Hennepin
Good Star (Officers)

Because our roster of service men contains the records of only about 800 officers out of an estimated total of nearly 3000 we have compiled this officers list from all sources now at our disposal. Where not otherwise noted the record of the officer noted is among the official records. All entries containing the letters "MSR" indicate our only source of information is the military service record filled out by the service man at the time he applied for a state bonus. These records are on file in the office of the Minnesota War Records Commission at St. Paul, Minn.

Official records of these last mentioned will likely be obtained and added to the main file within a few years.

Abbreviations in most cases are those used by the war department.
