Dear Dr. O'Keefe:

Re: SCHMID, Lee Mr.  
Avon, Minnesota

The following is a report of a psychiatric consultation I have done on this date in the Stearn's County Jail with the above captioned patient.

This 39 year old white married farmer was mildly anxious and quite aloof in his manner of relating and answering questions, however, he remained superficially cooperative and was able to warm up very slightly toward the end of the 40 minute interview when I reassured him I had no intention of attempting psychiatric treatment with him. Mr. Schmid gave the correct and proper answers to all mental status questions and the picture he presented, only upon questioning, was that he had been jailed after drinking one day only, probably by his father, but he really didn't know exactly whom. He states that he did not know of any crime he had committed or any law he had broken, although he guessed that drunkenness was against the law in that some legal charge must have been made and he was in jail. Mr. Schmid never volunteered more information than he could slip by with and he stated that he really knew of no reason for a psychiatric exam. He stated that he was nervous and worried, and this he related to a busy work season on his mortgaged farm and a need for him to be there performing his chores.

The question of the presence of any mental disorder was thoroughly reviewed and I can find no evidence of psychiatric disease. Mr. Schmid appears to have what superficially looked like ideas of reference in regard to his family and this in relationship to the reason for his being jailed, now the second time within a year. He feels slightly persecuted in this respect when asked directly about this and stated that he knows of no reason for the jailings. He specifically and in an itemized fashion, was able to deny any misbehavior, any assault or neglect or marital problems and stated that he has never abused any of his children. When it was explored with him that, first in February, 1963, his wife had him jailed, now again another member of his family, probably, had him jailed and that his assertion of no difficulty is hard to add up to the recourse his family has taken, the patient was simply silent and could not be led to discuss the matter further.

0032-2009

James P. O'Keefe, M.D.  
Re: Lee Schmid

- 2 -

July 8, 1963

He was able to relate that he had a sober period with A. A. and a year ago a good working summer, staying dry. After his fall work was done, he felt that he could competently hold his liquor and that he was controlling his drinking by will power and not through his A.A. steps, and he relates in November of last year, he again resumed drinking. He apparently has been hospitalized several times for drying out, was jailed in February of this year, and the charges dropped after he voluntarily went to Willmar, however, he did not stay a full 60 days and as he was a voluntary patient, this could not be pushed longer than the 24 days that he did stay. He apparently resumed drinking shortly after leaving Willmar in that he needed another drying out hospitalization early in April of this year.

My diagnosis is sociopathic personality, addiction, alcohol, chronic.

My recommendation would be that this patient be committed by a court order to the Willmar Alcoholic's Rehabilitation Center and following 60 days of being dry, that some type of mandatory provision be made for him to attend A. A. If no legal recourse can be made for him to attend A. A. and if some type of settlement cannot be obtained between his family and Mr. Schmid, my assumption is that he will very likely continue drinking. I see this patient's mistake in terms of his illusion that after a sober period he has learned enough so that he can drink socially and with a degree of temperance and not get in trouble with alcohol. This obviously is not true and until he again takes and follows A.A.'s first step, I see no sobriety in store for him outside of one of society's correctional institutions. If his behavior is different from what he says, notably irresponsible and assaultive, the decision to use one of society's corrective institutions as a method of controlling his sociopathic behavior should rest with his family.

Sincerely yours,

  
Donald C. Carter, M.D.

Describe patient's adjustment and personality prior to onset of illness. (Significant facts of early life. Include school adjustment and age at which highest grade was attained. Describe any anti-social behavior.) Give source of information.

One year Business College. Above average achievement. Apparently, patient was a "model child." At age 35 patient moved to parents' farm home to run the farm. Patient then started drinking heavily. Since then it has been a chronic problem. Married at age 22--has nine children. Separated in 1967 after wife took action. No anti-social behavior noted; patient has always been very sociable.

Source of Info: Wife

WORK RECORD: Give jobs in chronological order. Get verified information whenever possible.

Employer and Address	Kind of Work	Dates	Wage	Reason for Leaving

Construction Work	Carpenter's helper	2/mo.	unknown	laid-off
St. John's Construction	laborer	2/mo.	unknown	laid-off

MEDICAL HISTORY: Indicate only major events believed by patient or family to be significant in relation to present illness. Give dates and places of any previous hospitalization for mental illness, senility or alcoholism. Include any intemperate use of alcohol or drugs. Does patient have any acute or chronic illness or handicap? Give source of information.

July 17, 1963--Willmar State Hospital for alcoholism--committed. Revocations of Provisional Discharge; Voluntary Admission and under commitment approximately 5 times.  
 July, 1967 and January, 1968 entered V.A. Hospital, St. Cloud, for alcoholism and severe depression.

Patient drinks heavily, smokes moderately.

Describe patient's home situation including family relationships and attitudes. (What does family think of patient? What does patient think of family?) Indicate briefly, living conditions (physical) in relation to care of patient.

Older children now realize father is sick. The little children idolize father and don't understand why he can't be home. Mrs. Schmid is concerned for her husband and yet she will not put up with his drinking. She feels he must prove himself first. Family is much better off financially and emotionally without their father in the home.

Physical conditions of home good.

Resources available for care of patient if not hospitalized: Availability of suitable nursing, boarding, or relative home, etc.

We, the Board of Examiners in the above entitled proceedings, hereby certify and report that on \_\_\_\_\_  
 at \_\_\_\_\_ o'clock in the \_\_\_\_\_ noon of said day we met at the Court House in \_\_\_\_\_, Minnesota,  
 for the purpose of assisting the court in determining whether the above named is a \_\_\_\_\_

\_\_\_\_\_ County Attorney, appeared in behalf of petitioner, and

 was personally present and was examined and observed by us. All proper testimony offered was received and considered.

From the examination so made by us and upon due consideration of all the evidence received, we find and determine that
