June. 1900
Frena Pieries has been present every day this month
She entered my class the first of Sept. Began to read with a small class on 1st page of Cyr 2nd Reader Reads quite well now on page 131. Can spell all words at the head of lessons, and can form sentences containing most of them.
She began at 1st of No I Arith. and is now working on page 57. She has gone slowly in numbers but I feel has gained quite a little in beginning principles.
Has managed two letters a month all year. Can write a nice little letter, spelling most words correctly. Her writing has improved very much.

June 1900
Nina Elliott entered my class in October. Began studying the U. S. colony in Stiff. As none as far as year 1778 of Rev. War.
Has gained some knowledge of history, as well as increasing her vocabulary.

In Oct. She worked miscellaneous problems in multiplication & division. Is now working on pg. 22 of No 3 Arith. Does quite good work in numbers.
Has studied most of the continents in primary geog. Writes well—a vertical hand. Has averaged four letters a month since entering.

June. 1900.
Blazie Floyd has been present every day this month.
She began the study of history the first of Sept. Has now reached the year 1778 of the Rev. War.
Has studied most of the continents in geog.
Began at section first of No 2 Arith. finished that book which includes all combinations of numbers from 1 to 100 and has worked to page 22 of No 3 Arith. Has written about twelve letters this school year. Writes very well indeed.

June 1900
Barbara Gatzke has been absent one day this month on account of sickness
She began reading in Sept. on page 208 of Lea-Lide & Hay Lide. Learned to pronounce & spell a number of new words as well as gaining facts about nature.
Began No 2 Arith. in Sept. Has now worked to page 66. Is a careful worker, And has written on the average two letters a month. Has studied many of the continents in Geog.

June 1900.
Maud Hawkinson has been present every day this month. She entered my class in Sept. Began to read at 1st of 2nd Reader. Has now read to page 131, still reads in a hesitating way & is not a good speller. Began at 1st of No I Arith. Is now working on page 52. And I think has reached her limit in most literary work. Can write a letter, spells fairly well. & writes plainly.

June 1900

Olga Herrman has been present every day this month.
She entered my class in Dec. She knows the multiplication tables and could add & subtract pretty well. She is now working on page 22 of No 3 Arith.
Reads & spells most words in Lea Side & Way Side No 3.
Studied a number of the continents in Geog.
Gained facts about people in different lands.
Improved a very little in writing. Has only written two or three letters.

June 1900

Gladys Holsman has been absent one day this month on account of sickness.
In Sept. she began to read on page 200 of Lea Side & Way Side & has now finished the book. Can spell most of the words found in lessons.
Has studied a number of the continents in Geog. learning a good deal about the different people & lands.
Began No. 2 Arith. & has now worked to page 60.
Does quite well in numbers.
Has improved very much in writing. Writes a nice letter - spelling most of the words correctly.

June 1900.

Lottie Jacobs has been taken out of school to do industrial work.

June 1900.

Julia Saunders has been absent three whole days this month assisting in the kindergarten.
She began the study of History in Sept, She has now reached the year 1778 of Rev. War. Has learned a number of historical facts, as well as increasing her vocabulary.
Began No. 2 Arith. in Sept. Is now working on page 60. Division & multiplication of numbers.
She writes plainly but not a very good vertical hand. Writes a nice letter. Spelling most common words herself. She has averaged two a month.

June 1900

Mary Little has been present every day this month.
She began to review the History in Sept. Reads very well, but does not remember what she reads, so does not gain many historical facts. Began the year

on page 40 of No 4. Arith.
And has worked to Sec. 4
page 41 of No. 4. I feel that
she has reached her
limit in most school
work. She is a nice girl
in school but will never
learn much more. Writes
well. And writes nice
letters - Studied most of
the continents in Geog.
this year.

June 1900.
Nellie McGowan has been
present every day this
month.
The 1st of September she began
at 1st of 2nd Reader. Is read-
ing now on page 131. Can
spell & pronounce most of
the words in the lessons.
She also began at first of No. I
Arith. Has worked to page 57.
Can do very little in numbers
without the aid of objects.
With objects can add and
subtract easy numbers.
Writes very well. but is
not an independent writer
on account of her spelling.
Has only written with any
help three or four letters
all year.

June 1900
Amy Moore has been present
every day this month.
The first of Sept. she began
at the first of the second reader.
Has read to page 131. Reads
quite well. But is not able
to spell all the words at
head of lessons.
She began No I Arith in Sept.
and is able to do easy
work in addition and
subtraction with the use
of objects. Is working on
page 57.
Has improved very much
in writing. Has written
six or eight letters during
the year. It is not any
judgement that she will
do much more in literary
work.

June 1900
Clara Petzold entered my
school in Jan. 1900. She
could count and read &
write numbers to one hundred
But did not seem to know
the relation between numbers
& objects. Has learned that
now, so that she will
bring you any number
of objects called for. Can
do easy work in addition
and subtraction with the
use of objects. Reads fairly
well in 2nd Reader, pg. 181

But is not a good apeller.
So she is not independent
in her letter writing,
although with any help
she has written about
12 letters. Her writing
has improved,

June 1900.

Edith Poole has been present
every day this month.
In Sept. she began to read
on page 200 of Lea Side and
Way Side. Has finished the
book and can spell most
of the words contained in
the lessons. Her enunciation
is poor. She began No. 2 Arith,
and has worked to page 66.
That includes work in
addition and subtraction
and the multiplication
and division tables as far
as 8.
She has studied around of
the continents in geog.
learning a good deal about
people & lands. She writes
very well. Has written 8 or
10 letters this year.

June 1900

Jennie Smith has been
taken out of school to do
industrial work. Made
very little advancement in
literary work.

June 1900

Agnes Potch has been absent
one day this month on account
of sickness.
In Sept. she began to read
on page 200 of Lea Side &
Way Side. Has now completed
the book. Has learned a
number of new words to
pronounce & spell. But is
not a very smooth reader
yet. She began at first
of No. 2 Arith. in Sept. and
has worked to page 66.
This includes addition &
subtraction and the multi-
plication & division tables
to 8.
Her writing is much better
And she writes a nice
letter with very little help.
Has studied Jane & five
continents in geog. learning
a good deal about the people
& their homes & habits.

June 1900

Hattie Burton has been present
every day this month. She
entered my class in March.
She began at first of No 3 Arith.
Has worked as far as pg. 22.
She can add subtract, multiply
& divide. But reasons very
little.
She read with the 2nd reading
class in Lea Side & Way Side.
Finished the book. Reads & spells

quite well. Dot a little study of lands & people in Dedg. Her writing is poor but it has improved a little. She has managed writing two letters a month since entering.

June 1900.
Laura Miller has been present every day this month. She entered my class in March. She could count & write numbers to 50. but very little. more. She saw adds & subtracts easy marks with the aid of objects. She has learned 5c. 10c. & 25c. pieces in money. I placed her in 2nd Reading class in Dea Side & Way Side And she has finished the book. Reads quite well, but is a poor speller. Has improved some in writing, but hope will improve more next year. With help in spelling she has written on the average two letters a month.

June 1900
Annie Lochstad has been present every day this month. She She entered my class in March 1900. Is a deaf mute. I have given her some work in articulation. She can now speak a few words &

form the following sentences I have a dog. I want a pen I see my desks. I want a box I have my pencil, book, paper. Knows the objects as well as words, and can write them handily on b.b. Can copy anything nicely. And draws right well.

June 1900
Minnie Hanson has been present every day this month. She entered my class the last of May. Can add, subtract, multiply and divide. Knows some tables of weight, & measure. Reads very well in Dea Side & Way Side. Spells her lesson very well, but when she writes letters misspells a number of common words. Writes poorly on account of her deformed hands. Is a nice girl, & I think will improve.

June 1900.
Dedrick Tiahk has been present every day this month. He entered my class the first of Sept. He had completed to & Aith, so began with one Aith. No 2. He has worked over to page 83. This includes all combinations of numbers from 1 to 100. Can form tables for himself. Does not

do much with fractional parts. He began at first of 2nd Reader. Is now on page 167. Reads very well, and is an excellent speller. Gets 100 nearly every day. His writing has improved very much. And he writes quite an interesting letter with very little help.

June 1900.
Joseph Hatch has been absent three days this month. Since Sept. he has finished the 2nd Reader & has taken up Hist. Stories as supplementary work. He finds a good many hard words. Is not a smooth reader or good speller. Makes very little advancement in numbers. Began the year on pg. 40 of No 3. Is now working on pg. 55 of No. 3. At Weights & Measures and problems of same.
His writing is very much improved. He can write nice letters with very little help in spelling. Has averaged two a month for the school year.

June 1900.
Erwin McCaulley has been taken out of school to do outside work. Made no advancement.

June 1900
Nathan Rice has been absent one day this month. He entered my school in Sept. Began at first of No I Arith. Finished it with this class and is now reviewing it. Has reached page 36. Is slow in numbers as in every thing else.
Began at first of 2nd Reader and is now reading on page 167. On account of slow hearing will never read much better. but of course can learn many more new words. Is a poor speller. Can write a letter but it takes him two whole days to write a short one. His writing has improved.

June 1900
Albert Riley has been present every day this month. But in act a good deal every day or two for music practice. He entered my class in Sept. Began at the 1st of 2nd Reader. Reads now remarkably well on pg. 147

seldom misses a word in spelling. But is a poor writer. Think his writing has improved a little however. He composes a nice letter but does not write it well.
He began No 1 Arith. finished it & is now working on page 53 of No 2. This includes work in addition, subtraction multiplication & division. He can do practical problems right well too. Knows the tables of weight & measure. & can handle money making easy change.

June 1900

Willie Speck has been absent three days this month on account of sickness. He entered my class in Sept. '99. Began at 1st of No 1 Arith. finished it and is now working on page 53 of No. 2. He can add, subtract, multiply & divide, numbers from 1 to 100. Has learned the tables of Weight, time & measure & can use them. He began at the first of 2nd Reader, and is now reading on page 167. Reads right well. Spelling is hard for him. But he studies pretty

hard. His writing has improved. He writes quite a nice letter with help in spelling. Has averaged about one a month this year.

June 1900

Alfred Amundson has been absent one day this month. He is an epileptic boy who entered my class in March. He began his history work at the breaking out of Civil War - Spent a good deal of time on causes and has now reached Shermans March in 1864. Is interested in history and remembers pretty well. Began to study Alcohol - nature of and effects on body. Is now studying Digestion & Food, kinds etc. in Physiology.
I placed him when he entered in No 3. Arith page 27. Now he is working problems in U. S. money on page 47.
He writes much better than when he entered but there is still room for improvement.
Has written on the average three letters a month.

June 1900

Alfred Eisentraut has been present every day this month.
He entered my class from the primary in March 1900. He began at the first of 2nd Reader. and is now reading on page 132. Reads right well but rather low - spells most of the words in the lessons read & uses many of them in sentences.
He began at first of No. I Arith. Could add simple numbers. Is now working on pg. 36. Can add, subtract, multiply & divide a little.
Writing is improving.
Seldom writes letters. Has written two or three just for drill.

June 1900

Joe Sullivan has been present every day this month. Has been out part of every few days for drill in music.
He entered my class from the primary in March.
He began at the first of 2nd Reader. and is now reading on page 132. Can pronounce and spell nearly every word in lessons. and forms sentences containing most of them.

He began at the first of No I Arith. and is now working on page 36. He can add & subtract very well. and does a little work in multiplication & division
He writes very well. and writes nice letters with some help in spelling.
Has written about one letter each month.

June 1900

Warren Dugan entered my class the last of May. I placed him in the third reader - where he reads & spells fairly well. But Warren does very little in number work. He can count & write numbers. but can not combine except the very simplest numbers & then with the use of objects. He writes quite well vertically. Has written six letters.

June 1900.

Eugene Sweeney has been present every day this month. He entered my class the last of May. Was placed in the third reader where he does right good work - Reads too fast skipping over little words Spells right well.

Does nearly nothing with numbers. Can count & write numbers, but can only combine the simplest numbers (+ & −) and then with the use of objects. He writes quite well, and can write a nice letter spelling most of the common words for himself.

Sept. 1900

Luisa Reiris has been present every day this month but her school period is only an hour & a half long so she cannot accomplish very much in reading & numbers both. She began at Lee. 2 of No I Arith. Has worked to page 32 This covers review work in +, −, × ÷ of numbers from 1 to 13.

She began at first of 2nd Reader Has read to page 14. Spells well. Her writing has been with a pencil in connection with her reading as no ink wells. She has written two letters.

Sept. 1900.

Emma Bren has been present every day this month.

Has done very simple work in addition & subtraction with numbers from 1 to 10. Has read with the 2nd Reader class, but think I will have to transfer her to the 1st, as she knows very few words - & spells miserably. I wrote one letter for her this month. She copies writing neatly with a lead pencil.

Sept. 1900.

Annie Braun has been present every day this month. She began at Sec. 2 of No I Arith. Has marked to page 32. This includes +, −, ×, ÷ with numbers fro 1 to 13.

Began at first of 2nd Reader. Reads in a hesitating way. Spells only fairly well. Has read to page 14.

I have written one letter for her.

Sept. 1900.

Margaret Chamberlain has been present every day this month. She has been promoted from Class B. She began at Sec. 2 of No 2. Arith. Has marked to page 32. That includes work in +, −, × ÷ with nos. from 1 to 13.

She began at the first of 2nd Reader. Has read to page 14. Has to study my hand in order to get her spelling lessons. Copies writing, but does not write independently. Has had one letter written this month.

Sept. 1900.

Myrtle Davies has been present every day this month. She began at Sec. 3 of book 3. in Arith. Is working on a

review of all the multiplication tables. Is not through yet. Reads very nicely in Sea Side & Wayside. Needs to put a good deal of study on her spelling. Has written one letter. Composes & writes her own letters.

Sept. 1900.

Polly Gatzke has been present every day this month. She is very restless. Needs change of work every few minutes. She began on page 36 of No I Arith. Can add & subtract but uses objects. Has had some practical problems this month, & drill in counting by 2's 3's & 4's to 12. Also doz. ½ doz. ¼ ⅓ & ½ doz. Reads & spells fairly well in 1st Reader, when she studies her lessons. It is hard to get her to study. She has written two letters.

Sept. 1900

Winnie Hanson has been present every day this month. She began with Sec. 3 of book 3. Arith. Is taking a review of all the tables in multiplication, & examples under them. Reads & spells well in

Sea-Side & Way Side. Has written one letter. It is hard for her as she has not good use of her hands. But it is remarkable that she can write at all.

Sept. 1902.

Gladys Holaman has been absent one day this month on account of sickness. She began at Sec. 4 of No 2 Arith. Has studied the tables of 2, 3 & 4, and many many examples in multiplication with them. Began at the first of Sea Side and Way Side. Has read to page 10. Reads & spells well. Has written two letters this month.

Sept. 1902.

Annie Lochstad has been present every day this month. Has reviewed the list of words she learned last year. And in addition has learned to say & write boy, run, & knife.

Sept. 1902

Sana Miller has been present every day this month. She does very little in numbers. Began with the first page of No I. & has gotten to page 11, simplest work in addition and subtraction.

She reads quite well on

page 10 of Sea Side & Way Side. Spells poorly. Has written two letters this month.

Sept. 1902

Clara Pautzold has been absent one day this month on account of sickness. She began at 1st of No I Arith. Has done the easiest combinations in + & — with numbers to 10. Does nothing without the use of objects. Began at the first of 2nd Reader & has read to page 14. Has to study spelling a good deal but she tries to learn. She has written two letters this month.

Sept. 1902.

Edith Poole has been present every day this month. She began at Sec. 4 of No 2 Arith. Has been working on tables of 2, 3 & 4. Done a good many examples under them.

Has read from the first to page 10 of Sea Side & Way Side. Spells well. Writes nicely. Has not used ink on account of no ink wells.

Sept. 1902.

Mary Bergman has been present every day this month. She started at the first of No I Arith. She cannot do

much dead work without help. Has worked with combinations +, −, ×, ÷ from 1 to 10. Reads & spells any skill in first reader. Writes right well with a pencil. Copies nicely. Cannot spell enough words to be any independent.

Sept. 1900.
Nicholas Klazinus has been present every day this month. He is just promoted from the primary. Started at first of No. I Arith. Cannot do much work at desk without help. Does combinations with +, −, × ÷ from 1 to 10. with the use of objects.
Began at first of primer Has read to page 33. Reads quite well & spells most of the words in lesson.
I have written one letter for him.

Sept. 1900
Warren Dugan has been absent one week of this month.
He does little with numbers. Began at page 1 of No I & has done +, ×, −, ÷ to page 11. Does nothing without objects.
He began at page 168 of 3rd Reader - Has read to page 182. Reads well, but not a very good speller. Has written two letters this month.

Sept. 1900
Roy Ellis was absent one half day. He has learned doz, ½ doz, ⅓ doz & ¼ doz. Count by 2's 3's & 4's to 12. Adds & subtracts to 12 nicely. Reads & spells quite well on page 30 of 1st Reader. Copied a letter which I wrote for him. Copies any writing nicely. & can write any word he can spell.

Sept. 1900.
Alfred Eisenbarn has been present every day this month. He began with page 36 of No I Arith & has worked to page 43. Has learned doz. ½ ¼ & ⅓ doz. Count by 2's 3's & 4's to 12.
Reads quite well in 2nd Reader, Page 123. Spells well - Writing dull has been on b.b. & paper with pencil as we have no ink wells.

Sept. 1900
Dedrick Fisk has been absent one day this month. He began at Lec. 4 of No 2 Arith. Has learned multiplication tables 2, 3 & 4, and done many examples under them. Reads on page 182 of 2nd Reader. Spells well.

knew minus a word. Is very neat with his writing.

Sept. 1900.

Eugene Sweeney has been absent eight days this month on account of sickness.
He does very little in numbers for such a big boy. Can add & subtract numbers from 1 to 12. with the use of objects.
Reads right well in the 2nd Reader page 182. Has to study his spelling a good deal. Writes fairly well. Has written one letter this month.

Sept. 1900.

Joe Hatch has been absent two days this month.
He began at Sec. 3 of book 3 Arith. Has been reviewing all the multiplication tables Doing examples under each.
Reads & spells in the 2nd Reader this year. Needs the drill in spelling. Has written two letters with a lead pencil as we have no ink wells.
Writes nicely.

Sept. 1900

Raymond Hill has been absent one half day this month.
Is a very restless boy. Needs individual attention which

he does not get in my class. Has done some easy work with +, −, with numbers to 12. Can do very little seat work. He began at the first of the primer & has read to page 33. Lacks concentration - loses his place as he reads. Can copy writing, but spells so few words that he can do nothing independently. Copied one letter & wrote for him.

Sept. 1900

Frank Jewett has been present every day this month.
Is very primary in his work. Counts to 20. Can combine, + & − the easiest numbers with the use of objects. Requires much help & attention - A dear little fellow. Reads in the primer. Spells very few words. Can write anything he can spell. Copies very well. Copied one letter I wrote for him this month.

Sept. 1900

Walter Johnson has been absent two days this month.
Started at first of No 1 Arith. If he will work he can. Does combinations with numbers to 12. (+, −.)

Reads right well in 1st Reader - Spells fairly well words at head of lesson - Copies writing nicely. Copied one letter I wrote for him this month.

Dept. 1900

Elmer Johnson has been present every day this month. He started at the first of No I Arith. Does many combinations with numbers from 1 to 10. Cannot do much seat work without help. Has to objects to add or subtract. Reads right well in 1st Reader. Spells a few easy words. Can write any word he can spell. I have written one letter for him this month.

Dept. 1900.

Alvin Karp has only been in my class a few days. He can count & make numbers to 12. Add easy sums as 1+1 2+1 etc.
Reads in first reader but not very well. Can write his name & copies work right nicely.

Dept. 1900.

Charlie Nelson has been present every day this month.
He started at first of No. I Arith. Does not answer

any part. Does easy sums with + & -. Uses objects. Reads & spells right well in First Reader. Has read from the 1st to page 30. Copies writing & can write any word he can spell.

Dept. 1900

Nathan Rice has been absent ten days this month so has not accomplished very much. He began at Lec. 2 of No I Arith. Has reviewed work in +, -, x ÷ with numbers from 1 to 13.
Reads on page 182 of 2nd Reader - Spelling fair this month. Has written one letter.

Dept. 1900

Albert Riley has been present every day this month. He began on page 84 of No 2. and has worked to page 89 in No 2. Arith. This includes review work in addition, subtraction, x & ÷ with carrying numbers.
Reads well in 2nd Reader. Has read from 108 to 188. Good Speller. Has not missed a word this month. Writes neatly. Has written one letter this month.

But has not had any drill in writing as we have no inks sulla.

Sept. 1900

Ignatius Stezercowski has been absent one day this month. He has marked with numbers from 1 to 10 this month. Adds & subtracts with the use of objects. He must have very interesting marks or he does not want to make. A very cute, bright little fellow. Reads in the primer & spells one or two words in each lesson. Does not write well. Can copy but not well. Writes his name & a few words independently. I wrote one letter for him this month.

Sept. 1900

Frank Dibley has been absent one day this month. Has marked from page 36 of No I Arith to page 43. Has learned doz. ½ doz. ½ doz. & ¼ doz. Count by 2's 3's 4's to 12. Reads & spells quite well in first reader. Articulation is poor. Writes neatly. Can copy nicely. Writes any word he can spell. Copied a letter I wrote for him this month.

Sept. 1900

Charlie Swanson has been absent one day this month. He does very little with numbers, but tries hard. Has marked with + and − with numbers from 1 to 10 this month. Can do very little seat work without help. Reads & spells quite well in the first reader. Has read from the 1st to page 30. Copies writing nicely. Writes any word he can spell. Copied one letter I wrote for him this month.

Sept. 1900

Joe Sullivan has been present every day this month. He began at page 36 of No I Arith. & has marked to page 43. This includes doz. ½ doz. ¼ doz. & ½ doz. Counting by 2's 3's 4's & to 12. Reads & spells very well in 2nd Reader page 123. Writes very well. Has had no ink this fall so everything has been done with a lead pencil. He has written one letter this month.

Sept. 1900.

Willie Speck has been absent one day this month on account of sickness. He does nice school work. He began with pg. 84 of No 2. Arith. & has worked to page 89. It has been a review of addition subtraction multiplication & division.

Reads & spells very well on page 188 of 2nd Reader. Has read three lessons this month. His writing has been in connection with his reading work. He has written one letter this month.

November 1900

Teresa Beireis has been present every day this month. Lady one morning.

She is doing nice work in No I Arith. Has learned doz. ½ doz. ¼ doz & ⅓ doz. beside drill in qt. pt. qi. & gal.

Reads well on page 33 of 2nd Reader. Is a quiet studious girl. Always has her spelling lesson & writing improve every day. She has written four letters this month.

November 1900.

Margaret Charbonneau has been absent one day this month on account of sickness. Her work in numbers is poor. Is not independent at all. Has to use objects or counters for all her counting. One day I tell one she knows doz. ½ doz. ¼ doz. etc. and the next day it is all forgotten. She reads fairly well on page 33 of 2nd Reader, but her spelling is miserable. Writes fairly well. Copies her letters but cannot spell enough words to make her independent. Has written two letters this month.

November 1900

Myrtle Davies has been absent three days this month on account of sickness. She is working in No 3. Arith on page 38. Has had considerable drill in multiplication & is now beginning division. Reads very well in Dea Side and Way Side. Nearly always has good spelling lessons. Writes fairly well. Has written two nice letters this month.

November 1900.

Polly Katzke has been present every day this month. She is working on page 64 of No I Arith. Has had measures inch. ft. & ½ in ¼ in this month braide drill in adding columns. Reads and spells right well in first reader. Does not improve in writing as fast as I would like. Has written one letter herself this month & copied two others.

November. 1900

Minnie Hannan has been present every day this month. She is working on page 38 of No 3 Arith. Has had during the month review drills in the tables and is now beginning division.

She reads and spells quite well on page 23 of Dea Side and Way Side. Her writing does not improve much but I presume it every will because of her hands. She has written five letters this month.

November 1900

Gladys Holman has been absent 3 days on account of sickness. She is doing very well in numbers. Has learned nearly all the tables & can multiply quite well. Reads & writes numbers in thousands now. She reads and spells very well on page 23 of Dea Side and Wayside. She has written four letters this month. Her writing improves a little all the time.

November 1900.

Annie Lehstad has been absent 1 days this month. Am pleased that Annie never forgets words once learned. Besides reviewing old words she has learned can, walks, read. She is delighted to find the words she has learned at the ~~board~~ in a book. Put the thanksgiving turkey on the board.

November 1900.

Laura Miller has been present every day this month. Her number work is still very primary. Have tried this month to get her away from objects, but it is hard even with the simplest combinations in addition & subtraction. She reads & spells pretty well on page 23 of Dea Side and Way Side. Her writing improves slowly. She has written three letters this month. Is interested in object lessons. Remembers what she hears read.

November 1900

present

Clara Patzold has been 1 every day this month She is working on page 21c of No I Arith. I have tried this month to get her away from objects but it is hard work. She does simple combinations in addition and subtraction. Reads and spells right well (when she studies) on page 33 of 2nd Reader.

November 1900.

Edith Poole has been present every day this month. Is doing nice work in numbers. Has learned nearly all the tables in multiplication. Can multiply well. Reads and writes numbers in the thousands Reads and spells very well on page 23 of Dea Side & Way Side. Writes nicely. But does not care to write many letters. Did not write any letter this month.

November 1900

Mary Pogeman has been absent one day this month. She is working on page 21c of No I Arith. Can work most independently

than any one else in her number class. Addition subtraction & a very little multiplication has been her work this month. She reads & spells quite well in 1st Reader. Copies writing nicely. Copied one letter this month.

November 1904.

Nicholas Blazina has been present every day this month. He has worked on combinations in + −, & × this month. Is very slow, & uses objects to count with. Reads fairly well in primer. Has learned ten new words this month. Tries very hard to write, but cannot write well, because of his nervous trouble. Has copied one letter this month.

November 1904

Warren Dugan has been present every day this month. He does very primary work in numbers. I fear he will never advance much. Cannot tell how many 2 + 3 = without making marks or using objects. Will give him drill of that kind with simple practical problems.

Reads quite well on page 224 of 2nd Reader. Spelling improving. Writes nicely. Has written four letters this month.

November 1904

Roy Ellis has been present every day this month. He has learned doz. ½ doz. ¼ doz & ½ doz. and drilled a good deal in the measures gal. qt. pt. & gi. besides work in addition. He reads and spells quite well on page 55 of first reader. Has been quiet and studious in school this month. Writes neatly. Has copied two letters this month. But cannot write independently, on account of spelling.

November 1904

Alfred Einertson has been present every day this month. Is working on page 64 of No I Outfit. Has learned doz. ½ doz. ¼ doz. & ⅓ doz. and had drill on the measures gal. qt. pt. & gi. Has just been promoted to 3rd Reader. Is very much interested in the new lessons. Good speller - Writes a little better every day.

November 1900.

Medrick Fiala has been present every day this month. Has learned about half the multiplication tables. Is slow in working his questions however. Easily discouraged. Reads quite well on page 224 of 2nd Reader. Has not missed a word in spelling this month. Writing improves every day. Has written two letters this month.

November 1900

Eugene Sweeney has been present every day this month. He does very primary work in numbers. And I doubt if he ever improves in that line, Has to use objects for the simplest combinations such as 2 + 3 = 5, His work this month has been drill in + and −, Reads in 2nd Reader - but too rapidly to be a good reader. Spells fairly well. Writing improves a little every day. He has written four letters this month.

November 1900.

Joe Hatch has been present every day this month. He is working on page 38 of No. 3 Arith. Has had a good deal of drill with the tables & multiplying. And is just taking up division.

Reads quite well on page 224 of 2nd Reader. Is naturally a poor speller, but has worked hard this month to get 100%. and has succeeded. His writing improves every day. He has written four letters this month.

November 1900

Raymond Hill has been present every day this month. This month he has learned the four numbers, 8, 7, 9, 6, that he was doubtful about, & has had drill in sight reading & writing, & +, −, work with stories. He reads in the Primer and has learned 10 new words. His writing is poor, but I think he improves a little daily. He has copied two letters this month.

November 1900

Frank Jewett has been present every day this month. Has learned to write numbers to 20. Has had drill this month in sight reading & reproducing. Adds simple combinations in +, −. Reads in primer. Has learned ten new words. Builds words quickly & correctly. Writes nicely. Has copied one letter this month.

November, 1900

Walter Johnson has been present every day this month. He is working on page 26 of No 1 Arith. Has had practical problems in addition. But he can do little without objects. He counts quickly, & rather enjoys working at numbers. Reads fairly well in first reader. Spelling pretty good this month. Can write well when he is careful. Has copied two letters this month.

November 1900

Elmer Johnson has been absent two half days this month. He gets along slowly in numbers. Has worked on + & − and some

practical problems this month. Reads right well in the primer - Has learned ten new words besides reviewing old ones this month. Copies writing & can write any word he can spell. Has copied one letter this month.

November 1900.

Alvin Karp has been absent three days this month. He has learned to write numbers to 20. Has had drill in sight reading & reproducing numbers. Easy work in + & −. Reads quite well on page 55 of first reader. Spells quite well. Loves to draw. Rather quarrelsome - hard to get along with. Writes any word he can spell. Copies nicely.

November 1900.

Charlie Nelson has been present every day this month. He has done work in + and − this month. Is so deaf that he misses much in class work. He reads fairly well on page 55 of first reader Does not spell well Writes a little better, Has written one letter.

November 1905

Nathan Rice has been absent five days this month. Sick in the hospital. Is working on page 43 of No. I Arith. Has learned doz. ½ doz. ¼ doz & ⅓ doz. this month. Has had drill in the measures gal. qt. pt. gi.

Reads on page 224 of 2nd Reader. Does not improve much in spelling. Writes a little better. Has written two letters this month.

November 1905

Albert Riley has been absent ½ day this month. He has learned half the multiplication tables, & done work under them. Does practical problems quite well. Reads very well on page 224 of 2nd Reader. Spelling improves every day, but writing does not. He has written three letters this month. Has committed a recitation for Thanksgiving.

November 1905

Ignatius Stezercavski has been present every day this month. He has done work in + & - this month. Original stories in connection

with it. Most of them about turkeys. Has had sight reading of numbers. Reads & spells in primer. Has learned ten new words - About one word each day to spell. Does not like to write, but is improving a little.

November 1905.

Frank Dibley has been present every day this month. He is working on page 64 of No I Arith. Has learned doz. ½ doz. ¼ doz & ½ doz. And had drill in the measures gal. qt. pt. gi. Does not do strictly honest hard work. Reads on page 55 of first reader. Spelling improves a little every day. Writes nicely only need he can spell. Has copied two letters this month.

November 1905.

Charlie Swanson has been present every day this month. His work in numbers has been combinations in addition & subtraction - Am trying to get him away from objects. Reads & spells very well in first reader Seldom misses a word

Is quiet and studious.
Writes nicely.

November 1905

Jos Sullivan has been present every day this month. He is working in No I Arith. page 64. Is not very much intrested in his work this month. Has had measures inch, ft. ½ in & ¼ in. & lots of measuring. And drill in adding columns. Has just finished the 2nd Reader. & beginning the 2nd. Writing improves a little all the time. Has written one letter this month.

November 1905.

Willie Speck has been absent five days this month on account of sickness. He has learned all the tables to the 7's. and can multiply examples under them. Is intrested in his work. & studies. He is reading on page 224 of 2nd Reader. Spells a little better every day. Writing also improving. He has written two letters this month.

November 1905

Edward Renwick has been present every day this month. He is trying to learn the multiplication tables, but does not half study. Knows the 2's 3's & 4's well, & can use them in multiplying Reads slowly & hesitatingly in 2nd Reader - Has got had good spelling lessons this month. Writes a fair hand, but ought to improve Composes a very poor letter. Repeats so much & tells foolish things. Has written four letters this month. A large boy. Is quiet & orderly.

December, 1900
Margaret Charbonneau has been present every day this month, but her time has been spent on Christmas songs, etc,

Dec. 1900
Myrtle Davies has been present every day this month, but her time has been taken up with Xmas work.

Dec. 1900
Polly Gatzke has been present every day this month - but she has spent the month preparing for Xmas

Dec. 1900
Minnie Hansen has been absent one day this month. Very little school work accomplished as teacher had to drill songs, etc.

Dec. 1900
Gladys Holman has been present every day. Has written five letters. No regular school work.

Dec. 1900
Annie Lochstad was absent six days this month. She has drawn two Xmas pictures on the board.

Dec. 1900.
Laura Miller has been present every day this month. but her time has been spent on Christmas songs, etc.

Dec. 1900
Clara Paetzold has been present every day this month. She has written four letters. Time devoted to Xmas work.

Dec. 1900
Edith Poole has been present every day this month. But her time has been spent on songs for Xmas.

Dec. 1900.
Mary Torgerson has been present every day this month. But very little school work has been attempted. Everything gives way to the Xmas program

Dec. 1900
Nicholas Blazina has been present ~~every~~ day this month. Very little school work attempted. My time has been given to teaching words of songs, etc.

Dec. 1900
Warren Dugan has been present every day this month. He has written four letters. Very little more has attempted in school.

Dec. 1900
Ray Ellis has been present every day this month Little advancement. Has written one letter.

Dec. 1900.
Alfred Einertson has been present every day this month. Has read a few lessons in the third reader - but teachers time devoted to Xmas work.

Dec. 1900
Dedrich Fisher has been present every day this month. He has written one letter. Worked a little on multiplication tables.

Dec. 1900
Eugene Guernsey has been present every day this month. He has written three letters.

Dec. 1900
Joe Hatch has been present every day this month. He has written four letters, but any time was given to Xmas work.

Dec. 1900
Raymond Hill has been present every day this month. His time been taken up with Xmas songs. etc..

Dec. 1900
Frank Jewett has been absent one half day. Has not accomplished much as any time was given to the program

Dec. 1900
Walter Johnson has been present every day this month. He has deliated & copied two letters.

Dec. 1900
Elmer Johnson has been present every day this month. Very little school work done for I gave any time to Xmas program.

Dec. 1900
Alvin Korp has been present every day this month. Very little progress made as the school gave all time to Xmas work.

Dec. 1900
Charlie Nelson has been present every day this month. The Xmas program occupied our time however.

Dec. 1900
Nathan Rice has been present every day this month. He has written two letters, & learned songs.

Dec. 1900.
Albert Riley has been present every day this month. Has learned a Xmas piece & part in a dialogue, besides songs.

Dec. 1900
Ignatius Stezercowski has been present every day this month. He has committed a Xmas recitation & learned a part in a dialogue.

Dec. 1900
Frank Dibley was absent one day this month Done very little school work as any time was given to the program.

Dec. 1900.
Charlie Swanson has been absent six days this month. Did very little real work on account of Xmas.

Dec. 1900
Joe Sullivan was present every day. Has spent his time learning Xmas songs etc.

Dec. 1900
Willie Specht has been absent five days this month. Has devoted his time to learning songs etc.

Dec. 1900
Edward Runswig has been present every day this month. Has accomplished very little as any time has been given to Xmas program.

Jan. 1901.
Margaret Chamboneau has been absent five days this month on account of sickness.
She is working in addition and subtraction on page 47 of No. 1 Arith. Her improvement is hardly noticeable in number work. She reads a little better in the Second Reader but her spelling is miserable. I doubt if she ever becomes independent enough to write letters alone.
She has copied two this month.

Jan. 1901.
Myrtilla Davies has been absent one day this month on account of sickness.
She is out a good deal practising for the Operetta. She is at last beginning to comprehend long division. Is working on page 40.
Reads & spells quite well on page 41 of Sea Side & Way Side.
She is interested this week in making valentines. She has written two letters this month.

Jan. 1901.
Polly Saltzke has been present every day this month. She is out a good deal practising for the Operetta. She is working on page 78 of No I Arith.

Can do her work more rapidly, & does not depend as much on objects. Reads & spells right well all on page First Reader.
She has copied two letters and written one short one independently this month.

Jan. 1901.
Minnie Harrison has been present every day this month. She is at last beginning to comprehend long division and is working on page 40 of No 3.
She reads & spells right well on page 41 of Sea Side & Way Side. She writes poorly. Has written three letters this month & made one valentine.

Jan. 1901.
Gladys Holman has been present every day this month. She has learned the table of 9's and can divide & multiply simple questions. Reads & spells quite well in Sea Side & Way Side. page 41.
She has written four letters this month. Has made one valentine.

Jan. 1901.
Annie Lochstad has been absent one day this month. She has learned cam, read, et, in, besides studying up old words.

Jan. 1901.
Lanna Miller has been present every day this month. She advances very slowly in numbers. Is doing addition this month with three numbers in place of two. Reads on page 41 of Dear Side and Wayside. Is a poor speller. Has to spend a good deal of time on spelling. Has written three letters this month.

Jan. 1901.
Clara Paetzold has been present every day this month. She is working on page 31 of New Arith. Is adding with three numbers this month. Reads & spells quite well on page 39 of 2nd Reader. Has written three letters this month. Is making valentines now. Her writing improves a little all the time.

Jan. 1901
Edith Poole has been absent one day this month on account of sickness. She has learned the table of sixes in Arith. this month and does easy work in division & multiplication. Reads & spells very well on page 41 of Dear Side and Wayside.
New Years day she wrote the following -
1. I am going to be good to the children
2. I will try to read the Bible
3. I will study hard in Arith.
4. I will try to read and have good lessons.
5. I am going to try hard to dance

Jan. 1901
Mary Bryanan has been present every day this month. She does quite well with addition & subtraction. Reads and spells in first reader, page 74. Copies her letters - does not spell well enough to do independent work. Writes neatly. Has written two letters this month. Is making valentines.

Jan. 1901.
Nicholas Blasius has been present every day this month. He does easy sums in addition & subtraction. Uses objects all the time.
Has learned 12 or 15 new words in the primer. In reading on page 61. Spells easy words. Writing improves a little. He has copied two letters this month.

Jan. 1901
Warren Dugan has been present every day this month. He has been adding with three numbers. Improves very slowly in Arith.
Reads & Spells quite well quite well on page 249 of 2nd Reader. He has written four letters this month. On New Years day he wrote these —
1. I am going to try & be a good boy.
2. I am going to try & get my number work.
3. When I get out of my bed in the morning I am going to try & look good natured.

Jan. 1901,
Roy Ellis has been present every day this month. He is doing quite good work in numbers. Does not depend on objects so much. In working on page 79 of No I Arith. Reads and spells

on page 74 of first reader. Writes neatly. Has copied one letter this month.

Jan. 1901.
Alfred Eisenbarn has been absent two days this month on account of sickness. He is working on page 79 of No I Arith. Reading on page 32 of 2nd Reader. Spells very well. Seldom misses a word. Writing improves slowly. He wrote the following New Years day.
1. I will try to be good all year.
2. I will scrub well.
3. I will not be mean in lines.
4. I am going to laugh a whole lot this year.

Jan. 1901,
Dedrich Fiske has been present every day this month. He has learned the table of sixes in multiplication. Does not apply it very well. Cannot divide when there is anything left over. Reads and spells very well on page 249 of 2nd Reader. Always writes his spelling neatly. He has written three letters this month. Has made one valentine.

Jan. 1901.
Eugene Gurney has been present every day this month. He comes as near doing nothing in number work as any boy in the room. Cannot combine two numbers without making marks. Reads & spells right well on page 249 of 2nd Reader. Writes nicely. Has written two letters this month. He wrote these resolutions New Years Day.
1. I will try to be a good boy.
2. I will study all my lessons.
3. I will mind my teacher & any attendant.
4. I will march straight and so please any attendant.

Jan. 1901.
Joseph Hatch has been absent one day this month. He has taken up long division any will. Learned it much quicker than the girls in the class. He studies his spelling & nearly always has a perfect lesson. Reads quite well on page 249 of 2nd. Reader. Has written three letters this month. He wrote the following without any prompting.
1. I will do the best I can in school.
2. I will be good to my teacher
3. I am going to be good in

Chapel.
4. I am going to study my lesson hard this year.

Jan. 1901.
Raymond Hill was absent two days this month. Does easy combinations with numbers from 1 to 15. Is doing better work - tells original stories about his numbers. He has learned about twelve new words this month in the primer. Is reading on page 61. Copies nicely, Has copied two letters this month.

Jan. 1901.
Frank Jewett has been absent one day this month on account of sickness. He has had drill this month in writing numbers, and + and - work with easy numbers. Has learned about twelve new words in the primer. Copies nicely Has copied one letter this month. Spells his reading lesson with the word builders.

Jan. 1901.
Walter Johnson has been present every day this month. He has done right nice work in school. I imagine it is a little easier for him to get his mind

in his work than formerly.
He works rapidly in #, but uses objects.
Reads & spells quite well on page 74 of 1st Reader.
Copies writing nicely & can write any word he can spell. He has written two letters this month.
He wrote these on New Years.
1. I mean to be good.
2. I will not be mean in school.
3. I will not hit the boys.
4. I wont be selfish
5. I will let the boys kick my foot ball.
6. I wont take a thing that belongs to the other boys.

Jan. 1901.
Elmer Johnson has been present every day this month.
He improves very little in numbers. Has tried to add a column of three numbers this month. Depends on objects.
Reads on page 61 of Primer Has learned about twelve new words. Can copy writing & write any word he can spell.

Jan. 1901.
Alvin Hoop has been absent one day this month.
He has had drill in writing numbers, & doing easy addition. He reads

right well on page 74 of first reader - Has to study his spelling pretty hard
Copies writing nicely.
He has copied one letter this month.
Drew a picture that is quite good, of some rabbits. He is coloring it now.

Jan. 1901.
Charlie Nelson has been present every day this month. He has improved very little in numbers.
He is still working on + and - combinations.
Reads and spells poorly in first reader. Misses a good deal by not hearing.
Copies writing neatly, but too fine.

Jan. 1901.
Nathan Rice has been present every day this month.
I think he is improving in numbers. Works a little faster, and I think he can reason a little better.
Reads, but slowly and poorly on page 249 of 2nd Reader. Misses nearly every word in spelling.
Writes quite well. Has written two letters this month.

Jan. 1901.
Albert Riley has been present every day this month. He is att a good deal practising for the operetta. Has learned the table of nines in multiplication. Reads & spells well on page 249 of 2nd Reader. Remembers what he reads. He has written two letters this month.
These were his New Years Resolutions.
1. I am going to be a very good boy this New Year.
2. I am going to read the Bible & do what it tells one.
3. I am not going to be selfish
4. I am going to do my best in writing every day.
5. I am going to read fine.
6. I will stand up straight
7. I will not tell lies, but always speak the truth.

Jan. 1901.
Iganatius Stezencowski has been present every day this month. He is doing nice work in numbers. Combines nos. from 1 to 15. Tells original stories about his number work. Has learned about twelve new words in the primer. Reads quite well. But does not write well.

Copied one letter this month which was sent to Mother Benedict. He likes to write but he likes a change.

Jan. 1901.
Frank Sibley has been absent two days this month. He does not compare very fast in numbers. Is working on page 79 of No. 1 Arith. Is a poor speller - Misses nearly every word. Reads as well as it is possible with his defective vocal organs. Writes very nicely Cannot write a letter independently on account of spelling. Has copied two letters this month.
He wrote these New Years Resolutions.
1. I mean to be a good boy.
2. I will study my lessons every day.
3. I will try not to make any trouble.

Jan. 1901.
Charlie Swanson has been absent one day this month. He is working away at + and - combinations. Is a faithful worker.
Reads very well on page 74 of 1st Reader. Is the best speller in his class. Seldom misses a word.
He has copied two letters

this month.

Jan. 1901.

Joe Sullivan has been absent four days this month on account of sickness. He is not a good deal practising for the operetta, too. He does nice work in numbers on page 79 of No I Arith. Improving in reading and spelling every day. Reads on page 32 of 2nd Reader. He has written three letters this month. Is a careful writer.

Jan. 1901.

Edward Running has been absent two days this month. I found he could not do the work with the class in multiplication so he is now working on some practical problems in addition & subtraction. He is inclined to be lazy. Reads & spells in the same lazy fashion that he walks. Writes fairly well. He writes his own letters - but his composition is not good. Has written three letters this month. Is mumbles a good deal.

Jan. 1901.

Edward Barr has been present ten days this month. He feels that he is beyond any other boy in school, so is a little unhappy about it. But I find he makes mistakes in long division and does not work near as rapidly as some others in the class. He reads and spells very well in the 2nd Reader. Has not missed a word in spelling this month.

He writes his own letters. But his composition is not as good as it can be. His vocabulary can be increased too. Is a nice quiet boy.

Feb. 1901.
Margaret Chanboneau has been absent ten days this month, working in the sewing room. She has done very little school work - Da nothing in arithmetic but has to use objects constantly, Da back in her reading. Am afraid the class will have to go on & leave her. Even spells poorer than last month.

Feb. 1901.
Myrtle Davies has been absent two days this month.
She is inclined to waste her time drawing pictures instead of studying. Is doing problems involving both multiplication and division. Reads and spells on page 52 of Deaside and Wayside. The Motion of Plants. Spelling is not very good. Writes very little better - Has written one letter this month.

Feb. 1901.
Polly Hatzke has been absent four whole days this month, besides a good many hours for special drill. She is reading now in the Cyr 1st Reader pg. 226. It is a grade harder than the Barnes, so I advanced some of the class. Polly has written three letters this month. She also learned a piece for Washington birthday.

Feb. 1901.
Minnie Hanson has been absent one day this month on account of sickness. Is doing problems involving both addition, multiplication & division, and it bothers her. She reads and spells very well on page 52 of Deaside & Wayside. The Motion of Plants - Has written some letters this month. Her writing improves very little.

Feb. 1901.
Gladys Holman has been present every day this month. Is doing quite nice work on page 79 of No. 2 Arith. Practical problems in division & multiplication.
She reads & spells very well on page 52 of Deaside and Wayside. Is acquiring a good deal of knowledge about plants.
Writing improves slowly. She has written four letters this month.

Feb. 1901.
Annie Lochstad has been absent four days this month and another week that she was in school she was unable to do any articulation work on account

of her throat. Has kept up the review of old words learned - has learned in addition cat and rat.

Feb. 1901.

Lanna Miller has been present every day this month. She is still doing simple work in addition & subtraction Depends largely on objects to combine.
Reads & spells in Dea Side & Way Side - Has to study very hard to keep up with the spelling. Writing improves a little. She composes letters better. Has written three this month.

Feb. 1901.

Clara Pautzold has been absent two days this month. She has really improved in reading and spelling. She studies hard & tries to learn. Is reading on page 39 of 2nd Reader. Advances very slowly in numbers. Still doing + and - work Her letters are composed better and written more neatly. She has written two this month.

Feb. 1901.

Edith Poole has been absent two days this month. When she has been at a number of home practicing for operetta. She is doing nice number

work on page 70 of No. 2 Arith. Practical problems in division and multiplication.
She reads & spells well on page 52 of Dea Side & Way Side. Motion of Plants. Writes well.

Feb. 1901.

Mary Poyneer has been absent two days this month. She is very slow, Is doing work in addition and subtraction. Reads well and nearly always has a perfect spelling lesson. Likes to draw. Writing improved a little. She has written one letter this month. She is reading in Cyr 2nd Reader now, Is some harder than Barnes.

Feb. 1901.

Nicholas Blasius has been absent one day this month. He improves very little in number work - Cannot do anything without the use of objects. Has learned ten new words and has been promoted to the first reader - Has spelled every word at the head of every lesson so far - Writes poorly, Dictates a letter slowly & does not always choose interesting things to write. Copies poorly. Has written two letters this month.

Feb. 1901.
Warren Dugan has not missed a day this month. Improves very little in number work. Still adding & subtracting & cannot get away from objects. Finished the Cyr 2nd Reader, And I thought he needed more drill in that grade gave him the Barnes 2nd Reader. Is more interested in it. Spells fairly well. Improving in writing. Has written three letters this month.

Feb. 1901.
Roy Ellis has been present every day this month. He finished during the month No. 1 Arith, but I thought it necessary for him to review as he is working on page 36. Reads poorly & nearly always has to take spelling lesson over two or three times. Dictates his letters and is not good at suggesting items of interest to write. Copies well. Has dictated one letter this month.

Feb. 1901.
Alfred Emerson has been absent four days this month, working. He finished No 1 Arith during the month and has started in No. 2. Is doing some practical problems. Reads and spells right well on page 51

of 2nd Reader. Understands what he reads. Writes his spelling lesson - writing improves a little.

Feb. 1901.
Dedrick Fiske has been absent one day this month. Is doing nice work in division & multiplication. Kind of a review on the tables. He finished Cyr 2nd Reader, & to make him more interested gave him Barnes 2nd instead of a review in the old book. He seldom misses a word in spelling. Takes pride in writing nicely. Has written two letters this month.

Feb. 1901.
Eugene Kearney has been absent three days this month. I do not think he will ever get more knowledge of Arith. He is doing the same work as last month. Finished the Cyr 2nd Reader and has commenced the Barnes 2nd Reader. Has had good spelling & reading lessons this month. Writes a little better, perhaps. Has written two letters this month.

Feb. 1901.

Joe Hatch has been absent three days this month working at the farm. He is working at problems involving both multiplication and division & is rather troubled with them. He has commenced the Barnes 2nd Reader - Was not ready for a testing. He studies his reading & usually has a good spelling lesson. He has written three letters this month.

Feb. 1901.

Raymond Hill has been present every day this month. I have drilled him with card work this month. I think I will see good results too - He is learning to write and recognize numbers to 50. Has been promoted to the First Reader, & is very much pleased. Has spelled every word at head of lessons so far. Has dictated three letters this month which he copied himself. He learned a short piece for Washington's birthday, & did some concert work.

F

Feb. 1901

Frank Jewett has been absent one day this month. Has been drilled with sight work in numbers and + and - combinations. Has been promoted to the first reader, & is very much pleased and studies his new lessons very hard. Has spelled every word at head of lessons so far. Writes nicely. Has dictated two letters this month.

Feb. 1901

Walter Johnson has been present every day this month. It is hard to keep him at any work many minutes at a time. Do not see that he has improved any in numbers. Has done the same work as last month. But his reading and spelling are better. He is now reading in the 2nd first reader. Copies writing nicely & writes anything he can spell. Has dictated two letters this month. He learned and spoke a short piece for Washington's birthday. & did some concert work.

Feb. 1901

Elmer Johnson was absent one half day this month. He has done much the same number work this month as last - drill in + and - questions. He has been promoted to the first reader and is much pleased. Has learned ten new words and can spell words at head of lesson. Can copy writing quite well. Did second best work for Washingtons birthday.

Feb. 1901.

Alvin Korp has been absent two days this month. Have given him drill in counting & writing numbers. And combinations with the number cards. He does right nice work in reading. Has taken up the 2nd first reader this month. Studies his spelling. Copies writing neatly. Has dictated one letter this month.

Feb. 1901.

Charlie Nelson has been absent one day this month. It is hard for him to do class work, because he hears so little. But he is careless. In counting objects he seldom gets the right

number at first. Reads and spells very poorly this month. Does not like to do work over again. Copies writing right well.

Feb. 1901.

Nathan Rice has been present every day this month. Has done right good work in numbers - Added columns of 4 figures, and work in subtraction. I have let him drop behind in reading & I think he will accomplish more. He has written two letters this month.

Feb. 1901.

Albert Riley has been present at roll call every day this but has been out a great deal practising for the operetta. His class is working on page 70 of No. 2 Arith, at review work in division. He is reading in the Barnes 2nd Reader, and spells & reads well. His writing has not improved at all. He has written two letters this month.

Feb. 1901.

Ignatius Stezerowski has been absent one half day this month. His number work has been with card drill, combinations + and - and X. As well as writing and reading

numbers to 500.
He has been promoted to the first reader, & is much pleased. Studies his lessons well. Has spelled every word at head of lessons. Has written a little plainer this month.
Dictated one letter. Learned
F. and spoke a piece on Washington's birthday, also took part in the concert exercise.

Feb. 1901.
Frank Sibley has been absent two days this month.
He is working with his class on page 36 of No. 1 Arith. He finished the book but the work again.
He has done a little better reading and spelling this month. Learned some concert piece for Washington's birthday. Copies neatly. Has dictated two letters this month.

Feb. 1901.
Charlie Swanson has been absent two and a half days this month, working.
He is doing much the same number work as last month. Perhaps does his work a little more accurately. I have changed his reader. He uses now

the Cyr first reader. Reads and spells the best in the class. Copies writing neatly. Has dictated one letter this month. He learned and spoke a short piece for Washington's birthday.

Feb. 1901.
Joe Sullivan has been present every day this month. Has had been taken out a good many periods for special work.
He completed number one Arith. & has gotten a start in No. 2 this month. He needs to put more study on his reading & spelling. Has reached page 51 of 2nd Reader - Remembers what he reads & uses words in original sentences.

Feb. 1901.
Edward Renwick has been present every day this month. He is working in addition & subtraction. Cannot reason at all. Never knows when to add a number or subtract it. Is very lazy. Can hardly get him to study. Is reading on page 259 of 3rd Reader. He has written three letters this month.

Feb. 1901.

Willie Dillis has been absent two days this month. Is a quiet boy but inclined to be lazy. Is working on page 36 of No I Arith. Finished No I this month but I thought it best for him to review.

He has been promoted to the 4th first reader. Reads & spells quite well. Copies his own letter but dictates them. He has written two this month. He learned and spoke a short piece for Washington's birthday.

March 1901.

Margaret Chardonneau has been present every day this month. She makes no perceptible improvement. Has had drill with the rest of her class in the ordinary gal. qt. pt. 4qi. I think she knows them by sight now. But cannot form the table, nor do any practical sums with it. She has turned back to the first lesson in the 2nd Reader. She recites alone now, so has very chance to learn.

March 1901.

Myrtle Davies has been present every day this month. She is so indolent Could do more if she were not so lazy. Has been at practical problems in division and multiplication such as How many quires & sheets in 684 sheets, and there are 36 gal. in a barrel of beer, how many in 16 barrel. She is reading on page 66 of Lee Side & Hong Side. Has written three letters this month.

March 1901.

Polly Gatz she has been absent one day and a half on account of sickness. She is putting in some good study time on her number work. Is learning to carry & borrow numbers. Has been drilled all month on that.
Her spelling & reading are both better. Reads & remembers what she reads. Has written two letters all alone this month.

March 1901.

Minnie Hanson has been present every day this month. Has been working practical problems in division and multiplication. Such as How many quires & sheets in 684 sheets. There are 36 gal. in a barrel of beer. How many in 96 barrels.
Reads & spells well on page 66 of Sea Side and Wayside.
Her writing does not improve much. She has written four letters this month.

March 1901

Gladys Holman has been present every day this month. Her drill in nos. has included work in adding and taking away 10's as well as units. She studies her spelling and reading and improves a little all the time. Her writing is a little larger and plain. She has written five letters this month.

March 1901

Annie Lockstad has been present every day this month. She has learned next how in on, the units, besides keeping up list of words learned. Can repeat sentences of 7 or 8 words and write them.

March 1901.

Laura Miller has been present every day this month. Has tried to get her to count by 2's, 3's & 4's from 1 to 13. But have not succeeded yet. She can write them adding as she writes. Has read to page 66 of Sea Side and Wayside. Spells perhaps a little better. Has written three letters.

March 1901

Clara Paetzold has been present every day this month.
For convenience I had to advance her to the 2nd. Reader. Not because she was particularly well prepared for it, and it has seemed to act as an invention.
She really has done good spelling & reading.
She has had drill in counting by 2's & 3's from 1 to 13.
Has written three letters this month.

March 1901.

Edith Poole has been present every day this month.
Her number drill has included work in adding and taking away tens as well as units. pg. 76 of No 2.
She has read to page 66 of Sea Side & Way Side.
Her writing on board & paper is very neat and legible.

March 1901.

Mary Pagaman has been absent one half day this month.
She has done much the same work in numbers as last month. + and -. combinations
Her reading and spelling are better. Reads on page 42.
Writes plainly. Is only in school an hour & a half.

March 1901.

Annie Schiple entered about ten days ago.
I placed her in a number class where they are drilling in adding & taking away 10's as well as units.
She can add & subtract, but does not always get correct results. Is an improvable girl & think she will gain a good deal. She seems to enjoy her reading in the Natural Sea Side Reader.
Wrote her first letter.
Composed it quite well with a few suggestions.
Only misspelled three or four words. Her writing can be improved.

March 1901.

Nicholas Blasius has been present every day this mo.
His number work has been much the same as last month.
He is doing nice work in reading and spelling.
Has learned many new words. Can write and spell them as they are pronounced.
He dictated and copied two letters this month.

March 1901.
Warren Dugan has been present every day this month. He has had drill in counting by 2's and 3's & 4's from 1 to 13. and such practical problems as 4 whips and 5 whips are how many.
He is reading on page 61 of Barnes 2nd Reader.
Is interested in his reading lessons.
I Has written three letters this month. His writing improves all the time.

March 1901.
Roy Ellis has been absent three days this month.
He has been counting by 2's 3's & 4's from 1 to 13. and + & - work.
He reads slowly, learning a few new words each day. He gets special drill in articulation.
Writing improves a little every day.
Has dictated and copied one letter.

March 1901.
Alfred Dierstein has been present every day this month.
He has learned to carry and borrow numbers this month. His work has been in addition & subtraction. He has read to page 77 of 2nd Reader. Spells every word at head of lesson & manually forms sentences using them.
Needs to give more attention to his writing.

March 1901
Dedrick Fiske has been present every day this month. Is working nicely in school - His number work has included work in adding & taking tens as well as units. Hands in written work every day. Seems interested in his reading lesson on page 61 of Barnes 2nd Reader. Has written four letters this month. It does him good to get letters. Wish he had more friends to write to him.

March 1901
Eugene Sweeney has been present every day this month. He does very little independent work in numbers. Has tried to count by 2's, 3's to 13. And such practical problems as 4 whips & 5 whips. Reads fairly well on page 61 of Barnes 2nd Reader. Spelling is better this

month. He has written
three letters.

March 1901.

Joe Hatch has been present
every day this month.
This month has been
spent on practical problems
in multiplication & division
such as how many
quires and sheets in
684 sheets, And there are
36 gal. in a barrel of beer,
how many in 16 barrels.
He seems interested in
his reading on page 61
of Barnes 2nd Reader.
Has gotten along better
with spelling this month.
He has written five letters.

March 1901.

Raymond Hill has been
absent two days this month.
Has just started in a number
book. to page 12 of No 1. Still
has card drill & writing
numbers. Combines much
more readily
Does good work in the first
reader. Has learned 20
new words which he
can both spell and write
as I pronounce. He uses
the spelling helps in pre-
paring his lesson.
We dictated and copied
three letters this month.

March 1901

Frank Jewett has been absent
one half day this month.
Has had drill in writing
numbers, and easy + & —
combinations from 1 to 10.
Has done good work in
spelling & reading. Has
learned twenty new words.
Which he can spell and
write as I pronounce.
We has dictated and
copied two letters this
month.

March 1901

Walter Johnson has been
present every day this
month. He has done
much the same work in
numbers as last month.
+ and - combinations.
Seems interested in his
reading & spelling and
recall always has his
lesson. Writes nicely.
Has dictated and copied
two letters this month.
I have to keep his hands
employed constantly as
he is into some mischief.

March 1901.

Elmer Johnson has been absent
one half day this month.
He has done about the same
work in numbers as last
month, Combinations in
+ and -. Is doing well

in reading. Has learned 20 new words. which he can spell & write upon blackboard as I pronounce them. His writing is plain. Articulation not very good.

March 1901.

Alvin Karp has been present every day this month.
His time has been spent in learning to write numbers, and doing easy combinations in + and − from 1 to 10.
Seems to like his reading better & generally has good reading & spelling lessons.
He has dictated and copied two letters this month.

March 1901.

Charlie Nelson has been present every day this month. He makes no improvement in numbers that I can see. And very little in reading. In reading now on Page 66 of First Reader. Does not try & is not interested. Tries to get out of his seat.
He dictated and copied one letter this month.
And received an answer to it which pleased him very much.

March 1901

Nathan Rice has been present every day this month.
His lessons have been on liquid measure. He has learned gal. qt. pt. & gi. & the table. But in applying it makes mistakes.
Reads in the Cyr third reader. Does very slowly. but I think gains a little all the time.
His writing improves.
He has written two letters this month.

March 1901.

Albert Riley has been absent one day this month.
His number work has included adding and taking away 10's as well as units.
Is very much interested in his reading. Remembers what he reads & seldom misspells a word.
He does not improve fast in writing.
He has written two very original letters this month.

March 1901.

Ignatius Stezencwski has been absent one half day this month. In doing slate number work. Was just started in No I Arith.
Has had a good deal of

card drill & drill in writing nos, & finding pages in books.
He studies his reading & spelling lessons, and has learned to write & spell as I pronounce at least Twenty new words.
His writing is a little better.
He dictated and copied one letter this month.

March 1901

Frank Sibley has been absent five days this month, on account of sickness.
He has been counting by 2's 3's & 4's from 1 to 3 and works with + and -.
His articulation being so poor he is in a class where special attention can be given to that. Reads very slowly - Spelling work a little better this month.
He has dictated and copied two letters this month.

March 1901.

Charlie Swanson has been in school every day this month. He has done much the same work in numbers as last month, easy combinations with numbers from 1 to 20.
He is interested in his reading lessons. Knows

what he reads about. Always has good spelling. Writes nicely. Has dictated and copied two letters.

March 1901

Joe Sullivan has been absent two days this month.
He is quite interested in his Arith. Has learned to borrow and carry numbers.
Reads on page 77 of 2nd Reader. Remembers what he reads. Spelling has been pretty good. And he is able to use most of words spelled in sentences.
Has written three letters this month.

March 1901

Edward Renzing has been present every day this month.
He does not seem to gain the least thing in number. He has drilled with the rest of class on gal. qt. pt. qi.
Is working slowly in 2nd Reader. Does not like to study.
Has written three letters this month.

March 1901.
Willie Gillis has been present every day this month.
Is not very studious.
Has spent a good deal of time this month counting by 2's 3's & 4's. from 1 to 13.
Is doing better work in reading and spelling.
Writing improved.
He has dictated and copied three letters this month.

April 1901.
Margaret Charbonneau has been absent four days this month. Her number work has been measuring. She can use a ruler pretty well. Has learned ½ inch.
Reads in 2nd Reader pg. 9.
She has not accomplished very much. Can hardly learn to spell a new word.

April 1901.
Myrle Davies has been present every day this month.
Has had work in multiplication of U. S. money.
Reads on page 90 of Dea Dide Reader. She has written two letters this month.
Has her spelling a little better than last month.

April 1901.
Polly Katzbeck has been absent one day this month.
Her arith has been most of the month adding & subtracting by 3's & 4's from 19 & 20 to 100 & back.
Her reading & spelling improves every day.
She has learned about 45 new words.
Has written two letters

April 1901
Minnie Hansen has been absent one day this month.
She has spent the month in multiplication of U. S. money.
Reads on page 90 of Dea Dide Reader. Remembers what she reads. Has written three letters this month.

April 1901
Gladys Holman has been absent one day this month.
Her number work has been adding & subtracting white yard board and carrying numbers.
She reads on page 90 of Dea Dide Reader.
Spells very well.
Has written six letters.
Her writing a little improved.

April 1901
Annie Lochstad has been present every day this month. She has learned cat, hat, rat, besides keeping up previous list & combining all words in sentences.

April 1901.
Laura Miller has been present every day this month. Her work is primary. It has been +, −, × & ÷.
She reads on page 90 of Lea Side Reader. Spelling has been a little better.
She has written two letters.

April 1901
Clara Pachzold has been present every day this month. She has done the same work in numbers as last month. Cannot add 2 + 2 even without marks or objects.
Has gotten along fairly well in 2nd Reader. Works slowly, especially in learning spelling.
She has written two letters this month.

April 1901.
Edith Poole has been absent one day this month.
Her number work has

been adding & subtracting when you have to borrow & carry numbers.
She reads on page 90 of Lea Side Reader.
Writes and spells very well.

April 1901
Mary Torgerson has been absent one day this month.
She has done much the same work in numbers as last month, + & − to 20.
She reads on page 61 of 1st Reader. Has learned about 45 new words.
Is very slow and inattentive. Has dictated and copied one letter.

April 1901.
Annie Scheipl has been absent two days this month on account of dentist work.
She has been adding & subtracting where you have to carry & borrow numbers. She reads & does good spelling on page 90 of Lea Side. She has written three letters.

April 1901.
Nicky Palazinis has been present every day this month.
He has done + & − combinations to 20. Does not gain much in numbers. He has learned

to spell and write about 20 new words. Does very good writing for a boy afflicted as he is. He has dictated and copied two letters.

April 1901.

Roy Ellis has been absent one day this month.
Has been drilled on some practical problems with + − , × & ÷
Reads poorly on page 84 of 1st Reader. Is so inattentive. Has learned to spell 10 new words. Has dictated and copied one letter.

April 1901.

Alfred Eisentraut has been absent one half day this month. He has added and subtracted by 3's & 4's this month from 20 to 100 & back.
He gets his spelling lesson very good. & reads on page 112 of 2nd Reader.
Can tell something about his lessons in his own words

April 1901.

Didrick Fiske was absent two weeks of this month.
He has added & subtracted when you have to carry & borrow numbers.
Reads on page 91 of Barnes 2nd Reader. Nearly always has a perfect spelling lesson.

Can tell story of the lesson.
Has written two very neat letters.

April 1901.

Eugene Guernsey has been present every day this month. Do not think he has anything in numbers.
Has done the same work as last month.
Reads very well on page 91 of Barnes 2nd Reader.
Has had good spelling lessons. And has written two letters this month.

April 1901.

Joy Hatch has been absent three and a half days this month. His number work has been in multiplication of U. S. money.
He reads on page 91 of Barnes 2nd Reader. Has had very good spelling lessons. & remembers what he reads. Has written four letters this month.

April 1901.

Raymond Hill has been absent one day this month.
He has done quite good number work, sight reading & combining with original stories and some work in books. as far as pg. 170 of No I. Has learned to spell

and write ten new words.
Has dictated and copied
three letters.

April 1901.
Frank Jewett has been
present every day this
month. He has done a
little harder work than
last month in numbers.
Enjoys the story work &
is right quick in com-
bining, + & −.
Has learned to write &
spell about 20 new
words. Reads on page
40 of 1st Reader.
Has dictated & copied two
letters.

April 1901
Walter Johnson has been
present every day this month.
He has done combinations
+ & − with numbers to 20.
Cannot do much without
objects or marks.
Reads & spells perhaps a
little better on page 61
of Cyr 1st Reader. Is a trying
boy in school. Has dictated
and copied two letters
this month.

April 1901.
Elmer Johnson has been
absent ½ day this month.
His work in numbers is
very primary + & − combi-
nations with numbers to 100

He has learned to write &
spell 20 new words. Writes
very well on board or
paper. Reads on page 40
of 1st Reader.

April 1901
Alvin Korpe has been absent
two days this month.
His number work is im-
proving slowly. Adds a
little harder numbers.
Can write nos. now rapidly.
Reads on page 64 of Cyr
1st Reader. Has learned
about 45 new words.
Writes neatly. Is hard
to get along with in school.
Has dictated and copied
two letters.

April 1901.
Charlie Nelson has been
absent one day this month.
He does primary work in
+, − combinations with
numbers from 1 to 20.
Is inclined to be lazy &
of course does not learn
well. Has learned about
20 new words in the 1st
Reader - Is a poor reader.
And reads in a very low
tone. Has written two
letters this month.

April 1901.
Nathan Rice has been present
every day this month.
He has had drill in the

use of the ruler, taking
measurments of ½ in. &
ft & cm in inches.
He reads on page 11 of 2nd
Reader - takes words of
3 syllables but only three
at a time. Is very slow.
Has written two letters
this month.

April 1901.

Albert Riley has been absent
one day this month.
He has learned to add
and subtract numbers
where you have to carry
and borrow numbers.
Takes up new work
like that easily & enjoys
it. Reads well on page
91 of Barnes 2nd Reader.
Good spelling lessons.
Has written two letters.

April 1901.

Ignatius Stezzenowski
has been present every
day this month. Is doing
nice work in numbers.
Some drill in sight reading,
writing numbers, quick
combinations & story
work beside a little work
in book. He has learned
to spell & write about 40
new words.
Has dictated and copied
one letter.

April 1901.

Frank Sibley has been
absent two days this
month. He has worked
on practical questions
involving +, −, × & ÷ +÷.
Gets along slowly in
Reading. Cannot take
more than two new para-
graphs at a time & 3 words
Has dictated & copied one
letter.

April 1901.

Charlie Swanson has been
present every day this
month. He does primary
work in numbers. + & −
combinations from 1 to
20.
Reading getting better every
day. Has learned to spell
and write about 45 new
words. Has dictated and
copied two letters.

April 1901.

Joe Sullivan has been present
every day this month.
Has been adding and sub-
tracting by 3's 4's & 5's
from 20 to 100.
Has read to pg. 112 in 2nd
Reader. Can use new
words in sentences, and
remembers what he reads.
Spelling good. He has
written two letters
this month.

April 1901.
Willie Speck has been in school every day this month. Has spent the month adding & subtracting when you have to carry & borrow numbers. Has done nice work.
Reads pretty well on pg. 91 of Barnes 2nd Reader. Is interested in Reading. Not a good speller. Has written one letter this month.

April 1901.
Edward Renzwig has been present every day this month.
I have tried to teach him the use of the ruler. But he has not learned the difference between an in. & ft. yet.
Reads slowly & poorly on page 11 of 2nd Reader. Takes very short reading & spelling lessons. Has written two letters.

April 1901.
Willie Gillis has been present every day this month.
He has had a good many questions to make him think in +, − & × & ÷.
Has learned about 40 new words in Cyr 1st Reader.
Reads in a hesitating

way. Has dictated and copied two letters this month.

May 1901.
Polly Gatzke has been present every day this month.
She reads on page 76 of first reader. Spelling has been good this month. writing perhaps a little improved. Is starting to learn the multiplication table. Has written two letters this month.

May 1901.
Minnie Hansen has been present every day this month. Has drilled on problems in division all month. Reads on page 105 of Deadside Reader. Has had good spelling lessons. Writing is perhaps a little all the time. Did two pages of very nice number work to send to Buffalo. Has written two letters.

May 1901.
Gladys Holman has been present every day this month. She has worked to Lee. 6 in No 2, Arith. That includes miscellaneous problems reviewing all combina

tions. She reads on page 105 of Leadside Reader. Spells pretty well. Writing improving. A page of her work has been on exhibit. She has written four letters.

May 1901.

Annie Lochstad has been present every day this month. She has learned will, get, egg, am, at, in, ox, and this month's kept up old list.

May 1901.

Laura Miller has been present every day this month. She has done a little division work but much + and −. Her reading and spelling is improving. And Laura writes much better. Has written three letters.

May 1901.

Clara Baetzold has been present every day this month. She has done a little work in division but much in + and −. She studies hard at her reading and spelling & is doing right well. Writing is

improving. She has written two letters this month.

May 1901

Edith Poole has been present every day this month. She has reached Dec. 6 in No. 2 Arith. That includes miscellaneous problems reviewing all combinations. She reads on page 105 of Leadside Reader. Spells well. Wrote a very nice letter that was sent on exhibit to Buffalo.

May 1901

Mary Torgerson has been present every day this month. She does much the same number work as last month, adding and subtracting. Reads & spells very well on page 76 of 1st Reader - Writing has improved.

May 1901

Annie Schiepl has been absent one day this month. She has done miscellaneous problems reviewing all combinations. But she gets badly mixed on × & ÷. Reads & spells fairly well on page 105 of Leadside Reader. Her writing improves

slowly. She has written two letters this month.

May 1901.
Nicholas Blazina has been present every day this month. He has worked every day at + and - question L. Has learned 10 new words, and reads quite smoothly. Writes his spelling every day as it is pronounced. Has dictated and copied one letter.

May 1901.
Roy Ellis has been present every day this month. He has finished an engraving all month, learning parts of sheep, etc.
He reads on page 94 of 1st Reader. Spelling is always hard for him. Writes nicely.

May 1901.
Alfred Eisenbraun has been present every day this month. He is starting to learn the multiplication tables, & apply them. But it is going to be hard for him to multiply by 2's & 5's.
He reads on page 134 of 3rd Reader. Spelling has been good this month.

Writes quite well.

May 1901.
Diedrich Fiske has been absent one day this month. He has reached sec. 6 in No. 2 Arith. It includes miscellaneous problems reviewing all combinations. Reads & spells quite well this month. Knows what he reads. He wrote a very nice letter that was sent in the exhibit to Buffalo.

May 1901.
Eugene Guernsey has been present every day this month. He is doing exactly the same work in numbers as last month. Has had good reading & spelling lessons. Writes nicely. Has written two letters this month.

May 1901.
Joe Batchy was absent six days this month. He has worked on problems in division all month. Has had good reading & spelling lessons. Writes neatly. Wrote a nice letter that was sent with the exhibit to Buffalo. Has written two other letters.

May 1901

Rayand Hill has been present every day this month. He has done quite nice number work. Could do practical problems if he could read them. Knows numbers now. Has learned ten new words. Writing has improved. He has dictated and copied two letters.

May 1901.

Frank Jewett has been present every day this month. He has done work in + and - this month. Has learned ten new words can spell and write them. Writing has improved. He has dictated and copied two letters.

May 1901

Walter Johnson was absent seven days this month. His work in numbers has been adding and subtracting. He has learned 12 new words and reads on page 76 of 1st Reader. He has dictated and copied two letters.

May 1901.

Elmer Johnson has been absent one day this month.

His work in numbers has been in addition and subtraction. He has learned ten new words. Can write them on board pronounced.

May 1901.

Elvira Korp has been present every day this month. His number work is primary, + and - combinations & original stories with them. He has learned 12 new words. Can spell and write them. Has dictated and copied two letters.

May 1901.

Charlie Nelson has been present every day this month. His number work has been in addition and subtraction He does not improve in reading & spelling. Reads on page 94 of 1st Reader. Writes quite neatly. Has dictated & copied two letters.

May 1901.

Nathan Rice has been absent one day this month. He had spent the month learning to use the ruler, measuring etc. & the table of liquid

measure. His reading is perhaps a little better, but he is very slow. His writing is improving every day. He has written two letters this month.

May 1901.
Albert Riley has been present every day this month. He is only in any department a few minutes so does not advance much. Could if he had the time though.

May 1901
Ignatius Stezerowski has been present every day this month. He has done nice number work, in adding & subtracting. Could do the practical problems in the book if he could read them. Has learned 12 new words. Can both spell and write them. Has dictated and copied one letter this month.

May 1901.
Frank Sibley has been absent one day this month. He has done work in measuring and studying table for liquid measure. Gains very slowly in reading. Writes nicely.

He dictated and copied two letters this month.

May 1901.
Charlie Branson has been absent one day this month. His work in numbers has been in addition and subtraction. Has learned 12 new words to spell and write. Reads better. Writes neatly. Has dictated and copied one letter.

May 1901.
Joe Sullivan has been present every day this month. He is beginning to learn & use the multiplication tables. Is taking it up readily. Reading & spelling has improved. Reads upon page 134 of 3rd Reader. Remembers what he reads.

May 1901.
Willie Specht has been absent two days this month. He has worked to Section 6 of No. 2. Arith. It includes miscellaneous problems reviewing all combinations. Does nice work. Reads on page 105 of Barnes Reader. Writing a little better. Sent a page of his composition work with exhibit to Buffalo.

He has written two letters this month.

May 1901.
Edward Runnig has been present every day this month. He does, not numbers, exactly the same work as last month. Can do nothing without help.
Is lazy and does not study. Reads and spells about the same as last month. Reads on page 20 of 2nd Reader.
He has written three letters this month.

May 1901.
Willie Gillis has been present every day this month. He has been drilled in the use of the ruler, and done a good deal of measuring this month. Learning the table of liquid measure. Has learned 12 new words. & reads better Now on page 76 of 1st Reader. Spells & writes the words. Has dictated and copied two letters this month.

June 1901.
Margaret Chamberlain has been absent half of this month. In numbers Margaret does nearly the same work as she did in September - Has to add yet by seeing objects or models - Do not think she ever will be independent, or learn much more. The lessons in 2nd Reader are just as hard for her as when school began. Cannot write her own letters yet on account of spelling & I do not believe she ever will.

June 1901.
Myrtle Davies has been present about half of this month. During the year she has reviewed all the multiplication tables, worked questions under them, Worked in both short and long division, practical problems as well as question. Also a great deal of drill in U. S. money, If a set rule is given her, she can do her work, but is not independent. Has read nearly all the lessons in the 2nd Side Reader. Seems to understand

and remember what she reads. Her spelling has improved during the year. She can write a nicer letter than in Sept. Has averaged two letters a month during the school year.

June 1901.
Polly Katzke is not nearly as restless as when she entered in Sept. Needed change of work every few minutes then. Now has learned how to study. She finished No I Arith, & is about half way through No 2. Adds & subtracts any sum from 20 to 100. Has learned something about the fractional parts of numbers. Also common weights & measures & application of same. And something about money & the 1st 5 tables in multiplication. Can multiply large numbers.
She finished Barnes 1st Reader, and has read nearly through the Cyr 1st Reader. Her spelling & reading is very much improved. Writes better, & can pass a nicer letter. Has written about two letters a month this year.

June 1901.
Winnie Hanson began at Lev. 3 of No. 3 Arith, in Sept. She has reviewed all the multiplication tables and worked questions under them. Learned short and long division, doing some practical work. And has had a good deal of drill in U. S. money. She has read nearly through the Leading 2nd Reader. Spelling is much improved & her writing is a little better. She has written about two letters a month during the year.

June 1901.
Annie Lockstead has added to her speaking vocabulary during the year the following words, write, boy, drum, knife, can, walk, read, it, is, cat, rat, neat, hen in, on, the, hat, will, get egg, an, at, in, and, Can combine these words in sentences, speaks, write & read them. Has put four pictures on B. B. Read five or six lessons in 1st Reader.

June 1901.
Laura Miller began with 1st page of No I Arith. Has worked half way through it. But it has been very easy work in addition and subtraction. Can do very little combining without the use of objects. Has had some drill in measures and money. She reads better than in Sept. Has read half the lessons in Leadside 2nd Reader. Was a very poor speller - But has learned a number of easy words both to spell & know meaning of.

June 1901.
Clara Pactzold] Began at 1st of No I Arith, with the + and - combinations of numbers from 1 to 10. Has worked half through the book, but has got advanced very much - Still depends on objects. Has had some drill in measures and money.
Her reading has improved she has been promoted to the 2nd Reader. Has learned how to study. Can learn to spell about three new words a day.
Her writing is better.

And she writes a very nice letter. Has average writing two a month during the school year.

June 1901.
Edith Poole began at Section 4 of No. 2 Arith. Has finished the book. This includes work in addition, subtraction, multiplication, and fractional parts of numbers, also common weights & measures. She has done a great deal of measuring with her ruler. She has read nearly all the lessons in the Leadside 2nd Reader. Spelling is improved, because she studies hard. Articulation a little better. Writes beautifully. Has written three or four letters during the year.

June 1901
Mary Torgerson has learned during the year to combine numbers from 1 to 20. Has learned to work rapidly & gotten away from objects.
She finished Barnes 1st Reader & has read nearly through the Cyr 1st. Reader which is much harder. Has learned to keep

her place while reading & spells half the words in 1st Reader - Writing has improved. She does not compose a letter well.

June 1901.

Annie Schiepl entered my school in April. She learned accuracy in adding & subtracting. She entered the class so late will need to review No 1. Arith next year. Is not good in meaning, and does not reason at all. Is more careful with her reading. The Leaside 2nd Reader. Remembers what she reads & seems to enjoy it. Has learned to spell a number of words. Also has also learned how to write letters.

June 1901.

Nicholas Blazina started at 1st of No I Arith. Worked about half through it. Does not read well enough to get much from a book. Is gains most in the recitation. Can do more neat work now. Seems to enjoy work with the number cards, spelling helps and devices. He began at first of Primer. Completed

it, and has read half the lessons in Barnes 1st Reader. Has learned to spell and write all the words at head of lessons. Has done nice work in reading and spelling. His writing has improved. He copies his letters which he dictates to teacher.

June 1901.

Warren Duggan has done very little school work this year. He has been in the hospital part of every month and his work in school has been what would amuse & take up his time, rather than a lesson to tax his brains. Same work as last year.

June 1901.

Roy Ellis has learned doz, ½ doz, ⅓ & ¼ doz. to add, subtract, multiply and divide with nos. from 1 to 20. Worked half through No I Arith. Has learned qt. pt. gal. qi. & the use of the ruler, also something about money. Has read through Barnes 1st Reader & is now reviewing. His spelling is better Articulation improved

Writes nicely. Copies the letters which he dictates to me.

June 1901.
Alfred Eisertsen finished Nat Arith. and has worked half through No 2. Used nos. to 100. adding, subtracting & multiplying & dividing with multipliers & divisors to 5. Has learned the fractional parts of nos. the measures & something about money.
He finished the 2nd Reader. and has read half the lessons in the third reader. Studies his lessons & is a pretty good speller. Writing is improved. He seldom writes letters.

June 1901.
Dedrick Fiske began at Sec. 4 of No. 2. Arith in Sept. Has just completed the book. This includes work with numbers from 1 to 100. Has had drill in adding, subtracting multiplying & dividing. Has learned a little about fractions. The common weights and measures. & money. Finished one 2nd Reader Needed more drill and variety so has read

through another 2nd Reader. Studies his spelling & seldom misses a word. Is a very neat, careful writer. Has written at least one letter each month. Has been very orderly and well behaved in school.

June 1901.
Eugene Guernsey has made no advancement at all in number work this year. Adds and subtracts nos. from 1 to 20 with the use of objects. Fear he never will do any more with numbers.
Reads very well in 2nd Reader, I think he understands, and remembers what he reads better than last year. Writing is improved. He has arranged about two letters a month this year.

June 1901
Joe Hatch has worked in No 3. Arith. He has reviewed all the multiplication tables & worked question under same. Learned short and long division, and something about U. S. money. Practical problems he cannot do

without help. He is very careful with his reading. Does not skip over the little words as last year. And his spelling has improved very much. He writes better. Has written at least two letters every month this year. Is studious & a well behaved boy.

June 1901

Raymond Hill came to us from the primary in Sept. The 1st two months he was drilled in sight reading & writing numbers. & work with stories He has learned to write & read nos. to 100. Can find pages of any books, etc. Adds, subtracts without the use of objects to 20.

Has advanced very rapidly in reading. Has read through the primer, & half through 1st Reader. Gained the power of learning from 10 to 12 new words every month.

He committed and delivered a piece on Washington's birthday. This was quite an achievement as it was

almost impossible for him to commit anything even the words of a song. He has learned to do seat work & study a little. He is much better behaved than when he came to us although there is still room for improvement.

June 1901.

Frank Jewett did very primary work in numbers when he entered my room in Sept. Now can write numbers & count to 100. Find pages of book, combine with 4 or - numbers to 12. Tell original stories, and do card work at his seat.

Read in the primer & could spell but a few words. Has read through primer & reviewed it. Had supplementary reading & learned to spell from 10 to 12 new words each month. Has read half lessons in Barnes 1st Reader. Writes his spelling on the board. Uses the spelling helps at his desk. & has done very nice work. Writes nicely. Can copy

his letters in inks.

June 1901.
Walter Johnson has worked about half through No I Arith. Uses objects to add and subtract with, and I do not believe he can ever learn them. Has made very little real advancement in numbers.
He has done better work in reading. Read through Barnes 1st Reader and nearly through Cyr 1st Reader which is harder.
His spelling is very much better. Studies some at night & uses spelling helps. Is irrepressible - hard to manage. Writes plainly, but has to dictate and copy letters because of poor spelling.
Has written at least one letter a month this year.

June 1901
Elmer Johnson started at first of No I Arith. Has worked about half through it. Cannot do any combining without use of objects. Adds & subtracts numbers from 1 to 20. Counts & can write numbers to 100.
Has nearly finished Barnes 1st Reader.
Spells most of words at

head of lesson. Writes very nicely any word he can spell. Dictates and copies his letters. Has written about one a month during the school year. Is a most quiet better behaved boy, & can do neat work now.

June 1901.
Elvin Korp could count and make numbers to 12 when school opened in Sept. Now he can make numbers to 111, & read them. Combines numbers from 1 to 50 using + and - and making stories to same. His reading is very much better.
Has finished Barnes 1st Reader & read nearly through Cyrs. Spells nearly every word at head of lesson learning from 10 to 12 new words each month. His writing has improved. He copies his letters very nicely in inks. Is a quiet boy, loves to draw. Can do neat work without help.

June 1901.
Charlie Nelson has made very little real advancement this year. Adds and subtracts with numbers from 1 to 20. Still reads in 1st Reader.

Da not interested in school
work, & is rather hard to
deal with. Writing fair.
Spelling poor. Dictation &
copies thin letters.

June 1901.
Nathan Rice began at Sec. 2.
of No I Arith. finished it.
and has nearly completed
it again. He thinks better
and works quicker.
He finished the 2nd Reader
and is reviewing it. Reads
better but of course in a
very hesitating way.
Can learn to spell about
three words at a lesson.
Writing is much better.
Copies with inks. Compairs
his own letters. He has
written about two every
month this school year.
Da usually a well be-
haved boy.

June 1901.
Albert Riley has completed
No. 2 Arith. this year. It in-
cludes work in addition,
subtraction and multiplica-
tion & division with non,
from 1 to 100. fractional
parts of numbers, Common
weights and measures,
money. He is able to reason
better. Read through Cyr 2nd
Reader, & nearly through
Barnes, Enjoys his reading.

Has committed and recited
pieces for all extra programs
during the year.
Spells well, and can use
words in sentences.
Writing really shows a
little improvement.
He compises very nice
letters. Has managed
about one letter a month
during the year. He is
still dimpeding in every
thing every day.

June 1901.
Ignatius Stezenzanski
came to me from the primary
in Dept. Has learned to
write and read numbers
to 200. Can find pages in
song book. Combines num-
bers from 1 to 20 with or
without objects. Has had
lots of drill in card
work, number stories, etc.
His work has been quite
satisfactory.
He completed the primer
and has read half the
lessons in the first
reader. Has learned to
spell quite well. Can
write most of the words
at head of lessons, when
pronounced for him.
His writing is poor, but
perhaps a little better
than in Dept. He gets a

great deal from my gener-
al talks. Is much more
quiet and can do seat
work quite well.

June 1901,
Frank Sibley has learned
doz. ½ doz. ¼ & ½ doz. to add
subtract, multiply and
divide with numbers from
1 to 20. Worked half through
No. I Arith. Has learned
gi. pt. qt. gal. and the use
of the ruler, also something
about money.
He has read through
Barnes 1st Reader and is
now reviewing it. His
articulation is perhaps
a little better. Writes
very nicely any word
he can spell. Dictates
and then copies his letters.

June 1901,
Charlie Swanson has
improved very little in
number work. Combines
numbers from 1 to 20.
Must need objects. Can
do little without objects.
Can do seat work where
numbers & signs are
given, but cannot read
much work in book.
Completed Barnes 1st Reader.
And is nearly through
Cyr 1st Reader, which is
harder. Reads & spells very

well. Is able to learn from
ten to twelve new words
each month.
Writes very nicely, & is
trying to write his own
letters. Is a nice quiet
boy in school, studious
and tries to learn.

June 1901,
Joe Sullivan began on page
36 of No I Arith, finished
it & has worked half
through No. 2. This extra
work with numbers to
100. Addition, subtraction
knows the first five
multiplication tables &
can work under them
Learned some thing about
fractional parts of num-
bers, Application of meas-
ures - Use of ruler, etc.
Has learned to study
both arithmetic and
reading lessons.
He completed 2nd Reader
and has read half through
the 3rd Reader. Remembers
what he reads, Knows
how to use words he
learns to spell. Quite
a good speller. Has com-
mitted two pieces this
year. Writes very nicely.
Has arranged at least
two letters a month.

June 1901
Willie Specht has completed No 2. Arith during this year. Has comb mastered with numbers from 1 to 100, adding, subtracting, multiplying and dividing. Has learned something about the fractional parts of numbers, common weights & measures. Has prepared a very nice table of some measurements he took himself.
Finished Cyr 3rd Reader, & needed over drill to has read half through Barnes 2nd Reader.
Studies his spelling & has learned a great many new words, but is still a poor speller. Writing has improved during the year. He has written about one letter a month.

June, 1901.
Willie Gillis has worked about half through No 1 Arith, Has learned the gi. pt. qt. gal measures, besides adding, subtracting, multiplying & dividing simple numbers. Something about money. Can work faster & more accurately in at beginning of year.
Finished Barnes 1st Reader,

and needed some drill to has read nearly through the Cyr 1st Reader.
Reads & spells much better. Writes very neatly. Think he will be able to write his own letters next year. He has copied about two letters a month this year.
Is inclined to be lazy, unless stirred up all the time. Is a nicely behaved boy.

Sept. 1901.
Polly Gatz she has been present every day this month. She has reviewed the first 5 tables & is now learning the 7's. A new reader has been given to the class & she is interested and studies her spelling & reading & gets good grades every day - Hope to improve her writing particularly this year. She has written two letters this month.

Sept. 1901.
Myrtle Davies has been absent one day this month.
Is reviewing U. S. Money in No. 3 Arith. Forgot a good deal during the summer.
New readers have been adopted & she was placed in Baldwin's 2nd. Likes reading & spells well, Understands what she reads & tells story of lesson. Has written two letters this month.

Sept. 1901.
Minnie Hanson has been absent two days this month. She is reviewing U. S. Money. Has really remembered work well during the summer. She is reading this year in Baldwin's 2nd Reader. Has had good spelling & reading lessons this month.

She has written two letters.

Sept. 1901.
Gladys Holman has been present every day this month. Is glad to be back at school. And is working with some enthusiasm. Likes her new reader & has had good spelling & reading lessons. Has reviewed her in addition & subtraction this month, carrying 10's, etc. She has written three letters this month.

Sept. 1901.
Annie Lochstad has been present every day this month. She has reviewed list of words and sentences learned last year. and gained black, big, board. I think she reads lips a little better. Reads from my lips things she can not articulate.

Sept. 1901.
Clara Paetzold has been present every day this month. Has done nothing in numbers but simple problems in addition & subtraction without using counters or objects. She was a slave to objects. Is readind in Baldwin's First Reader - A new book that has just been adopted.

She has written two letters this month.

Sept. 1901.

Mary Poyaman has been absent one day this month. She seems much duller than last year, has acted in a dazed way. Part of that manner is affected. Has worked in addition adding columns of three & four numbers.

Reads in Laylor's 1st Reader a new book that has just been adopted. Has had good spelling this month.

Sept. 1901.

Edith Poole has been present every day this month.

She is quite interested in her new reader. Has had good spelling lessons - Shall try hard to improve her articulation this year.

She has had review work in numbers - adding, subtracting & carrying ones.

Writes well.

Sept. 1901.

Annie Schiepl has been present every day this month.

She has remembered work very well through the summer, seems to take hold of work better than last year.

Has done some work in measuring with pt. qt. gal.

Also a few mental problems.

Likes her new reader, Baldwin's 2nd. Has had good spelling lessons & can tell what she reads.

She has written two nice letters this month.

Sept. 1901.

Nicky Blasina has been present two weeks of this month. He has spent that time reviewing - seeing how much has been remembered - does very little in numbers without objects. It shall be my endeavor this year to get him to combine without using objects. Is doing nicely in reading, spelling and writing. Likes his new primer. Has written one letter.

Sept. 1901.

Warren Dugan has been present every day this month. Has tried during this month to get him to combine numbers without the use of objects, giving him the very simplest combinations. New Reader has been adopted. He is reading the story of Hiawatha. & seems to enjoy it. He has written two letters this month.

Sept. 1901.

Alfie Eisertson has been absent a half day this month.
He has reviewed the first five tables & is now studying the 7's. Is not independent in number work.
New Readers have been given his class. He studys Baldwin's 2nd. Is interested in the stories, & has thus far had good spelling lessons.

Sept. 1901.

Roy Ellis has been present every day this month. He has reviewed last terms work in numbers. Has not forgotten as much as might be expected. Is inattentive in class. Commenced to read at the first of Baldwins first reader - Is pleased with the new books - Has studied & recited good spelling & lessons - some of which were written on the board. Has written sentences from dictation doing his own spelling. Has written one letter this month.

Sept. 1901.

Dedrick Fish has been present every day this month.
He has reviewed the tables & done a little work in

division this month. Just beginning No. 3. Arith.
Likes his new reader. Is interested in the Story of Hiawatha. His spelling has not been as good as last year - Has been sroddy half the month. He has written one letter this month.

Sept. 1901.

Willie Dillis has been present every day this month. His number work has been review. Adding columns of 3 or 4 figures, subtracting, & a little division. He is reading in a new book. Taylor's 1st Reader - Enjoys it and has had good spelling, writing his lesson on board.
He has written two letters writing the most of them himself.

Sept. 1901.

Eugene Guernsey has been present every day this month. Has accomplished almost nothing in numbers. Done a little adding and subtracting, but does nothing without objects.
New Readers have been adopted and he seems interested in the Story of Hiawatha. Has had good spelling and has written

one letter this month.

Sept. 1901.

Jos Hateh has been absent one day this month.
He has received H. S. Money and is reading the Story of Hiawatha. Seems to enjoy it and understands what he reads. Has had good spelling, and has written one letter this month.

Sept. 1901.

Raymond Hill has been present every day this month. He is doing nice work in numbers - Combines readily without objects - Seems more alert & knows what is going on - Has learned 10 or 12 new words, to write and spell. Has written a few sentences of 6 or 7 words from dictation but that is hard for him. He has copied two letters this month. I hope much for him this year.

Sept. 1901.

Walter Johnson was absent two days this month, being disciplined at Dunmyaide. He has been a better boy since his return and applies himself a little better. He is interested in his new reader, and has had several good spelling

lessons. Wrote one letter this month entirely independent. His own spelling & copying.

Sept. 1901.

Elmer Johnson has been present every day this month. It has been my endeavor this month to keep him from using objects in adding & subtracting. Has done very little work.
New books have been adopted and he uses a primer. Has learned 10 new words. to write and spell. Has written several sentences from dictation.

Sept. 1901.

Charlie Nelson has been present every day this month. His number work has been simple combinations in + and -. Has read with a little more interest this month. And his articulation seemed better. Reads in Baldwins 1st Reader. Has learned eight new words to write and spell.

Sept. 1901.

Edward Renaning has been present every day this month. He does not grade with Class A - so is now transferred to Class B.

Sept. 1901.

Nathan Rice has been absent one day this month.
His number has been review on tables of liquid measure & length, also simple adding & taking away. New readers have been adopted & he now uses the Baldwin's 1st. Has learned to recognize & write & spell eight new words. Has written one letter this month.

Sept. 1901.

Albert Riley has been present every day this month.
He has reviewed tables & has started in No. 3 Arith borrowing & carrying numbers. Is very much interested in his Reader - The Story of Hiawatha. Spells & reads well - Remembers what he reads. He has written two letters this month.

Sept. 1901.

Frank Sibley has been absent one day this month.
He has ranked in adding & taking away such numbers as 18 - 7 ÷ 6 + 12 = doing work mentally, not on board.
Reads in Laylor's First Reader. Has learned to spell & write eight new words. Articulation is very poor. Writes carefully.

Sept. 1901.

Willie Speck has only been present ten days this month.
He has started in number 3 Arith. He has done adding & taking away, carrying & borrowing numbers.
Reads in Story of Hiawatha & enjoys hearing about Indians.

Sept. 1901.

Ignatius Stezencowski has been absent two and a half days this month.
He has done quite well in numbers, adding and taking away, without marks or objects.
Likes his new reader - Baldwin's First. Has learned ten new words to spell and write. Has averaged a sentence a day from dictation. Hope he will be able to write his own letters soon. On account his broken arm cannot write well.

Sept. 1901.

Joe Sullivan has been absent ½ day this month. He has learned the tables of sixes and sevens - both by ÷ and X. Gets bothered when he counts by 7's.
New Readers have been adopted and he is using

Baldwin's 2nd Reader.
Has had good spelling lessons. He has written two letters this month.

Sept. 1901.
Charlie Swanson has been absent one day this month. He has done very little in numbers. Have tried to make him let objects alone, but even counting such a simple combination as 2+3, he has to make marks.
He reads in Taylor's First Reader. Has learned to spell and write ten new words. Wrote a part of his letter without my help - Hope he will soon be independent about it.

October 1901.
Polly Gaffke has been present every day this month.
She has learned 15 new words in Taylors 1st Reader. Committed several verses in connection with her reading lesson.
She has completed the multiplication tables & is doing division work, and of making division tables from memory.
Writing improves slowly.
She has written one letter this month.

Oct. 1901.
Myrtille Davies has been present every day this month.
She has tried to learn the fractional parts of 9/0 ½ ¼ ¾ ⅓ ⅔, ⅕ ⅘, ⅒ ⅗ ⅛, And done problems about money.
Reads on page 50 of Baldwins 2nd Reader. Has learned to read about 25 new words.
She has written one letter this month.

Oct. 1901.
Minnie Hanson has been present every day this month.
She has learned the fractional parts of 9/0 ½ ¼ ¾, ⅓ ⅔, ⅕ ⅘, ⅛ ⅒ ⅗, And done one problems very well. Reads on page 50 of Baldwin's 2nd Reader. Has learned to read about 25 new words. She

has written three letters this month.

Oct. 1901.
Gladys Holman has been absent one day this month, During the month has been adding long columns & subtracting where you have to borrow with ms. from 10 to 100. Is working on page 19 of No 3. Arith. Reads & remembers story of lesson. Has reached page 60 of Baldwins 2nd Reader. She has written three letters Her writing improves all the time.

Oct. 1901.
Annie Lochstad has been present every day this month. She has learned the new words — play - putty, you - awful - Reviewed old list, Can speak and write such sentences as
Can you play?
I see a pretty flag
I can read and write.

Oct. 1901
Clara Paetzold has been present every day this month. She spent the month trying to learn how many twos and threes there are in 7, 8, 9, 10, 11, 12, She can't do it without marks.
She has learned 10 new

words. Reads on page 30, Has written two letters this month.

Oct. 1901.
Mary Poppman has been absent two days this month. She is only in school for reading Has learned 15 new words and is reading on page 35 of Taylors First Reader.

Oct. 1901.
Edith Poole has been present every day this month. She has added long columns. And subtracted where you have to borrow. Is working on page 19 of No. 3 Arith. Has learned about 20 new words. Reading on page 30 of Baldwins 2nd Reader. Writes her spelling on board - spells well.

Oct. 1901.
Annie Schiepl has been present every day this month. Has been adding to and taking away 2, 3, 4, 5, 6 from all numbers from 2 to 10, Also some practical problems like "A little boy bought six peaches @ 3¢. each, What did all cost;" Reads on page 50 of Baldwins 2nd Reader. Spells well. Has written three letters this month.

Oct. 1901.
Nicky Blazina has been present every day this month. He has learned 8 new words - Spells and writes them well. Reads a little smoother. Has learned the table of 2's in Addition. 2+2, 2+4, etc. Has written one letter with my little assistance.

Oct. 1901.
Warren Dugan has been present every day this month. The month has been spent trying to learn how many twos and threes in 7. 8. 9. 10. It is not well learned yet.
He is interested in The Song of Hiawatha. Spells about 10 words daily selected from reading lesson.
He has written two letters this month.

Oct. 1901
Alfred Einertson has been absent three days this month. Has marked on 7, 8 & 9 multiplication tables
In reading on page 50 of Baldwins 2nd Reader. Always has good spelling. Writes about 10 new words on board daily.

Oct. 1901
Roy Ellis has been present every day this month.
His number work has been adding & taking away 2, 3, 4 & 5 from 100, from 2 to 10 inclusive. Has learned 8 new words. Has the spelling test last Sat. He spelled every word, six a list of 70 words. Does not read well. Is jerky. Writes quite well. Copied one letter this month.

Oct. 1901.
Dedrick Fiske has been present every day this month.
Has added long columns. And subtracted when you learn to borrow, is making on page 19 of No. 3 Arith. Is very much interested in the Song of Hiawatha. Spells about 10 words daily selected from reading lesson. Remembers what is read. Has written two letters this month.

Oct. 1901.
Willie Gillis has been absent one day this month.
Has added and subtracted 2, 3 4 5 & 10 numbers from 2 to 10 inclusive, & such as 18 - 3, 17 - 14, etc.
Reads on page 35 of First reader. Has learned 15 new words. Writing im-

proving. Wrote two letters this month with very little assistance.

Oct. 1901.
Eugene Summers has been absent one day this month. He spent the month trying to learn how many 2½ is in 7, 8, 9 10, 11 & 12. It is not well learned now. Is interested in the Story of Hiawatha. Spells about 10 words daily, selected from reading lesson - Is not a good readers. Skips on little words. Has written two letters this month.

Oct. 1901.
Joe Hatch has been present every day this month. He has learned the fractional parts of $\frac{1}{100}$ ½ ¼ ¾ ⅓ ⅔ ⅘ $\frac{1}{10}$ $\frac{3}{10}$ ⅛, And worked 10 or 15 problems. He seems interested in the Story of Hiawatha. Spells about 10 words daily, that are selected from the reading lesson. Writing is improving slowly. Is careful. Kind to other boys.
Has written two letters this month.

Oct. 1901.
Raymond Hill has been present every day this month. They have had story problems

in addition & subtraction. Raymond has gotten so he can give results right quickly Does not always have to stop to count. He has learned 10 new words. On the spelling review he did very well. Reads on page 30 of Baldwin's 1st Reader. Writing improves very slowly.
He has written a part of two letters without help.

Oct. 1901.
Walter Johnson has been present every day this month.
Walter Johnson has learned 1+2=3 2+2=4, 3+2=5 this month. Can write the table of 1+1=2 2+1=3, etc, on b.b.
He has learned 15 new words in his reading. Cannot spell them all, but knows them at sight. Spelling is improving I put him at corner board to write spelling to make him independent.
He has written one letter without any help.

Oct, 1901,
Elmer Johnson has been present every day this month. He is learning the table 1+1=2, 2+1=3, 3+1=4 etc, Is much a slave to marks or objects;
He has learned 8 new words in the primer. Remembers & seems

to enjoy any little story I read in connection with reading lesson.
Writes well.

Oct. 1901.
Charlie Nelson has been present every day this month.
His number work has been such as $\frac{2}{4}$ $\frac{6}{5}$ and 8-5 etc.
He has learned 8 new words and reads on page 28 of Laydon 1st Reader. Writes spelling on b.b. generally without mistakes as it is pronounced to class.
Writes & does not enunciate well.

Oct. 1901.
Edward Rennwick has been transferred to Class "B"

Oct. 1901.
Nathan Rice has been absent two days this month.
He has spent the month adding & taking away 2, 3, 4, 5, 6, from nos. 1 to 10 inclusive, Done a few problems like, "A little boy bought six pears @ 6c. each, what did all cost?"
Has learned 10 new words in First Reader. Reads on page 30. Writes words neatly on paper & b.b.
Has written two letters this month.

Oct. 1901
Albert Riley has been present every day this month.
Has added long columns.
Subtracted where you have to borrow, Is working on page 19 of No. 3.
Loves his reading. Understands and remembers his lesson.
Seldom misses a word in spelling. Spells about ten words daily selected from reading. Has written two letters this month.

Oct. 1901
Frank Sibley has been present every day this month.
Frank had added and taken away 2, 3, 4, 5, 6 from numbers 1 to 10 inclusive Also compared such nos. as 14 and 19 3 and 12, etc.
Has learned to read and spell 8 new words. In the review last Sat. was one of the last to be spelled down. Articulation seems no better. Writes well. Has written one letter, and committed several little verses.

Oct. 1901,
Willie has been absent most of the month. Has accomplished nearly nothing in school.

Oct. 1901.

Ignatius Stezierowski has been absent one day this month. Ignatius has done a good many story problems. Cannot read well enough to do problems at seat. Made original stories for + and - combinations & added such

4	8	3	6
2	1	10	8
6	0	4	3

He learned 10 or 15 new words. Remembers spelling of words. On the last Sat. he was not spelled down, and 71 words were pronounced.

Reads quite well on page 30 of Baldwins First Reader. Works rapidly with letters. Writing improved very little this month.

He copied one letter.

Oct. 1901.

Joe Sullivan has been present every day this month. Finished the 8's & 7's in multiplication. Has made some division tables from memory, and miscellaneous work in +, −, × and ÷.

He spells about eight words daily. Seldom misses a word. Writes neatly on paper or b.b. Is reading on page 50 of 2nd Reader.

Has written two letters this month.

Oct. 1901.

Charlie Swanson has been present every day this month. Has learned 1+2, 2+2, 3+2, 5+2, this month.

Has learned 15 new words. Reads well on page 35 of Baylor 1st Reader.

Did not miss a word from a list of 70 pronounced as a review to class Sat.

Writes well on paper or b.b. Has written two letters without help this month.

Oct. 1901.

Wesley Sperry has been present every afternoon this month. Has no number work. Just reads, spells & writes. Reads only fairly well in 1st Reader. Stops to spell half the words he comes to. Think it is partly a habit. Writes and spells slowly. Of a list of ten words pronounced daily, on an average misses two. Wrote one letter this month.

Oct. 1901.

John Anton has been in school two weeks of this month. That time he drilled in adding long columns, subtracting where you have to borrow, & did a few problems. Works now on page 19 of No. 3.

Likes the story of Hiawatha.
Spells daily about ten words selected from reading, sometimes writes them on b.b. Sometimes on tablets or has oral spelling.

Oct. 1901.
Floyd Ronald has been in school about a week. Has had two or three spasms nearly every day. So I can hardly say what he can do. Reads smoothly in 2nd Reader, & spells & writes fairly well. Placed him in my best class in Arith. They are doing work in U. S. History.

Oct. 1901.
Nils Pearson is a farm boy who has been in school with me one week.
Is awkward & has a drawling speech, but reads & comprehends everything. Good speller - Gets lessons quickly & asks for more work. Writing is poor. I hope to improve that.
Has learned with his class the fractional parts of $\frac{1}{2}$ $\frac{1}{4}$ $\frac{3}{4}$ $\frac{1}{3}$ $\frac{2}{3}$ $\frac{1}{5}$ $\frac{4}{5}$ $\frac{1}{8}$ $\frac{1}{10}$ $\frac{3}{10}$.
And has worked about twenty problems about buying & selling.
He seems to enjoy school and is a nice boy.
Rather nervous. He has

written one letter

Nov. 1901
Polly Gatzke has been present every day this month. She has had numerous questions like this $29,486 \times 9$ using all the tables. Also some problems to make her think. She has read to page 45 of Taylors 1st Reader - Has spelled at least five words every day. Her writing on the board looks a little better. She has written two letters this month.

Nov. 1901
Myrtle Davies has been absent eight days this month. She lost a good deal in Arith. She made a list of articles bought & sold by the lb. & gave price. Drew pictures of qt. pt. ct. gal. on the b. b.
Reads on page 75 of Baldwins 2nd Reader. Spells about eight new words every day. Has written one letter.

Nov. 1901.
Minnie Hanson has been present every day this month. She has done right good work in numbers Was not so dependent on me to show her about each question. Has a good idea of weighable articles

and could give price per lb.
She drew qt. pt. qt. & gal on
b.b. & worked such problems
as Find cost of 2½ lbs of
butter @ 30c. per lb.
She reads on page 75 of
2nd Reader. Spells eight
new words every day.
Has written two letters
this month.

Nov. 1901.
Gladys Holman has been
present every day this month.
She has added long columns
generally getting correct
results, and done such
questions in subtraction
as 962 - 184.
She reads well on page 75
of 2nd Reader - Spells eight
new words daily. Her
writing improves every
day. Has written three letters.

Nov. 1901.
Annie Lochstad has been
absent one day this month.
She has learned to write
in nos, & words, & speak &
know the one, two three
four & five, & ball. She has
drawn Thanksgiving pictures
on the b.b.

Nov. 1901.
Clara Paetzold has been absent
one day this month. She knows
the addition tables of 6+1, 1+1,
and 2+1, 7+2, 6+2, etc. Reads

better & her spelling is much
improved. She has learned
about ten new words.
Writes neatly on board. Has
written two letters.

Nov. 1901.
Mary Organan has been present
every day this month. She
has no number work, as
she does not come in in
the morning. Reads on
page 45 of Taylors first Reader.
Spells about five new words
every day. Likes to draw.
Writes neatly.

Nov. 1901.
Edith Poole has been present
every day this month.
She has had drill in adding
long columns, and seldom
made mistakes, such
examples in subtraction
as 962 - 184. She reads
well on page 75 of 2nd
Reader. Learns to spell
about eight new words
daily.

Nov. 1901
Annie Schiepl has been
present every day this mo.
She has counted by 2, 3, 4
5 & 6 to 20. Compared 20 with
all nos. below. Divided
20 by all nos. below.
Reads on page 75 of Baldwins
2nd Reader. Spells about
eight new words daily.

writing is improving. Has written two letters. Gets her English composition a little better.

Nov. 1901.
Ricky Blazina has been present every day this month. He can write the addition tables of 2+1, 3+1, 4+1, and answer immediately, without counting.
Reads a little better in Primer. Has learned ten new words. Can write as well as spell them. Has written two letters this months.

Nov. 1901.
Warren Dugan has been present every day this month. He has learned the tables 1+1 1+2 etc, & 2+1, 2+2, etc. this month. He reads quite well in Song of Hiawatha. Spells fairly well. Has ten words every day. Writes well. Has written two letters this month.

Nov. 1901.
Alfred Einertson has not missed a day this month. He has done such examples as these 29, 48 1, Does not know the tables perfectly & gets puzzled. Will need lots of drill right there. Reads on page 79 of 2nd Reader. Seldom misses a word in spelling & has

about eight new words every day.

Nov. 1901
Roy Ellis has been absent three days. He is in the quiet room now for punishment.
He compared 20 with all numbers below it. Divided 20 by all numbers below.
Counted by 2, 3, 4, 5 &c. to 20.
Reads poorly in Lay Less 1st Reader. Spells about five new words every day. but often has to study lesson over. Has written one letter this month.

Nov. 1901.
Dedrick Fiske has been present every day this month. He has added long columns, seldom making mistakes, done such ex, as 962 - 184, Reads quite well in Hiawatha. Spells ten words every day. But does not always get 100. Writes well. Has written two letters this month.

Nov. 1901.
Willie Gillis has been present every day this month.
He has compared 20 with all numbers below it. Divided 20 by all nos. below. Counted by 2's 3, 4, 5, & 6 to 20. Reads on page 45 of 1st Reader. Spells about 5 new words every day. He

has written two letters without help this month.

Nov. 1901.

Eugene Guernsey has been absent one day this month. Think he has really learned the tables 1+1, 1+6 etc. & 2+3, etc. Reads very carelessly. Cannot get him to be careful & slow. Spells quite well. Have a list of 10 new words nearly every day. He has written two letters this month.

Nov. 1901.

Joe Hatch has been absent one day this month. He has worked with oz. & lbs. Made a list of articles bought by the lb. & gave price Did such problems as. Find cost of 2½ lb. butter @ 30c. per lb. Drew pictures of gi. pt. qt. gal. Reads on page 72 of Hiawatha. Spelling is improving. Spells ten words nearly every day selected from reading. Has written two letters

Nov. 1901.

Raymond Hill has been present every day this month. Added 3 numbers like $\frac{4}{6}$ $\frac{3}{}$ Made stories of no. work. Did subtraction like 6-4, 10-4, etc Also sight reading from cards. He reads on page 42 of 1st Reader. Spells about 5 words every day. Can tell the hrs. ½ hrs. & ¼ hrs. on clocks now. Has written

two letters.

Nov. 1901.

Walter Johnson has been out at Dunnyside nearly the whole month, so has accomplished nearly nothing in school.

Nov. 1901.

Elmer Johnson has been absent three days. He has learned the table of 1+1, & 2+1, this month. Reads a little better in the Primer. Has learned ten new words. Likes his reading & spelling. Always wants to write spelling on board. Writes neatly.

Nov. 1901.

Charlie Nelson has been absent two days, & several parts of days at the hospital. Has given tables 2+1 & 3+1, and added such work as $\frac{2c}{5}$, Reads on page 35 of 1st Reader - Spells with each lesson five words. Has to read lesson over several days. Writes spelling neatly on board. Has written two letters this month without help.

Nov. 1901.

Nathan Rice has been present every day this month. He has counted by 2, 3, 4, 5 & 6 to 20.

Compared 20 with all numbers below it. Divided 20 by all numbers below it. Is really improving in Reading & spelling. Spells about four words every day. Writes fine neatly on board. He has written two letters this month.

Nov. 1901.

Albert Riley has been present every day this month. He has added long columns. generally getting correct results. Done sums in subtraction like this 962-184. Reads very well in Hiawatha. Seldom misses a word in his spelling. Spells 10 words daily. Has written two letters. Writing improves all the time.

Nov. 1901.

Frank Dibley has been present every day this month. He has compared 20 with all numbers below it. Divided 20 by all numbers below it. Counted by 2, 3, 4, 5, to 20. Read to page 35 of Taylors 1st Readers. Articulation no better. But spells very well. Has about five new words every day. He has written one letter.

Nov. 1901

Willie Specht has been present every day this month. He has added long columns nearly always getting correct results. Done sums like this in Subtraction 962-184. Reads on page 72 of Hiawatha but does not improve in his reading like I wish him to. Spells fairly well. He has written one letter.

Nov. 1901.

Ignatius Stezenowski has been present every day this month. He has acted rather stubborn and ugly in school but has managed to learn about five new words every day. & to add $\frac{7}{16}$ etc. Subtraction seems hard for him. Do a good deal of time has been spent on that. He can tell the hrs. ½ hrs, ¼ hrs. He has written one letter.

Nov. 1901.

Joe Sullivan has been present every day this month. He has worked a number of examples like this $\begin{array}{r} 2468 \\ 9 \\ \hline \end{array}$. Knows the tables ——— fairly well, but needs more drill. Has had practical problems with tables in division & multiplication

Reads very well on page 79 of 2nd Reader. Generally has good spelling lessons. Spells about eight words every day.
He has written two letters this month. Is making a very nice scrap book for Christmas.

Nov. 1901.
Charlie Swanson has been absent one half day this month. Has been adding such columns as $\frac{2}{4}$ and learned the tables of 1+1 and 2+1. He reads with his class on page 45. Always has a good lesson. Is studious. Spells about five new words every day. Writes neatly Has written one letter without help this month.

Nov. 1901.
Wesley Sperry has been present every day this month. Is only in school in the afternoon so has no number work. Reads with class on page 45 of 1st Reader. Does not study carefully enough to read well. Writes very slowly. Spells about half the words in spelling lesson. Has written one letter.

Nov. 1901.
John Anton has been present every day. He has added

long columns seldom making a mistake. And such work in subtraction as 962 - 184. Reads well in Hiawatha but does not give much expression to his reading. Spells ten words with each lesson - nearly always getting 10/.
Has written one letter this month.

Nov. 1901.
Floyd Ronald has been present every day this month. Has worked with weights. Made a list of articles bought by lb. and gave prices. Worked such problems as Find cost of 2½ lbs. butter @ 30c per lb. He drew pictures of qt. pt. gt. and gal. showing comparative size. Reads with good expression in Hiawatha. Has had good spelling this month. Is a nice boy in school. Has written three letters.

Nov. 1901.
Nils Pearson has been absent one day this month. Is a hard boy to get along with. Is never pleased with things. Has had good with lessons. Working on page 57 of No. 3. With weights Reads in a very jerky

way in Hiawatha. I know & can pronounce the words. Generally has a good spelling & lesson. Writing can be improved. Has written three letters.

Nov. 1901.

Frank Jewett has only been in school part of one week. Is reviewing the words learned last year, & reviewing tables of 1+1, 2+1 etc! Has not forgotten very much while he was away excepting how to behave in school. Is not very orderly, but that will come back by degrees. Writes neatly.

Dec. 1901.

The regular work in Class "A" has been entirely broken up this month. Children have been out preparing for the Christmas entertainments - The girls have been out the entire time helping fill rush orders in the sewing room. The teachers work has been with new pupils, directing the making of scrap books for the Hospital, etc. etc.

Jan. 1902.
Polly Katzke has been present every day this month. She has learned the table of dry measure, by using, seeing & handling the measures themselves. Has worked ten questions involving that table. Does not recognize well & needs help in many of them. She has read to page 58 of Laylors 1st Reader - Learns about four new words each day, which she spells orally & writes. Reads with quite good expression. Has written four letters this month.

Jan. 1902.
Myrtle Davies has been present every day this mo. She has reviewed the multiplication tables. Has had lots of drill questions. Written work prepared every A.M. Has read to page 118 of 2nd Reader - Reads well. Spells a list of 10 words every A.M. Has written two letters this month.

Jan. 1902.
Minnie Hansen has been present every day this month. Has learned the table of long measure. Has worked 20 practical questions

such as - "How many feet of wire fencing will it take to reach around my garden 8 yd. by 3 yd.?"
Has read to page 118 of 2nd Reader - Spells 10 words each lesson & seldom misses a word.
Has written two letters.

Jan. 1902.
Annie Lockstad has been present every day this month. She has learned little - finger - this apple - yes - no - Writes and spells numbers from one to ten.

Jan. 1902.
Clara Pautzold has been present every day this month. She has spent the entire month learning the addition table of 6 + 1, etc. Reads better, and spells better - Spells five words daily either written or o.r. & spelled orally. She has written two letters this month.

Jan. 1902.
Mary Bergman has been present every day this month. Is only in school one hour. Has no drills. Reading has been good this month, Spelled at least four new words every day.

She has written one letter.

Jan. 1902.
Edith Poole has been present every day this month.
Has reviewed the multiplication tables - Lots of drill in multiplying - Writes words required every A.M.
Read to page 118 of 2nd Reader. Spelling has been good - seldom misses a word.

Jan. 1902.
Annie Schiepl was absent one day this month,
She has compared numbers such as ½ of 20 with ⅓ of 18.
Learned table of liquid meas.
How many qts. in 2 gal.
" " pts in 2½ qts
" " " " 8 gi-
Reads better. Her glasses have helped her. Spelling has been good.
She has written three letters this month.

Jan. 1902.
Lanna Miller has just been in school two weeks of this month. She has spent the entire time trying to learn the table of 6's, but it is not half learned yet. Reads fairly well in 2nd Reader - But her spelling is poor. She has written two letters. Writing is bad.

Jan. 1902.
Nicky Blazina has been present every day this month.
Has learned the table of 5's, 5+3, etc. and reviewed the 1st four tables. Reads in Primer. Learns three new words a day. Writes spelling on b.b. Has dictated and copied two letters this mo.

Jan. 1902.
Warren Dugan has been present every day this month.
He has spent the entire time learning the + table of 6's. Can answer right readily now. 6+4, 6+7, etc.
Reads in "Story of Hiawatha". It is hard for him, especially the spelling. Spells 10 words a day, but often the spelling is repeated 3 or 4 times.
He has written three letters this month.

Jan. 1902.
Roy Ellis has been present every day this month.
Has written Roman numerals. Comparing numbers, such as 4×5 with 3×6, and ½ of 20 with ⅓ of 18.
Done a little better work in reading. Spells a little better. Writes spelling on b.b. spelling about 3 new words each day.
He has written one letter.

Jan. 1902.
Dedrick Fiske has been present every day this month.
Has reviewed the multiplication tables. Had lots of drill in multiplying - But does not know them good yet. Is easily discouraged - Hands in written work. Reads in "Story of Hiawatha". It is hard for him. Spelling is also hard. Words selected from reading. Has written one letter.

Jan. 1902.
Willie Gillis has been present every day this month.
He has written Roman numerals - Compared numbers such as 4x5 with 3x6. ½ of 20 with ⅓ of 18, etc.
Reads right well on page 58 of 1st Reader - Has gotten 100 in spelling nearly every day this month.
He has written his own letters. It took him a good while but he did it himself - Has written three.

Jan. 1902.
Eugene Guernsey has been present every day this month. Has spent the month learning the + table of 6's.
He will never gain much more in numbers. Reads

in "The Story of Hiawatha". Reads fairly well, and has his spelling good every day.
He has written two letters this month.

Jan. 1902.
Joe Hatch has been present every day this month.
He has learned the table of long measure. Has worked 20 practical problems such as - How many feet of wire fencing will it take to reach around my garden 8 yd. by 3 yd.
The Story of Hiawatha is hard for him. But I think he has improved a little this month. Spelling is better. Writes it on b. or in Tablet.
He has written two very nice letters this month.

Jan. 1902.
Raymond Hill was absent three days this month.
He has worked in the - tables of 2 and 3. And added columns of 3 and 4 figures.
Reads pretty well in 1st Reader - Is heedless and loses his place when reading with other boys. Spells four words every day, and often gets 100.
Writing is improved.
He can tell time now to the min.
Has written two letters.

Jan. 1902.
Walter Johnson has been present every day this month. He has learned the table of + 5's and reviewed the other four tables - He reads right well in 1st Reader - But his spelling does not improve. He cheats so, copying from other boys.
He has written one letter without help this month.

Jan. 1902.
Elmer Johnson has been present every day this month. He has learned about half of the table of + 4's, and reviewed the other three.
Reads in Primer. Has done better work this month. Spells three or four new words each day, writing them on b.b.

Jan. 1902.
Charlie Nelson has been present every day this month. Does exactly the same work in numbers. Still uses objects to add & subtract with.
Reads poorly in 1st Reader. Spelling good. Spells at least four new words daily. Has written two letters without help this month.

Jan. 1902
Nathan Rice has been present every day this month.
He has compared numbers - such as ½ of 20, with ⅓ of 18.
Learned table of liquid measure. & mastered a little under it.
Reads a little better in 1st Reader. Spells five words daily on b.b. or orally.
Has written one letter this month.

Jan. 1902.
Albert Riley has been absent one day this month.
He has reviewed the multiplication tables - Had lots of drill in multiplying.
Handed in written work each day.
Reads very well in 2nd Reader - page 28. Spells 10 words at a lesson. Seldom misses a word.
He has written two letters this month.

Jan. 1902.
Willie Speck has been absent seven days this month.
He has reviewed the multiplication tables, performed many questions like 78 94 etc.
× 5 × 9
He reads in "Diary of Hiawatha" But it is hard for him. Cannot read smoothly -

Has not had good spelling lessons, either, His writing improves. He has written one letter this month.

Jan. 1902.

Ignatius Stezerenzki has been present every day this month - He has worked on tables of - 2 and - 3. Also added columns of 3 and 4 figures.
Reads a little better in first reader - But is careless. Loses his place. Spells well, if he studies a bit. Hard to get him to study.
Writing improves very slowing.
He has written one letter this month. Can tell the min, after and hour, but not before. Knows the hrs. ½ hrs; & ¼ hrs.

Jan. 1902.

Jos Sullivan has been absent two days this month. He has worked to page 73 of Book II Arith. Worked ten practical problems involving table of dry measure. Does not reason well, as needs help on nearly every question. Learned the table by handling & using the measures. He reads very well in 2nd Reader.

Spelling has been good. Not too nearly every day.
Writing improves.
He has written two letters this month.

Jan. 1902.

Charlie Swanson has been present every day this month. He has worked with + and - tables all month - The very work he has done for a year. Cannot combine at all without objects.
Reads very well in 1st Reader. Has spelled well this month - Very seldom misses a word - Writing is improving every day. He has written one letter without help.

Jan. 1902.

John Anton was absent eight days this month. He has reviewed the multiplication tables, Had lots of drill - Written work handed in nearly every day. Reads in Story of "Hiawatha", But it is hard for him. Studies his spelling & gets good grades. Writes too fine, Am trying to make him write larger. He has written one letter this month.

Jan. 1902.
Floyd Ronald has been present every day this month. He has learned the table of long measure. Has worked 20 questions such as - How many ft. of wire fencing will it take to reach around my garden 8 yd. by 3 yd. Hands in Arith. Tests daily -
Reads well in 2nd Reader. Seldom misses a word in Spelling - His writing needs improvement.
He has written two letters this month.

Jan. 1902.
Wils Pearson has only been present eight days this month.
He did a little work in measurements - and a few practical problems under long measure.
Reads with little expression. Spells well - Has written one letter.

Jan. 1902.
Frank Jewett has been present every day this month. He is learning the table of 1+4, 1+7, etc. He writes it on the b.b. then five or six times at his seat every day.

He has learned about 15 new words this month. Is careless in reading. Loses his place while other boys read. Spells pretty well. His writing is improving. He dictated and copied one letter this month.

Jan. 1902.
Edward Grant has been present every day this month. He can combine the easy numbers - adding and subtracting. And, I do not believe he will ever do any more in Arith. He reads very well in 2nd Reader. Understands and remembers what he reads. Is a good speller. Has not missed many words all month. His writing will improve I think. He has written one letter.

Jan. 1902.
Walter Zemnick has been present every day this month. He has worked in measurements this month - measuring school-room, b.b. hall, desks, etc. Has worked 20 practical problems such as "How many ft. of wire fencing will it take to reach around my

garden 8 yd. by 3 yd.?"
He reads very well in 2nd Reader - Hope he will overcome the habit of stammering. Spelling has been good.
His writing can be improved - He has written three letters this month.

Jan. 1902.
Vere Wilkinson has been present every day this month. He knows the numbers from 1 to 20 and can make them. Knew nothing about combining them. I have worked all month trying to teach him the table of 1+1's. He knows 1+2=4, 1+5=6 and 1+9=10. But counts objects for the others yet. Can count. He reads right well with the 1st Reading class. At first spelled poorly, but got ambitious to get 100 on the b.b. as some other boys did, so his spelling has been much better the last week. Writes poorly, but I think he will improve. Not a very quiet boy in school. Inclined to tell tales on other children. Swears occasionally.

Jan. 1902.
Alfred Schneider has been present every day this month. Can give results readily in addition. Part is backward about taking away. How spent some time this month with tables, and adding columns such as $\begin{matrix}4\\3\\5\end{matrix}$.

He has learned 10 new words in the Primer. Can write and spell, Mamma, papa, baby, Kate, doll. He does the mirror writing but prefers it in the right of his name right hand. Does not smile very plainly - but thinks he will improve. Is a nice affectionate boy. Likes to build words with the letters - Is obedient -

Jan. 1902.
Leslie Harris has been in school every day this month. He adds and subtracts nicely, not in borrowing and carrying numbers, however. Knows some of the multiplication tables - He has prepared three nice papers in Arith. this month. Several of his Arith. papers were consigned to the waste

basket. They showed no thought in preparation. Just simple problems in addition. He is very restless, needs change often. Can hardly keep him at one kind of work 10 min. He has improved in that respect however since his entrance.
Reads nicely with my 2nd Reading class. Works hard for 40 min every day in Spelling and nearly always gets it.
He has written two letters this month. The last one was much better than the first both in composition and writing. He is a very lovable boy and one that will improve a good deal I think.

Feb. 1902
Polly Galzyka has been absent one day this month.
She has spent the month adding and taking away numbers beyond ten such as 24 + 20 + 8.
Has read to page 70 of Taylor First Reader.
Spells & writes on b. b. about eight new words daily. Writes a little better. Has written three letters this month.

Feb. 1902.
Myrtle Davies has been present every day this month.
She has learned how to multiply by 10, 30, 50, 90, this month, & is working at two numbers such as 17, 26, etc.
She has read to page 125 of 2nd Reader. Spells & writes on b. b. about ten new words a day.
She has written two letters this month.

Feb. 1902.
Minnie Hanson has been present every day this month. Has counted by 100, and 1,000.
Written numbers in thousands and millions.
And added the long

columns she writes.
Has read to page 125 of 2nd Reader. Spells and writes on b.b. about ten new words each day. Has written one letter this month.

Feb. 1902.
Gladys Hohman has been present every day this month. She has learned to multiply by 10, 20, 30, etc. and is trying to multiply by two numbers such as 17, 29, etc. She has read to page 125 of 2nd Reader - Spells very well. Writing improved a little all the time. She has written four letters this month.

Feb. 1902.
Annie Lochsland has had sore throat & has not been able to do much in articulation. She has learned to say red, blue, also write them on b.b. Knows the colors. Drew flag, eagle and Valentines on b.b. this month.

Feb. 1902.
Clara Poetzold has been present every day this month. Has mixed in the addition

table of 7's. She is not perfectly learned yet.
Has read to page 59 of Baldwin 1st Reader - Spelling is much improved - Spells all the lessons. Learns about four new words daily. Has written two letters this month.

Feb. 1902
Mary Pagaman is only in school one hour. She has read to pg. 69 of Langdon 1st Reader - Reads a little smoother and spells better. Likes to write & copy her lessons.

Feb. 1902.
Editi Poole has been present every day this month. She has learned to multiply by 10, 30, 50, etc. & is trying to get multiplying by two figures such as 16, 28, etc. She has read to pg. 125 of 2nd Reader. Spells very well. Has about 10 new words every day - Writes better.

Feb. 1902.
Annie Scheipl has been present every day this mo. She did a number little problems in review as she finished No. 1. Arith.

She is adding in columns
of 4 also subtracting a
little. 3/2 She has read to page
1/ 125 of 2nd Reader.
Spells pretty well. Has 10
new words each day.
Is interested in general
talks, etc. Has written
three letters this month.

Feb. 1902.
Laura Miller has been
absent one day this
month. She is trying
this month to learn the
addition table of 7's.
But it is very hard
for her to remember from
one morning to another.
She has reach to page
125 of 2nd Reader - Her
spelling is poor. And
she hesitates in her
reading. She can gets
about 10 new words each
day, but she cant spell
half that many. She
had written two letters.

Feb. 1902.
Nicky Blazina has been
present every day this
month. He has learned
the addition table of 7's
this month. He has read
to page 53 in Primer.
Learns to spell and write
about three new words
each day. Wrote one letter

himself this month. Enjoyed
helping make Valentines.

Feb. 1902.
Warren Dugan has been
present every day this
month. He has been
working on the addition
table of 7's. Has it
about half learned.
Has read to Hiawatha's
Departure. Spells about
five new words each
day selected from
reading lesson. Likes
History & Biographical
stories. Has written two
letters this month.

Feb. 1902.
Alfred Everlean has been
absent a half day this
month. He is learning
to add and subtract
numbers beyond 10,
such as 20 + 30 + 4 or
64 - 10, etc. He completed
Baldwin's 2nd Reader,
& has commenced 3rd
Reader - Has read the
Story of Benjamin Franklin
Spells well, & writing
improves slowly.

Feb. 1902
Roy Ellis has been present
every day this month,
& still working on the
table of liquid measure.
Reads on pg. 53 of Primer

Spells a little better. Gets about three new words a day. Writes neatly. Has written one letter this month.

Feb. 1902.

Dedrick Fiske has been present every day this month. He learned to multiply by 10, 30, 60 etc, & is working at multiplying by two numbers such as 17, 29, etc.
He has read to "Hiawatha's Departure" Likes the story, Is fair in spelling.
Has written one letter.

Feb. 1902.

Willie Willis has been present every day this month.
Is still working on the table of liquid measure. Knows the comparative size of measures, but problems annoy him.
Has read to page 69 of 1st Reader - Spells pretty well, averages about 90 daily in spelling. Writing gets a little better. Writes his own letters. Has written two this month.

Feb. 1902.

Eugene Downey has been absent seven days this month. He has

attempted to learn the table of 7's in addition but it is about half learned. He will never really gain any more in Arith.
Is reading "Hiawatha's Departure". Spells about five words a day. Has written one letter.

Feb. 1902.

Joe Hatch has been absent one day this month. Counted by 100, & 1000. Written numbers in thousands and millions. and added two long columns.
Is reading "Hiawatha's Departure" Spells about five new words each day. Writes a little better, but needs copy book practice. Has written two letters.

Feb. 1902.

Raymond Hill has been present every day this month. He is learning to subtract. Has mental tables learned. Reads a little better. He has been hard this last month to get him to work. He really learn to spell about two new words every day. Has

written two letters himself this month.

Feb. 1902.
Wallie Johnson has been present every day this month. He is by all odds the smart boy in school. He does manage to learn a little each month, thought. Is working on the addition table of 7's.
Reads a little better in first reader - Copies his spelling every opportunity. Writes pretty well. Has written two letters.

Feb. 1902.
Elmer Johnson has been present every day this month. He has reviewed the addition tables from 1 to 6. Found many of them had been forgotten so had to begin at first & go all over again.
Reads a little better in Primer - Vocabulary is getting larger - Spells pretty well. Learns about three new words every day.

Feb. 1902.
Chas. Nelson has been present every day this month. Is learning addition table of 8+1, etc. Reads poorly

in first reader. Spells a little better. Gets about 3 new words each day. Is doing in school. Does not like to stay in his seat. Has written two letters by himself this month.

Feb. 1902.
Nathan Rice has been present every day this month. He did a number of simple practical problems as he finished No I Arith. Has done addition such as 4/6 in No 2. Arith. 3/
Reads a little better in first reader & spelling is quite good. Gets about 5 new words each day. Has written one letter. Is awful slow.

Feb. 1902
Albert Riley has been absent a half day this month. He learned to multiply by 10, 20, 50, etc. & is nearing at multiplying by two figures which has 17, 29, etc. He has read to page 42 in 3rd Reader. Spells well. Gets about 10 new words daily. Has written two letters this month.

Feb. 1902.
Frank Dibley has been absent, nearly the entire month. The few mornings he was in he studied the table of liquid measure. Was not in school afternoons.

Feb. 1902
Willie Specht has been absent five days this month. He learned to multiply by 10, 40, 60, etc, and is learning to multiply with two figures as 17, 24, etc. He is reading "Hiawatha's Departure". Is interested in it. But does not get his spelling very well. Five words are selected from the reading. He has written one letter

Feb. 1902.
Ignatius Stezerowski has been present every day this month. He is learning to subtract, and adding like $\frac{c}{4}$ He needs change of work. $\frac{3}{7}$ It is hard to keep him busy. Spells pretty well. Gets about three new words every day. Has learned the sessions this month. He wrote one letter. Needs copy book drill.

Feb. 1902.
Joe Sullivan has been present every day this mo. He has learned to add & subtract by numbers beyond ten as, 24+20+8= & 36-22= He completed the 2nd Reader, and has read two lessons in the 3rd. Always has good spelling. Spells at least eight words at a lesson. Remembers what he reads. He made 25 or 30 Valentines. Drew a picture for the black board. Has written two letters.

Feb. 1902
Charlie Donovan has been present every day this month. He has gained nothing new in numbers. Recites his lessons, in adding simple numbers but needs marks & needed objects. Reading improves, so does his spelling. Seldom misses a word. Writes better. Does neat b. b. work. Wrote five letters for himself this month.

Feb. 1902.
John Antony has been absent three days this month. He learned to multiply by 10 30, 70, etc, also trying to get multiplying by any

two figures as 19, 26, etc. In reading "Hiawatha's Departure". It is hard for him. Many new words to learn. Gets about five to spell each day. Enjoys general exercises. Has written one letter this month.

Feb. 1902.

Floyd Ronald has been present every day this month. His work has been counting and writing numbers in thousands and millions and adding the long columns. measuring the school room floor, windows, door, etc. He has been lazy and not inclined to work this month. Committed a rec. for Washington's birthday. & delivered it nicely. Drew a map of Minnesota. Wrote three letters.

Feb. 1902.

Frank Jewett has been present every day this month. He is working on the addition table of 2's. It is not perfectly learned yet. He has read to page 60 of first reader. Spells very well. Can learn about four new words a day with a review of the previous days work. and a general review every week. Has learned a few words

of two syllables as reason, winter, summer, He dictated and copied two letters.

Feb. 1902.

Edward Drew has been present every day this month. He has done a little counting and writing too, but will never accomplish anything in that line, Always had good reading and spelling lessons - reads in a monotone Spells about ten new words every day. Has written two letters this month.

Feb. 1902.

Vere Wilkinson has been absent one day this month. He is a naughty boy in school - hard to keep him at work - He has learned the addition table of 2's, but can't seem to get table of 1's. Reads very well in first reader. Also spells well. Writes about eight new words on b. b. every day. He has dictated and copied one letter this month.

Feb. 1902.

Alfred Schneider has been absent three days this month. Has learned the multiplication table of 2's and partially the 3's, besides drill in adding and subtracting. He learns about three new words a day. Reads review

lessons well. Remembers story from pictures. He has a writing lesson daily. It is very hard for him to learn to write straight. He wants to do the mirror writing.
He has dictated two letters.

Feb. 1902.
Leslie Harris has been present every day this month.
Developing numbers to 100 adding such as 26 + 10, and 46 - 10, etc. Counting by twos and threes forwards & backwards to 20 & down.
Interested in general exercises, especially story work.
Finished 2nd Reader last month & promoted to 3rd.
Very much interested in the story of Benjamin Franklin.
Spells well. Writes perhaps a little better. Has written three letters.

Feb. 1902.
Alvin Hoop has been present every day this month.
He has the addition table of twos pretty well learned. Still hesitates a little. Learns numbers very slowly.
Reading is improved. Does not lose his place as often.
Has read to page 69 of 1st Reader.
Writes spelling on b. board & averages 90. Writes his own letters with some help in

spelling. Has written four this month. Loves to draw. Will use all his time drawing in place of study work, if I am not right after him.

April
March 1902.
Dolly Scott has been present every day this month. She has spent the month reviewing the multiplication tables, and doing examples like this 6 4 9 2 x 7.
Gives better attention in reading - seldom loses her place - Out of a list of 24 words pronounced Friday she did not miss any. She has written three letters.

March 190
Myrtille Davies has been present every day this month. Her work in Arith has been multiplying by 2 figs. like 689, x 20, etc. Reading has been good. Gets 100 nearly every day in spelling a list of 10 wds.
Has written three letters.

March 1902.
Minnie Hansen has been present every day this month. She has done both oral & written work in addition & subtraction numbers to 1,000,000.

Her reading has been good.
She seldom missed a word
in spelling. She has
written two letters.
Prepared one paper for an
exhibit.

March 1902

Gladys Hohman has been
present every day this mo.
She has learned to multi-
ply by two numbers.
such as 248 x 24, etc.
Reads well in 2nd Reader.
Has had good spelling
all month. Has written
four letters.

March 1902.

Annie Lochstad has been
absent one day this mo.
She has learned two new
words red and eleven,
to say, write. Knows the
colors red, blue, white &
black now. Drilled on
complete list a good deal.

March 1902.

Clara Paetzold has been present
every day this month.
She has learned the addition
table of 7's. Has read to pg.
68 in 1st Reader - Spells in
the average six words a
day. Does well in spelling
Writing improves a little
She has written two letters.

March 1902

Edith Poole has been present
every day this month.
She has learned to multiply
by two numbers, such as
169 x 24.
Reads & remembers lessons.
Has had good spelling,
Writes well. Prepared one
paper for the exhibit.

March 1902

Mary Bozeman has been
absent one day this month.
She has gone about in a
dazed, dreamy way nearly
the whole month & has
not accomplished much.

March 1902.

Annie Schiepl has been
present every day this month.
She has learned the x and ÷
table of 2's. Reading has
been good. Remembers &
can tell story. Has perfect
spelling lessons nearly
every day. Composes her
letters better, & writes better.
She has written three.

March 1902.

Laura Miller has been
present every day this mo.
She has tried to learn
the addition table of 7's
but has not succeeded.
Reading has been good.
But spelling managed
68. Cannot keep up with

her class. She has written two letters this mo.

March 1902.

Nicky Blazina has been present every day this month.
He has reviewed the addition tables of 3, 4, 5 & 6.
He has read to page 57 of the primer. In attention. Keeps place when reading. Spells about five words daily. Writing has improved. He has written two letters.

March 1902.

Warren Duggan has been absent three days this month.
He has learned the addition table of sevens.
Read to page 125 of Hiawatha Reader. Spelling has been good. Spelled 10 words daily.
Has written three letters.

March 1902.

Alfred Einertson has been absent four days this month.
He has been transferred to the 1st Division. Has learned the 2d multiplication and division tables of 2.
Read to page 56 of 2nd Reader.
Spelling has been good. Writing good.

March 1902.

Roy Ellis has been absent two days this month. Has tried to teach him the value of nickles, dimes, and a little

practical work in using money. His reading does not improve much. He has spelled pretty well this month.
Has written one letter.

March 1902.

Diedrich Fiehn has been present every day this month.
He has learned to multiply with two numbers like 6248 x 24. Has read to page 125 in the Hiawatha Reader. Spells well this month. Prepared a paper for the exhibit. Has written two letters.

March 1902.

Willie Dilley has been absent one day this month.
His drill work has been handling, counting & using money learning nickles, dimes, etc.
Has given good attention to reading. Does not lose his place. Gets 10 & nearly every day in spelling.
His letters are improved.
He has written three.

March 1902.

Eugene Dunaway has been absent three days this month.
He has learned the addition table of 7's this month.
Reads smoothly enough this month, but when questioned does not seem to understand

what he has read. Spelling has been fair. He has written two letters.

March 1902.

Joe Walch has been present every day this month.
He has had both oral & written work in addition and subtraction, numbers to 1,000,000.
Reading a little better.
Good spelling. Prepared one paper for the exhibit. Wrote three good letters

March 1902.

Raymond Hill has been absent one day this month.
He has added columns of 6 figures. Learned tables of 3's & 4's. He does nice neat work. Has been quiet and orderly. Reads a little better. Does not keep his place very well. Spelling is hard for him. He learned to spell 10 or 12 new words this month. He wrote three letters.

March 1902.

Walter Johnson has been absent one day this month.
It is hard to keep him occupied. Did the same work in Arith. this month as last. Will never do much more. Reading was better. And he really spells a good deal better. With a good

deal of help in spelling he wrote two letters himself this month.

March 1902.

Elmer Johnson has been present every day this month.
He has worked on the addition tables of 4's & 5's. Forgets one table as soon as he learns it to learn another.
Reading and spelling have been fair. Articulation does not improve much. Writes neatly.

March 1902.

Charlie Nelson has been present every day this month.
Does not improve any in Arith. Added a little but had to use objects. Seemed a little more interested in his reading. When he read the lesson about the bridge, drew one on b.b. Writes lessons on b.b. Wrote two letters himself this month.

March 1902.

Nathan Rice has been absent three days this month.
He has learned the multiplication and division tables of 2's.
Has read six lessons in 1st Reader - Has had good spelling lessons. Writes very plainly. Has written two letters this month.

March 1902.
Albert Riley has been present every day this month.
He has learned to multiply with two numbers, like 28 x 18.
He has had good reading & spelling lessons. His writing is improving every day.
He has written two letters.
Also written two compositions for the North Star.

March 1902.
Willie Specht has been absent nine days this month.
He has learned to multiply with two numbers like 125 x 23. He does not improve much in reading. Spells quite well. Writes nicely
Has written one letter.
Tells on other boys & is kind of meddlesome.

March 1902.
Ignatius Stezenowski has been absent one day this month. He has added columns of 4 figures. Reviewed tables of 2, 3, and 4's.
Has given a little better attention to reading. Does not lose place so often.
Has gotten 100 five times this month in spelling.
Writes a little better.
Has written one letter.

March 1902.
Joe Sullivan has been absent two days this month. He has reviewed the multiplication tables. Done nice work.
Has three pages of his scrap book on Minnesota ready. Has had good reading & spelling lessons.
Writes well. Has written three letters this month.
Little more inclined to work this month than last.

March 1902.
Chas. Donovan has been absent one day this month.
He has been transferred to the 1st Division. Has absolutely learned nothing new in numbers.
Is doing well in reading and spelling. Often spells every word correctly out of a list of five word words.
Has written two letters.

March 1902.
John Dolan has been absent seven days this month.
He has learned to multiply with two figures, such as 126 x 18. Seems to understand the story of his lessons a little better. Spelling has been good. Writing improves a little. He wrote one letter this month.

March 1902.
Floyd Ronald has been present every day this month.
He has had oral and written work in addition and subtraction, numbers to 1000,000.
His reading has been good.
Can tell story of lesson nicely.
Gets 100 in spelling nearly every day. Writin a little better. Prepared one paper for the exhibit. Wrote three letters.

March 1902.
Frank Jewett has been present every day this month. He had not been very quiet in school. Prepared his spelling on desk with letters. Rather inattentive in class - loses his place as he reads. Spells pretty well. Is still working at the table of 2's. in Arith. Writin neatly. Dictated & copied one letter this month.

March 1902.
Vere Wildhinson has been present every day. He has learned the addition table of two's, and started on 3's.
Has read to page 76 in 1st Reader.
Gives better attention than last month. Has had good spelling lessons. Writes a little better. Has dictated and copied two letters

March 1902.
Alfred Schneider has been present every day this month.
He has learned the x Table of 4 & 5. And reviewed the 2 and 3.
Has read ten lessons in Primer. His memory is pretty good. He soon gets the story of the lesson.
His writing is improving
Copies lessons every day.
Spells two words (new) and some old ones at each lesson. He has dictated two letters.

March 1902
Leslie Harris has been present every day this month.
He has added such sums as
$\begin{array}{r} 2\,3\,4 \\ 5\,6\,7 \\ \hline \end{array}$ and a good many
$\begin{array}{r} 3\,4\,2 \\ 2\,2\,4 \\ \hline \end{array}$ mental problems in addition & subtraction.
His reading & spelling lessons have been well prepared this month. He has kept his seat a little better than last month. Perhaps not quite as restless.
Writing & composition do not improve much.

March 1902.
Alvin Korp has been absent two days this month.
He has done the same number work as last month. Drawn two pictures

for the mail.
His reading has been good. And he got 100 in spelling nearly every day. He made three short letters this month with help in spelling.

March 1902.
Clarad McKinley has been present nine days this month. He has reviewed the X and ÷ Tables of 2's and 3's.
He is a poor reader. Reads in a very hesitating. Is still at the 1st lesson in the 2nd Reader. Many of the words are new to him. He reads alone. Writes fairly well, but in a cramped hand - Has written one letter. Seems to enjoy school work -

April 1902
Polly Gatzke has been absent one day this month.
She has done a good deal of work in multiplication this month. Learned to multiply by two numbers and tried it with three.
She reads smoothly. Is ½ through her book. Gets 100 nearly every day in spelling. Writing has improved. Has learned four memory gems. Written four letters.

April 1902
Myrtle Davies has been absent one day this month.
Most of the time has been spent in multiplication drill. This last week has started in short division. Finished the 2nd Reader and has taken up the Hiawatha book. Had talks about the habits & appearance of Indians. Drill on pronounciation of names. Has read the introduction to the story. Has written four letters.

April 1902.
Minnie Hansen has been present every day this month. Her drill in the month has been practical

questions in multiplication in Book 3. She has done the work well.
Taken up the Hiawatha Reader - Has been interested in Indian habits, etc. Drilled in pronouncing hard names. Spells selected list of 7 or 8 words with reading. Has written two letters.

April 1902
Gladys Holman has been absent three days this month. She has had drill in multiplication questions like $\begin{array}{r} 389 \\ +\ 87 \\ \hline \end{array}$ Working four or five daily.
Just commenced to read in the Hiawatha book. Had drill in the pronunciation of names. Interested in the life of Indians. Spelled well - Writes a little better. Has written four letters.

April 1902.
Annie Lochstead has been present every day this month. She has learned new, old, no, yes, are. And formed plurals to old nouns learned by adding s.

April 1902.
Clara Pautzold has been absent two days this month.
She has the addition table of 8's well learned. Answers promptly. Reads better in 1st Reader - Learned a number of hard words such as birdie, till, strange. About five a day.
Has written two letters.

April 1902.
Mary Boyman has been present every day this month. She shows little real advancement. Of course reads a portion in her reader each month & spells new words. As only in school one hour a day.

April 1902
Edith Poole has been present every day this month.
She has had drill in multiplication and is just starting in short division. Is a good worker & tries to learn.
Has taken up the Hiawatha Reader - The proper names are hard for her & she has had a good deal of drill on them. Has been told of the life & habits of Indians. Spelling has been fair

April 1902.

Annie Schiepl has been absent one day this month. Has had practical questions about money, such as - A little boys coat cost $10. His rocking horse, half as much, Bell cost of horse.

Commenced to read the Story of Hiawatha, Is very much interested in it. Had drill on hard names. Spells a list of 5 or 6 words selected from lesson. Has written two letters.

April 1902.

Emma Miller has been absent one day this month. She does not shake any advancement in number work. Still give her work in addition but she makes marks for easiest combinations.

Has done a little better in reading. Started 2nd Reader over again. Has had her spelling much better. I only give her three words a day. She has written two letters.

April 1902.

Nicky Blevins has been absent one day this month. He has worked on the addition table of 7's and 8's. Has learned

ten new words at sight Has read four new lessons in Primer and spelled three new words daily. He has written two fancy letters.

April 1902

Roy Ellis has been absent one day this month. He had had practical problems like - Mary picked twenty roses & put them equally in four bunches. How many in each bunch. Has read to pg. 61 of 1st Reader. Reads a little better. Hand spelling has been much better. Writes spelling on b.b. very neatly.

April 1902

Willie Willis has been present every day this month. He has had practical problems in adding. Has had to take same lesson over & over again. But finally gets it & remember well. His reading has improved. Does not hesitate over little words as much. Has written spelling on b.b. & from a list of 5 or 6 words often spells all correctly. Has written two letters & is very slow at writing & composing

April 1902

Eugene Guernsey has been absent three days this month. He has learned the addition table of six. Answers very promptly when questioned.
Has been transferred to the 2nd Reader. Remembers story of lesson and gets his spelling very well. Often gets 100. He has written one letter.

April 1902.

Joe Hatch has been present every day this month. He has had practical problems in multiplication in No. 3. Arith. Did the work very well.
Reads now, for a change, in the 2nd Reader. Likes the stories & gets his spelling fairly well. He has written two letters Composes nicely. Writing is neat & plain.

April 1902.

Raymond Hill has been absent two days this month. He has had subtraction with numbers from 2 to 20, & some addition drill.
I have to vary his reading frequently to keep him interested. He has learned three new words a day.

Harder words than last month, like breast, robin, speckled. He has written two letters one dictated & one of his own composition & writing.

April 1902

Walter Johnson has been present every day this month. He has been very noisy and disorderly than usual. Did the same work in Arith. as last month. Reads better, does not stop to spell so often. Has gotten 100 three times this month in spelling. Wrote three letters.

April 1902

Elmer Johnson has been absent two days this month. He has worked on the addition table of sixes. He has read four new lessons in Primer learning at night ten new words. Spells three words at a lesson. Writes neatly, & spells lessons with letters at his seat.

April 1902

Charlie Nelson has been present every day this month. He has done just the same work in Arith as last month. Do not think he will ever do

mar in Arith. Has read
better in 1st Reader. Can
tell story of lesson. & seldom
misses a word in spelling.
Writes lesson on b.b. nearly
every day.
He has written two
letters this month.

April 1902.
Nathan Rice has been absent
four days this month.
He has had practical
problems about money, like
A little boys coat cost $10.
His rocking horse half as
much. Tell cost of horse.
Has read to page 74 of
1st Reader. Spells 5 words
a day like birdie, till
stranger. He has written
one letter.

April 1902.
Albert Riley has been
present every day this
month. He has had lots
of work in multiplication
like 7,496. Has just
started 187 to learn short
division. Reads well in
2nd Reader - Enjoys stories
Has read one or two
days from papers & maga-
zines. Spelling has been
good. Wrote one letter.
Writing a little neater.

April 1902.
Willie Specht has been absent
ten days this month. So
has not accomplished
very much in school.
The days he was in, he
had apraxia. The new
drills seems seemed to
bother him.

April 1902.
Ignatius Stezercowski has
been present every day
this month. His number
work has been taking
away with numbers
to 20. and drill in
adding - giving results
without counting.
Reading has improved.
Kept place better, learned
to spell and write about
three more words at a
lesson. Harder words this
last month - like robin
speckled, roast
Writes a little better. Had
special drill in copy book.
Wrote one letter.

April 1902.
Joseph Sullivan has been
present every day this
month. He has done a
good deal of work in
multiplication - by three
numbers like 1,928, & even
by tens. Did 167 neat
work. Reading has been

good. Studied his lessons. Got 100 in spelling nearly every day. Put neat work on b.b. Learned three memory gems. Wrote two letters.

April 1902.

John Anton has been present every day this month. Half the month he worked in multiplication. Can multiply any number given him now. Just started short division. Is getting to understand it. Reads in 2nd Reader for a change. Likes stories but finds many words he does not know meaning of. Gets good spelling lessons. Writing is not much improved. He wrote one letter.

April 1902.

Floyd Ronald has been present every day this month. Has worked four pages of practical problems in multiplication & same review work, in book 3. Prepares work at neat & hands in paper every day. Has read to page 84 of 2nd Reader - tells story of lesson. Writes spelling on b.b. or in tablet. Gets 100 nearly every day. Writing has not

improved much, gets a little more size to his letters. Wrote two this month.

April 1902.

Frank Jewett has been absent one day this month. He has worked on the addition table of 2's. drill in counting and writing numbers. Read better in 1st Reader. Kept place better. Spelled three new words each day. Harder words like robin, wagon, speckled. Wrote work neatly on b.b. Dictated and copied one letter.

April 1902

Vere Wilkinson has been present every day this month. Has been quarrelsome. Wants to tell on other boys. Is more deficient in Arith. than in reading. He knows the addition table of 2's. But it has taken time to learn it. Has started on table of 3's, etc. Reads smoothly in 1st Reader - but in a very low tone. Take a good deal of time making him repeat in an audible tone. Got 100 in spelling nearly

every day. Wrote one letter himself. but copied it three times before it could be sent.

April 1902.

Alfred Schneider has been absent one day and a half. He has learned well the multiplication table of 6's. Reviewed the other 5 Tables. Is one boy who learns numbers more readily than reading. He has learned to recognize and read ten new words, and to spell and write three. He can tell the hours, ½ & ¼ hrs on clock. Has learned one memory gem. Dictated two letters.

April 1902.

Leslie Harris has been present every day this month. The most of the month has been spent on subtraction. Can take away any numbers but when you have to borrow he is puzzled. His mind wanders at times more of other children.
Reads pretty well. Learned the meaning of 12 new words. Tells story of lesson Gets 100 in spelling daily.

Can tell hrs. ½ hrs. & ¼ hrs. on clock. Wrote two letters and these were decidedly better than ones written last mo. both in composition & writing.

April 1902.

Alvin Kopp has been present every day this month. His work in numbers has been same as last month, learning addition table of 2's. Still makes marks on worn objects. Read very well 10 new lessons in 1st Reader. Wrote as pronounced six words daily on b.b. Writing was neat & got 100 in spelling about half the days. Wrote, alone, two letters.

April 1902.

Claude McKinley has been absent two days this month. He has had practical problems about money. Like - A little boys coat cost $10. His rocking horse half that much, Bill cost of horse. Is right quick at such questions. Prepares work at seat & is a studious & quiet boy. But his reading has not improved. Learns new words very slowly. Read only

ten paragraphs in 2nd Reader during the month, but read them now & can again. Spelled 12 words. Had them one many times, too.
Wrote one letter, writing does not improve.

May 1902.
Myrtle Davies has been present all month.
She has mastered short division. Had six questions to work and hand in every day. Seems interested in the Hiawatha Reader & reads well. Spelling has been good. She has written four letters this month. Had to write two of them three or four times before getting a neat copy.

May 1902.
Gladys Holman has been present all month.
She has spent the month trying to learn short division but has not succeeded. Will try again.
Reads very well in the Hiawatha Reader. Has good spelling lessons.
Her writing is improving a little. She wrote three letters this month.

May 1902.
Annie Lockstead has been present every day this month. She has drawn a border of shields and daisies on the b.b.
Has learned white & yellow. and has formed, spotam & mitten six new sentences with old words.

May 1902.
Clara Dalgold has been present every day this month. She learned the addition table of nines, and reviewed the eights. Read six new lessons in first reader, spelling twenty five new words. Wrote two letters. Writes a little better.

May 1902.
Mary Ferguson has been present every day this month. She has read eight new lessons in the first reader, spelling twenty five new words. Wrote so many of them very neatly on the b.b. as they were pronounced to her. Made several fair drawings on cards. Is listless & absent-minded

May 1902.
Edith Poole was present every day this month. Her questions in short division were nicely prepared every day. Was ready now for long division.
Has had good spelling & reading lessons in the Hiawatha reader. Hardest words were selected & studied for spelling. She wrote one letter very neatly. Was very quiet & studious.

May 1902.
Annie Schiepl has been present every day this month. Has had ten simple problems involving addition subtraction & multiplication, and drill in addy by 10's & over. Reading lessons well prepared. Seldom misses a word in spelling. Wrote three letters. English sentences formed a little better.

May 1902
Lana Miller has been present all month. She has almost learned the addition table of sixes. Read one lesson in 2nd Reader. Learned to spell ten new

words. Is very slow with all her work. Wrote two letters this month. Had to copy them two or three times.

May 1902
Ricky Blazina has been present every day this month. He has reviewed all the addition tables. Read six new lessons in the primer, spelling ten new words. Writing improves a little all the time. Composed, spelled & wrote for himself two letters.

May 1902
Willie Gillis has been present every day this month. He has done exactly the same work in numbers as last month. Read eight new lessons in first reader spelling twenty-five new words. Wrote them as pronounced on b.b. Seldom misspelling one. Wrote two letters without help excepting to correct misspelled words. Dusted b.b. cleaned erasers & all early & errands to stir him up a little.

May 1902
Eugene Guernsey has been present all month. He has learned the table of 6's in addition and reviewed the 8's. Never will do much with Arith.
Has read eight lessons in 2nd Reader. Had good spelling lessons. Wrote words as pronounced on b.b. Has written two letters this month.

May 1902.
Raymond Hill has been present every day this month. He had learned to carry numbers in addition. Did nice work this month. Explains & adds aloud problems worked on b.b. Read eight new lessons in 1st Reader. Spelled twenty new words. Wrote them on b.b. as I pronounced them. Wrote one letter himself. I corrected some misspelled words for him. Dictated & copied another. Did neat work in Arith. & reading both.

May 1902
Walter Johnson has been present every day this month. He has reviewed the addition tables. Uses objects to count with

not quite so constantly.
Read six lessons in First Reader. Spelled two words correctly each day. Wrote two letters without help. Was very talkative and disorderly this month. Sent from the room many times.

May 1902
Elmer Johnson has been present every day this month. He has spent the month on the addition tables of seven & eights. Read six pages in the primer. Learned ten new words like pine, needles, cried etc. Writing improved. Works quietly at his seat.

May 1902.
Charlie Nelson has been present every day this month. He makes no advancement in number work. Does the same work over & over again - in addition. Read four new lessons in 1st Reader. Learned to spell ten new words like sailor, dressed blue, dish etc. Writing does not improve much. He wrote two letters this month.

May 1902

Albert Riley has been present every day this month. He has had lots of drill in short division. Knows how to work any problem. Explains them nicely. Loves his reading lessons. Read five new lessons in 2nd Reader - Spelled ten words at a lesson. seldom missing any. Wrote one letter this month. Writing improves a little every day.

May 1902.

Ignatius Stezzewowski has been absent three days this month. He has learned to carry numbers. Adds sums like 245 / 628 / 441. And explains them nicely. Does not get bothered. Read eight new lessons in first reader. Spelled six words daily. like friends, told, afraid, through. Has done quite good work. Writes a little better. Wrote one letter. Dictated & then copied it.

May 1902.

Floyd Ronald has been absent one day this month. He has worked twenty problems involving addition, subtraction multiplication & division. Reasoned well, and explained problems nicely. Read six lessons in 2nd Reader. Had good spelling lessons. His letters are longer & composed better. He wrote three this month.

May 1902.

Francis Jewett has been present every day this month. He had learned about half the addition table of 2's. Gets the rest by making marks & counting. Read eight new lessons in 1st Reader. Spelled about 20 words. Wrote them on b.b. Writing is improved. He dictated & copied two letters. Drew & painted a flag for Decoration Day.

May 1902.

Alfred Schneider has been present every day this month. He has reviewed the 1st 7 tables in multiplication. Knows them well. Has read

three new lessons in the primer. Knows at sight & can form the script letters a, b, c, d, e, y, r, u, o, ou, o, i,
He can tell time on clock or watch without mistakes now. Drew a flag for Decoration Day. Painted it.
He dictated two letters.

May 1902.
Leslie Harris has been present every day this month. He is still trying to learn subtraction. Gets mixed on which number to take away. Borrowing mixes him. Read five lessons in 2nd Reader. Is interested in stories. Had good spelling lessons. Writes a little better. Wrote three letters. He is not quite sure of the minutes in telling time. Gets them right sometimes.

May 1902.
Claud McKinley has been present every day this month. He has added by 10's & is learned about 10's & units. Read one lesson in 1st Reader. Spelled

nine words. Wrote them on b. b. Writing seemed a little less cramped. Quiet & orderly boy.

June 1902
Polly Gatz the began to learn the multiplication table of sixes, the 1st Sept finished the table & reviewed all of them. Did practical work in multiplication - multiplying such questions as 7 x 492 x 6 & 27. Besides that she has nearly completed Prince's No. 2 Arith. It includes all operations with numbers to 100. She has read through Laylor 1st Reader. Her spelling is very much improved. It is her writing, also composition work. Gives better attention to any school work.

June 1902.
Myrtle Davies did work in U. S. money in No. 3 Arith the beginning of the year. But fell behind & her class and was placed in another. With them she drilled on the x tables learned to do short division and is now beginning long division - She had

through Baldwins 2nd
Reader and about half
way through the Song
of Hiawatha. Has done
good spelling. Writes
about the same. Composes
letters a little better.
In general work has
been quiet & attentive
this year.

June 1902.
Minnie Hansen began
the year by reviewing
U.S. Money. She has
completed No 3. Arith.
excepting some miscella-
neous exercises. That
ones mights & measures.
Also measurements.
She read through Bald-
wins 2nd Reader. And
about half through "the
Song of Hiawatha". Her
spelling lessons have
been well prepared. Her
writing has improved
a little not as much
as I had hoped. General
department good. Indus-
trious. Wrote letter every
month.

June 1902.
Gladys Holman began the
year by reviewing addition
and subtraction. She learned
the X tables. And so as
she could multiply any

thing, like 48 & 91 X 386
Worked a long time
on short division but
cannot divide independ-
ly yet. She has read
through Baldwins
2nd Reader. And about
half through the Hiawatha
book. Has had good
spelling lessons. Her
writing is very much
improved. Has written
letters every month.
Learned several recitations & memory
gems.

June 1902.
Annie Lockstad has
added 30 words to her
speaking vocabulary
this year. Can write
and spell any word
she speaks. Learned
to count to 10. make
numbers & write them.
Knows the colors white
black - blue - yellow
green. Can get them
also write the words on
b.b. Combined many
new sentences using
old list of words.
Drawn eight or ten pictures
on b.b. during the year.
Department has been
good.

June 1902.

Clara Patzold at the beginning of the year knew how to combine numbers by counting objects, but she seemed to get no further. So I tried a new plan, teaching her the addition Tables She has learned the nine tables. But it is altogether memory work. When the new readers came in the fall, She tried the first reader - Has orderly finished it, Spells better, Knows how to study now. Writes her spelling on paper - Her writing has improved. She wrote letters every month. Likes school work & is orderly.

June 1902.

Mary Poyanan has read through Taylors 1st Reader. She has spelled about five new words each day, so that her writing vocabulary has been increased. She has not advanced any in numbers - Writes better. Likes to draw & color pictures. Being an epileptic she will not advance much more.

June 1902

Dec Sept. Edith Poole reviewed Addition & subtraction. Then learned the X tables and did lots of work multiplying. Has learned what division and gotten a little start in long division. She has been absent some time - Read through Baldwins 2nd Reader. and about half through the Hiawatha Book. Her spelling is much improved. Writes well. Arithmetic a little better. Has written a few letters. Prepared some written work for exhibition.

June 1902.

Annie Schiepl finished No 1 Arith & and part 1 of No 2. The practical problems have been hard for her. but the routine rule work she has gotten nicely. She has completed Barnes 2nd Reader, and read half through the Song of Hiawatha. Her spelling has improved. She writes a much better letter. Sentences are formed better. Spelling has been quite good. Is interested in school work.

June 1902.
Laura Miller has been in school since January. I began teaching her the addition tables. She has learned six. Just memory work. Does nothing independently. Has read about fifteen lessons in the 2nd Reader - It takes her a week to learn six words. Do each lesson is taken out & new again. She writes a little plainer. Her letters are composed a little better.

June 1902.
Nicky Blanima has learned the addition tables. Can form them himself or answer orally. New Primers were adopted in the fall. They are as hard as any first reader. He has nearly completed the primer. Spelling four new words each day. He can compose & write his own letters now. Does not dictate them, any more. Writing has improved. Likes his school work. & is generally studious & well behaved.

June 1902.

June 1902.
Ray Ellis has completed during this school year No. I Arith. That includes all combinations with numbers to 20. Learned simple measures. Something about money. Has read nearly through Langlors 1st Reader - Spelling on an average of two new words a day. He is restless & not very quiet in school. Likes to draw but does not like to study. Has composed & written several letters without help this year - Writing has improved.

June 1902.
Willie Dillis has finished No. I Arith. this school year. That includes all combinations with numbers to 20. He has learned something about weights and measures. Can count money & recognize different pieces - He has read through Langlors 1st Reader - His spelling is very much better. Can compose & write his own letters now without help. Writes neat - Is lazy, and does not like to exert himself. Is quiet and orderly though. Has written letters every month.

June 1902.
Eugene Guernsey has learned the addition tables. But he has not made any real advancement in Arith. this year. He has read through "the Story of Hiawatha". His spelling has been good. Writes about the same as last year - Letters have been composed a little better. I think Eugene has about reached his limit in literary mak-

June 1902.
Jos Hatch has been absent a good deal this year. Jos began the year by reviewing U. S. Many - He has now completed No. 3 Arith. excepting some miscellaneous exercises that cover weights and measures. Also measurements. He has read through Hiawathas Story. And about half through the 2nd Reader this year. He has improved in spelling - Writes his letters without missing many words. His writing has improved, too. He remembers what he reads. His department has been good. And he is studious.

June 1902
Raymond Hill could add & subtract with numbers to 20. when school opened in September. He now adds numbers like these - 328 carrying numbers & 462. 535.
explaining questions. He has done a good deal of card work, and does practical problems when pronounced by teacher. Does not read well enough to get them from a book. He learned to tell time on a clock or watch during the year. He has read almost through Baldwins 1st Reader. He learned to spell on the average two new words a day. Can write a short letter for himself now. Writing has improved somewhat.

June 1902
Walter Johnson has made no real improvement in number work this year. Combines numbers, but has to use objects. He has read almost through Rad. Leaders 1st Reader. Has learned to spell a great many words this year. Can write spelling on b.b. without copying.

He has learned to write his own letters. Of course many words have to be corrected. He is the most disorderly boy in school. Just cannot keep from talking.

June 1902.

Elmer Johnson was such a slave to objects in combining numbers - that I changed his method altogether in September. He learned the first eight tables in addition. Of course it was purely memory & I dont know how it will last.

He has read nearly through the new Primer which is as hard as a first reader. Spelled an an average two new words a day. His writing is much improved. He still dictates and copies his letters.

June 1902.

Charlie Nelson has done exactly the same work in Arith. as last year. Adding & subtracting numbers to 20.

He has read nearly through Laylors 1st Reader. Has learned to spell many new words. Writes

spelling on b.b. Has learned to write his own letters this year. Being deaf is a great hindrance to his work.

June 1902.

Albert Riley learned the multiplication tables this year. Could multiply any kind of a question. Learned short division & had a good start in long division. He read through "The Diary of Hiawatha" and about half through Baldwins 2nd Reader. His spelling is better - And his writing is very much improved. He dramatized several concert recitations and memory gems. His attention to stories & object lessons was fine - Has been sick the most of this month.

June 1902.

Ignatius Stezenowski had drill drops in the full adding and subtracting numbers from 1 to 20. Later he learned to add 648, 321, 465 carrying numbers and explaining work nicely. He did practical problems also in addition

and subtraction. He has learned to tell time on a clock or watch. Has read nearly through Baldwin's 1st Reader. Learned to spell a number of new words. Reads with much more expression. His writing has improved. It is not so scrawly & large. He still dictates his letters. Is more attentive and does his seat work better.

June 1902.

Jos Sullivan learned the multiplication tables of 6, 7 8, 9 & 10. the first of the year. And noted many questions under them. This was supplementary to his book work. He had worked to Lee. 4 of No. 2 Arith. so he went back to that & has completed the book excepting the practical problems. He has prepared his Arith. & handed written paper to me every day. He has this year read through the 2nd Reader & half way through the 3rd. His spelling has been fine. Writing has improved. Composition work also. Indeed Jos has made decided improvement along all lines this year.

June 1902.

Charlie Swanson has made no advancement in Arith. He has worked all year on the addition tables. Learns one & forgets the previous one. He has improved in reading and spelling. Has read nearly through Baldwin's 1st Reader. Has had good spelling lessons. Learned on an average three new words a day. His writing is improved also. He can write a short letter for himself now.

June 1902

Floyd Ronald entered school the last of Sept. He was placed in a class working in U.S. Money. He has now completed No. 3. Arith excepting a few miscellaneous problems. He was able to do that work well. Reasoned the best in the class. He has read through "the Song of Hiawatha" and half through Baldwins 2nd Reader. Done well in spelling. Writing has improved a little. His letters are composed better & he writes a longer letter. Is a quiet well-behaved boy.

June 1902.

Frank Jewett has done addition and subtraction tables.
Used cards at seat. Counts objects to combine. Does not read enough to do boom work. He has read almost through Baldwins 1st Reader. His spelling & reading both show a decided improvement. Uses spelling helps at his desk. Writes better also, but does not write a letter independently yet.

June 1902

Vere Wilkinson entered school in January. He can write numbers to 50 now. Has learned the addition tables of 1, 2, & 3. Is very slow in Arith.
His reading and spelling have improved some. He has read nearly through Taylors 1st Reader. While he could say the words when he entered school, he was a miserable reader. Reads louder now and with some expression. His writing shows a little improvement. Does not write a nice letter yet. Cannot copy well. Is not a very quiet boy in school. Teases other children.

June 1902.

Alfred Schneider entered my school in January. He had drill work in addition & subtraction for a long time. Has since learned the nine multiplication tables. He learned to tell time on a watch or clock in one month. Has learned more in Arith. than reading. He has read about half through the Primer. Can spell about twenty words. Can form most of the written letters. Have tried to break up his corner writing. His deportment has been good.

June 1902

Leslie Harris entered school in January. He has done a good deal of work in addition - hand-work questions. Have tried to teach him to borrow and carry numbers in subtraction But he has not learned subperfectly yet. Learned a few of the multiplication tables. He has read through the 2nd Reader & about half through the 3rd. Done good work in reading

and spelling. He has learned to tell the time on a clock or a watch. His writing has improved. He can pass and write a letter and longer letter. He enjoys general information lessons & has gotten a good deal out of them.

June 1902.

Alvin Karp has advanced very little in numbers. He has learned the addition table of twos and threes and that is about all. He has improved in reading. Has read through Langlois first reader. Gotten good grades in spelling. His writing has improved. He is able now to compare & write his own letters. Likes to draw and I can hardly get him to study or do other neat work.

June 1902.

Claud McKinley entered my class the middle of march. He has been absent all of the month of June, so has not had much time to show what might be done.

He has worked about a third of the way through No. 2 Brith - work with numbers

to 100. Adding, subtracting & multiplying.

Reads very poorly. Read only three lessons in 2nd Reader - But read them over & over again. Spelled about 20 words. But they were repeated many times. Has not learned to write a nice letter yet. His writing has not improved any.
