary to assume more responsibility than at other times. Should you have questions regarding student activities, please contact the Student Activities Bureau, the Dean of Students, or the Senate Committee on Student Affairs.
