Feb 1902 2nd Kindergarten Class.

Burnham Hortha.

This dear little child is quite fascinating in the little ways which she begins to show can do if she will all the little hand exercises folds her hands for our little prayer hymn in an irresistible little way keeping one eye upon the others whom she thinks comically if they don't fold their hands, is a remarkably tidy young body putting chairs in their places and children too with a great show of baby displeasure at their inattention and a very energetic shake of her fist- near their noses.

Adeline Dufour.

very lovely sensitive & happy loves to caress her doll, likes to sew cards and while her hands are very slow in movements she knows where to put the right stitch enjoys fruitly watching the others. loves to come to school.

Annie Koehler.

I think shows a little improvement and is very responsive to any caressing or love has two or three times shown interest in the games seemed to follow the others in their little hand games - only sometimes, then again for days sits away quietly and resists coming with the others a darling affectionate, Nicely who responds continually & all our love-taps with the others & if one cries she is instantly comforted & cries too very nervous.

Feb 1902 Leah Simpson.

This dear little thing has shewn much more interest more affectionate, claps her hands holds her arms well when the balls or blocks and seems to be so very happy if she can do something needs to be petted in general am so pleased with the awakened interest equal as this it has been drawn forth just by affection shewn to her. the darling child is now in Hospital quite ill. her face lightened so and she smiled so brightly when I went to see her took her some pictures.

Marie Mattison

Improves when she is well and seems quite happy there are days when she seems quite dull and she just wants to be quiet always a precious lovely child responding the best way she can to exercises.

Ernest Smith.

This little gentleman improves very much once in a while he takes a day off to let the others catch up and on these days he is quite naughty & is so conscious of being so that we let him have a good time he is so very exercising that one has not the desire to discipline him. he enjoys a little romp so we make these days dancing merry ones. He can do all the exercises string beads, arrange the pegs sew his cards and he begins to speak plainly many little words.

Feb 1902 Mildred Shaw.

This dear child seems to be much happier learning the little things that please her and each day try to give her some little pleasure. singing or playing is always a delight and a little dance or circle game in which she is noticed is pleasing to her she comes to her name & there seems to be a little improvement.

Mary Johnson.

Pastes very neatly a things papers is quite interested in making the school room pretty very troublesome if not continually occupied I think she has improved generally. Quite neat about herself

Keene Cecil.

Cecil has been quite trying troublesome restless not diligent is more interested in singing than anything and has a very sweet voice. Sometimes she is very encouraging but is ready for a serious difference at any time with her companions and proved her strength with one on the possession of an orange. She has been under discipline for some days for this contrary outbreak.

Feb 1902 Margaret C Cook

Margaret has been very amiable pleasant for some time consequently doing her work nicely is greatly interested in pasting pictures for the hospital children which she does with great neatness taste choosing the very prettiest ones for the sick children. Said "for the helpless ones we ought to do our best" in this she displays an Irish heart as she does sometimes in a surprising little flash of wit improving.

Peterson Beatrice.

Was interested in the pictures she selects the ones for the various cards and shews some taste can also paste a little Quite slowly but nicely Beatrice seems much brighter thoughtful and seems to enjoy coming to school.

Palmerton Lottie.

Lou do some pasting arranges the books for Table Boxes assorting the colors we use is very fond obedient good always neat tidy & seemingly happy. Minnie does her work quite neatly.

Palmerton Lillie

Never troublesome cannot do very much, learning to cut papers & her hands seem to be more steady seems to be happy and likes to come to school.

Feb 1902

Augusta Paff-

Is not nearly so irritable the picture posting excellent for her as it is tangible she concentrates her thoughts and also controls her hands. Augusta tries too to influence the other girls always says she is too nervous to do any thing While Eyewes attention is quite interested in the pictures especially as there is some object in them - Improving in her manners.

Emma Rosenmeier.

This little girlie is very good and improving likes her reading & selects pictures for children of an equal size, and has quite a preference in taste as to the ones that are in her idea pretty, always pleasant and cheery.

Lillian Spafford.

Not in school this month.

Smith Mollie.

Mollie is certainly improving and is happier in her school work, does very nice work in cutting posting pictures and is so interested in doing it for the little hospital children, very diligent always a very nice good girl and quite encouraging.

Feb 1902

Eva Danekker.

Is going very nicely and is always a good girl is learning to use her scissors very nicely indeed and also likes to paste but wants continual watching in this because she cannot get them straight is a little headstrong about writing more letters or having them written than she needs to be and was quite upset for a day or two but participates in good in all her school work.

Cora White.

Also much interested in the paper work uses her scissors nicely and likes to do some sewing on cards is a very nice good girl & is not nearly so bad a tale bearer as she was improving.

March

Emma Rosenmeier

Her dear child improves slowly is very fond of singing & loves to have Some hymns during our lesson hour has been enjoying the pictures for School room very much. always quiet- and obedient- & good.

Lillian Spafford.

Lillian has been quite irritable and trying of late so very sensitive to any remarks and often misunderstanding the other girls. Is improving in her reading and displays a desire to get on. Hope Lillian will grow stronger.

Mollie Smith.

Is enjoying the school decoration very much and is inclined to superintend everything & everybody but Mollie is so good and industrious we enjoy letting her do this. She is improving in her reading very remarkably.

Eva Sanders.

Is a very good girl always and very obedient. Improving in her reading & generally has a very intelligent idea of her lesson when read and is anxious to progress very diligent & faithful in her work.

Cora White.

Has been rather troublesome in sometimes taking pencils or something that belongs to the school room many things disappeared very mysteriously but we cannot accuse Cora. She reads quite nicely and is proud of her school and likes to take out.

May 1902 Kindergarten Class.

Flossie Baker. Is improving very much in every way interested in the work stringing D straws weaving mats and has a real preference and choice in the games showing improvement in memory and observation not nearly so irritable

Annie Horton.

Little improving health is becoming courageous in deportment and border to control wants to run every where is improving however in her work and is learning to more slowly enjoys the games very specially a good child.

Ronnie Lull.

Is very fond of her own way and while she is improving under a good deal of discipline is learning to weave strings straws and rings with much enjoyment they do enjoy the walks abroad and getting flowers. Ronnie always needs very close watching.

Elsie Emmerson.

Is improving also in course of her better physical condition although still irritable and requires much careful and tender managing she is much better than she was enjoys the hand exercises and ring games.

May 1902 Nedra Sumner.

Enjoys the games much more than she did and has so many preferences can string & match colors somewhat and while she must participate much enjoys watching the games a very good girl always

Drew Grey.

very noisy and troublesome most times occasionally becomes interested enjoys the working and games and finds the words now

Emma Hodler.

Continues very much the same is much slower than some of the others but always a good obedient little girl to be helped along with everything.

Ethilda Rund.

Interested in dishes and in everything pertaining to a house and is so happy when she can be thus employed enjoys some of the games begins to speak a little more plainly.

Agnes O'Reilly.

Lips saucily and while seems to realize she is not improving much she catches hints and learns to follow the lines that she likes nicely.

Edna

This little girl is learning very slowly is rather troublesome tries and continual help with her work.

May 1902

Kindergarten Class 2nd

Martha Burnham

Is improving in every way so much better than she was and beaming over with health and spirits Knows all the exercises and is beginning to do other little work has colors of beads loves the little games

Adeline Dupont.

This dear little girlie loves to write on the black board or on paper and is learning to become a little she is happy loves school and is so good always!

Annie Rockley.

Is better than she was is fond of one or two little games only, bean bags, and one or two little ring games and ball but in these she develops more interest than formerly

Ida Longmore

Has not shown so much improvement this month has been more nervous and not so fond of the games unless she has continual soothing and interest is very destructive sometimes

Marie Gathmon.

Has improved so much since last month in health consequently brighter and more

May 1902

interested in all her little games and exercises loves the songs and can make many selections is a dear much interesting mischief child

Grenvold Smith.

Has been very mischievous and full of witticisms fun and not- so attentive but- Bobbie is interesting in any mood loves the ball games and we have played more of them that he may have a chance to be happy a very good little boy always.

Mildred Shaw.

Seems to be improving a little seems to- enjoy our little walks and once in a while develops some interest very distracting and wants such very close watching

Clara Schuyler.

a very good girl and is quite apt- in all the exercises also in the Kindergarten cutting pictures stringing beads and making paper rings can also name or is learning to- Clara is a very interesting girl

May 1902

Class A.

Hannah Wahl

Is steadily improving in work and deportment is very much interested in the paper weaving enjoys her reading lessons also very much reads much more distinctly than she did and is a very good girl.

Marie Forys

Has been rather troublesome because of her laziness does not- want to do anything and talks a great- deal in the last- few days interested in the weaving She has improved in her reading very much.

Rexford Woods.

Improves steadily and is a very good girl is more careful and painstaking in all her work and shows quite decided taste in anything where there is any display of taste. Rexford- is very bright- when she applies herself.

Beatrice Peterson.

Is improving moves beautifully and enjoys it- very much also her reading and in all the decorative work she has been very interested a very good girl

May 1900

Nellie Palmerton.

Does not shew much improvement is a very good girl always neat trouble some builds with the blocks and sews string beads of one color is happy in school.

Minnie Palmerton.

Improved generally and is a very good girl is interested in sewing and paper stringing and is very thorough in any work that she undertakes and if it be to make the room neat she is very happy. Minnie is a housekeeper.

Agnetta Poff.

Has been very irritable so anxious to get home and says her work makes her nervous does not do it thoroughly consequently. Has improved in her reading very much and if she were less nervous would do good sewing.

Emma Rasmussen.

This dear child is improving and after much patience is learning to sew which will be a source of pleasure to her it really seemed as though she never would learn She is very happy over it.

May 1900

Lillian Sprafford.

Has been much more amiable and not so quarrelsome this month, is interested in the sewing and is beginning to do it nicely she is very spasmodic in her interest interested in a birthday party which she is preparing for.

Mollie Smith

Is an excellent girl always diligent faithful and interested so anxious to have our school room pretty and ready and glad to do anything required of her has improved very much in her reading and does her paper sewing beautifully.

Ina Van Epps.

Has been a little obstinate and 200 120 good as formerly wanted to begin paper sewing without sewing on the tape and because I wanted her to learn first grew naughty, she has been a very good diligent girl hitherto but I am sure she will again.

Cora White.

Is improving very much is a very quiet good girl and has learned to control her tongue is sewing and enjoys all the work we do

June.

Kindergarten Class 1st.

Baker Flossie.

Has been a little more irritable this month but still shewing preference for games and very heartily engaging & participating in those she likes - likes the weaving and is beginning to learn Coa string straws nicely and enjoys the exercise in drawing on her pot - and seems in a measure to the gain of the year work to be very much improved in intelligence & observation, in memory as to the games, in her deportment generally, has preference also in some of the hymns and music is affectionate & quiet - if managed rightly & gently. has improved encouragingly.

Borlow Annie.

does not - speak out - follows with the others in everything if watched shewing that she observes and has some ideas, is very affectionate Coa string beads but - is very apt - to undo them again plays with the blocks, participating in most of the hand exercises and loves the merry games has improved in that she enjoys coming to school and if there is a little party or some pleasure she is ready alive to it - loves to work in the sunshine spiders flowers Annie is also rather brighter & happier looking and is a very nice little girl and in the examin & the - I for she shows very encouraging improvement

June 1902

Yeomans Ethel.

Has been somewhat troublesome in the first - months in her temper having a fixed - determination to bite anyone who interferes with her & thus usually bringing about the interference by teasing. Her contortions preparatory to biting took place. She is soon diverted from this evil by calling her attention to something else like and smiles take the place & disturbance. Yeomans is always to the front in all exercises and knows them all Coa weave nicely string beads in two colors readily distinguishes form sings nicely keeping the time also memorizing. Which faculty seems to be strengthened by holding a book in her hand, altho she cannot read a word. Yeomans has improved materially and has still matter for future improvement, hopeful and encouraging in the outlook.

Ellis Emerson

Ellis has physical disturbances and has times & being most - irritable and trying crying bitterly for seemingly little reason and very hard to divert - from this tendency - of course & she feels better she is interested to participate - in merry games but - not - so much in any hand exercise likes to come and sit - near the piano and has a preference for some tunes which she cannot - express in words but - does so by smiles and the

contrary by violent movement of the hands. Elsie can string beads of one size and will learn to become like the blocks but has little idea of construction enjoys ring games and shows more interest in them than in any other games and has only one very tiresome way of expressing herself except by displeasure or loud movement. Elsie has improved greatly keeps her place with different movements in marching which she enjoys and is quite bold in manner and behaviour

Eunice Gunness.

This child is fond of school and whenever it is time to go protests by vigorously saying no & cries if she is pushed or jostled accidentally can string beads two colors only if watched and with the blocks has some little constructive power at least can make a high pile and not knock it over the ring games amuse her but except to be amused she cannot follow. a good child always and has become quite affectionate - can be made happy by kindness & kindness.

Irene Ring.

Has been most trouble-some in the noise she makes, but the brightness of her eye which shows her interest in communicating. is very fond of her own way and turns things topside down to have it that way

persuaded into gentleness by giving her something to do which pleases her in this way the individual work becomes perplexing whether they should be managed as a class or with personal attention & their longings for the moment. Irene is so much improved. At first in marching she was everywhere but now is interested & keeps her place in the march and can lead by a little attention is bright and will learn to do more work that belongs to her class with special watching her progress towards forming a finishing and being interested very encouraging

Emma Rodler.

Is a very good child not pronounced in anything affirmative or negative ideas reach the mind very slowly and only after most continued application follows the others. seems to enjoy the games but has to be urged all the time very clumsy in all her bodily movement and even unconscious of all about her can string beads of one color and constructs a little without leaving down can stand. sit walk or run a little in manner is reserved and this much is encouraging in a pessimistic of the year. never troublesome except that she would like to work up the lethargy of both for from her expression there is some apprehension of mind.

June 1902

Stella Kane.

However as the child is
Loud to her and is usually a very
good child most disagreeably childish
in her preferences for certain things.
When we want to try them the Some
her specialty is housekeeping and
all that pertains to dishwashing &
drying, sweeping dusting ne be and
she has to be coaxed through a bowl
stringing which she can do in her
colors nicely - also distinguishing
form and [illegible] has a decided
preference too for forms that are
merry and that appeal to any
ordinary childhood. Always a good
child and interested taking time
special only when her preferences
become uppermost then has to be
coaxed. very affectionate - encouraging
in the exams

Maggie Miller.

Has been very nervous
and irritable a great deal of the
time erratic. if she things had usually
endors them again and so with all
she does the most encouraging item
about her is that by being tender and
gentle with her the best is held. at
first she seemed to feel that she
had enemies and was ready to fight
for her own rights. observing in as-
much as she likes changes in dress
and pretty things appeal to her very
much. there is an unusual emotions
in Maggies nature if touched. Rightly

June 1902

Directions she is trying feel much en-
couraged for future help to her in
learning her nature better at times
she is peculiarly negative but
this mood she recovers herself generally
by tenderly saying to her Maggie don't
you want to be sweet - good sis any such
interrogatory appeal to her best.

Clara Slagle.

This child is doing very
nicely in something unusually bright-
can talk expresses her preferences
and shows thereby some ideas for
string shows, and papers neatly &
nicely threading her own needles is
fond of songs can do all the hand
exercises and as well as she can
with an awkward body work nicely
enjoys the exercises. is somewhat
of a help with the others a very nice
good child and the examiner for the
time is glad only encouraging but
cheering quite an addition to our
school. more particularly enjoys
the games participating therein with
wholesome and unpretentious zest.

Edna. —

This little girl is perfectly delicate
very clinging wants to nestle beside some
one all the time physically very weak
loves flowers and color photos and
crayons an expression of interest
seems to enjoy, but has not followed
in any of the exercises - a sweet
child when [illegible]

June 1902

Kindergarten Class 2nd.

Martha Burnham.

This little atom of humanity has picked up (only by watching the others I'm sure) in addition to her engaging little personality a spirit- Her rhymes made her quite negative she has emerged from that with a pretty confidence which lights up her baby hood - If in the mood she participates in all the little hand exercises and trips the others up to-clap by vigorous onslaughts with her tiny fist- If she be in the humor of something else if course they have a holiday - She seems very bright- very smartly affectionate coming for a little caressing & tenderness in the midst- of our little class- we believe this is to be one of the strong elements- in odour armed- in all babies & we are in an open attitude all the time this child is encouraging all round and a darling -

Adeline Dufour.

If possible this child seems to grow in sweetness & quietness of character which is neither negative nor effeminate but- just- is -
In her eyes is a patience which is inspiring and uplifting. Quite addicted in body shewing only by signs her preference in anything can string words and loves to draw little pictures on the board or slate - enjoys write

June 1902

expression of thigh- Every morning some tears a little party with all the little appointments of normal childhood likes the bells and is fond of pretty coloring encouraging in that she seems to be so very happy in school & never troublesome always a pleasure loves to sit- in sunshine and play with sweet flowers which the others heap upon her.

Annie Koehler.

The noticeable peculiarity about this dear child is her special sensitiveness to the moods or joys or happiness of the others longing merrily or moping utterly talks prettily alone but not- in response to any question, amiable and sweet- softly a most- appealing pathos in her whole attitude in concentration for any games and no observable interest- Except in a little note which she may repeat- sometimes, once in a while has a noisy spell and shouts- unpleasantly - Repeats her own name but- never responds to its call at first- we thought she did & dear child specially affectionate in her reception of caresses never giving any. but always asking for love and caresses once in a while shows a little interest in the brown bags and will throw them & one she does seem to be conscious of them has a habit- of putting everything in her mouth.

June 1902

Lish Simpson.

This dear child is most responsive to any affection taking so much time that the comes- smile every advances to her has come observation Can clap her hands hold them up in answer to her name will pick up blocks, or bring back a ball if thrown and enjoys doing this plays with blocks only for the time as constructive ability has a penchant for taking things from the others with no desire to keep but to grab only. Knows about her dress Stockings shoes, garters petticoat, &c. &c. will put these chairs in their places &c &c showing some little housekeeping proclivities. Knows and loves various people specially is responsive to the caress of any child but ready to pull its hair or grab eyes this last moment no motive but recklessness we believe hope to retrieve some of it next year.

Gloria Matheson. This dear child Lovely to begin with seems to grow in grace & beauty of spirit with a great proclivity towards encouragement & tempting forms which her poor little body forbids her to indulge in- Her happiness in forms is both infectious and pathetic, she gets dizzy and tires perhaps from pain we think more because she cannot follow her mental desire to be happy hampered in body - All the exercises

June 1902

are daily known to her and she is eager to participate loves our little morning hymns and has special preferences - Can sing words very slowly and loves to scribble or draw a little Buddie is a very precious inspiring child patient & sweet- and has grown stronger in all the forms. and the resumé is pleasing the future encouraging

Grenold Smith.

This most- inspiring & fascinating little Chappie has improved very much. knows all the exercises and performs them most- gracefully, once in a while becomes very affected and is on these occasions very demure then again he sets up an ability to make faces which shows capacity for more than he is doing - in between times he is busy all this inspiring himself greatly and carrying with him all who will look at- him - he begins to talk Some is charming in his affection Giving generously of his own and delicious more in consequence days of being quite pointy days of mysterious fun light- Bobbie pathway and others so. He can sing words of two colors & form can sew and weave a little marches with feet- and is altogether ahead of his contemporaries Who cannot do without him. Knows every thing that is said to him begins to talk a little Bobbie is a very natural lively interesting little boy acutely sensitive.

The resumé full of encouraging material for the future

June 1902

Mildred Shaw.

There is little if evil encouragement in Mildred. the only noticeable specialty in her is her fondness for the songs or a little air in music. is very obstinate- Plentimes striking her head & pushing her body upward- any object- Loves a bone some bit- of paper in her hand which she turns & turns to look at- if taken from her she cries wildly and has to be quieted cries afresh- deal- once in a while responds & her name will pull flowers or pull anything to her that comes in her ~~reach~~ sweep as preference but- an object- a well-looking child but- not- so interpret or perhaps the bone not- discovered the right- way. always smiles- & clean looking.

June 1902

Flora A

Womack Dahl.

Was left- behind her some serious faults noticeably Love letting which was a hobby. Overcomes more distinctly by special care in her reading Stubbly likes to come to School can become more neatly we think than any other girl her ends always being prepared by mum- enjoys reading and has intelligent- observation thereon in answer to questioning interested in any thing that pertains to the decorations of the School- is trying sometimes in not- being ready to put her work away on time- In this regard needs firmness- a good girl and her improvement- marked.

Gracie Jorge.

Has improved in that she feels by kinder appreciation & what she does that she can do something very ingenious has morbid fancies but- on the Whole is encouraging: is master in her dress- has learned to become nicely altho at- first- strenuously opposed to learning- can read very nicely and notes intelligently what- she reads can dictate her own letters Gracie is generally a very good girl & encouraging likes to sing & selects songs with spirit- and interest and those she likes she sings nicely is very obstinate and has to be managed very persuasively.

June 1902 **Norford & Poole.**

Is a very bright girl & excelling in any kind of manual exercise or work has taste & aptitude in any kind of decoration loves weaving and selects color with taste on one or two occasions very rude but owing to previous that precluded such repetition we sent Norford out of the School room and she came back with an apology and since has been most desirable in her behaviour very neat in her habits & good good & thoughtful comprehensive in her influence for good Norford is a hopeful & very encouraging pupil and could do more than we do.

Beatrice Peterson.

Has improved as encouragingly as any pupil we have is brighter more responsive happy in School has great preference for certain hymns showing idea of words as well as music. Loves weave beautifully with two colors and arranges as to form & color blends. enjoys doing good to very much and collects the interest of a story with great intelligence loves her home people in a very pretty way pictures her own letters richly a very sweet interesting child drawing forth ones interest & love very fervent desire to do and by her sweet affection which is winsome

June 1902 **Hilda Palmerton.**

Is a very good Girl- Give pronounced in nothing to expect her home objections not in her dress happy in School doing only very simple things very willing Can string beads and will learn to weave after a While needs continual care if any step forward be accomplished.

Minnie Palmerton.

Encouraging asks for what she wants Knows colors and form enjoys Reading any surroundings of singing is learning to weave and in early household duty in the School is particularly neat and thorough - a very nice good Girl quiet and always pleasant.

Agusta Roff.

Has improved in her reading with very special care and is somewhat awkward in its moving very moody & nervous does not do her manual work neatly on this account. her mind on her home frankly writes to Mrs Peters or dictates them with intelligence a very good Girl if her moods be met in the right way if not very trying. Loves to have stories read to her. They have enjoyed Hans Anderson fairy tales very much and are quick to see humor —

June 1900

Emma Rasmussen.

This dear child has improved encouragingly in reading in interest in carrying home to sing & clothes on, air fancy holding it- herself has learned to weave and enjoyed the School Decoration- In all housekeeping matters she excels and is a good and diligent- worker we shou this from her playroom and are much pleased with her progress, think She will improve in Speech is observed-

Hollie Smith.

Is industrious, painstaking, interested, in all that She does her weaving & paper mats has been very good. Her interest in her School and its work is pleasing and encouraging. She has only one fault, and that is regulating the others This is one of her worries They cease- and we have to call order- Hollie has so improved in her reading hearing spelled slowly deliberately her way through. a very good pupil ever a pleasure & comfort in School.

Eva Van Epps

Is a very good pupil in School and has accomplished much in improvement- is very diligent and punctualing in all that She does. Her weaving is very even

June 1900

and all the decorative work she does very nice, can use the Scissors fairly well Has greatly improved in her reading and in her Arithmetic and Grammar Generally- is very fond of singing and likes to take the books and try to memorize them- enjoys the evening song service so much and any little talks that we may have in the improvement of our daily lives. I am one of them in these little talks and find them to be helpful will have them more frequently- The resume of Eva's year is both encouraging & hopeful.

Cora White.

Has grown out of some of her more glaring faults, altho always an irritating girl on account of her patient enduring- Cora has improved especially in her reading spelling her way along- observes the interest sometime. Can paste pictures neatly and weave nicely is always obedient- and quiet- likes the singing and often tells me of how she wants to try to do more and better- One of her great faults has been snatching speaking and we think She is going to overcome it- because it is wrong Our little lessons and talks are always on the way to betterment- in our daily lives one & over again they are needed until they become a part of reputation as in the exercises with the little ones is the way to help with the larger- Cora is encouraging

June 1902. Augusta Spriggs

Quite a bright girl very obstinate at first as she was averse to everything com[m]one nicely. String & straws threading her own needle seems to enjoy any kind of work or sewing very much a very good girl

8.30 ½ - 9.15

Kindergarten

Barlow Annie.

Does not speak aloud but has improved very much in movement, much more alert. Knows the forms and is greatly interested asks for some of the more familiar ones by sight and enjoys any busy form especially string beads and sets the pegs but very slowly encouraging in progress.

Baker Flossie.

Has improved in a very marked way is less rough in her manner is gently affectionate knows all the forms and asks very particularly for the Kindergarten with them has decided preferences. Can weave paper mats and does all the Kindergarten work tries to talk has become a much more pleasing girl very encouraging

Bell Minnie.

Minnie improves is very mischievous but comprehends her work and is very quick if in the humor at present she is weaving mats in paper and does them very nicely. Sings very nicely and is fond of Music. She is always fond of leading and is better if trusted above leading the others in the marches or helping in getting their hands folded for prayer. She is a very interesting child

1902

Emmerson Edie.

Begins to speak a little and is quite improved in as much as that she knows the various games and expresses very decided preferences. Loves to play with dolls can set the pegs quickly is much more affectionate and easily controlled.

Irene Gray.

Has improved in many way is very irritable and hard to control, if interested is full of merriment and fun sometimes very rough and boisterous can string beads and set the pegs is quite expressive in her affection. Is perfectly deaf which accounts for her noisiness.

Grimes Ethelka.

A very amiable sweet child and the greatest interest which she shows is when it is time to go she protests by saying no no. Is very interested in the games which are active is very delicate and has to be watched carefully. is improving slowly. does not do much of the work.

Hadler Emma.

Is very heavy in her movements and seemingly stupid assumes very distinctly to her home and enjoys the games but is quite quite quick enough to get the idea with

1902

the others is more slow in consciousness than any of the others. can string beads sew cards and set the pegs.

Ottilia Kuna.

Loves to play at housekeeping wash dishes &c &c can string beads and do the Kindergarten work very slowly has greatly improved in knowledge enjoys some of the games enjoys watching the others more than doing herself. Has improved generally.

Krueger Clara.

Is improving not much so loud is very fond of dec the games and is also fond of various kinds of school work a very good girl and interesting. tears her hair out and pulls out her shoe laces continually likes to come to school and is happy. She does not exhibit any of her boring propensities in school.

Lillie Lyons.

Gunness Kirsten.

Shows decided interest in her work making desire to stay in school enjoys the games and shows much more affection & encouraging in that our interest is somewhat repaid.

Hodder Emma.

Is always good whatever she does is very slow but very neat and accurate if given plenty of time is not much quickness in her body, altho she laughs and seems to enjoy the fun of the others

Kenna Athilia

Is not improving very much is very noisy troublesome deeply attached to her attendant and seems continually anxious to get back is very quarrelsome with her. Enjoys some of the games

Kruger Clara.

Is responsive & interesting can talk fluently of the days happenings something quite unlikely not dog getting a game or a song

April 1926

enjoys using the Phonics Lord Ring all pictures and all the active games

Lyons Nellie.

Seems less noisy more responsive enjoys arranging the new words the colours attract her & that she is quite changed While doing them it is only the brightness because Nellie is so deaf & cannot talk.

Butler Maggie.

Is very sporadic in her enjoyment & various games arrangements & work. What interests her one morning has no joy the next. Physically is not well grown a great deal and has times of great depression again is tragically happy and sings sweetly.

Reilly Agnes.

Does not do much of anything seems to be happy very quietly in her habits.

Sprague Edna

Gone home.

Baby Kindergarten

Boerner Martha.

Improving very slowly timid child but very obstinate sometimes leads the others and does it so prettily. Shewing that she has observed more than she always shows.

Wagner Adeline.

A timid mouthpiece child always so prompt to comply in all she does can put in the pegs & string beads and always enjoys the others games.

Morris Elizabeth.

Is improving getting stronger and encouraged by various expressions of interest. Smiles responsively where at first she was simply inert.

Kindling Marion

This dear child is improving also altho she seems very frail and delicate, but very sweet and charming.

Joseph Jennie

Is very interesting always works away and her pleasure or displeasure is very marked loves her own clothes and is amusing pronounced in her appreciation of them. Jennie is especially charming

Sept 26th 1905

Class A

Dahl Amanda.

Is a very good girl has been suffering and looks very delicate does all her work very nicely and very much a gentle friend to the others

George Marie

Improves slowly she is very fond of talking sometimes is quite unexplainable sparkle but in all respects is much better than she was. does her work nicely and is neat in her habits

Kolmberg Sarah

Is a good girl has been seriously ill very fond of reading and looks quite nicely is fond of school.

Johnson Mary.

Is much improved quiet not obstinate. does her work very nicely enjoys the games and modelling.

Rene Celia.

Is quite a study Rene lacks of humor. sometimes says something witty and expresses pain in her expressions of likes dislikes sings nicely. does school work she does very nicely. is much more quiet than she was

April

Peterson Beatrice.

Is improving bright + chatty & likes says something interesting and often something showing thought & enjoys school very much and we all enjoy having her - Has been quite ailing lately.

Palmerton Minnie.

Has not been well lately and consequently not so interested always good and ready to do what she can very neat in her work + careful in her appearance

Palmerton Willie.

Is very much the same pleasant and good has improved a little in that he tries to do a little more work than formerly and remembers what he has done

Rasmussen Emma

Is doing very nicely does her work well and is very happy in school and is not nearly so tiresome as she was in winter

Smith Hollie

Has been very busy housecleaning - and is not so interested in her school work because very kind interfere my time in assisting + entertaining them as they were wont - Hollie is always a good fire and very industrious -

April 1901

Spafford Lilian.

Has been Fractious this month but tries very hard and the effort to overcome in humor is very encouraging her moods & changes are entirely physical & the responsibility in the school room has developed core & material

Spingler Marie.

Is such a happy girl in school and has become so seemingly amiable that she affects the spirits about her to their interest does her work very nicely neatly + is not troublesome except in her demonstrations of affection.

White Cora.

Is a very good girl and has improved in many ways is interested in her school and all the work

May 1903 6.80 5 Pa 6

Barbara Irene.

Has shown more interest in things last month and has improved very much - enjoys the games and if put in a corner or to sit on the floor for punishment for any persistent naughtiness which is one of her faults she is perfectly quiet & permits to do better. She is very authoritative with the others has improved generally and encouragingly Baby Irene.

Is very happy in school and does her weaving and work most wonderfully has improved very much, enjoys the and has become a real pleasure in school because of her interest and if catered to a little does not display the temper she did biting & scratching heavily & punishing the others, has proven to show so much affection and can be appealed to by nature Last Month

Has been somewhat troublesome and passionate in the School-room for the last month or two but since leaving our School on the Lawn she is quite different - is so happy enjoys picking the flowers and running about - can do all her work very nicely has improved very much - and is a very interesting child it seems as though she has quite gotten over her habit of picking up things that do not belong to her & possibly this is because she is so carefully watched

(Irene is Recommended - Quite Recommended)

Emmerson & Elsie.

Is very happy since being out for our School hour enjoys the sunshine & flowers - and it is very interesting to see her persistency in learning to talk Elsie does not do much work or care for it specially Shows tried in the year to get her to try the School work but she is distructive and not able to concentrate her ideas specially on any kind of construction as between the blocks - She is very happy in the games and comparing her interest & development with the knowledge of her mental condition at first her attempts and good attempts at talking her improvement is encouraging

Grey Irene

Is very deaf and what seems like persistent obstinacy of her is owing to this physical trouble is very easily moved by gentle coaxing treatment Sometimes refuses sometimes absolutely & none what the others have Chastising most violent temper holds and knows always her place in the marches and keeps the others straight in this way shows full appreciation of games by her increased enjoyment full & understood her so much better that work with her is encouraging because her improvement is marked to us

May June 1903

Gunnes Ricka.

The only encouragement one could possibly suggest in Ricka is her persistency in wanting to come to school and protesting each time not to come She is an amiable gentle sweet child. how to have special supervision to keep her from any oppression on the part of the others with the comon sense to realise is perpetly possible how not to do much work her chief interest is in enjoyment.

Hedda Gunnes.

Has improved in displaying more spirit and interest very phlegmatic in body and has to be aroused every day every some is never troublesome can do some work if watched carefully all the time is very nervous in manipulation and he thand moving to displays her work by her nervousness I think she is a little less heavy in movement and more alert in games a very noticeable fact in. Gunna is the slow rate of speed with which an amused expression follows what has touched her sensibilities sometime before. This is very noticeable

1903
May June

Rema Hilstad

This child needs very individual care is very marked in her affection for certain people sometimes so devoted to her attendant that she does not want to come to School and is overcome consciously and with the changes taking place this is quite frequent- tries hard to talk and seems very loud noisy sometimes in this persistency what it is only efforts - She is quarrelsome sometimes and wants different work from the others She is petty capricious but if her interest is excited She is quite amiable full of play General improvement in various little ways quite marked - loves housekeeping in every particular

Ruger Klara.

Has been interesting has flashes of cleverness that give one thought of Gunnes is a persistent talker very hypochondriac chiefly limiting himself to the games with very wholesome zest likes his work and does it very nicely and is very fond of using the Scissors to cut out likes pictures especially, enjoys the Sunshine explorers loves to talk of the birds seen God in the Joy about us - has improved very much in every way is very delicate in body sometimes has days of being irritable consequently loses his games people in such an touching way -

May June 1903

Lyons Nellie

Displays special interest in her eagerness to come to school is certainly brighter and more intelligently interested in school than she was plays with the blocks and can put all the pegs in regularly which she could not do - is not so noisy enjoys the games taking her turn and knowing when it comes which she did not before - encouraging

Miller Maggie

I can see much improvement in Maggie. She sings sweetly knows many of the songs is very fretful and very often troublesome does not care to do much work - enjoys gathering flowers and seems intelligent about arranging different kinds likes the romping games wants much special nothing & care - her mind seems to be in various directions at one time and it is not easy to captivate her fancy & interest.

She has been at school before & often a time or some thing brings a memory to her which shows that she has had some intelligence and has associations to her

May J.

2nd Kindergarten

Bowers Martha

This little girl has grown in intelligence & interest very much in the year past that she is the leader of her little class - it is quite amusing to see her lead them in the march. She is peculiar in the little hand exercises sometimes performing them sometimes absolutely refusing to do any of them deeply interested in every romping game and loves to sweep and be the housekeeper has improved very much.

Dayton Adeline.

a beautiful sweet child always smiling and happy loves to come to school. plays with blocks dolls &c, &c, her hands are busy and she comes to do much but she knows and responds her intelligence to everything enjoys our little stories above all things is our sunshine always and we call her the sunbeam

Elizabeth Morris.

This little girl has grown much stronger in the year, at first seemed hopelessly stupid but displays great interest - sometimes does not do any work. enjoys the games and has grown to be full of mischief which she does actively - likes space to move and instead of building with the blocks likes to carry them from one point to another on the floor giving her exercise & interest - at once

May June 1903

Reading Lesson.

This darling child continues to be happy and interested and follows the others in everything she builds, puts in the pegs, sews & does her little share in the parties plays in the games sings the songs and is equal to doing her little share, has never joined in the hand exercises nor seem to hold them in prayer but has used not do without her has improved in that she is quite one of us and at first had no interest whatever.

Joseph Smith.

Has not been interesting is perfectly radical in School and her attendant says so happy in getting ready for School does not do any of the hand exercises but responds in merriment enjoys the games very much participates and is a very busy little fire. She is a little broadside in personality loves the exercises which keeps her moving can put the keys in easily &c. &c.

May June 1903

Class A

Hannah Dahl

Has been absent a great deal through sickness is a very frail body but has grown so patient & sweet in mind our little talks seems to have been quite beneficial and helpful to her. She is interested in School, readily writes and sees income and do all the work, mostly her improvement is specially in emotions of disposition and patience, and there is no talebearing.

George Marie.

Is very fond of School and her greatest punishment is not to come she is a very lovable tot her and has done her mind continually lifted in interest as she descends to ordinary, can read easily & write. She is a strong fine worker hard and often minds next in School so she does not care so much for the work but has a most intelligent appreciation of "good story" and enjoys talking about it, is most devoted to her home people is neater in her habits and has improved generally.

May June 1905

Peterson Beatrice.

Is a very engaging interesting girl handicapped by her bodily frailty - has greatly improved is companionable in intelligence and helpful to the other girls. Enjoys reading very much, has deeply religious thoughts & often wonders why she is here if she will be happier when she reaches Heaven and very many expressions showing thought. Deeply attached herself to those about her. has improved very much and is not subject to such deep depressions. and enjoyable girl

Palmerton Minnie.

Has always been a good girl and has improved in general response & interest - more alert - is happy to come to school does all the work very tidily knows colors and has done much work for the Hospital likes to listen to reading & enjoys the story day dictates her home letters with a good deal of thought - is neat - in her habits & dress

Palmerton Lillie

Follows her sister in every thing but - is not so intelligent is more troublesome in any way and has improved in showing studious interest - her attendance says she loves school very much

May June 1905

Johnson Mary.

Has improved in the year is not obstinate and rebellious as she was most - in her habits and dress in School enjoys and does very neatly all the work. In school does not read and does not care for stories likes the movies music rooms is a good girl & her attendance says has improved in her play room.

Keene Celia.

Improves is faster learns to read & write enjoys this more than anything and her display & temper are much more good than they were - She need continual direction in thought - & study interest or she too becomes vulgar - Just today has plead us by patience in not going home and saying that Dr Rogers is the very best of Superintendents hitherto she has been rebellious about not going home has a fine sense of humor enjoys a joke and often makes one. She has of course her very unhappy times. has improved most encouragingly in many ways

May June 1903

Rosamund Emmet.

Is happy in School and has improved in Gratitude & manner does not slap and punish as she did is an excellent worker in her play room and loves to be Quiet in School is very fond & singing remains does most & the School work needs special affection & care in dealing with her.

Smith Hollie.

Is a very Good girl is often free & complaints aches pains &c. & feels that she works very hard let her be Quiet in School & use soothing influences She is terribly disappointed if anything prevents her coming and no further punishment can be used than to let her she cannot come to School enjoys reading & being read to Hollie has a very solemn view of life there is not much humour in her She likes solemn subjects very neat in her dress and habits and a thoroughly Old fashioned Girl

Spafford Lillian.

Has developed much more intelligence since associating in School is reliable to do good work & things & course needing Supervision always has been absent for weeks and loves her Study She is getting

May June 1903

better. Lillian is Quite a little lady in her habits manners once in a while be comes discouraged & hopeless but many little things lead up to this She has improved generally in a marked way.

Spangler Marie

Is like a different girl Gentle Quiet interested needs Gentle persuasive management - but has never given one moments trouble in School does all the work very nicely & is eager to do it - is an interesting girl prepares to stay then go home I think when she is ugly it is because she is not properly encouraged.

White Flora.

Is a good girl does all her work nicely reads writes enjoys hearing stories reading is more truthful Quieter and loves to have Golden hour but loves trying to influence the others Flora has improved very much.

Mamie Celt.

Marches - sings - plays the games - sews cards - strings beads - chains and paper chains - (alternating two colors) is very helpful with all the children - Tidy and neat in her dress. Affectionate and easily persuaded into doing right.

Enjoys the dances and entertainments and seems to derive good in all her intercourse with people. Needs constant stimulation or she will go backward.

Elsie Emerson.

Not very attentive. Enjoys the balls and one or two games. She does not do any of the occupations and cannot sing. Is very nervous and hard to manage.

Will play alone with blocks and sticks and peg boards but fails to follow dictation.

Ricka Gunners.

Follows in the march - enjoys the balls the beads and sticks and peg-boards. Is orderly, affectionate and usually pretty good.

Louise Gutzman.

Is deaf but is never-the-less attentive in class anxious to please and tries hard to do whatever is given her to do. Does all of the kindergarten occupations in their simple forms - weaves three formulas in mats and is a good little seamstress so far as plain hemming seaming and over handing are concerned. Can sew on buttons but does not yet work a good button-hole.

Has improved perceptibly.

Irene Grey.

Very little improved. Does not seem as obstinate as at beginning of year but does no really good work. Too nervous to attach herself for many minutes consecutively at any one occupation.

Emma Hadler.

Likes to look at picture books and is happy while playing with the beads or sticks or balls. Does not respond to dictation.

Teresa Helpricks.

Does not cry when asked to do anything but I think she is simply lazy - growing a very bad habit. Is not doing any of the occupations. Does not care for the blocks beads sticks or tops but will sit quietly for a time with a picture book.

Clara Johnson.

Mind is very slow to think and body slow of action. Drags along in the march. Appears to be happy and is affectionate in disposition. Does not touch the occupations. Likes a book and will on some occasions lay pegs in boards.

Jenny Joseph.

Happy, bright and interesting. Is fond of laying pegs - stringing beads - likes the picture books and will try to sing. Plays ball and rolls hoops. Is exceedingly pleased with a doll.

Emma Johnson. Marches. Likes picture books and peg-boards and is quickly disposed. Does not improve very perceptibly.

Mary Margaret Johnson. No improvement.

Otilia Kenna. Heavy. slow to action, affectionate - buys pegs and strings beads - enjoys the entertainments and is happy with a doll.

Addie Klemer. Does none of the work or exercises. Has been in school all the year barring a week or ten day of sickness.

Nellie Lyons. Marches. marshalls the girls in line - likes the pegs and beads. Fond of picture books and likes [illegible] ion.

Maggie Miller. Sings - likes the piano - marches - likes a picture book. listens to stories and is better in behaviour than when school opened.

Josephine Monroe. Only in school a short time. Is becoming accustomed to the march and seems to enjoy all the school exercises.

Lillie Nelson. Picks flowers when out of doors.

Agnes O'Reilly. Heavy - slow to action and cares not to enter games or work.

Ada Olman. Blind. Can string beads and lay pegs. Enjoys tearing the leaves of a book and is pleased to take care of toys. Tries to sing - is affectionate and fond of attention

Bridget Buckley. Is a cripple. Sorts colored papers and places beads from one receptacle to another.

She comes to school every day and makes us all the more contented and happy because of her. good-natured patient and cheerful disposition.

Marie George. Is not as fretful as of old. Likes to do all of the Kindergarten occupations - makes a neat scrap-book - has made two nicely sewed work bags - hems and seams and over hands nicely - sews on buttons - marches - sings and is quick at learning new songs.

Lizzie Henry. Cheers us all by her extreme good nature.

Josephine Lawson. Marches. Does the work given to her and does it very well. Is especially fond of carpet rags and patch work. Is always good natured and easy to please. Deaf and dumb so does not participate in any games or songs.

Annie Johnson. Marches - responds to any requests made to her. Is easily pleased and fond of those who make friends with her. Sews a seam - over hands nicely and sews on buttons. Tries to do the button hole but it is not successfully done.

Emma Jenny. Marches plays the games - sews a little but is generally too much interested in things outdoors to stay long at any work in the school room. Talks incessantly unless literally sat on and is hard to manage on some occasions.

Celia Keene. A hard worker on the grades on occasion. But in the school room is not a very great success. However she has learned to seam and over hand nicely. Has successfully completed two nice work bags and a pin cushion. The pin cushion is cross stitch embroidery and is well done. Sews on buttons and does any of the kindergarten work.

Marches and sings but is generally "too tired" to join in the games!

Brigetta Lampland. Marches - plays the games - makes paper chains - strings beans and papers - makes a nice seam - over hands nicely - pastes a very prettily arranged and neat scrap book - and is thoughtful of others when there is any work to do.

Presses sewing neatly with a flat iron and is helpful and willing to run errands and generally does them pretty correctly.

Is friendly and almost always kindly disposed towards every body.

Margaret Morrissey. Marches - tries to sing - plays all the games we have tried - seams and over hands nicely - sews on buttons and is good in nearly every particular. Enjoys the Kindergarten work but when any piece of work needs delicate handling she needs to be watched as she is apt to tear or soil the material.

Is happy - affectionate - and easy to manage.

Rose Nichols. Marches - sings - plays the games - sews very nicely and is always to be depended on when errands are to be done. Uses a hot flat iron to good effect and is an all round good girl. Does not handle the Kindergarten material very cleverly but in regular routine house Art and in the more common occupations - sewing darning etc. she is very good.

Minnie Palmerton. Marches - sings - plays the games - enjoys all of our morning exercises - overhands and seams nicely - sews on buttons - has successfully completed two nice work bags and lined one work basket. Makes chains of paper and of papers and strands - weaves mats - (one formula) strings beads and pastes pictures in scrap books. But in the last she has to be supervised closely else the pictures over-lap and look untidy. On the whole is a pretty good girl and I feel that she has improved considerably -

Nellie Minnie Palmerton. Marches - but with little life or animation. Sews in the same way. Difficult to rouse interest in her in anything.

Emma Rasmuson. Marches, sings, plays the games - Is affectionate and pleased with attention. Sews a plain seam, hem hands beautifully - hems very nicely and likes to do it. Does not handle the Kindergarten material very well but is fairly good at making a scrap-book.

Marie Springler. Enjoys the marching songs and games. Is clever at plain sewing. Does errands pretty well. Is quiet and attentive in school.

Affectionate and much pleased with the least attention.

Enjoys the walks and romps out

of doors. Gathers many flowers and is clever at making wreaths.

Nellie Smith. Seams - over hands - button holes - and hems and hem stitches very well.

She does not join in the marches but is always industrious. Has recently learned to baste the patch work for the other girls - lined very prettily and neatly a work basked - completed three pretty work bags and is clever at almost any kind of needle-work.

Laura Joplin. A good scrubber but she did not learn that in the school room.

Over hands after a fashion - sews carpet rags well and is pretty clever at scrap-book work.

Marches and appears to be pleased with the singing. Too old to accomplish a very great deal of good.

Clive Thornton. Marches and appears to be much interested in the music. Likes to be noticed and is always pleased with a little attention be it ever so little. Sews and makes chains and does the scrap books rather neatly.

Does not seem to join much in the games or to have received any lasting good from the school work.

Agnes Dib.

Marches - and plays ball - also enjoys the running games and blindmans buff. Does not seem to be able to accomplish much with her hands and does not give attention long at any one thing any way.

Cora White.

Does all of the kindergarten work, marches - sings and likes the ball toss - games. Is to tame to join in all any of the physical exercises or games.

Has successfully completed one work basket - three work bags and one sofa pillow. Quite a difficult pattern too. Uses hands and seams nicely and does plain hemming.

Lydia Gray.

Does all of the kindergarten occupations sews - crochets and makes a dandy scrap-book. Is very quiet and Industrious.

Marches, sings but does not join in the games.

Seems never to have fully recovered the loss of her baby "Gertrude".
