I tested Margaret Rooney at her home Friday, July 9, 1926. The chronological age is 14 years, no months. The mental age, using a Kuhlman Revision of the Binet, was 6-3/8 years. This gives an intelligence quotient of 46.

The child is unusually self-conscious and nervous, but responded well to the test when praised for successes.

It would seem that in the event of the mother's inability to care for her, there would have to be State care. For this reason, I would recommend commitment to the guardianship of the State Board of Control. While it is not certain that a child with an intelligence quotient of 46, and who is fourteen years of age could receive training at the institution, it might be well to consider institutionalization when there is a vacancy, at least to see whether she could be classified with the children there receiving training. Otherwise, so long as the mother is able to care for her, there would be no reason for institutionalization unless the child is happier under such a situation.

Report of the Board of Examiners

We, the Board of Examiners, in the above entitled proceeding hereby certify and report that on the 13th day of July, 1926, at 3.30 o'clock in the afternoon of said day, we met at the Court House in the City of St. Cloud in the County of Stearns, State of Minnesota, for the purpose of determining whether Margaret Rooney is a feeble-minded person, as alleged in the petition in the above entitled proceeding.

James J. Quigley County Attorney of said County,

PETITION FOR DISCHARGE OF  
GUARDIANSHIP

In the matter of the Guardianship of

Margaret Rooney

Mentally Deficient - ~~Epileptic~~

To the Probate Court of said County:

The Petition of the Commissioner of Public Welfare respectfully shows:

That by an order of this Court (acting for Stearns County) made on July 13, 1926 the above-named was adjudged to be mentally deficient - ~~epileptic~~ and the State Board of Control of the State of Minnesota was duly appointed the guardian of her person and accepted that trust; that said appointment has never been revoked; and that the above-named is now under the guardianship of the Commissioner of Public Welfare.

That Margaret Rooney has been supervised by the Stearns County Social Service Center which reports that she functions adequately so that guardianship is no longer needed; therefore, I recommend discharge of guardianship.

Wherefore, your petitioner prays that the Court inquire into the facts and an order discharging the Commissioner of Public Welfare as guardian of the above-named, pursuant to Minnesota Statutes 1961, Section 525.611.

My dear Judge Himsel:-

A letter from your clerk of court dated July 3rd was received today which states that the hearings for four feeble-minded cases have been set for July 13th.

Miss Thomson is in Brainerd today and will be there tomorrow from where she expects to go to your county to attend the hearing for Agnes Bowles on the 9th. However, a copy of the above letter, which will alter her plans, is being sent to her today.

I might state that Miss Thomson is scheduled to be in Yellow Medicine County on the 13th, and she has practically all the remaining days in July dated up.

Leonard was brought to the Court House by Mrs. Moynihan Friday, July 9th for a mental test. The boy was quiet in manner, but seemed interested in the test and responsive in so far as his ability made possible.

Using a Stanford Revision of the Binet, obtained a mental age of 8 years, 4 months. As the chronological age is 16, this would give an intelligence quotient of 53.

In giving the test, although it seemed probable that there was no particular language difficulty, the fact that the boy spoke a foreign language made it seem possibly more fair to omit the vocabulary tests and some of those requiring more language comprehension. The intelligence quotient is based on the use of substitute tests. The tests requiring the understanding of language were passed as well as those not requiring the understanding of language. The arrangements of the weights was failed, as was the drawing of the two designs from memory. Also, there was failure on the making of simple change, which comes in year nine.

It would seem that a boy with an intelligence quotient as this would probably need supervision by the State since he has no one to look after his interests. It is doubtful whether he would be able, in a few years to come at least, to be wholly self-supporting even with supervision. Thus, if committed, it would probably be well to consider for institutionalization as soon as there is a vacancy, as he would qualify for one of the colonies at Paribault where boys of his own mentality are doing gardening or dairy work. Asked Leonard if he would like to go away to a place where there would be many other boys and where he would work in a dairy, or doing gardening or light farm work. He stated that he would.

I would recommend commitment to the guardianship of the State Board of Control and institutional care because of lack of a home. If arrangements are made, there would probably be a vacancy in this department almost immediately after commitment.

LEONARD VERKENNESS

6-8-26. Mr Henry Rohling of Freeport came to see me to-day about the above named boy who has made his home with them since his father Hubert Verkenness was sent to Stillwater prison. (See Mary Verkenness No 14120)

The boy has always been very backward in school and dull and unable to do any work well but they have kept him since he was their nephew. Lately he has become disobedient and has run away several times and has been drinking frequently. He has now been gone two weeks and is staying at the Anton Wilverding home, 1 mi. from Freeport. They think he should be committed as feebleminded since there is no one who can take care of him.

I asked them about wages. They said they had intended to pay him wages this summer and had \$50 in the bank for him. I told them I thought he felt he should be paid when he did farm work and perhaps that caused the trouble. They say the neighbor boys tell him he can earn wages other places. They allowed him \$.10 to \$.15 a week for spending money. Mr Rohling was under the influence of drink when he came to see me. He kept dozing off in his chair while his wife talked.

Leonard was born in Freeport in July 1910. He is a Catholic and attended school until he was fifteen when he was in about fourth grade. Teacher, Henry of Freeport. His school work was poor and he was a constant disturber of school.

His hearing vision, speech and use of limbs is normal. He has never been ill and is physically well developed for his years.

His father, Hubert Verkenness-44-Miller by trade, Stillwater, carnal knowledge of his fifteen year old daughter, Mary.  
 Mother, Dina Rohling, died nine years ago.  
 Mary-20-Housauid, 5th grade. Child by father, which died. Works, Sank Centre.  
 LEONARD  
 Edward and Weinrad, twins-14-St Cloud Orphanage. Edward, subnormal.  
 Elvera-12-With uncle, Ben Lange at St Francis.

The grandfather, Henry Rohling Sr aged 74 clothes the twins. The Rohlings live on a 250 A. farm near Freeport. They are rather ignorant people and lately have been drinking heavily.

6-10-26.

Drove to Freeport and talked to banker, John Wieland about Rohling family. He said that years ago they used to be a good decent family but lately Henry has taken to drink and is reported to be making moonshine. He is neglecting his farm and is degenerating fast. Mr Wieland has not heard anything about the boy but he feels inclined to believe that he would be forced to work hard without any pay.

Drove to Wilverding farm and talked to Anton Wilverding. He is son to the man who had the orchard. He says Rohling has beaten and abused and overworked the boy until he rebelled and ran away. He came to their house with no clothing. They bought him some and his mother has sewed for him since. They say he was forced to milk 20 cows and was not allowed any spending money or to go to any parties though all the family went. He has been drinking quite a bit but he got it from Rohlings who make it. They say Leonard is not bright enough to hire but they allow him to work around while they build a barn and they will not turn him out though they advise that we try to find some other place for him. They consider him definitely feebleminded though a willing worker.

Petition for a hearing on feeblemindedness filed.
