I rec'd your letter stating that Anne was well on the first of last month for which I was very glad. I am sorry that I couldn't answer before but as I can't write English and my daughter has been off to work and I had to move from ~~to~~ Tacoma unto my land the first of June.

Times got so dull in Tacoma I couldn't make a living. I have been trying to get along on my land so that I could pay you but have failed so far on account of my wife being dead. She died in '82 and I bought the land in '81 so I can't get a

of the children being heirs to

I want to get him a new suit of clothes & his flannels for winter, shoes ^{hats} &c. if I can have him ^{here} to try them on it would be more convenient & then he would enjoy it so much the streets are going to be illuminated & some parades every day or night. Celia is not coming back to school this term, she does not want to go back, and we thought it would be better to let her stay at home this year, or untill this winter if it does not make much difference, please write and let us know, and how much money there is left.

Celia says there was a few things left there that belongs to her.

Veazie, Sept. 13, '91.

Dr. A. G. Rogers.

Dear Sir:-

I arrived home on the second of this month and found my children all well and we all enjoy good health at present but we feel quite lonesome here in the woods.

I often think of Faribault more so after seeing it this time than two years ago, I think it is one of the prettiest places I ever saw, I should like to get things in such shape that I could live there. My visit there this time was a great satisfaction to see my daughter looking so well and

to hear the report of her
being a good and obedient
girl and all her wishes when
I was there was to have us
near enough so she could see
us once in a while.

Well, doctor, if there should
be a vacancy in your place
of business, that you think
I could fill, if you'll be kind
enough to let me know and
I have the chance I will be
at your service and will try
my best to do my duty. I
have give up all hopes of
getting rich, all I'm after
is a living and an educa-
tion for my children.

I will now close for this
time hoping you are enjoying
good health, and also your
school. My best wishes to you

and family and all the teachers
and over-seers at the school.

Hope to hear from you when
convenient.

Respectfully,

Dear Sir:

Mr. Keff

was out to visit Eugene, but did not see you so you will pardon me for writing you, as I have told you before our youngest child a boy now 14 years old, is also feeble minded, although several grades I think above Eugene, we cannot send him to School. I have never thought I could endure it to send another one away from home, but for the good of

the child, I will try to bear it. if you think it best to take him and give him a trial. I feel confident he will learn to a certain extent, two years ago I learned him a few of his A. B. C. he had Spasms ever since he was 14 months old up to three years old, has not had one since that time is perfectly healthy. now Please answer as soon as possible what you think about it. and Oblige.

Dear Sir

I want to ask you how
John is getting along -
I think he is discouraged
or feeling badly - what has
happened to change him
so soon, (he wants to come
home. he says his throat
is sore - he felt miserable
most of the time at home
coughed and complained
of soreness through his
chest - I plastered him up
with flax seed poultice
doctored him the best I
could - I think he took
cold soon after he came
I went got some under
drawers for him. The

come home without
any ~~on~~ or any in his ~~satisfied~~
it was too cold for any
person to go with out.

If he is sick - or not
well - I trust you will
look after his health -
It is natural for any of
us to want to be with our
dear Friends - or have
them to come at once
to us. We had to coax
a good deal to get him
to go back again. by some
reason - he would not
tell us - his Uncle - Told
him to go back and
learn all about the
Brush making that he
could this year - he
would get him a job
in some Brush Shop
where he could earn

some money - he wanted
me to ask you to let
him work there all the
time. he is getting to
know something about
the work - every one that
talked with him thought he
had improved so much
he has a temper, that hurts
him he told me he tried to
control it - We only have
to be patient ^{with} him and
he is all over it - he was
so obedient - I did not
have to tell him. he always
would ask - was so kind
to me too - I feel anxious
to hear. you need not
keep any thing from me
I want to know the particulars
will send you some
money this week -
I ask you not to refuse

him for writing me - I hope
he will be all right
about about his watch - is it
in your case I will have
it fixed again for him &
keep him contented - Tell
me if you please.)

Pardon me for troubling
you with such a lengthy
letter - Yours truly

Dear Sir

It has been some time since I have either written, or heard from you, have had two letters from Ray lately, will answer them later and enclose in this one to you, How do you think he is getting along, he seems to be more dissatisfied, or rather home-sick, than he was the first year and a half. I wonder why that is; for it is natural I think for a person to get more reconciled the longer they are away from home; it is very, very, hard to keep him there, or any place, against his will, but I think he is much better off, than were he here or any place, where there are all classes and kinds of people, that was where the greatest trouble was before I took him to you, there were always a lot of unfettering boys, that would call him "crazy" and that would always make him mad; and he would resent it in a moment, and then again they would impose on him and get him into trouble, when they would be just as deep in as he was, but they would not hesitate to tell a falsehood to get out of it and pack it all on him; and I think it would be just the same were he out side of the school again; I suppose there the

boys are all on the same level, or in other words they never think of twitting or anoying each other in that way; he has been writing me to either send him a violin, or the money to buy one with, I dont think the child has any musical Talent at all do you; but I send you \$ 5.00 you can give him one to buy whatever he likes, it will please him, and make him feel somewhat independant, and the other if you please spend for him for X, mas not in foolish toys; but in something that will do him the most good or add to his comfort.

I presume you will think I am tresspassing on your kindness and Time also; but just imagine yourself in my place (the Lord forbid that you may ever be) then you could realize how I feel, I expected to have been back there to have seen him ere this when I left him, but it cost so much to go, and then I think it would be hard for both of us to part again; so I'll still let him remain under your care a while longer. he writes to me about the school being built here at Olympia; how has he got his information, it has not been from any of the papers which I have sent him - it was started before he left home, but is no nearer completion now than then - See that he is treated kindly and do the best you can by him and may the Lord Bless you -

Yours S J Bogart
