Ms. Betty Mc Graw
Volunteer Services Coordinator
St Peter Treatment Center
100 Freeman Drive
St Peter, Mn 56082
(507) 931-7250

Dear Ms. Mc Graw:

First let me thank you for the quick response on the "History of St Peter State Hospital" booklet. It arrived home before we did, both my wife and I read it, with great interest, that Friday evening. This is something I would surly think the Minnesota Historical Society should re-print in their monthly magazine.

It was also very nice talking to you and the other lady (failed to get her name) last Wednesday noon. Her brief tour of your museum was to me, very interesting; so much history we weren't even aware existed. We would like to set-up a tour of the museum for ourselves, in the future, and when the campus historian is available. If not against hospital policy, I would like to take pictures of the reproduced rooms and furniture used at the different time periods. I will call and make arrangements sometime in the near future.

We would like to acquire the books "A Mind Restored" the story of Jim Curran by Elsa Krauch and another book that you mentioned, which was written by a retired hospital staff nurse; "So You Work At The Bug House". If you know of any place we could purchase either or both, it would be appreciated.

Find enclosed, the patient burial listing for St Peter Hospital that we have computerized. There are a number of burials that are missing from our file, namely; Record Book #1 (0 to 48 of the original numbering and 1 to 521 after the re-numbering), Record Book #2 (687 to 750 of the original numbering and 166 to 240 after the re-numbering), and Record Book #3 (751 to 839 and 241 to 329 after the re-numbering).

If Dr. Erickson is interested any of this data for his planned book, he is free to use it. We could provide him with this data on computer disk for entry into his Word Processor which would eliminate re-keying. All of our data is computerized using "Q & A Write" as our Word Processor and is on an IBM Compatible Computer with both double and high density disk drives in either 5 1/4" or 3 1/2" format.

Also, we do photo copying and would be willing to donate our time to toward Dr. Erickson's book by copying (at your campus) any old photo's or documents he would like to include in the book. This is interesting history that should be preserved for future generations.

Yours truly;

Don Lindemann
Don Lindemann
