OREGON STATE AGRICULTURAL COLLEGE
SCHOOL OF HOME ECONOMICS
CORVALLIS, OREGON

October 6, 1936.

Mrs. Earl Tanbara,
1728 Dwight Way,
Berkeley, California.

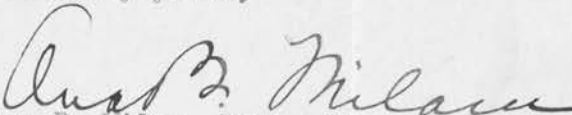

Dear Ruth:

It was very nice to have your note telling me about Mrs. Nakatani. We had a tea for her one afternoon and enjoyed her very much. She is a delightful person.

This Saturday afternoon I hope to arrive in Berkeley and have over Sunday with Claribel Nye. I should like to get in touch with you and see you and your husband, but the time is very short and I may not have a chance to get in touch with you or any of our other graduates whom I should so much like to see, but I do hope I may see you sometime in the near future. This time I shall be in Berkeley only a few hours.

Again my thanks for your note about Mrs. Nakatani.
With love and best wishes.

Sincerely yours,

Ava B. Milam, Dean and
Director of Home Economics

Learn to make your own gloves!

Shelp me, we've found a fascinating glove-making class, where (in no time flat!) they teach you to make your own gloves ---AND, the whole course costs only \$1.50!..What's more, you can drop in for help whenever you take a notion to make a new pair, and they'll help you without your paying another red penny!.. Day and evening classes...It's loads of fun — and your gloves will cost you next to nothing!..

Women's City Club, 000 Post, 2nd flr., PHone 000.

Aug. 24, 1936.

Dear Mrs. Sauthers -

I received the gloves, and postage stamps. Thank you. Just got the blue pair finished.

You did a very nice job at Corvallis - hope that you'll come up again.

We were all very much pleased with the lesson.

Have been home here two weeks - we have had very hot weather and still have it. Will be glad to start back for the coast.

Sincerely
Oliver C. Britchell.

Mrs. Earl Tanbara
1728 Dwight Way
Berkeley, California

Dear Ruth:

I am delighted to know that you will be able to be here and you and your husband accept my dinner engagement for Tuesday night. I shall get in touch with Elsie at once and hope she will be able to accept too. It will be a simple supper because I want to work it out so that Elizabeth - the girl who stays with me - can attend your demonstration if possible.

Miss Strickland is advisor to the Home Economics Club and we expect to have some good publicity and even though it is examination week, we expect to have a good attendance.

I hope you and Mr. Tanbara can reach here in time for a tea. Our faculty would like to have its tea that afternoon from 4 to 5 and have you present.

Assuring you that we are looking forward with much pleasure to your coming and appreciate your willingness to give this demonstration which will be of interest to all, I am

Very sincerely yours,

Ava B. Milam, Dean and
Director of Home Economics

May 14, 1936

Mrs. Earl Tanbara
1728 Dwight Way
Berkeley, California

Dear Ruth:

I have just spoken to Miss Fritchhoff and while we would have liked to have you much earlier in the quarter, we are so glad that we shall be able to arrange your demonstration on Tuesday, May 26 at 5 o'clock in the auditorium of our Home Economics Building.

We think it is very nice of you to do this and are looking forward with much interest to this demonstration. Five o'clock is not such a good hour but classes are such that we believed this the best available time. You remember our auditorium? I think it would be the best place for seeing.

I should like to have you and Mr. Tanbara for dinner with me that evening and will ask your sister also. If you can reach here earlier and it would be easier for you to have lunch with me, I shall be glad to have you either time.

I am enjoying my lovely gloves and have shown them to many people who think you are very skillful and that this is a most interesting development. I am sure a great many people will be interested in this demonstration and I hope you will tell them about the development of this craft in San Francisco.

We are enjoying having Dr. Harada with us this week.

I will await definite assurance that from 5 to 6 on Tuesday, May 26 is satisfactory with you before we announce it in the Barometer.

Looking forward with much pleasure to having you here for the demonstration and to dinner in my home, I am
or (Lillian)

Very cordially yours,

Ava B. Milam, Dean and
Director of Home Economics

April 8, 1936

Mrs. Earl Tanbara
1728 Dwight Way
Berkeley, California

Dear Ruth:

How pleased I was with your letter and how happy over your offer to make me a pair of gloves. I think it is very dear of you to suggest that they be a gift. Let us have it this way -- the making of them I should be glad to have as a gift but won't you let me pay for at least the leather? I can not resist the white doeskin ones. I think driving gloves would wear out sooner and I want these to last as long as possible both because of sentiment and because they will probably be the most beautiful gloves I shall possess.

I am tremendously interested in the things you are doing and have been doing since you were married. It is very heartening to have a graduate like you not just follow the crowd and play bridge all day but use your leisure time in more interesting and constructive things than bridge could be. Of course I have no aversion to bridge except when it takes precious time which could be used in so many more constructive ways.

How very happy I am to know that you are talking to some of the Japanese girls in California about our Home Economics School at Oregon State College. We are trying very hard to make the work of this school meet the needs of our girls and not be too impractical and it does us much good to have our graduates feel as you have expressed yourself.

I wish I might see Elsie more frequently. Somehow the year has been very heavy and there has been such an increase in students that I have not been able to do the things I have wanted to do. Elsie's work has come up. She had an A in Family Relationships; B's in Color and Composition, and Clothing Selection and Construction; C's in Appreciation of Music, English Composition, and Mental Hygiene; and a D in Physical Education. It takes some time for freshmen often to adjust and Elsie's grades are not low and she is showing definite advancement. I am sure we can expect this to continue.

How very much I wish you were not so far away from Corvallis and that we could have you give a demonstration of glove making to our staff and students for I know they would be tremendously interested. Is it possible that you will be coming to Portland in the near future and could do that for us? I am also thinking of what an interesting thing it would be to have at our Home Interests Conference in February.

We are hoping to have the visiting professor from Japan who has been at Eugene for the year over on our campus for a week. During that time I am hoping to have him and the Japanese students over to my home for dinner and I am looking

forward with much pleasure to this opportunity for a better visit with the Japanese students on our campus as well as an opportunity to become better acquainted with the very interesting Professor Harada.

I shall show your letter to Miss Fritchhoff's department and I know that they will be tremendously interested. I am enclosing the drawings and hope they will be right. Do not hesitate to send them right back to me if I need further directions. I usually wear a 6 3/4 or 7 glove size. The 7 is usually a little loose and the 6 3/4 is sometimes a little too snug but I have worn both. I think more recently I have been purchasing more 7 sizes than 6 3/4.

Won't you give me directions for cleaning these white gloves. Should I send them to the cleaners or do I wash them in soap and water? I am so thrilled over the prospect of these lovely gloves. I was just going to purchase a pair of white ones but now I will wait.

Lovingly yours,

Ava B. Milam

Dear Ruth:

Dean Milam let me see your letter and I appreciated the little message at the end of it to me.

She asked me to return the glove model to you, as she is out of town for a few days. We have shown it in several classes, and the students have been much interested in it. I think it is a nice type of pattern and it is very nicely done. I am returning it by parcel post insured.

I have Elsie in class this term, and she is doing very nice work.

When you come through next month on your way to Portland, I shall be very glad to see you if you stop off here.

Sincerely,

Alma C. Fritchhoff, Head
Clothing, Textiles & Related Art

January 24, 1936

Mrs. Earl Tanbara
1728 Dwight Way
Berkeley, California

Dear Ruth:

I am so sorry to have waited so long in answer to your letter which came in November when I was back at the Land Grant College Meeting and visiting other colleges.

I am so glad to know that you are so happy in your home, and that you were able to do some volunteering in Miss Nye's office. Some of these days I am hoping to get to Berkeley--just when I am not certain, but I hope before the end of the year. If so, I shall look forward eagerly to seeing you in your home.

Were you at the O.S.C. luncheon Mrs. Prentiss told me about? She said there were over twenty there, I believe. I was so glad to have a picture of Mabel's little boy at Christmastime.

I am hoping to have the Japanese students over to my house for supper some time soon. Your sister seems very happy and looks very well. My absence from the College for a month in the fall and the work here with the increase in enrollment has made it impossible for me to do as much as I would like in the way of entertaining, but I do hope in the near future to have Elsie and the other Japanese students to my home.

With love and all good wishes, I am

Sincerely yours,

Ava B. Milam
