Three (3) cents per 100 lbs. for delivery from siding to bins at Post.

Contracts and bonds will be sent you for execution as soon as written up. You will honor and fill promptly all calls made by post Quartermaster, as deliveries are to commence on July 1st, 1908.

A bond in the sum of \$ 825.00 will be required of you on the above mentioned contract, and will be prepared for execution by surety company.

Respectfully,

Deputy Quartermaster General, U.S. Army,
Chief Quartermaster.

April 25, 1908.

The Quartermaster,
Fort Assinniboine, Montana.

Sir:-

I enclose, herewith, copies of awards of contracts for fuel, forage and straw for your post, with the information that pending a decision by the Quartermaster General, requisition for fuel in addition to that on hand June 30, 1908, will not be made beyond the actual requirements for the months of July, August and September, 1908. X

Copies of contracts will be furnished you as soon as originals are executed and approved.

With a view to securing uniformity in the system of keeping accounts of fuel, forage and straw, as outlined in paragraphs 108-120, Q.M.G.O. Circular No. 1, 1908, and to obviate the necessity for changes in Post Allotment Record (Form 138), "calls" on contractors will be considered as requisitions in letter form and must be numbered as required by paragraph 13e, and rendered to this office in duplicate.

In making these requisitions, care must be taken to call for such quantities as can be delivered in carload lots, the excess of delivery, if any, not to be included in credit transfers (Form 141) or vouchers, but be credited to subsequent requisitions, and on making final requisitions, or where requisition is made for the entire quantity of the contract, contractors should be cautioned not to exceed the quantities called for, as such excess can neither be received nor paid for.

Application for an increase of fuel, forage and straw, over the allotment, must be accompanied by a detailed statement showing the number of officers, enlisted men, civilians, fires, quoting authority for extra fires, public and private animals, the period to be covered, the quantity on hand and remaining due on requisitions.

Respectfully,

14034.

Headqrs. Department of Dakota,
Office Chief Quartermaster,
St. Paul, Minn., Oct. 12, 1906.

MEMORANDUM for the Military
Secretary, Department of Dakota.

61 horses for 2nd Cavalry were ordered shipped to Ft. Assiniboine, Mont. October 3rd, 1906, from St. Louis, Mo.

From the within telegram, it appears that 11 horses only are required for completing mounts of Band and Troops, 2nd Cav'y, at Ft. Assiniboine, which will have a surplus of 50 horses to be cared for.

Horses for the platoon detachment are the horses assigned each trooper from the troop horses to which each man of the platoon detachment belongs, hence no additional horses for mounting this detachment will be required.

Fourteen mules (4 draft and 10 pack) will be needed for the detachment, as per G.O. #113, c.s. War Dep't, as amended by Par. III. G.O. #136 c.s. W.D.

In view of the foregoing, it is suggested that this matter be taken up by your office with a view of diverting the shipment of 50 of the 61 horses ordered, if, in your opinion, this action should be to the best interest of the service.

WAR DEPARTMENT,
OFFICE OF THE QUARTERMASTER GENERAL,

To the Chief Quartermaster,
Department of Dakota,
St. Paul, Minnesota.

(212447)

August 19, 1905.

Sir:

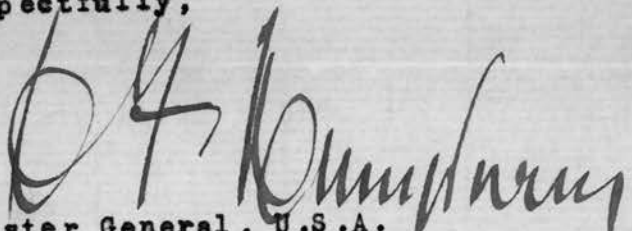

Referring to your letter of the 14th instant, you are informed that when an extension is granted on contract and it becomes necessary for the Government to incur expense in addition to that which was necessary had the contract been completed within the prescribed time, such additional expense should be borne by the contractor, and he be so informed at the time the extension is granted.

In the case of the civil engineer whose services are held for the express purpose of inspecting work in connection with the given contract, it is manifest that, had this contract been completed within the prescribed time, his services might have been dispensed with. If, however, the contract has to be extended, the requirements of the auditor necessitate certification to the effect that no loss has been incurred by the Government in thus approving an extension.

In this case it appears that the services of Mr. Edmondstone are required exclusively for inspection work on this contract, and that his salary should be reimbursed to the Government by the contractor, unless it be that the delay in completion of contract was due to causes over which the Government has control.

Action will be taken accordingly.

Sir:

I have the honor to request that Mr. Gus Meyers, when placed on the list of eligibles, be appointed plumber at this post at a salary of \$100.00 per month. He has been foreman plumber during the work of installation of the entire system, and is familiar with all the details necessary for the most efficient work in repairs and estimates for the necessary material without wasteful accumulation of unnecessary parts. He is not willing to accept a permanent place at less than \$100.00 per month, and as there are over 850 sets of plumbing fixtures to care for it will take a very skillful and rapid worker to keep them in order, owing to unavoidable accidents, by freezing, and carelessness of servants.

Mr. Meyers is an A #1 Plumber, sober and industrious, and will be well worth the pay asked for.

Very respectfully,

J. B. McDonald,

Captain & Qr. Mr. 3rd Cav'y,
