Sir:-

I have the honor to acknowledge the receipt of letter from the Commanding Officer, Fort Assinniboine, Montana, of the 24th ultimo, recommending - in view of the minor operations of war now required under General Orders No. 53, A. G. O., 1896 - that the allowance of blank ammunition be increased two thousand rounds per organization serving at that post, forwarded by your endorsement of the 7th instant, and in reply to state that the Secretary of War concurs in the views of the Acting Chief of Ordnance, U.S. Army, on the subject, which are as follows:

"This Department has so far no accumulation of the .30 calibre blanks on hand, and it is thought that until there is a larger reserve in store of the Ball cartridges, it would be inadvisable to increase the production of blanks. No increase is, therefore, recommended in the allowance of blank cartridges during the present calendar year."

Washington, D.C.

Dear Sir:-

While we have and have had for some years telephone lines crossing the reservation, I am advised by our legal department that we have not secured a regular license from the Government to make this crossing. We are, of course, giving service to the Post.

I would be very much indebted if you would put me in the way of securing a regular license to maintain the above mentioned line.

1st Endorsement.

Respectfully forwarded to the Military Secretary, Department of Dakota, St. Paul, Minn.

The only line now "crossing the reservation" is the post connection with Miles City, Montana, a distance of some two miles, but it is understood that this Company contemplated extending its line to Billings, Montana, which would necessitate crossing the reservation.

No local objection to granting such a permit is known to exist.

Sir:-

In reply to your communication of the 14th inst. I have the honor to enclose herewith affidavit of Post Q. M. Sergt. Oli Brockley, A. S. Army, to the effect that the transit received back from your office on August 6th, 1906, after being repaired, was shipped to the Quartermaster, at Fort Wm. H. Harrison, Mont., just as it was received, i.e., without having been opened. There is no record on file in this office showing the number of the transit originally received, with the exception of the letter to your office of June 23rd, 1906, asking authority to have transit #6431 forwarded for repair. Mr. Edmondstone's transit was received at the post on July 5th, prior to the shipment of the government transit on July 19th, 1906. If a change was made it was effected between those dates, and if Mr. Edmondstone has transit # 5060 the matter can be adjusted at Fort Harrison as one instrument is at that post and the other at Helena.

I enclose herewith memorandum receipt of 1st Lieut. Wm. M. Cooley^E, 6th Cavalry, for one (1) triangle (6 7/8"). Lieut Cooley reported the loss of this triangle on the morning of his departure^{from} the post enroute to the Philippines and requested that the cost price be charged against him. The matter had been temporarily overlooked until your letter recalled it.

The other items will be expressed as soon as packed.
