Percentage of the Willing and Unwilling Conscripts

The Provost Marshal General, in his report on the operation of the selective-service act, says:

What proportion of men now certified into the National Army went willingly or unwillingly? The actual state of mind, of course, can not be known. But the filing of an unsuccessful claim for exemption or discharge is at least an index of unwillingness, and the figures here show as follows:

Conscripts.	Number.	Ratio to total certified.
1. Total certified for service in the National Army.....	1,057,363	
2. Involuntary conscripts (failed to appear, or filed unsuccessful claims for exemption or discharge).....	418,309	39.56
3. Voluntary conscripts (filed no claims for exemption or discharge)	639,054	60.44

and in Croxton, Weehawken, and Jersey City yards, 4,581 cars, and on line for which advance billing was on file, there were 1,413 cars. The aggregate capacity of the three yards listed is approximately 5,000 cars.

Youngstown, Ohio, January 12.—No congestion. On the Mahoning division of the Erie Railroad, for the 24-hour period ending at 4 a. m. January 12, 857 loads and 122 empties were handled, while for the corresponding period last year 1,195 loads and 382 empties were handled. There are 210 cars held on this division for points east of Port Jervis, N. Y., on account of embargoes, the number so held, however, having been decreased by 265 cars since January 7. An accumulation of empty, open-top cars at Youngstown for the Pittsburgh & Lake Erie has been entirely relieved. Interchange is not congested with the exception that at midnight on January 11 the Erie had on hand 139 cars for the Baltimore & Ohio, and there were 41 cars on the Baltimore & Ohio for the Erie. An embargo on loads for eastern points placed by the Baltimore & Ohio tends to restrict free interchange between these two lines.

On January 12 there were 1,372 cars
