DEAN E. G. WILLIAMSON—Presentation of Awards

Chimes-Junior Women's Honorary

Award of Recognition

Order of the Gopher

Order of the North Star

"Hail! Minnesota"

Dance-Les Williams' Orchestra, Terrace and Main Ballroom

#### HAIL! MINNESOTA

Minnesota, hail to thee!

Hail to thee, our college dear!

Thy lights shall ever be
A beacon bright and clear

Thy sons and daughters true

Will proclaim thee near and far

They will guard thy fame and adore thy name,

Thou shalt be their Northern Star.

Like the stream that bends to sea,
Like the pine that seeks the blue;
Minnesota, still for thee
Thy sons are strong and true.
From thy woods and waters fair,
From thy prairies waving far,
At thy call they throng with their shout and song
Hailing thee their Northern Star.

-Truman Rickard, '04

# WOMEN'S **OPPORTINITY** WRRK

SPONSORED BY

Associated Women Students

University of Minnesota

COFFMAN MEMORIAL UNION

April 12, 13, and 14 Rooms 333, 334 and 335

WEDNESDAY

# Women's Greed

I believe in the women of the University: in their ideals and sincerity of purpose.

Because I am one of them I will strive to be open minded and charitable.

I will be honest with myself. For then it follows that I will be honest in my class work and with other people.

I will support the activities of my University in the spirit of service.

I will remember that I am here primarily to study and learn to think.

I will take time for friendships and pleasure in simple things.

I will broaden my sympathy and interests to include the life which is outside the campus.

Above all I will make my standards such that I would be willing to have every woman on the campus adopt them as hers.

#### WEDNESDAY, APRIL 12

"The Challenge to Women in the Business World" talk by

Municipal Judge Betty W. Washburn

7:30 Wednesday evening in the

#### Women's Lounge, Coffman Memorial Union

Judge Washburn araduated from the University of Indiana, majoring in the fields of Sociology and Psychology. She graduated Phi Beta Kappa. After graduating from the University of Minnesota Law School in 1943, she practised her work for four years with the Minneapolis firm of Dorsey, Coleman, Barker, Scott, and Barber. Her major interests in work and outside activities have been three-fold. The first is the problem of the aged. She was chairman of a committee studying this problem for the Family and Children's Service of Minneapolis. She is now a member of that agency's Board of Directors. Her second field is that of the mentally ill, including alcoholics. In regard to this, she is a member of the Governor's Citizens' Committee for Mental Health. The third area is the treatment of sex criminals and the revision of the Minnesota Psychopathic Personality Law under which sex offenders are committed to state institutions. Judge Washburn was appointed Municipal Judge in January of this year, and in her work, she hears traffic suits, police suits, and civil suits to \$1,000. She is the first woman Municipal Court Judge in the history of Minneapolis. Her father, brother, and husband all practised law.

S

THURSDAY, APRIL 13-Rooms 333, 334 and 335

10:00 Journalism

Miriam Alburn: Women's Editor of the Minneapolis Star and Tribune.

Miss Alburn has had varied experience in the field of Journalism. She graduated from Vassar College and from there went to work as a reporter for the Toledo, Ohio News-Bee. She was assistant Women's Editor for the Detroit News. During the war she was a SPARS public relations officer for the Coast Guard. When she came to Minneapolis, she was a reporter for the Minneapolis Tribune until she took her present position with the Star and Tribune.

11:00 Radio

Betty Girling: Director of Minnesota School of the Air at KUOM.

Miss Girling worked on her administrative fellowship here at the University while getting her B. A. in speech. She was program director at KUOM for five years. When Mr. Ziebarth left KUOM to go to WCCO, Miss Girling took over as director of the School of the Air in 1946.

## 1:00 Education

Emma Birkmaier: Department Head of Foreign Languages at U. High School.

Miss Birkmaier is an Assistant Professor of Education who is well acquainted with various phases of her field. In addition to her position at the University High School, she is the Chairman of the Curriculum Committee at that school, National Secretary of the Association of Teachers of German, and the Chairman of the Methodology Section for the National Association of Teachers of Russian and Slavic Languages.

# 2:00 Marriage

Mrs. Dorothy Dyer: Assistant Professor of General Studies and senior student counselor.

Mrs. Dyer is well known throughout the career conference field having spoken at most of the universities throughout the nation. Besides raising a family of three children, Mrs. Dyer has had much training and experience in the field of marriage. She was a Vocational and Academic Counseling Assistant to the Junicr Dean at Ohio State University. She was Dean of Women and an Assistant Professor of Psychology at Bucknell University. She taught a marriage course at Oregon State College. Mrs. Dyer has also worked with the YWCA in St. Paul for three years.

## 3:00 Volunteer Work

Marilyn Barnett: Director of the Volunteer Service Bureau of Hennepin County

Miss Barnett is well qualified to speak on Volunteer Work as she has been both Secretary and Director of the Volunteer Service Bureau. She graduated from the University of Minnesota in business and psychology. While here she was an active member of the Associated Women Students and took part in several governing councils. Before going to the Volunteer Service Bureau, Miss Barnett did personnel work at a manufacturing plant and at the L. S. Donaldson Company.

# 4:00 Coffee Hour

in room 333 honoring the guest speakers.

20

FRIDAY, APRIL 14, 1950 - Rooms 333, 334, and 335

10:00 Art Evelyn Raymond. Well known Minneapolis artist.

Miss Raymond is a very well known artist and is past president of the Minnesota Sculptors Group. She was in charge of the first Northwest Outdoor Art Exhibit this past summer. Some of her works are bas-relief for the front of the International Falls High School and for the Church of the Good Shepherd at 48th and France here in Minneapolis.

# 11:00 Retail Selling

Mrs. Elsa Ne'son: Director of Dayton's Training Program.

Mrs. Nelson has been employed at Dayton's for eight years. During this time she has served as personnel representative of several floors and as head of the training program. She left the store for six months in 1948 to serve as Assistant Fashion Coordinator at Marshall Fields. She is a graduate of South Dakota State College and has a B.S. degree in Home Economics.

## 1:00 Dietetics

Mary Kimball: Head of the Food Technology Section of the Pillsbury Research and Development Laboratory.

Miss Kimball is now in the field of home economists in business. In the past, however, she has had experience in other phases of this field. She graduated from Montana State University where she was on Mortar Board and was Panhellenic president. She taught home economics in high school in Montana. Miss Kimball was Home Service Advisor for the Montana Power Company. She took the National Restaurant Association course in management at Richard's Treat in Minneapolis. Her graduate work was done at the University of Minnesota and she supervised the Food Processing Laboratory on the Farm Campus.

## 2:00 Politics

Mrs. Elizabeth Hefflefinger: Republican National Committee Woman for Minnesota.

Mrs. Heffelfinger visited behind the ron Caurtain twice in Czechoslovakia as a guest of her son and daughter-in-law, Mr. and Mrs. Richard Clark. Mr. Clark is editor in charge of Eastern Europe for the United Press. Mrs. Hefflefinger has traveled extensively and has been a prominent woman in politics for about fifteen years.

# 3:00 Nursing

Miss Katharine Densford: Director and Professor of the University of Minnesota School of Nursing.

Miss Densford has had wide experience in the field of nursing. In her long and brilliant career she has been a grade and high school teacher, a public health nurse, supervisor of nurses at a tuberculosis sanitorium and has held various positions in the training field. During World War II, she was chairman of the Minnesota Nursing Council for War Service and a member of the national association of the same name. She has been on many other national and local committees and boards. Miss Densford has also collaborated on the writing of several books and has published many articles on nursing education.

# 4:00 Coffee Hour

honoring British Educator Miss Betty Collins and guest speakers.

Miss Collins is a well known English educator who has worked for several years with German students at the Student's Center in Frieberg, Germany. She has a B. A. from the University of Birmingham, England, and she has a M.A. with honors from several French Universities. She will speak on the career aspects of German University life.

chairman of Women's Opportunity Week, is also the newly elected president of Associated Women Students. A transfer student from Ripon College, Katie has become well known as a leader in many campus activities this year. She is a member of the Varsity Debate Squad, an orientation worker and the Human Relations Chairman of Panhellenic.

#### CONFERENCE PURPOSE

The Associated Women Students of the University of Minnesota have prepared a career conference for you. The purpose of the program is to provide you with a tangible record of the opportunities open to you, not only in the careers in the business world, but also in service to the community and country. To put the whole thing on a practicable basis we plan to give you the actual chance to meet and make applications with future employers and service agencies.

#### MEETING THE SPEAKERS

All phases of this conference have been provided for you free of charge and you are perfectly welcome to take advantage of this contact with the speakers and engage them in a discussion after the scheduled meeting.

#### CLASS EXCUSES

For your convenience, class excuses may be obtained from an usher and signed at the desk at the rear of the room as you leave the meeting.

#### YOUR ORGANIZATION

What is the organization that sponsored Women's Opportunity Week?

The name of the organization is the Associated Women Students.

Who are its members?

All women students upon registration at the University of Minnesota shall be members of this association.

What is the purpose of the organization?

The purpose of this organization shall be:

- a. To create a sense of unity and fellowship among the women.
- b. To promote and maintain the highest standards of university life.
- c. To regulate all matters of student conduct not falling under the jurisdiction of the faculty, together with those which may be referred to it by the faculty.

- . . . That's the organization but are you an active member? AWS is reorganizing and expanding to fit your needs. To do this we need your cooperation and help. For your information we are listing some of our activities. If you're interested come up and see us in 227 Union.
- Women's Opportunity Week—α women's career conference designed to present programs of service in community and professional fields. Outstanding speakers will be present to give α reference of positions open in various fields.
- Social Committee—the social committee is in charge of such functions as the Recognition Dessert, WOWeek Coffee Hours, Mrs. Morrill's Tea, and the Cap and Gown Day Luncheon. Lots of fun for girls interested in making contacts in the Union.
- **Social Brochure**—this group is compiling a pamphlet of party sites, union bands, and convention facilities available in the Twin Cities. Complete information including prices will be given.
- **Public Relations**—this committee has charge of the poster and publicity work for all AWS functions. Lots of work and lots of fun. Good experience for campus contacts.
- Big Sister Committee—this group has charge of the Big Sister Tea and Big Sister followup, both affairs which take place fall quarter. Big Sisters are needed for next year as well as committee members who can start working spring quarter.
- Office Committee—The AWS office should be staffed at all times. Each girl staffs the office for an hour or two a week.

# Sororities Pledge 278 Entertain at Suppers

The rush is over, the air's cleared and 278 co-eds are sporting shiny new pledge pins as a result of formal pledging ceremonies Monday night at the 19 sororities on University of Minnesota campus, concluding the week-long formal rushing period.

Kappa Alpha Theta came off with top honors, pledging both Sylvia Morrill, daughter of University President J. L. Morrill and Mrs. Morrill, and Marg Knutson, granddaughter of Mrs. Lotus Delta Coffman and the late Mr. Coffman, former university president.

Following pledging rituals, feminine Greeks entertained at buffet suppers and open houses in honor of their new members.

The pledge list follows:

ALPHA CHI OMEGA: Mary Berdan, Beveriy Headings, Gerry Kistler, Ethel Schneider, Minneapolis, Muriel Olson, St. Paul; Rosemary Anteiman Aberdeen, S. D.: Ann Clark, Park Rapids: Florence Masss, Rochester, Martha Merrill, Glencot: Rosemary Schooler, Brainerd: Jean Stoetzel, Litchfield; Beverly Zoey, Duiuth.

June 25, 1948

Dear Emily Ann:

I thought I'd better get a note off to you before our vacation starts.

We wanted you to know that the 1948 College Board will open August 3, which is on a Tuesday.

Because, however, we have a selling program, fittings of College Board outfits, and pictures to take care of, we would like you to report to the Fashion Department on 6th floor for the last week of July, that is, Tuesday, July 27, through Friday, July 30.

Sincerely yours,

Barbara matron

Miss Emily Ann Mayer 1354 West Minnehaha Parkway Minneapolis, Minnesota

Just for fun Emily Anne Mayer, 1354 W. Minnehaha parkway, and Mary Katherine Sands (right), 5321 Second avenue S., model gowns worn to the Catholic League ball 35 years ago for Mrs. Donald Atkinson, 3150 W. Calhoun boulevard (left), and Mrs. Edward J. Callahan, 4200 Fremont avenue S., co-chairmen of this year's ball to be held Nov. 23 at the Nicollet hotel.

The parties are over and the work begins—new Alpha Phi pledges Mary Nicolas, 2116 Oliver Av. S., left, and Helen Fredel, 4640 France Av. S., right, offer to clean saddle shoes for Jane Sayler, Fargo, an active. And though saddle shoes are NEVER cleaned, it's worth the sacrifice in the interests of proper pledge training, thinks Jane.

# Engineers to Play At Field Day Today

BACKED UP by Paul Jansen, E-day St. Pat, and Emily Anne Mayer, E-day queen, Samuel C. Lind, dean of the Institute of Technology, gives the E-day address.

Dean Lind proclaimed that there would be no kissing of the queen,

contrary to usual E-day practices.

A frolicking flock of energetic engineers at 1 p.m. today will invade Como park for a field day.

First on the slate is a softball game between the School of Mines team, which won by default from the architects yesterday, and Alpha Chi Sigma, who eliminated the me-

chanical engineers' ball club, 16-12.

At 2 p.m., engineers will line up for a mass foot race which will be followed by a softball throwing contest and a football tossing tourney. The queen candidates will encase their queenly gams in burlap for the gunnysack race and then will climb on sturdy engineers' backs for a piggy back speed tilt.

Then the foresters will match strength with engineers in the traditional tug-of-war. An egg throwing contest, a football punting meet and finals in the men's foot race will round out E-day for another year. Free refreshments will be served.

Yesterday, about 300 senior engineers got jilted. They couldn't kiss the queen, Emily Anne Mayer. For years it has been E-day tradition that the queen purses her lips for senior engineers, but not yesterday.

Samuel C. Lind, dean of the Institute of Technology, was knighted by Miss Mayer and kissed the blarney stone. Then, according to the usual ceremony, he should have kissed her. But instead, he arose and announced that the tradition would be broken. Too many seniors was the reason.

The winning float in the parade was the one entered by Kappa Eta Kappa, electrical engineering fraternity. It had a home-made homework calculator with flashing bulbs and jumping sparks.

At the ceremonies, Roberta Huston, Technology senior, and E-day publicity chairman, for meritorious service was awarded a loving cup

by Plumb Bob, engineering society. Winner in yesterday's E-day table tennis tournament was Richard Baumgartner, Technology freshman. A team of electrical engineers took the bowling tourney with a two-line team score of 1,828. High man on the squad was Howard Ringham, Technology freshman, with scores of 192 and 214. His 214 also was tops for the afternoon.

Mechanical engineers took second place with 1,685. Civil engineers came in next with 1,585 and the aero engineers followed with 1,553.

In the pocket billiards match, Granville Gutterson, Technology sophomore, came out top man and Irwin Weinstein, Technology sophomore, cued his way to the snooker erown.

Nearly 500 engineering students lined up be- fore St. Pat (Paul Jansen, 2092 Iglehart Av., fore Northrop auditorium on the University of Minnesota campus for traditional knighting ceremonies, highlight of Engineers' day ceremonies, which conclude today. They knelt be-

St. Paul) and kissed the Blarney stone, then were knighted by Queen Emily Anne Mayer, 1354 W. Minnehaha Pkwy.—(Daily Times photo by Phil Dittes).

# Daughter of Once EGF Man Honored

Emily Anne Mayer, a freshman at the University of Minnesota, was chosen last week as Queen of

Engineers day at the school. She is the daughter of Mr. and Mrs. Frank A. R. Mayer of Minneapolis, Mr. Mayer who once lived in East Grand Forks, is a graduate of the high school and attended the

Univers ity of Anne Mayer Minnesota. He is a brother of Mrs. C. W. Rardin and Mrs. Arthur P. Whyte who live here.

# Musicians Go for Mountain Climbing

TO MUSICIANS, there's something about a mountain—climbing one, that is—that's like a shot of benzedrine... Our own maestro, Dimitri Mitropoulos, writes this about the west where he is vacationing: "I feel very proud to tell you that I have just climbed to the top of the most fierceful mountain in the U.S., the Grand Teton..." He'll be home Sunday.

He is with a group of climbing fans he met in Boulder when Minneapolis Symphony orchestra played at University of Colorado last year . . . Another famous musician Artur Schnabel is a sucker for a high mountain . . . Before the war Eunice Norton Lewis, formerly of Minneapolis, who studied with Schnabel, was in Switzerland and went on a trip up the Jungfrau with her famous teacher and his son, Stephan . . . The weather got rougher and rougher the higher they climbed . . . Eunice Norton Lewis slipped, lost her footing, and went down, down into a crevasse . . . Her two companions tugged at the ropes that bound the three together ... When she climbed out exhausted, and scared to death, her teacher gave her a lecture. "You weren't concentrating, Eunice, or it wouldn't have happened. Concentrate when you climb just as you do when you play the piano."

Just now Eunice is concentrating on Beethoven's 111th sonata which will be part of a program she will present at the Arts club, Washington. A daughter of the W. I. Nortons, 510 Groveland avenue, Eunice and her husband, the former Col. Bernard Lewis and their son Norton, have bought

a new home in Pittsburgh, and have moved there from Washington, where they were during the war . . . Mr. Lewis is now head of the explosives for the U. S. bureau of mines, Pittsburgh.

ADD MOVING VAN NOTES: Nancy and Don Macgregor, who had been living in a log cabin in Minnetonka Beach since their marriage last spring, are grinning widely these days . . . They found an apartment where they can live for the winter . . . It's part of the living quarters the Harry Pipers have fixed for their son-in-law and daughter. Mr. and Mrs. Morgan Aldrich at their home, at Bushaway, Lake Minnetonka . . . Not so happy, but still glad for a roof over their heads, are Lt. Ted Buchanan, Nancy's brother, and his bride, the former Barbara Juul ... They had a nice flat in London, where Ted was stationed, but army orders came and they

EUNICE NORTON LEWIS

had to move on to Antwerp, where housing is at an all-time low . . . They found an apartment finally, Nancy said, "but it sounds kind of funny. The kitchen stove is in the bathroom."

FASHION FLASHES: Just as fashion conscious as their older sisters and mamas, are girls getting ready for schools and colleges: Catherine Cole, daughter of the Charles Coles, Deephaven, has a beige gray wool dressmaker's suit, with which she wears a matching hat . . . Catherine is going to Principia college.

• Emily Ann Mayer has a campus dazzler, to wear when she enters University of Minnesota. A dressy gray wool suit with melon sleeves and a weskit jacket . . . the hat with wide brim in front and none in back matches the suit.

Rita Atwood, daughter of the Edward P. Atwoods, one of the three Washburn high girls who is going to University of Colorado, has a favorite suit—It's gray wool and partly fitted with which she wears a black felt hat—Jean Berreau, daughter of the Thomas Berreaus, 126 Rustic Lodge avenue, and Lynn Babington, who moved to Rapid City with her family after her graduation, will make up the Washburn trio of Boulder bound co-eds... They'll leave Friday.

-E.B.

# The Engineers Are At It Again

KISS is exchanged between Emily Anne Mayer, E-day queen, and John Tomassoni, E-day treasurer, in a preview of what the queen will through today at the knighting ceremony.

Waiting for their turns are Louis Mrachek, knighting chairman; Lawrence Craig, E-day dance committee chairman; Paul Jansen, St. Pat.

The Engineers day parade led by the Columbia Heights band, 12 floats and 1947 model convertibles lines up at 11:45 a.m. today in front of the Minneapolis postoffice.

Engineering societies and fraternities have entered floats in the contest for the annual trophy. The convertibles will carry E-day queen candidates and committee members.

The parade will go from First street to Third avenue to Tenth street. From Tenth street, it will move to Nicollet avenue and down Nicollet to Washington avenue where it will disband. It will reform at the corner of Fifteenth avenue and Washington and wend its way around campus.

On the steps of Northrop auditorium, Queen Emily Anne Mayer,

Arts freshman, will knight St. Pat, Paul Jansen, Technology senior. She also will be on the business end of some technological kisses as the senior engineers line up for turns. The senior engineers will be knighted into the "Order of St. Pat."

The engineers who have operated secretly all year in the organization known as Plumb Bob will be announced at the ceremony. Plumb Bob members are chosen when juniors and carry on its ac-

tivities for a year without disclosing their names.

They are Glenn Buettner, Clark Hanson, Charles Burnham, Allyn Skelton, Sam Carlson, Robert Corbett, Louis Mrachek and Archie Johnson. All are Technology seniors. Samuel C. Lind, dean of the Institute of Technology, will give the main address.

Also on the E-day slate are the playoffs in the bowling, pool and table tennis tournaments which start at 2 p.m. today.

At 3:30 p.m., Harry Given and his band will take over the Union main ballroom for the E-lite dance which will last until 5:30 p.m. It is open to the public.

And the night cap will be pulled down over engineers' ears at the E-day brawl set for 9:30 p.m. to 1 a.m. in the Calhoun Beach club as Harry Given goes to the post again.

Tomorrow's events will see a faculty-student baseball game, a tug-of-war between engineers and foresters and an egg throwing contest get under way at 1 p.m. in the field day at Como park.

REIGNING—AND PRETTY—ROYALTY—Three coeds are the reigning beauties over Engineers' days celebration today and Saturday at the University of Minnesota. Left to right are Gene Whorley of Sioux Falls, S. D., Queen Emily Anne Mayer of Minneapolis and Peggy Erickson of Grand Rapids, Minn. Gene and Peggy are attendants to the queen.—Dispatch Photo.

CURLED UP in an easy chair, Emily Anne Mayer, Engineers day queen looks at her picture in the Technolog E-day special out today. An Arts freshman, Miss Mayer says she likes the engineers she's met. She'll meet more of them tomorrow when senior engineers will line up on the steps of Northrop auditorium to wait for a queenly kiss.

# Queen Emily Chosen To Rule Engineers

Emily Anne Mayer, Arts freshman, has been named queen for a day—Engineers day.

She and her attendants, Peggy Erickson, Arts sophomore, and Gene Whorley, Education junior, will be honored at a banquet at 6:30 p.m. today in Mrs. Bryan's Tea rooms at University and Tenth avenue.

The 5-foot, 7-inch queen is a member of Alpha Phi and is on the

Gopher business staff. She is 17 years old and one year out of Washburn high school. The coronation ceremony is set for 2 p.m. tomorrow on the steps of Northrop auditorium where she also will undergo the mechanical kisses of senior engineers.

Besides kissing the queen, the seniors will be knighted into the Order of St. Pat. Seniors may buy the traditional regalia, a green hat, a clay pipe and a cape, for 50 cents starting today in the Engineering bookstore.

Previous to the ceremony, a parade starting at 11:45 a.m. in front of the Minneapolis postoffice will be led by the Columbia Heights band and floats entered by engineering societies and fraternities. A bevy of 1947

QUEEN EMILY (Continued on Page 5) PO. 12574 The arrangements are these: Faul Jonsen and Son Mrachek, Knighting Chrman. will meet you at Brown's Dregstore on Washington ave. at 3:15 P.M. today. Love has a car and he will drive you people down to Northwest Costume House for the fitting. In case anything happens, I'll be up in E-Day office until 4. (I think everything should go Okay) as for the schedule for the week: Thursday 11:30 - armony fire truck ride their campies (forget this, if it's raining) 6:30 pm - Green's Barquet mrs. ## Senior Queen Finalists Chosen

Finalists for the Senior Sweetheart "Queen of Queens" were se-

lected last night. .

The five seniors chosen and their sponsors were Jeanne Roedell, University college, Pi Beta Phi; Philancy Nobles, arts, Pi Gamma Delta; Clarene Perkins, arts, Chi Omega; Mary McKeon, arts, Kappa Alpha Theta; and Emily Ann Mayer, arts, E-day committee.

Final selection of the queen will be made during the intermission of the Senior prom Friday at the

Radisson hotel.

(See picture on page 1.)

Technique for selling being demonstrated for Emily Anne Meyer, Arts sophomore, by Dale Engstrom, Gopher sales manager. The mid-year subscription drive will open with a sales staff coffee hour at 4 p.m. today in the Union men's lounge. All students interested in selling are invited.

Speculative is the word for Emily Anne Mayer, last year's E-day queen, as she checks an entry in the button-designing contest for this year's E-day. The contest opens today for all Technology students and will close March 11. Entries should be submitted to 133 Main Engineering. A \$10 prize goes to the winner. Buttons should be in two colors and 2½ inches in diameter.

The E-day celebration comes off May 21 and 22 with the slogan, "Engineering for a Better Tomorrow." The E-day committee office is 7 Main Engineering. There are still positions open on some committees, according to Bob Dunn, button chairman.

EMILY ANNE MAYER, Washburn alum since June 1946, reigned supreme as queen of Engineer's Day at the University of Minnesota, Friday, April 25. Her duties entailed being interviewed on Sev Widman's "Turn the Tables" program, riding in the Engineer's Day parade which ran through the loop and ended on the campus, and sharing honors with the Blarney stone in being kissed by the engineering seniors. This is a traditional "U" ceremony.

### Kiernan's Corner

NEW YORK.

The news that granite gives off radiation is welcomed by all good Democrats. They hope Vermont will be nice and warm for them by 1948.

In Wales, a lone miner dug 120 tons of coal in six days. He did not receive congratulations from that other famous Welsh miner, John Lewis.

I hear John is rushing pickets to the granite hills with signs reading "this rock unfair!"

But it's going to seem peculiar to phone the quarry and say: "The house is cooling off. Better send me another cornerstone."

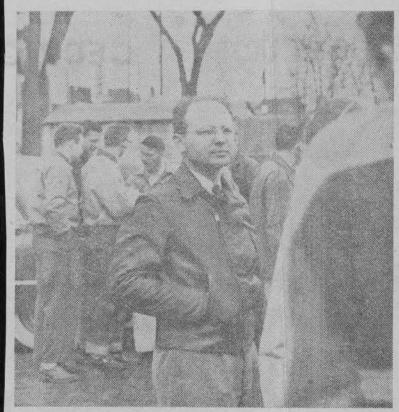

WALTER KIERNAN.

'U' POLITICIANS PUT FAITH IN LOGIC-When student politicians campaign for office at the University of Minnesota, they shun baby-kissing, stress logic. Here John Hagerman, 3120 E. Fifty-first street, Minneapolis, seeks votes for his Progressive party, which competes for 36 posts Thursday with All-Residence and Tech groups and independent candidates. Listening are three other candidates from Minneapolis: Barbara Bawden, Emily

Mayer and Betty Ann Steichen.

# Greeks Clear Bases, Yards in Weekend

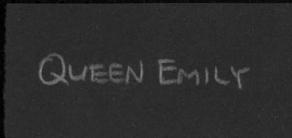

It's a foul ball and one of the few times that the sorority gals failed to get a hit in the one-inning baseball game as part of Saturday's Greek week activities, Showing perfect batting form is Jane Shea, unclassified, while Jack O'Niel, arts freshman, plays catcher. The gals beat the fellows, 15 to 2. (Staff Photo by Stu Gang).

was the word in sororities and fraternities Sat-Clean-up urday as members put on work clothes and pitched in to clean up the neighborhoods near campys. Early in the morning they lined up along the streets (bottom) to get their job assignments. Then the work began. George Grim, (top) who started the project when he challenged the groups in his "I Like It Here" column in the Minneapolis Tribune to do a constructive task during this year's Greek week, was on hand to help with the work. A lot of raking, trimming, cleaning and picking up was done before the day was over.

Out by a mile is Lyle Peterson, technology junior, in Saturday afternoon on the river flats. Playing a whale of a game at first base is Emily Ann Mayer, arts senior. The game was called on account of the score at the end of the first inning. The score: 15 to 2 in favor of the sororities. (Staff Photo by Stu Gang).

#### E-Day Queen To Be Chosen Wednesday

Engineers this year will be choosy about who chooses their queen. For the first time since before the war, she will be nominated only by engineering groups.

Nominations may be submitted by engineering fraternities, societies and engineer residents of dormitories and housing projects. An engineering student outside these classifications may turn in a nomination through one of the societies.

The queen may be any coed who has not been a queen before or won a beauty contest. Nominations must be turned in before Tuesday to E-day office, 230 Union.

St. Pat, the queen's consort, will be elected Wednesday by all graduating engineering students. Filing closes on Tuesday. Each candidate's nomination must have 25 signatures.

Minnesota Daily - april 11

Measurements of Patty Moore, Tri Delt, for the E-day queen's crown are taken by George Grim, Minneapolis Tribune. Other candidates are Colleen Allbert, Alpha Delta Pi; Elaine Opsal, Arts freshman; Emily Ann Mayers, Alpha Phi and Emma Raymer Underhill, Technology graduate student. Winner of the contest, judged by George Grim; Arlene Olson, Powers Fashion coordinator; Lois Hatten, St. Paul Dispatch fashion writer, will be announced at the Queen's banquet April 23.

ERIN GO BRAGH!

### Engineers Stand Pat on 'U' Tradition

Friday may or may not be a foine day in Glocca Morra, but, fair weather or foul, it will be a day calling for the wearing of the green at the University of Minnesota.

The occasion will be the annual Engineers day, since time immemorial (well, since 1903) a day of Blarney stone kissing and shillelagh wielding on the campus.

How Engineers day acquired a Gaelic flavor-and St. Patrick as a patron saint—is a long story that, in short, goes roughly like this:

On a fine spring afternoon in 1903, workmen excavating near the campus mines building loosened a ponderous boulder. The stone rolled downhill and came to rest atop the foot of an engineering student who had been sitting on the grass quietly eating his lunch and observing passing co-eds.

The surprised student's precise words unfortunately have been lost.

But, legend has it, one of his engineer companions made the startling discovery that there was an inscription on the stone-"Erin go bragh." Being something of an early-day radio announcer, and a student of Gaelic to boot, said engineer proclaimed that "Erin go bragh," spelled backwards, means "St. Patrick was an engineer."

#### VERIFIES FACTS

The excited group rushed to the university library and, upon checking, learned that this was true about St. Pat. In chasing the snakes out of Ireland, he had invented the worm drive.

University engineering students dubbed the inscribed boulder the "Blarney stone" (one like it has since been found in Ireland), and decreed that Engineers day henceforth be celebrated, with much festivity, each spring.

It has been.

End of legend.

Tomorrow Engineers day will begin with a parade, starting from the main postoffice at noon, winding through the loop, then returning to the campus.

#### TO BE KNIGHTED

At 2 p.m. on the steps of North- juice all over their faces. rop auditorium, engineering senwill be knighted into the been forgotten.

Order of St. Pat, following which they may kiss the Blarney stone, the Engineers day queen and any stray queen contest losers who happen to be standing around.

Minneapolis industries will show appropriate exhibits in the Coffman union ballroom annex tomorrow. The school of mines, plus the mechanical, electrical and experimental engineering buildings, will be open to the curious.

Spilling over into Saturday afternoon, the engineers' celebration will continue at Como park, St. Paul, with a tug of war between engineers and foresters (traditional enemies), a faculty-student baseball game, a greased pig race. and a contest in which engineers will throw eggs at one another.

Some engineers will get egg And St. Patrick will not have

### U Engineers Pick King, Queen

A tall 17-year-old freshman 1354 W. Minnehaha pkwy., weighs only 124 pounds. Her Thursday was named queen of 5,500 engineers at the University of Minnesota.

She's Emily Anne Mayer, Emily Anne is 5 feet 7 and Queen Emily Anne is interested in the humanities. That's defined as "branches of polite learning regarded as primarily."

learning regarded as primarily conducive to culture."

And she thinks engineers are

And she thinks engineers are all right.

"Those I've met are very nice," she remarked.

She was sponsored by Eta Kappa Nu, honorary electrical engineering fraternity, and was chosen from among 17 candi-

Queen Emily Anne will share royalty honors with Paul Jansen, 2092 Iglehart ave., previously named king of the celebration. He is an Army veteran and a senior electrical angines. and a senior electrical engineering student.

Attendants to the queen are Peggy Erickson of Grand Ra-pids, Minn., and Gene Whorley of Sioux Falls, S. D.

A dinner for the queen was held Wednesday night in Coffman Memorial union, The engineers program will begin at noon Friday with a parade through the campus. A "knighting" geromony will be held Friday will be held Friday. ing" ceremony will be held Friday afternoon on the steps of Northrop Memorial auditorium. A field day will be held Saturday afternoon in Como park

THEY'LL RULE OVER ENGINEERS

Decked out in Irish hat and clay pipe, Paul Jansen, electrical engineering senior at University of Minnesota, surveys his queen, Emily Anne Mayer, arts freshman, against a traditional engineer background of slide rules. Jansen, of 2092 Iglehart Av., St. Paul, was picked as St. Pat to rule over the Engineers day festivities tomorrow and Saturday at the university. Emily Anne, 17, of 1354 West Minnehaha Pkwy., was picked from 17 candidates. Climax of events tomorrow on the steps of Northrop auditorium will come when she kisses each member of the senior class in the engineering school.—(Daily Times Photo by Henry Kierstead.)

#### LIKE IT HERE-By GEORGE GRIM

### Nose Wrinklers Upset Grim

If you want to be a queen, stop wrinkling your nose like a leftover Easter bunny. I have just surveyed the most charming bevy of nose wrinklers this side of a well-stocked hutch.

The engineers on the University of Minnesota

campus started it. They wanted a queen for their Engineers' day next week.

Each of their professional fraternities phoned a neighboring sorority and sponsored the most charming girl in the membership. Others sub-mitted candidates they had met at the soda fountain, outside the library, or in the cavernous halls of Northrop auditorium.

Seventeen girls were told to report to the women's Lounge in the union the other day. Suits and high heels, apparently, were to be worn, and noses were to be wrinkled.

Arlene Olson, fashion co-ordinator of Powers; Lois Hatton, the fashion editor of the St. Paul Pioneer Press, and I were to choose the queen. Arlene and Lois are old hands at the business of campus royalty. I was the stag at bay.

#### Ratings Are Serious Business

We were handed a sheet that looked like a fugitive from a governmental statistical bureau. Ruled into boxes, columns were headed BEAUTY, GENERAL APPEARANCE, POISE, PERSONALITY. Just how you separated them, I don't know.

My own rating system would have read WOW!, YIPE!, VOOM!, OWWWWWW! But this was a serious business.

After all, this queen would reign for the en-

gineers, and part of her job would be to kiss every engineer-a tremendous incentive to future bridge builders, stress-and-strainers and caliper caliphs.

The two ladies and I were seated in soft chairs, a single chair facing us. The girls, one by one, were interviewed. We asked them what was their major. There were dental assistants, chemistry engineers, secretaries, child psychologists, pianists and advertising artists in the group.

Those girls have ingenious ways of not men-

tioning that they are looking for the right young

man and a family future.

But it isn't what they say, but what they do.
I suppose, because I seemed the susceptible bachelor, the girls decided to concentrate on me.
They undulated in a ladylike manner. They flashed their most direct, peek-a-boo stares. They

fluttered their eyelashes with calculated modesty. And wrinkled their noses.

#### Ears Wiggle, Noses Wrinkle

That, I couldn't understand. We used to be able to wiggle our ears, but it wasn't regarded as suitable entertainment for a young lady. There seems to be little difference between wiggling

ears and wrinkling noses.

Many of the girls were downright cute. Their freshness made me feel like something chucked into an umbrella stand.

Their honest enthusiasm at the prospect of being queen for an Engineers' day made your own campus enthusiasms seem so long ago.

But one of them, especially, turned on every-thing. Her nose wrinkled. Her eyes looked at you, and kept looking. She had a musical laugh. She had all the naturalness of girls you re-membered from college. I was a complete push-over, but how about Arlene and Lois? They were looking critically. I was awash in a lot of nostalgic yesterdays.

We lined up all the girls—Lois and Arlene rescored. I didn't. And, when we compared scores, that one girl won. She even gets the women!

So, engineers, there's your Queen. She won't

be announced until next week. How can I get in line for that regal buss?

And, while in the area, to be able to say, "You don't have to wrinkle your nose, queenie. You've got it, ears down, over a rabbit any day."

- 2:00 p.m.—Knighting ceremony on the steps of Northrup Auditorium
- 2:30 p.m.—Bowling, billiards and pingpong tournaments in Union.
- 3:30-5:30 p.m. E-light Dance and Variety Show.
- 9:30 p.m.-1:00 a.m.—Brawl at Calhoun Beach Club.

#### Saturday, April 26

- 1:00 p.m.—Field Day activities at Como Park.
- 9:00-12:00 a.m. and 9:00-12:00 p.m.-"Techs-Ibit" open.

EXHIBITS

## From Our Angle

RGINEER, meet E-day 1947. You'll be seeing a lot of it the next two days; and here's why. You can't be a freshman in I.T. more than a few weeks without realizing that an engineering student is something special; he leads a dog's life of study and lab work; he has to catch extracurricular activities on the fly. But when spring comes, when a young man's fancy turns to love, and a junior Izaak Walton's fancy turns to popeyed ish, the engineer takes a couple of days off to hold a celebration. He takes a couple of days off to honor St. Patrick, the patron of the slipstickers, the inventor of the worm drive. Each year E-day grows in magnitude and grows in fun; there isn't a student who can't find something in it to whet his fancy, especially when they serve free beer at field day. Let's look at E-day and see what it offers.

The first event at which the wearers of the green will promenade is the parade. When the clock strikes two toss the log log in the corner, pin a shamrock on your instructor, light up your clay pipe, and hop on a float as it goes whizzing by. Then you're off to tour the Minneapolis loop to impress the good burghers with the importance of E-day. In the good old days, the gray-haired seniors say, the parade used to be a series of outhouses on trailers, a four-door sedan and a path. But the epitome was reached when one intelligent frat stationed a man inside to toss corn cobs, smeared with peanut butter, out into the crowd.

You won't have to rest after the parade. Just as soon soon as the caravan returns to the campus, you'll be needed at the knighting ceremony: if you're a senior to be kissed by the queen, if you're a lesser undergrad, to drool in unison. The seniors will form a passage of crossed slide rules (and wolfish looks) down which the queen, accompanied by St. Patrick, will stroll to the steps of the Auditorium. And then the doings which cause Cyrus Northrup to roll over in his grave begin. Each senior steps up, is knighted into the merry order of St. Pat, and is sent into ecstasy by a kiss from the royal consort. The better half of the senior class gets a crack at St. Patrick. Sure an' the knighting ceremony is a great incentive to sophomores and the like: you too can be a senior—and kiss the queen—if you work and study hard.

After the osculations, it's time to oscillate to the Union for the dance and variety show—the E-lite. Here the fast man on a slide rule gives way to the fast man on the Lindy; here the foul ball can do as well in a square root dance as the seniors. During the E-lite you may have a chance to dance with that girl you've been eyeing all quarter; you may eyen meet one of the queen candidates, or the queen herself. Of course, you have to be wearing an E-day button; you'll have bought one by that time for you know that "ya can't tell a slip sticker from a general college cavalier widout a button."

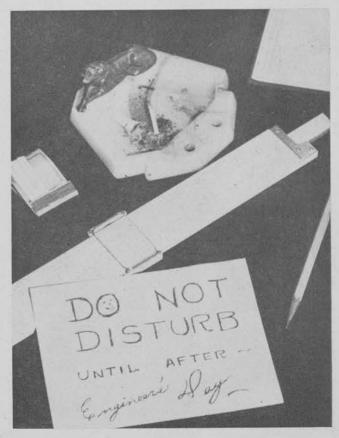

For those whose constitutions aren't too strong—former arts students, for example—it will be time now for

a small breather. The best way to spend the interval is to visit the Techsibition. Fact and fancy are both represented in the displays. Industries have contributed some examples of the latest developments in technology for you to see; visit them.

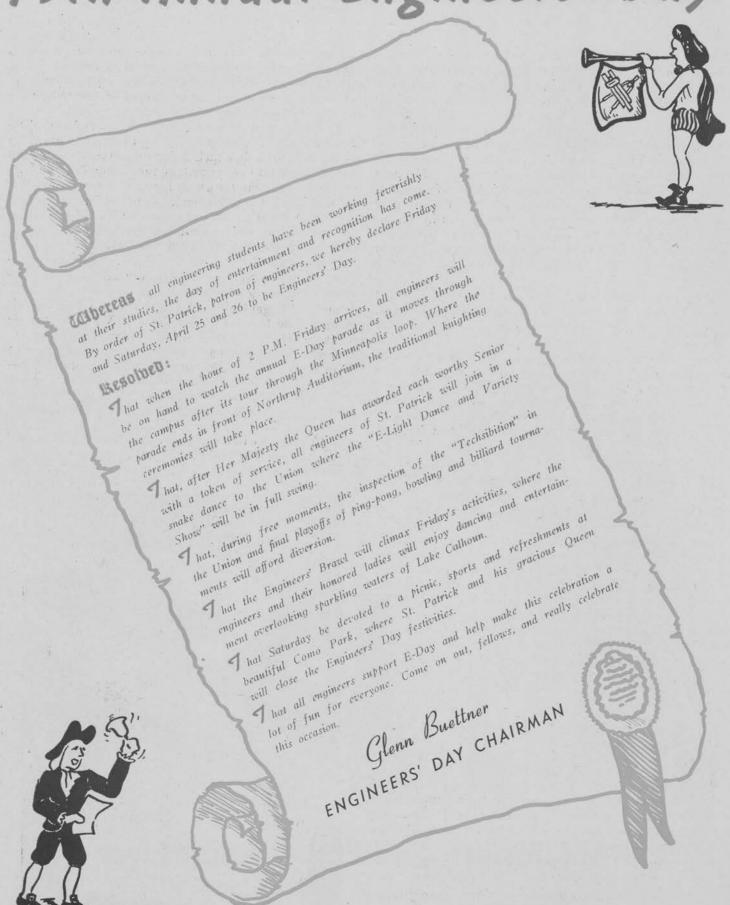

Friday evening is one of the high spots of the whole celebration. The shouts of "Erin go Braugh" fade away as the engineers doff their boisterous manner and settle down for smooth enjoyment at the E-day Brawl. Anyone who is anyone shows up for this. Even Angus McDougal is planning to attend. Angus insists on getting the best for his money; he's thrifty; he killed his dog when he discovered he could use the bark from trees to drive away burglars. If Angus can make it, you can too.

Don't think E-day ends that night. Field day takes over on Saturday. The faculty, the students, and the queen contestants turn out for races, games and special events. Rumor has it that greased pigs will be in evidence before the day ends. There will also be a little foam flicking on the part of the audience. (If there are any North Irishmen on campus they are invited to bring along their orange juice.) Also on Saturday, historians say, it is traditional to invade the Ag campus and make peavey handles out of foresters. Others of more artistic nature try to paint Meredith Hall a rollicking Kelly green.

But enough of this verbiage. You don't want to read about it; you want to do it. So drop your books and go—meet Engineers' Day 1947.
