MINNESOTA MINING AND MANUFACTURING COMPANY

ST. PAUL, MINNESOTA

INTEROFFICE CORRESPONDENCE

SUBJECT:

August 17, 1960

TO: F. R. OWEN GIFT WRAP AND FABRIC ENGINEERING 209-BS

FROM: JOAN SHOWALTER GIFT WRAP AND FABRIC ADMINISTRATION 42-2E

At your request I have summarized below Mr. Boese's accomplishments since joining the Company in December, 1930.

Mr. Boese started with 3M in December of 1930 as an office boy. In 1934 he transferred to the Factory as an inspector in the Tape Department.

In 1938 through January 1946, he was Product Supervisor in the Profab Laboratory, and in April of that year was promoted to Sr. Pilot Engineer. In August of 1946 he was promoted to Jr. Product Manufacturing Manager in Profab, and held that same position in the Ribbon Laboratory after transferring there in November, 1949.

In August, 1953, he was promoted to the position of Technical Director of the Ribbon Division, and in July, 1958, was promoted to his present position of General Manufacturing Manager, Gift Wrap and Fabric Division.

Mr. Boese also started research on non-wovens in 1940, developing the first 3M ribbon known as "MISTION."

MR. A. W. BOESE:

Dear Al:

Congratulations on your recent appointment as Technical Director of the Ribbon Laboratories. We had considered you in that capacity long before your appointment, but I suppose it well to have it officially on the record.

I believe that we have many common problems between the Tape and Ribbon Laboratories, and I am sure that by working together cooperatively we may be able to be of assistance one to another. Be assured that we are most desirous to be of any help to your organization, and we will be contacting you from time to time on our problems as well.

Don't forget that we have a date for lunch one of these days.

Mr. A. W. Boese - Technical Director of the Ribbon Laboratories

Dear Al:

I was very pleased to receive a copy of Dr. Oakes announcement that, effective August 1st you became Technical Director of the Ribbon Laboratories. Congratulations!

The International Division is not setting the world on fire with their ribbon sales as yet but we are expanding the business and we hope that some day ribbon sales will be an important part of our total volume. If there is anything we can do to assist, please let us know.

Best of luck.

Yours very truly,

Dear Al:

Even though I had the opportunity of offering congratulations because of your twenty-five years with 3M, I want to tell you how very enjoyable it has been for me to be associated and working with you. Certainly you are to be congratulated on all of the contributions to the Ribbon Division and know that more will be forthcoming which will enhance the value of the product and add to Division sales.

I regret very much that it is necessary for me to be in Detroit on December 6th and, therefore, cannot participate in the festivities but you know I shall be there in spirit.

Best wishes for many more happy years.

Yours sincerely,

SEC Restricts Stocks Of Canadian Companies

The United States Securities and Exchange commission Tuesday announced the addition of the stocks of the following Canadian companies to its Canadian restricted list: Continental Mining Exploration Ltd., Glacier Explorers Ltd., and Shoreland Mines Ltd.

The Canadian restricted list is composed of stocks of companies which the commission has reason to believe recently have been or are being distributed in the United States in violation of the registration requirements of the Securities Act of 1933.

The announcement was made here by James M. Klees, attorney in charge of the local SEC office.

M & O DECLARES CASH DIVIDEND

Directors of the Minnesota & Ontario Paper Co. Tuesday declared a quarterly cash dividend of 40 cents a share. The dividend is payable Aug. 1 to stockholders of record July 3.

3M PROMOTES ALVIN W. BOESE

Alvin W. Boese has been promoted to general manufacturing manager of the gift wrap

and fabric division of Minnesota Mining & Manufacturing Co.

Boese did 3M's first research on non-woven fibers, which led to the development of the firm's ribbon products. He joined 3M in 1930.

June 18, 1953 MINNEAPOLIS MORNING TRIBUNE

Manager Picked

Minnesota Mining and Manufacturing Co., St. Paul, promoted Alvin W. Boese to general manufacturing manager of the company's gift wrap and fabric division. Boese has been technical director of the division since 1953.

Dear Al:

Al Redpath's announcement of your promotion is good reading, and I hasten to offer congratulations and best wishes in your new responsibilities.

Looking over the organization chart, I find your "double" is the Technical Director, and now in your new position, you can give him orders as to how he should handle his Technical Organization and efforts so as to satisfy the General Manufacturing Manager.

As you know, I always have had a very keen and heart-felt interest in the success of the Ribbon Division, and with the strong team which has been put together, sales should continue to increase.

Best wishes.

Yours sincerely,

Lou Weyand

ANNOUNCEMENT

TO OUR ENTIRE ORGANIZATION

Effective at once, Mr. A. W. Boese becomes General Manufacturing Manager of the Gift Wrap and Fabric Division. He will have the responsibility for both manufacturing and product research and development.

The increasing complexity of product lines, the location of manufacturing plant at Fairmont away from St. Paul, and the transition of many development products from laboratory and pilot plant to the plant at Fairmont make it imperative that there be well coordinated management of plant and laboratory. It is expected that Mr. Boese's assignment will accomplish this.

I am sure that you will want to welcome Mr. Boese in his new position.

WALTER J. BERGQUIST
VICE PRESIDENT

June 23, 1958

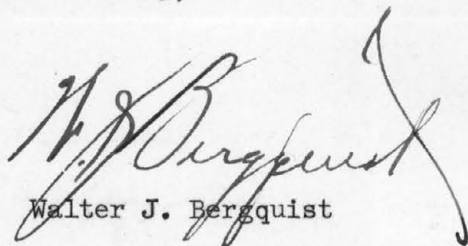

Dear Al:

I was catching up on my reading over the week end and saw an announcement in last Wednesday's paper of your promotion to Manager of the Gift Wrap and Fabric Division. I also observed that you did the first research on non-woven fibers, which led to the development of ribbon products produced by your company.

It has always been interesting to me to hear from time to time of the advancements of my friends from the "Old Guard." You might be interested to know that I visited Camp Ripley last Saturday as a guest of the 47th Division to witness the review on Governor's Day. I enjoyed it very much.

Congratulations and best wishes to you on your very fine promotion.

Sincerely,

Walter J. Bergquist

Attention Mr. Walter J. Bergquist - Vice President

Dear Walter:

It has taken a long time to answer your very nice letter on my recent promotion, and my only apology and excuse is that I had hoped to drop in and do it personally. Maurie Ekstrom had planned to visit up here this summer, and I had hoped that when he arrived we could take an hour or two out of your busy schedule for lunch together.

I was interested in your comments on your recent visits to Camp Ripley, which I have not visited since the last encampment in 1933.

I want to thank you again, Walter, for your congratulations which was not only pleasant for the present, but a nostalgic reminder of many enjoyable moments in the past.

Sincerely,

Alvin W. Boese

TO OUR ORGANIZATION

Effective immediately, Mr. W. A. Aitken, Manufacturing Manager of all pressure sensitive tape operations, will also assume responsibility for the Fairmont Non-woven Products Plant.

Mr. A. W. Boese, who has had responsibility for manufacturing as well as technical operations of our Gift Wrap Division, will be given a different assignment. This change will be covered in a letter from Mr. A. H. Redpath.

The above will consolidate most of our manufacturing operations in the Retail and Industrial Tape Divisions under one head; and we know everyone agrees that this is a logical move.

May 24, 1961

TO OUR ORGANIZATION

The newly combined Retail Tape and Gift Wrap Division will continue to foster the growth and sale of 3M developed non-woven products such as "SASHEEN", "DECORETTE", and "LACELON" Ribbons; non-woven fabrics; molded non-woven products; etc.

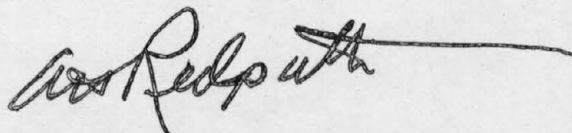

Because of the vast potential we see for non-woven products, we find it necessary and advisable to create a new position for heading up this program. We wish to announce, therefore, the promotion of Mr. A. W. Boese to Non-Woven Products Manager, effective June 1, 1961.

Mr. Boese will be directly responsible for research development and product control of new, as well as existing, ribbon and non-woven products. He will coordinate and will have functional responsibility for production, sales, marketing, and advertising of our non-woven products. Mr. Boese will assist other departments within our Division, as well as other Divisions, to develop non-woven products to be used as components for their products or to help to develop new product ideas for other departments from fibrous bats or webs.

Mr. R. L. Sheppard will have direct responsibility for all sales of non-woven products of our Division, and Mr. Boese will have functional responsibility for the sales future on non-woven products. Mr. Boese will also have functional responsibility for the production of non-woven products, and Mr. W. A. Aitken will have direct responsibility for production of these non-woven products at our Fairmont Plant.

Because the non-woven products program is an important part of the Retail Tape and Gift Wrap Division, Mr. Boese will work very closely with all groups in order to coordinate and develop the program. Mr. Boese will be directly responsible to the General Manager of the Division.

Mr. Boese's broad experience in non-woven product research development and application makes him well qualified to coordinate these activities, and we are confident that he will have full organizational support in his new assignment.

TO OUR ORGANIZATION

The newly combined Retail Tape and Gift Wrap Division will continue to foster the growth and sale of 3M developed non-woven products such as "SASHEEN", "DECORETTE", and "LACELON" Ribbons; non-woven fabrics; molded non-woven products; etc.

Because of the vast potential we see for non-woven products, we find it necessary and advisable to create a new position for heading up this program. We wish to announce, therefore, the promotion of Mr. A. W. Boese to Non-Woven Products Manager, effective June 1, 1961.

Mr. Boese will be directly responsible for research development and product control of new, as well as existing, ribbon and non-woven products. He will coordinate and will have functional responsibility for production, sales, marketing, and advertising of our non-woven products. Mr. Boese will assist other departments within our Division, as well as other Divisions, to develop non-woven products to be used as components for their products or to help to develop new product ideas for other departments from fibrous bats or webs.

Mr. R. L. Sheppard will have direct responsibility for all sales of non-woven products of our Division, and Mr. Boese will have functional responsibility for the sales future on non-woven products. Mr. Boese will also have functional responsibility for the production of non-woven products, and Mr. W. A. Aitken will have direct responsibility for production of these non-woven products at our Fairmont Plant.

Because the non-woven products program is an important part of the Retail Tape and Gift Wrap Division, Mr. Boese will work very closely with all groups in order to coordinate and develop the program. Mr. Boese will be directly responsible to the General Manager of the Division.

Mr. Boese's broad experience in non-woven product research development and application makes him well qualified to coordinate these activities, and we are confident that he will have full organizational support in his new assignment.

A. H. Redpath

Dear Al:

It was with a great deal of pleasure that I read Al Redpath's broadcast of May 24 concerning your promotion to Non-Woven Products Manager. I feel certain that, with your direction of the group you have working with you in St. Paul, our present products and new products will continue to improve both in quality and customer acceptance.

I can assure you that everyone in the East Central Division will do everything possible to promote, not only our present products, but any new and varied products which are developed by your staff.

Congratulations again, Al, and best regards.

Dear Al:

I have just read Al Redpath's letter outlining your new responsibilities.

Believe me it's a move that has been sorely needed since the reorganization of our division. Your past experience in the ribbon division will certainly stand you in good stead as far as future decisions are concerned, and I know that you can count on the entire ribbon sales force to back you up in any plans that you might have for the future.

I am very pleased personally that you have been made Products Manager of our division. I shall look forward to working with you even more closely in the future.

Best personal regards,

June 19, 1963

TO: ~~LA.~~ W. BOESE, 220-8W

FROM: A. H. REDPATH, 220-8W

Dear Al:

Effectively immediately, we are making some changes in your responsibilities in the Retail Tape and Gift Wrap Division.

In your new duties, you will become the Manufacturing Manager for non-woven products which encompasses all the manufacturing responsibilities of the Fairmont Plant. Mr. L. W. Brown, Production Manager, and Mr. D. J. David, Plant Manager, will report to you. You will continue to directly supervise the work of the ribbon and non-woven products laboratory with Mr. H. R. Courtney reporting to you. As Manufacturing Manager, you will be responsible to Mr. A. F. Jacobson. Any further announcements concerning your manufacturing responsibilities that you deem necessary can be made by Mr. A. F. Jacobson. I understand you and Mr. Jacobson have talked with Mr. Brown and Mr. David concerning this change.

In addition to the above new responsibilities, we are asking you to supervise and direct the product research, development, technical service, product application, marketing, advertising, publicity, and budget control on our art products. Since this program is a new experiment with us, a Product Merchandiser will be assigned to you, namely, Robert R. Martin, on art products, and you will direct his marketing efforts. On the art products, you will be responsible to me, and you will have a functional responsibility to the Divisional Sales Manager, H. F. Groth, for the selling of these art products.

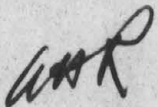

6/19/63

It is suggested that you immediately form a Steering Committee for art products, with yourself as Chairman, and invite the following people to serve on this Steering Committee: Bob Mueller, Bob May, Glen Wiese, Jim Searles, and Al Redpath, with Bob Martin as a guest to inform the Steering Committee. The Steering Committee should be called for regular meetings for establishing or changing any policy regarding prices, profit targets, packaging, distribution, sales or marketing plans. The Steering Committee should also decide when an art product has reached a point of commercialization and can be handled by established marketing and sales departments.

Your marketing budget on art products will be totaled in with the Division marketing budget under Ernie Moffet; however, a separate budget for this product line will be given to you and you will administer this budget. Naturally, Mr. Wiese will continue to give Bob May and Ernie Moffet monthly copies of your budget status. I would also like Mr. Wiese to continue to give Bob May, Ernie Moffet, and myself copies of all cost estimates on art products.

I would appreciate also your continuing to handle all patent and license matters pertaining to ribbon, equipment and non-woven products.

I wish you success in your new duties.

June 24, 1964

CONFIDENTIAL

TO: ~~A. W. BOESE~~, 220-8W

FROM: A. H. REDPATH, 220-8W

Dear Al:

This will confirm our recent discussions concerning changes in your responsibilities in the Retail Tape and Gift Wrap Division.

It is agreed that you will continue to hold responsibilities as Project Manager for our art products. In this responsibility, you will supervise and direct the product research, development, technical service, product application, marketing, advertising, publicity, and budget control for our art products.

Robert R. Martin, Product Merchandiser, will continue to be assigned to you on art products, and you will direct his marketing efforts as in the past. You will have a functional responsibility to the Division Sales Manager, H. F. Groth, for selling of these art products.

June 24, 1964

Effective immediately, we have agreed that you will drop your responsibility of Manufacturing Manager for the Fairmont Plant, and this will revert to A. F. Jacobson. It is also agreed that you will discontinue your responsibility for the Ribbon Laboratory since we are going to merge our Retail Tape Laboratory and our Ribbon Laboratory into one Division Laboratory for the Retail Tape and Gift Wrap Division.

In addition to your art products responsibility, effective immediately you will assume new duties, the title for which will be Manager, Long Range Decorative Product Research, Retail Tape and Gift Wrap Division. The function of your new position will be to develop fundamental proprietary and patentable new concepts of gift wrapping and decorative products; to direct and coordinate all long range technical research, market analyses, and sales potential for these new decorative products or new design and coloration of existing decorative products, so as to develop new sources of profit. A "Job Description" of your new responsibilities is attached for your convenience.

After you have had an opportunity to thoroughly study your new responsibilities and determine what is needed to do the job properly, we can discuss budgets and the amount and kind of manpower assistance you will need to develop new sources of profit for us from new decorative products.

In both your responsibility as Project Manager for art products, as well as your new duties for Long Range Decorative Product Research, you will continue to be responsible to the Division Vice President and General Manager.

I wish you success in your new duties.

AHR:hm

JOB DESCRIPTION

I. JOB TITLE

Manager - Long Range Decorative Product Research
Retail Tape and Gift Wrap Division

II. FUNCTION

To develop fundamental proprietary and patentable new concepts of gift wrapping and decorative products; to direct and coordinate all long range technical research, market analyses, and sales potential for these new decorative products or new design and coloration of existing decorative products, so as to develop new sources of profit.

Retail Tape and Gift Wrap Division

V. DUTIES

Survey both retail and manufacturing trades for long range decorative product ideas and acquisitions that could be allied to the Retail Tape and Gift Wrap Division.

Handles unsolicited new decorative product suggestions from all sources.

Develops new decorative product programs in the laboratory, specifying necessary action and target dates to assure efficient product commercialization.

Works closely with marketing and sales personnel to coordinate the accomplishment of the specific parts of each new decorative product program.

Works with outside groups or individuals so as to determine product acceptance and sales potential.

Works with Patent Counsel to develop a strong patent structure and makes recommendations to the Division Vice President on patent licensing agreements.

Advises the Division Vice President on all important matters pertaining to the long range decorative products program.

Will serve on the Division Operating Committee of the Retail Tape and Gift Wrap Division.

SERVICE AWARD BANQUET
OCTOBER 30, 1965

SEPTEMBER 27, 1965

TO: L. W. BROWN - FAIRMONT

FROM: A. W. BOESE - 220-8W

THIS LETTER IS TO CONFIRM THAT MRS. BOESE AND I WILL BE ATTENDING
THE SERVICE AWARD BANQUET FOR FAIRMONT EMPLOYEES ON SATURDAY, OCT.
30 AT THE INTERLAKEN GOLD CLUB IN FAIRMONT.

AWB:SAJ

GENERAL OFFICES • 2501 HUDSON ROAD • ST. PAUL, MINNESOTA 55119 • TEL. 733-1110

PLEASE REPLY TO: 710 NORTH STATE STREET • FAIRMONT, MINNESOTA

September 14, 1965

TO: A. W. BOESE - 220-8W

FROM: L. W. BROWN - FAIRMONT PLANT

The Service Award Banquet for Fairmont employees will be held on Saturday, October 30, 1965, at 6:00 o'clock p.m. at Interlaken Gold Club in Fairmont.

This year we will have four 15-year employees receiving awards.

We would be honored if you and Mrs. Boese could be with us that evening.

Since the pheasant hunting season will be on at that time, I would appreciate your letting me know whether or not you can be with us, a week or so in advance of the date, so that I can make motel reservations.

Mike

FROM: C. W. WALTON, 220-14E

Dear Al:

It has been brought to my attention that work which you performed in the non-woven fabric field, and which you turned over to the Irvington Varnish Division some years ago, has now resulted in a Patent on a Composite Film-Fabric Electrical Insulating Sheet. This is today a commercially profitable product for our Dielectric Materials & Systems Division.

I wish to congratulate you and thank you for your fine contribution, enabling this Patent to be issued.

Boese to Research Post

Alvin W. Boese has been ap-
pointed to the position of research
associate, new business ventures
division, it was announced jointly
by R. M. Adams, general manager,
new business ven-
tures division, and
A. H. Redpath, vice
president, retail
tape and gift wrap
division. Boese for-
merly was manager
of non-woven prod-
ucts, retail tape
and gift wrap divi-
sion. Appointment
to the position of research associate
requires approval of the president
of 3M Company. The position was
created in 1965 for recognition of
outstanding research accomplish-
ment, to provide the research
scientist an opportunity to advance
in stature and position without as-

Boese

suming burdens of administrative
responsibilities that would limit
his career as an experimental
scientist.

Boese started with 3M in 1930.
"It was in 1939 that he began his
long and productive association
with non-woven fiber research, de-
velopment and manufacture," said
the announcement. "He played a
key role in the establishment of
technology which led to products
sold by many divisions."

Earlier this year, Boese was
elected to the Company's Carlton
Society for outstanding technical
contributions to Company growth.
He was cited for research contribu-
tions to 3M technology in process-
ing and handling fibers into non-
woven webs, which have led to
such non-woven products as "Sa-
sheen" ribbon and molded face
masks.

Mr. Boese,

First of all, congratulations on your new appointment, and I wish you much success in your new venture.

Next, you received about eight copies of your announcement letter and I was wondering if you wanted them sent out to a few individuals or just hold them?

Sheryll

Subject:

July 1, 1968

TO OUR ORGANIZATION

We take pleasure in announcing the appointment of Mr. A. W. Boese as Research Associate, New Business Ventures Division. He will report to the division's technical director, Dr. W. S. Friedlander.

Elected last year to 3M Company's Carlton Society, Al is an outstanding example of the creative, innovative individuals who have built the company's reputation for new products. Starting with 3M in 1930, it was not until 1939 that he began his long and productive association with non-woven fiber research, development, and manufacture. Al played a key role in the establishment of technology which led to products sold today by many of the company's divisions.

The position of Research Associate was created expressly for the recognition of outstanding research accomplishment and offers the dedicated individual an opportunity to maintain his research career without the burden of administrative responsibilities. In accordance with requirements, Al's appointment has the approval of the President of 3M Company.

Until space becomes available in Building 219 later in the year, Al will continue his work in the Tape Laboratories, Bldg. 230, Extension 35297. We anticipate that the results of his research will be made available most quickly through the well-established pilot group of the New Products Development Department; but, as always, Al's advice and experience on non-woven technology are available to anyone in 3M Company with a need to know.

We hope you will join us in extending congratulations and best wishes to Al Boese in his new position.

TECHNICAL DIRECTOR'S GUIDE

POSITIONS DESCRIPTIONS

GROUP T-6

(Note T-6 Position Description
for Engineering and Manu-
facturing - Page 14)

TITLES

Corporate Scientist
~~RESEARCH AND/OR DEVELOPMENT ASSOCIATE~~

DESCRIPTION

1. Level of position normally considered equivalent to that of a higher level Laboratory Manager or a Technical Director.
2. Is known and recognized both within and outside the Company as outstanding in specific professional field and has a record of distinguished scientific contributions.
3. Has exceptional ability for independent research and has made outstanding contributions to the Company's advancement in applied or basic research.
4. Is broadly familiar with Company-wide problems related to a particular field and is available as internal consultant.
5. Conceives and executes new programs, limited only in that they are adequately related to divisional product area or professional field. Has full technical direction of these programs.
6. Assistants will be made available at the discretion of superior.
7. Administrative responsibilities will normally be limited to the appraisal of individuals assigned.
8. Will be responsible to a Director (Central Research) or a Technical Director (Product Laboratory) and will be expected to work closely with one laboratory segment of own choosing. May change affiliation from one segment of the laboratory to another, with the approval of superior.
9. Annual budgets and requests for capital equipment will be subject to the normal approval procedures.
10. Has the privilege of attending scientific meetings at own discretion.
11. Final approval of appointment to this position is reserved for the office of the President of the Company.

on March 25. We do want
to be a part of the gift
however. Check is enclosed.

Grace & Al Parsons

Mar. 6, 1975

Dear Marion & all,

Golly-Marion, your sketch of Al with pipe in hand - or mouth - is perfect. He sat on anything - even the floor or ground - but for a very brief time & then up & walking circles to concentrate again. When he rearrived - I knew it - & rearrived too & both made the days longer & more of them for many many years. There was no time for monotony and dullness. You know, Marion, we even forgot we were in existence; work & other people seemed always to be most important.

See Rev - I'll bet Al questions the leg sticking out from the painting, he's gazing at. He'll have plenty amusing remarks about that. So will Arthur & Patrick.

Your sketch of Al + the painting, Marion, brings back to mind the hundreds of lonely people who all worked in many ways, very hard, + had fun + pleasure doing same + also diversion + amusements sprinkled in any old time no matter how busy. Deaths, illness etc were never forgotten either. We sure have a perfect large small family Department, Marion. You + all those organized together are preserving the same family type affection, Marion, which will also keep it successful always,

Love,
 Best, Vir & boys

Dear Al,

I will be in Colorado next week on a skiing vacation with my sons, and so I am sorry to have to miss the retirement party in your honor. I do, however, want to take this opportunity to express to you my congratulations and best wishes!

Your significant contributions during your many years of 3M service represent a record of which you can be very proud, Al, and I am sure you are now looking forward to enjoying the leisure time that retirement will bring.

Good luck to you and Irene and much happiness and contentment in the years ahead.

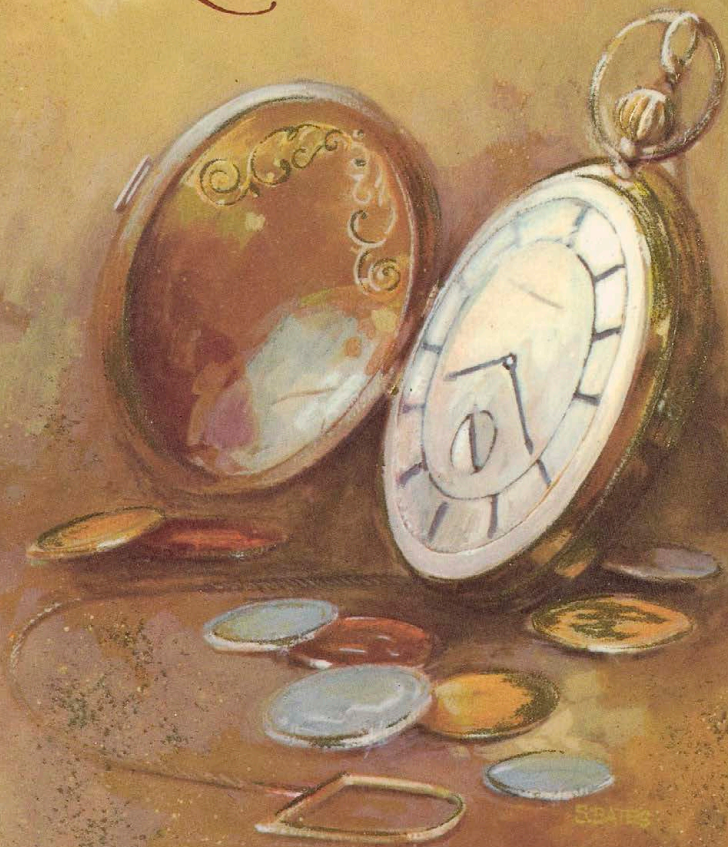

Kindest personal regards.

Sincerely,

A handwritten signature in dark ink, appearing to read "E. B. Moffet, Jr.", written in a cursive style.

Next time he retires
let's write it in
less haste.
Or at least,
proofread
it!

There's no
"E" in it!

\$5 cash for gift
for Al enclosed!
GT,

Unfortunately this
is in the middle of
our planned vacation!

This is pretty sneaky!

What you should have said was:
"made out to M.W."
