I have thought proper to place Company B,
under the command of Lt Denny. You will
remain behind, considering yourself on furlough
until we return. I will explain my reasons
for this measure when time & opportunity offers.

Literal translation of a speech delivered
by the Strong Earth, a Chief of the
Sandy Lake Indians of the Chippewa
Nation to Col J. Snelling on the 30th of May 1827
Father.

You know that two summers ago, we
attended a Great Council at Prairie
des Chiens, where by the advice of our
white friends, we made a peace with
the Sioux. We were then told that
the Americans would guarantee our
safety under your flag. We came here
under that assurance; But Father looks
at your floor, it is stained with the

blood of my people, shed under your walls.
I look up & see your flag over us.

If you are a great & powerful people
why do you not protect us? If not, of
what use are all these soldiers?

Literal as translated. Lt Taliaferro Asst

I have the honour to report that a number
of guns were heard immediately after
our arrival here, and some Indians have
been seen. Lt Minn was dispatched

none, but he complains that his sight is
bad. Wendal of B company who detached
himself accidentally, reports that he saw
five. Platt saw two. In making
my examination about the house I find
that a Bee-hive has been knocked
down, & a window of an out house opened,
nothing more. I have the honour to be

Detachment Orders. St Crawford July 27th 1827

The present state of affairs renders it ne-
cessary that decisive steps should be taken with
the vagrant Indians who infest this neighbour-
hood. Half breeds not claiming citizen-
ship, & Indian women of any grade or colour
not having husbands, will depart in 24 hours
on pain of military execution. The command-
ing officer is fully aware of the responsibility
he incurs, and will always be ready to answer
for it before a competent tribunal; but he
will not suffer spies to be smuggled into
his camp under the petticoats of a stumpet.

No interference will be allowed with the
Civil law, and a strict obedience is com-
manded to the warrants of the magistrates.
But vagrant Indians, either whole, or half
breeds, must leave the Prairie. Certificates
of marriage will be required of those females
who are permitted to remain.

Reg Orders

August 6th 1827

On the arrival of the boats at the Prairie
on which Wabasha's village is situated & at a
place which will be indicated by the Colonel,
the Lt Infantry under Lt Penny, with Lt
Jameson as second officer will land & march
in file towards the village, keeping as near
as possible parallel to the boats. An advan-
ced guard to be detailed from Lt Lowe's company
of one Corporal & three privates, will move
two hundred yards in front of the Light
Infantry. They will not attempt conceal-
ment, but go directly to the village by the
common path, and inform Wabasha or
any of his chiefs who may be present, that
although we approach in force, we have
no hostile intentions. Our only object is
to return to St Peters unmolested.

If the advance should be fired on, or
made prisoners, Lt Penny will form
his company in line in extended order

and fire advancing towards the village.
The other three companies will immediately land & support him. They will form line in extended order, & whatever may be the casualties, they will advance to the houses in the village. Arrangements have been made to fire them, & it is expressly enjoined on the officers & men to give no quarter, but to women & children whose persons should always be sacred in the eyes of an American soldier.

Once engaged in this enterprise, courage is safety, and the misconduct of one individual may produce a panic in the whole line. It is therefore enjoined upon every officer to put to death any man who quits his rank, or attempts to escape from his duty.

Seven years ago you were transferred by mutual consent with Maj. Sparabee to this Corps. I was advised at the time by Genl Atkinson that it was his last hope of reforming your habits. How far you have met his expectations, is best known to yourself.

I have connived at your derelictions from duty too long. On an important expedition you have allowed the command of your company to be taken from you, when danger & honour should have been courted, & given to your 2^d Lt without even asking the reason why. Always satisfied if you had free access to the whiskey bottle. In truth & candour you are no longer fit for the station you hold, & I am obliged to offer you this alternative. Resign with a years furlough, or, stand a trial. with respect
