-1900-
Sept.

Alfred Amundson
(Not present this month)

Harlie Brockway
Harlie has been working on a chair seat which he has finished, he then glued the boards for a clover leaf table top and has c[illegible]ved it, he has the table nearly together now.
Harlie has taken a good deal of interest in his work this month, he likes carving very much.

John Buckman.
John makes a fair braid, but is very lazy.

John Brady.
John has only been here one day will report him next month.

Eddie Cox.
Eddie is starting to braid enough for a mat alone, he makes a very nice, even braid, is quiet, and takes an interest in his work.

Pinney Cohen.
Pinney wants to make brushes, but makes a very rough brush, so we keep him braiding which he does very well.

Richard Clafin.
Richard is a very good boy to braid, he makes a nice even braid.

-1900-
Sept.

Ed. Demorest.

Ed has finished a table he started last month, he has started a chair. He takes a great interest in his work and wants to learn new things about it. He is pretty good at designing.

Albert Amerton

Albert is a very good brush maker, he will average about 3 sink brushes in a lesson. He seems to take pride in making a nice brush.

Albert Enger.

Albert makes a good braid keeping the strings in, and making it firm. He also makes a good brush.

Raymond Foote.

Raymond tried sewing but did not sew good this year, So started him on brushes and he does first rate.

Cedrick Fisk

Cedrick has been sewing this month and does most excellent work, in fact he is the only one whom I can trust to sew a mat right. He is inclined to be quarrelsome but when working at sewing he tends to his own work pretty well.

Ferdinand Frober.

Ferdinand does not get along very well, he makes a poor braid.

-1900-
Sept.

Willis Gifford.

Willis has been doing a number of things this month, he made the frame for our new grind stone, also some net work shuttles and mesh sticks. He understands his work about the best of any of the boys and takes a great interest in learning new work.

Eugene Guernsey.

Makes a fair braid but has to be watched or he will get only two strings at last. He is very lazy.

Gustave Haack.

Gus has braided nearly enough for a mat, he has about 25 yards, he takes a great interest in his work and makes a fine hard braid.

Joe. Hatch.

Joe is one of my best brush makers, he makes an average of 3 rice root scrubs brushes in a lesson, and they are even and the holes full of stock. He is very proud of his work and takes a great interest in doing it well.

Oscar Hagen.

Oscar is no good at any kind of work.

Ben Johnson.

Ben makes a very good braid.

Willie Lewis

Absent all month

-1900-
Sept.

Fred Mundt.
Fred makes a good braid or a good brush.

Orla Murphy
Orla makes a very fine braid, and is very much interested in his work, he keeps the 11 strings in and braids tight, he has started on enough for a mat to be made by him alone.

Albert Mason.
Albert works well if allowed to make a good deal of noise, he is one of my best brush makers, he makes an even full brush, he is a little inclined to be lazy but when he feels like it he can make 3 or 4 brushes in a lesson. He is proud of the fact that he can make such good brushes.

Ben Olson.
Ben Braids but not very well, he is quiet and does not bother anyone.

Edwin Olson.
Edwin can only roll string.

Ben Ostrander.
Ben makes a very good brush, he does not work fast ~~but~~ what he does he does well.

-1900-
Sept.

James Pakes.
James sewed mats but not well, then he made brushes but not well, now he braids and does that first rate.

Theodore Palmer.
Theodore is good at nothing.

Frank Parke
Absent all the month.

Nathan Rice.
Nathan Rakes a fair braid, but is inclined to be quarrelsome and lazy.

Bert Smith.
Bert started making brushes but did not make good ones. Now he braids but unless watched very close he will get too few strings.

Arthur Owen.
Arthur makes a very fine hard braid, he has started on enough for a mat to be braided by him alone. He seems very interested in his work.

Eddie Smith.
Eddie makes a fair braid and a fair brush. He has made both this month.

1900.
Sept. Chas. Swanson.
Chas. has made brushes, he makes fair ones. He is not a fast worker, nor does he keep his stock even at the ends. He seems very interested in his work.

Harry Stewart.
Harry makes a fair braid, he is very quiet and tends to his own work.

Eddie Wilkinson.
Eddie makes a fair braid.

Louis Weisberg.
Louis cannot even roll string unless it is picked up and handed him.
He needs to be watched continually or he will be bothering those about him.

Wm Winkleman
Wm makes a good braid if watched to see that the stringe do not run out.

1900
Oct. Harley Brockway.
Harley has made and finished a table this month and is working on a chair and bookrack.
He has worked very steady and does pretty good work, he is inclined to over do the carving on his models.
He has done some turning but not very much
He is a boy who tends to his work first rate.

John Buckman
John has been at work straightening stock this month. He is a fair worker.

John Brady.
John has made a few brushes but they were very poor. He is best at unbraiding old braids which are poor.

Eddie Cox.
Eddie has worked on brushes this month, he makes a pretty good brush, far better than he made at the start. He is a very quiet and nice boy. Made 7 Vegitable & 23 Sink brushes.

Pinney Cohen.
Pinney has made about 10 brushes this month. He makes a fair brush, the ends of the stock are not even, and he breaks the wire a good many times. Likes to boss the other boys when he can.

1900 Oct.

Richard Claflin.
Richard makes very good brushes but is very slow. He is quiet and bothers no one. He makes a very fine, nice even braid.

Ed. Demorest.
Ed has finished his round table, and has an ornamental hall chair nearly finished, his work is very good, and he takes great interest in it.

Alfred Einertson.
Alfred makes a very fine brush and gets along very well he is quiet and takes a great interest in his work. He kups the stock even at the ends and fills the holes full. Made this month 6 rice root, 22 sink brushes.

Albert Enger.
Albert makes good brushes but is slow. Only made part of the month has 3 sink brushes.

Raymond Foote.
Raymond makes fair brushes, he fills them full but the ends are not very even. He has made 3 rice root & 8 sink brushes but has been over only part of the time.

Dedrick Fisk.
Dedrick makes a fine brush he has only worked on them 3 days & has made 2 rice root, 2 sink & 1 Wall brush. He sewed mats all the first part of the month, he does that very well
Seems very interested in his work.

1900 Oct.

Ferdinan Frober.
Ferdinan does not make a good braid, have not tried him on brushes yet but shall soon. Quiet and does not give much trouble.

Willis Gifford.
Willis does nearly all my turning and does it well. He takes hold in a good manner and is very much interested in learning new methods and new ways of finishing work. Never gives me any trouble but is always watching for ways to help.

Eugene Guernsey.
Eugene is a fair brush maker and a good braider. He is rather lazy but works pretty well, is a little inclined to be sulky if he cannot have his own way.

Guss Haack.
Guss is a quiet steady worker, he has learned brush making this month and does very well. He is not a swift worker but goes slow & sure.

Joe Hatch
Joe is a splendid brush maker, he takes hold on any new brush and gets right along with it. He has made 45 rice root scrubs, 12 bottle brushes 2 sample brushes & 5 rice root for farm, and for the last few days has been working in the shop. Joe is quiet and takes a great deal of pride in his work.

-1900-
Oct.

Oscar Hagan.
Oscar has just learned brush making, he makes a good brush and seems interested in his work.

Ben Johnson.
Ben makes fair brushes, is very quiet and interested in his work.

Fred Mundt.
Fred makes fair brushes, the ends of stock are not very even and the wire broken several times.

Orla Murphy.
Orla makes fair brushes, he is very much interested in his work and keeps at it steady.

Albert Nason.
Albert is a good brush maker but a little lazy. He has been outside a good deal this month.

Ben Olson.
Ben makes a good braid is very quiet and seems interested in his work.

Edwin Olson.
Edwin makes a good braid.

Ben Ostrander.
Ben is slow but makes a very good brush he has improved a good deal this month.

1900
Oct.

Jas Oakes.
Jas makes fair brushes, he has been in the store room and outside nearly all the month.

Arthur Owen
Arthur has been absent all the month.

Theodore Palmer.
Theodore makes a poor braid runs down to only one string and then knots that. Have not tried him on brushes yet but shall soon.

Nathan Rice
Nathan has sewed mats this month, he does this very well.

Bert Smith.
Bert makes a poor braid and a poor brush, he does not fill the holes full and the ends are very uneven. He seems to know how all right but cannot do it.

Eddie Smith.
Eddie makes a fine brush, he has made 23 sink 1 rice root for farm 2 rice root scrubs.

Chas Swanson.
Chas makes very good brushes, I have tried him in the shop on some carving but he made very poor work of it shall try him farther this next month.

1900-
Oct.

Harry Stewart.
Harry can do very little, we tried him on brushes but did not get any results.

Eddie Wilkinson
Eddie can unbraid and straighten brush stock but that is all.

Louis Weisberg.
Louis can straighten stock if some one watches him to keep him at work.

Wm Winklemeyer.
Wm can straighten stock.

All the boys seem to take a greater interest in their work, they will most of them work quitly and well whither watched or not, and most of them seem to improve in the quality of the work done.

Nov. 1900

Harley Brockway.
Harley has made 3 Book racks and started a corner shelf. He has not been very steady at his work this month, he wants to start a model and then do something else.

John Buckman.
John has started making brushes after several trials and now is getting along first rate, he makes an excellent brush for a beginner.
Made 2 Dr. Bars scrub brushes in a week.

John Brady.
✓ John can not make brushes nor do any of our work.

Eddie Cox.
Eddie has worked on brushes, but does not make a very good brush as he can only use one hand. He is a very steady, nice, quiet boy.

Pinney Cohen.
Pinney makes a very good scrub brush, on finer brushes he does not do so well, he has worked very steady this month.

Richard Claflin.
Richard is a good brush maker, he is a steady worker but very curious to see how everything is done. Made 11 Scrub 6 Vegitable 2 Sink.

Ed. Demarest
Ed finished his chair and did a very creditable job of it, and is very proud of it.
He is a good worker.

1900
Nov.

Alfred Emerson.

Alfred has made brushes, he is one of my best brush makers. He is a steady worker but rather slow. Made 13 Scrub brushes.

Albert Enger.

Albert has been absent a great deal, he makes a good brush. Made 2 Scrub brushes.

Raymond Foote.

Raymond makes very good brushes, he is a pritty steady worker. made 16 Scrubs Brushes.

Cedrick Fisk.

Cedrick is a fine brush maker but also very lazy and very cranky. He likes to work about five minutes at a time on any thing and then go to some thing else. 1 small rice root 3 wall 1 Scrub.

Ferdinand Krober

Ferdinand does nothing but try to bother other boys. He cannot make brushes.

Willis Gifford

Willie is my best worker, he is always willing to help on any work there is to do.
He does practically all the turning we have.

Eugene Guernsey.

Eugene makes good brushes, he is pretty steady and works fairly fast. 2 R.P. Cow 6 M. Bass 2 Rice Root 7 Vegitable

Gus. Haack.

Guss is a very steady worker and does very nice work. 10 Rice Root 1 Vegitable.

1900
Nov.

Joe Joe Hatch.

Joe has been working most of the month in the shop on a tray, he does fairly good work and keeps at it pretty steady.
He made 7 brushes to help out on rush orders.

Oscar Hagan.

Does nothing, have tried him on brushes several times but he does not learn how they go yet.

Ben Johnson.

Ben makes good brushes, is quiet and tends to his own work very well.

John. Johnson.

John makes a very good brush, he is quiet, and a steady worker. 7 Scrub 2 Cow.

Fred Arndt.

Fred is a poor brush maker he breakes his wires very much, he talk a great deal more than he works.
3 Scrub 5 Vegitable.

Orla Murphy

Orla makes good brushes and is a steady worker
2 Cow. 4 M. Bass 1 Rice Root 5 Vegitable.

Albert Mason.

Albert has not been able to do much on account of his sore hand & wrist.

Ben Olson.

Ben is started at brushes and is doing very good work. 1 M Bass 5 Vegitable.

1900
Nov.

Edwin Olson.

Edwin makes a fair brush ~~but is too lazy to try to do much~~. and is quiet and steady.

Ben Ostrander

Ben makes good brushes he is a quiet steady worker. 1 Wall. 3 Mn. Bass 2 Rice Root 3 Vegitable.

Jas Cakes

Absent all month

Arthur Owen

Absent All month.

Theodore Palmer

Tried him on brushes several times but he cannot do any thing.

Frank Parke

Frank has been working on the drawing of the towel roller, also helped on a rush order of brushes. He is a pretty good worker but slow to get any explanation through his head.

Nathan Rice

Nathan makes the best scrub brushes of any of the boys. He is a pretty steady worker. 3 Rice Root 2 Mn. Bass 1 Wall.

Bert Smith.

Bert makes a fair brush, he is very slow, and inclined to be sulky if he cannot have his own way. 3 Rice Root 1 Mn. Bass.

Eddie Smith

Eddie makes fair brushes but is very slow and a little lazy. 1 Mn. Bass 4 Rice root.

1900
Nov.

Chas. Swanson.

Chas. makes good brushes and is steady and quiet. I tried him in the shop but he did not prove to be much of a worker in that line of work.

Harry Stewart

Harry cannot make brushes.

Eddie Wilkinson.

Eddie cannot make brushes.

Louis Weisberg

Louis does nothing.

Wm Winklmeyer.

Wm does nothing.

Ed. Reisswig.

Ed makes good brushes, but is a little quarrelsome. Tried him in shop but he cannot read a rule so put him in the brush room after spending two week trying to ~~teach~~ him $\frac{2}{4} = \frac{1}{2}$ inch.

The boys seem to be settled down to their work pretty well now, moost of them are doing better than they did last month.

They all seem to take a good deal of interest in their work and are proud to show it as theirs.

January 1901

Harley Brockway

Harley has been absent all month

John Buckman

Has worked quite consistently at braiding & brushmaking, he is not very troublesome and does his work quiet well.

John Grady

John does not do much of anything he does some of the unbridding of poor mat-ropes and will not let-up until he is through with it.

Eddie Cox

Eddie does some of the nicest and best work in the line of braiding and brushmaking you could expect for his condition he is also very quiet and conscientious about his work.

Pinney Cohen

Pinney being very strong in the hands makes a strong brush but he breaks the wire a good deal he makes a very tight-but uneven braid. His deportment is fair.

Richard Claflin

He has made principally brushes this month and done some braid work. a trifle lazy and inattentive He is very easy to get along with

January 1901

Eddie Demorest

Eddie has been severely handicapped by the absence of Mr Gilmore he was when Mr Gilmore left working on a large magazine table he has suspended work on it-until he has some more substantial knowledge about it than I can give him learned then he will finish it.
He has done odd jobs with the machines Confidence is the principle factor in his work. His deportment is Excellent

Alfred Emerson

He goes about his work with a will does it well, is not lazy, just a little slow and a good shop boy he has made radiator and scrub brushes that are very nice

Albert Engel

Albert likes to work in the shop making brushes he does not like braiding he makes a fair brush is not-lazy and not quarrelsome

Raymond Foote

This boy makes good brushes is not lazy of good deportment-and willing to do anything you tell him he has done some braiding

Dedrick Fisk

Dedrick has done no brush or braid work this month He worked very diligently on his models and does very well not lazy and very good this month

January 1901

C. Frechmay

This is a new boy rather lazy and has only been to the shop long enought to start to braid he is a very quiet boy.

Ferdinand Frobes

Ferdinand dosn't make a good brush makes when watched a very good braid is not quarrelsome and he is just a little lazy.

Hellis Gifford

He would not have done much fancy work this month without Hellis he has arisen to every immergency made all the radiator brush backs, did some turning and he also made some picture frames he has ben invaluable to me in shop necessaries. he does his work well and his own words explain "I have a chance to learn something and I am going to take advantage of it."

Eugene Furmon

Eugene makes good brushes and he is a very speedy worker he likes to play but withal a good shop boy.

Gus Haack

Gus is a very quiet and neat worker he has varied in braiding and brush making and keeping the shop clean his brushes are quite good and likes to show them.

January 1901

Joseph Hatch

Joe has worked on his models all month he has made a potato scoop and pencil tray which are good the former he hasn't finished yet the latter he has given the Superintendant. Joe has one good quality about his work. he is first sure of what he is doing then he works diligently tiel it is finished Joe is a quiet nice boy.

Oscar Hagen

Does about the least of any boy in the shop he embraids some and not much of that unless he is watched he is troublesome if nobody is around to watch him.

Bennie Johnson

Bennie always runs for a place to make brushes when he gets to the shop and he selects a corner seat and works well and what he does he does fairly well His deportment is good.

John Johnson #2

This boy makes a good brush and is now learning to braid since he has became acquainted he has been a little quarrelsome but withal he is a good worker.

Fred Munde-

Has done well, works diligently is easily disturbed and he isn't lazy

January 1901

Orla Murphy

Orla makes a fair brush a better braid and works all the time he likes to do his own work day after day and takes pride in shoving his work His deportment good

Albert Nason

Hasn't been with us much this month but what he did was well done and conscientiously executed

Jens Olsen

Does very good work making brushes is quiet and works steady

Edwin Olsen

Edwin has made good brushes but braids better I keep him at the latter mostly and he is quiet and not annoysome

Dennie Oftrander

Makes very good brushes and he stays at it all the time he is quiet and not lazy he has made considerable brushes this month

Theodore Palmer

He is a very erratic worker does not do very substantial work and is very stubborn

Francis Parke

Has not done much but draw a roller this month he likes model work and does fairly well

Jan. 1901

Nathan Rice

Nathan has made some good and some poor brushes did some braiding is very quarrelsome but not lazy and his canning shop work very fast

Bert Quick

Bert has made good brushes but he is braiding just now he braids very good is stubborn at times and just a little lazy

Eddie Quick

I consider Eddie the best brush and braid maker in the shop he works steady is not lazy and is a very nice boy

Chas Swanson

Chas is a very fast worker works well at the brushes and likes to see how much he can do He is a model boy in deportment

Harry Stuart
Louis Weisberg
Eddie Wilkinson
Willie Winkleman

These boys do scarcely anything the unbraid poor braids and do odd jobs straightening out stalk Eddie Wilkinson make a fair braid and if watched does fairly well All these boys are quiet

James Oakes

Has done some mat sewing this month

January 1901

In summing up the months work I can say that while we were handicapped by Mr Gilmore's absence we have gotten along fairly well, and have not wandered very aimlessly in trying to do the best we were capable of.

To much credit can not be given Willis Gifford for his work and the general knowledge of the shop what he has learned and picked up. he has helped Dedrick & Joe with their work and given me while there substantial help.

All the boys have worked faithfully and quite well.

Some have done excellent work Others accomplished a little doing something and we all have found no idle moments.

(Report for January by Mr Whelan)

December 1900.

I will only make a general report for the month as I do not remember each boys doings in particular.

All the boys worked very well, a great many made a brush or some small thing for Xmas.

The boys were learning to rely upon themselves more each day and the department was greatly improved.

I cannot speak to highly of Willis Gifford's work, I don't know how I should ever have managed to get out all the Xmas orders if it had not been for him.

Ed Demorest & Joe Hatch both helped me a good deal too.

1901
Feby.

Harley Brockway.

Part of the time Harley works well and the rest he simply loafes. He has finished his chair that was started in Oct. He is now working on a long Piano stool and is doing first rate so far on it.

John Buckman.

Absent all month.

John Brady.

John has cleaned up the shop lately and worked at rebraiding poor braids is good at this. Deportment Good.

Ed. Cox.

Ed is very good at braiding and has worked at it most of the month. Deportment Good.

Pinney Cohen.

Pinney makes a fair braid and a good brush. Pinney likes to boss. Deportment Fair.

Richard Claflin.

Richard makes good brushes and a pretty good braid. He does not like to hurry, and liked to have his nose in every thing going on. Deportment Fair.

Ed. Demorest.

Ed is working, when here, on a chair also on any small jobs that come in. He is a good worker and takes an interest in his work. Deportment Good.

Alfred Emertson.

Alfred is good on brushes and fair on braid. He is rather lazy and wants a good deal of watching. Deportment fair.

1901.
Feby

Albert Enger.

Albert has been absent most of the month, he makes a good brush. Department Good.

Raymond Foote.

Raymond makes a good brush and a fair braid He does not like to hurry too much but is a pretty good boy. Deportment Good.

Cedrick Fisk.

Cedrick has helped me a good deal this month as he has bored all the brush backs we have had he takes a great interest in running the boring machine and does good work. Deportment Excellent.

Ferdinand Froeber.

Does no work.

Chas Fruchtman.

Don't know how to use his hands.

Willis Gifford.

Willis is my right hand helper. He has been working on order work all the month mostly turning and finishing brushes. Deportment Excellent.

Eugene Guernsey.

Eugene has been braiding on a mat he is going to braid enough alone. Deportment Good.

Guss Haack.

Guss has been braiding part of this month, we have an order for 6 mats and he is making one. Deportment Excellent.

Joe Hatch

Joe has been working on order work all month part in good brushes & part in shop. Very interested. Deportment Excellent.

Feby 1901.

Oscar Hagan.

Oscar does nothing. Department fair.

Ben. Johnson.

Ben. has been braiding this month does fairly well Department fair.

John. Johnson.

John. has been braiding does good work. Is very quiet.

Fred Arndt.

Fred makes good braid but has to be watched to keep him working Department fair.

Orla Murphy

Makes good brushes and good braid, is a good worker. Department Good.

Albert Nason.

Absent all month.

Ben Olson

Makes good braid, is a fair worker. Dep. Good.

Edwin Olson.

Makes good braid. is a good worker. Dep. Good.

Ben Ostrander

Makes good braid and brushes. is a good worker Dep. Good.

Jas Oakes.

Is a ~~poor~~ fair Brush maker. Dep. Fair.

Theodore Palmer

Braids but not very good Dep. Fair.

Frank Parke

Absent all month.

Nathan Rice

Fair brush maker and fair braider good to sew on mats Department Fair.

Ed Reisswig.

Makes good braid. Dep. Fair.

Bert Smith

Fair braider or brush maker, very stubborn and lazy. Dep. Good. Likes to run errands.

Ed. Smith.

Fair braider but does not like to work.

Chas Swanson.

Good brush maker & fair braider, a good worker.

Harry Stewart.

Does nothing.

Ed. Wilkinson.

Makes fair braid.

Wm Winklemeyer.

Does nothing but unbraid.

The boys have done first rate this month. We have not made many brushes, beside radiator brushes.
Have had most of the boys braiding as we have orders for several mats.

March 1901.

Harley Brockway.

Harley has completed the long piano stool and nearly finished a plate rack.
He is doing extra good work this month.
I have been allowing him his afternoons to work on frames if he works good in the morning, and this has had a good effect on his work.

John Brady.

John works at unbraiding and does first rate.
He has to be started at work at the first of every lesson, as he does not seem to know enough to start himself.

Eddie Cox.

Eddie has been braiding all month, he does very good work for him. He is quiet and the most polite & gentlemanly of any of the boys.

Pinney Cohen.

Pinney has worked on braids and on brushes this month, he does fairly good work.
His deportment is good.

Richard Claflin.

Richard makes good brushes but is very lazy and has to be watched a good deal to keep him at work.

Ed. Demorest.

Ed is a fine worker he seems to understand the directions about his work and then goes at it and follows the directions.
He has finished a chair this month and has made a very creditable piece of work of it. He has also made a white enamel stand for the Hospital, which is very good.

March 1901.

Alfred Emerson.

Alfred has been loafing a good deal and braiding a little this month.
I cannot understand him at all, as before Xmas he was a good worker, but since then he seems not to care.

Albert Enger.

Albert is absent most of the time. He makes a fair brush.

Raymond Foote.

Raymond makes a good brush and has made a good many this month.
He has to be watched pretty close or about every 10 minutes he will be off talking to some other boy.

Dedrick Fisk.

Dedrick has been boring brushes all the month, he does very well at this and likes it the best of any work he can do in the shop.

Ferdinand Frocber.

Ferdinand has now found out that he can unbraid and works very well at it after he gets started.

Chas Fruchtmann

Chas. has also found out how to unbraid and does well if started but he will not start himself.

Eugene Guernsey.

Eugene has braided enough for a large mat he does very good work, he is now learning to sew mats. It takes 106 feet for a large mat.

March 1901.

Willis Gifford.

Willis has finished a table for his mother, he furnished his own wood.
He has also done all the turning which has been no small item, he does excellent turning and does it quick, he also understands drawing first rate.
I don't know what I would do without his help.

Gus. Haack.

Gus has been braiding this month he does very good work. He braided one mat and part of an other. I shall put him back at shop work as soon as we get caught up a little on mats.

Joe Hatch.

Joe has been working on a little of everything and doing it all well.
He has finished up a lot of polisher handles, made some brushes, and while his shoulder was lame he braided nearly enough for a mat.
Joe is a good worker and very willing to do what he can to help.

Oscar Hagan.

Oscar unbraids poor braids and does pretty well.
He cannot braid or make brushes.

Ben Johnson.

Ben makes a fair braid. He works first rate and does not need watching very much.

John Johnson.

John makes a good braid and works right along without being watched. I think he is one of the best boys in his class.

March 1901

Fred Fundt.

Fred makes a fair braid, he has to be watched most of the time or he will be up looking out of the windows or trying to get in to trouble with some of the other boys.

Orla Murphy.

Orla makes a good brush, but works rather slow. He tends to his own work and bothers no one.

Albert Mason.

Albert has been running the boring machine all this month, he does first rate.

Ben Olson.

Ben has been braiding he does first rate.
He is a very quiet boy and bothers no one.

Edwin Olson.

Eddie makes a fair braid. He is a good worker.

Ben Ostrander.

Ben makes makes a good braid. He is a fair worker, quiet and steady.

Theodore Palmer.

Theodore makes a fair braid, he is quiet and tends to his own work first rate.

Frank Parke.

Frank has only been over a few days, he sews mats first rate, also braids first rate.

Nathan Rice

Nathan has braided enough for a mat. He has also helped to sew one. He does very good work.

March 1901.

Ed. Reissoig.

Ed is a fair braider, he is rather lazy and quarrelsome but by watching him rather close we get fair work from him.

Bert Smith.

Bert makes good brushes and works first rate.

Ed. Smith.

Ed is a good braider but very lazy and will only work when watched closely.

Chas. Swanson.

Chas makes good brushes and works pritty well.

Harry Stewart.

Harry unbraids and that is all.

Eddie Wilkinson

Eddie unbraids

Wm Winklemeyer

Wm unbraids.

As a whole the boys work is very satisfactory they seem to be interested in their work and most of them work very independently.

April 1901.

Harley Brockway.

Harley is working on a table for the Pan American Expo. and is making a very good table so far.

He is a boy whom you have to watch all the time or he will be off on some other work.

John Brady

John is a good bgy but can do no work ycept to unbraid.

Eddie Cox.

Eddie is a good boy and does very good work, at braiding, for one with his hand.

Pinney Cohen.

Pinney makes a fair braid. He is a boy who likes to boss the others.

Richard Claflin.

Richard makes a good brush and keeps at his work prettty steady. He always wants to know all about every thing going on around the rooms.

Ed. Demorest.

Ed is one of my best workers, he finished the chair that he was working on, also some frames now he is working on a chair (Flemish style) for the Pan. American Expo. he does very good work and works without having to be watched.

Alfred Einertson.

Alfred is one of the laziest boys I have he has to be watched all the time to have him work at all.

He can do good work if he wants to though.

April 1901.

Albert Enger.

Albert has been here but a few days he is out scrubbing most of the time.
He makes a fair brush.

Raymond Foote

Raymond makes good braid or good brushes or sews mats fair.
He has worked on all these while here this month.

Dedrich Fiske.

Dedrich runs the boring machine boring brushes and does very good work. He does not like to work on braid or brushes.

Ferdinand Froeber.

Ferdinand does no work while here.

Chas Fruchtman

Chas does no work while here.

Willis Gifford.

Willis is one of my best boys he can do almost any work that I set him doing.
He does all the turning and does it well.
He is getting out 4 block frames for the Pan American Expo.

Eugene Guernsey

Eugene has been braiding this month, he has braided enough for a mat and braided it extra well.
He tried to learn to sew mats but did not get on very well.

April 1901

Gus. Haack.

Gus has braided all month he makes a good braid and works pretty fast. The only fault I have to find with Gus is that he likes to view himself in a glass just a little bit better than to work.

Joe Hatch

Joe is a good boy and one who can be trusted he has braided two mats and made a lot of brushes beside helping with the shop work quite a little.

Oscar Hagen.

Oscar does practically nothing.

Ben Johnson.

Ben has braided and does fairly well he is quite and troubles no one.

John Johnson.

John is one of my best boys he is a quiet steady worker and a boy that I would trust anywhere. He has been out side a good deal this month. but He braids while here.

Fred Arendt.

Fred has braided this month, he is a boy who requires constant watching.
He is always looking for a chance to get up a quarrell with some other boy.

April 1901.

Arla Murphy.

Arla is a good worker he has made brushes all month and done very well He is quiet and a stidy worker.

Albert Mason.

Albert has run the boring machine and helped with shop work a good deal. He is a good worker after he gits started.

Ben Olson

Ben makes a good braid, he is a quiet steady boy and gives very little trouble.

Edwin Olson.

Edwin is a good braider, he is a quiet steady boy and gives very little trouble.

Ben Ostrander

Ben has been braiding he is rather slow but does good work.

Jas. Oakes.

Jas has sewed on mats when here He does not do any kind of work well, but does best on mats.

Theodore Palmer.

Theodore makes a good braid, he is a steady worker and quiet.

Frank Parke

Frank sews mats and does it well, he is a steady worker. He can also make brushes or braid well.

April 1901.

Nathan Riel.

Nathan sews on mats and does the best of any of the boys. He is a boy who has lots of trouble on account of talking so much.

Ed. Reisswig.

Ed makes a good braid and when he is a mind to can make it fast.

Bert Smith

Bert makes a fair braid. I have some trouble with Bert's taking some of the others braids that are longer and better than his, he does this to make me believe he is working hard. He is a good boy to run errand if you are not in a hurry.

Eddie Smith

Eddie is very lazy, he has to be watched continually to keep him at work.

Chas Swanson.

Chas does very good work at braiding or on brushes, he is quiet and a steady worker.

Harry Stewart
Eddie Wilkinson
Wm Winklmeyer.

These boys do practically no work while in the shop.

The boys as a whole have done very good work this month there has been an improvment in most of the work over last month. Luther Cole is taking right hold in the work and does very good work for a starter.

May 1901.

Harley Brockway.

Harley has worked very well this month. He finished the table for the Pan American Expo. and had a very good table out of it. He has also done a good deal on general order work since.

John Brady.

John does practically nothing over here.

Eddie Cox.

Eddie has been braiding most of the time. He has made one clothes Brush He does very good work.

Pinney Cohn

Pinney has been braiding most of the month and does very well. He is a good boy to work.

Richard Claflin.

Richard has made brushes and braided, he does very well at either.

Luther Cole.

Luther was here only 1/2 of the month, he has worked on models and on order work, he made all the boxes for the blocks for the Kindergarten, beside 1 Picture frame He does very good work for a beginner.

Ed. Demorest.

Ed finished his chair for the Pan American Expo and did a very good job.
He has been working on general order work since and has done a good deal.

May 1901.

Alfred Emertson.

Alfred has braided all month, he makes a good braid but has to be closely watched to keep him at work.

Albert Enger.

Absent over half the time.
When here he has braided and does very well.

Raymond Foote

Raymond has served mate all month, he does this very well.

Dedrick Fisk.

Dedrick has bored brushes all the month and does very well.

Ferdmand Froeber

Ferdinand does nothing but bother the other boys.

Chas. Fruchtman.

Chas. does nothing but bother the other boys.
I wish I did not have these two boys as I can get absolutly no work out of either.

Willis Gifford.

Willis has turned out two pair of Indian clubs for the Pan American expo. also several napkin rings. He has made several block frames and all the turning that has come in.
He has turned out 1 doz Darning balls this week.
He is an earnest, fathful, worker and the only boy in the shop who will go ahead and work all day without being watched or [redacted] spoken too.

May 1901.

Eugene Guernsey.

Eugene has made both braid and brushes He does both well. He works about 1 hr. and then wants to fool around the balance of the lesson.

Gus. Haack

Gus is a good worker he makes a very good braid and braids about the fastest of any of the boys.

Joe Hatch.

Joe has been making Clothes & Crumb brushes this month and has got out some very fine brushes.
Joe is a very fast and good worker.

Oscar Hagan.

Braids but not does not do it well.

Ben. Johnson.

Ben braids and does it well.

John Johnson. #2.

John is one of the best boys who come over here he braids or makes brushes. Absent most of the month.

Fred Mundt.

Fred braids and does fairly well.

Orla Murphy.

Orla makes brushes and braid and does well at both.

Albert Mason.

Albert makes brushes and bores backs he does very good work at either.

May 1901.

Ben Olson.

Ben makes a good braid. is a quiet steady boy.

Edwin Olson.

Edwin ~~is~~ makes a good braid and is a quiet boy.

Ben Ostrander.

Ben makes a good braid and gives very little trouble.

Jas Oakes.

Jas. sews mats when over here and does it very well.

Theodore Palmer.

Braids but does not make a good braid.

Frank Parke.

Frank has bored brushes, made brushes, braided and sewed mats, he is slow but does good work.

Nathan Rice.

Nathan has sewed mats all month, he is the best sewer I have.

Ed Russwig.

Ed has braided, he does first rate work.

Bert Smith.

Bert ~~is~~ has braided, he does first rate if he works.

Eddie Smith.

Eddie braids a very little if watched all the time

May 1901.

Chas. Swanson.

Chas makes a fine braider and is a steady worker.

Harry Stewart.
Ed. Wilkinson
Wm Winklemeyr.

These boys do practically nothing in the shop.

The boys as a whole have done first rate this month.
Their work seems to be improving right along and they work a great deal more independently than they did at the beginning of the year.

June 1901.

Harley Brockway.

Harley shows quite an improvment in his work, especially in the finishing of it up.
He gets about ⅔ done on a piece then gets tired of it but by watching him rather close I have got him so that he will finish the work up good.
He likes to do small work with a good deal of decorating on it.
He can do very good work when he has a mind to apply himself right to business.

John Brady.

John showes very little improvement during the year.
He unbraides poor braids and that is All.

Eddie Cox.

Eddie has improved a good deal in his work during the year.
Considering his lame hand he does about the best work of any boy and I am sure he is the most gentlemanly in his conduct.
He is the only boy who always excuses himself when he passes before anyone.
He is always very proud of his work and tries to get each days work better than the last.

Pinney Cohen.

Pinney showes an improvment in his years work.
He is a very steady worker while in the shop, and is very proud of his work.
He makes good braid or brushes.
He likes to sweep the shop but does not sweep Clean.

June. 1901.

Richard Claflin.

Richard shows a big improvement in his years work.
He likes to make brushes best and when he tries he can make a very good brush.
He is very slow and prefers to watch some one else work.

Luther Cole.

Luther is one of the best workers in the shop considering the time he has been here.
He tries to do better work on each model after making a few models I started him on order work and he took hold first rate.
In a very short time I believe he would become the very best worker in the shop. as he pays strict attention to details and this is what counts.

Edwin Demorest.

Ed has made great progress this year. He is very much more independent in his work than he was.
He has taken up more advanced work than he did and has completed some very fine work, some that High school boys might be proud to call theirs.
He has learned carving in several branches and does very well at it.
He is very proud of his work and tries to get each piece better than the last.
He does not like general order work unless it is to go to some individual.

June 1901.

Alfred Emertson.

Alfred made good progress up to Xmas but since then he has not advanced much.
He has been rather lazy since I came back and has to be watched to get much work out of him.
He is very tricky and will not do what he is told unless you watch him close.
He makes good brushes or braid.

Albert Enger.

Albert has not made much progress as he has been absent so much helping with the scrubbing &c.
He makes a very good brush when he is in the shop.

Raymond Foote.

Raymond has shown a good progress during the year.
He has made brushes & sewed mats most of the time.
His brushes are not quite as smooth as some but his sewing is very good.
He is not troublesome but tends to his own work very well.

Dedrick Fisk.

Dedrick has made great progress during the year.
The first part of the year he was sullen and did not want to work at anything but since Xmas he has taken hold and does first rate
He runs the brush back Boringmachine and bores brush backs very well.
He also makes very good brushes.

June 1901.

Ferdinand Froeber.

Ferdinand has made little or no progress this year, he can unbraid if watched very close, but as soon as you stop watching him, he is fooling with the other boys or with something in the room.

Chas Fruchtman.

Chas has made quite a little progress he could do nothing but laugh when he came over first, now he will unbraid almost the whole lisson without watching. He has made no progress at learing to braid or sew brushes.

Willis Gifford.

Willis has made the greatest progress of anyone, he is the best worker in the shop.
He has done all kinds of turning and has done it well.
His bench work has been very satisfactory on the whole.
He can read a drawing very good now which he could not do at the beginning of the year.
If he had a good lathe to work on I believe his work would equal that of most boys in the High School M. T. Classes.
He tries to follow directions given him for his work, is one of the places where he gains.
If it was not for his trouble I believe he could go out & get a position as wood turner in a factory at about $1.50 or $1.75 per day.

June 1901

Eugene Guernsey.

Eugene has made quite a little progress
He has an idea now of tending to his own business which he did not have at first
His work has been very satisfactory in every way.
He makes good brushes or braid and has done some work sewing mats but has not got it down fine yet as some of the boys have

Gustave Haack.

Gus has made fair progress, he has learned to make brushes and does first rate at it, he also braids very well.
I tried Gus in the bench work but owing to orders coming in faster than we could fill them I had to put him back in the brush room.
He is not very good at bench work.

Joe Hatch.

Joe has made very fair progress during the year.
He has helped out many times on general shop orders and does first rate, on model work he does not do quite as well.
He is the finest worker I have had on brushes and braid.
He can make any kind of brush and do it the very best.
I have had him working on brush orders a great deal.
He is always very proud of his work and likes to get a great deal done.

June 1901.

Oscar Hagan.

Oscar has improved some but not quite as much as some other boys.
He is very quiet and does very good work on the braids unbraiding.
He does nothing at brush making.

Ben Johnson.

Ben has made pretty good progress during the year.
He is very quiet & works very steady.
He makes very good brushes & fair braid.

John Johnson. #V

John has made good progress during the time he has been here.
He is one of the boys that I can trust anywhere he is quiet and a good worker.
He would make a splendid man to work on a farm or at some work of that kind because whether anyone is around to watch him or not he will work right along.
He makes good brushes or braids.

Fred Arndt.

Fred does better than he did the first part of the year.
He has to be watched most of the time to get much out of him.
He would lots rather watch some other boys or get up a word fight with them than work.
He makes good braid or fair brushes.

Orla Murphy.

Orla has made very little progress during the year, he made fair brushes

Orla Murphy (Cont.)

June 1901

or braid during the first of the year and he does about the same work now and does it about the same.
He seems capable of no further development in the shop work.

Albert Mason.

Albert has made very good progress during the year.
His work has improved in every way.
He makes a very good brush and can bore the backs very well.
He is pritty good on rough shop work but does not do very well on a piece to be finished up real nice.

Ben Olson.

Ben does very little in the work, he makes good braid but does it very slowly
His brush work is very poor.
He is a very quiet boy and troubles no one while at the shop.

Edwin Olson.

Edwin has made fair progress, he is very good a braiding and fair on brushes.
He is a very quiet boy and one who tends to his own work.

Ben Ostrander.

Ben has made fair progress, but not as much as some others.
He is quiet and does good work, but works very slow.
He makes very good braid or brushes.

June 1901.

Jas. Oakes.

Jas. has made very little progress during the year. He could make fair brushes and sew mats fairly well the first of the year and that is about all he does now.

Theodore Palmer.

Theodore has made quite a little progress he can braid very well when he wants to or he can do about as poor as any one sometimes
He is no good on brushes but braids first rate, is very quiet & trouble some.

Frank Parke

Frank has made very little progress.
He can make brushes very well and braids quite well.
He is a very slow worker you would almost think he was asleep some times he moves so slow.
He likes to bore backs but does it very poorly.

Nathan Rice.

Nathan has made quite a little progress.
His work on the whole is much better than it was.
He sews mats the best of any boy in the 3 classes.
He also makes very good brushes or braids.
This seems to be about the end of his training in the shop.
He always likes to quarrell while at his work but does first rate when I get him off in a corner by himself.

June 1901.

Ed Reisswig.

Ed made some progress, while here he learned to braid and do it well, also he learned to make the coarser brushes and he did this first rate.
On shop work he was a flat failure as he could not read the rule, so he could not work to measure.

Bert Smith.

Bert has made very little progress
He can make a fair braid or brush but not much better than at the first of the year.
He likes to run errands and does them very well.

Ed. Smith

Ed made little or no progress.
He made a very poor brush and braided so slow that you could not tell how good it might be if he got any done.

Chas. Swanson.

Chas, has made good progress, he has learned to make brushes and does very well at braiding.
He is very quiet and a good worker.
His shop work was not very good. so as we could not get out mats fast enough I put him to braiding.

Harry Stewart

Harry has made no progress.
He cannot make brushes & his braid is very poor.

June 1901

Ed. Wilkinson,
Wm Winklemeyer
These boys have made no progress this year. they are capable of no advance They do a little embraiding but not very much.

General.
As a whole I think the boys have done very good work.
Considering the kind of children we have I think the work turned out compares very well with brighter childrens.
We have been hindered a good many times with lack of material but have tried to keep on a piece of work until finished, when we could do this the work has been better than when we had to break in on it.
On account of orders wanted in a hurry I could not always work boys on work where they could learn much but as far as possible I have tried to keep them advancing on their work.
Of course those who only braid or made brushes do not show the advance as do the boys on the bench work.

H. L. Gilmore

Dept. 1901

Harley Brockway :- Harley has been in the shop but a few days since his vacation. Those few days he has worked on a picture frame he started last year. He has it nearly finished. He seems shiftless but he can do excellent work. He has no idea of order he wishes to work in a different place each time. He would do his work on a window case if he was allowed. He does not place his tools in their place when he has used them. He has no idea that every thing has its place. He often adorns his bench with his hat or coat as the case may be. He also has the habit of using other people tools rather then sharpen his own.

John Brady :-
John is a good natured fellow. He creates no disturbance nor does he do much work. He usually braids two feet of braid each day this is not of the best either. He has reworked on the brushes some. He does not do this work good. About one-fourth of a shoe-brush would be his limit each day.

Eddie Cox:- You have him detailed to the shop for all day He does not show hipu self only two periods. He works steadily but on account of his disability accomplishes little work

About one-fourth of a brush each day is his limit. This is not done well either.

Penny Cohen:- Penny works steddy but slow. He works lacking brushes. One brush each day is his limit. He faces them better each day. I can see an improvement in his work each day.

Richard Claflin: Richard is very much inclined to take life easy. He works on the brushes One a day would be all he could do. He works better now.

Ray Downey:-

Ray does but little work He has done some work with sand paper. He occasionally helps in sawing by holding boards etc.

Winifred Davis:-

Winifred has been absent seven day of this month. He has made ten models, six from Larson and four from Nadd These were made from drawings made by himself from directions. His models are made fairly well. He handles his tools fkrll and remembers suggestions. He also understands well. He also has bored some brush backs on the boring machine. He enjoys this.

Raymond Foote:-

Raymond worked the first two weeks of this month on brushes. One a day is all he can do. The last two weeks he has worked on the mats. He does better work here, and I think he likes it better too. With your permission I shall retain him at this work. He is unsteady and bears urging.

Ferdinand Trotter: —

Ferdinand is slow He usally has one or two play things each day. With these removed he works some. One half of a brush a day is his limit. This is very carlessly done.

He seems to be thinking of other matters each time He needs supervision all the time.

Charles Fruchman

Charles spends his time when he works, on the braid. He usally braids two feet each day. He is unsteady and must be urged if he accomplishes any thing in the line of work.

Willis Gifford: —

Willis does very good work in turning. He has turned 200 bed casters, 75 lace bobbins, 6 chair rounds, 9 file handles, 70 3. dasers for shoe brushes many other articles. He has also made one lace cushions, 8 picture frames brushes many other small articles. His work is good. He is careless with lumber tools, and about order He has made good improvement in this line. I think he is beginning to see the importance of this in his work.

He however has peculiar days. He is sullen and downhearted. If any thing goes wrog these days you can hear from him. On these occassions he will not use choice language. It would take only a little to arouse his pugilistic nature on these occassions. Seems to me at those times he shows more than a pig madness. It might be termed insanity in the mild form. At other times he is good natured and comfortable I think. He at all times shows an independent spirit and wishes to be treated on an equality with every one

Guernsy Eugene: —

Eugene is a good brush maker. In the last two weeks he has averaged six brushes each day. These are made well too. The first part of the month he was lawless and showed strong symtoms of lagziness. He has also made two models that were made fairly well.

Willie Gokew:-

Willie has been over to the shop only a few days. Not long enough for me to understand much of his nature. He braids all the time. He braids from 1/2 ft to 2 ft each day. We have to watch him or he will not use strings enough.

Hack Gusta.

Gusta is a willing worker. He has made eight models. Those were made fairly well. He handles tools well but has no power to think and plan. He can make a model by imitation fairly well. But tell him to get out a 6" by 6" he is lost.

Hatch Joseph:-

Joe is a good brush maker & braider when his inclination are such. On such times he will accomplish a good deal and do it excellent.

The last three weeks he has been making models he has made nine. As a whole they are not of the best. They were not made correctly. He places too much dependence upon the file and sand paper. It would be for his good to put

them out of reach. Some days he does not show the interest in the work that he should. The work on these occassions comes, as I think from force alone. He says he has made the models before, perhaps this is the cause.

He also has sullen days similar to Willis. On these occassions he is cranky and some what stubborn. He wants to be coaxed those days.

Hagen Oscar:-

Oscar does very little. I have spent periods of three consecutive days try to show him how to braid. It amounts to this a waste of my time. He however keeps his place and does not disturb any body else.

Johnson Bennie:-

Bennie makes brushes one a day is as many as he can make. Of late he makes a better brush. He is unsteady about his work and must be watched.

Mumm Fred:—

Fred began work this month by braiding. He used to braid three feet each day. He is now making brushes. One a day is all he can make. This is not made very well. He is improving slowly.

Stranden Bennie

Bennie's improvement in the last month has been very slow. I judged from general appearance he could learn to make models. He has made three one being a good one for him. He has learned to use a saw and plane. He has no idea to stop planning when he should

Olson Edwin:—

Edwin is a good braider He braides about three feet each day and does it excellent. He is quite and does not disturb any one.

Palmer Theodor:—

Theodor braides. He braides about 2 feet each day. He does this well. He is quick and orderly.

Rice Nathan:—

Nathan sews a lays mats. He takes a good deal of pains with his work. He is steady and comparatively easy to handle. He is also good natured. He has laid and sewed three mats within the last month.

Renssenig Edward.

Edward put a good effort in his work. It does not always manifest itself in his results. He made brushes the first part of the month, making about one each day. He has of late been working on the models. He has made three fairly good ones. He does not understand very well and forgets easily.

Smith Bert.

Bert is rather slow in his work. He has been making brushes. He makes 1½ each day. He makes a fairly good brush. He has braided some He has to be watched occassonally.

Stewart Harry.

Harry braids. He is a fairly good worker. He braids three feet each day. This is good braid too.

Winklemeyer Willie

Willie also braids. He is steady and quick. He braids about four feet each day. This is done good.

Wilkinson Eddie.

Eddie braids about six feet each day. He does it well. I have to urge him occasionally.

Louis Neisberg.

Louis has been to the shop only a few days. He braids from six inches to a foot is his limit. He is not a steady

worker. He likes to play and must be watched if he works a great deal.

George Nicholas:-

Nicholas is working on the brushes. He will lace about one half a brush each day Sometimes he has to relace this. He talks a good deal and likes to furnish amusement for us.

General:-

At the beginning of this month the boys had no concept that the shop work formed a part of their school. They thought it was a place of work rather than school. They had an idea that they could work when they pleased or play as they pleased. They argued that they worked and received no pay. They also thought they had the right of choice. They also thought that I was placed there to do the work rather than help them.

I have tried to correct

these ideas. In most of the individual cases I have succeeded. Jon Hatch hasn't this yet however.

Most of the boys do good faithfull work.

Edward M. Broderick.

Oct. 1901 Brockway Harley:—

Harley has been absent from the shop ten days during this month. While here he has done some repair work. viz. Repairing two floor Polishers Made three flower tops and one curtand roller. These were done fairly well. He has spent his time to-day in making a drawing of a chair. He wishes to make a chair for the exposition. He has made a drawing of a foot stool from the "Mass System". He has made one end. He does not show much interest in the bench models. He says he had made them all once.

His discipline is much better of late.

Oct. 1901 Brady John:—

John is a good-natured boy. He creates no disturbance nor does he do much work. In making brushes he will average one dauber each day. When he braids, a foot would be his maximum. He is steady however and deserves as good a mark as some who do more work.

Cox Eddie:—

Eddie is detailed for the shop all day, but comes only the two periods of the forenoon. He is a good natured and well behaved boy. He has made brushes this month but on account of his physical deformities accomplished little. He makes one dauber each day this is made fairly well.

Cohen Penny:—

Penny has made great improvement in lacing brushes. He makes a good brush. now. He is steady and makes from three to four daubers each day.

Oct. 1901

Claflin Richard:—

Richard has been lacing brushes this month. He makes a good brush One dauber each day is as much as he can do. He likes to take in every thing about the room. When doing this he forget his work. You have to remind him of his work, which he will resume for a short period.

Mooney Ray:—

Ray does but very little, he sometimes does small jobs such as spoiling up brush backs etc. He occasionally does an errand. He started to run the boring machine, and manifested a good deal of interest in it But the results he obtained led me to release him from this work.

Davis Winfred:—

Winfred has been absent ten days during this month. He has been working on the models. He has made a tool-rack, bench hook, flower pot stand, foot stool. These were made from drawings made by himself. He has also done some boring

Oct. 1901

with the boring machine. This he does well. He exercises great care in his work. He is reliable and agreeable. He is steady and obedient.

Foote Raymond:—

Raymond must be urged if he does much. The first two weeks of this month he sewed mats. He done better work at this than making brush. The equivalent of two daubs is his limit each day. I do not think he is lazy but rather shiftless or heedless. He likes to talk and laugh a great deal.

Hoberg Ferdinand:—

The first part of this month he worked lacing brushes. At this he did not do good work. He has of late been unbraiding defective braid. He has to be watched or he will unbraid good braid. He would play with a dead fly or a small piece of wood all through the period if you did not watch him. What he does you have to pay for it in urging him

Oct. 1901

Fruchtman Charles:—

Charles has been braiding for the mats this month. He will average about a foot each day this is done good. If you did not watch him he would spend much of his time watching the trains on the new railroad.

Gifford Willis:

Willis has done a good deal of work this month. He has turned six dozen napkin rings, made one lace cushion, recovered two more, two dozen lace bobbins, ten picture frames and minor other jobs. His work has been fairly good. He has been very pleasant this month with the exception of last Saturday. He was fogby and cross all day. Whether anything went wrong I you could hear him. He was not particular what he said or who he said it about or to whom he said it. This kind of work upsets every thing the boys do not like it, neither do I. Seems to me it would be billis to exclud him on these occasions. He is not particular about his work

Oct. 1901

and it will not do to say any thing to him these days.

Guernsey Eugene:—

Eugene has been the best brush maker this month. He has been on every day toy. He makes from six to seven daubers each day. These are made excellent but that. He has been good natured and obedient.

Gohen Willie:—

Willie has braided the first half of this month One foot a day is more than he would average. This is done fairly well. The latter part of the month he has made brushes one dauber a day is all he can make. This is not very well either. He likes to talk and is a little troublesome.

Haack Gustave:—

Gus has been working on the bench He has made six mops They were of simple dimensions and employed the use of the knife I think he can not make

Oct. 1901

the bench models which employ complex measurements. as he cannot measure, hence he cannot make a good drawing. He can perhaps by copying them from the model. He has always been good-natured and obedient.

Hatch Joseph:—

Jos. the first part of the month made models those he made good. He is quite likely to use the file and sand paper to much or rather he depends to much upon them. On account of brush orders we thought it fit to put him making brushes. He is the best brush maker in the shop. He will average ten dauber each day these are made well at that. He is quite stubborn at times but of late he has done better.

Hagen Oscar:—

Oscar does but very little. He can not do it. We have tried to show him how to braid but of no use so for.

Oct. 1901

Johnson Bennie:—

Bennie has made brushes this month. He is making a bullis brush of late the equivalent of two bulshes each day is all he can do

Kundt Fred:—

Fred likes to alternate each day. One day he makes brushes while the next day he wishes to braid. He does each fairly well. A foot of braid and two daubers each day are his limits.

Ostrander Bennie:—

Bennie the first portion of the month made models. He made one or two good models after many trials. I thought best to work him at the brush for the present as he is a good lacer. Two dauber each day is his limit.

Olson Edwin:—

Edwin has made braid for mats all the month. He is an excellent braider. He braids from four to six feet each day. He is business from the first min to the last with him.

Oct. 1901

Palmer Theodore:

Theodore has braided all this month. He makes a good braid three feet each period is the best he can do. He has to be urged somewhat.

Rice Nathian

Nathanie worked on the mat table until Jimmy Oakes came to the shop. He readily gave way to James I think though he prefers to do the mat work. He is making brushes at present. He does not do a good work at the brushes. It gives him more of an opportunity to visit with the rest of the boys. One dauber each day is his amount.

Roussing Edward.

Edward has been working on the bench this month. He made improvement His work has been mostly knife work. His models are good for him. It took him two weeks to make one and I think this revived him. He has no concept of measurement.

Oct. 1901

Smith Bert

Bert has surprised me he can now make as good a brush as any of the boys. He will make the equivalent of three daubers each day.

Stewart Harry:-

Harry has been absent all but twelve days. He has staked stock. This he does in a painstaking way. He is steady.

Wilkinson Eddie:-

Eddie is a good braider. He braids from six to eight feet each day. He has to be spoken to occassionally.

Duntzmeyer Willie

Willie is a braider he is quiet and steady. He will average three feet each day.

Weisberg Louis.

Louis is a mischievous boy. He will not do anything unless he is watched. He will tear his braid or sort stock as the case may be. Sometimes he has

Oct. 1901

stand in the corner.

Yeager Nicholas

If talk counted for anything I would have to give Nick a long report. He has improved a good deal in making brushes. He makes a good brush now about the equivalent of two dozen each period of his limit.

Pearson Nelson

Nelson has only been in the shop a few days. He braids about a foot a day is all he can do.

Nov. 1901

Bockway Harley:—

Harley had repaired four floor polishers, made a stool for the hospital kitchen. The rest of the time he has worked upon an article of furniture. You have to urge him quite frequently. He starts a job with great vigor but after a period or two he has to be urged on the same piece of work.

He has made many requests to start a new article. Each time he has been refused. I have considered it best for Harley to have only one piece of work at a time. That he should finish before any new work is given him.

He would if left alone find articles to make which would cut all the lumber in the shop. This he would scatter about in every corner of the work shop. He can do good work.

Brady John:

John, we keep braiding. He braid 2 feet each day. He has and likes to make brushes, but those are very rough. I shall spend a period with him helping him

Nov. 1901

with this work. I think then he will be a good lacer. He is very agreeable and steady.

Cox Eddie:—

Eddie makes brushes. He is steady and agreeable he will have about one and a half vegetable brushes. Thus he makes good.

Coker Penny.

Penny also makes brushes. He can make three vegetables brushes. These are made excellent. He has made a good improvement in this line. He is sometimes detailed to sweep but does a very poor job. I think his eye sight must be poor. He hears many slurrings.

Oldfield Richard:

Richard makes brushes. He makes one vegetable each period. This however is a good one. He likes to take in everything that is going on about the shop. He occassionally sweeps and does a good work of it. For a good while I thought he was lazy but changed

Nov. 1901

my opinion.

Downey Ray:—

Ray does very little. He cuts the string which the boys use to make braid. He likes to use the boring machine, but wastes one half the lumber. I thought wise to take him from this. He occassionally does an errand.

Davis Winifred:—

Winifred has been absent nearly all the month. While here she has made made the corner shelf from a working drawing made by him self. He has also made a working drawing of a boat jack a very difficult model. He has also begun the work in the wood. He is a good bright boy. His training has been self training. He had a conception of 1/32 but could not write it for his drawing. This is far better than to have been able to write it and not know the content of it.

Foote Raymond:—

Raymond makes brushes He makes one and a half vegetables each day. He

Nov. 1901

is a slow worker and likes to talk a good deal. He is always good natured.

Proctor Ferdinand:—

Ferdinand untraids poor braid. He would untraid the braid if you did not watch him. It all looks alike to him.

Tilchman Charles.

Charles is a braid in name but not in deed. You have to urge him if you get much done This fits each period would be his limit.

Gifford Willis:—

Willis has begun Mechanical Drawing properly Constructive drawing He has had two periods on lines He made four different borders for the purpose of using the pencil, T square and triangles. At the same time we worked to get the true prominent line.

He next drew the developed surface of the cube and from this constructed the cube. This cube we made the concrete object for a

Nov. 1901

series of drawing lessons. First in the Primary Position two views. Then turned in a horizontal plane 30°, 45°, and 60°, two views of each position Then again turned in a vertical plane 30°, 60°, and 45° degrees resp. Here I introduced the third view which he grasped very well. Then the object was turned in both vertical and horizontal planes 30°, 60°, 45° and three views of each position.

About this time he had a spasm in the shops and I thought it wise to postpone it for a time so did he. He shall work with the cube for some time yet. we will cut it with both vertical planes and horizontal planes and make the concrete object with three views each time.

He is getting a good idea of the mechanical part of it but am pritty sure he does not feel the lines. This I think to be the most important part and shall work for this from time to time.

Shop work. He has made 15 Jap trays, 3 picture frames and one lace cushion besides many minor jobs.

Nov. 1901

He has been very agreeable this month, no sports at all. He did not like it very well because in drawing I did not show him how it ought to be done. I explained to him how if I did the work he should accomplish nothing while at the same time I would be wasting my time. I think he seisted.

Guernsey Eugene:—

Eugene makes brushes. He will average seven vegetable brushes each day. These are made excellent. He is steady and agreeable.

Cohen Willie:—

Willie has made improvement in the quality of brushes but not in quantity of brushes. One vegetable each period is his work.

Haack Gusta:—

Guss has been working on the models, he has made the tool rack, chopping board Duck boat, Coat hanger. These were made good with the exception of the coat hanger. He will make another after some time. He has made improvement in the measure

Nov. 1901

readings. I will endeavor to give him some work in the working drawings next month.

Haack Joseph.

Joe is the best hand maker in the shop. He has made as high as 14 vegetables brushes in a period these are made good. He has made improvement in the line of faithfulness. He likes to be babied and I do not like to do it.

Hagen Oscar:—

Oscar does but very little. He sometimes straightens stock that has fallen on the floor, and occasionally he untraids a poor piece of braid.

Johnson Bennie:—

Bennie makes brushes he makes one vegetable each day. He seems to have a great deal of trouble which wire sticks, brush ties etc. He likes to change the blocks which hold the brush backs. This I have tried to make him understand is part of my work. He does like the idea of understand-

Nov. 1901 ing it this way.

Brandt. Fred:—

Fred is a good steady brush maker. He makes two vegetable brushes each day. He has made improvement in the quality of the brush.

Ostrander Bennie:—

Bennie makes brushes two vegetable each day is his limit. He is quite steady and makes a good brush.

Olson Edwin:

Edwin is the most faithful boy in the shop. He braids a good braid. He braids an average of seven feet each day.

Oakes James:—

James is my right hand mat sewer. He has served five this month. These are sewed good. In a week or so he will sew mats with out a mat needle. James would walk about the shops as if he had lost his best friend. He was completely lost.

Nov. 1901 Palmer Theodore:—

Theodore makes a good braid. He is a trifle unsteady. He braides 9 feet each day. He is quiet and agreable with the boys.

Rice Nathan:—

Nathan since Jones Oakes came to the shop was forced to give up the mat sewing. Since this he has made brushes. He does mat sewing better. He is quarrelsome with the boys when he is in close contact with them.

Reissig Edward:—

Edward has been working on the models. His work has been mostly on the knife work. His work as been of late upon models which required exactness. He has learned to use the tools fairly well and as soon as he get the idea of measurement I will put him on the bench models. One thing at a time is my belief.

Nov. 1901

Stewart Harry:—

Harry has been absent all the month.

Smith. Bert:—

Bert is a good steady slop-brush maker. He makes 1½ vegetables brushes each day. He has made improvement in the quality of the brushes. He has surprised me. He wishes to work with tools. I think after a time I will give him a trial.

Wilkinson Edward:—

Edward is a good braider when waxded. He will braid a braid with 3 strings if you do not call his attention to it. If he can be led to take the correct number of strings he will make a good steady worker. He braides about 6 feet each day.

Hinkhumeyer Willie:—

Willie is a good steady worker. He makes a good braid. He braides 6 feet each period. He is agreeable.

Nov. 1901

Yeager Nicholas:—

Nick is a good steady worker. He makes brushes and good ones at that. Three vegetables each day is his number.

General:—

I feel as if I could give my undivided attention to the boys I could get very much better quality of work done. But on some occassions my time must be given to repair work. This being so the boys are slighted. Then I must give my attention to materials to see that it is not wasted. If a boy laces a brush his work is in value perhaps one half a cent. If he is not watched he will perhaps destroy material to easily count to 5 cents. This is not very beneficial financially. And still it leads the boy to form the habit of frugalness which is very detrimental to him in after life.

C. M. Broderick

Nov. 30. 1901.

Dec, 1901

Brockway Harley:-

Harley has been absent quite a good deal this month. He has not accomplished much in the shop. He has made two clothes brushes and has a flowers stand in operation. He would like to start a new job each day. He will not fininish anything unless he is urged.

Brady John:-

John is a quiet steady boy. He braids three feet each day. This is fairly well done. He likes to make brushes. But we have made but a few this month

Fox Eddie:-

Eddie has made one clothes brush to send home for Christmas. The rest of the time while here has made braid. He braids about a foot each day. This is made good for a person of this ability.

Colen Penny:-

Penny is a good steady worker. He made brushes the first portion of the month. He makes two sink brushes each period. He has made

Dec, 1901

good improvment in the quality of the brush made. The latter part of the month he made braid, two feet each day is his limit. He likes to sweep, but makes poor work of it. I think his eye sight is poor.

Chlafin Richard:-

Richard made brushes the first portion of this month. He is slow but does good work One sink brush each day is his work. The rest of this month he made braid One foot each day is his limit. He likes to sweep and takes pride in doing it well.

Downey Ray:-

Ray drops in the shop each period. He does practially nothing. Although some days he cuts string for the boys to braid. He does some errands and think he is trusty.

Davis Winifred:-

Winifred has made a T square and drawing board this month. He also put to gether some of the toys. and repaired Seven

Dec, 1901 floor polishers. He is a good bright boy. Very quiet and the makings of a good workman. He is also very careful with tools.

Ekwall August

August has been in the shop only a few days. While here he has braided His braid must be all unbraided. He is quiet and creates no disturbance.

Foot Raymond: —

Raymond likes to talk a good deal. He can not talk and work. One foot of braid or one sink brush is all he done. He can do more if he is urged all the time.

Foster Ferdenand: —

Ferdinand would play with a small piece of wood, fly it. all through the period, if he was left to do so. While doing this he would create no disturbance. He can whistle or hum the pieces of music which the Orchestra play for the dances, and do it well. He spends all of his time unbraiding poor braid.

Dec, 1901 Fritchman Charles: —

Charles do not like to work very well. He braids all the time. He can make a good braid. Two feet each day is his limit.

Gifford Willis

The first week of this month was peculiar. It was the second week after a spasm. The interviewing week he did not work. But since this he has been agreeable. He has made 16 picture frames put together 12 hand sticks turned, 24 balls for curtain polls, 24 brackets for the same, 4 dog face babies beside many jobs. He spent a day at skinner hall, putting up the above curtain poles.

Gurney Eugene: —

Eugene is a good brush maker or a binder. He will make six sink brushes or six feet of good braid each day. He is quiet and obedient.

Gahen Willie: —

Willie is a fairly good brush maker. He likes this better than

Dec, 1901 braiding. One sink brush or 3 feet of braid is his limit.

Grasley Sonis:-

Sonis is a new boy in the shop. He has braided so far and makes a fair braid for a beginner. I think he is capable of making models and will give him a trial when the opportunity comes.

Haack Gustav:-

Gustav has made a bunch hook, corner shelf, flower stand, flower cross, and at present has started to make a working drawing of a foot stool, (Mads). He does not understand the use of T squares and triangles nor the different kind of lines. He is good natured, steady and industrious.

Hatch Joseph:-

Joe is the first braider or brush maker in the shop. He braided 106 feet of excellent braid in 7 days of one period each. He made a clothes brush for his self. He made sink brushes

Dec, 1901 the first part of the month. He made seven sink brushes each day. Those were made good.

Hagen Oscar:-

Oscar does not accomplish much in the shop. He keeps him sorting stock or unbraiding braid. He can not learn to use his hands, and cannot braid.

Haugen Herman:-

Herman is a steady worker of late. He spent the first portion of the month in repairing shoe brushes. Since then he has been braiding. He will braid 3 feet of good braid each day. I had quite a time impressing upon him his place. He would like to wander from place to place. Of late he gives no trouble at all.

Johnson Bennie:-

Bennie is not a very steady or good worker he makes one sink brush each period or a foot of braid. These are not first class either.

Dec, 1901

Mundt Fred:—

Fred is a slow steady worker. He has made improvement in the quality of the brush made. Two sink brushes or 2 feet of braid is his limit.

Alexander Dennis:—

Dennis makes two sink brushes or braids a foot of braid each period. He is very orderly and steady.

Olson Elonie:—

Elonie is the most industrious and steady worker in the shop. He works every minute. He braids about six feet of excellent braid each day.

Oaks James:—

James has put on the mat tables and sewed four mats this month. He is steady and creates no disturbance.

Palmer Theodore:—

Theodore braids all the time while here. He is quiet and steady. He makes a very hard good braid. Three feet each day is his work.

Dec, 1901

Rice Nathan:

Nathan made brushes the first portion of this month. One sink brush or 1 foot of braid is all he accomplishes.

The boys made many complaints of him playing them. He does talk a great deal. On two different time I made him stand in a corner. This hurts his feelings very much. He had not made any trouble of late.

Renswig Edward:—

Edward has made a coat rack, a bench hook this month. He has started to make a stepping board. But has made many mistakes in the measurements. I have been giving him some work with the rules. He forgets very easily.

Sonnick Walter:—

Walter is a new boy. He has not been here long enough to understand his possibly. He has learned to make a fairly good braid.

Sept, 1911 Wilkenson Eddie:—

Eddie can braid as much and as good as any of the boys. If you can keep him alive He will make a braid of two strings if you do not remind him of it. He braids about six feet each day and much of this must be unbraided.

Winklemeyer Willie:—

Willie is a good braider he makes a good braid. He is apt to let his strings run short. He braids four feet each day

Heisberg Louis;

Louis spend a good share of his time straighting stock or unbraiding poor braid. When he dont this you can separate him from the other boys. He can braid.

Yeager Nicholas:—

Nicholas is a good brush maker or a braider. He will make three sink brushes or braid 3 feet of braid each day. He improves in the quality of work each day.

Smith Bert.

Bert likes to make brushes better than braid. He can do both well. Two sinks or two feet of good braid would be this limit each period.

Jan. 1902

Brockway Harley:-

Harley has been absent from the shop a good deal this month, especially the fist portion of the month. While here he had worked good. He has made a flower pot stand, a book case, besides many minor jobs. He is at present working on a lace table. He will complete it. He has been faithful while here.

Brady John:- John has made braid this month. Two feet each day is all he can accomplish. He can not use his hands well. He is quit creating no disturbance.

Beach Oliver:-

Oliver made braid the first of this month. He learned to make braid easily. The last two weeks he has made coat hangers. He has made some good and poor ones. He tried make one each day. He is strong but does not utilize his strength.

Jan. 1902

Boy Eddie:-

Eddie has been also absent this month, on cold days. While here he as braided. He makes a good braid for one of his physical ability. He will braid two feet each session.

Cohen Penny:-

Penny has made braid the first three weeks of this month, braiding three feet each session. The last week he has been lacing shoe brushes. He laces one each period and this is well done.

Claflin Richard:-

Richard works faithful while here. He has braided three weeks and made brushes one week. Two feet of braid or one shoe brush is his session's work.

Downey Ray:-

From appearance I take it that Ray is not detailed here now.

Jan. 1902

Dagis Winifred:

Hilliard dont Winifred is the best all around boy in the shop. He is agreeable jovial and steady. He varnished and put together ten dozen shoe brushes, made and separated six polishes and has nearly completed an oak table for Lois Cottage. It will be a fairly good one when finished.

Elwill August:

On account of August's physical debility he cannot do much in the shop. However he has learned to braid, a foot a day is all he can do.

Foot Raymond:

Raymond many times acts as if he is tired. I thought at first he was lazy but have changed this opinion some what. He has braided and makes a fairly good braid. Two feet each day is all he can do.

Frobe Ferdinand:

Ferdinands spends all his time weaving poor braid. He can do this as well as

Jan. 1902

any body. But when it comes to putting it together he can not do it as well. What he braids one day he will unbraid the next day. This gets him employment.

Fritchman Charles:

Charles can make a good braid but is unsteady if he is not urged. Three feet each day is his limit.

Gifford Willis:

Willis has done excellent this month. His mental condition has been very good. He has made a number of picture frames, a jumping rack, a jumping board, turned seven dozen lace bobbins, one pair of Indian clubs, handbaskets and many repairs jobs. I would have liked to continue the course in Mechanical drawing with him but think it unwise for him to work his mind closely at present.

Jan. 1902 Guernsey Eugenne

Eugenne is a good worker, a trifle unsteady but most of the time steady. He has made braid 3 mats and brushes one mat. Six feet of good braid or 3 good brushes is his work in a session.

Cohen Willie:—

Willie has been absent this month.

Crosley Louis.

Louis has braided the first portion of this month, he has learned to make a fairly good braid. He is unsteddy, and likes to talk a good deal. He has worked some at the coat hangers with fairly good results. He does not handle tools carefully.

Haack Gustave:

What I said about Raymond Foot applies to Gus. He will take advantage of the chair when he can. He has worked on the coat hangers making one each day. He has made some good ones. He likes to work with the knife very well. I discourage this as

Jan. 1902 much as possible, because he can get better and quicker results with the plane and spokeshave.

Hatch Joseph:

Joe is still the best brush maker in the shop. He has made, scrub, radiator wall and filled 1 dozen brewery brushes. He has also braided one hundred fifty six feet of good braid. He has braided eighteen feet in a session. He is steady if his routine of work can be changed once a week.

Hagen Oscar:

Oscar's work does not count for any thing here. He can twist a few strings in a twist for Ferdinand Foster to re twist in the morning session.

Haugen Herman:—

Herman has spent most of this month repairing poorly laced brushes. This he can do well. He prefers this to braiding. He has however braided good braid. When he braids 3 feet is his limit.

Jan. 1902 Johnson Bennie:

Bennie has braided this month. He makes a better braid than he does a brush. He, when making brushes pulls too hard on the wire. I have called his attention to this many times but he forgets it quickly.

Mundt Fred:—

Fred is faithful but slow. He has braided three mats and made brushes one mat. He does not make a smooth brush. Two feet of good braid is his limit.

Chandler Bennie:—

Bennie braided two mats the rest of time he has worked on the coat hangers. He does not make very good ones. He has learned to run some of the tools very well.

Olson Edwin:—

Edwin is all thumbs. He works as fast as he can each minute. He braids six feet each session. He helps sweep the shop a good deal. When he

Jan, 1902 helps I am sure of a clean floor.

Oakes James

James has done all the mat sewing. He has been delayed in getting mattress needles. He has been binding straight needles. He runs these with out a word of complaint. He has sewed eight this month.

Palmer Theodore

Theodore is a quiet steady boy. He braids all the time and does it well. Three feet each day is all he can braid.

Pearson Nelson:—

Nelson has been absent all this month.

Rice Nathan.

Nathan has made braid three mats and brushes one. He has been quiet and steady this month. He is apt to trouble the other boys if not looked after. Three feet of good braid is all he can do.

Jan. 1902 Renssvig Edward:—
Edward has been absent this month.

Smith Bert:—
Bert has braided some this month the rest of the time he has worked on the coat hanger. His eye sight is poor he cannot follow & mark very closely. However he has made two fairly good ones. He will braid two feet of good braid each day.

Stewart Harry:—
Harry does very little. He though he unbraids poor braid. He sometimes braids a little.

Sommick Walter:
Walter has worked some on the hangers. He don't do good work at present but is improving each day. He makes one each day.

Wilkinson Eddie.
Eddie braids all the time. He is a fast but careless worker he will make a braid of two strings if you

Jan. 1902 do not call his attention to it. He braids six feet of braid each day.

Wenklemeyer Willie:—
Willie braids each day. This is all he can do. He braids about three feet each day. He had to be watched or he will weave in more than the requisite number of strings.

Reistroy Louis:—
Louis does but very little work & He occasionally will braid a good piece of braid if you stand near him. He unbraids a good deal.

Yeager Nicholas:—
Nicholas is a good steady worker. He is quite liable to make a large braid if you do not call his attention to it. He will braid four feet each day.

Feb, 1902. Brockway Harley:-

Harley has made a lace table, wood-work besides doing most of the work in covering it. The rest of the time he has spent in making a spring-board for the gymnasium. He has made a good one considering the condition of the lumber at the start. The lumber was warped and twisted badly. He has it finished all but varnishing.

Brady John:-

John makes brushes one day and braids the next. He can not do it in a very good manner. He will face one half of a shoe-brush or braid a foot of braid each day. He is occassionally detailed to sweep. But you have to ding at him if you get much sweeping done.

Beach Oliver:-

Oliver has been making models this month. He has made a tool-rack, coat hanger, and chopping board. They are made very well.

He does not use tools very carefully as yet. He is steady, willing and pleasant.

Coy Eddie:-

Eddie has been absent a good many days this month. Many times he is tardy. While here he makes few marks. On account of his physical disability he does not accomplish much. He does what ever he can do well.

Colen Penny:-

Penny has been making brushes this month. He makes about 2/3 of a shoe brush each (month) period. This is done fairly good.

Claflin Richard:-

Richard has made brushes. He has a good brush now. One brush each period is all he can do. He is accassionally detailed to sweep. Most of the time he does excellent work. Once in a while he has a day in which you can

Feb. 1905 solut your get out of him.

Dorothy Kay:—

Kay is not at the shop at present.

Doris Finifred:—

Finifred has finished his staple. He did all himself. It was my intention to have him polish, but was unable to get shellac. At odd times he worked upon minor jobs viz, a bowl roller for the Hospital and a lace cushion for the school.

His mental bearing has not been a good this month as formerly. He claims to have been sick. I can see a change in his disposition during the last three days.

Eckford August.

August on account of his physical disability can do but little work in the shop. He braids a fairly good braid and is steady.

Stote Raymond:—

Raymond has made bunkes this month. He is unsteady and must be urged by the gets much done. He likes to talk and laugh a good deal. This is not real meanness rather forgetfulness

Stote Ferdinand:

I spent one-half an hour each day trying to teach Ferd how to braid. He could do it for the time being. But the next day it was impossible for him to do it alone.

Pritchman Charles:—

Charles if watched can make a good braid and a good quantity of it. But if left alone is quite liable not to braid much. He always will take his place start to work if there is no excitement of any kind he will work right steady. But as soon as a stir is made he loses himself work and all.

Feb, 1902 Gifford Willis:-

Willis has made fifteen picture frames. They are mostly good ones. He has turned 200 lace bobbins, 12 darning balls. He started to make three 3/4 oak frames but had trouble in the corners and gave them up. His mental bearing has been good with the exception of one day. The cause of this was:- Our ~~supply~~ supply of pine lumber became exhausted. He thought all we would have to do was to order it and it would be delivered immediately. I tried to explain to him the difference. But the more I said the madder he grew. and I finally gave it up.

Guernsey Eugenne:-

Eugenne is the best braider and brush maker in the shop at present. He has made a floor brush for parties down town, besides quite a number of shoe brushes. He is generally steady agreable and willing.

Golen Wilkie:

Wilkie has made braid this month. He can make brushes but they all have to be over hauled and remade. He does not make a very good braid either.

Grasley Louis

Louis while here has worked at model work. He is natural quite bright. but can not concentrate this upon any one thing. He has made a tool rack and coat hanger from Larson. He is quite strong but does not utilize this strength.

Hladek Gustav:-

Gustave has been working on model work this month. He has made a foot stool, coat hanger a pencil rack. His work has been fair. He likes to use the sloyd knife preferable to the chisel or spoke shave.

Hatch Jay: Jay has been absent this month in him I have lost the best brush maker

Hagen Oscar: Oscar does very little in the shop. He can not learn to braid. We keep him straighting stock as much as possible.

Feb. 1902

Haugen Herman:—

Herman spends most of his time while here, repairing brushes He does this well. Some of the boys do not put the right amount of stock in the holes. They also occasionally miss a hole. Hence Herman's work.

Johnson Bennie:—

Bennie has been making brushes this month, He has worked steadily this month. He will make on an average one shoe brush each period.

Mundt. Freddie:—

Fred has been making brushes this month. It has to keep at him to get much done. He can make two brushes each period. But if you do not keep at him he will not make half of one. He can make good brushes also.

Astrander Bunni:—

Bennie has been working on the models this month. He has not made a very good success. But

as far as himself he has made improvement. His memory is not good. Every day I have work with him on the measurements of the ruler, He is making his third attempt on the model coat hanger. So far this is a good one.

Olson Edwin:—

Edwin is the steadiest worker in the shop. He works for all there is in him every minute. He has made Braid. It is my attention to change his work.

Oakes James:—

James has sewed four mats this month. This is all he wishes to do. If you change his work he is not pleased. He will do it however. but it is by force exerted by himself.

Palmer Theodore:—

Theodore is a quiet boy. I have not heard him say any thing while here. He makes a good braid. and works steady.

Feb-1902 Pearson Nelson:—
Absent this month,
Rose Nathian
Nathian had three spasms or spells during one period. He was peculiar at times during this period. He is a good worker if you can keep him separated from the rest of the boys. He has made brushes, 1/3 of a shoe brush is all he does in a period.

Penswig Edward:—
Edward has been absent this month.

Smith Bert:
Bert has made and is making improvement each day. He has worked at models some this month. His eyesight is not good enough for him to continue. He makes an excellent brush, He is rather slow, He takes an interest in his work.

Stewart Harry:—
Harry has just lately began to braid. He does not yet make a very good braid.

Sommick Walter:—
Walter has been absent.

Wilkinson Eddie:—
Eddie has braided this month the same as previously. He is forgetful and will make a braid of too few strings. I think he is improving in this. He is quick to work, using his hands actively.

Wentzlemeyer Willie:—
Willie has also braided this month. He makes a good braid. He braids three feet each period.

Weisburg Lewis:—
Lewis has been braiding this month. He does not do much if you are not in sight. The last two days I have started him to making brushes. He seems interested in this work.

Yeager Nicholas:—
Nicholas makes one brush each day this is made fairly well. He is quite liable to break the wire by getting it twisted. He is learning by this, to keep it straight.

Feb 1902

Curry Fred:—

Fred does but very little here. He can but do little. He was left to sweep one day. I confined his work to a portion of one room. He did not know how to sweep. It took us both an hour to clean this little corner. He was willing and did whatever I told him to do, but went no further.

Johnson ~~Albert~~: Arthur

Albert I think can not understand, I have spent a good deal of time with him and yet he can not braid

Tisdale Charles:—

Charles is a new boy. He has already done some very fine braiding. He is steady and quiet.

McKinley Fred

McKinley has also learned to braid. He makes a nice even braid. He braids about 2 feet each session

Thorson Albert:—

Albert has also learned to make a good braid. He is steady and creates no disturbance whatever.

April. 02 Harley Brockway
Harley has repaired 1 chair & worked on Kindergarten Tables, is doing well, but is not very fond of work

John Brady
John has not done anything so far, as the Attendants gave me to understand that he is not capable of doing anything

Oliver Beach
Has been making Polisher Handles & worked out pieces for Beds & is doing first rate but is a little on the stuped side.

Fred Currie
This boy is not capable of doing anything. Is quiet while here

Piney Cohen
Has working on brushes, does well but cannot see very well

Fred Bombach
Does Braiding makes a good braid & is industrious

Emil Berndt
Is not able to do anything

April. 02 Robert Eggler
Does Braiding & make a very neat braid & is industrious

Aug. Ekwell
Makes Braid, and makes it good too, he generally stays after School hours to braid

Raymond Foote
Make Brushes, does it very well, but does not like to do much.

Ferdnand Frober
Makes braid, & very good too

Gustav Haack
Has been smoothing up Polisher handles, is very handy with tools.

Winfred Davis
Has made a Book Case for Skinner Hall does very well but needs lots of practice.

John Hodge
Makes a very good braid but is full of mischief.

Albert Halversen
Does braiding very good &
is quick bby generally

Arthur Johnson
Does not do anything

Eugene Guernsey
Makes Brushes good, is one
of the best bench makie here

Cleande W. Kinley
Makes braid, but not very
extra, but is improveing

Fred Mundt
Makes Braid good but is
the trouble of the shop, but
is getting some better.

James Oakes
Sells Mats, is steady & does
good work

Edwin Olsen
Makes braid not good as he
has to be watched most of the
time

Bennie Ostrander
Makes Brushes good but is
not very fond of working

Theodore Palmer
makes braid very good & is
a steady workep

Nathan Rice
makes a good braid but
does not like to work, &
is rather troublesome

Eduard Reniewig
makes brushes & braids, but
does not like to work

Beatrice Smith
makes very good brushes, but
is rather slow.

Harry Stewart
makes braid, good & sticks
right to it.

Henry Sauer
makes brushes good & lots of
them one of the best workers
in the shop

Nicholas Yaeger
Makes brushes & braids is a very good worker but has got a very bad temper, which I think he will curb after the lesson I gave him.

Louis Weisbery
Is not capable of doing anything

Willie Winklemyer
makes braid but not very good need a great deal of watching.

Eddie Wilkenseer
Braids medium good & very fast but needs a good deal of watching.

Willis Gifford
Has been making Picture Frames & turning Lace Bobbins cut his thumb on Rip Saw but not very bad. Is a good & steady worker.

Chas Tisdale
Makes braid very good & have tried him at wood work but have had to put him to braiding again

May 02 Harley Brockway
Worked on Kindergarth Tables & a Water Tank for the Shop. is improveing somewhat but he likes to work on his own work better.

John Brady
Has not done anything this month but winding up wire on spools, is a good quiet boy so far.

Oliver Beach
Has only worked 3 days this month, but he is for the gain.

Fred Baumbach
has been braiding & does well but has only worked here 9 days being on the sick list

Emil Berndt
cannot get him to learn anything so far.

Fred Currie
cannot learn him either but is a good boy while here

May 02 Penney Cohen
works in brushes is doing very well, but it seems that he has not been instructed propely before & it is hard to break him to do differently. She also likes to stay & sweep but is not much good at it as she cannot see very well.

Amy Eskwell
is braiding does very good work & likes to stay here after hours

Dudley Finch
Makes braid but not very good has been here only a few days this month

Raymond Foote
is making brushes and is improveing although do have to talk to him quite often.

Gustav Saack.
has made several knife handles which he does very well, is now working on Towel Rack. One fault he has he does not understand a rule, but am posting him on that point every day.

May 02 John Hodge
Makes braid & worked some on brushes, & is doing very well

Herman Haugen
has been here only 3 times this month, but has improved somewhat.

Frank Hamlin (Lind Cottage)
has been putting backs on brushes & learning to work with tools is somewhat careless, but is improveing

Albert Halverson
is braiding does well & is industrious.

Eugene Guernsey
Made the most & best brushes this month & last week got the prize of a Bx of Cracker Jack

Willie Gohn
has made a few brushes but is not very good at it yet has been braiding most of the time.

May 02 Arthur Johnson
Does not do anything is a good boy while here

Fred Wundt
has made a few brushes & done braiding. must talk to him quite often for behavior

Claude McKinley
Makes very good Braid, the last week he braided 32 ft of Braid on the contest. He also stays here to sweep & does a very good job.

D. T. ~~C.~~ A. McCormack (L. Cottage)
Has made 1 Book case x 1 Medium Cane Rip Rake 1 Handle put Backs on brushes, put together Blacking Brushes is very handy with tools but gets tired very easy & does not take enough interest in the work.

James Oakes
Has been sewing mats all the time he has been here but has been off a great deal of late is a good steady worker.

Edwin

May 02 James Olsen
is braiding all the time is fast but needs watching a good deal, but expect to break him of the habit of leaving out strings in his braid.

Bennie Ostrander
Makes Brushes very good but a little slow.

Theodore Palmer
is a good hand at braiding quiet & medium fast worker

Arthur Pierson (Lind Cottage)
Has put Brushes on Polishes, made 2 corner Shelves 1 coat Rack put backs on brushes & smoothed up Polisher Handles. Is medium good with tools but ~~has~~ a nervous temperment. Improveing

Nathan Rice
Make a good braid but very slow, & is inclined to be mischievous. stays & sweeps sometimes & does a neat job.

May 02

Edward Rensewig

Makes brushes quite well but is very slow & does not like to work has been here only a few day this month.

Bert Smith

Makes brushes good & is a little slow, also need talking to quite often but not so much of late.

Henry Saur

Makes brushes very good & is next to Guernsey in fastness has stayed after hours to work on brushes. also stays & sweeps off & on does very good job of it.

Harry Stewart

Does braiding very good but is not very fast. a good boy in general

Chas Swanson

Makes brushes very good & is quite fast worker seems to enjoy making them.

Louis Weisberg

is not able to do anything & was given to understand that he was not to do any work ~~by~~ told by attendant

Eddie Wilkeson

is braiding does very well & is improveing.

Willie Winkelmeyer

Makes braid but is not very good at it. do not see much improvement in him

Nicholous Yaeger

has been braiding & making brushes is a good hand at either, has been a good boy of late.

Finally

Would say that it has been rather up hill work for me as the boys have not been posted properly in their work, and when they get started wrong it is hard to break them of it Things are going better now, I have offered a prize to the one that makes the most braid & to the one who makes the most brushes in a week. Eugene Guernsey won Braid prize & Edward Wm Kinley ~~Bert~~ for Braiding.

H.G. Moses

June 02 Brady John
Have got him to braid & is improveing. Behaves well while here

Beach Oliver
Has been working on Towel Roller's, is improveing some, seems to like to do carveing, which he does well for a beginner. Is a little stubborn at times

Bornbach Fred
Makes braid, and does it well Good boy while here.

Berndt Emil
Is not capable of doing anything so far

Currie Fred
Does not work while here, is a good boy.

Cohen Pinny
Makes brushes, & does some braiding, but does not like to braid, also stay & sweeps, but is not very good at it.

June 02 Eggler Robert
Makes braid, and does it well also gets ice for water tank is a good boy all round.

Elkwell Arey.
Makes braid good, seems to like to stay here, generally stays until supper time, a good boy while here.

Foote Raymond
Makes brushes well, but is of a tiresome disposition, like to talk a great deal while at work, I have to talk to him quite often.

Frober Ferdinand
Is a good braider, & a good quiet boy.

Porhysus Frank
Makes braid, not very good but has been here only a few days Good boy while here.

Guernsey Eugene
Makes brushes good & is a fast worker, but has been absent a good deal of late.

June 02

John Willie
Makes braid very well, but is a little slow fat it. Has been here only 4 times this month A good boy generally.

Naack Gus.
Has made several Handles this month, also is working on Towel Rollers. Hard to get him to understand the rule, does not seem to be posted Arithmetic muck, but is improveing.

Nodge John
Makes braid & gets ice in the morning, does not like work very well, and need talking to quite often.

Haugen Herman
Not here this month.

Hendricks Wilber
Makes braid good. Is a good quiet. boy. Has been absent a good deal of late.

Holversen Albert
Is the best braider this month He braided 6' 4" at one period, a good quit boy.

June 02

Johnson Arthur
Does not do any work, is a good quiet boy while here but has been absent most of this month.

Wundt Fred
Makes a good braid, but is a little mischievous & bothers the boys some, when I am not within sight. Has been here only a few days this month

Mc Kinley Claude
Makes braid good, a good boy generally, has been here only 6 days this month.

Astrander Bennie
Make Brushes very well is slow & needs talking to a good deal to keep him at work.

Oakes James
Sews mats good is a good steady worker, has been absent a good deal this month.

Olsen Edwin
Makes braid, is improveing some but need watching a good deal yet.

June 02

Palmer Thodore
Makes a very good braid, is industrious, & a good boy.

Rice Nathan
Made some brushes & done some braiding does fairly well at both is a little slow, & need talking to sometimes to keep him at work. Also stays & sweep, does it fairly well but need watching

Stewart Harry
Makes braid but does not seem to get the idea very fast. is very slow at it. Quiet boy while here.

Smith Bert.
Makes Brushes good but is somewhat slow at it, and seems to like to talk a good deal while at work.

Swanson Charlie
Makes brushes very good & is a fast worker. A good boy while here

Saur Henry
Makes brushes & does them in a good & quick way & is also a good sweeper. Likes to work here

June 02

Tisdale Charlie.
Makes braid very good & is a medium fast worker.

Wisberg Louis
Does not do any work is a good quiet boy while here

Wilkeson Eddie
Makes braid fairly well but need a good deal of watching yet is improveing some.

Makes braid but has not been here 6 days this month

Kirsch Lyle
Makes braid very good for a new beginner, is slow & does not like to work much.

Yaeger Nick
Made Braid & brushes this month is very good at both has not been here a great deal this month.

June 02

Gifford Willis

Has made a Pigeon Hole case for Printing Office & finds it is the most difficult piece of work he has ever done, but he done it fairly well. Has had one Spasam, but not very hard. Has been off most of the month with mumps & helping in Lloyd Room.

Hunter Frank.

Has nailed on backs on Brushes & is working on Towel roller & is improving some, only fault to find he is careless & cannot trust him out of sight on account of taking things.

Finnally

Have made a little more progress this month but am handicapped by not having much help help on bench work also the crowding of so much outside work, that was not done here before. Cannot give enough time to the boys work on that account. Would like to have the 10:30 class out to 11-45 so as to procure a warm dinner.

S. G. Moser

Oct. 02

Robert Eggler

Makes braid & does it well, also gets Ice in the morning. Behavior fair. Attendance 4 Periods

Is not capable of doing anything
Behaviour good Attendance 12 periods

Nov. 02

Willie Winkelmeyer

Makes braid, but is not very good at it, and is rather slow, seems to try hard enough but cannot get the idea of it Behaviour good Attendance 12 periods

Finally

Have got out considerable work this month, as I have every month. My work amounted to the sum of $8.20. Have started to make 50 Hand slide. Have not had any Coir Yarn for over 2 weeks so I could not keep a good many of the boys at work It seems that the plan of giveing some kind of prize for the best worker is a very good thing. One week this month Miss McLean offered to treat the boy who made the most brushes, and it done one good to see how they all worked. Ed Lee came out the winner but Miss McL. sent enough candy & apples to treat them all. Am just loaded down with work yet but expect to catch up after the holidays.

M G. Moser

Dec 02

Robert Eggler

Makes a very good braid & has also made some brushes & is quick to learn, but is rather mischievous & needs to be spoken to rather often. Behaviour fair Attendance 12 periods

May.

Nathan Rice

Sews mats very good, is a trifle slow but seems to like his work Also helps sweep shop. Behavior fair Attendance 16 P.

Finally

Have had 8a very good ~~month~~ month. Have turned out a good deal of work. Have not given as much time to shop work as I would like to, but considering all thing have got along nicely The boys seem to think it is their duty to work if I am there or not. Have had most of them on Fire Repair work, & by treating them once in a while Have got a lot of the work done. The new way of doing without Attendants works well.
