

The bids were referred to the Engineer for study and recommendation. The Public Hearing on water project 1962-1 was opened by the Acting Mayor.

Mr. Ray Faricy, Attorney for Don Voge, 6000 Highway #8 declared that due to the fact that there would be little or no benefit to the property owner he represents, that he must object to the improvement and to the assessment that would follow if the improvement was made.

The Engineer explained that the hearing was ordered by action of the Council, as there was a definite health problem due to the contamination of water at two of the homes affected by this improvement.

Mr. Arthur Moschkau, 8330 Long Lake Road and Mr. Rodney Robinson, 8340 Long Lake Road stated that their homes were the ones mentioned by the Engineer and that they were in favor of this improvement. One of the property owners, Mr. Charles Nelson, was unable to attend the meeting and Mr. Sullivan contacted him by phone. Mr. Sullivan reported that Mr. Nelson was in favor of the improvement, and had been informed of the probable assessment this improvement would incur.

The Acting Mayor declared the hearing closed.

Mr. Sullivan stated that due to the fact that a portion of the land would become Village property and could be used for a park, that the Village would pay approximately \$1200.00 or 1/4 of the full price.

The Acting Mayor asked for formal objections to the project.
