April 25, 1908.

The Quartermaster,
Fort William Henry Harrison, Montana.

Sir:-

I enclose, herewith, copies of awards of contracts for fuel, forage and straw for your post, with the information that pending a decision by the Quartermaster General, requisition for fuel in addition to that on hand June 30, 1908, will not be made beyond the actual requirements for the months of July, August and September, 1908.

Copies of contracts will be furnished you as soon as originals are executed and approved.

With a view to securing uniformity in the system of keeping accounts of fuel, forage and straw, as outlined in paragraphs 108-120, Q.M.G.O., Circular No. 1, 1908, and to obviate the necessity for changes in Post Allotment Record (Form 138), "calls" on contractors will be considered as requisitions in letter form and must be numbered as required by paragraph 13e, and rendered to this office in duplicate.

In making these requisitions, care must be taken to call for such quantities as can be delivered in carload lots, the excess of delivery, if any, not to be included in credit transfers (Form 141) or vouchers, but be credited to subsequent requisitions, and on making final requisitions, or where requisition is made for the entire quantity of the contract, contractors should be cautioned not to exceed the quantities called for, as such excess can neither be received nor paid for.

Application for an increase of fuel, forage and straw, over the allotment, must be accompanied by a detailed statement showing the number of officers, enlisted men, civilians, fires, quoting authority for extra fires, public and private animals, the period to be covered, the quantity on hand and remaining due on requisitions.

Your attention is invited to the fact that the equivalent of the Youghiogheny coal awarded your post is 1663 pounds, and care must be taken in its use.

Respectfully,

Deputy Quartermaster General, U.S. Army,
Chief Quartermaster.
