Any information you can add to this form will be most valuable to future historians. The questions below are only a guide. Feel free to add other data, especially family or pioneer stories concerning the farm and the area around it. This is not a requirement for Century Farm certification.

From whom was the farm purchased <u>Hovement</u>
How many acres were in the original parcel80
What was the cost of the land per acre Seeing he Homstered I'm not suce
Where was the first family owner born <u>Jermany</u>
Did he/she engage in any trades or occupations other than farming mo
If so, please list
Was this a homestead yes
Is the original home, any portion of it, or any other original buildings still standing
When was the present home built 1974
What were the farm's major crops or products Dairy, Corn, oats, alfalfa
Additional comments: as the history goes, Leorge Heydmann landed in
Evanville. Fl. and lived these for 3 yrs. before coming to Mw. by
Steamboat, & landed in Hay Creek near Red Wing, and builta
sod house in early nov. Two small children had to slapp in the
mildel to kepp from freezing to death. He walked to taribalt for
work in spring, and earned 40 for the summer & found out in
the fall, that the co. was brokse, so went home with nothing.
They lived on Corne bread for 3 yes. + Then he cleared small
patch, seed some wheat to howest of took it to Forst Mills to
grind, which was rund bye a Water wheel, first wheat bread
in more than 3 yes, then in spring moved with open to the
Zumbrota areas
and to think people think it's hard now. Mail application to:

From whom was the farm purchased Nicholas Watry
How many acres were in the original parcel200
What was the cost of the land per acre\$39.00
Where was the first family owner bornCralsheim, Germany
Did he/she engage in any trades or occupations other than farming ^{No}
If so, please list
Was this a homestead
Is the original home, any portion of it, or any other original buildings still standing
When was the present home built 1967
What were the farm's major crops or products hay, oats, wheat, corn
Additional comments: see attachment

Carl Weigand Century Farm

The James and Kay Weigand farm site, located three miles west of Wendell at the intersection of Grant County Road #3 and Minnesota State Highway #55 in Lawrence Township, has been owned by the Weigand family for over a century. James' great-uncle, Carl Weigand, made the original land purchase during the summer of 1903.

Carl was born December 7, 1874 on a small farm near the town of Crailsheim, Germany. He was raised in the Lutheran faith and attended school there. At the age of 18, he immigrated to the Rockford, Iowa area where his two brothers, Fred and George Weigand, had already begun their farming careers. In 1900, Carl and his brothers made the move to Grant County, Minnesota to continue in the business of farming.

Carl lived with George and his family until he established his own farm in Lawrence Township of Grant County. On July 23, 1903, he purchased the SW1/4 and the SW1/4 of the NE1/4 of section 25 for \$39.00 an acre from Nicholas Watry. Several years later, on September 9, 1922, he purchased most of Lot 1 in section 25 from Howard Weaver for \$125.00 an acre.

Carl married his sweetheart, Mary Reu, on July 17 of 1903 at a ceremony in Fort Atkinson, Wisconsin. Mary was born in Strasheim, Germany on June 14, 1881. She was baptized and confirmed in the Lutheran faith. As a young girl, she came to America with her family.

Carl and Mary had two children. Their first child, Ernest John, was born on October 19, 1905 and Edith Louise, their second child, was born December 14, 1909. Besides giving birth to her own children, Mary was called on by her neighbors to assist in the births of their children. It is also said she loved to visit with her family and friends in German rather than English. The family belonged to the St. Paul's Lutheran Church in Nashua, Minnesota which was located seven miles west of the farmstead.

Edith married Gustav Bensch on February 26, 1930. They lived one mile south and one and one-half mile west of Wendell, Minnesota. Tragedy struck, however, on January 16, 1932, when Edith died from an infection in her cheek. Edith and Gustav did not have any children. She was buried in Riverside Cemetery north of Nashua.

On October 17, 1929, Ernest married his sweetheart, Martha Magdalen Hundt, who lived two and a half miles south of Tintah, Minnesota. They had one child, Virgil Robert, who was born in Fergus Falls, Minnesota on September 18, 1934. They lived with Carl and Mary.

Ernest continued to farm with his father until tragedy struck the family again. Ernest became ill with double pneumonia and died on January 8, 1936 at the age of 30. He was laid to rest in Riverside Cemetery north of Nashua beside his sister.

Martha and her one-year-old son, Virgil, continued to live with Carl and Mary until Martha's father, Gustav Hundt, died in 1939. It was then Martha and her young son moved to Tintah to live with her mother, Henrietta Harmel Hundt.

In 1942, Martha married Frank Martin. It was at that time Martha and her son, Virgil, moved to the Martin farm north of Nashua just south of the Riverside Cemetery. However, Frank developed asthma and the doctors advised him to move to a warmer and dryer climate. In 1945 Frank, Martha and Virgil moved to Arizona to make their home at Coolidge and in 1948 at Superior. Frank passed away in 1956. Martha married Edgar Partch in 1957. Martha died in 1975 and is buried in Double Butte Cemetery in Tempe, AZ beside Frank.

Carl's grandson, Virgil, married Annette Tomerlin at Superior, Arizona in 1955. He worked throughout the state of Arizona for Mountain States Telephone and Telegraph, known today as Quest Communications, and was assigned to the Flagstaff region in 1956. Annette worked as a first grade teacher for 28 years. They have two sons, Tim and Gary along with one granddaughter, Christi, and three grandsons, Nathan, Gary, Jr. and Cole.

It was during those difficult years following the death of their son and daughter, and no one to take over the farm, that, in 1939, Carl and Mary rented out the land and moved into Wendell. In their later years, Carl and Mary were cared for by their son-in-law, Gustav Bench and family. Mary died on October 29, 1951 of cancer. Carl lived in the Pioneer Nursing Home in Fergus Falls for several years prior to his death on October 25, 1960. They were buried in Riverside Cemetery north of Nashua beside their daughter and son.

There were several renters who farmed the land and lived on the farm site after Carl and Mary moved into Wendell. They were: William Lohmeyer, William Reu, who was Carl and Mary's nephew from Appleton, MN, George Bartz and Clifton Kolle. In 1947, August and Evelyn Weigand, Carl and Mary's nephew and wife, purchased the farm.

In 1948, August rented the farm to Clifton Kolle for one year. In 1949, August begin farming the 160 acres, but rented the 80 acres by Ash Lake to his brothers, Johnnie and Willie, who farmed the north and south 40s respectively through 1956. Others who lived in the farm home, but did not farm the land were the families of: Martin McMann, Robert Thiel, Gerald Bullis, Clair Weigand, and Merwin Adams.

In 1950, the spring was very wet and field work began much later than normal. When conditions improved and tillage was possible, August called on his oldest son, James, who was eleven years old at the time, to help him work the ground in an effort to plant the crop as quickly as possible. James continued to help with the farming activities each year until 1957 when he began farming full time, having graduated from high school in 1956 and completed his six month active tour of duty with the US Army Reserve in 1957.

In 1959, James married Kay Peterson from Barrett, Minnesota. They lived in a 55' X 10' Rollohome mobile trailer across the driveway from his family's home. In 1960, James' younger brother, Curtis, having completed high school in 1959 and six months active duty in the Army Reserve, began farming full time. In 1968 and 1970, James and Curtis became the owners of their great-uncle's farm.

The farmstead gradually changed over the years. In the early 1960s, four – 5000 bushel grain storage bins were erected on the farm site. Several years later, a strong wind damaged two of the bins and the other two were moved off the site. These bins were replaced with four – 10,000 bushel steel grain storage bins. In the late 1970s three more 10,000 bushel bins were added to the site. During the summer of 1966, the old farm house was taken down by interested individuals from Fergus Falls, Minnesota for use of the lumber. By 1967, Curtis and his new bride, Laraine Lande of Minot, North Dakota, had built a new three-bedroom ranch style house on the farmstead. They moved into their home that summer. In 1968-1969, the barn was dismantled board by board by a family from the Fergus Falls area.

In 1971, Curtis decided to discontinue farming and purchased the Phillip 66 bulk fuel oil business from Ivan Miller. He and his family moved into Wendell that fall and sold their share of the farm to James. James, Kay and their two daughters, Debra, (1960) and Laurie (1961), moved into the house on the Carl Weigand farmstead in the fall of 1971.

Along with his farming activities, James drove school bus for the Elbow Lake-Wendell Schools from 1960 through 1979. In the 1970s, Kay completed her BS degree in elementary education and taught kindergarten in Fergus Falls. The Weigands also continued to expand the farm acreage from 240 acres to 1660 acres between 1975 and 1995.

Over the years, James also became an aerial crop duster and worked for Elbow Lake Aviation for several years. In 1981, James and Kay incorporated their farming and aerial crop spraying business to form Weigand Air Ag Inc. They continued to provide aerial crop dusting services for area farmers until 1995 when they sold the business to J & H Aviation of Elbow Lake, Minnesota.

In 1979, the farmstead changed again. A 100' by 50' Butler hanger/machine storage building was erected to store the airplane, a Piper Pawnee, along with the farm machinery. It was built where the old machine shed/granary, hog house and small car garage once stood. Some 40 to 50 Colorado and Blue Spruce trees were planted over time to enhance the appearance of the yard and provide weather protection for the building site.

Carl and Mary would be in awe of the changes that have taken place over the past 100 years in the agricultural industry. Two major changes are the size of the family farm plus the size and power of the farm machinery. Carl tilled the soil with a team of five horses pulling a two-bottom plow or a team of four horses pulling an 8' digger. He planted the crops with a team of four horses pulling a 10' drill. At corn planting time, he used two horses on a 2-row planter. Today a 54.5' field cultivator, pulled by a 500 horse-power Case IH Quadtrac tractor, is used to till the soil in the spring. A Case IH 40' air drill, pulled by a 215 horse power Case IH tractor, is used to plant the wheat and soybean crops. In the fall, a 40'chisel plow is used to complete the tillage. The harvest operation today would amaze them as well. A self-propelled Case IH combine with a 30' header is used to harvest the crops.

The Weigand family has had a long tradition of farming in Minnesota on the western side of Grant County along the edge of the Red River Valley, beginning with George and Fred in 1899 and Carl in 1903. Will "the farm" continue to be actively operated by the family for another 100

years? At this juncture, it is highly unlikely. However, these forefathers would be pleased to know their legacy has been carried on into the 21st century.

Any information you can add to this form will be most valuable to future historians. The questions below are only a guide. Feel free to add other data, especially family or pioneer stories concerning the farm and the area around it. This is not a requirement for Century Farm certification.

From whom was the farm purchased Leoumarie Hafner Estate
How many acres were in the original parcel
What was the cost of the land per acre
Where was the first family owner born Spaichingen, Germany
Did he/she engage in any trades or occupations other than farming No
If so, please list
Was this a homestead No, it was homesteaded by Anton Kull in 1855.
Is the original home, any portion of it, or any other original buildings still standing yes, the house, box a granary, wood shed, corn orb
When was the present home built unsure of exact date
What were the farm's major crops or products Corn, hay, grain, saybeans, dairy cows
Additional comments: My husband and I chave now lived on chis
garents farm Which we purchased Following Their deaths
3 years ago and are in the process of updated updating
and repairing many things. There are many stokies
that naturally come up during the process of coming
across old remembered items, pietures, etc. Here is
Something special about owning a property where
numerous ancestores have walked before.

From whom was the farm purchased General Land Office of the USA - Homestead Act - 1900 Homestead
How many acres were in the original parcel 160
What was the cost of the land per acreunknown
Where was the first family owner born John Priest Pelican was born in St Robert, Quebec, Canada; came to Minnesota as a young man. Eleonore born in St Aime, Quebec. Previously they farmed Did he/she engage in any trades or occupations other than farming Probably near Centerville Anoka County
If so, please list Other vocations are unknown as well as the reason for migrating to Minnesota. Likely they did some logging. Was this a homestead Yes
Is the original home, any portion of it, or any other original buildings still standing <u>No original buildings</u> remain standing; the house crumbled about 10 years ago. When was the present home built <u>Present home built in 1946 on seven adjacent acres of land purchas in the 1920s</u> .
What were the farm's major crops or products Potatoes were the major cash crop.
Additional comments: (see attached)

Peloquin Century Farm Application Supplement

My grandparents were Alfred P Peloquin and Hulda C Peloquin, the second set of family owners, and they raised ten children on the homestead. Alfred and Hulda were at one time owners of the Woodlands Hotel in Bigfork. Alfred had several vocations including being a logger, a meat hunter for logging camps, a deputy sheriff, a log driver, and a boss on log drives. He was one of many of the original organizers of the Itasca Insurance Company. With three other friends my grandfather had an enterprise building cabins for new homesteaders.

Alfred and Hulda met in Bigfork. She had come to Minnesota alone from Sweden as a sixteen year old, initially to the Cokato area and, with friends, later moved to Bigfork as a new opportunity. Our family was like many in the area at the time. The homestead farm could not produce an entire living but the family did not go hungry.

My grandfather had a story about the preliminaries of moving to Bigfork. When he was still going to school and before he had finished the eighth grade word got out that homesteads were about to be granted in the Bigfork area. He was too young to be a homesteader himself, but his parents offered to homestead a parcel which would be his, or else he could continue to go to school. The adventure was an easy choice for my grandfather and with his parents he soon became a Bigfork resident.

The most common method of getting to Bigfork at that time was by logging train from Deer River. The Minneapolis & Rainy River (referred to as the 'Gut and Liver Line' by then and now Bigfork and Effie residents for its legendary reputation and lack of opulence) ran between the two towns until the 1930's and in fact the right-of-way crossed this family homestead on the north side of Bigfork.

Until 1906, the usual last leg of a trip to Bigfork started with the M&RR 'Gut and Liver Line' from Deer River to Turtle Lake, located between Marcell and Bigfork. Passengers would then cross Turtle Lake by boat. And, finally a sleigh ride or wagon ride from there to Bigfork. The railroad was extended to Bigfork and Effie in 1906.

Great-grandfather John Priest "Pelican" was unable to read and write English which leads to the incorrect spelling of his last name on the original land title. It is recorded that he "signed with his mark", an "X". John's father had been a voyageur who had been to Minnesota with the fur trade early in his life before settling and raising his own family in Quebec. As the story goes, John's father had been able to recognize places he had visited many years earlier near St Paul from land form descriptions given him by John.

During the 1930's when the depression hit, my grandfather lived in Seattle for a short time and worked as a gardener for a wealthy estate owner to send money home. He returned to Minnesota and became a Watkins dealer near Rushford, which was his vocation for the rest of his life. Even from that distance in southern Minnesota, he was able to return to Bigfork only a few times per year from that point in his life.

Throughout the prolonged periods of my grandfather's absence, the farm and all of the chores were tended to by my grandmother Hulda and her children, which included my mother. I can personally recall the haying process which required all the family make shocks from dry hay which were later tossed onto a wagon. Then a hay scissors was used to move the hay to the mow of the barn for winter usage. As it was not an easy existence, the Abstract is dotted with historical references whenever it needed to be mortgaged or money borrowed against it.

This Homestead farm initially supported the family with cows and poultry and a horse for heavy work. Potatoes were the main crop raised for resale to the logging camps and others. During the mid-fifties, my uncle Earl also grew oats for my father's logging camps. In recent years the farm has provided an annual hay crop for a neighbor. And, for the past thirteen years the mature aspen and other timber has been harvested and is the cash crop.

My uncle Earl was the primary owner for most of these years. He never married, was a World War II vet, and worked with the Itasca County Land Commissioner as a surveyor. Upon his death, his siblings formed a limited partnership to retain the land.

GEORGE B. YARNS (1874) is an early day settler of Middletown township, having come to the county when ten years of age and having spent nearly all of the rest of his life here. He owns a quarter section farm on section 3.

Mr. Yarns is a native Minnesotan, having been born in Fillmore county July 12, 1864, the son of Henry B. and Louisa (Green) Yarns, who were born and married in Broome county, New York. When George was nine years of age the family moved from Fillmore county to Dickinson county, Iowa, and the next year, 1874, came to Jackson county. The head of the family filed a homestead claim to the land now owned by our subject, but on account of the grasshopper scourge the family were obliged to move away for a period of three years and they were unable to prove up on the claim. Returning to the county the land was reentered as a tree claim, but before the time came for proving up Henry B. Yarns died, and the son made a homestead filing to the land and finally secured title.

George worked for his father on the farm until he was twenty-one years of age, and then, because of the feebleness of his father's health, he took the active management of the farm. His father died in 1888 and his mother in 1899. Mr. Yarns has conducted the farm ever since becoming of age. Our subject has held a number of local offices in his township. He was elected road overseer when twenty-one years of age, has held the office of supervisor and town clerk and is now township assessor. He is a member of the Yeomen lodge.

Mr. Yarns was married in Jackson county February 19, 1890, to Alice Danby, a native of Rock Island county, Illinois. The following named five children have been born to this union: Maurice D., born November 26, 1890; Harry A., born April 22, 1893; Ethel M., born

April 30, 1895; Brian L., born November 14, 1897; Percy A., born March 14, 1903.

HARRY A. YARNS, the son of George B. Yarns (Volume I), was a well-known, active farmer in Middletown township. Harry became a teacher and taught from 1914-18. When his parents retired to Jackson in 1916. Harry and his brother, Morris, continued to farm.

On March 23, 1918, Harry was married to Ella J. Libra, and in that year, he took over the family farm. He continued to farm it until 1947.

From 1918-1946, Harry served as Middletown township assessor, was on the district 60 school board. He was president of the Farmers Cooperative Creamery. He was part owner of the Jackson Cold Storage, with lockers also at Alpha and Bergen. He was an insurance agent for Northern Mutual Insurance Company, and also a member of the Farm Bureau.

Harry and Ella are the parents of five children: Wayne Angus, born January 21, 1919; Keith Edgar, born June 22, 1920; Hazel Alice, born April 28, 1923; June Olene, born June 22, 1925; and Dale Arnold, born July 9, 1930.

Upon retiring in 1947, their son, Keith, took over the farm which he continues to farm. Keith was married to LaVon D. Lenox on March 27, 1945. They are the parents of two children: Donald Keith, born April 28, 1950; and Sue Ellen, born December 17, 1957.

Any information you can add to this form will be most valuable to future historians. The questions below are only a guide. Feel free to add other data, especially family or pioneer stories concerning the farm and the area around it. This is not a requirement for Century Farm certification.

From whom was the farm purchased Thor wald + Hilma Bjorn lie + Ole Stemsru d
How many acres were in the original parcel 320 acres
What was the cost of the land per acre $\frac{8}{30}$, $\frac{49600}{1000}$
Where was the first family owner born Halvor Olson was born in Norway
Did he/she engage in any trades or occupations other than farming
If so, please list
Was this a homestead/ 0
Is the original home, any portion of it, or any other original buildings still standing
When was the present home built Halvor built the current home in 1914
What were the farm's major crops or products Corn, Wheat, Short-horn Ca+tle
Additional comments: Halvor + Mary purchased 160 acres in 1903.
In 1911 they purchased an adjoining 160 acres
from her parents, the Finstand. In 1919 they gave
the farm the name "Highland Park Stock Farm" for
the registered short-horn cattle that they raised . Halvor
+ Mary Olson farmed this land, until their son and
his wife Henry + Alyce took it over in 1940. Henry+Alya
farmed it until the 1970's when their son Harlowe + his
wife Marilyn took over. Kevin, son of Harloue +
Marilyn Started farming it in the 1980's, Alyce continued
to live on the farm after Henry's death in 1973 until
1997. Kevin + his wife Susan bought 80 acres with
the haildings in 1997 and moved here. Alyce retains
ownership of 160. Mail application to: acres. A grandaughter

Julius and Emilie were married June 10, 1883. They had 13 children including Bertha, Mathilda (Tillie), Gustav (Gus), Amanda, Olga, Emma, Millie, Albert, Ernest, Rudolph, George, Adelia, and Eva. As far as I know they were all born at the farm.

During the 1930's Julius and Emilie moved to town and some of the boys farmed the land. Then in 1942 Rudolph bought the farm from his mother and siblings. He farmed until his retirement in 1964. Rudolph died in 1986 leaving the farm to my mother, Ann, who continued to live on the farm and rented it out. Ann moved into an apartment in Tracy in 1999 and to the Colonial Manor in Balaton in 2003. She passed away in January, 2005.

In 2003-2004 Ann's son, Larry, and wife, Sue, renovated and remodeled the farmhouse and moved in on April, 2004.

A history of the Klobe family farm

By Albin Klobe the 4th owner

My grandfather, Anton Klobe bought the 80 acre farm in 1905 from John Tischlader. Anton farmed the land with his wife Mathilda until his death in 1915.

My father Herman J. Klobe bought the farm from Mathilda and farmed the land with the help of his wife Josephine and their 5 children until his death in 1945. After Herman's death, my mother and I continued the farming operation which consisted of dairy cows, hogs, chickens and crops of corn, oats and alfalfa hay.

In 1962 my wife Clara (Teddy) and I purchased the farm from Josephine Klobe, when she moved into an apartment in Glencoe. We continued operating the farm until 1968 when I started working off the farm. We sold the dairy herd but continued to raise beef and hogs, along with corn and soybeans. We later discontinued the farming operation and rented the land to a neighbor.

I lived on the farm for 75 years and my wife for 49 years, raised 5 children there, and in 2003, sold the farm to our son and daughter-in-law, Alan and Reece Klobe, who now live there with their daughter Kendra.

Original Farm Site: Purchased by Anton Klobe in 1905

Porch and second story added

Alan Klobe (youngest) 1967 Grew up on the farm

Albin Klobe 1945 Lived on the farm for 75 years

Sold in 2003 to Alan and Reece Klobe
