INSTRUCTIONS.

The charges and data, as called for on pages 1 and 2 of this form, will be prepared in duplicate by the officer preferring the charges—one copy for completion as the record of trial, and the other as the copy for the company records, the latter to be certified to be "a true copy" by the commanding officer or adjutant.

Each case will be given a serial number in the order of trial, *by the trial officer*, and bound in its numerical order in a book of convenient size, each case, when completed, being added to the book by pasting or other method. Paper binding will be sufficient, a good quality of tough paper being used for this purpose.

Charges will be accompanied by the certified copies of previous convictions on file with the company records. If the charges be referred to the summary court for trial, the copies will be returned to the company records immediately after trial. If the charges be referred to a garrison or regimental court-martial (this form being used as a charge sheet), the copies of previous convictions will accompany them, but will be returned to the company records immediately after trial. When the copies of previous convictions accompany charges referred to a general court-martial for trial, they will be returned to the company records immediately after trial, and copies thereof, made and certified by the judge-advocate, will be attached to the record of trial.

If the only officer present with command sits as summary court, no approval of sentence is required, but he will sign the sentence as such officer and affix the date of signature.

This form is printed in copying ink, and when filled in on the typewriter, a copyable ribbon will be used.
