Personal and Medical History of *Ella Sample*

Whole No.	364	No. for year,	70
Residence,	Bloomfield. Fillmore Co.	Insane Relations,	none
Date of Admission,	October 13th 1882.	Cause,	Typhoid fever
How sent,	Judge of P. (E. Farrington)	Form,	Dementia
Sex,	Woman	Accompany bodily disorder,	None
Age,	28	Suicidal or not,	Not
Civil condition,	Single	Date of attack,	1868
Children,	None	Duration,	14 years
Occupation,	None	No. of attack,	First
Degree of education.	None	No. of admission,	First
Profession of religion,	None	Age at first attack,	14
Habits,	Good	Time of leaving,	Feb 1 1884.
Nativity,	Illinois	Time in Hospital,	1yr 3m 19d.
Predisposing cause,	Not hereditary	Result,	Died - Marasmus.
Correspondent,	Harry Sample (Bro.) Spring Valley		Fillmore Co. Minn.

This woman was brought here by her brother and sister and with the following history. Fourteen years ago had Typhoid fever and after the fever seemed to have little or no recollections of any thing previous to her sickness. Besides loss of memory there was irritability of temper, and at times became very violent and attempted to injure others. restraint has been used at her home for several years whenever she would have one of her paroxysms. On admission, she is very very fat the largest woman in the house. she has an idiotic look a silly laugh, cannot answer a question correctly. Is very filthy in her habits.

Nov. 1. Removed from 2nd to 3d Ward. Is extremly filthy in habits. Sits in one position nearly all day. Twice since admission has had her ugly spells, and had to be put in restraint for the day.

Dec. 1. No change in any particular since last note. Very filthy.

March 1st 83. No change. Ugly at times. very fat & very filthy.

June 1st No change since last note.

Sep. 17. Troubled of late with bloody evacuations from bowels - Treatment by Laudanum & starch injections - Has hæmorrhoids

Oct. 16. Again troubled with Hæmorrhage - Laudanum & starch again used.

Dec. 1. Demented - filthy - profane, obscene - Appetite enormous, eats raw eggs. Physically - as well as - mentally, failing - No longer fat. Noisy at night - requiring frequent sleeping doses - Often in restraint (camisole). Very destructive. Sits in one position all the time, doubled up like a jack knife.

Dec. 13 1883. Visited by brother & his brother-in-law - said she knew her brother & remembered her sister - but took no more notice of her visitors than this. Has diarrhœa again - Rp. Laudanum & Starch injection - & Diarrhœa mixture.

Dec. 16. Diarrhœa better - Is in camisole - swearing & yelling.

" 17. Another Laudanum & starch injection.

" 18. In bed - Special diet ordered.

" 27. Restrained & locked up.

Jan. 1. 1884. Failing very much - Very noisy - Chloral & Bromide of potash seem to have little or no effect on her.

Jan. 2. Has to be strapped in bed with camisole on - Diarrhœa - Weak.

" 9. Visited by brother & sister. Brought upstairs to see them - Recognized them. Walks with difficulty.

" 10. Abcess forming over left knee. Exploring needle only drew thin, sanious bloody coloured fluids. Bandage put on

" 14. Bed sores - Rp. Carbolized cosmoline.

" 15. Abcess has burst. Is discharging bloody pus. Opened with knife lower down than point of discharge & put in piece of linen for drainage. She is helpless - rolls out of bed onto floor if not tied in.

" 17. Morph Sulph. gr 1/3. to quiet her.

" 25. Abcess forming over right knee. Rp. Tr Ferri Chlor mxl. Quin Sulph gr ii. Glycerin. f 3ss. B. I. D - post cibum. Kept strapped in bed - has hurt herself badly by falling out.

Jan. 28. 9 p.m. Very cold - pulse weak. Rp Brandy f 3ij every hour for 3 doses.

" 29. Rallied from chill & became noisy & feverish - Chill & fever probably caused by pus in right knee. Is terribly emaciated.

" 30. Abcess over right knee opened - a quantity of sanious, bloody pus discharged. Dressed with bandage & absorbent cotton.

Feb. 1. After being very noisy all night, died this a.m. at 5.30. Her friends were notified by telegram of her death.

Feb. 2. Brother & sister came here and removed the remains.

Died

This woman was brought here by Court commissioner W. A. Houston, and with the following history. When sixteen years old commenced having epileptic fits and has had them ever since at intervals but they seem to be more frequent as she grows older. Not having any relatives or friends to help her, she has been for the past ten years at the County poor farm, and while there has had three illegitimate children. She is said to be very profane and obscene in her conversation.

Nov. 1. Thus far has conducted herself in a very quiet manner. Helps to work some on ward & in laundry. R Tonics.

Nov. 15. Has been sent from 3d to 2nd ward. Will scold & threaten at times. Works a little on ward and in laundry.

Dec. 1. Same as last note, asks to be allowed to go home occasionally

March 1883. Cross & irritable at times. Works some in laundry.

June 1. Mentally & physically the same. Works in Laundry and kitchen.

Aug. Has epileptic seizures frequently - Has been for some time & is now on Bromides of Potash.

Sept. 17 - No change - Fits frequent. Works in kitchen - Asks to go home - Says she won't stay here if she cannot be cured of her epilepsy. Bromide continued.

Dec. 1 - Nothing special to note - R. Bromide of potassium.

March 1. 1884 - Very excitable - Often gets into fights with other patients. Clean neat & tidy - Works in kitchen - Fits frequent - R. Bromide

Dec. 26-'84. Frequently gets excited but as often promises to behave in the future. Fits vary from several a day to once in two months. Physical health good. Works on ward or in laundry sometimes. R. K Br. gr. xxx B.D

March 13 1885 - No special change. Now works regularly in laundry or on ward. Is as emotional as ever. Medicine continued.

June 8-1885 - No special change. Medicine continued. Works daily on ward or in laundry.

Sept. 25-1885 - No fits for last two months. No change mentally. Works on ward.

Dec. 8-1885 - Had one fit last month. No change. Works on ward.

Feb. 22-1886 - No change. No fits recorded last month. Works daily on ward.

May 28-1886 No change. Works daily on the ward. Medicine continued.

Aug. 23-1886 - No special change No fits recorded last month. K Br continued.

Jan. 14-1887 - No fits reported last month. Works daily on the ward No special change. K Br continued B.D.

Apr. 27-1887 - No fits since last note until two days since, when she had several. Works daily on the ward. Has been rather less irritable & less hysterical.

July 14-1887 - No fits during May & June. No special change in mind or habits. Bodily health good. Works daily on the ward. Medicine continued.

Sept. 27-1887 - No fits reported last month. No change in mind, body or habits.

Jan. 6-1888 - No special change. Works daily on the wards. R Br continued

Apr. 6-1888 - No change - Occasionally so noisy as to need some restraint. Medicine continued - June 29-1888, No change - Oct. 4-1888. No change - Cranky as ever. Feb. 17-1889. No change - May 13-1889 - Has had a black eye from a fall while in a fit - Otherwise, no event of note. July 23-1889. No change, Health good and probably less irritable - Does little work.

March 13-1890 No change of note - Still irritable & quarrelsome Health good Bromides daily - No fit reported lately June 2 1890 Had a fit yesterday the first for some time - Very quarrelsome and abusive Works in dining room - Occasionally Bromides still continued - Oct 10-1890 - Very irritable of late. Scolds in a loud voice. Works in dining room occasionally - Has sore throat which gives her pain at times. Has been in bed three days on account of it since Sept. 90 -

Nov 27 1890 No change for better. Oct 25 Had five fits Oct 26 Had two Nov 6 Very abusive taken to 34 & locked up all day Nov 6 two fits Nov 8 two fits Jan 24-1891 Has complained almost constantly lately of some bodily ailment, first one thing and then another without cause. Lies around on sofa with her shawl on, hair mussed up calling for her mother, scolding or moaning. Growing more feeble minded all the time. Says she will never be any better. Going to die soon etc. Has been taking Bromide Potash three times daily. Cathartic pills occasionally and various other medicines which she asks for almost every day

This woman was brought here by her husband and accompained by an Officer and a lady friend of the patients. The history states that the present attack commenced last December, and has steadily continued. Some two weeks ago was confined with her sixth child. and since that time has been very wild and excited, especially toward her husband, and has attempted to injure those about her. She brought the babe here with her, but it was sent back with the lady that came with her. Patient is in good physical health, but complains of pain in the head.

Nov. 1. Is improving both mentally & physically. Is quiet neat and tidy, does no work. Takes Tonics twice a day.

Nov. 15th Continues to improve. transferred to 1st Ward. always quiet neat in dress and habits. Tonics and cathartics.

Dec 1. Always quiet. talks very little continues to improve. Tonics & cathartics.

March 1st 83. Full of delusions. thinks her husband dead. does no work. to speak of. neat in dress & habits. Some medicine continued.

June 1st. Has improved somewhat in regard to delusions. quiet. neat and tidy in dress & habits. Works on ward and in sewing room.

Aug. 11th. So much improved that she was to day allowed to return home with her husband on trial.

Discharged.

Nov '94 Quiet, works on ward, mumbles to himself in low tones, He coughs a good deal. April 20th 1895 Mentally the same Physically is failing some has lost flesh Has a dry hacking cough with no expectoration nothing else found on physical examination. —

May, June & to July 31/95. During the quarter, patient has been quiet & well - behaved: talks to himself in low tones: Works some on ward. He is failing in health & is now quite Emaciated. Coughs a great deal, & is a medicine. Habits are clean. No change noticed, mentally. —

Aug Sept & to Oct 31/95. Patients condition does not seem to change much, if any, from Month to Month. During August, he was still reported as much troubled with his Cough; but, during past two months, this cough seems to have been easier & less distressing. Quiet: works on the ward. —

Nov 1/95. Wt 137 lbs. P 78. Resp 30 of 95. Quiet: works on ward: continually working his fingers & mumbling. Habits clean: health seems poor: and he coughs a good deal.

Dec 31/95. Patient seems rather stupid of late. Does no work: Otherwise, as above.

Jany 31/96. Dull, stupid & demented: No work: filthy in habits & untidy in dress: have noticed change in patient, for past 6 weeks.

May/97. Summary Nurses Notes by Dr. Phelps. Feb. 1/96 to May 1/97. Patient works on ward. Talks a great deal, occasionally scolding in a threatening way: Habits are clean: health for most part good. At times he coughs a good deal. This has been his condition for 4 years past. May 1/97 to Jan 31/99 May 1 Wt. 132 lbs. Works on ward, is quite neat. A chronic case, thoroughly demented. Sept 30 is noted as Coughing some.

Dec 5/97 Trans. to Infirmary. Seems to be failing of late. Temp. somewhat high. Groans considerably: Cannot tell what ails him. Temp. once up to 100°. Usually not above 100. Complains considerably. Has gained some what & is today up. Arteries are quite atheromatous. The unconsciousness which came on is supposed to be apoplexy but there is no paralysis & the recovery seems to be quite complete.

Jan 1/98 Appears to be failing some: At times is dazed & confused. Ankles & legs somewhat swollen Feb. 1 Wt. 136 lbs Limbs swelling: put to bed. Feb 4 Examination of urine made - large amount of albumen found. Has slight rise of temperature. Respiration high Mch 4 Patient died at 7 P.M. Has failed quite steadily since last note - Nurses notes kept on file. Patient had both consumption of kidneys & lungs also toward last there was marked heart failure

Died.

This man was brought here by the Sheriff of Steele Co. and with a very poor history of the case as little or nothing is known about him. Has been kept in the County Jail for several weeks, and at times was kept in restraint. On admission patient seems to be very much depressed hardly answering a question, is in fair physical health.

Nov. 1. Is inclined to be ugly and stubborn. Seldom speaks
Eats well. quiet at night, untidy in habits.

Nov. 11. No change in his condition, ugly & will strike the other patients
Eats & sleeps well. Physical health good. No medicine indicated.

Dec. 1. Same as last note. Masturbates. Blisters for it. strikes other patients.

March 1st 83. Sullen & ill-tempered seldom speaks, does no work. Untidy.

June 1. Mentally about the same. works outside nearly every day.

Sept. 17. Works outside – no change.

Dec. 9-1884 – Worked outside and has been trusty ever since last note. When irritated has struck patients. No special change. No medicine

Feb. 26-1885 – No change. No medicine. Does no work. Goes walking.

May 30-1885. No change; has a habit of scowling and walks away when spoken to. [illegible]. No medicine. Works a little outside

Sept 12-1885 – Works outside – No medicine. No change.

Dec. 9-1885 – No change. Worked outside during the fall.

March 5-1886 – No change. Does no work. No medicine.

June 7-1886 – No change. Works daily with the farmers. No medicine.

Sept. 7-1886 – Last notes still hold true.

Jan. 7-1887 – No change mentally. Has gained flesh. Still works daily with the farmers. No medicine. Apr. 7-87 Last notes still true.

July 7-1887 – Was sick in bed the first two weeks in June, confined there by abscess of knee with erysipelas. Since June 20th he has been taking a tonic mixture C.C.D. He is quite run down in bodily condition and has a very poor appetite.

July 27-1887 – Appetite much better. Is improving.

Sept. 27-1887 – Bodily health good. Works daily with farmers. Mental state unchanged.

Jan. 6-1888 – No special change. Bodily health good. No medicine.

Feb. 26-1888 – No change. Does no work. In detached ward. No medicine.

June 25-1888 – Last notes still hold good

Sept. 27-1888 – Has been working lately with the farmers. Bodily health good. No noticeable change in mental condition.

Jan. 14-1889 – Works outside occasionally, but spends most of the time on the hall doing nothing. Never says anything and he is probably slowly growing demented – does now like a demented. Apr. 27-89 – No change. Does no work

July 20-89. Works daily outside. Bodily health good

April-11-1890 – Behavior the same – health good. July 16/90 Works daily outside. No change. Nov 27/90. No change. Feb 20-1891. No noticeable change. Works same as ever out doors. No medicine. Health good.

June 2nd-91. Demented, listless, works out doors. Good health.

Augt-91 No change. Works in garden daily. Dec 1st 91. Same day. Demented. Health good. Dirty + untidy. P 78 Soft + regular. Works daily on farm, wants + to be by himself and is of a rather mean disposition. Will quarrell and fight with anyone without provocation.

Feb 14-1892. About the same. Works as usual out doors. Talks to himself, answers only when spoken to – incoherent. Walks out, works well and willingly.

May. 28-92 { Eats well and has good color. Talks to himself, answers only when spoken to – incoherent. Walks out, works well and willingly. Dresses and cares for himself. Weighs 140, eats well and works well. Talks incoherently and has very little to say to anyone. Is strong.

Sept-6-92. Works well. Dresses and cares for self, but is slovenly. He is ugly and fights.

Nov. 10 – Health good – works outside, is inclined to be ugly at times

Mch 6-93 Wt 151 – no change

May 31. 93. Is a quiet harmless patient a little timid & afraid of the others. Works on farm every day. Health good. July 31 93. Works on farm. Untidy in dress. Walks the floor while on ward. Health good.

Sept 28 93 A quiet harmless patient, seems to avoid the others, works on farm. Health good

Nov 5, former note good up to date. Nov 24. 93 A quiet harmless patient works on farm, seems to avoid the others when on ward. Health good Dec 28 93 No change. Jan 31 94 same. Feb – March + to Apl 30/94. There does not appear to be the slightest change in this patient's condition for the past year or two notes above, for that period, still hold good. Works at the farm every day. Health seems good. – May 29th 94 Patient is quiet & well-behaved when on ward, works on farm every day, tries to avoid the others as much as possible, never speaks unless spoken to. Health apparently good. June 29th 94 Former note good

July 25 94 No change.

This man was brought here by Chief of Police E.J. Ingalls. and with the following history. February last the right arm became paralyzed extending in a few days throughout the whole right side of the body. Aphasia was marked, could not speak a words, but would keep up a moaning and crying almost continually. In August had an attack of Apoplexy, the paralysis has continued since it began. On admission the patient is unable to speak a word so as to be understood, moaning & crying continually is almost helpless, has great difficulty in swallowing and is unable to feed himself.
Oct. 31st. Slept very little last night, moaning & crying constantly.
Nov. 3d. No change is almost helpless. can only swallow with difficulty.
℞ Tonic, sherry wine, Fl. Ext. Ergot gtt XX bis in die Chloral at night.
Nov. 11th No change. Same treatment continued Special diet.
Dec. 1st For the past week has made considerable improvement. does not moan & cry. appetite better. can use his right hand & arm a little. same treatment continued, except no chloral at bed time.
Feb. 1st 83. Is in bed almost constantly. has to be fed. failing.
March 1. Confined to the bed. has to be fed. Tonics & special diet.
April 1st Failing fast is unable to help himself. Same treatment contin'd
April 3d Visited by his wife to day. Is very weak cannot live long.
April 25th Died to day. Remains taken home.

Died

Fred A Mead. from 141

Feb. 1st 95 Wt 147 p. 73. 28th appetite good. bowels normal. no cough. appears to be in good bodily health. Behavior at times quarrelsome. generally fair. no complaints or injuries. talks in a very indistinct tone & is childish & feeble minded. Is an Epileptic. works in laundry is clean. March 95 Wt 149 p. 74. 31st no change. Apr 1st Wt 151. p. 74. 18th for several days has had a swelling of left cheek which originated in the tooth ache & has now culminated in an abscess. the jaw bone was laid bare today 19th. left cheek was opened upon to day, & he now feels much easier. is fed on bread & milk.
Apr. 30th 95 cheek con'd to improve. is able to take ordinary food & resumed work in the Laundry. May 30th the same as Feb 28th. May 1/95. Wt 146 pds. Pulse 78. May 31/95. Appetite fairly good. bowels regular. no cough noticed. Is an epileptic, in ordinary good health. Behavior quiet. If not teased or annoyed, when he becomes profane. Makes no complaints. Talks very indistinctly: Manner simple & childish. June 1/95. Wt 144 pds. Pulse 92. June 15/95. No change & report June 22/95. Patient has been complaining the past few days. Last Sat. felt well and he coughs considerably & Coughing, his throat appears to become constricted & he has great difficulty in Expectorating. June 25/95. He still has severe Coughing spells, pain in throat, breast & abdomen. Throat inflamed & swollen. was given pinus Compound. Has remained in bed, part of the day. June 27/95. Coughs so much at night that he gets very little sleep: was unable to swallow even liquid food, this morning June 29/95. Still Coughs very much: pitches after each paroxm: gets very little sleep. Has given mattress June 30/95. Can now swallow very little. Case seems developing into one of "Whooping Cough": sleeps very poorly. July 1/95. Transferred to "Infirmary Ward East", at 1 PM. Apparently run down & quite weak. Coughs & complains of pain in chest. Put to bed. July 2/95. Wt 127 pds. (In bed). Still has severe coughing spells, both by day & night. Restless & sleeps very poorly. Eats fairly well. July 3/95. Still Coughs, though less harshly than before. — July 15/95. Still coughs severely at times. Restless at night & sleeps poorly. Appetite keeps fair: bowels regular. Is out on lawn, in Roller chair. July 19/95. Wants to get up & dress. July 23/95. Is getting some better. Does not cough so hard nor as often as before. Is taken out on ground in Chair, daily. — July 27/95. Quite cranky, today: Refused to go out in chair. July 31/95. Still has severe coughing spells; on the whole, has improved much. Mentally, no change noted. (See attached record) Aug 3/95. Transferred to A4, at 11 am. Aug 31/95. Sleeps well: appetite good: bowels regular: is on extra Diet: goes out walking about the grounds. Coughs very badly, at times. Sept 1/95. Wt 151 pds. Pulse 84. Sept 8/95. Patient makes no complaint: Cough seems more & more left him. Has liberty of the grounds. Sept 27/95. Got up in ward last night & fell in a Convulsion on the floor, but received no marks. Sept 29/95. Fell in a convulsion, while outside & bruised his face slightly. Oct 1/95. Wt 150 pds. P 70. Is again working in laundry: has again been troubled with a cough the past 3 days: claims he caught cold: Otherwise is about as usual: makes no complaints. Oct 11/95. Patient was seized with a Severe Coughing spell last night: coughed till he Expectorated blood. Oct 31/95. No change noticeable: Works in laundry, at times. (See attached record).

	Martin O'Brien (Father) Richland. Rice Co.		

This woman was brought here by her husband & father. and with the following history. Was married the 9th of this month and the excitement of that occasion is said to be the cause of her present condition. for the past thirteen days restraint had to be used as she would tear off her clothing and attempt to injure others. Four years ago she had an attack lasting about one year but was kept at home.

She has refused food and medicine for the past ten days and is very much emaciated. moaning and talking. breath very foul, bowels constipated, will tear off her clothing unless restrained. Put on 2nd Ward gave her medicine & food with stomach tube

Nov. 1. Was fed again this morning same as last night as she will not take anything unless compelled to. Gave injection this morning which caused a free evacuation from the bowels

Nov. 4. Will now take medicine & food without use of tube but is very incoherent & excited in restraint most of the time sleeps very little at night or day.

Nov. 11. Refuses to take food or medicine and have to give both by tube, is constipated all the time needing cathartics two to three times a week. very destructive to clothing. Camisole most of the time.

Dec. 1. At times will eat & take medicine without trouble. Delusions that she will be poisoned. Tonics. Cathartics. Special diet. Chloral at night

Feb. 1st '83. No material change since last note. takes medicine better.
March 1st. No special change. Very thin in flesh. eats & sleeps well.
June 1st. Improving both mentally & physically. works on ward & sewing room.
July - 3rd. 3 day allowed to return home with husband on trial.

Discharged.

Sep. 5 - 1883.

Jas. Lyland (from 92)

Feb 28 '95 (cont.) talks very much to himself in a rambling & incoherent way, stands in one place most of the day has a habit of rubbing his head with handkerchief - which he will continue for hours, is cleanly in habits. March 1st '95 Wt 117 p. 81. 31st No change. Apl 1st Wt 113. p. 86. 30th no change. — May 1/95. Wt 115 lbs. Pulse 72; irregular. June 1/95. Wt 111 lbs. Pulse 76. July 1/95. Wt 114 lbs. P 89 July 9/95. Patient stepped out of a window this morning, before breakfast, & went away a short distance, but was shortly afterwards returned toward. July 31/95. No change noticeable, during the quarter either mentally or physically, nor in conduct, behavior or action &c. Health fairly good. Aug 1/95. Wt 113 lbs. Pulse 70. Sept 1/95. Wt 115 lbs. Pulse 72. Oct 1/95. Wt 116 lbs. Pulse 86. — Oct 31/95. No change noticeable, during the quarter. very talkative; also quite noisy, at times. Continually "asking somebody for a job". Clean in habits: goes walking. Nov 1/95. Wt 115 lbs. P 82. Dec 1/95. Wt 117 lbs. Pulse 86. Jan 1/96. Wt 116 lbs. Pulse 76. Jany 31/96. No change noticeable, during the quarter, though he is rather more noisy, of late. Stands or sits in one place, mostly all day. Is nearly blind, & has great difficulty in walking about. Does not go out walking. Is slouchy in dress. — Feb 1/96. Wt 111 lbs. P 100. March 1/96. Wt 113 lbs. P 72. March 30/96. Seems very weak, today & stupid: has been sleeping mostly all day; can hardly wake him for meals. March 31/96. Brighter today: otherwise about as usual. Apl 1/96. Wt 117 lbs. P 80. Apl 30/96. No change noted, during the period: quite noisy at times: continually talking about work: "asking for a job": wants to go away & get something to do: nearly blind: has to be helped around: clean in habits. Stands in one place all day, unless moved: goes walking at times. (Is senile & quite feeble. Dr H.) May 1 '96 Wt. 117. Pulse 78. May 31 Has been more lively of late & not quite so noisy: otherwise no change. July 1 Wt 115 P 84. July 31 Has been talkative & somewhat noisy during month. Is quite feeble. Aug 31 No change. Sept 1 Wt. 112 P 88. Visited by niece this afternoon. Oct 31 No change in condition, either mentally or physically. Nov. 1 Pulse 76 Irregular & intermittent. Is quite feeble but never complains. Appetite is good. Bowels in good condition. Sleeps well. Does not go walking. Continually rubs his head "to keep off the Devil". Very noisy at times. Habits clean but dress untidy. Dec 1st Complained of headache - vomited: put to bed. T. 99° P. 84 R. 24

This man was brought here by Deputy Sheriff and was committed by J.H. Streeter, court commissioner. The patients history is very meager and for a man who has lived there for several years very few qustions were answered on the commitment papers, and the fault was that of the Court commissioner. On admission he seems to be in good physical health, but has delusions in regard to his food, certain days he thinks he must take only milk, on some other days must abstain from food altogether. gave him Calomel gr x. Jalap gr xv. at bed time. Seidlitz powder morning.

Dec. 1. A case of chronic constipation requiring cathartics often.

Eats better than he did & sleeps well at night. asks to go home.

Jan. 2. '83. No material change. does no work. neat in dress &c.

Feb. 1. No change. asks to go home frequently. No medicine.

March 1. No special change since last. does no work. neat.

June 1. Somewhat improved. wants to go home. does no work.

Sep. 18th. Has improved since last note. Still has delusions. Thinks those who touch him will go crazy.

Dec. 9 – 1884 – Has had two or three attacks of physical weakness, and during these he does not want to eat, sodad byd. Visited by his brother last winter, but was not willing to speak to him. When has these attacks wants to go home & cook for himself. No medicine. Sometimes helps a little on the wards.

Feb. 28 – 1885 – Visited last week by a friend. No change. No medicine

May 25 – 1885 – No change. No medicine. Delusions continue.

Aug. 31 – 1885 – No change – no medicine. Nov. 6-85 – Visited by two brothers.

Dec. 7 – 1885 – No change. No medicine. Does no work.

March 5 – 1886 – No change. Works daily on the ward. No medicine.

May 11 – 1886 – Sent home alone on trial today. No change noticeable.

Correspondent,	Owen Monaghan (Father). Hokah. Houston Co.		

This patient was brought here by her Father and sister. and with the following history. When seven years of age had a fit for the first time, in the beginning she would only have them every three or four months, but steadily increasing in in number, until now she will have several in a day at times, and just before these paroxysms she is destructive to clothing and furniture and had to be confined in a room at her home. She was under medical treatment for two years but without effect while she was home. On admission she looks very pale and anaemic, speaks with difficulty. She is very small for her age. Shall put her on the Bromide of Potass. Dec. 1. Has had only one fit since admission that is known.

℞ Bromide gr XX t.d. eats & sleeps well, very quiet all the time.
Jan 2d '83. Fits very often lately, at times she is very ugly and will strike the attendants and other patients. Bromide continued.
Feb. 1. About the same as last month. very cross & irritable.
March 1. No change. Fits frequent. ugly & noisy at times. Bromide Contin'd.
June 1. Fits not so frequent of late. Wants to be let severely alone.
Sep 18th. Visited by sister — & who gave following account of her history:— She had infantile convulsions almost immediately after birth (supposed to have been brought about by a fright her mother had during pregnancy) — His convulsions were frequent & became worse during an attack of "Whooping cough."

When the child grew older, her sister says, she acted strangely — but she did not consider her to be really insane — convulsions until she was 7 years of age. As to her condition at present: — There is no improvement whatever, except that she is improved physically — Looks fat — Has bromide acne. When she is in the midst of an epileptic ~~attack~~ period she is better tempered than at other times.

Dec. 26-'84. During menstruation is always more apt to have fits. Occasionally goes on a tear and mauls any patient, or attendant she can reach, and smashes things. During these times she thinks her medicine is poisoned & is better tempered when she has her fits. Sometimes has as many as twelve fits a day. ℞ KBr. BC.
March 5-1885 — Continues the same. Still takes KBr. Recently burned on the arm by falling in fit on a radiator. Filthy.
Jan. 2-'85. Filthy — spits on floor. Fits growing less frequent and less severe. Medicine continued. No work.
Sept. 18-1885. No change. Five fits noted last month. Dec. 2 — Seven fits last month. No particular change.
March 1-'86 — Eight fits noted last month. KBr continued.
May 28-1886 — Rather less irritable than formerly. KBr. recently discontinued.
Aug. 30-1886 — No change. Medicine resumed, as fits became very frequent without bromide. Has had no fits this month. Sept. 15 — Visited by her sister.
Jan. 14-1887 — Fits occur nearly daily, but, as a result, her disposition is proportionately improved. KBr continued B. & D.
Apr. 22-1887 — Fits reported on six days last month; on two days so far this; she used to have as high as eight fits a day. Habits clean. KBr continued.
July 15-1887 — No fits reported last month, two fits during May. No change except that habits are dirty. Still irritable, quarrelsome and violent.
Sept. 27-1887 — No special change, except that she is a trifle more amiable. KBr. continued. Habits somewhat dirty.
Jan. 6-1888 — No material change in habits or mental condition. KBr continued.
Jan. 26-1888 — Has been losing strength steadily for last week. In bed to-day. Is stupid and weak. Condition seems to be due to her fits.
Jan. 27-1888 — Still in bed. Is looking better, but is very ugly.
Jan. 28-1888 — Was seen this morning just before breakfast; nothing unusual was noticed. Immediately after breakfast was found dead in bed; no evidence of having had a fit. Yesterday she had seemed very much better. Was seen several times during the night by the night watch, who noticed nothing remarkable in her condition.

Died.

This woman was brought here by Sheriff T. J. Sheehan and accompanied by her Sister Mrs Collins. The patient presents the following & somewhat meagre history. About four years ago she was receiving the attentions of a man whom she expected to marry, but who turned out to be a married man. this so preyed on her mind that in the Fall of 1879 she manifested symptoms of insanity and for several months had to be watched constantly to keep her from wandering away from home. She has been under medical treatment at different times but with no apparent benefit.

Nov. 25th Gave her this morning. Tinct Rhei et Tinct Colon aa ʒiss. and at night Chloral gr xx. She is full of delusions.

Dec 1st Eats well, & sleeps well without the Chloral at bed time very neat and tidy in dress and habits. walks about the ward a great deal. wants to get married thinks she is lost unless she does, and that God will not pardon her unless she marries. R Tonics morning and night

Jan 2nd 83. Improving mentally. works on ward & in sewingroom.

Feb. 1. Not so well for the last week or two, delusions of fear &c.

March 1. Some improvement since last note. more quiet. In sewing room considerable.

April 9th Improved rapidly since last note. & to day was sent home alone.

June 6 Discharged

Predisposing cause,	Not Hereditary	Result,	Died: Epilepsy + intestinal ulceration
Correspondent,	Daniel Reids (Father) Otello P.		Olmsted Co. Minn.

This young man was brought here by his father and with the following history. Has been subject to fits from infancy, which have increased in frequency and severity as he grew older, until now he often has two to three fits a day. Occasionally several days will pass without his having a fit. Patient has been burned very severely at different times by falling on the stove in a fit. Has had considerable medical treatment from traveling quacks, also from other so called doctors who advertise so extensively through the newspapers, but with no benefit whatever. Put him on the Bromid of Potass gr XX t.d.

Dec 1st Had a fit this morning, the first one since admission it was not very severe. Bromide continued. Eats & sleeps well.

Dec 6th This morning about 5 o'clock became frightened, thinking some one in his room with a gun to shoot him, he jumped out of bed, broke through the window and ran about two miles before the attendants could overtake him. Had his toes frostbitten but suffered in no other way from his run.

Jan 2nd 83. Toes healed up and he is on the ward every day. Fits very frequent. Poor health physically. Tonics & Bromides.

March 1st No change mentally or physically. Fits frequent. Same treatment.

June 1 No change since last note.

Sept 17. Treatment – Bromide only. – somewhat improved –

– much so physically & slightly mentally. Supervisor states he has not observed him to have a fit for several months.

Oct 12 – This a.m. attempted suicide by beating his head with a spittoon – He made a flesh wound – so slight as not to need dressing – on his scalp. He said he intended suicide – but seemed so much to regret what he had done that no restraint was deemed necessary.

Dec 9 – 1884 – No change. No medicine. No marked. Goes walking

Feb 25 – 1885 – No change. No medicine. Fits every 3 – 4 days.

June 1 – 1885 – Does a little work on ward and talks more than formerly. Thinks fit falls on back of head. Seven fits recorded last month. No medicine.

July 1 – 1885 – Picked in chin by patient (Bacon); chin cut and three teeth knocked loose. Wound stitched. Fits quite numerous and regularly keeps back of head sore, though it is often dressed.

Sept 11 – 1885 – Has been very quiet since last note – Fits less frequent.

Dec. 7th 1885 – No special change since last note. No medicine.

March 9 – 1886 – No special change. Fits reported on eight days last month.

June 4 – 1886 – No change noticeably. Fits reported on five days last month.

June 7 – Visited by his mother. Sept. 2 – 1886 – No special change. Fits on 2 day in Aug.

Jan. 4 – 1887 – Fits reported on 18 days last month. No medicine.

Apr. 7 – 1887 – Fits noted on eleven days last month. No special change in mental condition. Does no work. No medicine.

July 26 – 1887 – Fits reported 12 days last month. No change in mental condition as he has not for a long time been almost completely demented.

Sept 27 – 1887 – Fits reported 10 days last month. Is subject to paroxysms of violence when recovering from fits during which he sometimes attacks others.

Jan. 6 – 1888 – No change noticeable. Does no work. No medicine.

Feb. 26 – 1888 – No special change. Fits reported on ten days last month.

June 25 – 1888 – Fits on nine days last month. No special change in mind or body.

Sept 27 – 1888 – Seventeen fits reported last month; occur about any other day.

Jan. 14 – 1889 – Appetite poor. Fits last month; otherwise bodily health is good. No medicine.

Apr. 27 – 1889 – Seven fits last month. Not dirty now. Mental condition unchanged.

July 20 – 1889 – Eleven fits last month. Very dirty. Became manly one day last month and was put in myrtle. Will not groom ourselves. April – 11 – 1890 – Behavior unchanged. Has a fit every few days, but does not seem to fail at all rapidly.

July 16/90 Health fair. Fits occur rather infrequently. Get hurt occasionally in falls. Is rather ugly at times. Makes up faces when addressed. No work. On bromides. Nov 27/90. Fits continue occasionally. No material change.

Feby 11/91 No change. Fits occur occasionally July 13/91 No change.

Dec 10/91 Was again put on bromides after being without for some time.

Feby 5/92. Wt 139½ lbs. Appetite good. Functions regular. Has headaches. Fits 4 in number during January. Speaks none or only when addressed, quietly; goes out walking; about ward but little; slow; dresses self; clean but slouchy. Is ugly. Fighting. On Bromides.

March 4/92 Wt 144. lbs. Pulse 80. May 19/92. Had a convulsion last night. May 30/92. Had a convulsion last night. April 4/92. Wt. 145 pds. Pulse 96. April 13/92. Had 2 convulsions recently at night. May 3/92. Wt. 141 pounds. Pulse 92. May 10/92. Had a convulsion last night. June 3/92. Wt. 138 pounds. Pulse 80. July 5/92. Wt. 135 pds. Pulse 104. Aug 3/92. Wt. 135 pounds. Pulse 92. Aug 16/92. Quiet and sleeps well. Irritable, but doing no harm usually. Dull. Has lost some in body weight; cause not apparent. — Sep 5/92. Wt 132¾ pds. Pulse 92. Oct 4/92. Wt 134 pds. Pulse 80. Oct 5/92. Scratched his own neck with a fork & says that he wants to kill himself. Nov 2/92. Wt 137 pds. Pulse 69. Nov 28/92. Again scratched his own throat & threatened to kill himself. Dec 5/92 Wt 135 3/4 pounds. Pulse 74. Jan 3/93. Wt 135 1/2 pds. Pulse 99. Jan 5/93. Quiet at night. Demented & irritable. Health about as usual. Feb 2/93. Wt 132 pds. Pulse 90. Feb 23/93. Scratched his own neck with a nail.

This man was brought here by Chief of Police E. J. Ingalls, and with a very imperfect history. History of the case, as the patient is a stranger in Rice Co. and when questioned talks in a confused manner and is unable to give any account of himself, his friends or home. He was arrested five days ago in Northfield for acting in a strange manner and denuding himself, and upon examination was found to be insane and was committed to the Hospital. On admission he complains of severe pain in the head. Pupils of the eyes contracted. Seems to be in good physical health. Can give no account of himself. Gave him a strong cathartic at bed time to day.

Dec. 1st Complains of the pain in his head. Rx Bromides 6 d.
Jan 2nd 83. Improved very much mentally. always quiet & good natured.

This man was brought here by Mr Herman Gunz and with the following history. Has had several attacks but present one commenced about one year ago with an attack of jaundice. and he has not been well since. He threatens the lives of his family and for the past three months has had to be watched closely Has had considerable medical treatment for the past year. but without any apparent benefit. On Admission the effects of jaundice are well marked he is yellow as saffron. complains of constipation. poor appetite and sleepless nights. Put for the present on the Saline cathartics and aromat Spts Ammon ter in dec.

Dec 22nd Last night jumped through the window from 2nd ward bruising himself some but no bones were broken. refuses to eat and to day fed him with the tube. Yellow as a saffron bag. Same treatment continued & special diet.

Jan. 1883. Hobbles about the ward on crutches. is quite lame from the jump through the window. Same treatment continued

Feb 1. Full of delusions thinks he is to be killed. not near as yellow as he was, seems to be improving very much physically. Visited by Wife & Brother last month. asks & pleads to go home.

March 1st Since last note has been more quiet. Is quite yellow again.

June 1. No special change in any respect. does no work. Quiet.

Sept 17. Walks on hall. Still jaundiced. No change.

Oct 30. Was today allowed to go home with wife on trial, at her urgent request. Did not seem to care for his wife at all - nor was he very desirous to go home. On the whole he is slightly improved.

Discharged.

Mr. Coerr was brought here by Messrs R. L. Love & C. Von Campen and accompanied by his Wife. He was in an intoxicated condition, having been on a spree for several days past. He has been addicted to the use of liquor for years, but for the past year has drunk to excess. Last October he had an attack of Delerium tremens lasting four days, and I, (Dr. V.) treated him for it, at his house; after he recovered from the attack he made the most solemn promises never to touch another drop again; but in less than two weeks was on another big drunk. Lately he has grown so bad that it was found necessary to have him committed to the Hospital for treatment. He was brought here on Saturday eve. the 23d inst. Voluntarily on his part, and the necessary commitment papers were made out on the following Monday.

Dec. 27th. The first three days was very nervious and restless and wanted to go home, but on being told that he was committed as a regular patient & could not go, he quieted down. Has been taking Elix Pro 3 it four times a day. appetite is improving very much.

Jan 6th 83. Progressing finely, eats & sleeps well, reads & writes a great deal, and smokes almost continually. Wife visits him nearly every day.

Jan 15th Continues to improve eats & sleeps well & Elixir Pro.

Jan 24. To day was allowed to go home. March 8.

This man was brought here by Mr. E.K. Whiting, Ex Sheriff. The patient presents a very poor and incomplete history. Some six or seven years ago he was sent to the Hospital at St Peter. was discharged from there improved and since that time has been living a sort of vagabond life. tramping fishing &c. Sleping about barns Straw stacks and in the woods. He had no friends or relatives that help or take any interest in him whatever. On admission is ragged & dirty, cannot keep himself quiet a moment sleepless at night. a small sized man and very thin in flesh. Gave Cathartic & will follow with Tonics.

Feb. 1. On the move almost continually acts very silly. untidy in dress & habits. No medicine indicated. Eats well.

March 1. Very restless & mischievous both day & night. no medicine.

June 1. No Change.

Sept. 18. Not quite so restless as a short time ago. Has paroxysms of restlessness & then spells down for a time. Has had no restraints on since last note. Before these has been occasionally. The attendants say he masturbates. Has been caught attempting most disgusting practices. & very filthy.

Dec. 9 - 1884 Somewhat quarrelsome recently. Otherwise no change. No medicine. Visited by friends and relatives during the summer

Feb. 27 - 1885 No special change. May 29 - 1885 No change; no medicine.

Sept 10 - 1885 - No change - No medicine - Escaped for a few hours one day in August - Dec. 9 - 1885 - No change. Habits dirty & destructive.

March 9 - 1886 - Not reported dirty. Otherwise no change. No medicine.

June 4 - 1886 - Still as at last note. At work. No medicine.

Sept. 6 - 1886 - Last notes still hold good. Jan. 4 - '87 - No change.

April 7 - 1887 - Habits much better. Saucy and clownish, as usual

July 23 - 1887 - Habits reported dirty. No change otherwise in mind or body.

Sept. 27 - 1887 - Has remained about as at last note until last night, when he had a paroxysm of excitement and became very noisy. Bodily health good. No medicine.

Jan. 6 - 1888 - Quiet, but somewhat mischievous. Bodily health good.

Feb. 26 - 1888 - No change noticable. June 25 - 1888 - No special change. In in detached ward. Bodily health good. No medicine.

Aug. 1 - 1888 - Has been very wild and mischievous lately. blistered for masturbating.

Sept. 27 - 1888 - Still wild and troublesome, but not as bad as at last note. Habits untidy, but not dirty. Mental condition not materially changed.

Jan. 14 - 1889 - Quieter than at last note; but still grimacing and grotesque.

Apr. 27 - 1889 - No special change since last note. July 20-89 chatters much & full of grotesque grimaces and gestures. Bodily health good. Does no work and keeps his clothes disarranged. April-11-1890 - Health fair Behavior the same -

July 16/90 Health only fair. Active bodily runs around ward; up around often at night. Somewhat noisy. Peculiar in action. No work no medicine

Nov 27/90. No change. Feb 20-90. No change noticible unless that he is more quiet than former notes discribe him to be. June 3-91. No change. Runs around ward and performs all sorts of queer antics. Good health.

Aug-6-91. No change. Health uniformly good. Very restless. Minds everything.

Dec 1st 1891 Tuesday Demuntia. Health good. Dirty untidy. Acts queer. Very restless at all times but not ugly. Goes through all sorts of strange antics. Pretends to be fishing hunting etc. Minds tools etc.

Feb-17-92. No change. Restless as usual. No work or mischief.

April 27-92. Very restless this morning attendants had to hold him in seat to prevent him from injuring himself by peculiar excitement. Ordered him blistered for masturbating. [Weighs 119½ Lbs. Full looks well. Talks freely, unruly, profane, incoherent and to self] Does not

May-28-92 Wards much & promptly, so noisy by loud talking, yelling, singing & pounding. Is slovenly & in good condition & weighs 125 has medicine appetite. eats regularly and is well. Talks unruly & profane, delusions, incoherent

Sept-6-92. & to self. Very much so and is clean. works industriously. Dresses & cares for self, is slovenly & destructive &

Nov. 10-92 Wt. 118 - Health fair - talks considerable, is dirty & good natured, has to be looked after considerable - Mch. 6-93 Wt. 125 - Health good - goes walking, works none May 31. 93. Is a noisy troublesome patient, always annoying the others & frequently gets into trouble. He does no work Very filthy in his habits. Health good a silly restless patient July 31 93 No change. Sept. 30 93. A harmless patient, Very noisy at times, untidy in dress & filthy in habits. He does no work Health good Oct. 31. 93. No change Nov 30. 93. A troublesome patient, rolls & tumbles on the floor and at times bumps his head against the floor or table, as if he were trying to knock out his brains. He is filthy in habits & untidy in dress He does no work. Health good Dec 31 93 No change. January 31. 94. No

This man was brought here by Dep. Sheriff R.C. Burkhardt. and presents the following history. In March 1882 he had an attack of intermittent fever which seemed to affect his mind as he has been growing worse mentally from that time until it was found necessary to send him to the Hospital. He has delusions of fear. thinks his neighbors wish to injure him and deprive him of his property. He has had some medical treatment but with no apparent benefit. On admission he seems to be in good physical health is quite fat. talks at random. tongue coated. pupils contracted. Gave him strong cathartic.
Jan 13th Did not sleep well last night. cathartic acted well.
Jan 14th Gave Chloral gr XX at bed time and he rested well
Feb. 1. Very quiet. seldom speaks. Tonics & Bromides & Dil phosphor acid. Chloral at bed time. Is in good physical health.
March 1. Making some improvement mentally. always quiet. Same treatment.
June 1st Mentally same as last note. Always quiet neat & tidy. Rx Tonics.
July 20th Escaped from attendant who was taking him out with others & got into fire-rooms – The fireman did not recognize him as a patient & paid little attention to him – Before he could be prevented he jumped thro' the fire doors into the furnaces – & was hauled out dead.

– Died –

Alexander Marshall.

has been very noisy & troublesome of late. Feb – March & to April 30/94. This patient is violent, at times. Talks incoherently. Has "spells", when he will jump across the floor on hand & feet and bark like a dog. He does no work. Health is good. (Was successfully vaccinated on April 24th) – May 29th 94 Is rather noisy & troublesome, will strike & bite the others without any apparent cause, talks incoherently, is rather destructive, does no work. habits rather filthy, dress untidy, health apparently good. June 29th & July 27th 94 No change, Aug Sept & Oct 94 Is noisy, restless, & at times violent does no work. Speech incoherent, habits clean, dress untidy, health good. Bit a piece out of fellow pats up the alley dog, was very violent & had to be held for a time. Nov '94 Demented in behavior, at times violent & strikes – bites or kicks those near him. Speech incoherent. April 30th 1895 Above note still descriptive of patient. Health seems good although patient is not very stout. May June & July 31/95. No change in anyway, noticeable, during the quarter. Generally quiet: demented: incoherent in speech: does no work. Habits clean: health apparently good. Aug Sept & to Oct 31/95. During the early part of this quarter, patient was reported as rather excitable and quite noisy, at times. Of late, however, he has been rather quiet in behavior. Habits rather filthy: speech incoherent: Health seems good. Nov 4/95. Wt 119 lbs. Pulse 88. Nov. Dec & to Jany 31/96. No change to note, during this period. Still very excitable: Incoherent: Health good. No work. Feb March & Apr 1896 Patient is restless & rather violent at times: does no work: Speech incoherent. Health good
May, June & July '96 Generally quiet but at times jumps & dances about in a maniacal manner: Speech incoherent & irrational: Does no work: health good. Aug Sept & Oct 96 No change to note in behavior, or in mental or physical condition since last note. Wt Aug 15) 114 lbs Pulse 108.
Nov. 1. Wt. 120 Pulse 90. Nov. Dec. & Jany 97 Patient's physical condition good. Mental state very weak. Behavior fair: Does no work: Is often noisy & restless. Feb 1 Wt. 121 lbs. Pulse 80.
Feb. Neck & Ape. Eats & sleeps well. Behavior restless & noisy. Very untidy in dress: Does no work: Physical condition good: mentally no improvement. Summary Nurses Notes. May '97 Wt. 124th July 3 97 Visited by brother: Patient is very silly in behavior. Talks in an imbecile way. Has been unchanged for many years. Jan 31 99 General condition unchanged in any essential way. Feb 1 – July 31 99 Court & Dr. Wanous. Feb Wt. 141st July 3 Appetite good: Habits untidy: Demented: No change of note in condition during period. Aug 1st – Jan 31 1900 (By Dr. Chapple.) Wt. 137th Physical condition good & demented: at times noisy & mischievous. Talks little: Does nothing. ——
Feb 1900 – July 31 1900. (Dr Chapple) Wt. 136. Pulse 80. July 20. Vaccinated no result. Very little change during period. Very inactive & untidy: Does nothing: Physical condition fairly good: At times destructive in habits. ——
Aug 1 1901 Wt 136½ Pulse Nov 30. Patient's Condition remains about same, all the time. Does nothing.
Jany 1902 No change to note: health good: does no work: is inactive & untidy. Talks but little.
Feb 28 Wt 139th April 30 Condition remains about the same. July 31. Little change of importance.
Feb 28 1903 Is simply "in the way": Does no work: fairly quiet: Habits are cleanly. July 31/03 No change
July 31 1904 of importance: does no work: is very mischievous, troublesome & frequently striking others, without provocation: health good. Jany 31/04. Visited by brother. Jany 05. Visited by Crocker –
July 31 1905 – No change: does no work. ——

This young man was brought here by Mr Laird. He is one of a party of 35 young men who were sent to this country from England last April, to be placed on farms to learn American farming. He was in poor health when he arrived in this country, and has been unable to do any work to speak of. He has been caught in the act of masturbating by different parties and since being here has confessed to having practiced the vile habit for the past two years, and has got to be so bad both mentally & physically that it was found necessary to have him committed to the Hospital for treatment.

Jan 16th Slept well last night. put on tonics & Bromide potass. also blistered him this morning to prevent his masturbating.

Feb 1. Blistered again. Same med. continued. neat & tidy in habits.

March 1. Seems to be making considerable improvement lately, has a very impudent way of speaking at times. Same treatment Contin'd

March 31st Has recovered and was to day allowed to go away.

This man was brought here by an officer and with only the Warrants, no commitment was made out. he was first committed to the Hospital Sept. 1. 1879. and June 9. 1881 was discharged improved. and is now in about the same condition as when first admitted.
Feb. 1. Lives in Basement. Quiet neat in habits. No medicine.
March 1. No change in his condition. In good physical health.
June 1. Same as last note.
Sept. 1. – No longer in basement (for B'ds) – No change –
Has delusions – Thinks if any one touches him & he does not touch him in return, a bad influence will be left on the person touching. Works on hall.
Dec. 9 – 1884 – Has same delusions – no special change. Visited by a neighbor during the summer. Works a little on the wards. Feb. 25-1885. Works a little more regularly on the ward. No other change.
May 30-1885 – No special change. Works on ward. No medicine.
Sept 2 – 1885 No change – No medicine – Often stops to tell an imaginary ailment or trouble.
Dec. 8-1885 – No change. No medicine. Works daily on the ward.
March 6-1886 – Last note still true.
June 11 – 1886 – No special change. No medicine. Works daily on the ward.
Sept. 6 – 1886 – Last notes still Hold good.
Dec. 2 – 1887 – Does no work; otherwise no special change. No medicine

April 8 – 1887 No change, except that he works some on the hall.
July 25 – 1887 – Does very little work. Bodily health good. Mental condition unchanged. No medicine. Sept. 27-'87 – Deluded, but usually quiet. Occasionally becomes excited and demands immediate release. Does little work. Bodily health good. No medicine. Jan. 6-'88 – No change. Mch 26 – 1888 – Works steadily on the ward. Is as deluded as ever.
June 25 – 1888 – No change noticeable. Is in detached ward.
Sept. 27 – 1888 – No change. Works daily in dormitory & detached ward.
Jan. 14 – 1889 – A steady and industrious housekeeper. Still asks occasionally for his release. Apr 27 '89 – Visited since last note by his son. Is as deluded as ever.
July 21 – 89. Works faithfully on ward every day. Is quiet and tractable, speaks only when addressed but is much deluded. Health good.
April – 11 – 1890. Health good – No change in behavior.
July 16/90 Sick abed for few days some time ago. Very little sick. Now up on ward. Health good. Thinks he is put & kept here by "the company" about which he talks much. Wants to go. No work.
Nov 27/90. No change. Feb – 20 – 1890. No work, no medicine. Mental condition about the same. Not very tidy and inclined to be dirty.
June 3. 91. Is doing no work now says he will not do any to cause he can not go home. Good health. No medicine. Clean and tidy. Aug 6 – 91. Good bodily health, pleasant, speaks sometimes of going home, says he has a family, plenty of means and can support self better than the state does. Not so very crazy after all.
Dec 1st 1891. Thursday Dementia. Good health. Clean & tidy. Pulse 78, soft & regular. Quiet and always pleasant. Will not work. Thinks it is a poison for him to touch any thing. Notation patient Landis. Feb. 14 – 1892. No change in status. Quiet and pleasant as usual. Speaks of going home.
May – 25 – 92 { weighs 154, eats well & has good color. Talks freely and calmly. Reads and walks around. Works well and willingly. Dresses & cares for self, is clean, tidy and good natured. weighs 153; eats well and slowly and looks well. Talks freely and calmly. Says "the company should take better care of him" Sept – 6 – 92. Has delusions same as before. Sometimes says "the devils annoy him again and give him his liberty." Reads at times. Converses, walks about ward well & is prompt. Works steadily, and willingly. Dresses and cares for self and is good natured. He has delusions and imagines that some people outside call the company" annoys and mysterious influence over him.
Nov. 10 – 92 Wt 154 – health good – works some on ward, causes no trouble, is clean – Nov. 17 – 92 struck by a patient & he retaliated – He says he is peaceable & wants to know why the company keep him here – Takes no med. Mch 6 – 93 – Wt 153 – Health good – Frequently asks to go home.
May 30 – 93. He is a quiet harmless patient, undisturbed, walks the floor a good deal, often asks questions as to the time of the year. He does no work. Health good. July 29 – 93 No change. Sept. 29 – 93 A quiet demented patient, walks the floor a good deal, seldom speaks. He does no work. Health good. Oct 5 – 93 Same as last. Good
Nov 28. 93 A quiet patient, very nervous, walks the floor a good deal, talks a little when spoken to. He does no work. Health good. Dec 23. 93. No change. January 31. 94. Same.

This woman was brought here by Dep. Sheriff Anderson and accompanied by her son. The history of the case says she has been insane for the past three years during which time she has been kept at home. Lately she has become so violent that her folks could not manage her and she was committed to the Hospital. On admission she is very noisy. seems to be in good physical health. Has not had any medical treatment.

Feb 6. Slept well last night. has a good appetite. Is very filthy in habits.

March 1. No special change since her admission. generally quiet. Filthy.

April 2. Is making some improvement. not as filthy. works some on Ward.

June 1. Improving both mentally & physically. quiet neat & tidy. Works some.

Oct 22. 1883. Troubled with Keratitis & some white infiltrations of cornea of left eye. It commenced with an erysipelatous inflammations of face. It is very obstinate. All kinds of treatment having been tried. It was using a Glycerine of Zinci Sulph. 3 grs to the ounce. Is also taking tonic. Glycerine f 3ss, Quin. Sulph. gr. j. Tr. Ferri Chlor. gtt v. F.I.D. ante cibum.

Oct 24 – Visited by daughter – Mrs Reed. Seemed pleased to see her.

" 25 – Daughter being particularly desirous to keep her at home, & promising that she should be well taken care of. She was today allowed to go to Minneapolis – in charge of daughter. She is not as well mentally as she was 3 months ago. Very irritable. Has very peculiar likes & dislikes. has occasionally attacked people. Profane & obscene. Has a bad habit of spitting. Answers questions, but somewhat incoherent. Went walking, to chapel &c. Looks neat & tidy. Sometimes in restraint for violence. Was on 2. W. W. Did no work. Her eye was much better when she left. As compared with her condition on admission she is somewhat improved.

Nov. 28. Mrs Reed (her daughter) writes that she is doing very well & asks for her discharge.

Discharged.

This woman was brought here by her husband, and with the following history. Two months ago fell from a step ladder, and a week later was frightened by the explosion of a lamp and from that time manifested symptoms of insanity she was constantly in fear of some impending danger and for the past five or six weeks had to be watched constantly night and day, to prevent her injuring herself or others, imagines she is the devil & cries out in a loud voice that she is the Devil She has been under medical treatment since the commencement of her attack by Dr Seeley of Morristown with no apparent benefit. On admission. she is very noisy crying out that she is the evil One and that she must kill everyone. Physical health very good.

Feb. 11. Did not sleep a wink last night very noisy at times. eats well.

Feb. 12. Slept very well most of the night. and this forenoon has been very quiet. after dinner very noisy again & no restraint – very filthy.

March 1. For the last week she has been very much excited and noisy night & day requiring restraint constantly

March 7th. This morning while the restraint was off she ran to a window & breaking the light jumped out before she could be caught by the Att. who was near by. from about 20 yards

March 14th Very noisy & excited. no restraint all the time, Delusions of fear.

April 2nd Quiet and on the ward most of the time. R Tonics, Chloral at night.

June 1st 83. About the same as last note. R Tonics. no chloral at night.

Sep – 17. Very much improved – Works regularly in employees' dining room.

Oct – 18. Allowed to go home with husband – on trial.

– Discharged –

Dec – 5 – 1883.

This man was brought here by his son and with the following history. That although not a church member he attended meetings & read the bible a great deal, about three years ago. and tried to preach to the people was constantly talking on religious subjects. and has continued in the same way ever since, Has attempted suicide of late & was so unmanagable that it was found necessary to have him sent to the Hospital. On Admission he seems to be in good physical health but is very talkative and altogether on religious subjects.

March 1. Continually talking about preaching & religious subjects otherwise is good natured and makes no trouble eats & sleeps well.

March 14. Very talkative. wants to go to Sweden to preach. Cathartics only.

April 2. Principal talk on religious subjects. asks to be sent to Sweden.

April 28. Has improved considerable & was allowed to go home to day with his son, who was anxious to take him.

June 6. Discharged.

Judge of P. notified.

This man was brought here by Officer J.C. Seastrand. and with the following history. Very little is known of patients former history. it is said to have been insane in Norway and probably has never entirely recovered. Of Present attack nothing is known. Is said to have led a very intemperate and immoral life. He is in very poor health physically. Filthy in habits & somewhat destructive to clothing.

March 14: Quiet and orderly. appetite poor. not noisy at night. Has a very bad cough raises a great deal. lungs in bad shape. R Tonics.

April 2: About the same. bad cough. R Tonics and expectorants.

April 30: Works outside every day on lawn or in garden and is improving.

June 1st Works outside on farm & in garden every day. No Med.

Aug 26th Is said to have had fits every day for a week - Ordered Chloral & Bromide - one dose - & Potassii Brom gra xxx J.S.S. for seven days.

Sept - Treatment - Bromide gr. xxx - B.I.D. at 7a Belled. M & E. B.I.D.

" 17. Treatm.t - Bromide only - Very indiscretions - inclined to overwork. Fits scarce - but not quite so frequent

Nov. 11 - Has very foul breath - + for his has been taking Sod. Salicylas for past two weeks - Had no effect - Tonics ordered Fluid - gr. x. B.I.D.

Dec. 9 - 1884 - Worked all the year outside. Breath still foul. Visited by friends twice during past year. Has taken K Br. gr xxx B.I.D.

Dec. 26 - 1884 - No change, mentally. Medicine continued. Still works outside. Physical not as robust.

May 30 - 85. No special change. Was recently struck on head by Felton, another patient, but received only a severe scalp wound which has healed rapidly. K Br. continued. Three fits last month. Works outside and on the ward.

Sept 3 - 1883 - Was as usual up to July 28 when carbuncle appeared and Bromide was stopped - Aug 9 - was put on Bromide again as fits were frequent and he was quite stupid - Since that time he has regained his usual condition

Dec. 8 - 85 - No change. Works outside. Medicine continued.

March 5 '86 - No change mentally. Troubled some by a cough. Works outside daily.

June 7 '86 - No change. Had one fit last month. Medicine continued.

Sept. 4 - 1886 - Had one fit in July. No special change. Medicine continued.

Jan. 2 - 1887 - No fits reported for a long time. K Br continued. Works daily with the farmers. Apr. 8 87 No fits since last note. Works as above.

July 25 - 1887 - Fits reported five days last month. No special change in either mental or physical condition. Works daily with the farmers.

Sept. 27 - 1887 - No change noticeable. Bodily condition good. K Br continued

Jan. 6 - 1888 - Complains some of pain in chest, occasionally has a cough. Mental condition about as it has been for two years past.

March. 18 - 1888 - Bodily and mental condition both worse. Cough has been quite troublesome and he was several days confined to bed. Is thin & anaemic. Is cross, irritable and quarrelsome, talking and scolding to self much of the time.

May 29 - 1888 - Eloped this morning. June 16 - 1888 - Returned from Red Wing by Marshal Seastrand.

Sept 27 - 1888 - Fits still rare - none last month. Mental condition and general behavior a little better than it was last spring; works daily on the ward recently tried to elope, jumping from 2d story - shamming foot & lame. Slept to fits yesterday. Bodily condition very poor. Mind still very much confused.

Jan. 14 - 1889 - Works daily on the ward. Is in better condition, bodily & mental. No fits last month.

Apr. 27 - 1889 - No fits last month. Works daily on the ward. Medicine continued gr. xl B.I.D.

July 20 - 89. Vitality became low and medicine was stopped with benefit. Fits then recurred medicine was resumed in diminished doses. attempted to escape by climbing down pillar of balcony. Works daily on ward. mental condition unchanged. Physically rather weak. R Elix. Iron et Cinch

Nov. 2 - 1889 Patient for few days has seemed bewildered & has done foolish things. Has had several fits - Today had a fit about 3 P.M. & after coming partially out, relapsed into a deep coma which went right on to death which occurred at 6.30 P.M. Hypodermics of Brandy & Belladon - at 4 P.M & at 5 P.M did not bring out the slightest sign of consciousness or pain.

This patient was brought here by Mr James March a neighbor. and the accompanying history states that she has been getting worse for the past months. pain in the head sleepless nights & constipation. She was discharged from this Hospital March 1. 82. Improved. she went home with her son where she has lived until recently.

On admission she acts and talks very silly complains of the same troubles as when admitted before she is very stout. Ord wi Fl. Ext. Cascara Sag. bis in die with Bromide & Chloral at bedtime.

March 27. Cascara acted well rests better nights & is much quieter.

April 2. Has quieted down. rests better at night Chloral stopped.

May 1. Has made considerable improvement. On sewing room every day.

June 1. Helps in dining room & sewing room every day. Cathartics often.

Aug - Troubled with habitual constipation - ordered - R/ Cascar. Sag. & Tr Belladon - 10 drops of each twice daily for some days.

After some days treatment discontinued -

Sep - 17 - No medicine - Looks rather discontented & sallow - but is well behaved & quiet.

Dec. 26 - 84 - Is very fleshy and getting more so. Is full of delusions and always wants to go home. Has spells of weeping, but these do not last long; at other times is jolly and good-natured and works daily in the sewing room. Habits good. Visited by husband in spring. Occasional cathartics

March 3d '85 - Mental condition seems somewhat worse - often sings at night. No medicine. Works in sewing room.

June 1 - 1885 - Conduct rather worse, and was recently sent to B-4 ward for smoking in chamber. Had worked regularly up to date of last performance. No medicine.

Sept. 21 - 85 - Has remained well behaved, working daily in sewing room. No medicine.

Nov. 30 - 85 - No particular change except that she works very little in sewing room.

Feb. 20 - 1886 - Has been confined to bed for over a week with glossitis arising from a papilloma underneath her tongue which has lately increased rapidly in size and taken on an ulcerative action.

May 25 - 1886 - Papilloma ulcerated off. Works daily on the ward. No special change.

Aug 26 - 1886 - Works daily on the ward. Lately has been more noisy - cross - scolding.

Jan. 13 - 1887 - Considerably quieter. No special change otherwise. No work. No medicine.

Apr. 21 - 1887 - Scolds daily. No improvement or special change. No work.

July 15 - 1887 - Scolds or swears daily. Does no work. Delusions continue.

Sept. 27 - 1887 - No special change. Bodily health good. No medicine. No work.

Jan. 6 - 1888 - No change in mind, body or habits. Profane & obscene.

Apr. 5 - 1888. Less noisy, but inclined to loud talk. Otherwise well and making no trouble. June - 29 - 1888. Is on A3 - Is quite quiet at present. Sits about doing nothing - Oct - 4 - 1888 Was been more noisy - Recently a Certificate for $30 was found in one of her dresses. Feb - 17 - 1889 - No change in any way.

May - 13 - 1889. Sits in end of room - Occasionally noisy. Talk mostly of genealogy of her family -

March 12 - 1890 Condition about the same. Talks volubly & spoken to sings sometimes for hours at a time. Generally very quiet. Does no work. - Bodily health good. May 21 1890 Noisy at times. No change

Nov 27 1890 Has visited her yesterday. No work. No change

Initially Jan 24 - 1891 Health good. Usually calls herself John Hardin or Martin. Changes her name occasionally but always takes a man's name. Usually very quiet and good natured. No work. Too large and fleshy to get about easily.

May 25 - 1891 Health good. No change in any way.

Oct 8 - 1891 Health Good. No change.

Nov 14 1891 Health good. Very fleshy. No mental change

Jan 20 1892 No change

Feb 23 - 1892 General health good. Almost always good-natured. No work. Sits quietly upon the ward

May 10 - 1892 General health good. Cannot get her out walking or riding during the cold weather. Was not here last fall. Very large and fleshy. No mental change

Returns After Six Years.

After six years of wandering in parts unknown, C. L. Zimmerman, a State Hospital patient, returned to the institution. He seemed vaguely to appreciate that he needed to be cared for, and his clouded mind retained sufficient reason to lead him back to the hospital. A week ago he came alone and of his own free will, indicating to the officials his mental condition. It is plainly evident that he is unbalanced. He is mild in disposition but mutters to himself in a demented fashion.

Zimmerman was a resident of Rice county prior to his commitment to Rochester. After his escape six years ago every effort was made to ascertain his whereabouts. He was quite a violent patient then and had threatened the life of members of his family. As the missing man never appeared at his home nor gave any evidence of his existence to those who knew him, the matter was regarded as a mystery beyond solution. It was hard to believe that he was alive and working for his living without showing signs of his insanity. But such must have been the case. He is unable to tell what he did during those long six years, but it is learned that he came from northern Iowa. Beyond that his life is as hidden as though he had been dead and had suddenly come to life. As soon as he returned to the hospital here, Judge Hunter of the probate court in Faribault, which committed Zimmerman, was notified of his strange return.

INSANE MAN LOST SIX YEARS.

C. L. Zimmerman of Rice County Returned to Asylum.

Faribault, Minn., Special, Dec. 17.—Judge Hunter of the probate court has been notified that C. L. Zimmerman, a resident of Rice county who escaped from the insane asylum at Rochester six years ago, has returned to the asylum. He gives no account of himself during his absence.

Rice

This patient was brought here by Mr. & Mrs. A. Dun Barlows Son, and accompanied by his wife, & the following history. First symptoms of insan manifested about one and a half years ago bu of the time up to within the last month able to a his business. a short time ago attacked his wife and tearing her clothes from her in the stree has threatened to kill her and all his children. Says that he is controlled by some misterious power. Says he expects to lose his property. On admission complains of pain in the head anterior part. he has a pale unhealthy look, and complains of constipation. and sleepless nights. Was put on Fl. ext. Cascara Sag. bic in die with Bromid & Chlorid at bed time March 27th Cascara have acted well. now Rx Elix ferri et cinch bis in die. Cathartics as required. Eats well & sleeps much better.

April 2nd Very stupid for the last day or two Rx Tr. Gent. Comp & Dil phosphor. acid.
April 20th Goes out every day walking with the other pts and plays foot ball
May 1st Same as last note. does no work. Same mid. continued
June 1. Since last note is more stupid & silent does not go out much,
Sept 17. Seems to enjoy dances in chapel — Talk has delusions about his family — whom he detests.
Jan 1. 1884 Nothing special to note. Pt. Tonics continued — Was visited

Returns After Six Years.

After six years of wandering in parts unknown, C. L. Zimmerman, a State Hospital patient, returned to the institution. He seemed vaguely to appreciate that he needed to be cared for, and his clouded mind retained sufficient reason to lead him back to the hospital. A week ago he came alone and of his own free will, indicating to the officials his mental condition. It is plainly evident that he is unbalanced. He is mild in disposition but mutters to himself in a demented fashion.

Zimmerman was a resident of Rice county prior to his commitment to Rochester. After his escape six years ago every effort was made to ascertain his whereabouts. He was quite a violent patient then and had threatened the life of members of his family. As the missing man never appeared at his home nor gave any evidence of his existence to those who knew him, the matter was regarded as a mystery beyond solution. It was hard to believe that he was alive and working for his living without showing signs of his insanity. But such must have been the case. He is unable to tell what he did during those long six years, but it is learned that he came from northern Iowa. Beyond that his life is as hidden as though he had been dead and had suddenly come to life. As soon as he returned to the hospital here, Judge Hunter of the probate court in Faribault, which committed Zimmerman, was notified of his strange return.

INSANE MAN LOST SIX YEARS.

C. L. Zimmerman of Rice County Returned to Asylum.

Faribault, Minn., Special, Dec. 17.—Judge Hunter of the probate court has been notified that C. L. Zimmerman, a resident of Rice county, who escaped from the insane asylum at Rochester six years ago, has returned to the asylum. He gives no account of himself during his absence.

Returns After Six Years.

After six years of wandering in parts unknown, C. L. Zimmerman, a State Hospital patient, returned to the institution. He seemed vaguely to appreciate that he needed to be cared for, and his clouded mind retained sufficient reason to lead him back to the hospital. A week ago he came alone and of his own free will, indicating to the officials his mental condition. It is plainly evident that he is unbalanced. He is mild in disposition but mutters to himself in a demented fashion.

Zimmerman was a resident of Rice county prior to his commitment to Rochester. After his escape six years ago every effort was made to ascertain his whereabouts. He was quite a violent patient then and had threatened the life of members of his family. As the missing man never appeared at his home nor gave any evidence of his existence to those who knew him, the matter was regarded as a mystery beyond solution. It was hard to believe that he was alive and working for his living without showing signs of his insanity. But such must have been the case. He is unable to tell what he did during those long six years, but it is learned that he came from northern Iowa. Beyond that his life is as hidden as though he had been dead and had suddenly come to life. As soon as he returned to the hospital here, Judge Hunter of the probate court in Faribault, which committed Zimmerman, was notified of his strange return.

INSANE MAN LOST SIX YEARS.

C. L. Zimmerman of Rice County Returned to Asylum.

Faribault, Minn., Special, Dec. 17.—Judge Hunter of the probate court has been notified that C. L. Zimmerman, a resident of Rice county who escaped from the insane asylum at Rochester six years ago, has returned to the asylum. He gives no account of himself during his absence.

Three o'clock" "when this cloud shall pass over the sun above" then you shall here god" Speak to you in thunder and the apeals of lightning" and the Earth shall Tremble and the strong Mans "Hart-" shall fail"- for behold god" is comming in Judgment take a warning" when this sign apears" that you gather" the wise of the earth in haist" that they may show you the signifigens there off" in case you fail to find a wise man come to me" that i may show you the misterys thereoff" Zimmerman

Returns After Six Years.

After six years of wandering in parts unknown, C. L. Zimmerman, a State Hospital patient, returned to the Institution. He seemed vaguely to appreciate that he needed to be cared for, and his clouded mind retained sufficient reason to lead him back to the hospital. A week ago he came alone and of his own free will, indicating to the officials his mental condition. It is plainly evident that he is unbalanced. He is mild in disposition but mutters to himself in a demented fashion.

Zimmerman was a resident of Rice county prior to his commitment to Rochester. After his escape six years ago every effort was made to ascertain his whereabouts. He was quite a violent patient then and had threatened the life of members of his family. As the missing man never appeared at his home nor gave any evidence of his existence to those who knew him, the matter was regarded as a mystery beyond solution. It was hard to believe that he was alive and working for his living without showing signs of his insanity. But such must have been the case. He is unable to tell what he did during those long six years, but it is learned that he came from northern Iowa. Beyond that his life is as hidden as though he had been dead and had suddenly come to life. As soon as he returned to the hospital here, Judge Hunter of the probate court in Faribault, which committed Zimmerman, was notified of his strange return.

History

I see thousands of others" not worthy of attention or mention

Returns After Six Years.

After six years of wandering in parts unknown, C. L. Zimmerman, a State Hospital patient, returned to the institution. He seemed vaguely to appreciate that he needed to be cared for, and his clouded mind retained sufficient reason to lead him back to the hospital. A week ago he came alone and of his own free will, indicating to the officials his mental condition. It is plainly evident that he is unbalanced. He is mild in disposition but mutters to himself in a demented fashion.

Zimmerman was a resident of Rice county prior to his commitment to Rochester. After his escape six years ago every effort was made to ascertain his whereabouts. He was quite a violent patient then and had threatened the life of members of his family. As the missing man never appeared at his home nor gave any evidence of his existence to those who knew him, the matter was regarded as a mystery beyond solution. It was hard to believe that he was alive and working for his living without showing signs of his insanity. But such must have been the case. He is unable to tell what he did during those long six years, but it is learned that he came from northern Iowa. Beyond that his life is as hidden as though he had been dead and had suddenly come to life. As soon as he returned to the hospital here, Judge Hunter of the probate court in Faribault, which committed Zimmerman, was notified of his strange return.

INSANE MAN LOST SIX YEARS.

C. L. Zimmerman of Rice County Returned to Asylum.

Faribault, Minn., Special, Dec. 17.—Judge Hunter of the probate court has been notified that C. L. Zimmerman, a resident of Rice county who escaped from the insane asylum at Rochester six years ago, has returned to the asylum. He gives no account of himself during his absence.

April 22.
May 1. Same as last note. Does no work, Same med. continued
June 1. Since last note is more stupid & silent does not go out much.
Sep 17. Seems to enjoy dances in chapel — Still has delusions about his family — whom he detests.
Jan 1. 1884 Nothing special to note. P. Tonics continued — Was visited

wife 2 days running last months — Refused to acknowledge her — swore at her — said he was "crazy" & the "boss fool" — & that we could look into his mind & know what he was thinking of &c — His wife was here on a previous occasion some months before this.
March 1. 1884 — Has some weeks ago visited by brother & some friends, but he refused to have anything to do with them, & used indecent language — P. Tonics.
March. 24 — While out walking today eloped.
Ap. 1. Brought back by police officer M. J. Perkins of Faribault — He had tried to get home to his farm but the house was shut up — his wife being away.
Medicine discontinued — No change in patients mental condition. Physical health good — Never did any work — till recently — He now works on ward.
June 9, Visited by wife today — Swore at her & would have nothing to do with her. A long time ago his son came here to see him — but he refused to speak to him — Patient is wife says he has a brother in Faribault who is very well to do. Patient is physicially in good health — mentally the same as last note — No medicine
Dec. 9 1884 Eloped last August, but was soon captured. Works well in dining room.
Feb. 23-1885. Talkative and polite. Mental condition seems brighter.
Perhaps slightly improved. Likes to boss the other patients. No medicine.
Works on the ward.
May 28-1885. No special change. Works on ward. Enjoys out door sports. Visited by son this week — cursed him and his family generally.
Aug. 31-1885 — Seems always well and cheerful — Does not much work. Dec. 7-1885 — No change. No medicine.
March 5-1886 No special change. Does a little work in dining-room.
June 1-1886 — Sent to a lower ward recently for fighting. No special change. No medicine.
Sept. 6-1886 — No change. Still works on the ward. No medicine.
Dec. 13-1886 — Has been working in the kitchen. Eloped from there to-day.
Dec. 23-1886 — Returned, to-day from St. Faribault by . He had been at home creating a disturbance. Apr. 6 '87 Works daily on the ward No change
July 1-1887 — Full of delusions of religious nature and imagines Hosp. authorities are trying to drive him into crime.
July 25-1887 — Eloped last week, went home and was returned to-day by Chief of Police of Faribault. No special change — deluded as ever. Probably has hallucinations, also. No medicine.
Sept. 27-1887 — No special change. Works daily on the ward. No medicine
Jan. 6-1888 — No change whatever. March 26-88. No change.
June 25-1888 — Still has delusions of persecution, to which he vaguely alludes occasionally. Bodily health good. Works on the ward.
Sept. 27-1888 — Mental condition unchanged. Bodily condition not good — is quite anemic tho still in good flesh. Works daily on ward. Wants to take no medicine
Jan. 10-1889 — Still imagines himself persecuted, forsooth, &c, by his physicians &c & C. C. works daily on the ward. Recently in sick a day or so — vomiting — imagines he had been poisoned. R. special diet for a few days. Apr 26-89 — No special change
July 29-89. Works daily on ward. Health good. No change. April 26-1890. Has visited but could not even talk peaceably with him. Remains the same or a little worse — See letter attached — July 16/90 On C3, was ugly & violent & abusive on C2 & ward.
Has spells of talking vile now. Health very good. Works in dining room.

Gentlemen:

I am doing some genealogical research and have a problem with which I hope you can be of some help. My great-grandmother, Mary Maguire (wife of James Maguire), lived in Chatfield, Minn. in the 1880's and sometime after that (when I do not know) was committed to a state mental institution.

I do not know where or when she was born, but I have a note from my Grandfather before he died that she died in 1930 at about the age of 78. How accurate this is I do not know. I think that she was born in Illinois, but I do not know the city.

The information that I am looking for, is if you have any record of her, where she was committed, birthdate, place and/or death date and place. My Grandfather, Charles Maguire, did not know any of this information.

Sincerely,

Lynda Maguire

Re: Mary McGuire

Dear Miss Maguire:

We have received your letter regarding your great-grandmother, Mary McGuire.

The only information we have is that she was admitted March 20, 1883 at the age of 33. She died at Rochester State Hospital July 10, 1932. Towey Funeral Home, 225 5th Avenue S. W., Rochester took care of burial arrangements. She was born in Illinois and was married to James McGuire of Chatfield, Minnesota. She was probably committed in Olmsted County Probate Court by Judge Henry C. Butler.

You might contact the funeral home for further information regarding her death.

We hope this information will be of some help to you.

Sincerely yours,

Francis A. Tyce, M.D.
Medical Director

Dear Dr. Tyce:

RE: MARY ELLEN MC GUIRE (MAGUIRE)

Thank you very much for your letter of December 14, 1973 regarding my grandmother Mary Maguire. You indicated in your letter that my great-grandmother was committed to the hospital on March 20, 1883, but I have records which indicate that she had two children after that date, one in October of 1883 and another in September of 1884. This, the later birth, would seem to imply that she was able to visit home or to return to her home, since the births were recorded as occuring in Orion Township.

Also, in checking the 1900 census records for the State Hospital, I can find no indication that Mary Mc Guire (madian name) or Mary Maguire (married name) was a patient at that time, nor is she listed as being in residence with her husband.

Can you shed any light upon this situation?

Thank you again for your help.

Sincerely,

Lynda Maguire

Re: Mary Maguire

Dear Miss Maguire:

We have received your letter requesting further information regarding your great-grandmother, Mary Maguire.

Our records from that long ago are very incomplete. At the time of her admission, our records show that she had three children, but there are no indications of her having had any more children after she was admitted to the hospital. She was allowed to go home on short visits when first admitted, but was continuously in the hospital from the time of her admission to the time of her death, a period of 49 years four months.

This is all the information we have, and we hope it will be of some help to you.

Sept. 20-1884 - Was allowed to go home on trial with her husband.
March 17-1885 - Returned to asylum. See transfer book A 351. Stated that she had been bad for last six mths; was very cross and for past week did not want to do the housework. Says she had attacked him with a club, and was otherwise violent when not allowed to have her own way. Her habits were neat and she had not destroyed anything. Usually treated the children well, but he was afraid she would injure them. June 22-1885 - Remained rather well-behaved and quiet till May 27, on which day her husband came to inquire after her. That day she was fighting and striking patients. Supervisor states that she had done this on one or two occasions. Is now working some on the ward. No medicine.
Aug 3-85 Visited by husband. Sept. 29-85 - Latterly she has become mischievous and has to be watched. Visited by cousins & uncle since.
Dec. 2-1885 - Quite well-behaved, working daily on the ward.
Feb 26-1886 - No change. No medicine. Works daily on the ward.
March 11-'86 - Visited by husband.
May 26-1886 - [illegible] is no work for past month. Complains some of her stomach
No change mentally. Is so [illegible]
Aug 23-1886 - Works daily on hall and in laundry. Bodily health better. No change mentally. Visited or better
April 21-1887 - Enjoys indoors, but is more peaceable. Spends much time lying on bed
July 5-1887 - Remains about as at last note. Does no work. No medicine.
Oct. 27-1887 - No change whatever. Visited recently by her husband
Jan. 6-1888 - No change noticeable. Bodily health good. No medicine. No work.
Apr. 6-1888 - No change. Eats and sleeps well - No medicine - No work.
June 29-1888. No change. - Oct. 4-1888 Husband calls to see her occasionally but she is not tractable - Feb. 17-1889 No change - May 13-1889 Quiet usually. Health good - July 23-1889. No change in any way - No work -
March 13-1890. Health good. No change. No work.
Oct. 15-1890 - Health fair - Has a discharge from one ear which seems to continue - At times the discharge coils the pillow during the night
Feb. 16-1891 Health good. No work - Clothing - May 28-91 [illegible] when rather irritable & at times mischievous in behavior. Can usually be found, however, setting in the shade on one end of the ward & taking little interest or care in whatever going on about her. And showing no activity of any kind.
Aug 5-1891 Bodily health good - Very quiet mentally No work.
Nov 18-91 Patient has been quite quietly behaving, but has acquired some-
what dirty habits of late. Rarely says anything but gets in a silly pos-
sibly way when spoken to. Her health has been uniformly good. She
eats and sleeps well.
Dec 10-1892 No work - Very silly in actions. Health good
1892 Feb 29 General health good. Does not ride and walk
[illegible] Untidy at table feeds in her personal appearance
[illegible] Very silly in manner. Talks incoherent
[illegible] to herself. Never works or manifests any interest in
[illegible] thing -

7 Mch 1. 1894 - [illegible] in sewing room, where she often works with pair of scissors - Succeeded - [illegible] visited by friends - Husband visits her every now & then - Is on 1. W. W. Pg. Ms Vol C. f 35 B.B.D.
June - 1 - Husband has been here too much - She is pregnant - No mental change - No med.
Sep - 20 - Husband took her away today on trial - She became violent & attacked superintendent & overseers just before starting. Was removed at the request

of the superintendent - It seems absolutely certain that the husband had intercourse with patient when he was alone with her for hours together in the visiting rooms. He attempts to deny this - but does so in such a way as to leave no doubt in the minds of his hearers that he is the guilty party. It is further to be inferred from what patient herself says - Patient is on the whole quiet - She has not required restraint or quieting doses for a long time. She has settled down into a condition of Chronic Mania.

Sept. 30-1884 - Was allowed to go home on trial with her husband.
March 17-1885 - Returned today by husband, who stated that she had been bad for last six weeks; was very cross, and for past week did not want to do the housework. That she had attacked him with a club, and was otherwise violent when not allowed to have her own way. Her habits were neat and she had not destroyed anything. Usually treated the children well, but he was afraid she could injure them. June 8-1885 - Remained rather well behaved and quiet till May 27, on which day her husband came to inquire after her. That day she was fighting and striking patients. Supervisors state that she had done this upon two previous occasions. Is now working some on the ward. No medicine.
Aug-3-85 - Visited by husband. Sept. 24-85 - Latterly she has become mischievous And has to be watched. Visited by cousins a week since.
Dec. 2-1885 - Quite well-behaved, working daily on the ward.
Feb. 26-1886 - No change. No medicine. Works daily on the ward.
March 11-'86 - Visited by husband.
May 26-1886 - Does no work for past months. Complains some of her stomach
No change mentally. Eats heartily.
Aug. 27-1886 - Works daily on hall or in laundry. Bodily health better. No change mentally.
April 21-1887 - More indolent, but is more peaceable. Spends much time lying on bunched or beds
July 8-1887 - Remains about as at last note. Does no work. No medicine.
Sept. 27-1887 - No change whatever. Visited recently by her husband
Jan. 6-1888 - No change noticeable. Bodily health good. No medicine
Apr. 6-1888 - No change - eats and sleeps well - No medicine - Does work.
June 29-1888. No change. - Oct. 4-1888. Husband calls to see her occasionally but she is not excitable - Feb. 17-1889. No change - May 13-1889 - Same usually. Health good - July 23-1889, No change in any way - Does work -
March 13-1890. Health good. No change - No work -
Oct. 15-1890. Health fair - Has a discharge from one ear which seems to continue - At times the discharge soils the pillow during the night
Feb. 16-1891 Health good. No work - Clothing - May 28-'91 -
Has been rather irritable & at times mischievous in behavior. Can usually be found however, sitting in the alcove in end of the ward & taking little interest or care in what is going on about her and showing no activity of any kind.
Oct 5-1891 Bodily health good - Mind dull mentally No work -
Nov. 13-'91 Patient has been quite quietly behaving, but has acquired somewhat dirty habits of late. Rarely says anything but gets in a silly sort of way when spoken to. Her health has been uniformly good. She eats and sleeps well.
May 10-1892 - No work - Very silly in actions. Health good
1892 Sept 29 General health good. Does not riding and marking. Untidy at table and in her personal appearance Noisy at times - Very silly in manner & talks incoherently to herself. Never resorts on manifest resentment in any thing.

This woman was brought here by her father and with the following history. Was removed to her home after the fire at St Peter, where she has been kept until the present time but lately she has attempted to injure different members of the family & it was found necessary to have her sent to the Hospital. Was in the Hospital at St Peter about four years, and while there, was generally quiet, occasional paroxysms of excitement. Untidy & slovenly in habits, at times quite filthy.
May 1. Sits about the ward all the time. Untidy & filthy habits.
June 1. Same as last note, seldom speaks. R Tonics.
July - 31. Returned home with Mother - somewhat improved mentally - After being at home about a month - she died.

Discharged.
Sep. 5. 1883

Carl Nelson

(from folio 8.)

Aug Sept & Oct. 94 Is quiet & inoffensive, works on farm, is rather timid & keeps apart from others, seldom speaks - is clean & tidy. Health good.
Nov 30 - Dec 31/94. No special change to note, during this period. Conduct & behavior about as usual. Works daily outside, at the farm; seldom speaks; seems timid and afraid of the others. Habits are clean; but he is rather untidy about his dress & personal appearance; health is apparently good.
1895
Jan 13/95. Patient has been up & around, as usual. Worked outside yesterday, at his customary labor, about the cattle-barns, and retired last night, apparently in his usual health. Night-nurse reports as follows; "Carl Nelson died at about 1:30 Am; At 1 o'clock, he was sleeping soundly and at 1:15 he was sitting up in bed, groaning. I then asked if he was sick, he said "Yes", and then fell back upon the pillow, breathing very hard & having a very high pulse. He breathed Easier, a few minutes afterward & was left, apparently feeling better. Night-nurse went to see him at 1:30 Am and found him dead & lying in exactly the same position in which he had been left."

(P. Note) Jan 14/95. Patient Examined; heart somewhat enlarged & dilated, but no lesion; - lungs adherent to chest walls, both fair exertion. Left side of brain, under dura, covered by large clot & fresh blood -

Diagnosis: haemorrhage under dura mater

Died -

This man was brought here by Sheriff Richardson & with the following history. Last Summer he was working on the new wing of the Hospital and in the month of August is said to have become over heated & suffered Sun stroke. he quit work & left town & went to Minneapolis and Granite Falls. his Father in law went after him and brought him home. Since which time he has been kept at home. has delusions of fear and would not go out of his house in the day time for fear of injury. but at night would want to roam around. at times would not eat for fear of being poisoned. Last Saturday he left the house went to a neighbor house & struck a man on the head with a club and then left the place. he was soon captured and lodged in jail until this morning when he was sent to the Hospital. On admission he looks very pale & thin in flesh is in constant fear of bodily injury & of poison. Has not slept for several nights.
April 17th Slept well all night. Chlorol gr XX. Tr. Hyos. ℥ii Bromid Potass gr XX.
Gave Cathartic before breakfast. He has eaten well & dozy.
April 18th Gave the same at bed time last night & he slept well. Very quiet.
April 20th Tonics and Chlorol at bed time. tried to run away yesterday.
May 1. Continue the same mentally appetite poor. No chloral at night.
June 1st Allowed to be with his mother who is working at whitewashing

Aug. 8th Allowed to return home on trial - very much improved - He went in company with his brother.

Discharged.

Dec- 5 - 1883.

Room 8

Frank Grasser.

July 31/02. Has worked regularly about grounds, during summer: Is quiet and tidy: In quite good physical health: has been treated for Conjunctivitis (which is Chronic) mental Condition shows no change. - Jany 31/03. Worked on lawns, during warm weather; since has worked on ward some. Has received frequent treatment for inflamed Eyes - Condition shows no special changes. -

This man was brought back here by Sheriff Langum. He was discharged from this Hospital Dec. 6. 1883. Improved. Lately he has been getting worse again and his friends had him recommitted to the Hospital. he is about the same both mentally & physically as when first admitted.

June 1. Stupid & indifferent. does nothing. will hardly speak.

July-2- Eloped-

Oct-4-1883. Brought back by Sheriff Langum- The Sheriff did not know where he had been for last ~~two~~ three months, till last week he began to annoy some of his relations, especially the women- He claims to have been in St Paul-

Dec-1- Lazy & indifferent- seldom speaks- careless in dress &c- thoughts not exactly filthy- beyond using this convolvulus as a pocket handkerchief & kindred tricks- Removed: to C2S.

Mch-1-1884- No change- Eats fairly well & sleeps well- No med-

June-1- No change- Inclined to be ugly at times- if molested- On one occasion attacked another patient with a chamber vessel- Very lazy-

Sep-1- Condition, mental & physical remains the same as before in every respect. No 2d. Often does not answer when addressed- Very surly- Is returned to master baker. Was blistered last month.

Oct-6- For the last 3 weeks has been taken out to work on farm- This a.m. he eloped.

Dec. 9-1884- Has not returned. March 5-1885- Was returned about a week since. Has been quiet and well behaved since.

May 3-1885- Is becoming more quarrelsome. Works daily on the ward. Gets angry if talked to for any length of time. No medicine. Physical health good.

Sept 10-1885- No change- Health good- No medicine.

Dec. 10-1885- No change. Does no work now. No medicine.

March 9-1886- Works daily on the ward. No special change. No medicine

June 2-1886- Eloped recently was returned the same day. No change. No medicine.

Sept 6-1886- Soils bed frequently with a bloody diarrhoea. Is running down in bodily health. R astringents with Ergot. Does no work. Is quite weak & emaciated.

Nov. 8-'86- No improvement in mind or body.

Jan 4-1887- Markedly phthisical in appearance, but does not seem to change any in mind or body. Is thin and weak, "hang-dog" expression.

Jan. 18-1887- R mixture Tonic Elixir, wine and Sr. Pyrophosphas 3 i 2 d.

Jan. 31-1887- In bed for past two or three days; coughing much, apparently great pain in swallowing and cannot be made to eat well. Has some fever and marked hectic flush.

Feb. 3-1887- Has eaten nothing for two days past. R antiseptic mouth-wash. Feb. 5th, 1887- Food and medicine given by force; difficulty of swallowing seemed to be less. Is losing ground.

Feb. 8-1887- Still in bed; eats moderately well. Wine is given freely

Feb. 14-1887- Has slowly lost strength since last note. Stimulants and food have been forced upon him as freely as possible. During the past two nights he has appeared moribund, but rallied toward morning. To-day R. 50, P. 120 and very feeble.

Feb. 15-1887- Failed during the night and died about 8 o'clock this morning.

Died.

Patient was brought here by Sheriff Longmire. He left this Hospital June 8th 1881. Improved. He has been confined in the Co. Jail for several months as he was considered unsafe to be at large, and there was no room here for him until the present time. On admission he seems quiet and good natured, and is in good health physically.

June 1. Works in shoe shop every day, always quiet and good natured, eats & sleeps well. Good physical health. No med.

Sep. 17. No particular change — Is free of delusions — Spirits in the air try to carry him off &c — Works in shoe shop right along.

March 1. 1884. Same as last note — No medicine indicated.

Dec. 9-1884 Still the same. Describes his visions graphically. No medicine. Still works in shoe shops.

Feb. 26-1885 No change. Works in shoe shop. Sick three days in January.

May 30-1885. No change mentally nor physically. Works in shoe shops.

Nov. 25-1885 - No special change. Sometimes troubled by dyspepsia and bronchitis.

March 8-1886 - No change. Works daily in shoe shop. Troubled some by rheumatism.

June 11-1886 - No change mentally. Works in shoe shop. Troubled some last month by his bronchitis and asthma. R Grindelia Robusta ℥ ℈ Camphorata.

Sept. 2 1886 - No special change. No medicine.

Jan. 5-1887 - Still troubled by bronchitis. R Stokes Expectorant. Still works with the shoemaker when not sick. No change mentally.

Apr. 4-1887 - Worked but little last month; confined to bed most of the time for two weeks past; bronchitis continues; loud rales over chest; pain and soreness over left front of thorax, probably muscular rheumatism or neuralgia. Since Dec. 8th has been taking a mixture of K I, NH4 Cl, Ant. et Pot. Tart. Morphine for bronchitis, and (for two last weeks) iron tonic P.O.D. Is now improving a little, but is still quite weak.

July 8-1887 - Bodily health has improved. Has had no attacks of asthma, but bronchitis continues and he frequently goes to bed for a day or two complaining of weakness and chilliness. His circulation is very feeble. Has been taking Stokes Expect. and some wine, with the above mixture which is still continued. July 21-1887 - Lies down on bed much of time.

Sept. 5-1887 - Has been in bed occasionally since last note and is in bed to-day. Complains of pain in the posterio-lateral lower part of thorax; no breathing sounds to be heard over that region, but some gurgling. Is now raising nearly pure pus; cough is frequent and he expectorates very easily as if the sputa came with only an effort to clear the throat. Has been slowly failing for past two months. Pulse very feeble, no fever, respiration not accelerated, but he appears in great distress — always complains of being "weak" and "cold" and sometimes hot." Stimulants — Port Wine — have been given freely. The K I. mixture he does not willingly take — asks for "good medicine".

Sept. 10-1887 - Sputa is now of the form of bloody pus, and is still raised without effort. Pulse almost imperceptible. Pain continues.

Sept. 16-1887 - Has been failing rapidly. Sputa for past day has been extremely foul odor — gangrenous, almost. This p.m. is very stupid, eyes project and he seems moribund. Has had a few doses of Hyoscyamine and morphine at night to procure sleep.

Sept. 17-1887 - Died at 5.20 a.m. Thorax opened in afternoon. Both lungs emphysematous, the left not collapsing when thorax was opened. R. lung adherent by old and recent pleuritic adhesions and bands over entire surface. Bronchi dilated, containing bloody pus. L. lung distended, crepitant; lower portion extremely pale and anaemic; adhesions much fewer and considerable serous effusion in pleural cavity. Thorax barrel-shaped. Contrary to expectation no abscess was discovered.

Correspondent,	Daniel Cavan Father		New Albin, Allamakee Co. Iowa.

This woman was brought here by an Officer and with the following history. First began to show signs of insanity three years ago by her conduct and actions. Said to have been brought on by fear of some calamity. For the last year she has grown very much worse, and has attempted to injure others from sudden passion, destructive to clothing &c. had to be watched continually and at times confined to a room. On admission she is very filthy and alive with head & body lice. Very thin in flesh, quiet.

May 1st Is very quiet eats & sleeps well. Contraction of the muscles of left hand cannot extend the fingers unless she uses her right hand & forces the fingers open. ℞ Elix ferri et cinch ℥ii 6 d.

June 1. Considerable improvement physically, mentally the same.

Dec - 1. Quite whole quiet - but liable to fits of excitement scolding &c. ℞ Tonics. Some paralysis of the whole of the right side - but it is only marked in the hand.

Feb 1. 1884. Since last note has improved, mentally - Is quiet, well behaved, neat tidy, though somewhat depressed - ℞ tonics

Feb 28. Some time ago she wrote home, asking her friends to take her back - Her brother came here yesterday & this morning she went home with him on trial.

July 24. Brought back by her brother - Dear Cavan - She refused to stay at home & insisted she coming back here - Ran away from home so as to come here several times - & first week at home she told the hospital, was cruelly treated there &c wanted to come back - after 1st week she changed her mind - She was very "contrary" at home & her brother says she talked just as foolishly as when first sent to hospital.

Dec. 9 - 1884 - For three months after her return she seemed contented and

she wants

to be turned in it- More quiet lately, but sometimes very loud.
June-29-1888. No change. Frequently calls for a "coffin"
Oct--4-1888. Noisy & obscene at times - Never tidy -. Feb-17-1889- No change in any way- May 13-1889. No change- Always sits in end room which is called- "Bridget's Parlor". July-23-1889. Vulgar- obscene & untidy.
March-13-1890. Grew more vulgar & violent & is now on B4
Oct. 15-1890. Quite troublesome- Health fair- Talks noisily & vulgarly at times Feb 16-1891 Health good - Quarrelsome and ugly at times May 28 '91 Has become talky more untidy in habit & much more violent in temper. Has ab several times attacked & injured other patients & is in the habit of talking very vulgarly & offensively & cannot be allowed any time.
Oct 5-1891 Bodily health good Almost always be standing near the door and ask if we will take her home today- No wonder. Has not taught quite so much the last two or three months- Nov. 13th 91 Patient has been on B-4 for a good while. Although not apparently strong, she is inclined to be quite rebilent at times. Talks quite disagreeably & loudly, & is very apt to make vulgar speeches as people pass. Dare not considered safe for anyone to sleep with her, as she has been violent to those who do so
Dec 11th 91 Patient is getting nearly very Vulgar, noisy & ambitious usually
Jan 16 '92 Has had a bad cough quite frequent
Feb 15 '92 Has quarrelsome fever, Quite high. May 5th Developing quite decided symptoms of Consumption.

(p 184.)

Dec. 9-1884- For three months after her return she seemed contented and

glad to get back. Since that time she has been very discontented and often tries to escape; is cross and quarrelsome & fights without cause; is ugly & attdts. and is a bad fighter. Thinks her friends are in the house and being murdered. Took tonic elixir for a time; no medicine now.

March 9-1885 - Temper is better than at last note; usually looks crosser than she acts. Often gets homesick and appears quite miserable. No work. No medicine

May 25-1885 - Has been on one floor since last note and was shut up in a room. No special change. No medicine. Does little or nothing all day long. June 5-'85 Does a little work on the ward. Sept. 22-'85 - No change. No medicine. Dec. 4-1885 - Does some work on ward. No particular change. Bodily health good.

Feb. 26-1886 - No change. No medicine. Does no work.

May 27-1886 - Does a little mending. No noticeable change. No medicine.

Aug. 28-1886 - Works daily on the ward. Is less ugly and more amiable, but also more noisy

Jan. 18-1887 - Does no work. No special change. Apr. 20-'87 - No change, except that she works daily on the ward

July 11-1887 - Still works on the ward. No special change

Sept. 27-1887 - No change. Visited recently by her brother. Bodily health good

Jan. 6-1888 - Language frequently very bad. Sometimes noisy at night.

April-6-1888 - Frequently calls for a coffin - Says she wants to be buried in it - More quiet lately, but sometimes very loud.

June 29-1888. No change. Frequently calls for a "coffin"

Oct. 4-1888. Noisy & obscene at times - Never tidy -. Feb-17-1889 - No change in any way. May 13-1889. No change - Always sits in end alcove which is called - "Bridget's Parlor". July-23-1889. Vulgar - obscene & untidy.

March-13-1890. Grew more vulgar & violent & is now on B4

Oct. 15-1890. Quite troublesome. Health fair - Talks noisily & vulgarly at times. Feb 16-1891 Health good - Is an demme and ugly at times. May 28th '91 Has become talkier, more untidy in habit & much more violent in her talk. Has at several times attacked & injured other patients & is in the habit of talking very vulgarly & offensively at almost any time.

Oct 5-1891 Bodily health good. Almost always is standing near the door and ask if I will take her home today - No work. Has not taught quite as much the last two or three months. Nov. 13th '91 Patient has been on B-4 for a good while. Although not apparently strong, she is inclined to be quite religious at times. Talks quite disagreeably & loudly. & is very apt to make vulgar speeches as people pass. Is not considered safe for anyone to sleep with her, as she has been violent to those who do so.

Dec. 11-'91 Patient is rather noisy, frequently very vulgar, noisy & untidy in her habits. Full of fun & [illegible] & following [illegible] upon the ward. Jan 15-'92 Is not to be trusted. Quite [illegible] Feb 15-'92 Has constant cough & fever, quite high. May 5th Developing quite decided symptoms of Consumption. (p 184.)

Dec. 9-1884 - For three months after her return she seemed contented and

This man was brought here by Sheriff Richardson and with the following history. Has been an Opium eater for a number of years. he used the drug in shape of Morph. Sulph. in powder form. he says he never used it to excess the most he he has taken in any one day two grains, but confined himself most of the time to less than one grain. About Six months ago his friends noticed that his mind was affected by his actions and conversation, and his delusions of fear of personal injury from secret enemies. On admission. he is quiet will talk and answer questions. thin in flesh and anaemic. he had about grXX Morph. Sulph. in his pocket which was taken away from him at bedtime gave Bromid Potass grXX. Tr Hyos. ℥ii Chloral grX.

April 26th. Rested well last night. appetite fair. Tonics ter in die.

April 27th. Same last night as night before. and he rested well.

May 1st Same treatment continued daytime & at bedtime. except the Chloral. He has not asked for any Opium doing nicely Visited by wife often.

June 1st Occassionally helps the painters in new wing. always quiet and neat & tidy in habits. R Tonics.

Aug. 28th Is losing ground both mentally & physically – Eats very little. Says if he eats – others will suffer – Visited by son.

Sep 17. Rochange – since last note.

" 18. Today allowed to return home on trial – But Rev P. re – brought back by his sons – who said they could do nothing with him –

Oct – 4 – 1883 – Went to bed this a.m. – evidently exhausted – For a long time – 4 or 5 weeks has had to be fed – In the evening stimulants (Ext. Nucis Vomicæ ℥j) were administered –

Oct – 5 – 1883 – A.m. Evidently in extremis – Radial pulse could not be found. More stimulants (Ext. Nucis Gulæ – ℥j ℥ij) & milk ordered – Wife sent for She came here & stayed with him till death supervened – about 1.30 p.m.

No autopsy allowed – The arteries are probably atheromatous – They – that is those that could be examined by touch – felt hard & cord like.

The remains were removed in the evening by the undertaker, to be interred at the expense of the Odd-fellows.

– Died –

This patient was first admitted into the Hospital for Insane at St Peter. Minn. August 21. 1879. Transferred to the Second Hospital for Insane at Rochester. Minn. April 27. 1883. Conduct while at St Peter. "This patient has been quiet and well behaved since admission. Worked on farm & in bakery long time now works in Kitchen. History on admission states that at 14 yrs. of age began to have violent attacks of causeless rage beating his Mother &c, durations were irregular violent and dangerous outbursts of rage with disposition to injure others. Irrational talk, singular behavior in church, laughing and talking without cause. Memory failing. Noisy at times. Cross & irritable. Works out-daily. Slaughter house & Kitchen. June 1st. Does very little work here. always quiet & good natured. No medicine. Dec. 9-1884- Has driven oxen for over a year. No special delusions. Quiet and well behaved; physical health good; no medicine. B.S.B. Feb. 26-1885- No change. No medicine. Still works outside. May 30-1885- No change. No medicine. Still drives team. Sept-12-1885- About note still true. Dec. 9-1885 No change. No medicine. March 5-1886- No change. No medicine. Works daily outside. June 7-1886- No change. No medicine. Works outside. Pleasant & rational. Sept. 6-1886- No change whatever. Jan. 7-1887- Quiet, pleasant and rational, as usual. Works daily with the horses. No medicine.

April 8-1887 No change. July 25-1887- Does not care to read Norwegian newspapers- no other peculiarity noticeable. Sept. 27-1887- Visited by brothers last month. He did not care to go home with them. Habits and general mental and bodily condition remain unchanged. Never misses a days work except Sundays. Jan. 6-1888- No change whatever. March 28 88- No change. June 25-1888- No change. Sept. 27-1888- No change. Jan. 14-1889- No change. April 27 89- About a month ago, for the first time during the last four years, patient began to talk irrationally manifesting delusions of wealth and talking incoherently. He remains at work, but is still deluded. Bodily health good. No medicine. July 22. 1889. Bodily health good. Works outside daily. April-14-1890- Health good- Works out as regularly as an employee. Goes to church alone Sundays- Answers rationally- Seems to have little ambition and never teases to go home- Quiet but cheerful. July 16/90 Health good. Works faithfully. Wants to go home. Have contemplated sending him on trial, but relatives do not answer our letter. Nov 27/90 Quietly & contentedly at work on farm; drives a team. Feb-20-91. Works same as ever. Good health. Last note fully describes case. June 3-91. Works daily out doors driving team. Good health, fairly clean and tidy. Aug-6-91. Last note holds good. Dec 1st 91. Sunday Dementia. Good health. Habits good & clean. Pulse & heart regular. Hospitable. Works out doors daily and goes down town & church every sunday rain or shine. Feb-14-92. No change. Goes to church as usual. Quiet and clean & good worker. Sept-6-92. weighs 148; eats well & looks well. Talks incoherently and only when spoken to. Goes out and is pleasant. Works little. Dresses & cares for self, but is slovenly. So changeable in spirit. Mch-6-93. Wt. 155- Health good, works outside all the time, drives oxen. May 31. 93. He is a very good patient, works on the farm all the time & goes to town to church. He has lately expressed a desire to go home. He is in excellent health. Is dull & quiet. Looks intelligent. Rocks along in a slow steady, methodical way. To seemingly a partial dement. July 31 93. No change. Sept 2. 93 A quiet, harmless patient, works on farm. Health good. Oct 5. 93 No change Nov 23. 93. A quiet and inoffensive patient, works on farm every day. Seldom speaks on word except to ask for what he needs. Health good Dec 28. 93 Same. Jany 31 94. Same. Feb. March & to April 30/94. There is not the slightest change noticeable during this period, in either his physical or mental condition. seldom speaks. Works outside, daily, most faithfully & intelligently. Goes quite frequently to Church, & town. Health good. Seems quite contented here. Correspondent,			

This patient was first admitted into the Hospital for Insane at St. Peter Minn. Sept 11. 1872. Transferred to the Second Minn. Hospital for Insane at Rochester Minn. Conduct while in St Peter. "On admission variable sometimes excited incoherent and at other times quiet and industrious. Has been in Hospital in Denmark. Eloped from Hospital at St. Peter in 1874. Brother on arrival home claimed he had been wrongfully detained. Soon after attempted to kill wife and his Sister, very much demented now, seldom able to do anything. Masturbates shamelessly at times and has no self respect or care of self when periods of excitement come on. June 1." Since admission here Worked a few days in Center building, but most of the time has been excited, walks back & forth in the ward.

Dec. 9-1884. A few days ago was visited by his wife and children and behaved quietly. Five years ago she visited him at St Peter when he behaved very badly. She had not seen him since till now. Full of delusions when he has his paroxysms, which last several weeks. Between these, he has quieter intervals, during which he writes incoherent letters on religion to Dr. Bowers, &c. Filthy - swallows his nasal discharge. Does no work when in his spells. Other times works all time. No medicine.

Feb. 25-1885 - Was very crazy for some days recently. Mental condition rather worse. No medicine.

June 1-1885 - "Spells" of excitement still occur. Between them is a good worker on the hall and in the center. Writes numerous letters. No medicine.

Sept-11-1885 - State varies between good and bad behavior. No medicine.

Dec. 10-1885 - No change. March 9-'86 - No special change. No medicine.

June 4-1886 - No special change. Has done no work for past two or three weeks.

Sept. 7-1886 No change. Usually works on the hall and in the center.

Jan. 4-1887 - Last notes still hold good. No change noticeable.

Apr. 7-1887 - Depressed periods continue to occur, and during these is somewhat dirty. Between them he works at filling pillows, upholstering, &c.

July 26-1887 - Depressed spells becoming more frequent and last longer. No medicine. Sept. 27 - Last few periods of depression were separated by very brief intervals, consequently does little work. Continues during more lucid moments to write letters, more or less incoherent, expressing his religious exaltation & general satisfaction with his physicians. Dec. 31-1888 - Does very little work; spells of depression longer & more frequent. Was sick in bed for several days in Nov.; main symptom, constipation. Mch. 26-1888 - Last intermission of mania very short; has had but one since last note. June 25-88 - Is confused in mind most of the time. Just now seems about to emerge again from his confused state. Sept 27-1888 - No improvement, has had a scarcely lucid interval since last note, tho' occasionally reaches the stage in which he was at last note. Habits are dirty nearly all the time. No medicine.

Jan. 14-1889 - Habits clean lately, but he has done but little work. Always endeavors to shake hands when the Physicians go thro' the ward. Mutters incoherently. Apr. 27-1889 - No change July 22-1889. Writes senseless letters but is more coherent in speech. Bodily health excellent.

April-14-1890. Health about as usual - is in more steadily demented condition than usual. His "spells" seem more frequent. July 16/90 Has frequent spells of excitement. When he is dirty & runs around ward, interferes with others & makes a peculiar sound. Is in spell now. Is locked in room as treatment. Spells of better condition are short. No work now. Does a little when at best. Nov 27/90 Is now in better spell & it has lasted rather longer than usual. Wants to work & does some. Writes letters. July 11/91 Has had one or more spells since last note. Secluded some in them. Better again. Health not very good. May 28/91 Complained of pain in stomach & constipation July 13/91 Recently seemed sick, on going to bed, doubling up &c; P. 108 to 118; will not permit taking Temp.; considered as possibly constipated & having colic. Will not take medicine. Has ups & downs, now in spell, restless &c; again quieter & pleasanter.

This patient was first admitted into the Hospital for Insane at St Peter. Minn. Oct. 12th 1877. Transferred to the Second Minn. Hospital for Insane April 27th 1883. Conduct while in St Peter. "Excited on admission praying &c. soon after began to be demented & has continued to progress steadily until he has become careless of self & habits, and cares for nothing but tobacco. Can engage him in no conversation whatever. the only thing he asks for is tobacco. Is not especially filthy but is careless of habits and person. Masturbates.

June 1st Stands or sits for hours with head down. Seldom speaks. quite fat.

Dec. 10-1884. Untidy. Does nothing but eat: No change mentally. No medicine

Sept. 26-1885 Same as ever. No change mentally. Getting more fleshy. No medicine.

May 18-1885- No change. Masturbates. No medicine. Physically in fine condition.

Sept 12-1885- No change - Blistered several times-

Dec. 7-1885 - Does no work. No medicine. No change.

March 5-86 - No special change. Does work. No medicine.

June 7-1886 - No change. No work. No medicine.

Sept. 6-1886 - Last notes still hold good.

Jan. 7-1887 - Still lazy, indifferent and untidy. Does nothing except to stand or be about with hands in pockets, or occasionally to go walking. No special change. No medicine

Apr. 7-1887 - Is very fat; otherwise no special change. No medicine.

July 27-1887 - No noticeable change since last note. No medicine.

Sept. 27-1887 - No change. Jan. 6 '88 - No change except that he has had a large ulcer on leg which has been dressed daily & is slowly healing. Mch. 26 '88 - Ulcer healed; is somewhat more noisy and excited than at any time for some years past. Bodily health good.

June 25-1888 - Still active, and destructive to clothing; has been some in restraint. Bodily health good. Is not as noisy. No medicine.

Aug. 24-1888 - Still very destructive, talks more. Has been in the muff a good deal during the last month. Sept. 26-88 - Constantly in muff to prevent him from denuding himself and destroying his clothing. No improvement. Is noisy at night. Bodily health good. No medicine

Jan. 14-1889 - Still in the muff; defaces the walls whenever he is out of restraint. Occasionally noisy at night. Bodily health good. No medicine.

Apr. 27-1889 - Has not been restrained much during past month, as he shows less tendency to mar the walls. Bodily health good. No change in mental condition.

July 22-1889. Does no work. Stands or walks with eyes shut tight. Bodily health good. Is not kept in restraint.

April-14-1890. Health fair. Not restraint this year. Stands about as usual - Does nothing & says but little. Had an abscess in February, located near the ulcer on his leg. It was the result of Erysipelatous action.

Oct-15-1890. No change in condition. Health fair. Eats & sleeps well.

July 11 '91 No change. Recently however noisy & wakeful at night. Also destructive. Quieter now. Health good.

July 13/91 Has been destructive & maniacal, noisy lately, for quite a while. Takes sleeping medicines quite often. Masturbates

Jany 14/92 Has been noisy at nights since the 1st, as 2, 3, 4, 6, 7, 11 and 13th, quite noisy from one to 3 hours. Jany 21/92 Weight 156 lbs. Pulse 80. Temp. Rect. 98.2. Has good appetite & color. Functions regular. Talks to self noisily; noisy in singing. Is slovenly. destructive & dirty. Ugly, fights occasionally. Mch 3/92 Pulse 78. Wt 150. lbs. Has been noisy from 1 to 3 hours, sometimes restless getting up from bed, during past month. Apl 4/92 Weight 154 pounds. Is occasionally somewhat noisy at night. May 3/92. Weight 170 pounds. Pulse 66: has been almost completely quiet at night, since last note. June 3/92. Weight 175 pounds. Pulse 76. Has been noisy a very little at night, since the last note. July 6/92. Weight 168 pounds. Pulse 88. Has been decidedly more noisy and wakeful at night, since last note.

July 25/92 Was today transferred to St. Peter.

Sept-6-'92. Weighs 117: appetite good ~~and~~ digestion rapidly; tongue coated, bowels regular. Talks freely, mainly to himself, subject incoherently and [illegible] Eyes dull; is dirty and sits in one place much of the time. Dresses self, but is slovenly and dirty in self. He makes himself noisy by his loud talking.

Correspondent,			

This patient was first admitted in the Minn Hospital for Insane at St Peter. April 25th 1876. Transferred to the second Minn. Hospital for Insane at Rochester April 27th 1883. Conduct while at St Peters." Previous to admission killed his horses burned his house & destroyed his property. Violent by spells, cross before fits when he takes offense at very slight causes, begs to be shot or poisoned. Dangerous under excitement. Believes he is the butt of all the ill will of everybody. Has denied himself of food for days at a time. Once ate nothing for twenty one days. Wants a dose of poison. Lately has been remarkably free from excitement.

June 1. Fits not very frequent. Noisy at times cross & irritable when spoken to.

Aug. Very irritable & ugly tempered - Bad scalp wound one day this months from falling in a fit -

Aug 24th Had a fight with two other patients today - in which he got a fresh scalp wound & the old one laid open - fingers bruised - & a rib broken -

Sep. 17. Better physically - So much quieter - probably his broken rib has had a good effect on him - Has this had for a long time - Right inguinal hernia.

Oct. 22 - Sometime ago complained of epileptic fits - Was ordered Bromide - He continued treatment till within the last few days - It is now discontinued.

Dec. 10-1884. Has fit about once a week. Often falls on back of head & cuts scalp so it has to be sewn up. Is quarrelsome, threatens to kill and strikes at patients, &c with anything he can reach. No work. Has taken bromide at intervals - when his fits become frequent. At these times wants to be kept

Dec 21st 84 - Chased a patient with a hammer, struck at Attendant was well battered up by attendants. Some days ago fell on radiator burned back & neck badly Feb. 23-85. Burns not yet healed. No change.

May 5th 1885 - No special change. No medicine. Burns healed but opened again.

Sept-10-1885 - No changes - Burns healed - Oct. 12-1885. R K Dr. gr. ~~XX~~ B.I.D.

March 9. -1886 - No special change. No medicine. Fits on seven days last months.

May 5 - 1886 - At supper table suddenly threw himself backward in a fit and strangled with food. Physicians arrived just as heart was ceasing to beat and all efforts at resuscitation - pulling out tongue, artificial respiration and removal of food - proved unavailing.

Died.

This patient was first admitted in the Minn Hospital for Insane at St Peter July 16. 1881. Transferred to the Second Minn. Hospital for Insane at Rochester April 27. 1883. Conduct while at St Peter." At first would not talk was stubborn, laughs in a silly manner. Later began working in fire room. He was a wanderer, picked up in Rice Co. had the delusion that he was President Garfield and had a mania for driving horses. Talks & is good natured now.
June 1. Quiet and good natured, works in engine room, No medicine.
Sept. 1 – No change since last note – No medicine.
Dec. 1. Worked right along in Engine room. Was ill about beginning of second week of last month – when he came down w malarial attack – low fever of Remittent type – Face flushed dry cracked – & at one time he had slight epistaxis – Treatment was varied – mostly quinine in tonic doses – also, bismuths, Iron &c – He is some improved, but is very thin.
Dec. 3. Up & dressed today for first time in about 3 weeks
Dec. 9. R/ – Elix. Ferri et Cinchon. f5ij. A.I.D.
" 24. Tonic reduced to f3j B.I.D. It bottle – Mentally – there is no special change – Quite good natured – Much given to laughing in a senseless way – Is not yet well enough to work – so is on ward.
March 1 – 1884 – Nothing of importance to note – Works in Engine room – No medicine
June 1 – Same as last note –

Dec. 1st 1884. Same as last note. Is a trusty worker in coal room
Feb. 26-1885 – No change – just as above
May 30-1885. No change. No medicine. Still works outside.
Sept-12-1885 – Same note true. Dec. 9-1885 – No change. Works in coal room. March 5-1886 – Last note still true.
June 7-1886 – No change. No medicine. Works in coal-room.
Sept. 7-1886 – Last note still true. Was sick a few days recently – vomiting and slight fever. Jan. 7 '87. Bodily health good. Works daily in the engine room. No change in mental condition. No medicine.
April 4-87 – No change. Still works in engine room. No medicine.
July 21-1887 – Last note still hold good.
Sept. 27-1887 – No change whatever. Works in the coal room.
Jan. 6-1888 – Last notes still hold good. March 27 '88 – No change
June 25-1888 – No change. Sept 24-1888 – No change noticeable.
Jan. 14-1889 – No change can be noticed in mind, body or habits.
Bodily health good. Works daily in the coal room. No medicine.
Apr. 27-1889 – No change. Sept. 30-1889. Quiet and demented; working regularly shoveling coal in engine room. April-14-1890. Remains same. Works quietly – No complaints – Oct. 15-1890. Health good – No change.
July 11/90 No change. Works outside. July 13/91 Not long ago stepped on a nail & injured foot. Laid up a few days. Now at work again. As usual.
May 25-92. Weight – Eats well & does good work. Talks only when spoken to. Cleanly & industrious. Eats well, answers promptly, works well & willingly. Tidiness & cares for self, clean & good natured. Weight 152; eats well and orderly, works well & does regular amounts of work. Talks silently, cleanly & does Sept-6-92 very little. Eats well & is prompt. Works well. Tidiness & cares for self, is clean & tidy does laborious.
Nov. 6. Wt 145 – Works every day. Mch 6-93 Wt 159 – Health good.
May 31 93. He is a quiet, harmless patient, works every day with engineer. Habits good Sept 3 93. No change
Sept. 2. " A quiet harmless patient, works in Engine room. Oct 6 93. No change in condition.
Nov. 3 93 A quiet harmless patient, works in Engine room. Never speaks when on ward. Dec 28 93 No change
January 31 94 See note of Nov. 3 93. Feb. March & to April 30/94. No change during this period. Patient works daily in Engineers department. May 22 '94 Patient is quiet & well behaved, works in Engine Room, seldom speaks when on ward. Health apparently good. June 26th '94 No apparent change. July 24th 94 No Change. Aug 1st to Oct 30 94 A quiet & inoffensive, works in Engine Room, seldom speaks when on ward, is clean & neat; health good. Nov 94 Quiet, works in Engine Room, seldom speaks; April 30 Feb 1895 Keeps as above described. May, June & July 31/95. Patient keeps about the same, from month to month. Quiet: dull & stupid. Will say a few words. Habits clean: health good. He works regularly in Engine-room. Aug Sept & to Oct 31/95. No change in anyway noticeable during the quarter. Works steadily in Engine-Room. Health good. Nov 95. Wt 151 pounds. Pulse 92. Nov. Dec & to Jany 31/96. About the same, all the time. Works in engine-room. Health is good. —

Sept 25/91 Is in spell and in seclusion. Dec 4/91 Is again in spell and in seclusion; was noisy during night. slept none. Dec 16/91 Still in spell. Dec 21/91 Is just out on hall; is better. Jany 8/92 Is sick. Has la Grippe. Has headache, nausea & cough. Ordered to bed. Pulse 112. Bm P. 87. Ab same. Jany 11/92 Gained steadily & is up to day, feeling well. Feby 5/92 Is in spell. Noisy 2 of 3 hours past 2 of 3 nights. To day weighs 140½ lbs. Appetite good. Is pale & thin. Tongue coated. Speaks usually only when addressed; talks noisily, in a grunting monotonous way while in spell. If permitted an word, grabs & throws around & bites & scratches. Dirty & restless. Out of spells is good natured, talking considerable. Writes letter full of religious sentiments but very incoherent. Reads some. Goes out walking; dresses & cares for self. March 4/92 Weight 147, gain 6½ lbs. Mar 24/92. Struck and scratched a fellow-patient. Apl 4/92. Wt. 146 pounds. Pulse 96. May 3/92. Wt. 147 pounds. Pulse 68. June 3/92. Wt. 147 lbs. Pulse 84. July 6/92 Wt. 138 lbs. P. 108. July 8/92. About 2nd inst. went into a maniacal spell and has been somewhat noisy and restless at night, ugly and troublesome by day and in seclusion some. Is out on hall today. July 17/92. Is reported as having been masturbating badly. July 31/92. Has been fighting some lately. Aug 3/92. Wt. 141 ½ pounds. Pulse 88. Aug 16/92. Is quiet at night and sleeps well, apparently. Is not so maniacal and restless; is in his best spell, but is never now so rational and well-behaved and industrious as he formerly was when at his best; but is always, more or less, disturbed and troublesome. Bodily health fair. Sept 5/92. Wt 140 lbs. Pulse 68. Oct 4/92. Wt 142 lbs. Pulse 62. Nov 2/92. Wt 142½ lbs. Pulse 78. Nov 28/92. Has gone into a "spell". Is excited & troublesome. Is in seclusion. Dec 5/92. Wt ~~not taken~~; is in a "spell". Dec 14/92. Went into a quite active "spell" on the 30th ult. in which he was very irritable & pugnacious, restless & troublesome and was kept in seclusion during the day, and was restless and slightly noisy at night, sleeping very little, often none at all. Is today out on the hall & comparatively quiet.

Jan 3/93. Wt 151 lbs. Pulse 65. Jan 5/93. Except when most actively excited, passes fairly and restful & quiet night. Has minor relapses, requiring seclusion, for short periods, quite often, and is, the greater part of the time, more or less irritable & actively & aggressively pugnacious. Feb 3/93. Wt 151½ lbs. Pulse 60. Feby 19/93. Just entering another "spell" of greater excitement and disturbance. Feby 20/93. "Spell" growing worse; is in seclusion. Feby 24/93. Still kept in seclusion. This is the most severe spell he has yet had. Yesterday he was destructive, taking clothing & anything he could get ahold of; also violently pugnacious. March 2/93. Has been kept in seclusion almost steadily since the last note. Wt 144 lbs. Pulse 95. April 4/93. Wt 148 lbs. Pulse 78. Apl 26/93. Distinctly bad "spell" lasted about 2 weeks, when he was restless & noisy by night, restless & pugnacious by day; gradually improved and was taken out of seclusion. Still actively meddling & pugnacious.

May 31. 93. Appetite good. Bowels reg; Cough none, Resp. Condition good. A very good patient when not under spells. Reads, writes, plays games. Accident reason for self. Has spells lasting from 1 to 5 weeks & is ugly stubborn & dirty. Talk not much of a conversationalist. Seclusion none. Visits none. June 3. 93. Wt. 150½. Pulse 15th. Spell. 16th Sleep in hour. Noisy

This patient was committed in the Minn. Hospital for Insane at St Peter. March 28." 1883. Transferred to the Second Minn. Hospital for Insane at Rochester April 27." 1883. Conduct while at St Peter." Patient has been wandering about Faribault Co. over a year. sleeping in out of the way places and dancing and singing about the highway. Filthy and masturbates. Says he was hit upon the head a while ago. He frightens women & children by going to houses by night and by day and demanding food. When angry claims the power of bringing the sun and moon together, thinks he is possessed of great supernatural powers. Attempted to escape from Chapel. generally good natured. gives a great many Commands. June 1." Asks for tobacco. Is very talkative & very lazy & indifferent. W. Med.

Dec. 10-1884. Has delusions - thinks he is manager of a circus or theatre. Rather untidy. Has worked in the wards almost since his admission. No medecine.

Feb. 26-1885 - Usually good natured; sometimes quarrelsome. Goes walking.
May 30-1885. No change. No medecine. Rather silly, but no delusions noticed.
Sept-8-1885 - No change - Has had several small boils on his body. Is quite dirty.
Dec. 9-1885 - No change noticeable.
March 5-1886 - No change. No work. No medecine.
June 7-1886 - No change. No medecine. Now works daily on the hall.

Sept. 7-1886 - No change. Works daily with the farmers.
Nov. 1-1886 - Eloped while outside to-day.
Apr. 22-1887 - He was "found wandering among the farmers in Hyde Park, Wabasha Co. last summer." He was in the poor house from 20th of last Nov. until the first of April." He was kept under bromides and alteratives" - "He did not improve under treatment". Insanity is manifested by "exalted ideas about riches and easily excited and wanders around." He was brought back to the Hospital to-day from Wabasha by W. D. Collier under a new warrant, with the above facts stated in his "history." It was not known that he had been here before.
July 27-1887 - Mind, body and behavior are just as they were prior to elopement. Bodily health good. Works with the farmers.
Sept. 27-1887 - Eloped yesterday, returned to-day from Eyota. No change.
Jan. 6-1888 - No special change. Bodily health good & No medicine.
Feb. 27-1888 - No change. Works daily on the ward. No medicine.
June 25-1888 - Last notes still Held good. Sept 29-'88 - No change.
Jan. 14-1889 - Still jovial and exalted in manner and speech. Bodily health good. Does no work.
Apr. 27-1889 - No change. July 22-1889. always in good humor. full of grotesque grimaces and attitudes. good physical health. No work, no medicine.
April-14-1890 - Health good. Behavior as queer & talk as incoherent as ever. July 16/90 Health good. Cuts queer antics. Greets Dr. "Hello Mickle" Nov 27/90. No change. Feb-20-91. Frequently laughs and looks as if he was about to say something and suddenly turns away.
June 3. 91. No especial change. Does some work. Plays billiard some. Silly and some what demented. Fairly clean but untidy.
Aug-6-91. Escaped in July but was caught and returned the same day. Works on ward, is untidy, slovenly and quite rough boisterous.
Dec-1st-1892. Insane dementia. Good health. Dirty and untidy. Pulse 74, soft and irregular. Is a fair worker on ward but is very unsteady and troublesome part of the time.
Feb 14-92. No change. Would run away if any opportunity presented itself.
May-25-92 [weighs 135½, has good appetite, but is pale. Talks freely, calmly and coherent at times. Walks out and about ward much, moves promptly. Works well and willingly. Dresses self, but is slovenly. Tries to skip at times.
Sept-6-92. [Weighs 141, eats well and rapidly, but is pale. Talks wisely, profane, vulgar, incoherently and to self. Has wet, is prompt. Works willingly. Dresses self, but is slovenly. Good-natured. Indifferent in spirit. Is noisy by his loud talking. Has numerous movements of hands and face.
Nov. 10-92 Wt. 137- Health fair, talks a good deal, is slouchy - assists in work about the ward, sings & plays on the organ some, is good natured & swears considerable - occasionally strikes a patient.
Mch. 6-93 Wt. 136½ Health fair - no change
May 30-93. He is very restless, imagines that the Circus is nearly waiting for him to come. Wants to get away all the time. He does some work. Health good. Sept 8 93. No change. K. P. 73.

June 1 – No change since last note – Got angry the other day over game of cards & struck another patient with a chess board – Rx Bromide of Potass:

Dec. 10-1884 – Worked for a while in the dining room, but became angry at attendant and stopped work. Has been on bromide nearly all the time. Has fits about once a month.

Feb. 28-85: No special change. Has had several fits since last note.

June 1-1885 – No special change. Is quiet, reads much; no delusions known; except that he occasionally thinks he will die before morning. Physical health failing; is very anaemic. R Br continued. Reads much.

June 2-1885 – In bed; complaining of nausea, dizziness; much confused; can hardly talk. Rx whiskey and Bi. June 3-'85. – Very weak and confused; says he has been feeling poorly for last week. Rx whiskey and Sa Salicylate. Can hardly talk.
June 4-'85 Put on special diet. Rx Effrom Salts and stimulants.
June 5-'85 Better this morning standing in line. Rx whiskey and Quinine.
June 6-'85. In bed again; still weak. Rx Quinine 8vo.
June 7-'85: Tongue coated; bowels inactive; weak; difficulty in talking. Rx Spts Frumenti.
Has eaten very poorly since taken sick. Very constipated & injection of Ol: Ricini at 7 p.m.
June 8-1885 – About the same, still lies dressed on the bed. Stimulants and milk continued steadily.
June 10-1885 – Still low abed. Has a slight, weak cough and complains of pain in chest.
June 11-1885. About the same; in bed, eats little. Stimulants continued.
June 12-'85 – Eating better this morning; hot and feverish; tongue dry; pulse 120; cannot put out tongue. Says he is not sick anywhere, but is weak. Stimulants continued.

June 13-'85 8 a.m. – P. 125; R. 44; mouth very dry; feverish and growing weak – can hardly swallow to drink. Rx Spts. Frumenti ℥j; Tr. Bella. mx every 2 hrs. 2 p.m. – P. 120 R. 44; Temp. 104.5°. Rx Sedlitz 9 p.m. Rx Quinine gr x and Emplast. Sinapis to chest.
June 14-'85 – 8 a.m. Temp. (axillary) 104; P. 120; R. 40
℞ { Spts Fr. ℥j; Tr. Bella mx; Tr. Digitalis mx } every 2 hours.
4 p.m. – T. 104.° in axilla; P. 120 and weaker; R. 40.
Has taken no food except milk. Bowels have not moved; is weaker. Chest painted with Tr. Iodi.
June 15-1885 – About as he was last night. Rx larger quantities of stimulants and more often, and injection of ℥ss Ol. Ricini. 10 p.m. – Much dysphagia in swallowing liquids – seems due to weakness. Breathing still very rapid. No signs of consolidation could be found, but resonance is somewhat tympanitic over left apex. Chest painted several times with Tr. Iodi. Whisky, Bella. and Digitalis continued as above.
June 16-1885. T. in axilla 103°; P. 120 and weak; R. 50-55. Difficult for him to swallow without choking, and cannot speak. Marked hectic flush on cheeks. Rx Enema lactis – not retained. Bella, Digitalis and Spt. Frumenti continued every 2 hrs.
2 p.m. – R. 52; P. 125; T. 103° in axilla. Rx Enema of beef tea, brandy and Opium. 10 p.m. – R. 50-55; P. 140.
June 17-1885 – 8 a.m. – R. 50-55; T. 103.5; P. 140. Have not been able to give full doses of stimulants. Chest painted with Tr. Iodi. Rx enema of Beef Tea and Brandy, but it was not retained. 7 p.m. R. 80; P. 175; can hardly move.
9 p.m. Same as above. Rx Tr. Bella mx, Tr. Digitalis mv, hypodermically.
Died at 11 o'clock p.m.
June 18-1885 – Brother came to-day and removed remains.

Died.

This patient was first admitted into the Minn Hospital for Insane at St. Peter April 27. 1870. Transferred to the Second Minn Hospital for Insane at Rochester April 27. 1883. Conduct while at St. Peter. "Previous to admission had paroxysms of raving, delusions that neighbors had conspired to assassinate him. Took axe, knives and pitchforks to bed with him. Since admission has not shown any of above symptoms, has manifested only weak mindedness. Has eloped twice or three when out at work or driving team and each time has gone directly home. Has had some delusions about witchcraft. Was sick for several months in 1881. since which time has not been as well as formerly and does no work."

June 1. Always quiet. lounges about the ward. does no work. No medicine.

Sep. 1. Same as last note - No medicine

Dec. 1. No change - No medicine

March 1. 1884 - Nothing special to note except that patient is becoming demented. No med.

June 1. Same as last note - but patient seems run down physically - Was recently troubled with inflamed mouth & cheek - with salivation - Cheek now scarified.

Dec. 10-1884. Rather untidy. No special change. No medicine.

Feb. 23-'85. No change; no medicine.

June 1-'85 - No change. Does no work. No medicine.

Sept 10-1885 - No change. Dec. 10-1885 - No change. No medicine.

March 9-1886 - No change. No work. No medicine. June 7-1886 - No change. No medicine.

Sept. 6-1886 - No change. No work. No medicine.

Jan. 4-1887 - Untidy; quiet and demented. No work. No medicine.

Apr. 6-1887 - Last notes still hold true.

July 25-1887 - No special change except that he seems in rather poorer bodily condition. Sept. 27-'87 - Habits and mental condition unchanged; is completely demented. Is thin and haggard and for a long time he has looked as he would soon die of marasmus alone. But he keeps about the ward. No medicine.

Jan 9-1888 - No improvement in bodily health. Mental condition unchanged.

Feb. 27-1888 - Bodily conditions perhaps a little better, otherwise no change.

June 25-1888 - No change. Quiet, untidy, but not dirty. No medicine.

Sept. 27-1888 - Last notes still hold good. Bodily health good.

Oct. 20-1888 - Patient had lately been failing imperceptibly. Complained of being sick three days ago and would not eat; had some cough, but no pain anywhere. Yesterday he grew rapidly worse, breathing more rapidly & temperature rising, and died at about 1 o'clock last night. For over a year he has looked as if he could last but a few days or weeks longer.

Died.

Correspondent,	J. E. Nelson 2424 Wentworth Av.	Chicago Ills	July 27/85.

This patient was first admitted into the Minn. Hospital for Insane at St. Peter. March 16th 1882. Transferred to the Second Minn. Hospital for Insane at Rochester. April 27th 1883. Conduct while at St Peter." Patient a student in the "G.A. College" St Peter. Never a bright scholar and seldom knew his lessons and acted strangely at times. left on account of ill health. After admission was very quiet and did not eat well for a time, improved physically but would not talk. grew more and more shiftless and stupid and finally began to tear clothing. Is not as destructive at present but very shiftless and filthy in habits. Demented.

June 1st. Filthy & destructive to clothing. always quiet no work. No medicine

Dec. 10-1884. Imagines he sees flames and devils in his feet. Expects to die immediately and wants to go home. Habits the same. No medicine.

Feb. 23-85. Failing physically. Hallucinations, if any changes mentally.

June 1-1885 - No special change. Somewhat destructive to clothing. No medicine.

Sept 10-1885 - No change. Dec. 9'85 - Dirty and destructive to clothing. No medicine

March 4-1886 - No change. No medicine.

June 5-1886 - No change. No work. Habits dirty. No medicine.

Sept. 6-1886 - No change since last note.

Jan. 4-1887 - No change noticeable. Does no work. No medicine.

Apr. 5-1887 - Dirty, destructive and demented. No work. No medicine.

July 26-1887 - Not reported dirty. Otherwise there is no special change to record.

Sept 27-1887 - No improvement or other change.

Jany 6-1888 - No special change in mind, body or habits.

Feb 27-1888 - Quiet, clean, untidy, demented. No medicine.

June 25-1888 - Last notes still held good. Does no work - is to demented.

Sept. 27-1888 - No special change. Jan. 14 1889 - Quiet, clean, untidy, demented. Bodily health good. No medicine. April 27-1889 - No change since last note.

Jany 20/90. Much demented; never speaks. Noticed that he has some dry harsh cough; is pale. Pulse fair. Ordered tonic elixir ℥ss bid. Jany 21/90. Up & dressed. Feby 3/90. In ward; pale. Feby 14/90 Coughs some; spits on hands. Feby 17/90 Expectorate considerable. Feby 22/90 Since last note has been moved over to C 3. & put to bed. To day, pulse 118. regular, medium vol & firm. In am. T. 102.3° F.; PM. T 104.5° F. Given Aromatic Spirits of Nitre. Feby 24/90 Sweet Spirits of nitre renewed. Has been on Cod liver oil since 18th inst. & since 19th on wine. Feby 25/90 Put on lead & opium for diarrhoea, & on tonic elixir & wine. March 6/90 Given Tr Iris Chloid internally & Sod. Collod locally for erysipelas of the face.

March 27/90 See attached sheet for details of medical history. The case was diagnosed as one of Phthisis, in its beginning & repeated physical exam. of the chest showed marked ~~progressing~~ signs of progressing consumption of the lungs. Patient on this day died in afternoon.

Autopsy: Patient much emaciated. Thorax opened. Heart found some enlarged. A large quantity of pericardial fluid was found. Pleural cavity or sack almost entirely obliterated by extensive & firm adhesions. Both lungs almost wholly filled with tubercles in various stages of caseation & suppuration. Cavities numerous. Lower back margin of each lung less invaded. In abdomen, mesenteric glands enlarged. No ulcers in intestines. Brain examined; no marked gross changes noted.

Died.

Correspondent	W. J. Thomas. (new Guardian) 2017 Milwaukee Ave. Merriam Park St Paul		Heart attacked this

This patient was first admitted into the Minn Hospital for Insane at St Peter. Jan. 4. 1869. Transferred to the Second Minn. Hospital for Insane at Rochester April 27. 1883. Conduct while at St Peter." Eloped several times. full of plans for patent right and inventing constantly. handy with tools and works at carpenter work principly. No change. Talks about burning buildings at times. Amorous at times."

June 1. Very industrious works with carpenter every day. full of delusions.

Sept. 1. Same as by last note. Has spells when he will do no work for some days - when he scarcely speaks to anyone. Had one of these attacks few days ago - is now at work again.

Dec - 1. No change - No medicine.

Mch - 1 - 1884. Physical health good - No medicines - Works daily with carpenter - full of delusions about his "inventions".

Dec. 10 - 1884. Haste note still good. Feb. 2-3-'85. Same as above.

May 25 - 1885 - Still the same. Rather more confused for week past, but now at work again.

Aug. 31 - 1885 - The same. Full of strange stories and inventions. Works most of the time.

Nov. 24 - '85 - Visited by friend in October. No change. No medicine. For a while was too crazy to work as usual in the carpenter shop. Dec. 4 - '85. Recently visited by a friend. No change. No medicine. Usually at work in carpenter shop.

Mch. 4 - '86 - No special change. June 1 - 1886 - No change. Works with carpenter.

Sept 4 - 1886 - No special change. Occasionally too deluded to be able to work. Visited by his brother, who took him for a ride.

Seems to be growing less able to work steadily, losing more [illegible]. Apr. 4 - 1887 - Works daily on the ward. No special change. Too deluded to work during June. Is now again at work. No medicine. Working again in the carpenter shop. No special change. No special change. Bodily health good. No medicine. No change. Bodily health good. Still full of de- [illegible] arding his inventions & army experience.

No special change. Works daily with the carpenters. Took a two weeks' rest from work last month. No special change. Works and rests, according as his mind is less or more deluded. [illegible] health good. No special change. No medicine.

[illegible] ly 22 - 1889 Became depressed [illegible] days during which he did [illegible] April - 14 - 1890. Does not [illegible] do. Is too bothersome [illegible] lately. Works some. Continues his [illegible] content. No improvement [illegible] is contented and says he thinks [illegible] good. Pupils slightly dilated [illegible] nata holds good. Full of [illegible] inventions. June 3-91 No change. Good health. Clean & tidy. Aug-6-91. This man seems almost like a case of Folie Circulaire. Goes to "sleep" and when he "wakes up" tells of his inventions. Works in garden daily.

Dec - 1st 1892. Secondary Dementia. Bodily health good. Clean and tidy. Pulse & temperature regular. Works with carpenter but has occasional spells similar to temporary melancholia from which he awakes & he seems what maniacal in a mild sort of way.

Feb 14 - 92. No change in patient. Quiet good contented. Good health.

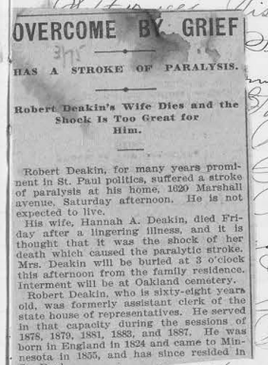
May - 25 - 92 Weighs 135. Has good appetite and is fair. Talks freely, calmly and intelligently. Works much and moves promptly. Works well and willingly. Dresses and cares for self is good-natured, clean and tidy. Has no fault.

Weight 132; talks well and clearly and works well. Talks freely, calmly, coherently and is self. Reads, goes

Sept - 6 - 92. and and is prompt. Works well and willingly. Dresses and cares for self is clean tidy and good-natured. He has spells when he connects things to the carpenter shop. Has no fault.

Nov. 10 - 92. Wt 125 health fair - works at carpenter shop - talks good deal - is inventing new machinery every day. as steamboats + hydraulic engines.

Mch. 6 - 93 Wt 132 - health good - causes no trouble - no change in his condition - has spells when he will not talk for a number of days, but he has had more lately (P.77.)



OVERCOME BY GRIEF

HAS A STROKE OF PARALYSIS.

Robert Deakin's Wife Dies and the Shock Is Too Great for Him.

Robert Deakin, for many years prominent in St. Paul politics, suffered a stroke of paralysis at his home, 1020 Marshall avenue, Saturday afternoon. He is not expected to live.

His wife, Hannah A. Deakin, died Friday after a lingering illness, and it is thought that it was the shock of her death which caused the paralytic stroke. Mrs. Deakin will be buried at 3 o'clock this afternoon from the family residence. Interment will be at Oakland cemetery.

Robert Deakin, who is sixty-eight years old, was formerly assistant clerk of the state house of representatives. He served in that capacity during the sessions of 1878, 1879, 1881, 1883, and 1887. He was born in England in 1824 and came to Minnesota in 1835, and has since resided in St. Paul.

Correspondence 4/23/87	W. J. Thomas, (new Guardian) 2017 Milwaukee Ave. Merriam		

This patient was first admitted for Insane at St Peter. Jan. 4. 1869. Thence Minn. Hospital for Insane at Rochester "on Conduct while at St Peter." Eloped several times. Has plans for patent right and inventing constantly. Works with tools and works at Carpenter work principly. No delusions. Talks about burning buildings at times, Amrons at times." June 1. Very industrious works with Carpenter every day. full of delusions.

Sept. 1st. Same as last note. Has spells when he will do no work for some days - when he scarcely speaks to anyone. Has one of these attacks few days ago - is now at work again -

Dec - 1. No change - No medicine.

Mch - 1 - 1884. Physical health good - No medicines - Works daily with Carpenter - Full of delusions about his "inventions".

Dec. 10 - 1884. Last note still good. Feb. 23-'85. Same as above.

May 25 - 1885 - Still the same. Rather more confined for week past, but now at work again.

Aug. 31 - 1885 - The same. Full of strange stories and inventions. Works most of the time.

Nov. 24 - '85 - Visited by friend in October. No change. No medicine. For a while was too crazy to work as usual in the carpenter shop. Dec. 4 - '85. Recently visited by a friend. No change. No medicine. Usually at work in carpenter shop.

Mch. 4 - '86 - No special change. June 5 - 1886 - No change. Works with carpenter.

Sept 4 - 1886 - No special change. Occasionally too deluded to be able to work. Visited by his brother, who took him for a ride.

Seems to be growing less able to work steadily, being more unruly. Apr. 4 - 1887 - Works daily on the ward. No special change. Too deluded to work during June. Is now again at work. No medicine. Working again in the carpenter shop. No special change. No special change. Bodily health good. No medicine. No change. Bodily health good. Still full of delusions regarding his inventions & army experience.

No special change. Works daily with the carpenters. Took a two weeks' rest from work last month. No special change. Works and rests, according as his mind is less or more deluded. Bodily health good. No special change. No medicine.

Dec 22 - 1889 Became depressed [illegible] days during which he did [illegible] - April - 14 - 1890. Does not do. Is too bothersome [illegible] daily. Works some. Continues his [illegible] content. No improvement. Is contented and says he thinks good. Pupils slightly dilated, [illegible] nate holds good. Full of inventions. June 3-91 No change. Good health. Clean & tidy. Aug - 6 - 91. This man seems almost to be a case of folie Circulaire. Goes & "slump" and when he "wakes up" tells of his inventions. Works in garden daily.

Dec - 1st 1892. Secondary Dementia. Bodily health good. Clean and tidy. Pulse & temperature irregular. Works with carpenter but has occasional spells similar & temporary melancholia from which he awakes & be some what maniacal in a mild sort of way.

Feb 14 - 92. No change in what way. Dress good and contented. Good health. Weighs 135. has good appetite and is gain. Talks freely, calmly and incoherent. Walks out much and moves promptly. Works well and willingly. Dresses and cares for self is good-natured, clean and tidy. Has rupture.

May - 25 - 92 Weighs 132; eats well and slowly and works well. Talks freely, calmly, coherently and to self. Reads, goes [illegible]

Sept - 6 - 92. eats well is prompt. Works well and willingly. Dresses and cares for self is clean tidy and good-natured. He has spells when he carries things to the carpenter shop. Has rupture.

Nov. 10 - 92. Wt. 125 Health fair - works at carpenter shop - talks good deal - is inventing new machinery every day. as steamboats & hydraulic engines.

Mch. 6 - 93 Wt 132 - Health good - causes no trouble - no change in his condition - has spells when he will not talk for a number of days, but he has had none lately. (P.77.)

OVERCOME BY GRIEF

HAS A STROKE OF PARALYSIS.

Robert Deakin's Wife Dies and the Shock Is Too Great for Him.

Robert Deakin, for many years prominent in St. Paul politics, suffered a stroke of paralysis at his home, 1020 Marshall avenue, Saturday afternoon. He is not expected to live.

His wife, Hannah A. Deakin, died Friday after a lingering illness, and it is thought that it was the shock of her death which caused the paralytic stroke. Mrs. Deakin will be buried at 3 o'clock this afternoon from the family residence. Interment will be at Oakland cemetery.

Robert Deakin, who is sixty-eight years old, was formerly assistant clerk of the state house of representatives. He served in that capacity during the sessions of 1878, 1879, 1881, 1883, and 1887. He was born in England in 1824 and came to Minnesota in 1855, and has since resided in St. Paul.

This patient was first admitted into the Minn Hospital for Insane at St Peter May 2nd 1870. Transferred to the Second Minn Hospital for Insane at Rochester. April 27. 1883. Conduct while at St Peter. "Variable sometimes would not wear any clothing for months. Sometimes violent. always mischievous swings on gas fixtures and breaks them. filthy in habits. Formerly had delusions about tongue which he cut badly with glass. Sometimes makes wanton attacks on feeble patients. has worn no restraint for months. While at timporary Hospital slept in dormertory injuring one patient in night by attacking him. jumped from yard & caught little girl & broke her arm while at timporary Hospital." June 1. Filthy & somewhat distructive to clothing. seldom speaks. ugly at times

Sep. 17. Same as last note – Has foul, indolent ulcers on left leg – – ordered dressing every day.

Dec. 1. No particular change to note – Filthy – destructive to clothing – assaultive attacks other patients. Is failing mentally & physically. No medicine

Feb – 4 – 1884 – Disgustingly filthy – Has been detected forcing a demented & feeble patient to swallow his (Simonson's) feces. The ulcerated leg – doesn't heal – dressings not seeming to do more than keep the sore clean –

Feb – 8 7 P.M. Attendants report he has not passed any urine for a considerable time – On examinations (patient on his back) the abdomen was found to be distended – the lower 1/3 being flat & the upper 2/3rds tympanitic on percussion.

On passage of catheter no urine was found in the bladder – On pressing the finger against one side of the abdomen & percussing the other side, the impulse of liquid was distinctly felt.

Dear Doctor Tyce;

Your name was given to me by Dr. B.P. Grimes of St. Peter.

He stated that my father's uncle, Andrew (Anders) Simmonson (Simonson) was transferred to your institution the 27th April, 1883.

I am compiling a family history and know that his birthday was March 5, 1845. He was born in Sweden and emigrated with his brother Carl and family in early 1869 to Wanamingo, Goodhue County.

The date of his death is not known. I understand that he died at your institution. May I have the date, please? And any other data regarding him that you wish to add. May I hear soon, please?

Thank you.

Yours very truly,
Mrs. Lyle L. Dawson

Pts Chart

Mrs. Lyle L. Dawson, Sr.
Oak Coulee Ranch
Flasher, North Dakota 58535

Dear Mrs. Dawson:

Following receipt of your letter of the 11th November, an additional search of the records indicated that Andrew Simmonson had been admitted at the St. Peter State Hospital from Wanamingo on the 2nd May, 1870, and was transferred to the Rochester State Hospital on the 27th April, 1883.

The record indicates that at the time of admission he was 25 years of age, and was single. The history indicated that he became mentally ill in December 1869, and that there was information that he had repeated attacts of mental aberation before leaving the old country.

He indicated that he had some idea that people who brought him to the hospital were going to kill him, that his brother was mentally ill. He later on was described as somewhat withdrawn, walked about but rarely spoke to anyone. There were apparently periods of acute excitement, so that in 1878 he was described as acutely overactive requiring close control. One of the problems was that he was continually tearing up his clothing. He continued to require close supervision because of his unpredictable behavior while he was at St. Peter. He was transferred to the Rochester State Hospital as of the 27th April, 1883.

If you wish further information, I suggest that you address your inquiry to Dr. Francis Tyce, Medical Director, Rochester State Hospital, Rochester, MN,. 55901.

Yours very truly,

heal – messengs not seeming to do more than keep the sore clean –

Feb – 8th P.M. Attendants report he has not passed any urine for a considerable time – On examination (patient on his back) the abdomen was found to be distended – the lower 1/3 being flat & the upper 2/3ds tympanitic on percussion.

On passage of catheter no urine was found in the bladder – On pressing the finger against one side of the abdomen & percussing the other side, the impulse of liquid was distinctly felt.

Feb 9. 1884. Passed urine late last night – The percussion flatness was much higher than yesterday – Ordered to stay in bed.

Feb – 14 – No change since 9th – Filthy as ever – Eats his own feces.

" 15 – Up & dressed – Looks very weak – Fluid in abdomen as before.

" 23 – P.M. Ordered to bed – Anasarca of both lower extremities – Hydrocele – Ascites, bad – abdomen very tense. Sores on legs very bad – They have for some time been dressed with solution of permanganate of potassium.

" 25 – Looks very low – Appetite very bad.

" 28 – Troubled with emesis.

March – 2 – Appetite better.

" 3. Again troubled with emesis – vomited black material yesterday – Noisy at night – singing &c.

" 5th. The fluid has disappeared from the scrotum & there seems less anasarca of legs. – There is still much gas as well as liquid in the abdominal cavity.

" 10 – Very weak – Cannot retain food on his stomach –

March 12. 1884 – Was found dead this morning at 6 o'clock, when the attendants came to open the door of his room.

The condition which gave rise to the Ascites is not known, but as he showed no symptoms whatever of uraemia, & had no heart trouble known of, it was presumably obstruction to the portal circulation.

Mch 13. Buried in hospital cemetery.

Died.

Correspondent,			

This patient was first admitted into the Minn. Hospital for Insane at St Peter November 4th 1880. Transferred to the Second Minn. Hospital for Insane at Rochester, April 27th 1883. Conduct while at St. Peter." The insanity of this patient is said to be manifested on religious matters. He is quiet now. has inflamation of eyes. May 14th 1881. Patient is rather quiet. has worked with painter. paints signs particularly. attempted to get away at one time. When spoken to answers in a sullen manner. Physical health good. February 1882. cannot be trusted outside. Talks a great deal on religious matters. wants to go home. March. 1883. No change. sometimes can be induced to do a little artistic painting but is very unreliable.
May 11. Very quiet since admission here. and to day was allowed to go away with friends who were anxious to take him on trial.

Discharged
Dec-5-1883.

From page 95. Edmond Dealin

May 3. 93. He is a harmless patient, works with Carpenter. He has quiet spells in which he will not work. He will carry away small articles such as spectacles, shoes, mittens, hats & hide them at or near the place of work. Health apparently good. July 31 93. No change. Sept 2 93. He is a quiet harmless patient, talks a good deal about his inventions points a clear of absence for a few weeks, will hide & destroy that he gets hold of. Works on farm. Health good. Oct 5 93. Has been very quiet of late and does no work. No change. Oct 25 93. He has come out of his spell & talks a good deal. Works with foreman.
Nov 1 93. Quiet inoffensive patient, has spells in which he seems in a fit of stupor & when he comes out of them he talks continually. He has delusions about mechanical inventions. He works with foreman. Health good. Dec 28. 93. Is quiet and does no work at present. January 31 94. He works with foreman at present, there is no change. Feb - March & to April 30 94. During this period there is no noticeable change in either his physical or mental condition. Still subject to spells - at times is seemingly talkative; full of delusions, as above noted. Works outside daily. Health seems good. (Successfully vaccinated Apl 25)
May 1 94. Patient has quiet spells during which he sits in one place, head resting on hands & never speaks. At present he is working on Lawn & talks incessantly. Has delusions about mechanical inventions (inclosing all articles of all kinds) that he can't get hold of & conceals them. He is neat in appearance & clean in habits. June 30 94. No change. July 27 94 The same.
Aug 25 94. Is inoffensive, generally very talkative - has delusions about mechanical inventions. Has quiet spells of several weeks duration, when he sits in one place in a dejected melancholy manner. Done no work since Aug 6. Just at present seems to be brightening up some & coming out of his spell. Is clean & neat; health good. Sept 30. Works outside - talks incessantly. Oct 18 94 tongue moist, coated, heavy appetite. Pupils at present dilated, due to action of atropine. Heart sound good. Aortic sound roughened, lungs sound good. reflexes equal - about 70 B, coordination normal last good. bowels reg. micturition fairly good. pulse 80, full & reg. Oct 30 94 Kept inside on account of sore eyes of late. Behavior quiet & rather stupid. seldom speaks. Nov 94 Spells of Mel. returns about 2 weeks, then comes out & is full of inventive schemes - bright & talkative. Dec 94 worked outside for days in early part of mo, at present is stupid. Jan 01 st 1895 has been working at the planing house for several days but was accidently injured on the face by a board striking him severely bruising his left eye (April 30 - 1895. Eye healed without any trouble. Health good. Visited by brother lately. May - June & to July 31/95. Seemed, during month of May, there a sort of spell". Was quiet, stupid & melancholy; did no work. During June, he became quite bright & worked on Lawn, and is still working there quite well. Mentally he shows no change; has many & various delusions. Habits clean. Health seems good. Was visited by a friend, recently. Aug Sept & to Oct 31/95. Patient generally bright & talkative, during this period; full of "inventive schemes". Occasionally has "spells" of stupidness and during September was very much so. Habits clean. Health good. works steadily on the Lawn.

This patient was first admitted into the Minn. Hospital for Insane at St. Peter. April 22. 1881. Transferred to the Second Minn. Hospital for Insane at Rochester. April 27th 1883. Conduct while at St Peter. "Received injury to head about two yrs. ago. Insanity manifested itself ever since. Imagines spirit of unknown woman hovers about him and annoys him exceedingly Habits good. Physical health failing. woman still hovers around him annoying him. Is becoming more demented. Injury to head did not confine him at any time.

June 1st. Thinks he is constantly surrounded with spirits and women especially at night. Does no work. no medicine indicated.

Dec. 10 - 1884. Just as at last note. Feb. 28 '85. Masturbates; no change mentally. Physically is running down. June 1 '85. No special change. No med. Physical health somewhat better.

Sept 10 - 1885 Appears as usual - no medicine.

Dec. 10 - 1885 - No change. No work. No medicine.

Feb. 20 - 1886 - No special change. Destructive to clothing. No work. No medicine.

June 7 - 1886 - No special change.

Sept. 7 - 1886 - No change. No work. No medicine.

Jan. 7 - 1887. Rather close talkative. Mind gradually failing. Nice - destructive to clothing and performs various gyrations with his feet under the influence of his delusions - imagines he cannot walk like ordinary persons. Does no work. No medicine

Apr. 7 - 1887 - No special change. No work. No medicine.

July 27 - 1887. Has lost much flesh. No special change in mental condition. Delusions continue. Does no work. No medicine.

Aug. 20 - 1887 - Bodily health still failing; is extremely emaciated and markedly phthisical in appearance. P. 140. Ordered to bed. R Ol. Morrhuae ʒj t. i. d. R Special diet. Aug. 23 - R Tonic Elix. ℥ij

Sept. 5 - 1887 - P. about 112 - 120, but patient seems to be slowly losing strength. R Ol. Morrhuae ʒj after meals, Bovinine, ʒij before each meal Sept. 27 - Steadily growing thinner + weaker. Is reduced to a mere skeleton.

Oct. 6 - 1887 - Appetite has continued good, has slept well, Bovinine and Ol. Morrhuae have been continued; he has had no diarrhoea, no hemoptysis, cough has not been harassing and he has expectorated but little. Fever has not been high and no night sweats discovered. He has been very deluded and incoherent to give any account of himself. But in spite of all the above favorable circumstances, he has steadily failed in strength. Pulse has been from 80 to 120, but to-day is weak and frequently intermits. Breathing to day is markedly increased in rapidity - something new in his case. Has lost still more flesh. R Sr. Pilla. et Sr. Dig. aa. m vij every two hours.

Oct. 7 - 1887 - Died this morning at 7.45 o'clock.

Died.

Dec. 10-1884. Worked on farm all last summer. Always asking for work. No medicine. No change mentally or physically.

Feb. 25-1885 - No change. No medicine. Works on ward.

June 1-1885 - No change. No medicine. Works outside and on ward.

Sept 11-1885 - Above note true. Dec. 10'85 - Works daily on ward. No change.

March 8-1886 - Works daily on the ward. No change. No medicine. Masturbates.

June 4-1886 - No change noticeable. Works daily on the ward. No medicine.

Sept. 7-1886 - Last note still hold good.

Jan. 4-1887 - No change. No medicine. Works daily on the ward.

April 7-1887 - Has gained flesh; otherwise no change. No medicine.

July 26-1887 - No change in mental condition. Just recovering from a large carbuncle on his abdomen. Is a confirmed masturbator.

Sept. 27-1887 - No special change. Jan. 6'88 - Still no change.

Feb. 27-1888 - Does not talk de zmuch; otherwise no change. Is an extremely industrious individual. Takes offence if called a "Demacrat".

June 25-1888 - No special change since last note. Sept. 27-'88 - No change.

Jan. 14-1889 - Breaches frequently. Bodily health good. Mental condition unchanged.

Apr. 27-1889 - Rather more talkative lately, but no marked change.

July 22-1889. Less talkative than at last note. Often falls on knees and raves mentally exalted. No marked change. Works on ward daily.

Dec 4/89. Has diarrhoea; given Diarh mixt. July 19/90. Has diarrhoea. Pulse 120, regular; eats but little; thinks he will have to pay for his board. Put to bed & given Eggnogs. & Mist diarh. & Red wine.

Apr. 18/90. See attached sheet for detailed history of patients illness since last note. Beginning in a diarrhoea which proved continuous, & obstinate, with a low fever, also prolonged, the tubercular character of the trouble was early suspected altho. no pulmonary symptoms were shown. Patients emaciation which existed previously was considered due to small amount of food taken. This emaciation continued under the better feeding which was instituted after the disease showed itself. Some time in early weeks of this sickness examination of the chest showed tubercular trouble there, beginning in right lung. Treatment has been Mist diarh; Opium & lead acetate for diarrhoea; Codliver oil, wines & Elixir Iron et Chinch for general condition; egg nogs & special diets. Diarrhoea continued, patient rapidly worse for past few days & patient died this afternoon.

Correspondent,			

This patient was first admitted into the Minn Hospital for Insane at St Peter. May 4th 1881. Transferred to the Second Minn. Hospital for Insane at Rochester. April 27th 1883. Conduct while at St Peter." Very little known concerning this patient, picked up in Goodhue Co. On admission noisy and restless. May 26th 81. Made some improvement taken out by friends but returned excited distructive and mischievous. 1883. Has become more tidy in his personal appearance. Delights in running off water and pushing up and down. Not as irritable as formerly.

June 1. Very talkative & noisy at times. does no work. good physical health.

Aug 27th Very wild & noisy lately.

Sep. 1st. Is more quieter & behaving better.

Dec 10-1884- Has had one noisy spell since last note. Otherwise has no attack works well on farm or wards. No change. No medicine. Occasionally remarks that he is "God."

Feb. 25-1885- No change, no medicine. Works on ward and goes walking.

May 30-1885 = Above note still true.

Sept 2-1885- Has had several talkative spells - Does no harm but is very noisy at times.

Dec. 8-1885- No special change. No medicine. Worked outside during summer and fall.

March 6-1886- Works daily in the bakery. No special change.

May 21-1886- Sick during latter part of April with what seemed a light attack of pleurisy. Since then has done no work. No change mentally. No medicine.

Sept. 6-1886- No change. No work. No medicine.

Jan. 4-1887- Recently relegated to a lower ward, for violence. Is now working quietly on the ward. Is quite amiable at present.

April 7-'87- Recently had a paroxysm of excitement lasting several days, during which he attacked the Supervisor without provocation. Works daily in dining-room.

July 27-1887- No special change except that he has lost flesh.

Sept. 27-1887- Works industriously. Frequently gives various orders, as he imagines he is in authority here. Bodily health good.

Jan. 6-1888- No change. Works in kitchen of detached ward.

March 27-1888- Works in annex dining-room. Delusions of personal authority continue. Bodily health good. No medicine.

June 25-1888- No special change except that he has lost some flesh.

Sept. 27-1888- Works still in annex dining-room. No change mentally. Bodily health good.

Jan. 14-1889- Exalted and depressed conditions continue to alternate. Has scolding vigorously a few days ago. Bodily health good. No medicine.

April 27-1889- No special change. July 22-1889 Is anxious for his release. Wants to go to Germany. Often talks loud "Talking to the Government" for his discharge. Bodily health good. Is excellent worker on ward. April-14-1890- No change. Do at Annex Are good. Help in Dining Room. Eat & sleep well. Talk loud occasionally.

July 16/90 Health good. One day told Dr he did not want him (Dr) to speak to him. Again seems pleasanter. Works excellently well. No medicine.

Nov 27/90. Since last note, got angry & demanded pay for his services. One day came to centre & angrily demanded excitement. On account of his getting out of annex, was put on C4. Has there been quite noisy. especially when Drs go thro. Health good.

Feb 11/91 Became quieter & better behaved on C4 & moved to B2. occasionally has some report" to make to Dr, which he delivers loudly & emphatically & adds "How's now, "No fooling". Usually pleasant & quiet. July 13/91 Went to Annex some time ago. Aug 6-91. Works daily in dining room, is in good bodily health, Vidy excitable, talks at times in a very loud tone of voice but shows no disposition to injure anyone.

Dec-1st 91 Secondary Dementia. Good health. Clean and very tidy. Talks to himself & irregular. Good patient, with exception of noisy spells. Works in dining room at times.

Aug 1/92. Has been steadily at Annex since last note, getting along quite well. Became very troublesome & even violent one time & was today transferred to C4. Aug 8/92. Tongue Coated. Aug 15/92. Patient reports "respectfully, nature runs away from him". Aug 20/92. Has been uniformly quiet at night

Correspondent,	Mrs Edward Sweeney. Wife.	West St. Paul. Minn.	

Jno. Sweeny 457 Ada St. Cr. Cypress W. St. Paul.

This patient was first admitted into the Minn. Hospital for Insane at St. Peter March 14th 1882. Transferred to Second Minn. Hospital for Insane at Rochester. April 27th 1883. Conduct while at St. Peter. "Judge of Probate writes "Sweeny" has been confined in County Jail since Feb. 1881. was quite harmless until recently, now he is positively dangerous and could not be kept longer. Patient has given no trouble since admission is neat and tidy and respectful. walks up and down the hall at times gesticulating talking and muttering. Says the Devil bothers him. Visited by wife recently but would not go home.

June 1. Always quiet neat & tidy in habits. general health fair.

Feb. 17. Same as last note.

Dec. 10-1884. Was sick during summer and had a swelling of face during same time like erysipelas. Does no work. No medicine.

Feb. 25 1885. No change. No medicine. May 30-'85. No change. Works on ward. No medicine.

Sept 2-1885 Has had a sore eye for a few days - Otherwise has made no complaint and is no trouble.

Dec. 8-1885 - No change. No medicine. Works on the ward.

March 6-1886 - No special change. Does work. No medicine.

June 11-1886 - No change. No medicine. Does no work.

Sept. 6-1886 - Last note still hold good.

Jan. 7-1887. Plays cards a little; otherwise does nothing. No medicine.

Apr. 7-1887 - No change. No work. No medicine.

July 25-1887 - No special change. Does no work. No medicine.

Sept. 27-1887 At present is suffering from facial erysipelas; no change otherwise.

Jan. 6-1888 - Made a good recovery from erysipelas. Mental condition unchanged.

Feb. 27-1888 - No special change. Bodily health good. No medicine. Does no work.

June 25-1888 - Last notes still hold good. Feb. 27-'89. No change.

Jan. 14-1889 - Slowly growing more demented. Is quite deluded still, but he does no work or reading and takes no interest in anything.

Apr. 27-1889 - Since last note had a severe attack of pneumonia, of which he nearly died. Is now about as usual. While sick has visited by his son. Has been taking Elix. T. et S. for two months, with benefit.

July 22-89 Was troubled with a cough for weeks after last sickness. Is now recovered. Does no work and speaks only when addressed. Health good.

Apr 11/90 Has changed little or none. Lies in one place; head usually covered with a large handkerchief & says it is to keep off the "red insects" which fall from roof. To day remained in bed. Has not complained nor look sick as previous day. Sound with Pulse 140, somewhat irregular in force; Resp 24, Temp. rect. 103.5°; has sense of suffocation around heart; tongue coated. Examination of chest & lungs, led to diagnosis of incipient pneumonia, with some crepitation as signs were not marked. ~~Evening~~ Ordered dose of Magnes sulph. & Quinine, with Cotton jacket. Evening Pulse 98; temp. 101.° R. 18. Apr 12/90 Pulse 74; temp. 98.6° (rect.); R 18, bowels moved freely.

Apr 13/90 P. 80; R. 18; T. 99.2°; tong clean & moist; coughs & expectorates. Apr 15/90 P. 68, fair; R. 16; T. 98.5° F. Coughs. Apr 16/90 P. 90; Coughs; chest examined & in left axilla was found an area with rough leathery rales, considered pleuritic & some harshness of breathing. Has been having small doses of Quinine regularly.

July 16/90 Health fair. Says he feels well. Face & hands recently affected with Rhus Dermatitis. Treated with hyposulphite of soda. Now well. Gets out occasionally. Occasionally puts handkerchief over head to keep "fly bugs off". Rales persist in left axillary region.

Nov 27/90. No change. Feb. 20-91. Never gets out. Delusions regarding "insects" not so marked. Habits untidy. Rec'd a suit of clothes for a Christmas present and did not appreciate them in the least.

June 3-91. Asked to go out walking recently. Good health. No change.

Aug-6-91. Works and daily. Is some better.

Dec 1st 92. Second day Dementia. Good health. Tidy, clean but untidy. Pulse 84 regular. No work. Generally quiet. Sits on ward most of time in one place. Thinks at times that he is tortured by fire bugs and he comes noisy and restless.

Feb-14-92 No change.

May-25-'92 Weighs 122 pounds. Has poor appetite and looks pale. Talks noisily to self. Walks about ward and moves slowly. Dresses and cares for self is clean and tidy in dress.

Correspondent,			

This patient was first admitted into the Minn. Hospital for Insane at St Peter March 9. 1880. Transferred to Second Minn Hospital for Insane at Rochester April 27. 1883. Conduct while at St Peter." From Germany three years. Insanity manifested by giving away money to anyone he took a fancy too. Imagined he was going to die soon and that he is very wicked and is to be punished for some imaginary deed. also imagined he was covered with lice. Took care of a Mr. Ransom (Invalid) on upper 1st after admission, but one day after seeing Ransom's foot thought that he (Ransom) was the Devil and said either he or the devil must die, made a noose of a neckscarf and was going to slip it over the old man's head. also tried to hang himself over the transom by suspenders Broke his spectacles and introduced pieces into rectum. 1881 is somewhat improved rather shy. grown stout. 1883. Occasionally troublesome irritable fighting &c.

June 1. Seldom speaks. helps to work some on ward. quite fat.
Dec. 10-1884. Works a little outside and inside. No special change. No medicine
Feb. 27-1885 - Same note still true. May 29-1885 - Still as at last note.
Sept-12-1885 - No change. Dec. 9-1885 Works on ward daily. No change.
March 9-1886 - No change mentally. Subject to attacks of syncope, his pulse running up to over 140 per minute, and these attacks are followed by hemoptysis for several hours. Heart usually quite rapid.

June 4-1886 - No change mentally. Works daily on the ward. No medicine.
Bodily health better. Heart beats normal in frequency, no fainting fits reported.
Sept. 6-1886 - No material change. Works daily on the ward. No medicine.
Jan. 4-1887 - Last notes still hold good.
Apr. 7-1887 - No change. Works daily on the ward. No medicine.
July 23-1887 - Habits clean. Works daily on the ward. No special changes, except that he has lost some in weight.
Sept. 27-1887 - Has contrived numerous false keys to the screens - an unexpected display of ingenuity. Bodily health good. No medicine.
Jan. 6-1888 - No special change. Works daily on the ward. No medicine.
Feb. 27-1888 - No special change. Is irritable and frequently strikes other patients. Works daily. Bodily health good. No medicine.
June 25-1888 - No special change in body, mind or habits. No medicine.
Sept. 27-1888 - No change. Works daily on the ward. Bodily health good.
Jan. 14-1889 - No change noticeable. Apr. 27-89 - No change.
July 22-1889 - No change - April-14-1890. Health good. Eat & Lazy & Not inclined to talk - Oct. 15-1890 Health good. Habits as usual - Eat & sleep well. Feby 11/91 When greeted, recognizes it with slight bow & almost inaudible reply. Health good. Works well. Clean & neat. No medicine.
July 13/91 Health good. Works on ward. M.A.W. Clean & tidy. Silent.
Feby 13/92 Wt. 165¼ P. 71 T. 97.8. Appetite good. Bodily health good. Talks only when addressed, coherent. Goes out walking, but little about ward; movements prompt. Works well & willingly. Dresses & cares for self, clean & tidy. Good-natured; sometimes indifferent. No delusions known.

From page 80.

apparently resting & sleeping well since his transfer. Has been less noisy & less loudly talkative. Fairly Good natured and well-behaved. Each morning has something to report, which is "respectfully submitted" - the substance of which is usually incoherent. Quite frequently it concerns the "honorable President of the United State of America" - Patient think he ought to be permitted to go home. Was to-day sent back to the Asylum. Nov. 1-92 - Weight 145 - Health fair - appetite good - He is very noisy when the Dr. is around - sometimes causes trouble & has to be taken to a bench & made to sit down. He says he want to be baptised. Mch 28-93 - Weight 149 - health & appetite good - He recently made the announcement that he is Jesus Christ. He is still noisy & talks a great deal & does some work - he is clean & tidy, but full of delusions. May 31.93 He is very noisy at times. Does no work. Health apparently good. Talks in a noisy peculiar way. July 31 93 No change Sept 29 93 A harmless patient, talks a good deal & sometimes quite noisily. Has delusions about his previous admission in life. He does no work. Health good. Oct. 6 93 He has been very quiet of late, seldom speaking unless spoken to. Otherwise no change. Nov 93 A harmless patient, noisy at times, has various delusions about his mission & position in life, works a little & well. Health good. Dec. 28 93 He has been unusually noisy of late. Jany 31 94 Same as Feb - March & to April 30 94. During this period (as indeed for several months past) there has been no change to report in either his physical or mental condition; as above noted, still looks good. Patient is in good health. May 29th 94 Patient is quiet & well behaved generally, occasionally has spells of loud talking, has delusions about physical power, works in D.R. habits clean, does neat. health apparently good. June 29th 94 & July 28th No change. Aug 31st Generally quiet & well-behaved, has occasional spells of loud & incoherent talk, has delusions, imagines that he influences management of affairs in general, works in dining room, is clean & neat, health good. Sept 29 94 Has been very noisy & troublesome of late, does no work. Oct 31st 94 Same as in Aug. 94. Nov. 94 quiet, but very nervous & easily excited & then noisy. April 30th 1895 Quiet works in the Dining Room, special irrational. Has delusions. Has been more cleanly in his dress lately. May June & July 31 95. No special change noticeable, in anyway. Condition does not change, seeming from year to year. Rather noisy & irritable; Speech irrational; has various delusions; Habits clean; health appears to be good. He works in dining room. Habits neat & clean. Aug Sept & to Oct 31 95. During this period, Patient has been nervous & easily excited; at times, becoming very noisy. Is quite demented; cries, at times, fatiguedly & gesticulates & wants to go home. Health good. Works in the dining-room. Incoherent in speech. Nov 4 95. Wt 140 pds. Nov Dec & to Jany 31 96. During this period, Patient has been quiet & well-behaved; works in dining room; deluded & talks irrationally. Habits clean; health good.

May 97 Summary Notes etc by Dr. Phelps. Feb. 1 96 - May 1 97. Patients condition varies little from that of past years. He is usually quiet & well-behaved this he will take very noisily at times. Usually works in dining room; talks incoherently, Habits clean. No physical symptoms of note during years. June 29 97 Wt 139½ lbs. Pulse 76. Is inclined to be noisy at night. Has many harmless delusions Is incoherent but usually understands when spoken to. Trans. to Fergus Falls Hospital

This patient was first admitted into the Minn. Hospital for Insane at St Peter October 17. 1879. Transferred to Second Minn. Hospital for Insane at Rochester. April 27. 1883. Conduct while at St Peter." This patient has been variable since admission. Sometimes if spoken to has gone immediately out of sight and torn clothing badly, when remonstrated with claims he can do as he has a mind to with his own. If it is Hospital clothing then the excuse is that it is not his own and he has a right to do it. On one occasion broke windows in paroxysms of rage. Later has become more quiet and inoffensive. Stands most of the time with head bent forward. Peculiar movements when walking moves one or two steps and stops suddenly with a jerk. Think this is voluntary however."

June 1. Since admission him has been failing. Confined to the bed with pneumonia. Rx Tonics. Mineral acids. Strn. gramine &c.

Dec. 10- 1884. Lounges around all the time. Has to be brought to see his meals. Tonics stopped soon after last note; no other medicine. No change mentally. Physical health good.

Sept. 25- 1885- No change. No medicine.

June 1- 1883- Has spells of running about and talking wildly. Physical health good; no medicine. Picks constantly at back of hands, on which he has raised large callouses.

Sept 11- 1885- Quiet lately- No special change. Dec. 10- 85- No change. Habits dirty. No medicine. March 9- 1886- Habits dirty- No special change. No medicine.
June 4- 1886- Last notes still true. Does no work.
Sept. 7- 1886- No change whatever. Destructive to clothing & dirty.
Jan. 4- 1887- Still as at last note- No work. No medicine.
Apr. 5- 1887- No change noticeable. Is not reported dirty, however.
July 26- 1887- Last notes still hold good. Is exceedingly lazy & stupid.
Sept. 27- 1887- Has lost flesh during past summer; otherwise no change
Jan. 6- 1888- Dirty; untidy; destructive to clothing; demented. No medicine.
Apr. 27- 1888- Last notes still hold true.
June 26- 1888- No change, except that he has lost flesh.
Sept. 27- 1888- No change except that patients habits have become clean.
Jan. 14- 1889- Habits again reported dirty, otherwise no special change.
Apr. 27- 1889. No change. July 22- 1889. Dirty and does no work. Bodily health good. - April - 14- 1890. On B4 Untidy - Looks poorly - Health fairly good at present. Had an abscess last Fall in month which was opened & healed readily - Has been blistered several times.

This patient was first admitted into the Minn. Hospital for Insane at St Peter. May 28.th 1882. Transferred to Second Minn. Hospital for Insane at Rochester. April 27.th 1883. Conduct while at St Peter." Patient was picked up in Hastings. Nothing known about him. Suspected Whiskey. August 1882. Patient makes no trouble and is neat and tidy. Has some peculiar notions and religious impressions. Kneels in prayerful attitude hands clasped, eyes closed. Fortunately he prays silently. During his meditations he suddenly utters a shout that is rather startling. Works in bakery. but spends too much of his time in prayer. Later has stopped baking has trouble with bowels and believes some one is playing tricks with him. Brisk cathartic quiets this disturbance."

June 1.st Does nothing but lounge about the ward, prays a good deal. No Med.

Dec. 10 - 1884. Worked well on wards last winter, on farm during summer, now at work in the bakery. Rather untidy. Occasionally thinks he is some sovereign. No special change mentally. No medicine.

Feb. 28 '85 - Has been taken from the bakery and is now on the ward. No change. No medicine

May 28 '85 - No change. No medicine. Works in center, &c., and on ward.

Aug. 28 - 1885. Works lately in bakery. Mentally the same.

Dec. 5 - '85 - Works about the Hall and center. No change.

March 8 - 1886 - Last note still true.

June 5 - 1886 - No change noticeable. Works daily with gardener on the lawn, &c.

Sept. 2 - 1886 - No change. Works in the center and with the gardener.

Jan. 5 - 1887 - No change whatever.

Apr. 5 - 1887 - Working on ward and with gardener. No change. No medicine.

July 21 - 1887 - No noticeable change. Works as above. No medicine.

Sept. 27 - 1887 - No change whatever. Jan. 6 '88 - No change.

Sept. 27 - 1888 - No change. Bodily health good. Has been working daily on the ward, no change.

June 5 - 1888 - Works daily on the lawn. Bodily health good. Mental condition ^

Sept. 27 - 1888 - No special change; is perhaps less noisy than formerly.

Jan. 14 - 1889 - Works daily outside. No change since last note. Bodily health good

Apr. 27 - 1889 - Works with the farmers. No change in mental condition.

July 22 - 1889. - Has a habit of laughing very loud, kind of making a strange grunting noise. Works outside daily. Health good.

April - 14 - 1890. Was sick with "influenza" or "La Grippe" - Otherwise has been healthy - Parole much limited this Month.

July 16/90 Health good. Works on lawn; does well. Noisy at nights. No medicine

Nov 27/90 Has complained some of various ailments; has had some medicine

Works regularly. Mental condition as usual.

Feb-20 - 91. Good health. Works on ward regularly and occasionally asks Dr for tobacco. June 8 - 91 No change. Works on lawn. Frequently noisy at night but of late has been less so. Aug 6 - 91. Works daily on lawn. Frequently noisy at night. Bodily health is good. Recently asked for a newspaper which was given him. Always good natured and pleasant. Sept 8 - 91. Went to town and got very drunk.

Dec. 1.st, 91. Incendiary Dementia. Good health. Clean but untidy. Pulse 78 Sept irregular. Very noisy at times. Plays billiards nearly all day. Goes walking

March 23/92. Erysipelas of left leg. Put to bed. Tem P.M. - 101.4 P 80 R 24.

March 24/92 T 99.4 P 96 R 22. P.M. T 100. P 78 R 23. Inflamation seems to be extending.

March 27/92. T 98.8 P 77 R 20 P.M - T 100 P 80 R 22. About the same to day.

March 28/92 T 98.6 P 70 R 20 P.M. T 99 P 74 R 24. Inflamation subsiding.

This patient was first admitted into the Minn. Hospital for Insane at St Peter. June 29. 1874. Transferred to Second Minn. Hospital for Insane at Rochester April 27. 1883. Conduct while at St Peter. "Willing to work, talkative, sometimes attempts to go away but always comes back with a story that a big man threatened to cut his head off. Sometimes incoherent. No special pride or care of self, but industrious. Insanity supposed to have been brought on by a fall, when 18 years of age. This is his second attack. Subject to the immoderate use of stimulants and tobacco."

June 1. " Helps to work on ward, quiet, neat & tidy in dress & habits.

Sept. 1. Works in laundry - Physical health good.

Dec. 10 - 1884. Works on ward. Filthy in habits, but tidy as to dress.

No change mentally or physically. No medicine.

Feb. 23 - 1885 - No change; works on ward. No medicine

May 28 - 1885 - Same note still true. June 4 85 Visited by brother.

Aug. 31 - 1885 - No change - Works some - no medicine

Dec. 7 - 1885 - No change. No medicine.

Mch. 5 - 1886 - No change mentally. Passes immense quantities of urine, but it contains no sugar nor albumen.

June 1 - 1886 - No change in mental or physical condition. Works daily on ward. No medicine.

Sept. 4 - 1886 - No change noticeable

Dec. 4 - 1886 - Epileptiform convulsion last night; fell and cut head; when seen 10 min. later was frothing at the mouth and repeating monosyllabic sounds mechanically. Soon regained consciousness.

Dec. 23 - 1886 - Several more convulsions last evening, to all appearances epileptic; after regaining consciousness he fought and threw himself about. Convulsions continued during the night, notwithstanding he was given K Br. gr. xc, Chloral gr. xxx, Hyoscyamin gr 1/8. Is very stupid this a.m.

Dec. 27 - '86 - R. K Br. gr xxx B. P. D. Continues confused & stupid. Hand cold; Pulse feeble, at 85. Gait unsteady and festinate

Apr. 4 - 1887 - Gait improved, but it still shows the effects of convulsion. Mind seems about as before fits. Kleptomaniacal - always stealing or trading handkerchiefs. Works daily on the ward.

June 6 - 1887 - Iliac dislocation of left hip during scuffle with another patient. Reduced by manipulation under ether. Medicine discontinued. July 22 1887 No special change in mind. Chews tobacco most of the time. Works daily on the ward.

Sept. 27 - 1887 - Has gained flesh. Had another fit during August and was given K Br for several days.

Jan. 6 - 1888 - Had a very bad fit about a month ago. Gait has been that of an intoxicated man ever since, tho' not as bad as formerly.

Feb. 27 - 1888 - Gait about as usual now. No fits since last note. Does no work. Continues to drink large amounts of water. Polyuria.

June 25 - 1888 - Quiet; untidy; demented, seldom speaks. Does no work.

July 12 - 1888 - Patient is in bed to-day; no symptoms except general weakness and an exceedingly feeble pulse. Ord. Stimulants.

July 25 - 1888 - Still in bed, has become dirty in his habits; stools are white and pasty. R Ext. Rhamnus Pursh. Fl. et Sp. Rhei aa. ʒj. Yesterday he became comatose; pulse was feeble and slow; face pale & haggard. Whisky & Sp. Bella were administered freely & consciousness passed gradually off. July 27 - 88 - Stools still white & pasty; pulse very feeble; patient very thin & weak. Stimulants continued. Aug. 2 - 1888 - Very stupid & weak; cough & hemoptysis; paralysis of left eyelid; diarrhœa for two days past. Aug. 4. Still spitting blood. Diar. easily controlled. Stimulants continued.

Aug. 8 - 1888 - Patient sank gradually away & died at 5.20 this morning. During the night he screamed a good deal without apparent cause

This man was brought here by Sheriff Longmm, and with a very poor history of the case. Present trouble is said to date back fifteen years ago, when it is stated he suffered from sun stroke at four years of age, said to have had Epileptic fits when quite young, but none of late years. Has attempted to injure others from sudden passion, and it was found necessary to have him committed to the Hospital.

May 15th. Acts very stupid. will answer questions. eats and sleeps well, does no work, asks to go home often. ℞ Bromide gr xx b.d.

June 1. Quiet & neat in habits. does no work. eats & sleeps well, asks to go home.

Sept. 17. No particular change to note. ℞ Tinct. et Extract. ƒ 3 - B.I.D.

Oct. 29. Practices masturbation - (very frequent).

Dec. 1 - No special change. Very stupid.

Mch. 1 - 1884 - Has wried several weeks ago - since then seems brighter - Getting very fat - Decorates the walls with pictures out of magazines & a calendar, which he has made out of card board - No medicine - Visited by brother some time ago.

June 26 - Visited by father & mother today - No change since last note - No med:

Dec. 10 - 1884. Has become morose and demented. Sits in one place all day long with head bowed. Long straight. Has taken no medicine for some time. Struck an attendant during summer. Dec. 31. Acts very depressed and foolish. called me into a room and asked permission to kill himself. Said he could not live, because the patients were all afraid of him; complained that he could not sleep because he kept thinking he had to urinate, and said that when he tried to micturate he was sometimes successful, sometimes not, but that he was always thinking he had to urinate. Dec. 31 - As near as could be learned he was very constipated. ℞ 3 C.C.p.

Jan. 1st - 85. Still very stupid and silly; very constipated - pills did not act; ℞ gtt. iv Ol. Lig., and whisky, as pulse has been and is, very feeble; hands cold. Three hrs later, there being no movement from bowels, gave gtt. iij Ol Lig., which was after a time followed by movement of bowels. Breath very fetid, and tongue coated. Jan. 2 - Pulse very feeble, - looked like a corpse; eyes dull, teeth covered with sordes. Has eaten very little for about two weeks past. Ordered to bed, but would not stay there. On percussion in standing position r. side seemed duller than left; but he has had no cough. Put on whisky with gtt. x ℞ Digitalis (ℏ.) B.D. Jan. 3d. Still weaker; stimulants continued. Is very yellow, but becoming paler. Jan. 4. Refused his medicine today. Kept saying he could not live, as his presence was injuring or poisoning the other patients. Has frequently asked to kill himself. Complained at various times of oppression in breathing, and of trouble in various parts and organs, varying the location of his ailment to suit his questioner's interrogations. At 11 p.m. was in the above condition. Died during the night suddenly and unexpectedly. Post mortem examination of the thoracic cavity revealed an empyaema of the right side, the lung almost entirely collapsed. But a very little fluid was found in the cavity. The costal and pulmonary portions of pleura and also the pulmonary pleura were covered with a thick layer of thick, green pus. The left lung showed some old cicatrices near the inner side. The pericardium was healthy. The heart was not opened.

Died.

This woman was brought here by her husband, and with the following history. At 20 years of age was insane for a short time. At 30 yrs. had a second attack lasting six months. The present attack commenced 14 years ago. after the death of her babe which was three months old. Has been taken care of at home all the time until brought here. Is very much demented now. Physical health fair. All her wants has to be attended to. June 1st Demented & filthy. sits in one place all day. has to be fed.

Sept. Visited by husband.

Dec. 17. For a long time has been gradually failing — About 11 days ago an obstinate diarrhoea set in; she was heated at first with a mixture composed of ℥ Opii. Dpto Ammon. Aromat, ℥ Capsic, & Syrup Zingib, later with laudanum & starch injections — but with little or no effect — Early this morning she was evidently very low & at 8. a.m. she died.

In speaking of treatment it ought to have been stated that she was given 1/8 of Tincture Muriatis of Fr Ferri Chlor et ℥ss of Glycerine, in water, three times daily — & that for the last 2 days — brandy & milk have been administered — After 12 o'clock this morning she vomited up everything given her.

Dec. 19. Friends having decided to have the remains interred here — this was accordingly done.

The immediate cause ~~of~~ of death was diarrhoea — but marasmus was an important — if not in fact — the main cause

Died

Vide Case book No 1. for previous history"

This patient was brought here by Sheriff Walter Boergen. He was taken from Hospital back to County April 27th 1881. to make room for a new and acute case, and afterwards was discharged unimproved. On admission, there is no change in his condition either mentally or physically, since he left here.

June 1. No change in his condition, does nothing but lounge about the ward & go out walking with the rest. Emit. eats & sleeps well.

Dec. 10-1884. No change - acts like a drunken man all the time. Is always happy and elated. No medicine.

Feb. 27-1885 - No change. No medicine. May 2nd 85. Same note still true.

Sept 7-1885 No change - No medicine.

Dec. 9-1885 - Quiet; not excited. Does no work. No medicine.

March 9-1886 - Just as at last note.

June 4-1886 - No special change. Aug. 31st 86 Habits clean. Does no work. No special change.

Jan. 4-1887 No change noticeable. No medicine. No work.

Apr. 7-1887 - Habits dirty again. Otherwise no special change. No medicine.

July 22-1887 - No change since last note. Is dirty and demented.

Sept 27-1887 - Habits dirty. No noticeable change in mental, body or behavior. Sits or stands about, saying and doing nothing.

Jan. 6. 1888 - Remains exactly as at time of last note.

Mch 27-1888 - No change whatever. June 26-88 - No change.

Sept. 27-1888 - No change noticeable. Jan. 14-89 - Still dirty & demented.

Apr. 2) -'89 - No change.

July 22 - 1889. Drinks his urine. No change in mental or physical condition. - April - Mch 2/90. While out walking in barn with attendant filling straw ticks, patient fell from ladder; got & went to work, saying he was not hurt. It was noticed later, he did not use his left hand. Dr called & found a slight-oblique-comminuted-styloid fracture of humerus of the left arm. Dressed in posterior trough, angular & anterior angular splints.

Apr 16/90. Patient did not let splint remain on well; tearing off parts of it on several occasions. Splint has been removed & friction & movements begun. Movements are limited; extension & flexion both incomplete at present. ~~Joints anch~~. Has been pleasant & orderly; talks gentlemanly with Dr; No work since accident. No medicine.

Oct. 15-1890. Health fairly good. Is able to work some now - ~~Feby 1891~~ Dirty & demented. Talks some. On B4.

July 13/91 No change.

Jany 3/92 Was somewhat noisy last night. Jany 23/92 Seems sick. Says he feels so. Put to bed. P90. T@99.6 Bm P90 T100.5

Jany 24/92 Am P72 T98.8 Pm P84 T@94

Jany 25/92 P75 T 98.6. Get up. On 21st. patient weighed 134. lbs. T@98.6.

Appetite good; pale. Sometimes regular. Has occasional cough. Speaks only when addressed; talks to self; incoherent. Goes out walking; about ward much. Dresses & cares for self; slouchy & dirty; good natured.

Mch 3/92 Weight to day 130, loss 4 lbs. P. 84. Apl 4/92. Wt. 131 pds. May 3/92 Weight 131 pds. Pulse 70. June 3/92. Wt 132 pds. Pulse 88. July 6/92. Wt. 129 pds. Pulse 86. Aug 3/92. Wt. 133 pds. Correspondent,	Mrs. Apolonia Gorgen. Sister in law.		New Prier. Dakota Co. Minn.

Phil, patient was brought here by her sister in law and two neighbors and with the following history. About three years ago she lost five of her children by diphtheria in about fours weeks and since that time has manifested symptoms of insanity and is altogether on religious subjects. Her husband has been insane and confined in St Peter Hospital. has only been home one month from the Hospital. Her physical health is very good. June 1. 83. No change since admission generally quiet. neat in habits Eats and sleeps well. full of delusions. prays a great deal daily.

Oct-22-83. Complaining lately of feverishness - &c - She was in bed for a day or two - Breath very offensive - She was given a dose of Mag. Sulphate - & is now taking Liq. Potass. Arsen. - gtt. v. Tr. Rhei. et Bicarb. Sod. aa 3ss. B.I.D. Is very incoherent.

Oct-27. Quantity of Cascara reduced to m xx. Fowlers solution discontinued. (Previous to 22nd inst. she had been taking Elix Ferri et Quiniae. B.I.D. - for a long time).

Nov. 2. Cathartics discontinued. Tonic resumed. Nov. Pheol gra v. or B.I.D. with tonic - to improve the foul breaths. Incoherent - Helps on ward.

March - 1 - 1884 - No special change. Physical health good. Clean neat & tidy. Incoherent - Sometimes (when menstruating) goes to bed for a day or two - & requires a cathartic - No medicine.

June 1 - No change since last note - No medicine - Works in dining room &c.
July - 1 - Excited at times - Has taken short walks some times ago - excited & violent.
Aug - 5 - While at work in dining room this a.m. took a carving knife - went into a bed-room & inflicted a wound in her abdomen, about 1½ inches long, in median line

~~but not from above down through clothes~~ The small intestines protruded, & in one place was cut but not clean through - the mesentery was pierced & there was a large blood clot between its layers. When found patient was kneeling with head against the wall - she was put on bed - & Chloroform given by Dr Cochrane - Dr Bowers enlarged the opening (underneath the abdominal walls) but not more the pelvis & returned the gut after putting 3 silk sutures into the wounded intestine & using hot water to stop the hemorrhage & clean the viscera - A drainage tube was put in lower end of incision - & wound of abdomen closed by 2 deep & two superficial silver sutures - Brandy was given - & ¼ gr doses morphia ordered pro re nata - Patient said she wished to die & see the "Blessed virgin". She has never before shown any suicidal impulses - Though she has at times been much given to prayer & incoherent religious talk. Has been in great pain this afternoon.

Aug 6. 1884. Temp. a.m. 99.9 - p.m. 102.5 - Pulse - a.m. 78 - P.M. 94. Pain on the whole less & than yesterday p.m. Rested pretty well at times - Has now (9 p.m.) taken altogether about 2½ grs Morph. Sulph. Fed on slops - & watched night & day. Pulse quite strong - Tongue white & coated. No discharge from drainage tube - Patient said the "blessed virgin" told her to kill herself in the way she attempted - Vomited green matter this a.m. & was troubled for a time with eructations of gas from stomach. (Temperature taken in the mouth)

Aug 7 - Pulse a.m. 97. 7 p.m - 90 - 9 p.m - 75. Temp: p.m - 100.6 & skin moist - Comfortable all day - & wanted to get up - Attendant had difficulty in keeping her in bed.

Aug 8 - More pain in night - quieted with morphia - Visited by sister & husband. Says she will die. This a.m. drainage tube removed - as there was no discharge - & was found clogged with healthy pus - It was disinfected with phenol solution & replaced - Wound - which has healed well - dressed, as at first, with absorbent cotton - Has taken 4½ grs morphia altogether Troubled with vomiting - Her sister says she used to threaten suicide when at home

Aug 9 - Attempted suicide last night - Says she vomited blood with green matter yesterday & night before. Rested well - Is menstruating. Sister in law & son visited her p.m. - Pulse - at 10 p.m. 80.

Aug - 10 - Depressed & weeping - Sister in law & son here again today. Pulse - a.m. 89. Had some pain last night - P.M. Temperature - "Pain all over" but not severe. Tongue red - thirsty - some perspiration - no apparent fever. Eructations of gas from stomach at times.

Aug - 11 - Slept but little in night - had "pain in back" - P.M. Has not passed urine today - Pain if she attempts - Catheter passed & a lot of high colored offensive urine drawn off - bladder full. Some discharge from wound, but not thro' Catheter (drainage tube) - Wound ordered cleaned with 2% sol phenol & dressed with cotton & absorb: cotton. Patient dosed for Cathartic today - ordered an enema of warm water - This had no effect -

Aug - 12 - a.m. wound redressed - Drainage tube removed, cleaned, carbolized & replaced. p.m. - Catheter passed - much very high colored urine drawn off. Patient's chest & abdomen is marked in several places with knife. Scratches, where she tried to drive knife in - One bad bad mark over the sternum. There seems to be a desire forming on patient's back - R/ Ol Ricini: 3ij: Rectif: et Tr Myrrhae. There seems to be considerable diaphoresis at times.
R/ 3 grs Quinine Sulph in sol: I.S.D acute (Commenced Tomorrow).

Aug - 13 - Wound redressed - but drainage tube not removed - some discharge - but quite healthy. Uses catheter a.m & p.m - The second time urine much better colored & clearer. Has taken 8½ grs morphia up to this morning - Passage of even a rubber catheter gives her intense pain in urethra.

Aug - 14 - Wound redressed - except drainage tube left in. Catheter passed a.m. R/ Soap & water injections per R. - no result. No water in bladder p.m. Catheter passed in vain - R/ ℈ss Bp. Alter Nit: every hour - 4 doses - This seems to sleep in mits - urine no water with her.

Aug 15. Bowels Catheter a.m. P.M. Catheter not used as patient passed her own urine naturally.
" 16. R/ soap & water enema - It passed out high colored - but no movement of bowels. Slept well last night.
" 17. Bottom of Wyeth relief cloth for un broken bed sores still used - says she feels "more bad" This morning but seems in good condition. Wound redressed - but drainage tube still in.
" 18. No morphia for last 24 hours. Slept well. R/ soap & water enema - This moved bowels well. Says she is in pain "all over" - but she seems to imagine a good deal in this respect. Drainage tube removed, cleaned & replaced. Some slight yellow, serous discharge from wound. Upper (& deep) suture removed, also lower (& superficial) - Wound dated & (do ps) once left in. Later - Has complains of pain "all over" - especially in epigastrium, high up, but very little pain in regions of wounds.
" 19. Drainage tube removed. Douz well. Patient told night watch a night or two ago that she had been up & out of bed.
" 22 - Bowels moved naturally today - No morphia for several days. Says she will never use knife again (but will try some other way) - Often thought of cutting self - she says - but never got an opportunity before - Has taken altogether 8½ grs morphia.
" 24 - Pulse a few doses of the Quinine mixture have been taken as it makes her very quiet.
" 27. Pain in epigastrium - Bowels confined since night before last - Face a little drawn & anxious R/ Morphiae gr ¼ Last suture removed.
" 29. Sitting up - but not dressed.

Sep - 1 - R/ Elix Ferri et Quin: ℥ss B.I.D. Sep. 3 - Sits up - but not yet dressed.
" 5 - In bed - very wild yesterday & today - Sleeps with mitts on every night - for safety.
" 6. Much mental distress - says good bells her to pull out tongue & "kill self" - R/
" 7. Chloral & Potass Bromi aa ℈ss ℥xx. Is constantly watched. Is up & dressed.
" 9. Very troublesome last night - Is out dressed &c. Excited. R/ Chloral & KBr aa ℈ss.
She goes to meals with other patients now.

This man was brought here by Mr Dunham, and accompanied by his wife and brother-in-law. and who give the following history. First manifested symptoms of insanity one year ago last Fall, at which time he was treated for pneumonia & acute albuminuria. He has never been entirely right since and lately has attempted to injure his wife from sudden passion. His business has been for several years saloon keeper, and he has been a hard drinker. June 1. 83. Always quiet & neat in habits eats & sleeps well.

℞ Comp Tinct Gent ʒii Elix ferri et cinch ʒii bis in die.

Sep. 18. Tr Gent. Co has been stopped for some time.

Nov. 3. His family have, for some time, wanted him to come home. His wife objected however. Today his brother arrived with a properly executed bond for $500.00 The superintendant accepted the bond & allowed the patient to go home. Since admission here his general health has improved.

Discharged.
Dec. 5. 1883.

Sep. 10. 1884. Tries to get out of window. Fought when prevented. ℞ Chloral & KBr aa 9ss 30 & Mits pro nox. Sep. 13. Sleeping six hrs. Mits discontinued tonight.
" 14. Says she wills shame self to death. Refuses food. Spits it out of mouth. P.M. Mits.
" 16. Is eating again. Sep. 18. Slept in cans: last night. Restless & pulling all night.
" 19. Restless all night. Worn in muff. (10 a.m.) Refuses medicine. Elix F. et Cinch. Is it is discontinued. Is strapped in chair in addition to having muff on. Tries to jump out of window again. Before restraint was put on.
" 26. Restless in night. Is now strapped to seat. ℞ Tart. Emet: 8ss.

Sep. 29. At dinner time today, while attendants were busy, she climbed over partition from wash room into bath room of 2nd F.W. removed her clothing. turned on the hot water. which was nearly boiling, partially filled bath & threw herself in. When found she had taken pulled out. She was put in bed & covered with a sheet. I (Dr Cochrane) was called & found her in great pain. Dr Bowers was then called. It was found that the whole trunk & parts of upper thighs, forearms neck were scalded, the skin peeling in large patches. She was wrapped in sheet soaked in Oleum Lini & 2 ounces of sherry given. ℞ Whiskey ℥ss - every hour. ℞ Morph Sulph gr 88. Pain intense - Colic - Has been trying to tear bandages off - Had a slight sinking spell this afternoon - pallor &c. relieved by stimulants. The attendant says she has been masturbating last 3 days with intention of thereby killing herself. Another attendant says she was trying to climb over bath room partition last sunday, but of course, attendants did not know for what reason. 9 p.m. Has struggled with attendant who was prevaricating her leaving bandages off. Mits put on - less pain - Shock - Pulse almost imperceptible - Cold perspiration - Talks: Another ½ gr Morph ½ hour after pro. & lean off dressings.
" 30. Slept some last night - little or no pain - Mits - Trying to get out of bed

October 1. Slept pretty well last night. At 5:30 a.m. she got up & walked about room & then vomited - Night watch says she was "almost out of breath" Dressings renewed - sheet thrown out to dry. Bowels moved twice last night - Mouth fed on oatmeal. Mits removed p.m. Stimulants discontinued for the present.
Oct. 2 - Restless all last night - Mits. Says she cant swallow solids. Some fever ℞ Morph Sulph gr 88, Tr: Aconit ℞ gtt xx - Spts Æther Nit: ℥ss. Colic - vomiting & pyrexia - Whiskey, which has been given to day to be discontinued again. P.m. - ℞ Morph Sulph gr ½. Says she had some diarrhoea last night.
" 3. Seems a little better - but feverish - Complains of severe pain in region of uterus - Tongue red - dry & brown in middle. Restless at nights - ℞ Spts Æther Nit ℥ss Tr Aconit gtt xx Morph Sulph gr ½. 8:30 p.m. "pain all over" - ℞ Morph Sulph gr ½. Spts Æther Co ℥ij Mits - Colic - much pain - Strawberry tongue - Wants water continually - Dressing found dry - new oil poured on - relief only temporary - (the oil contained 2% Phenol). ℞ Morphiæ Sulph gr ½ - Pulse rapid.
" 4. In pain all last night - ℞ Morph Sulph gr ½ a.m. Another dose (½ gr) 10 a.m. Dressings renewed - Oil in can containing 2% Phenol used - & ointment of Salicilic acid with Cocoanut oil used on several large patches discharging sores. 4 p.m. Temperature in mouth 101.4° F. ℞ ½ gr Morph - 11 p.m. - another ½ gr.
" 5. ℞ (a.m.) ½ gr Morph - & 4 drops Tr aconit: Fld: 4 p.m. ℞ ½ gr Morph. 7 p.m. ½ gr Morph - Very wild. calling for "knife & 3000 people".
" 6. Pulse good but she looks worse. ℞ ½ gr Morph. Before noon another ½ gr. Later - another ½ gr. Stimulants - whiskey - ordered - Typhoid condition - dryness in mouth - teeth & lips. Mouth very dry. ℞ 5 grs Quinia Sulph in Capsules - Sling She chewed up & swallowed - No nits - 10 p.m. ℞ ½ gr Morph. Another capsule ordered, but she spit it out.
" 7. 5 grs Quinia Sulph - given in capsules 5:30 a.m. - At 12-2-4 a.m. - Morph Sulph ½ gr doses - Another ½ gr 10 a.m. Was screaming nearly all last night. ℞ ℞ ½ gr Morph - Vomited just before taking it - Failed to swallow a capsule of Quinia Sulph: 9 p.m. - ½ gr Morph - Moaning - semi unconscious - Eyeballs rolled up - on back - knees bent - face drawn - Muscles contracted - Arms can only be straightened with difficulty sit causes much pain to do so - Evidently suicidal.
Oct. 8. Died this a.m. Sister in law - who had been informed yesterday that patient was dying - arrived.
" 9. Remains removed by sister in law.

Died. Oct. 8: 1884.

This man was brought here by a neighbor and a Cousin. and accompanied by a very meager history. the Cousin who is quite an old man and knew the patients parents answers nearly all questions by "dont know" and says it is of only a few months duration. patient has delusions of fear thinks different men are conspiring together to injure him and to get his job away from him. Has never had any medical treatment. Is in good physical health. June 1. 83. No changes since admission. Always quiet neat in habits. full of delusions. physical health poor. R Tonics

Aug. Tonics discontinued. + Belladon + Cascara Sag. given to correct constipation - Desired effect produced + tonic again ordered. August 28th. All medicine dropped.

Sept. 15. Always praying to be allowed to go home - Has delusions about self + others - Has thought wife was outside the hospital + not allowed to visit him

Dec-1- Same as last note - no medicine.

Mch-1-1884 - No change - Always asking to go home - Said he would write to the Queen of England to be set free - Does not seem to understand he is in America; spoke about going back to America - Physical health good.

June-1- Same as last note - Not quite so troublesome Talks about asking to go home - Has worked out a few days this spring, but is not a regular worker needs to go out - No medicine

Sept-4: Visited by wife + 2 children - Was much excited at first - weeping etc when they came - There is no change in his physical or mental conditions since last note.

" 5 - Went home with wife + children - one treat.

Nov-3. Brought back by dep: sheriff Johnson - He became dangerous at home - Last night took a club + threatened to kill his family - Thinks everyone is down on him."

Dec. 10-1884 - Has been well behaved, neat, tidy and friendly since last note. Dem B-3-E.

Feb. 28-1885 - No change. No medicine.

May 29-1885 No change. No medicine. Pupils very unequal. Delusions about army, etc.

Nov 27-1885 - No particular change. No medicine. Does no work. Occasional cathartics. Worked some during the summer and fall.

March 5-1886 - Works daily on the ward. No change. R Epsom Salts occasionally.

June 10-1886 - R frequent cathartics. No change mentally. No medicine.

Aug. 24-1886 - Has had a few cathartics since last note. Is becoming more irritable.

Jan. 5-1887 - No special change. Frequently calls for "salts". Sometimes imagines he is greatly imposed on or neglected by his physicians.

March 30-1887 - Last notes still hold good. Wants to write letters to prominent officials, occasionally.

July 21-1887 - Still calls for "salts". No great change in either mind or body. For past few days has been working well outside.

Sept. 27-1887 - Has walked a good deal on the road, etc. Calls for "salts" continually and claims to be very constipated

Dec. 29-1887 - Still calls for "salts"; no change in mental condition. Sometimes threatens the Hosp. authorities. Placebo of bitters has been given him, as he thinks he needs medicine. Is now limited to one dose of "salts" weekly.

Feb. 27-1888 No change. Still calls for "salts" + "medicine" - given bitters as a placebo. Works on the ward daily. June 25-88 No change. R - Cathartics

Sept. 27-1888 - No change. R. Cathartics as usual. Still works daily on the ward

Jan 14-1889 - Last notes still hold good. Delusions of personal injuries and mistaken identities continue. Apr. 27-'89 - Died no change.

July 6-1889. Complaining that his father-in-law blows "worms and stuff" into his body. No change since last note. - April-14-1890. Health good. Always wants to write letters. Will take a dose of "salts". Oct-15-1890 - Health still good. Temper still irritable - Eats + sleeps well - Occasionally takes a dose salts.

Dec 16-1890 - Moved to annex. Feb-20-91. Last note describes present condition - Walks up and down ward most of time with arms folded. Asks for salts occasionally. June 3-91. No changes. Good health.

Aug-6-91 No changes whatever.

Dec 1st 91. Chronic Mania. Good health. Fairly clean. Rules 70 soft + regular. Very noisy at times. Does no work. Talks reasonably and at times incoherently.

Feb-14-92 No change. Asks for salts sometimes.

May-28-92 { weighs 127, sometimes appetite + fairly good color. Talks rationally + incoherent + to self. Eats and sleeps promptly, walks little + reluctantly. Dresses + cares for self, slowly and noisy. weighs 121; good appetite, eats regularly; good color. Talks freely, rationally, profane. Indulges in Sept-6-92. obscenity and to self. Does not work, walks about ward, and is prompt. Dresses and cares for self. He is ugly and noisy.

Correspondent,	Judge A. Y. Brogden. Paris-Ill- Bro.		

This man was brought here by Sheriff Noll with only the warrant and no history of the case. Patient has been a resident of the County for more than twenty five years, and was at one time quite wealthy, but has lost everything by his intemperance, for the past year or two he has been kept most of the time at the Co. poor farm, but he begs money of different ones and goes on a spree at every opportunity. For a man of his age he is in good physical health.

June 1st. Improving rapidly both mentally and physically. Neat and tidy in habits. good natured and quiet. R Tonics.

Aug. Troubled with habitual constipation - Ordered Tr Bellad & Fl. Ex. Cascara Sagrada. aa gtt x - which, in a few days (it was given Bid in dil) remedied the trouble & the Tonic was again ordered.

Sep. 18. No medicine now given - nor has there been for some days.

In fair health - Nothing of importance to note.

Dec. 10th - 1884 - Had two attacks of sickness - said to be bilious - since last note - once early in the summer. The other attack occured recently. Worked outside during the summer. Does no work inside or during winter. No change - always willing and obliging. No medicine.

Feb. 28 - 1885 - No change. No medicine.

April 7 - 1885 - Allowed to depart to-day on trial.

Discharged
June 4 - 1885 Judge of Probate notified

Patrick Henley.

Nov. 10-92. Wt 121 Health good - says he only wants to take a ball race in 3 weeks - complains considably, does no work. Jan 10-93 is complaining says he got more things from home Christmas than were delivered to him. Mch. 6 - Wt. 125½ Health good - sits on a bench most of the time, reads some - goes out walking.

May 31. 93. He is noisy at times, always talking to himself about railroad matters. He does a little work Health apparently good.

July 31 93 He sometimes imagines there is being murder done in the building Health good.

Sept. 2. 93. A harmless patient, talks & reads a good deal, does no work. Health good.

Oct 5 - No change. Oct. 28-93 He imagines that some one is trying to take his bed away from him and this eve. after recovering at the object of his delusion he snatched a billiard cue ran up stairs to drive him out of his bed Nov 22. 93 A harmless patient, has queer delusions. He imagines that some one is killing off his relatives one by one. He will frequently snatch a billiard cue & if the door happens to be open run up stairs to drive some imaginary person out of his bed. He works a little on ward. Health apparently good Dec 28 93 No change. Jan 31. 94 Same. Feb - March & to April 30/94. No noticeable change. Talks a good deal, but incoherently. Still shows delusions (see note of Nov 22nd above). He does a little work on the ward. Health seems good. Vaccination (April 16) unsuccessful. May 21st 94 Same. Inoffensive, talks a good deal, & sometimes noisily, has delusions & hallucinations, works a little on ward. Habits clean, health apparently good. June 30th 94 the same. July 31st 94 the same. Aug. & Sept 31st 94 Generally quiet, walks the floor a good deal & talks, but incoherently. Does a little work on ward. has delusions. Habits clean, is tidy, health good. Nov. 94 Well behaved, works on ward, talks to himself a good deal, has various queer delusions. Health good (April 30th 1895. Above notes still describe patients condition.

May - June 1 to July 31/95. During the quarter, patient has been generally quiet, though, at times, he will talk loudly & irrationally: has many strange delusions; also hallucinations. Works on ward. Habits clean: health good. Aug Sept & to Oct 31/95. Same about the same, all the time: health good: works on ward. Nov 1/95 Temp 131 pers. P 82. Nov Dec & to Jany 31/96. No change noticeable, during this period. Still shows delusions & hallucinations. Do work. Health apparently good. Summary Nurses Notes by Dr. Phelps Feb 1/96 to May 1/97. Patient quiet: might be designated, chronic mania in form: Talks of various delusive ideas: habits clean: dress neat: talks irrationally & is occasionally quarrelsome: is about same in every way as for many years past. May 1/97 Wt. 131# General health good. Walks back & forth & scolds a great deal, but rarely offers to do any harm. Jan 31/98 Intervening notes show no change of importance. Feb 1/ July 31/98 Cont. by Dr. Mayos. Wt. 139# Walks the floor all day, muttering to himself: Has many delusions. Patient somewhat obstinate. July 30 No change in mental or physical condition during period. Aug 1 Wt. 136½# Physical health fairly good. No mental change. Keeps well. Habits cleanly. Has delusions & talks to himself continually. Does nothing.

(See Case Book No. I. Page 65 for Previous History)

Since re-admission has been the same - clean and tidy; quiet and peaceable unless irritated, when he swears loudly. When spoken to always accosts the speaker of relating something from him. Occasionally mutters to self. No medicine. No visits from friends.

Sept. 23-1885. No special change. No medicine.

June 1-1885 - No special change. Works on ward. No medicine.

Sept 10-1885 - No change - Is quiet - No medicine.

Dec. 10-1885 - No change. Works daily on ward. No medicine.

March 9-1886 - Last notes still true.

June 4-1886 - No change in body or mind. Works daily on the ward. No medicine.

Sept. 7-1886 - Last notes still hold good.

Jan. 4-1887 - No change. Works daily on the ward. No medicine. Liable to frequent spells of excitement lasting several minutes, when he scolds and swears vigorously.

Apr. 4-1887 - Same peculiarities. Swears vigorously if "chaffed" or interfered with in any way. July 25-1887 - No change whatever.

Sept. 27-1887 - No change noticeable. Bodily health good.

Jan. 6-1888 - No change whatever. Works daily on the ward. No medicines.

Mch 27-1888 - No special change. Does no work. No medicine.

June 25-1888 - No special change. Sept. 27-1888 - No change.

Jan. 14-1889 - No noticeable change. Apr. 27-1889 - No change.

July 22-1889 - Has occasional periods when he swears and is ready to fight. Usually perfectly quiet remaining day in the same position. No change physically or mentally. Apr. 16/90 In good health. Clean; slovenly in dress; never says anything; dances jigs occasionally; struck an attendant in face one time ago. (This note refers to John McDonald).

Apr 17/90 In good health. Has a wrinkled, old look; quite active & restless. Occasionally makes a loud noise; does so & increases noise when any request is ~~trying to be~~ enforced. ~~to him~~ Dr. & attendant had trouble with him one day, in which patient was excessively noisy & angry. But has never since shown signs of anger toward those engaged in affair. Is clean but rather slovenly; no work, no medicine.

July 16/90 Conduct & health as usual. Occasionally noisy at night.

Nov 27/90 No change. At annex. Aug 6-91. Since last note has done no work and bodily health has been uniformly good. Mentally is constantly growing worse. Patient is very noisy at times running around ward swearing violently at everybody and thing he meets.

Dec 1st-91 Sunday Primitive. Bodily health fair. Dirty and slouchy. Habits irregular. Very noisy, profane and vulgar at times. Has to be forced to go out walking.

Feb-14-92 No change & has spells of loud and profane talk as formerly; weighs 109, has good appetite, but is pale. Talks freely, usually profane, vulgar, vicious and is self. Walks out much, and moves promptly. Makes noise by his loud talking and yelling. Dresses & cares for self, clean and tidy, is ugly & fights.

May-25-'92 July 25/92 Changed none. Today was sent to St Peter.

Correspondent,	Dr. S. J. Young. Waseca. Minn. Wilhelmine Greening - No. 1107 - 10th 11th ave. N. Minneapolis -		

This man was brought here by Sheriff Hugh Wilson. and with the following history. Patient has been a hard drinker for several years and has had delerium tremens. He said to have had several attacks of insanity which lasted only a short time. which no doubt were brought on by his intemperate habits. Present attack commenced ten days ago after a prolonged drunk. and he was confined in the Co. Jail until brought here. When he came he had a pint bottle nearly half full of Whiskey.

June 1. '83. Is making considerable improvment. eats and sleeps well. Rx Cathartics often. writes home very often. Neat in habits.

Aug. Very much improved. No medicine.

Sep. 18. Quite rational. Anxious about affairs at home.

Oct-2-1883. For some time has been outside on parole, working about the kitchen &c. He seems about as well as he ever will be & if not quite recovered - is nearly so - He was this a. m. allowed to return home alone - on trial.

Discharged.

Dear Sir,s.

I wrote the Chamber of Commerce for your adress.
I am gathering information regarding my grandfather, whose Name is John G. Greening,and now deceased long ago.
He was a resident of Wilton Township, near Waseca,and then moved to Minneapolis.
As of now, have been unable to locate where he died, and the cemetery he is buried in, but was supposed to be in Minneapolis.

The Waseca County Clerk in Waseca,gave me this information.
Quote,
The only record we have on him is that he was commited as a mental patient on May 21, 1883,and that he left the Rochester Hospital on Oct. 2, 1883. He no doubt walked out on his own,and was later discharged by the Hospital on Dec. 5, 1883. End of quote.

If this happens by chance to be your hospital,can you give me his birth date,and anything you have on record about him. I am also trying to locate the date of his death.

I am his granddaughter, who has never known anything about him. My father died in 1918 in Spokane Wn.

I am gathering family histiry of the Greening name. And by doing that, may be able to locate some of my uncles,and any living relatives,of the later generations. Was my Grandfather a widow, or was he married at the time of being in the hospital.

Can you refer me to what ever other hospital he might have been in, if not in your,s.

Any information will be appreciated,

Sincerely.
Mrs Walter Hopewell

C. J. Brundine — from folio 90.

& Sept-94 Is generally quiet & inoffensive, but noisy when disturbed, will stand in corner & strike & kick aff. for an hour at a time. He does no work. Is clean & neat. Health good. Oct. 31st 94 Received a blow in right eye which is discolored & badly swollen. Albumine as above. Nov. 94 quiet, does no work, sits in one place most of the time, usually keeps one hand on back of neck & strikes lower limbs at times with other. April 20/95. At times, has "spells of violent twitching" & jerking of limbs. Occasionally scolds loudly. Health good. May, June & to July 31/95. No change to note, during the period. Quiet: does no work: demented: has habit of turning & twisting his limbs when he sits & goes through the peculiar movements. Habits clean: but Dress untidy. (During May, he had a swelling of right cheek & jaw, probably from ulcerated tooth). Aug Sept & to Oct 31/95. No change noted, during the quarter. Habits rather dirty: no work: health seems good. Nov 4/95. Wt 108 lbs. Pulse 96. Nov 27/95. Generally quiet, but irritable, and rather noisy when crossed: Habits rather filthy: dress untidy: health seems poor, of late & he has "spells of vomiting" nearly every day. Dec 22/95. Wt 106 lbs. Pulse 80. Dec 29/95. Transferred to 4th & at 9 am. Dec 29/95. Was put on regular & extra diet. Jan 2/96. Wt 104 lbs. Pulse 90. Jan 5/96 Is quiet: sits in one place all day, unless compelled to move: is filthy: dirty & slouchy in dress & habits. has "spells of vomiting" several times a day. Jan 10/96. Very weak & seems to be failing. Jany 25/96 Refused his breakfast. — Transferred to Infirmary Ward at 1 PM. Jan is weak & emaciated condition. Lower limbs badly swollen & discolored: also has a slight sore, near leg: right eye, apparently, very sore, and entirely useless: Eye bandaged: Patient put to bed: Ate a light supper. Had considerable difficulty in taking temperature. Jan 26/96. Very quiet, all night: slept 7 hours. Jan 31/96 - Restless at night, but sleeps fairly well. Appetite fair, though he vomits almost all he eats. Patient seems failing quite rapidly, Physically. Mentally - Condition remains about the same. Habits are very dirty. Feb 5/96. Condition about the same, tho' he is gradually failing. Has frequent "vomiting spells", day & night. Bowels move more frequently, of late. While walking to closet (11 oc PM) patient fell, and bruised his left arm slightly. Feb 6/96 He seems much weaker, today. Still vomits. Seems to sleep quite well each night. Feb 7/96. Is becoming very weak: Habits are filthy. Feb 8/96. Feet & hands quite cold: he seems almost helpless. Hot sandbags applied to feet. 1 PM. Vomited whiskey given him. Feb 9/96. Continues to grow weak. Appetite very poor and he vomits almost everything he eats. Slept rest & sleeps quite well. Feb 11/96. Lies in an apparently stupid condition: quite helpless: will eat nothing, unless fed. Vomits soon after eating. Feb 12/96. Wt (undressed) 70 lbs. (last quite markedly in flesh). Is very weak today, but seems quite conscious of what is going on. Appetite poor: bowels irregular. Feb 13/96 Condition about the same. Feb 14/96. Patient very weak, today. Seems to fail rapidly. Feet and hands are quite cold. Feb 15/96. Better 24 hours & slept only 4 hours last night. Has been refusing meals & refused breakfast this AM. 7 am. Patient seems unconscious: rapidly declining: respiration shallow and somewhat labored. Pulse very irregular. Continued to sink rapidly & Died at 8th am (see attached Nurse's record).

This young man was brought here by Dr McGaughey and Mr Chas Lambertson, and with the following history. Has been very intemperate for a long time and in spite of remonstrances of family & friends would go off on prolonged spree's. Lately has been drinking heavily, and his present excited condition commenced one week ago, imagines he is surrounded and persued by objects. On admission he acts very stupid, face covered with perspiration & trembles violently, will not talk or answer questions. Has not slept for several nights. He was put to bed & given Chloral grXXX Bromide Potass grXXX Tinct Hyos ℥ii aqua ℥iii.

May 30. Slept several hours last night. 9 a.m. this morning. trembles a great deal. R Tr Gent Comp. ℥ii. Tr Hyos ℥i. Elix ferri et cinch ℥iii. ter in die. Chloral at bed time same as first night. appitite poor.

May 31. Slept very well last night. and eat a good breakfast this morning. Does not tremble very much. will answer questions.

June 1. Is making good improvment. eats & sleeps well, neat in dress & habits.

Sep. 18. Very much improved. Tonic discontinued for considerable time now.

Dec. 4- Allowed to go home with Dr McGaughey of Winona-

Discharged.

Correspondent,	Oscar A. Reed. (Husband)	Lake City. Minn.	

This woman was brought here by her husband and mother in law, and with the following history. Has always been well and healthy until six years ago when she "fainting spells" and Epileptic attacks, not very frequent at first. but now has two or three fits in one day seldom a whole week will pass without a fit. these paroxysms generally come in toward evening or in the night. Was treated four years ago, for two months by Dr Crary, since that time "her mother in law has been her physician". At times she has had to be confined to her room for a day or two at a time. On admission. her face is somewhat bruised & "eyes blacked" from the effects of a fall in a fit. she is quite talkative. seems to be in good physical health.
May 31st Slept well last night. ℞ Bromide Potass. Fit to day at 5 o'clock P.M.
June 1st Had a fit again to day. June 4th A fit last night & one this morning.
June 16th No fits since last note reported. ℞ Bromide & Tr Belladonna.
Aug - Bellad. has been discontinued for some time - Tonic now given with Bromide.
Sep - Much improved.
Oct 12 - Continues to improve - Visited by husband recently.
Oct 21. Teeth are very bad - 2 bad teeth extracted -
Nov. 1. Had a fit recently after being frightened by another patient
Jan 1. 1884 - One or two fits since last note - Visited by husband recently.
Mch 1. " No fits recently - Patient is rational but her mind is evidently weakened She is very emotional. Is liable to have a fit if excited in any way.

April 5 - 1884 - Allowed to go home with her husband on trial - Was supplied with Potass Brom. & Elix Ter. et Cinch - so that she may continue treatment at home.
Sep - 1 - Some time ago husband wrote to Superintendent. who wanting to bring patient back - but Superintendent answered that patient would never be well - & was so much happier at home that they ought to keep her there

Died

This woman was brought here by Sheriff Anderson, Deputy, and with the following history. Is said to have manifested ~~if~~ insanity several years ago, and like her two sisters thinks the neighbors are trying to get possession of their property, and like the sister brought with her, tramps around the country interrogating every one they meet about their family difficulties. June 16th. Quiet neat & tidy in dress & habits. Physical health good. No Medicine. Dec. 26-'84. No change. Rarely speaks unless spoken to. No delusions known. Perfectly contented. Works daily in laundry. The three sisters have been frequently visited by neighbors. March 5-1885- No change. No medicine. June 2 1885- No change. No medicine. Works daily in employes dining room. Sept. 14-1885- Last note still true. Dec. 1-1885- No change whatever. Feb. 27-1886- No change. Works as above. No medicine. May 25-1886- No change. Had an attack of erysipelas of face this spring. Aug. 27-1886- Has been suffering from a large ulcer on leg for over two months. It has been treated steadily, but is not yet healed. Does no work. No medicine except locally. No change mentally. Jan. 8-1887- Had erysipelas of face during the fall. No change. Is again at work in the employes' dining room. Ulcer has healed at last. Apr. 18-1887- No special change. Works still as above. No medicine. July 13-1887- No change noticeable. Sept. 27-'87- Still no change. Jan. 6-1888- Somewhat less talkative, perhaps. Otherwise no change.

Apr. 5-1888- Works in room center dining room with her sister. For a month suffered a good deal from a severe Bronchitis for which she took a good deal of Expectorants & sedatives. Otherwise has been very well. June 30-1888. No change. Oct-4-1888- Rooms with ~~Dining~~ No change. Feb 17-1889. For nearly six weeks she has suffered with a cough similar to that of last year. There seems to be no serious lung trouble. Otherwise well. Has taken Stokes- Pot Iod- Syr Scillae &c with no effect. May-13-1889. After taking a good many different things, the cough above mentioned finally wore itself out & is now about gone. Is working in Dining Room again. July 29-1889. Works and sleeps with Sister. Health now good. March-13-1890- Health fair.- Oct-15-1890 Rooms with her sister. Has not coughed much of late- Otherwise well. Feb 16-1891. Has an umbilical hernia which has developed within last few months but does not seem to trouble her much- Works steadily every day. Mental condition same. May 28 '91. Patient- works with sister in Res. Centre D. R. & has been in excellent health for the past quarter. The cough, of which she has complained at times, has almost entirely gone. Oct. 5-1891 Health has been good since last note. Works every day- No mental change. Nov 13th 91 Patient remains in the same condition & is of the same general type of character as her sister. Her talk is of a rather weak-minded kind but is less irritable & more pleasant than that of her sister. Her health has been uniformly good, with the exception of a cough, which is now troubling her, & which several times before has troubled her for 1, 2, or 3 mos. at a time. Feb 18 '92. Patient had a scratch upon the head this morning, looks quite ugly, though she said had only scratched it on box, in the evening at supper time was dizzy in the evening a little later in her room taking shroud from the bed & fell headlong on the floor. I found her at 6:30 unconscious & ____ breathing. She roused up somewhat on being put to bed was thoroughly helpless, however, moved the right hand. Feb 19 '92. Right hand shows Erysipelas of a malignant & rapid ly spreading character. Both arm & face increased in co-motion. Fell this morning from the bed & bruised her face is quite helpless. Feb 20. Is quite helpless & seems failing. Erysipelas spreading rapidly up the arm. Lies helplessly in bed.

This man was brought here by Ex City Marshall J. C. Stromd and with the following very incomplete history of his case. Patient arrived in this country from Sweden one month ago, and was insane at that time. Patient's brother says it is the first attack, no cause assigned. On admission he acts very quiet & stupid good physical health, somewhat anaemic.

June 11th Quiet, neat & tidy Eats & sleeps well. Pelis fine at times

June 16th Same as last note. does no work. seldom speaks.

June 30th Is improving both mentally & physically. works outside & Tonics.

July 5th Eloped to day while out at work got about one mile away.

Nov. 18. Some weeks ago the sub-maxill. gland of left side inflamed & suppurated into mouth – then healed – Yesterday it began again to inflame Tonics have been discontinued.

Dec-1. No special change mentally – seldom speaks – Gland still troublesome.

March-1- 1884. Same as last note – Various kinds of treatment for gland useless

June. 14. Gland not well but much less troublesome – a seton had best effect yet – Has been working outside for some time – is a good worker. Is much improved Rough quiet today better – Today was allowed to go home on trial (to his brother) as care of City Marshall J Sastrand of Red Wing. who came here to bring another patient.

Discharged.

Vide Case Book No 2 For previous history.

Mr Glover was brought here by his wife, who says for the past two months he has been growing worse. He left this Hospital last November very much improved and was discharged from the Hospital at the March meeting of the Trustees. He is about the same as when first admitted last August. He very quiet will not talk or answer questions.

June 16th Lounges about the ward. does No work. eats & sleeps well. quite fat.

June 30th No material change since admission. quiet neat & tidy & lazy.

Sep-1- Same as last note - No medicines

Dec-1- No change in any respect.

March 1- 1884- Quiet, neat tidy - Fat & lazy - Answers questions if spoken to. Troubled with sores on upper lip - which has not yielded to treatment.

June-1- Same as last note except that lip is better - No medicine - Ox B.E.

Dec. 10 1884 - Visited by sister "late in June". Growing fatter and more and more untidy. Frequently shouts out in Chapel. Has become more talkative and speaks of his own accord, but never uses "I" or "me", and always asks & go home before answering a question. No medicine. Feb. 23-'85 - No change. No medicine. Visited during January by lady friends. Works on ward.

April 13-1885 - Bad case of intertrigo between his thighs.

April 15-1885 - Rheumatic pains - R Sa Salicylate.

April 28-1885 (vomiting) - Has been troubled for several days past by disturbance of digestion. ℞ $BiNO_3$ and Sa HCO_3. To-day he is in bed; temperature elevated, breathing rapid; p. 112; cough and bloody sputa. ℞ {Sp. Ether m v, Chl. Etc. m xii, Vin. Opium m xii} every 3 hours with whisky. He retained it at first; afterward discontinued on account of vomiting. April 29 - In bed; p. 115; Resp. 36; anorexia; Says he is not very sick. April 30 - 7.30 a.m. P. 104, Resp. 32; vomiting up medicine and food. ℞ milk with sherry - Bi. 8 p.m. ℞ Oxalate of Cerium & Spts. Vin. Gall. P. 105; Resp. 28; no fever. May 1 - P. 105; Resp. 28; a little fever; eats nothing; ℞ Sulfly which he immediately threw up. May 2 - Temp. normal; p. 85; vomiting and very constipated. R injection Ol. Ric. et Ol. Terebinth, and Bi et Sc. Carbol for vomiting. May 3 - Mind wandering occasionally; had no movement of bowels after the injection. Has taken very little nourishment for last three days. Vomiting nearly controlled by use of Carbolic acid & Bi with the medicine. ℞ Spts. Frumenti. May 5 - Eating some; no fever; stomach still irritable, but complains of no pain. May 7 - Ate very heartily to-day. Toward night had considerable fever; p. 140; bowels have moved several times to-day - first since April 29th. 5 p.m. ℞ Whisky, Digitalis and Bella. 8 p.m. ℞ gr. x Quinine in whisky. May 8'85. Temp. in axilla 99°; p. 140; Resp. 30; 8 p.m. - Temp. 101° in axilla; Rash - a mixture of minute pustules or acne and larger petechiae. It is most abundant on thighs and lower part of belly. This first appeared yesterday. Patient yells loudly when limbs are touched or any attempt made to change his position. May 9'85. A.M. - Temp. (axillary) 100°; P. 140; tongue coated; some sordes. Continually calls for water; Soils himself from head to foot daily. Yells, frequently, on the slightest touch, but complains of no particular pain. 4 p.m. Temp. 101°; P. 140. ℞ whisky, Digitalis and Quinine. May 10 - About the same all day; P. 140 & 145; Axillary temp. less than 100°; Resp. about 30. Is growing weaker; is very dirty. Drinks much and keeps the bed soiled. Eczema between thighs is worse again. Yells and swears a good deal. Can give no account of his subjective symptoms. ℞ during day and night ℥j whisky + m x Dig. every 2-3 hours. Has been delirious part of time for some days past. May 11 - Wife came this a.m., but he swore at her as at others. While changing beds this a.m. he suddenly collapsed - pale, cold & quiet - seemingly from the exposure. Revived under use of warmth and stimulants. 9 a.m. P. 140 and extremely feeble. Axillary temp. 98½°. Eyes wild, speech more incoherent. Diarrhoea continues bad. Stimulants continued throughout the day and night. Diarrhoea mixture at 4 p.m. Ord. ℥j Spts. Vini Gall. 4per hour during night with milk. May 12 - He sank steadily during the night and died at 5:20 this morning.

asphyxia in Epileptic attack

This man was brought here by an Officer and with the following history. Began to have Epileptic fits ten years ago. which were not very frequent until two years ago, when he manifested symptoms of insanity. Has been kept at the Co house & Jail most of the time for the past two years. Fits are very frequent of late. Has delusions of fear & violent death. On admission. is in fair physical health. but very stupid and indifferent will hardly answer a question.

June 11. Fits every day or two. does no work ℞ Bromide & Tr Belladonna ℥ss

June 30. Fits frequent. mostly in the morning. Same med. continued.

Sep. 18. Treatment for last two months. Bromide only - grs XXX B. i. d.

Nothing of importance to note.

Oct - 4 - Very violent at times, requiring restraint & crib.

Dec 1 - No special change - Bromide continued.

Mch - 1 - 1884 - Visited by brother & brother in law some weeks ago - Became very much excited - weeping & embracing his brother - Bromide Continued. Is nervous in restraint room.

June - 1. No special change. Helps on ward. Was worked outside (building wall) recently - Bromide continued.

Dec. 10 - 1884 - Bromide continued since last note. Gets ugly after fits and wants to be killed. Brother visited him this fall. Works well and is trusty outside & inside.

Feb. 27 - 1885 - Bromide continued. Works on ward. Reads some. Has special change.

May 29 - 85 - Four fits last month. Last note still true.

July 9th '85 - Wild and raving this morning - Put in crib for the day.

Aug. 24 - '85. Has been quiet since last note - Says very little - Does not work much. Sept. 18 - 1885 Visited by brother. Dec. 7 '85 - No change. KBr continued

March 8 - 86 - Mind more confused. Does not feel as willing to talk. KBr continued

June 4 - 1886 - No change in mental or bodily condition. Works outside and on the ward. Visited a few days since by his mother.

Sept. 6 - 1886 - Has worked some outside. No material change. KBr continued.

Jan. 4 - 1887 - Fits reported on six days last month. Medicine continued.

Apr. 7 - 1887 - Fits reported on four days last month. No special change in mental or physical condition. Medicine continued. Doesn's work.

July 23 - 1887 - Fits reported eleven days last month. Works daily with farmers &c KBr continued. No special change in mind or body. Recently visited by his sister.

Sept. 28 - 1887 - Fits reported two or three days last month. Works daily on the ward. No special change in bodily health or mental condition.

Jan. 6 - 1888 - Last week remained over a whole day in status epilepticus, going from one fit into another every few minutes without recovering consciousness in the intermissions; convulsions were local; we took the form of emprosthotonos, pleurosthotonos, and opisthotonos. The fits came on after a pain over region of lungs. Has been in crib once since last note. ℞ KBr gr. XXX S. D. D.

Mch. 27 - 1888 - Has been violent once or twice since last note. Lately has been working some on the yard. Medicine continued. ℞ KBr gr. XXX S. D. D.

June 26 - 1888 - No fits reported last month. Works pretty regularly outside. Medicine continued. Sept. 27 - 1888 No fits last month. No special change in mental condition. Bodily health good. ℞ Pot. Brom. gr. XXX B. D. D.

Jan. 14 - 1889 - Has worked outside, now works on the ward. KBr continued.

Apr. 27 - 1889 - Works on the yard and at mending; no fits or spells of excitement in a long time. Bromide continued - gr. XX - S. D. D. July 22 - 1889 Works most outside every. Has had no fits or marked mental excitement for a long time and is much improved in appearance. Medicine continued.

April - 14 - 1890 - Health good - Works a good deal -

July 16/90 Health good. Walks well. Fits rare. Talks some. On no bromides.

Nov 27/90 occasionally gets into trouble with fellow patients. No change.

Dec - 20 - 91. Good health. Works outside. Visited a few days ago by a friend. Very well contented and generally quiet. June - 5 - 91 No change. Was sick for a day or two recently. Was given Sol. C.C. and Serum antipyrin. Works daily. Aug. 6 - 91 Works daily in garden. Bodily health good. mental condition unchanged.

This man was brought here by m Officer J. Seastrand. and with the following history. Has led a very intemperate life. Four year ago had Typhoid fever. Last Fall had intermittent fever and has been kept at County house for a while. a few days claimed another mans wife and was determined to have her. He was arested and kept in jail until examined and was found to be insane, & was committed to the Hospital. He said to have been always weak minded in some subjects. June 16th. Quiet & good natured. does no work. In good physical health. June 30th. Improving. eats & sleeps well, works some outside. Cathartics.

Sep. 1- Nothing special to note- Lazy- Physical health good.

Dec-1- Same as last note. No medicine-.

March. 1 84. No change-

Ferne- 1- Visited some time ago by his mother- with whom he talked quite rationally- No medicine- Lazy.

Ferne- 14. Today visited by City Marshall. J Seastrand of Red Wing- Would have been allowed to go home with Mr. S. but when asked if he would work & conducted in an independent manner- & when told that if he did no good at home he would be brought back here. He said that the heavenly law would prevent him coming back. So it was decided that he had better stay.

Ferne 17. Must have had a fit. This a.m- found himself on floor of closet with head bruised & scalp (parlead) cut open- Patient says he had an attack like this 13 years ago. His brother is an Epileptic. Yesterday he was working at reservoir- he threatened attendant Wasson with a shovel- the latter struck him & then went to work & saved himself.

Sep- 1- No special change- Quiet- Works outside- No medicine- On B.I.E.

Oct-20- Went home on trial, with Police Officer Molloy of Red Wing- who came here with a patient- The officer had a request from his wife to bring him home if well enough.

Discharged — Dec: 3: 1884

Dec- 1st 1891. Epileptic Dementia. Good health. Habits clean & tidy. Pulse 76 & regular. Works daily out of doors at slaughter house. Very quiet & over fearing. Ugly and ugly inmates & other patients with slight provocation.

Dec. 10/91. Patient visited by a friend this morning.

Dec 31/91. Complains of headache and pain in limbs 2 P.M. T 99. Diagnosis- Suffering.

Jan 1/92. A.M. T 101.4 P 84 R 33. P.M. T 98.4 Seems better but is a great baby and lays around and talks so indistinctly that almost nothing that he says can be understood.

Jan 2/92. Patient up on ward & day and says he is better.

Jan 10/92 Working out doors again and apparently made a good recovery.

May 28-92 {Eats well, but is dull. Talks freely, readily and coherent. Reads, writes & plays games, goes out much and promptly, works well and willingly dresses & cares for self, is clean & tidy, but is ugly and fights & is changable as to temper.

June 19/92. Got into a fight with a fellow patient at the Annex to day and became so furiously irated that he was moved to 6th and put in a single room. July 2/92. Has been perfectly quiet and well-behaved since last note & was sent back to Annex to day.

Sept-6-92. {neighs 166; eats well and looks well. Has about fits- fits during the month. Talks rationally and ugly when spoken to. Reads and plays games. Goes out and is prompt. works well and willingly dresses & cares for self is clean & tidy. Fights and is ugly. Talks rationally.

Nov. 15-92- Wt. 198- Health good- works outside some- talks- is occasionally ugly Dec. 15-92- tried to strike a patient with a chair while at supper, had to be taken up stairs. Dec. 19-92- is mad & won't eat. Jan. 25-93- Was thrown out of sleigh & bruised his hip- Complained of it for a couple of days. Feb. 22- had a quarrel with a fellow patient- March 6-93- Wt. 167- Health good- he has had 2 fits every month. May 31. 93. He has Convulsions at night & is usually well & moves next day. He works at slaughter house nearly all the time. His appetite is good & is apparently in good health.

July 31-93. Has been very troublesome of late quarreling & fighting with the other patients. otherwise no change. Aug 19 & Came on ward C 3 Transformed to E Aug 25 93 Convulsion during day. Aug 27 93. Convulsion during day. Aug 31 & Appetite good Phys. Condition good, Behavior good Works on ward Every day, attends chapel and entertainments Sept 2 & Wt 172 P 72. Obedient, reads, writes, plays games. Face bruised by being struck by M. Tempelosky. Oct 1 & Wt 177 - 92 Oct 8 93 Convulsion during day. Oct 15 93 Convulsion during the night Oct 19 93 Convulsion 9 a.m. & 2 p. Convulsion 4 a.m. Oct 31. 93 Physical condition very good Nov 2. 93. Wt 178 P 68. Convulsions one each Nov 8. 24 & 29. Nov 30 93 Appetite very good Bowels regular Phys. Cond. very good Behavior very good Industrious & obedient. Talks quite rationally except after convulsions. Reads, writes & plays games attends chapel and dances. Ingrowing of right cut on lip caused by being struck by an ugly patient. Abatement Dec 24 93 Wt 186 P 82. Dec 6 93 Transf to E ward. Dec 20 93 He works at slaughter house every day. Otherwise no change. Had a fight with Peter Mordaunt a watchcourt Jan 22 94 No change Feb 28/94. Is a troublesome patient; ill tempered & continually getting into trouble with the others. Has been troubled with sore eyes for several days, during early part of month. When well, he works at slaughter-house. He has several convulsions each week; some of them are quite severe. Health good, for him. Patient was in bed for several days during latter part of month (February). Mar 10/94. Has been up and about for several days. Convulsions still occur quite frequently. Mar 31/94. No change to note. April 30/94. No noticeable change. Still subject to these convulsions. Of late, has been working on the farm.

Incase of death Telegraph Skinner & Drew, Northfield.

This man was brought here by Sheriff Barton's Son, and with the following history. First symptoms of insanity were noticed about one year and masturbation is supposed to have been the cause. Always quiet, never attempted to injure himself or anyone else. Not filthy in habits, nor destructive to clothing. Has always been kept at home until brought to the Hospital. Has never had any medical treatment for his mental trouble.

June 16th. Complains of pain in head. Eats & sleeps well. does no work.

June 30th. Improving goes out to work, quiet & neat in habits. R Tonics.

Dec 10-1884. Brother and father visited him last winter and a friend this fall. Refused to talk with the latter. Did no work last winter; worked outside during summer. Early in fall made attempts to elope, so has been put back in ward, where does no work. Very careless about his clothing. Mental state worse than it has been. No medicine.

Feb. 25-1885 - No marked change - unless slightly worse mentally. Does walking.

May 30-1886 - No special change. No medicine.

Sept 2-1886 - No change - No medicine - no work.

Dec. 8-1885 - Last note still true, except that he has worked outside lately.

March 6-1886 - No change, mentally or physically. No medicine.

June 11-1886 - No change. No medicine. Works some with the farmers.

June 15-1886 - Went home on trial to-day with his father.

Sept. 9-1886 - Returned to-day. While at home would not work much, wandered about and required constant watching.

Jan. 3-1887 - Behavior since his return differs in no respect from

what it was before his visit home. Does no work. No medicine.

Sept. 7 - 1886 - Returned to-day. While at home would not work much, wandered about and required constant watching.
Jan. 7 - 1887 - Behavior since his return differs in no respect from what it was before his visit home. Does no work. No medicine.
Sept. 8 - 1887 - No change. Idle, untidy and demented.
July 27 - 1887 - No change whatever.
Sept. 28 - 1887 - No change noticeably. Jan. 6 - 1888 - No change
March 27 - 1888 - No change whatever. June 26 - 1888 - No change.
Sept. 27 - 1888 - No change. Brother is now a patient in this Hospital
Jan. 14 - 1887 - No change. Apr. 27 - 89 No change.
July 23 - 1889 - No change, no work, no medicine
April - 5 - 1890 - At Annex. Same as ever.
July 16/90 Health good. Quiet, clean, but slovenly. No work, no medicine.
Nov 27/90 No improvement. Feb 10 - 91. Very untidy and dirty. Sits around ward all the time, scarcely ever speaks. Very silly.
April 29 - 1891. Sick abed. Temperature running from 100° to 102 and 104. Pulse from 80 to 130. Very weak, rapidly becoming emaciated. Has much expectoration and physical signs indicate beginning Phthisis. May 1. 1891. Visited today by parents. Graving worse rapidly. May 9th Simon died this morning. For several days has been graving worse as noted May 1. The Case was evidently one of markedly acute Pulmonary Tuberculosis. Physical signs and the presence of much cough accompanied by profuse expectoration confirmed the diagnosis. On the 5th and 6th had Subnormal temperature, going down to 95.8 to 96 - F. The remains were shipped to Nashfield.

Died. May-9 - 1891.

This patient was brought here by Dr J. Flood. and with the following history. First symptoms of her present trouble commenced about ten years ago. & probably the cause is over work & ill health. She was treated four years ago by Dr Flood for partial paralysis, but patient got no better. and has continued to grow more both physically & mentally. Walks with difficulty. very filthy in her habits. Has probably been abused a great deal as She shrinks away when approached and begs not to hurt or strike her.
June 25th. Walks with great difficulty. appetite fair R Tonics. Visited by husband.
July 3d. Was allowed to go home with husband to day, he was anxious to take her.

Discharged.

Correspondent,			

Capt. Daniel Heaney was brought to the Hospital by Sheriff Richardson. This is the third time he has been sent to the Hospital. about seven years ago he was confined in the St Peter Hospital for several months. Three years ago last April he was discharged from this Hospital having been here four months. He made good promises for his future conduct when he went away, and for a couple of months conducted himself very well, but began drinking again and has kept it up whenever he could get whiskey. would beg & borrow money wherever he could and it would all go for liquor. Has had no regular home, would stay wherever he could & sleep in any place handy. When admitted was very filthy & alive with vermin. and in a partially intoxicated condition.

June 30th Very talkative, tells of his business transactions – what he has done & what he intends to do. Is very boastful. wants the privilege of going to town alone &c. Physical health fair eats & sleeps well

Sep. 18. Still boastful – Memory failing for recent events. Is quiet & rational.

Dec-1 – No change – Physical health very good – No med. Works outside at times.

Mch-1-1884 – Nothing of importance to note No medicine

June-1 – No special change – Has occasional visits from friends – His son came here to see him on business some time ago – No medicine

Dec. 10-1884. Growing fat and slightly childish. Works little in the wards. No medicine. Was confined to bed for few days in October.

Visited by friends and by others on business matters at various times since last note.

Feb. 23-'85 – No change. Always pleasant. No medicine. Visits by friends.

May 28-'85 – Becoming demented. Delusions of wealth more marked. Countenance becoming vacant and expressionless. Physical health good; still fleshy. No work.

Aug. 31st 1885 – Appears well – Does no work – seems contented. –

Dec. 7-1885 – No marked change. No medicine. Works a little on the hall.

March 4-1886 – No special change. No medicine. Works very little.

June 1-1886 – No special change. No medicine. Does no work.

Sept. 7-1886 – Memory very poor, delusions resulting. No special change, however.

Jan. 5-1887 – No special change noticeable. Visited by his son two days ago.

Mch. 4-1887 – Memory exceedingly poor – always imagines his hair needs cutting. Has had parole of the grounds for many months.

July 22-1887 – No change in mind, body or habits.

Aug. 2-1887 – Went out on trial. To board at the Cook House.

Sept. 28-1887 – Reported as drinking hard occasionally.

Discharged
Feb. 8-1888.

Predisposing cause,	Not hereditary	Result,	Died Apoplexy
Correspondent,	Home Christopherson. Bro. Mrs. Jane Christopherson,	Hartland P.O. Fraeborn Co. Spring Water P.O., Iowa.	

This man was brought here by Dep. Sheriff Jacob Larson and presents the following history. Has been very intemperate for a number of years drinking to excess. About one month ago became very much excited, and thought his wife was insane & a fool. and the sight of his father excites him. a few days ago assaulted his wife knocking her down, and she is afraid of her life. has had to be watched and confined at times to prevent his injuring his wife and others.

June 25th. Very talkative. eats & sleeps well. neat in habits. R. Cathartics.

June 30th. At times quiet & will not answer a question. asks to go home often.

July 6th. Incoherent in his conversation at times. eats & sleeps well.

Sep. 18. Visited by friends few days ago. Nothing of importance to note.

Very lazy - will not work.

Nov. 13. Visited by wife - Seems very much improved - Talks connectedly & sensibly - Wants to go home very much.

Dec. 1 - Same as last note - No medicine.

May 1 - 1884 - For some time since last note continued to improve - but became worse again - & on one occasion informed superviser that his wife would have a son who would be Jesus Christ - At present he is not so excited as he was a short time ago - Was visited by wife & bother some time ago - Physical health good - No medicine.

June 1, No special change - seems perhaps more rational - His letters to friends have been very crazy - teeming with his own greatness &c. No medicine

Sep. 4: 1884. Visited today by wife & niece - Has been very quiet lately - so much that he might be called depressed - No medicine. Soon Rl. B.

Dec. 10-1884. Visited by friend recently; also by other friends. Behaves well toward visitors. Threatens now to kill his brother if he sees him. Usual conduct and health good. Rests badly. When asked to work says he is a tax payer of this institution and refuses to work. No medicine.

Feb. 23-'85. Slightly improved. Always civil and pleasant. No medicine.

May 28-'85 - Conduct still good. Trusted to go to town alone. Delusions continued; still pray and read in the morning, then swear. Pupils small and unequal. No medicine.

Aug. 31-1885 - Health and mental condition the same - Was visited by his wife a few weeks ago.

Dec. 7-1885 - Rather more irritable and will not talk with physicians. No medicine.

Mch. 4-1886 - Ugly, sullen - untidy, likes to be alone. does no work. Rarely will speak.

May 31-1886 - More agreeable; is just beginning to talk again. No work.

Sept. 2-1886 - No special change, except that he works on the ward.

Oct 24-1886 - About 2.30 p.m. was found on the floor, where he had fallen unconscious. When seen by physician a few minutes later he was livid; convulsions of R. side began soon after. Left side paralyzed. R. pupil dilated, later growing smaller, but still larger than left. Convulsions ceased, to come on again twice during the afternoon. Before these convulsions he was semi-conscious, coma following the convulsive movements. About 8 p.m. he regained consciousness sufficiently to say "yes" thickly and indistinctly and to swallow some water.

Oct. 25-1886 - During the last night he was seen to have four or five spasms of convulsive movements, and probably had more not seen by the night watch. Last evening an aqueous solution of ergotin was injected into arms, and ice bag applied to head during the night. At 8 a.m. breathing was stertorous & puffing, as it was yesterday also. Tracheal rales have appeared during the night. Bowels & bladder were evacuated involuntarily yesterday afternoon during first convulsion and again this morning. Resp. 30; Pulse 104, full & hard. Had one or two spasms during the day, but made no marked change in general condition during the day. Eyes injected, left side of face paralyzed. Temperature rising; sweating profusely.

Oct. 26-1886 - 8 a.m. Resp. 32; P. 110. Has taken no nourishment since attack. At 10 a.m. - Pulse 120; a little later it rose to 140 per minute. His condition remained much as yesterday; temperature high in the morning; comatose; tracheal rales; looks as if dying. 3.30 p.m. P. 112 & weaker. Resp. 8 &c. Died quietly about 3.45 p.m. Temperature & pulse fell before death.

Died

Correspondent,	John J. Kempton. Son. Pine Island. Minn.		

This man was brought here by Constable Henry Dome. and with the following history. About eight years ago had an attack and was sent to St Peter where he stayed three months. Present attack commenced during the present month, by his threats to injure his neighbors, and imagines himself a government detective & acting very boisterous. On admission is very talkative but incoherent. seems to be in good physical health. Keeps hands in motion constantly. at Bed time gave dose chloral & Bromid Potass. was quiet all night.
June 27. Strong cathartic this morning. & Bromid & Chlorid at bed time.
June 30. Cathartics with quieting doses at bed time, appetite very good.
July 6. Improving considerable thinks there is something the matter with the right side of his body. Same medicine continued.
July 14. Continues to improve. Eats & sleeps well. works some on ward.
August - Very violent & wild occasionally - From time to time needs injections Hyoscyamine Hoggs - & sleeping draughts. One day seized a carving knife & attempted to kill another patient - Has to wear mitt sacks & these.
Sept. 18. Nothing of importance to note. Seems quieter on the whole.
Oct. 22. Troubled with a carbuncles on right wrist
Dec - 1 - Quieter than formerly - very incoherent. No medicine
March - 1st - Same as last note - Physical health good - Rarely violent. No med.
June - 1 - No change - Physical health good - No medicine

Dec. 10 - 1884. Has been quiet, neat and tidy since above note. Visited by lady friend this fall. Does no work. Takes no medicine. No change mentally or physically. Answers questions politely.
Feb. 25 - 1885. Continues to improve slightly. Works a little on ward. No medicine.
May 19 - 1885. Continued to improve. Allowed to go home alone to-day, on trial.

Discharged
Aug. 5 - 1885.
Judge of Prob. notified

Joseph R. Rhodes.

The history of her case is defective as to the number & length of former attacks. Said to come on gradually & wear off the same way. Present attack some time last Spring and she has become so bad that she cannot be taken care of at home. Fear of husband & children. & delusions. On admission she is moaning & crying & an hour afterwards became very much excited running about the ward imagined that she was to be killed. Gave dose Chloral & Bromide grs XX each which quieted her.

July 2d. Gave cathartic yesterday morning. Chloral & Bromide at night and this morning is much quieter. Tore clothing all of yesterday.

July 6. Very wild and excited this morning. thinks every one wants to kill her. Gave dose Chloral & Bromide which quieted her.

July 14. Very noisy and excited most of the time. thinks she is to be killed & shrieks when anyone comes near her. thinks her food and medicine are poisoned. Visited by husband to day.

July 19. Continues the same as last note. Chloral & Bromide very day quiets her.

Aug 4th. Allowed to go home with her husband — unimproved —

Discharged.
Dec-5-1883.

Correspondent,	Edward Klinsmidt. Son. Alma City. Minn.		

This man was brought here by his son & Dr Remington. his family physician. and with the following history. Said to have suffered from sun stroke while in the army & caused an attack of insanity lasting only a short time. present attack came on about two weeks ago. Commenced by dizziness & followed by violent ravings and passionate threats and he attempted to injure his family and others. Had medical treatment but seemed to do no good. On admission is very much excited & very talkative. tongue coated heavily, breath foul. gave string Cathartic & at bed time Chloral gr XXV Bromid Potass gr XXX.

July 3d Patient very quiet this morning will not speak or answer questions.

July 14th Quiet neat & tidy. full of delusions. eats & sleeps well R Tonics & Cathartics

Sep. 18th. Treatment - Tonics - Complains of constant weakness & pain in lumbar region - gives porous plaster.

Oct - 12. Patient improved after his admission, & worked outside - But is now worse again.

Dec. 1. Worked outside during fall, but refuses to do so now. Helps on ward - Only speaks when addressed - then talks coherently. Has a habit of standing still & looking down at the floor for a long time - as if lost in contemplation - when asked what he is thinking about says "nothing". Seems goodnatured = hard but has violent temper. R Tonics.

Jan - 22 1884 When first brought here had delusions of fear - some one was after him &c. He cannot find that he has any now. Has made no material change since last note - but does not seem to be absorbed - Visited today by wife & daughter

Jan. 23 1884 - At urgent request of wife & daughter, who thought him much better, was today allowed to go home with them on trial.

Feb - 14 - 1884. Was today brought back by son - as he became unbearable at home - Was most of the time quiet there, but at times had "spells", when he threatened violence, saying he would kill his children with butcher knife. &c. Talked much about his being "bewitched" & tried to kill sheep. &c in his fury - also got up at night & wandered about - A few days ago he vanished on coming back here -

June - 1 - No material change - He is about the same, mentally & physically: able was last December - Helps on ward - Neat & tidy - R No medicines.

Dec. 10 - 1884 - No change. No medicine.

Feb. 24 - 1885 - No special change; to-day attacked the Supt. Goes walking and works on ward. Is liable to occasional excited spells, and is then violent. stands perfectly still for an hour or so.

May 28 - 1885 - Pretty quiet since last note. No medicine. Works on ward. Occasionally

Sept - 10 - 1885 - Is very quiet lately - Pleasant when spoken to - No medicines. Dec. 10 1885 — Works daily on the ward. No special change.

Feb. 20 1886 - No special change, except that his physical health is rather poorer than formerly.

April 30 - 1886 - Went home on trial to-day with his son.

Discharged, Feb. 2 - 1887.
Judge of Prob. and friends notified

	John Eagen. Bro. in law.	"	"

This man was brought here by his bro. in law and two of his neighbors, and with the following history. Has had epileptic fits for twenty six years. Three years ago had a severe attack of Epileptic Mania but was taken care of at home. Ten days ago present attack began when he attempted to injure his wife and others & had to be watched constantly. When brought here had handcuffs on. Was put on Bromide Potass grs. XXX & Tr Bellad gtt XX. bis in die. His physical condition is good.

July 6th. No fits reported since admission. Re quite talkative. Ry Bromide.

July 19th. No fits reported since last note. Grumbles & finds fault with food &c. asks every day to go home. Ry Bromide & Tr Belladon. Cathartics frequently.

Aug. 22nd Two or three days ago had a bad epileptic seizure - Ry Brom. Potass et Tr. Belladonnæ - (The latter has been stopped since last note).

" 25. His companion in bed room - Mr Hanies - states that he had another fit late at night.

Sep. 18. Complains of frequency & difficulty of micturitions - No fits reported lately -

Oct 1 1883 - No longer complains of bladder trouble - Is quite quiet & rational - Is said to act strangely at times - but is so much improved that he was to day allowed to return home with wife - on trial.

Nov. 28. Wife writes to say that he is doing well, but that fits are frequent. She asks for his discharge.

Discharged -
Dec - 5 - 1883.

Patient was brought here by her parents. who give the following history. Present attack began to manifest itself about two months ago, and she has continued to grow worse up to the present time & her family could not control her. She would run away from home at every opportunity and have to be brought home by some of her folks. She is of a very excitable temperament & is constantly seeking excitement of some kind. She was first admitted to this Hospital March 1st 1882 and discharged May 6th 1882. Recovered. On admission to day she is very restless & excited & very talkative. Thin in flesh.

July 12th Very restless & fault finding. Wants to have her own way in everything and go out & in at pleasure. Eats & sleeps well. K. Tonic.

July 19th Cross & sullen because she cannot have her own way. eats & sleeps well.

Aug. 22nd - much improved. -

Sep. 5. Allowed to return home alone

Discharged.
Dec - 5 - 1883.

Rasmus Hanson

From 108.

Mar 31/96. No change noted in Patients' condition. Apl 1/96. Wt 150 lbs. Pg 97. Apl 14/96. No change noticeable, either mentally or physically. - Apl 23/96. Is "spell". Is very contrary and stubborn. Apl 27/96. Was struck by patient under eye & disfigured. - Apl 30/96. Patient has abrasion over 5th & 6th ribs, right side, between nipple-line and middle-line: swelling on 7th rib as if from old fracture: no marked tenderness, at time of examination (4 00 PM): no fractured rib found: some abdominal tympanites: no marked tenderness - Nurses report is tremo tenderness & apparent pain, just before examination. (H.H.H.) - (Note by Dr Herzog. When patient is in "spell" he is completely alienated: unable to express himself & is vicious, striking & clawing at everyone coming near him, as he stands in the lower bay. At these times, his skin is very greasy and there is constant thick discharge from the nose. A brisk Cathartic usually does some good. When at his best, he is considerably demented, but is able to converse on ordinary subjects fairly well. Is then well behaved & very friendly. Reads, and writes letters. The letters are really written, but are an incoherent jumble.) -

May 1/96 Wt. 137 Pulse 90. Emaciated physically: eats fairly well: does not sleep well during spell: behavior not good. 9th was struck by patient on forehead causing a slight scar since. Still in spell: No change. June 1st Out of spell: June 14 back in spell again. June 21 Has been out of spell since 16th. Has a running sore at ear, washed out twice a day with warm water. June 30 Ear improving slowly. July 7 Behavior quiet: eats & sleeps well: no complaints. July 9. Complains of not feeling well - pain in abdomen. received medicine for same. July 10 & 11 On hill diet & 14 has recovered. Behavior good: bowels regular. Aug 1 Wt. 142 Pulse 114 - Aug 7 (Aug 8 Monday) Patient now at his best: neat & tidy: skin clean: well behaved: reads much: stands up most of time: writes extremely incoherent letters: is demented. Sept. 20 Is in spell. Stole McDonalds breakfast & received blow on nose. Oct 26 Still in spell: Will scratch who ever comes near him: is continually mumbling something to himself: Habits clean but very slouchy: Does no work. Nov. 28 Has been in spell ever since last note: No change in any way: Dec 1 Wt, 144 Pulse 86. Dec. 7 Complained of pain in stomach. Refused dinner & went to bed: Refused supper. Dec. 8 Temp. 99 P. 73 R 16 P.M. Temp. 100 P. 88. R 23 Refused meals. Dec. 10 Ate good breakfast: Seems much better: up dressed. Feb 1. Wt. 146. Pulse 96. Feb. 6 In spell: Struck nurse Libby with spoon: Feb. 10. Struck C. Clayton below eye causing slight cut. Feb. 23 Still in spell, tho somewhat better. Apr 1/97 Is improving again: Is quiet, working in dining room: seems quite contented. Summary by Dr Phelps Wt. 147 Patient has periodical spells of peculiar behavior when he will be restless, untidy & rather annoying. At present is doing quite well: Is neat & assists with work. Sept 30/97 Complained of being sick. Temp. 102. Trans. to Infirmary. 29 Transferred back. Temp. went promptly down. There was no special illness. June 1/98 Wt. 104 Complained of pain in stomach. Trans. to Infirmary. June 5. Put back & C. - Temp. went down steadily & rapidly with a free catharsis. Jan 25/99 Patient at present in spell: rather restless & troublesome - no different behavior however from that of years past. Feb 1/July 1/99 Cont by Dr Mawson. Wt 139. Patient has spells when he talks incoherently & is very troublesome to other patients. Feb 16 Struck doctor while he was conversing with another patient. March 16 Died injury to finger dressed several times. May 8 quiet & works in dining room: Is religiously inclined. July 10 Patient became suddenly violent & maniacal: Left in bay. Struck J. Brannan. July 15 Noisy & profane to today: Struck several patients on ward.

Habits,	Intemperate. to excess.	Time of leaving,	May – 22 – 1884
Nativity,	Minnesota	Time in Hospital,	10 m 16 d
Predisposing cause,	Not hereditary	Result,	Discharged. Improved.
Correspondent,	J.B. Haines. Father. Wabasha. Minn.		

This man was brought here by Dep Sheriff R.C. Burkhardt. and presents the following history. Has had fits since his fifth year – said to have been caused by fright. For the past three years the fits have been more frequent and he has been leading a very intemperate life drinking to excess and at such times was inclined to be very ugly. On admission is quite talkative seems to understand his condition. Is in good physical health.

July 7th Gave Cathartic this morning. & will put him on Bromide & Tr Belladonna.

July 12. Quiet & well behaved. plays violin considerable. Rx Bromide & Tr Belladonna.

July 19. Progressing finely. complains of dizzy spells which only last a few seconds. good appetite sleeps well. neat in habits. outside every day.

Aug. Much improved – but fits – (petit mal) still continue –

" 17th – Took advantage of the extra liberty given him – & while at work at the cane, eloped.

" 20th Brought back by the deputy sheriff Burkhardt.

Sep. 18th. Few days ago, during the Rochester Fair, was allowed to go down town with his Father – from whom he got away. In the evening was brought back here in a state of alcoholic intoxication.

Epilepsy – petit mal – still continues – Has been under bromide & & Belladonna treatment – Is now taking – Liq. Potassæ Arsen. gtt. X. B.I.D.

No other remedies are now given.

Oct. 16. Has been for some time now taking Bromide – the amount of which was recently increased to 40 grs three daily – Arsenic was abandoned, as, after a fair trial, it seemed to do no good.

In conjunction with Bromide he takes enough Tr. Rhei to keep bowels lax, as he complains of constipation.

He has numerous attacks of vertigo, much greater in number than real fits – says he feels dizzy whenever he looks up. Oct. 23 – Tr. Rhei discontinued. Extr. Cascæ Sag. Re-given in its place.

Nov. 4. Cascara Sag. has been discontinued. Has marked Bromide acne. Says his "dizzy-spells" are changed – feels as if his head were swollen – ordered Nitrite of Amyl.

Nov. 11 – Says the amyl has done him good – Seems somewhat run-down by the Bromide – Tr. Ferri et Cinch is now given with it.

March 1. 1884 – Petit mal continues. Nitrite of amyl useless – Had a fit in 2 minutes after inhaling it on one occasion – Has Bromide acne – so takes. Tr. Ferri et Cinch Co. – with Bromide 40 grs. twice daily – Plays violin in chapel. Is well nourished.

May – 17. Various drugs have been used as substitute for KBr, but without effect, among them Cimicifuga Glandulosa (Fluid Ext of Parke Davis & Co) – & the Bromides of Sodium & Ammonium – Always wanting to go home, & writing to his friends to take him – Was out working – or pretending to work – at Kennel some time ago, presumably with intention of eloping – Not as constipated as some time ago – Fits continues. Visited by brother today.

May – 22. Went home with Father – on trial – Made many promises of reform – "Never would touch another drop of liquor" &c

Sep – 1 – We have heard recently that patient has been drinking again lately – & that a short time ago – in a row in a saloon about a woman, he was seriously stabbed.

Discharged.

Correspondent,	Ellen Reagan, Wife. Mendota. Minn.		

This man was brought here by Dep Sheriff Neil and with the following history. Present attack commenced one week ago, would tear all his clothing off and attempted to injure those who were taking care of him restless, sleepless and excited all the time. July 1. 1882. Was committed to the St Peter Hospital but only remained there about one month. On admission is restless & excited talks in a rambling incoherent manner when taken on the ward struck both attendants.

July 11. Slept well last night, not inclined to talk. gave Strong Cathartic.

July 12. Restless & will not answer a question. gave dose & allow him mornig.

July 13. Restless noisy & excited most of the time. Chloral & Bromide at bedtime. every night. muff during the day as he is destructive to clothing &c.

Aug 25. Last few days very wild. Injections Hyoscyamine gra 1/60 occasionally given, Also sleeping draughts at night (Chloral & Tr Opii) — Wild attacks show a tendency to come on every night — Restraints occasionally employed. Ordered - Potass Brom - gra XXX. T.I.D. for some days.

Sep. 18. Bromide given only twice daily — This treatment seems to have quietened him somewhat — No improvement mentally. Habits filthy.

Sep. 22 - Tonic resumed & Bromide discontinued as he seems to be run down. One or two ulcers on leg + foul sore on hand.

Dec 1. Somewhat improved — By tonics.

Mch 1 - 1884 - Quiet & well behaved. Is now B2 E. Never violent. Seems nervous. When he speaks his voice trembles. Ulcer on leg troubles him a good deal at times, + requires appropriate dressings — He occasionally asks for pills (Comp Cath) — Goes to dances in chapel + apparently enjoys himself. By Tonics - Habits clean. Helps on Lath.

May-8th 1884. Visited by wife + 2 children — Still much hesitation in speaking, but this is not as bad as formerly — Has worked outside one or two days lately. He is neat, clean + tidy —

June 1. No material changes to note — Tonics, Elix Ferri et Cinch ℥j, R.S.D. continued. Seems to have settled down into a condition of Chronic Mania — no delusions — simply confusion of and weakening of mind.

Aug 13. Vomiting with diseased food in night — Badly confused — Jerks limbs around. Has an idea that he had hallucinations of sight — Symptoms of brain pressure

" 14 - Better — Nausea + depression in room in night. Can talk a little more Head less hot + feet warmer than yesterday — Aug 15 - Up + dressed

" 16. Up today, but this afternoon suddenly fell down — Attendant says perfectly limp — Found his right side totally & partially paralysed — both movement + sensation — though the latter seemed the worst — He could not put out his tongue, could not stand — but could walk a little if supported by two men. Could not speak but laughed when spoken to — did not seem to fully comprehend when addressed. Tongue white — Face flushed — Right Pupil larger than left — which was much contracted. Clonic spasms of right arm — Attendant says he had these spasms some nights ago. Was put to bed — By Cl. Kj gtts ℥j.

" 17. Is tearing his shirt — with left hand. Crotons oil has acted well. P.M. Cascara

" 18. Asleep - q.a.m. — Vomit nearly all he eats — Fed on toast + milk

" 19. By Jr Aconit: R. gtt x/7 — Eg. ad ℥j, ℥ss Eg - ℥ij every two hours. Aug 20

" Very drowsy — Can be roused if shouted at. Cosmoline + acid Salicyl. used as ointment for sores on leg — Aug 29. Better — Up + dressed — Can stand — Minds confused.

Sep 4. In bed. Has been up once or twice last few days for a short time — Can scarcely talk When addressed says he is first-rate. He still takes tonic — Elix Ferri et Cinch ℥j; B.D.

" 11. Sores worse — By Muriat spasms of right arm. Sep 15 - Paralysis of right side

" 16. Incontinence of urine Sep 18 - Feet very cold - By Muriat + spasms of right leg. Must keep bed clothes on — Sep 20 - Bed sores - By Cosmoline + salicylic acid ointment

" 21. Bradly constipated — By Ol Eg gtt 7. Sep 23 - Crotons oil has not acted — Tab to be Spasms of limbs (right side) continues Sep 24 - By Enema of soap suds + Castor oil

" 25. Bowels moved twice yesterday — Refuses food this p.m. Sep 27 - Visited by wife

" 30. Groaning + complaining a right lately. Oct 1 - Visited by Rev. Father Riordan

Oct 2 - Again visited by Rev. Father Riordan. Oct 5 - Groans at times - Bed sores getting worse - Managed to speak a sentence this am. Said he wanted to die.

" 6. Noisy this p.m. Constipated — Fed on oatmeal to counteract this. Oct 7 - Seemed pain if moved. Oct 9. Some movement + sensation in right arm — Little of either in right leg — Makes - Rolls up balls up — Ordered whiskey + milk — + Morphia for pain of the sores.

" 10. Refuses whiskey + milk — But takes whiskey + coffee. 2/3 gr Morph. given today.

" 11. Sat bolt upright last night. Oct 12 - Groaning in night — Some power this am — Oct 14 - Still Refuses Morphia + whiskey — Oct 17 - 1/48 Morph. Oct 19 - Ate 2 good meals — Stimulants discontinued

" 20. Kept on face as much as possible — Bed sores terribly bad — Sloughs all down right leg — Still groans + noisy at times Oct 24 - Appetite failing — P.M. Spasms on back Respiration shallow + slow. Pulse good — Ordered whiskey + milk — Can't swallow

" 28. P.M. Semi-delirious - Talked some Oct 29 - Spasms of right leg. Oct 30 - Attendant says pulse was 150 yesterday afternoon with spasms. Noisy last night — Stimulants continued.

" 31. Appetite better. Nov 1 - Night attendant says he complained a good deal early this A.M.

Nov 2. Very noisy in night — as if in pain — Sometimes singing as if without articulating words Q.a.M. - Stupified — Morphia has not been given for some time — By Morph Sulph gr 1/4 every 4 hours when in pain. Nov 3 - Slept all night — Sore weaker

" 4. Right knee contractured — hand on shoulder — Attendant says he can see the bone perfectly in case of the bed sores — Stimulants continued - a quarter grain of morphia given last night — Was very drowsy in a short an hour — Worse today - Respiration rapid + shallow — Pulse rapid + weak — Visited by Father Riordan.

" 6. Noisy last night — One bed sore seems quite deep — Others still worse + bloody discharge

" 8. Peculiar whitish circle (in both eyes) in iris formed lately — Very weak — Died at the afternoon - 3 or 4 o'clock — Mc Clouse says the great trochanter are exposed on each side by bed sores —

" 10. Wife, having been informed by telegram of patients death, came today + removed the remains.

Died.

Correspondent,	A. P. Baker. Father. Winona. Minn.		

This young woman was brought here by her father and accompanied by two lady friends and their Minister, and presents the following history. Has been studying very hard all last Spring and was one of the graduates of the Winona High School in June. was irritable and hard all the Spring while going to School. Soon after graduating she attended the Methodist Camp meeting at Red Rock, where she became very much excited and had a fainting spell while there. Returned home July 5th in a maniacal State which has been increasing since, an attempt was made to treat her at home and she was seen by Dr Bowers in consultation, who recommended her immediate removal to the Hospital, as it was found impossible to get her to take medicine while at home, and to day she was committed to the Hospital. On admission she is very much excited & noisy, all on religious subjects. Screams & throws herself on the floor. gave her Hypodermic dose of Hyos. which quieted her down in ten minuets. At ten o'clock PM gave another Hypodermic dose which quieted her during the night.
July 18th took some breakfast but is very noisy and excited gave cathartic and at noon a Cathartic per rectum. Gave Hypodermic at bed time.
July 19th Cathartic operated freely. quiet most of night. noisy this morning. Camisole.
July 21st Continues noisy, when not under influence of medicine. eats poorly.

July 23rd Not as noisy yesterday & to day. Slept well last night with a dose of Chloral & Bromide. Visited by Father yesterday. Appetite poor.
August 5th no material change. Patient fed with stomach tube & hypodermic injection Hyoscyamine 1/100 - used to quieten.
From the above on, the course of the case was steadily downwards. The delirium was constant. Later Later on the patient would mutter a word occasionally & but no connected sentences. The breath had a typhoidal odour, & the tongue & teeth (covered with sordes) was also presented a typhoidal appearance. As the patient became weaker, she was fed forcibly — but without the tube, on essence of beef. The treatment was tonic. Rx Fr. Ferri et Quinin. Citr 3iss.
Aquæ Destill. ad ℥iv. — Twice daily —
Equivalent occasionally used. & on Aug 9th for digitalis was given —
In addition Hyoscyamine gr 1/10 pro re data was given — (hypodermatically)
The patient was hot feverish constantly — She lay tied in bed — with her eyes closed & would seldom open them. She recognized no one — not even her father, who was sent for & came here Aug 5th & 8th.
Aug 10th & at about 7.15 a.m. death supervened —

It ought to be added — that her hands were constantly tied. & she was tied in bed — not only to prevent throwing herself from the bed but also to prevent self abuse — which to accomplish which she made frantic & frequent efforts. Whether this (self abuse) existed before the attack — & if it did — whether it was a cause of the insanity — there is nothing to show —

— Died —

This man was brought here by Constable Thomas F. Kierney. and with a very incomplete history of the case. as the patient has only lived at West St. Paul a short time and nothing is known of the family history. First symptoms of insanity were manifested last Sunday by his strange actions. Is said to have been very jealous of another young man who was visiting his lady love. Has become very wild and incoherent saying his rival wishes to poison him &c. Was so bad had to confine him in the Jail until sent to the Hospital. Is in good physical health.

July 19th Slept well most of the night somewhat noisy towards morning took some breakfast. gave Strong Cathartic this morning.

July 23d Quiet & restless by spells, good natured, neat in habits, eats well.

Aug 30th Is improved - Visited on the 28th inst by Father & Mother -

Sept 1. Continues to improve - Oct. 1. Works outside regularly —

Nov. 1. Laughs in a foolish way when spoken to - Has the appearance of a masturbator - Was blistered yesterday.

Jan - 1 - 1884 - Nothing special to note — Ry. Tonics.

March 27 - " - Allowed to go home on trial with brother today - He is very much improved, & with the exception of his foolish laughter, seems to be rational - He was hired some time ago, but afterwards got wire out - Has been working out on farm for some time — taking care of stock &c. His physical health seems good.

Discharged.

This woman was brought here by her Son, and with the following history. First Symptoms were manifested about three months ago by her acting and talking strangely, said she was going to be crazy and her friends were going to defraud her. Two days ago She got hold of a razor and attempted suicide by cutting the artery in her arm. Has had no medical treatment to speak of. She has had to be watched night & day by her friends. On admission, she is quiet and in very poor health physically. Complains of pain in the stomach. put her in Dr Forrest's ward.

Aug 28th – Visited by Son.

Since her admission has had 2 or 3 epileptic seizures – Pr. Potter Brown.

Oct – 4 – For some days Sroms & Cinchona Tonic has been given with the Bromide – & today the Bromide was stopped – Tonic only being now given – The reason for this is that she seems to be getting more more – stupid & apathetic – & somewhat run down physically.

Oct. 30. Today allowed to return home with Son – on trial.

Discharged.

Dec – 5 – 1883.

William Rose

From Page) 106.

Apl/96. Wt 112 lbs. P 78. Apl 30/96. Apparently, the same, physically. Behavior still noisy, at times, and slightly destructive. Does not walking with the Crowd. (No. of days dirty during month 15.) – (Dr Herzog notes: Idiotic: no change of late). May 1/96 Wt. 111 lbs. Pulse 84. Appetite good: Bowels regular: Behavior noisy & troublesome: & often causes rows as he kicks & scratches other patients without cause & when touched will yell & cry. If allowed on hall tears all the beds to pieces so is kept in bay: Habits filthy & dirty: Does no work. June 1/96 still restless & troublesome: Has habit of taking off slippers & striking other patients with them: Also unbuttons clothing & it is difficult to keep him looking decent. July 6/96 Patient has an ulcerated tooth: jaw is somewhat swollen & feverish: has a mouth wash for same. Aug 1. Wt. 100 Pulse 78. Aug 28 Appetite good: Bowels regular: Behavior noisy restless & troublesome & is cause of a great many rows: Sept. 1 Wt. 109. Pulse 86. No change. Oct. 1 Wt. 108 Oct 1/96 Appetite ravenous. Is eating on hall: Bowels regular. Dr Herzog notes "Idiot, undersized, unable to articulate." Nov. 1 Wt. 111 Pulse 112 Nov. 15/96 Kept in bay on account of being troublesome: Demented & cannot talk: Requires a great deal of attention. Appetite good: Does not walk out with others. Nov. 16 Struck with chair by George Wagner. Dec. 3/96 No change mentally, physically or in behavior: Jan 31/97 Very restless & troublesome: dressed in straight suit as he will not keep others buttoned – Is continually scratching someone: Habits filthy & dirty: usually worse at night. Does no work Feb. 10 Patient not capable of caring for self: requires a great deal of care: No change in behavior: Is mischievous; filthy & dirty & always kicking or scratching someone. Feb 12 Got a slight cut on top of head. Picked by A. Wright, & fell & cut his head on bench. Mar. Struck by R. M. Hague in face with a shoe: Left eye swollen & discolored: Apr 30/97 No change in patients behavior or condition of late. May 3 – Wt. 110 – Pulse 86. Is an undersized man & not capable of caring for himself: Is troublesome – will kick, & spit at patients & nurses. Wears straight suit most of time: Habits filthy & dirty. Bowels regular: has an enormous appetite. June Wt. 112 lbs. P. 84. No change from month: July 28 Has been very fortunate this months & has not had so much trouble with other patients: Aug 15. Still troublesome & filthy, & destructive at times. Eats & sleeps on hall. Oct 28 Received cut on side of left eye & pushed out of room by M. Lausch & struck door – Patient quite frequently injured in this way as he will not leave other patients alone. No change in condition. Jan. 99 Patient has been very troublesome during past month – uneasy & discontented. Feb 2 Wt. 122 P. 106 – Behavior noisy & restless: Does not talk but screams when ever touched – Tears up beds & clothing unless constantly watched. Apr 2 No noticeable change in patient. May 3 When going out with crowd today was very stubborn & refused to walk: was carried to house by nurses & died a few minutes later – Dr Herzog summoned but did not reach him before he died. Dr Herzog Notes. Nothing unusual had been noticed in regard to his behavior except on thinking back, nurses thought him somewhat more quiet during the day or two before. It had on previous occasions refused to walk when out and nothing was thought of the fact that it was necessary to carry him. Dr Herzog found him lying on the ground, his head supported by a coat: he was still warm, having been dead but a few minutes

Correspondent,	Anthony C. Nygaard. Bro.	Moland P.O. Rice Co. Minn.	

This woman was brought here by her brother and with the following history which is very incomplete. The brother says that nothing was noticed unusual until last April when she manifested delusions of fear and thought she was going to be poisoned. would roam about the country a great deal. A few years ago had an illegitimate child. On admission she seems to be in good physical health. Complexion very sallow.

Oct-12-1883– Works in kitchen – Few days ago pretended to be sick & went to bed but was soon made to get up again – She takes tonics regularly –

Seems to have a delusion that her food &c is poisons – Says her blood is all poisoned –

Dec. 26–1884. Physical health, although about once a month she claims to be "sick all over" and would remain in bed for days at a time, if permitted, but always eats and sleeps well. Has been more irritable and abusive in her language; is full of delusions especially that people are trying to injure her. When she is sullen she is quarrelsome and threatening. Visited by two lady friends about a month ago and she appeared much pleased to see them. Medicine discontinued last summer. Works daily in kitchen.

March 9–1885– No special change. No medicine.

June 5–1885. Physically is in better health. Temper rather better, otherwise no change. Works daily in kitchen.

Sept 1–1885– Was in bed from Aug 1st to about Aug 18th with no particular trouble – Was at last ordered up and has not been in bed since. Seems to be in good health. Sickness was chiefly disturbance of stomach and constipation. R. tonic elixir B. I. D.

Dec. 4'85 – Physical health fair. No change mentally. Tonic discontinued.

Feb. 27'86 – No special change. Works daily in the kitchen.

April 12–1886 – Patient had a chill and went to bed Apr. 3d, after two days of indefinite symptoms. April 5th complained of tenderness over liver, and Temp. rose to 104°. Salicylate of Sodium reduced the temp. to 102½°, and it has not risen above since. A day later solidification of the entire rt lower lobe of lung was made out. Patient was kept steadily on Salicylate, and Temp. ranged from 102°- 102.5°; pulse fairly strong from 88 to 100 per minute. Resolution began yesterday with characteristic bloody sputa of pneumonia – the first time she expectorated. At no time till to day did she appear otherwise than doing well, but to-day she became delirious and her face ashy-pale, with anxious look, and her mouth covered with bloody sordes. There was no marked change in temperature, pulse or number of respirations, but the respiration was rather more labored and convulsive. Solidification of the lower part of right upper lobe was made out to-day. At no time during her sickness did her respiration get above 32 per minute, tho' they were noted about ten minutes before her death, which took place a little before 7 p. m., suddenly. She died from paralysis of the heart resulting from the pneumonia.

Died

From Folio 129. William Rose Continued –

Patient was taken to morgue, stripped & an examination made by Drs. Phelps & Herzog, no signs of violence were found on body and in view of the facts in the case & upon questioning reliable patients who were present, it was decided that death was due to natural causes, & valvular heart disease was given as cause in death certificate as he had had some puffiness of eyelids

Died.

Correspondent,	James Edwards. Husband. Albert Lea. Minn. Granville - Fulton Co.		

Patient brought here by her nephew & a lady nurse that has been taking care of her lately. Her history states that about June 1st the first symptoms were manifested which were not very bad but have continued until within the past two weeks when she became very bad requiring constant watching and attention. Attempted suicide by different methods several times. Has had medical treatment for some time at home. No good results. On admission. She is very talkative moans & groans a great deal. says she is all right incoherent at times says she is afraid of becoming insane. At bed time gave her Chloral grXX Bromid Potash grXX Tr Hyos ℥i. aqua ℥ss

Aug. Improved both physically & mentally - Still believes pretty much as described above, but much of her waiting, moaning & other conduct is forced - Talks much of her "hysteria & nerves" - Refuses to sleep without sleeping draughts. One day has mouth put her head in a bath — Said she wished to drown herself. Also picked up a pocket knife in the grounds which she said she would have killed herself with had it not been taken from her. So often troublesome - especially at night. R. Elix. Cinct Cinchona - Tinct daily - This was changed & she was ordered another tonic. - R. Tr Ferri Chlor. mxx. Quinia Sulph. (gra j - Glycerine ℥ss. (T. J. D. ante cibum).

Aug. 24th No Change. Some time ago, it having been stated by Dr Hodges of Albert Lea, that the attack was result of womb trouble, Dr Bowers & Dr May of Rochester made an examination per vaginam - & both agreed that there was no cause for insanity in the sexual apparatus whatever.

Aug 27th Camisole necessary for last 2 or 3 days - patient acts so wildly - It seems certain that she could controll herself more if she tried - She threatens suicide. Less than a week ago was found in bed, by the night watch, with a carving knife, she had managed to get from the dining room - She had it in bed 2 hours - but did not use it - The restraint is - however - considered necessary for her safety. Masturbates.

Sep. 18. Visited by husband some days ago - Has been troubled with conjunctivitis - but this has improved under appropriate treatment. At present, is better mentally & physically. Quiet - No restraints now - some time ago they were often necessary.

* Oct 4 - Troubled with dyspepsia - & takes Lactated Pepsin occasionally - Takes tonic T. I. D. Quinia Sulph. gri - Tr Ferri Chlor mxx - Glycerine ℥ss. Two or 3 days ago tried to cut her throat with hair pin - having previously written instructions as to her burial - She thinks one of the attendants is her niece & always addresses her by the niece's name.

Oct 11 - Sometimes pounds on door at night - Always talking about suicide - says she has scarcely any breath in her body - Sometimes refuses food - once the tube was used -

Oct 20 - Tattered Cataract removed from one eye lids - Lately has been sleeping in 3. W. W. + on L. W. 4 day time - She was on 3rd W. (+ in restraint 2 nights only - Was then moved to first ward. It seems quieter & better behaved - The reason she was sent to 3rd W. W. was on account of filthy habits.

* Oct. 4 - (This important note omitted) - This p. m. managed to get an attendants keys - went down to outer door of 3rd ward & escaped - She went to track & laid her head on the rail - A freight train, from the Rochester, was pulled up by the engineer just in time to prevent running over her - A few hours later she was brought back to the hospital.

Oct 26 - Again filthy at night - not at work - Not Answerable for her actions -

Oct 28 - This p. m. violent - to attendants - was restrained - (chair - & camisole) - & given 15 minims of solution of Hyoscyamine - She is again sleeping on 3rd ward.

Nov. 1 - Last night more violent than ever - Hyos. inject - (Also had an injection of Hyos - 5 i. ill.)

" 4. Quiet - Says she is ashamed of herself.

" 6 - Spends much of her time sitting in room by herself - Disinclined to talk or do anything -

Dec. 3. Visited by Lessieur & a female friend.

" 7. Eats well - Seldom speaks - In sewing room today.

" 15 - Continually asking to go home.

" 17 - Appetite bad -

Jan. 11. 1884. Very filthy at night. Is to sleep on 3. W. W. tonight - To stay on 1 W. W. this day time.

" 14 - " Has slept on 3rd W. W. for last 3 days. Eats well - Occasionally refuses to eat for some time - but persuasion & threats to use a feeding tube have the desired effect on her.

" 15 " Very noisy in night last night - shrieking - as she did on one occasion last October — Shakes burned the wall up.

" 16. On 3rd W. W. last night.

" 18. Begging attendants to write "her last words"

" 22. P. M. Has been tearing up sheets into strips - Inclined to hang herself. P. M. Chloral gra XXX. Tr Hyos ℥j

" 23. Habits disgustingly filthy - & not from care lessness but from pure maliciousness. Shuffled in chair on 3rd W. W. today.

* 27 - Destroying clothing & very wild. Camisole & chair.

" 29. Still very much excited. P. M. Sleeping done.

Feb. 3. On 3rd W. W. tonight - She requires 14 clean sheets per week on her bed, and to make matters worse she hides the rubber sheet provided for her.

" 8. Noisy & filthy - Camisole. P. M. 1/48 gr Merck's Hyoscyamine Hypodermically.

" 9. Quiet last night. This p. m. R. 1/48 gr Merck's Hyoscyamine, Hypodermically. Out of bed pounding on door & yelling - Camisole - & strapped in bed by arms & ankles

This man was brought here by Sheriff Moll. with only the warrant for commitment, and no history of the case. Patient has been a resident of St Peter for many years, and for the past fifteen years has led a very intemperate life drinking to excess a great portion of the time. For several months past he has become so bad that it was found necessary to commit him to the Hospital for treatment. As he would threaten his family and has several times beaten his wife shamefully.

Reg. Very much improved. R. Tonics

Sep. 10th - Allowed to return home on trial.

May 1 - 1884 - Patient was kept on the books as several of the hospital trustees said he had taken to drinking again & would eventually have to be recommitted - A few days ago he died from erysipelas, brought on by a knife wound in the arm received in a row in a saloon.

Discharged.

Sep. 10 - 1883.

This woman was brought here by her husband who gives the following history. Had an attack nine years ago only lasting a short time and was treated at home. Present attack was first noticed August 1882. about six weeks after the birth of her youngest child, but has been getting worse since last April. For the past month she has had to be watched constantly as she would run away at every opportunity. Has delusions of fear – thinks certain persons are going to injure her & she wishes to escape them, refuses to eat some days. Seems to be in good physical health, quiet will not talk.

Aug – Has been for some time taking tonics & gtt. xx t. Opii Bis. I. D.

" 28th " Seems improved. Takes more interest in what is going on. Works in kitchen.

Sep. 18. Slightly improved. Tr. Opii discontinued. Works in kitchen every day.

Oct. 4 – Last 2 days has refused to work – She evidently has a fit of depression.

Oct. 12 – After a day or two of idleness, she was persuaded to go down to the kitchen & work again, & she now does so daily. Ty. Tonics –

Nov. 15th. Visited by husband & sister – She was very desirous to go home –

Feb. 1 – 1884 – Helps on hall – no longer in kitchen as she manifested a tendency to hide herself. Still depressed – speaks little. Physical health good – Ty. Tonics.

March 5 – " Allowed to go home with husband on trial.

Discharged.
June – 11 – 1884

This woman was brought here by Dep. Sheriff E. M. Smith. This patient has been twice in St Peter. & this is the second time she has been committed here. She was discharged Recovered from here Sept. 2nd 1881. and went away alone to her friends in Dakota. About two weeks ago she began to be very much excited, gesticulating with different mien and running about the streets singing and dressing herself up in outlandish styles decorating herself with vines, feather shavings &c. On admission she is very talkative & noisy but good natured & in good physical health. remembers the girls that were here when she left. Gave her sleeping dose.

July 29. Slept well. gave strong cathartic this morning. it acted well.

Aug. Somewhat boisterous & officious - Great talker - Less trouble than was expected.

Sep. 18. Nothing of note to record. Is well behaved & quiet.

Sep 21. 1883. Today allowed to return home alone - on trial -

Discharged.
Dec 5 1883.

Eliza A. Edwards - continued from Page 131.

till the Hyoscyamine took effect - then the arm straps and ankle straps were removed and the camisole left on.

Feb. 10-1884. Camisole & locked up in chair - room. Masturbates in an outrageous way right along - Sews with camisole on she can't keep her legs still. Often says she has burned the world up - & with it her soul - Asks what has become of her body & where it is buried &c. Tues P.M. Surpassed herself in disgusting performances - smeared herself with feces &c. Was taken down to bed ward & stuffed in chair with camisole on. Cales was put in crib. & 1/30 gr Merck's Hyoscyamine given per rectum.

Feb. 11. Chair and camisole. P.M. 1/24 gr Merck's Hyoscyamine given per rectum. This p.m. same done as last night.

" 12 - Is kept in crib at night room. This p.m. same done as last night.

" 13. Chair & camisole - very wild - P.M. 15m of Hyoscyamine solution (old) Hypodermically.

" 14 P.M. 25m sol. Merck's Hyosc. (1/30-gr) - put others

" 15. Back on L. W. W. Has Oxyuris vermicularis again R. borax & camphor water. Her mouth is discharging flakes, purulent looking matter - & has a putrid odor. She does not try to expel this matter. Her speech is very thick - & sounds as if her larynx & throat were clogged. Camisole - Put her in a done of Chloral & Tr Hyos - she spit up most of it - Seems dull & drowsy - Cales

Violent, wild & noisy. R. mxij sol. Hyoscyamine (old) Hypodermically.

Feb. 16. Collyrium continued. It ought to have been mentioned before, that the Benzine, Iron, & Glycerine solution has been discontinued for a considerable time - & since its discontinuance she has been taking Elix Ferri et Quin f3j B. S. P. post cibum.

" 17 Chloral et Potass Brom aa gra xxx given during night last night.

Is to be kept on 3rd W. in day time room. Q.A.M. noisy - pounding on door. (left in bed as she was supposed to be sleeping) Camisole put on. She still seems not to be diseased as she pretends to be - Cales (P.M.) 15m of Merck's Hyoscyamine per rectum

" 18. Camisole -

" 19. Rx Chloral gr 30 - Tr Hyos f3j - For some days she has been starving herself - Scarcely eats anything, Has to be fed.

" 20. Camisole - She sleeps in a camisole vest. Says she is a "crow."

" 21. Bruised voice, in various places, from her violence, want of food, exhaustion from masturbation &c. Has some bad sores on back & buttocks - R/ Carbolized

" 22. Is in bed. Camisole P.M. Took of Chloral & Hyos - She spit out most of it.

" 23. Camisole - in bed. Refuses food. P.M. Took a little nourishment.

" 23. Very weak - so much so that she has been noisy for the last day or two only for a few minutes in the 24 hours. Still in camisole - The purulent matter in mouth seems to come from lungs? gangrene. Refuses food - Is too weak to use tube. This p.m. after much persuasion swallowed some forces, took a few spoonfuls of thin broth. She is fearfully emaciated - Face looks like that of a skeleton - Eyes sunken, malar, & maxillary bones very prominent. It is not deemed safe to feed her with tube as she is too weak

Feb. 24. 1884. 4:55 A.M. **Died.**

Her friends were informed by telegram.

Feb. 25th Telegram from Mr N. Greene (patients Nephew) to Mr Le Sueur, was repeated by the latter to the Superintendent asking leave to have her buried here. Mr Le Sueur subsequently came here & explained that there had been some family row - he husband refusing to take any notice of her death - but that others of the family would be buried here for the present & at some future time they would exhume the remains for re-interment.

She was buried in hospital cemetery.

Died

This woman was brought here by her son and with the following history. First attack occured at the birth of her first child thirty years ago, only lasting a short time. present attack commenced two months ago said to be caused by worry and family trouble has had to be watched constantly. refusing food saying it was poisoned. cannot sleep well tries to run away from home. Is in very poor health physically cannot talk English. Has been treated with Homeopathic remedies for some time. Result Nil.

Aug. 25th Very noisy - prays sings continually - Restrained (chair) at times.

" 28. For the last few days has been less troublesome.

Sep. 18. Seems improved - Not necessary to restrain her as it was formerly - Is good natured - but addicted to singing hymns. Wants to go home. Always wanting to run away when ward door is open - Great talker -

Nov 9. Visited by son.

Dec 18. Very much improved - Allowed to go home today on trial with her sons & daughter.

Discharged.

March - 5 - 1884

Patient growing weak very fast: Eats but little. Breathing much labored: Habits filthy. Feb 23 Patient had an attack of labored breathing at 3 A.M. Pulse very weak 72 Refuses nourishment: very weak & gradually failing. Expired at 5:05 A.M.

Dr. Coy Notes Patient has been tubercular for over a year but during Summer while out doors every day he did not fail any, when Fall came & he was indoors, he soon commenced to fail quite rapidly. There was nothing unusual in the run of the case - At no time was there any great rise of temperature except for the last few days

This girl was brought here by her father with the following history:— Aug. 15th 1882 she fell from a swing, seriously injuring her head - A couple weeks afterwards she had a very offensive discharge from the nostrils - Five months after the fall she showed signs of derangement, + melancholy + refusal of food - also refusing to see any one. She made an attempt on the life of her brother - July 30th. Once or twice she attempted suicide by choking + ~~with a~~ cutting - She was very much addicted to destroying her clothes. At the time of her admission to the asylum she had not eaten for 36 days. Before the attack she never manifested any peculiarities whatever - nor was she subject to any disorder of mind or body before it. Her friends had her carefully watched + locked her up for a week in a room, but no restraints were used - nor force. She had never been under medical treatment till admission.

On admission was found to be in a filthy conditions, swarming with vermin. She had to be — on one or two occasions - fed by force -

Aug 16th - She is much better - takes food voluntarily.
" 29th - So much better - At patients' dance tonight - Danced several times. She has scabies + is being treated with unguent. Sulphuris - Has two running sores on scalp + abscess on abdomen -
Sept - Abscess opened with knife - The patient is much better in all respects.
" 18. Improved wonderfully - Goes to dances in chapel + enjoys them most thoroughly.

Oct 12- 1883 - Still troubled with skin affection, though scabies is now gone; Has been taking Fowler's Solution for last few days - but as she shows some signs of its toxic effects, it is today discontinued - Her tonic is also discontinued as she seems to be eating too heartily.
Oct 22nd - Began to menstruate last night - first time since admission - Flow was very slight - Ordered oil of Savin emulsion + hot fomentations + foot bath - Has been troubled with headache in the evening, for some time past.
Oct 27. Her menstrual flow was scanty + only lasted a few hours - Says she is very home sick.

Nov. 19. Went home alone - Recovered.

Discharged.

Dec - 5 - 1883.

See. Case Book - IV.

This patient was brought here by Wm. Koerner, with the following history:— Her attacks continued from 1870 to the present time. No account of how insanity was manifested. All the history as to her having attempted injury to others was that she had "not done so of late." She had no disposition to be filthy, destroy clothing &c; nor any peculiarities of temper &c &c before insanity was manifested. She was much restrained. Was at St Peter from Dec 6th 1875 to November 19th 1880. No more particulars have been obtained, except that she lived with her friends from 1880 till date of admission here, about which time she became so much worse that she had to be re-committed.

Sep. 21. Ordered tonic with Bromide — as she seems to be somewhat run down — especially Complained of being weak &c — when menstruating a few days ago. She has been taking Bromide of Potash regularly — it is says —

Oct 4 — Is now taking tonic with Bromide.

Dec. 26 — 1884. Until about six months ago she had never had a regular fit, although she had shown some symptoms of epilepsy. During the last three months they have become more frequent — about once or twice a month. Ever since admission she has had spells of bad temper during which she is quarrelsome, and full of delusions, and wants her own way, and during these spells she is apt to stay in bed. No delusions known. Is anxious to go home. Often visited by friends. Medicine continued.

March 9 — 1885. No special change except that her fits are becoming more frequent. Medicine continued. Visited by brother last week.

June 3 — 1885 — No special change. Works some in sewing room. Medicine continued.

July 16 — Visited by friends. Sept. 17 '85 — Sick in bed several days last week, refusing medicine and being very cross and fighting. At present is as amiable as usual.

Nov. 30 — 1885 — No particular change. Sews some. Medicine continued.

Feb. 26 — 1886 — No change. Often refuses medicine and goes to bed for a day or so.

May 26 — 1886 — No change. Has worked a little in the sewing room.

Aug. 27 — 1886 — Fits seem to be becoming mostly nocturnal; is stupid after the fits.

Jan 13 — 1887 — One fit noted last month. No special change in mind or body. Medicine continued. Feb. 16 — '87 — In bed to-day.

March 17 — 1887 — Remained in bed for three weeks, complaining of pains (probably rheumatic) in various parts; for past two weeks has had discharge from r. ear. One fit reported last month. Apr. 20 '87 — Much more excited than usual since last note — screaming day and night, fighting, &c. Several sleeping-doses. KBr. continued.

July 12 — 1887 — Quieter since last note. No fits last month. KBr continued.

Sept 28 — 1887 — No fits reported last month. KBr continued. No special change in mind or habits. Is always anxious to go home.

Jan. 6 — 1888 — Visited recently by husband & friend. About a month ago she fell on a radiator and burned head severely during a fit. Has lost flesh.

Apr. 6 — 1888 — No change. Occasionally in bed for a day or two after a fit. Always denies having any fits. Burn on head not quite well — June 20 — 1888. Not much change. Husband visited and was more pleasantly received than usual. — Oct. 4 — 1888 — No change. Stays in room contentedly. Feb. 17 — 1889. No change. May 13 — 1889. Still stays in room. No complaints. July 20 — 1889. Patient had a fit on 26th of June and fell on cement floor, cutting herself badly over eye. March 13 — 1890. Health good. Temper very good all this winter. Apr. 15 — 1890 — Stays nearly all the time in her room. Mental condition continues fair. Health quite good. Feb 16 — 1891 — Health good. No change. May 28th '91. Has been very quiet for past quarter. Can be found sitting in her room mending or sewing at almost any time. Will talk sensibly & freely but has not been very irritable or troublesome to manage, nor has she done much outside of her room during this time.

Oct 6 — 1891 Has had several fits lately. Stay in her room all the time. No mental change. Nov 13th 91. Patient seems to have been failing somewhat & to have an increase in the No. of fits. She has, however during the past year, been of very little trouble as she stays the greater part of the time in the room, working at some old material over & over again, & thus interfering with no one. Nov 23. Does no work, has fits more frequently, sometimes several in a day. Her general health is good & temper fair.

Correspondent,	Abram Nelson / Winona. Minn. P.O. Money Creek, Minn		

This boy was brought here by A. A. Corey, & with the following history: — (Mr. Corey's address is — Money Creek, Houston Co. Minn.) Has been, as far as is known, non compos mentis from time of birth — "Insanity" "Emotional" & "Chronic". Has has, from such fact passion, shown disposition to injure others. Not given to filthy habits, destruction of clothes &c. Never had any injury to head or was troubled by any bodily disease — or any disease whatever — except the insanity. Has never been confined — nor under medical treatment. No further particulars were obtained.

Sept. 18. Nothing to note — except physical health is excellent.
Dec. 10-1884 — No change. No medicine. Worked on farm during summer.
Feb. 28-1885 — Seems a trifle brighter. No marked change, however. Works on ward.
April 28-1885 — While on the ball ground to-day he had a severe epileptic fit. May 28-'85. No change. No fits. No medicine. Works outside.
June 23d 85 — Hard fit 2nd.
Aug. 30-'85 — About the same — Has had no medicine.
Dec. 7-1885 — Had a fit early in September. No change. No medicine. Works outside.
March 8-1886 — No change. No medicine. No work.
June 5-1886 — Has had about three fits since last fall, one last month. Works a little. No medicine.
Aug. 31-1886 — No special change. Does a little work. No medicine.
Jan. 5-1887 — Has had several fits since last note. It is said by attendants that a sudden light blow on the ear will cause a fit to come on.

Apr. 5-1887 — Several fits in February. Does a little work. No medicine.
July 21-1887 — Recently kicked by patient in the perineum, causing hematuria. No change in mental condition. No fits reported during May & June. Has been taking 1/2 Br. gr. xxx B.I.D. since last note.
Sept. 28-1887 — Medicine continued. No change in mental condition. No fits since last note. Works a little outside under the ward.
Jan. 6-1888 — No change. Carries medicine tray for Supervisor.
March 27-1888 — No fits till a few days ago, when he had several. They always seem to be the result of a sudden start or fright — e.g. a light, unexpected blow; in their incipiency they seem to be partly under his control — he can be "talked out" of having a fit then, but after they are fairly under way they seem like a regular epileptic fit. June 26-1888 — No special change. One fit this month. Does no work.
Sept. 1-1888 — Was in bed nearly all last month confined by typhoid fever. Was for several days on the verge of death, but rallied under the free use of whisky (½ every hours) and is now able to sit up a little. Temp. normal for over a week.
Sept. 29-1888 — Completely recovered from sickness. One fit since last note.
Jan. 14-1889 — One or two fits only since last note; but has fits of excitement and anger; is somewhat contrary and mischievous. Pot. Bromid. continued.
Apr. 27-1889 — Medicine discontinued March 25th. No change in mind or body.
July 23-1889. Had only one fit since medicine was stopped. Good physical health. No medicine, no work, — April-14-1890 — Behavior as usual. Works a little — Does not seem to fail in health.
July 16/90 Thin & spare. Occasionally complains of headache & seems about ready to cry about it. Has considerable liberty. Carries medicine tray.
Nov 27/90 About as usual. Occasionally complains of headache.
Feb 10/91 As usual. Tall, taut & clean. Works in laundry some.
July 13/91 As usual. Works in laundry. At annex now.
Aug 6-91. No change. Bodily health good. Works in Laundry daily.
Dec 1st 1891. Imbecility — Epileptic. Good health. Dirty & untidy. Pulse 86 irregular. Works at Laundry. Subject to headache and epileptic seizures.
Feb-17-92 No change.

May-25-'92 Eats well, has good color. Talks calmly and coherent. Plays games. Does not much strongly. Works well and willingly. Dresses & cares for self, is clean, tidy and good natured. Weighs 155 lbs. eats well, and is jolly. Talks freely, coherently and only when spoken to. Does not Sept-6-92. is strong. Works well and willingly. Dresses & cares for self - clean, tidy & good-natured. 10 fits for month.

Dec 17/92. Is a good worker; working in laundry. Complained of being disturbed in the annex at night. Transferred to-day to A. Jan 3/93. Wt 162 lbs. Pulse 92. Jan 6/93. Quiet at night. Works daily in the laundry; an odd, demented fellow. Feb 6/93. Wt 161 pounds. Pulse 78 - March 8/93. Wt 158 lbs. Pulse 68. March 8/93. Fell down stairs at the Laundry yesterday - Confined to-day. — felt low; nothing visible. March 13/93. Has complained more or less of pain since the 8th inst.

Vide Case book no I. for Previous History -

When discharged from here (1881) he was taken to Dodge Co. Poor House, & has been here till present time - He was brought back - having been re-committed to the asylum - by one of the County Commissioners.

In addition to account in Case book one he is returned here with the following history: -

Insanity manifested by extreme restlessness. No disposition to injure others, As to filthy habits, destruction of clothes &c, he is addicted to both. No history of any injury to the head. Restraint has been employed - in Mount Pleasant (Iowa), St Peter & this hospital - & has of course been under medical care continually - but there is no improvement - nor has there been any - in his condition.

Sep. 18. No change.

Dec 10 - 1884 - No change. No medicine. Feb. 27 - 1885. Just the same.

May 29 - 1885 - No special change. Is anaemic, and very much emaciated.

Sept 10 - 1885 - No change. Dec. 9 - 1885 - No change. No medicine.

March 8 - 1886 - No change. No work. No medicines. Habits dirty.

June 4 - 1886 - No change noticeable, except that habits are cleaner.

Sept. 6 - 1886 - No change since last note.

Jan. 5 - 1887 - Habits dirty. No change noticeable in mind or body.

Apr. 7 - 1887 - No change whatever.

July 23 - 1887. No change in mind, body or habits. Goes walking daily. No medicine.

Sept. 28 - 1887 - Mental and bodily condition have remained the same for past two years. Always looks as if he could live but a short time. Is dirty in habits and completely demented.

Jan. 6 - 1888 - No change whatever. March. 27-'88 - No special change.

June 26 - 1888 - No change noticeable in mind, body or habits.

Sept. 27 - 1888 - No change. Jan. 14 - 1889 - No change. Apr. 2 '89 No change

July 23 - 1889. Has been at annex but was too weak to climb the stairs and had to be returned to main building. Is quite weak and in poor flesh.

R Elbx. For St Louis. B.S.D. April - 16 - 1890 - Keeps the same, Always looks like a shadow - Oct - 15 - 1890. Health as usual. Never appears strong - Does no work - Shuffles about in a weak sort of way.

Feby 10/91 No change. March 8/91. Seems excited; spits much without cough; P. 120. T. 99.6. Kept in bed for a time.

July 13/91 Got up in a day or so. Seems as usual. Is not very healthy in appearance. Never speaks however.

Jany 1/92 Weight 101. Pulse 105. Temp. @ 100. Appetite poor; pale; tongue clean; coughs occasionally. Walks about ward but little & slowly. Occasionally is noisy, swearing. Has to be dressed & undressed. Is dirty. Talks to self.

Correspondent,	Jacob Von Arx. Mound Prairie - Houston Co. Texas		

This patient was brought here by the Sheriff of Houston Co and accompanied by her husband. She has the following lucid history: — "Her Mother, by information of the husband" was insane.
The supposed cause of the attack was "Mental debility" - & Its form is "Chronic". The symptoms of the disease were first manifested by her "being in a solemn mood."
In answer to the written question - "In what subjects & in what way is insanity now manifested" - the following is the written reply: - "monomaniacal." She has shown a disposition to injure others by "threats from sudden passion" - As to Masturbation &c: - "had been filthy habits about her person".
Before the attack manifested no peculiarities whatever.
In reply to the usual question as to disease, epilepsy &c. we have the following. "Nothing only spots on the face" - Restraint or rather confinement has been employed "in a room from three to four hours." Has been "under treatment for insanity, but without any effect." The following particulars are supposed to have a bearing on the case: - "the general cause is from results "arising, predisposing tendencies from Marriage. & that of bearing "children producing mental changes."
Her husband states that about the time she first became insane she had suppressio mensium which lasted about 6 months - Is now regular - Is violent just before menstrual period - calmer afterwards.

Slight Ptosis condition of eyelids observed. She states that her mother was insane for 2 months about the time she was born - the only time she ever was non compos - & that she recovered.
Aug - 25 - 26. & 27 Menstruating & quiet.
" 27. Ordered. Etc. Cassia. Sig. ad R. & 7 Rhei - Aug 28th discontinued - Ordered Focile.
Sep. 18. Some days ago Dr Bowers extracted several of her teeth - This relieved the neuralgia - She is now very well behaved & seems rational.
Oct - 12 - 1883 - Some time ago complained of pain near the heart - No organic disease. She now says she is better - not troubled with the pain.
Oct - 22 - Now works in employees' dining room.
Nov. 7. Is now in kitchen - not much use in dining room. Again complaining of pain which she says is round her heart - Says she would like to go home to see the children - but that is all. Very much given to walking about the hall - wont sit still - Seems very forgetful.
Jan - 1. 1884. Badly depressed & homesick - Cries a good deal - Says her husband is dead, that she is not in Rochester; thereby manifesting delusions for the first time since she has been here - She wrings her hands & looks the picture of misery. Bromides.
Mch. 29. 1884 - Allowed to go home with husband, on trial.

Discharged.

Predisposing cause,	Not hereditary – (he says)	Result,	Recovered.
Correspondent,			

This patient was brought here with a very imperfect history – All that is known of him is as follows: – Before present attack manifested peculiarities of temper & disposition – & was considered slightly "off." At the time of the cyclone he was badly hurt – In addition to being bruised in different parts of the body – his head was both bruised & cut – Face bruised, nose cut, one slight scalp wound – & one severe one – which is at present writing discharging sanious pus – & has gaped open after having been sewed up. He is disposed to be filthy & destructive – All the medical treatment he has had – (that is our record) is what he had for injuries caused by the Cyclone – He was very noisy & troublesome in the temporary hospitals in Rochester. Whether the injuries caused the insanity or whether it was pre-existent & was increased by them, we do not know –

Ordered Quinine & Iron tonic – but obstinately refuses to take it. He took a sleeping dose one night – as he had had no sleep since admission.

Aug. 30. Seems better – & much better as regards injuries – The scalp wound is not so offensive.

Sep. 18. Wounds have healed – Patient improved mentally & physically – He seems more eccentric than insane. He says his regular trade was that of a "stencil cutter". Raising Chickens was a recent departure.

Sep. 22nd Today was driven down town by Superintendent & set free on trial. I may add that the patient was never filthy or destructive while here –

Discharged.
Dec. 5th 1883.

Correspondent,			

This patient was brought here with a very imperfect history – All that is known of him is as follows: – Before present attack manifested peculiarities of temper & disposition – & was considered slightly "off." At the time of the cyclone he was badly hurt – In addition to being bruised in different parts of the body – his head was both bruised & cut – face bruised, nose cut, one slight scalp wound – & one severe one – which is at present writing discharging sanious pus – & has gaped open after having been sewn up. He is disposed to be filthy & destructive – All the medical treatment he has had – (that is our record) is what he had for injuries caused by the Cyclone – He was very noisy & troublesome in the temporary hospitals in Rochester. Whether the injuries caused the insanity or whether it was pre existent & was increased by them, we do not know –

Ordered Quinine & Iron tonic – but obstinately refuses to take it. He took a sleeping dose one night – as he had had no sleep since admission.

Aug. 30. Seems better. Is much better as regards injuries – The scalp wound is not so offensive.

Sep. 18. Wounds have healed – Patient improved mentally & physically – He seems more eccentric than insane. He says his regular trade was that of a "stencil cutter". Raising Chickens was a recent departure.

Sep. 22nd Today was driven down town by Superintendent & self – on trial. I may add that the patient was never filthy or destructive while here.

Discharged.

Correspondent,	Henry Burke. Sleepy Eye. Minnesota.		

This patient was brought here by deputy Sheriff Eric P. Barton of Faribault & with the following history:—

Has been addicted to Alcoholic intemperance but is not now. "He says" that that insanity is not hereditary in his family & that his mind became affected first about 6 weeks ago; further that he had sunstroke about 5 years since. The cause of the attack is "not known" — no "apparent bodily disorder." Form of attack is "Chronic & depressed." "Not known" whether he ever tried to injure others "but appeared inoffensive," — nor is it known whether his attack is of a suicidal nature. No disposition to filthy habits. In regard to peculiarities before the attack — the reply is: "None, so far as we can learn." Except sun-stroke patient "says" he has never had any bodily disease — Nothing known of restraint or confinement — The deputy Sheriff states that he was in jail for safe keeping in Faribault — As to medical treatment he "holds a certificate from Michigan and Wisconsin Hospital Co. Bay City Mich & Stevens Point & Eau Claire Wis" —

No further particulars. Is very much depressed can scarcely speak.

Aug 29th Physician. Forest Cushman of 3183 S. B. St.

Dec. 18. Is improved — both mentally and physically.

Oct 12. 1883. Is improved physically — but his mind appears to be in statu quo since last note.

Dec. 1. 1883. Works outside when weather is warm — P. Jones.

Feb. 24. 1884. Visited by Brother — a conductor on the Winona & St Peter R. R. — Patient wrote to his relatives recently — They had not heard of him for 2 years. Brother says his Mother's sister became insane for no known cause — & is now in St Peters also says patient was formerly very bright & has had collegiate education.

Feb. 25. 1884 — Went home with brother on trial.

Discharged.

Correspondent,	Mr J. M. Drake (Husband) Blue Earth City - Faribault Co Minn.		

This patient was brought here with the following very complete history:—
She has ~~been~~ troubled (& is now) - for the last 30 years with Hæmorrhoids: These, and epileptic seizures, which began about 6 years ago, & which attack her "every 4 to 6 months", are given as the "supposed partial cause" of her insanity. She has been a woman of "excellent morals - Never used tobacco or intoxicating liquors". Her attack is described as "chronic" & she is "demented". Before the attack came on she never manifested any peculiarities - but was "an industrious, hardworking & very kind & benevolent woman". She has never been restrained but she has had to be watched constantly & must be assisted constantly to take off & put on her clothes - She "does not know where she is", "has no idea of time", "sees many things that do not exist" - "talks incoherently about many things" - "childish in her mental operations". "is deluded by various hallucinations." Has a disposition to be filthy - destructive or to injure others. She has been under medical care, having taken "prescriptions from eminent physicians" - which "have done no good". Has been treated by "local physicians to some extent who said they could do nothing for her. She has "no realizing sense of anything - has no continuity of thought"
Is in good physical health - Vertex of head feels very hot - but she complains of no abnormal feeling there - It is probable that her epileptic seizures have been much more frequent than as reported in her history - She must have had more than 3 fits a year to have shattered her mind as much as it is.
Ordered Potassii Bromidum - gra XXX - B.I.D.

Sep - 29 - 1883 - Today it was noticed that she was paralysed - left side. She was put to bed -

Oct - 8 - 1883. Since last note gradually got worse - At first she had slight power of movement of left side - & could also speak - At this times she ~~had~~ was unable - when 2 pins were pricked into the calf of the left leg - about 2 inches apart - ~~she could~~ to tell the number - She soon fell into a comatose condition - pupils contracted but equal - power of motion of the trunk & limbs gone - considerable loss of sensation in the conjunctivæ - When her ankles were shaken she seemed to feel some pain - groaning &c. The legs below the knees felt cold to the touch - Gradually her respirations became quicker - & the mouth & throat filled with tenacious mucous - Croton oil failed to move the bowels - so did an injection of Castor oil & Turpentine - a second injection however succeeded. The Bromide was discontinued - (She has never had a signs of an epileptic seizure since her admission) - & Iodide of Potash ordered - 5 grs every 3 hours - She took very little nourishment - the attendants had difficulty in getting her to swallow -
For the last few days her temperature was taken in the axilla - which shewed fever - not over 102·5° F. till today - Her cheeks were slightly flushed - & the respiration very rapid - At 12·30 pm today her temperature in the axilla was 104·9/10 - The pulse weak, rapid & remittent -
At about 2 pm she died.
Her husband, in a letter, dated 6th inst - says:- She "has had several terms "when we thought she could not live a day - but ×××× she would rally in a "day or two & be quite smart (physically) for several months"
Her husband was informed of her death & one of her sons came here - After much delay & palaver, they decided to let the state inter the remains - wishing them to be placed so that they could call for them, at some future period, to remove them for East - for re-interment in the family burying ground.
The Superintendent decided to hold no autopsy, & the remains were buried in the hospital cemetery Oct - 11 - 1883.
When here, her son stated, that when she had an epileptic seizure, her left side would be paralysed for a day or two - but she would recover full use of it again.

Nov. 20. Another of Mrs Drake's sons came today, exhumed the body & took it with him for re-inter-ment elsewhere.

Died

Correspondent,	D. W. Bacon - (Brother) Mabel. Fillmore Co. Minn.		

This patient was brought here by an officer + accompanied by his brother, with the following history: —
First had an epileptic attack 12 years ago - (He says he had slight fits before this, but his friends did not know anything of them) - His first bad fit left his memory impaired - + it has been getting worse since - He has had fits off and on ever since 1871. His attacks last 2 or 3 weeks at times - & During he attacks he is very violent + has attempted injury to others from sudden passion. Between whiles he behaves well - but for the last 3 or 4 years has done no work of any kind. His attack is described as "Chronic + Paroxysmal" - His insanity is not manifested on any special subject. Before his first attack he manifested no peculiarities. Patient has been employed - His hands having been tied for several hours at a time. Has never been under regular treatment - but has taken quack medicines. His present attack has lasted for a day or so -
When admitted was put into C.W. - When attendant returned he was found to have a bad black eye - + had evidently attacked some other patient - He attempted violence to the attendants + is now restrained — (muff.)
Sept. 19 - Out of restraint for some time. Is now quiet + well behaved.
Treatment - Potass. Bromide gra XXX B.I.D.
Oct. 4 - Does not now require restraint - seems quite bright + rational - Had a fit few days ago.
Oct - 12 - Fits occasionally -
Dec. 18-1884 - Have been on bromide since his admission here. Habits good. Fits occur about twice a month. During one fell on hot pipe and burned his hands. Feb. 27-1885 - Fits becoming more frequent but less violent more like le petit mal, and he is somewhat crazier after the fits. R/ Bromide Still. Works on ward.
June 1-1885 - No special change. Works on ward, plays base and foot ball. KBr continued.
Aug. 25-1885 - Has been about the same since last note - Since July 24 had had bottle containing Nitrite of Amyl to use when fit is coming. Has used a good many times and he thinks with success - Works well and is peaceable. Sept. 18-1885 - Visited by his mother.
Dec. 10-1885 - No special change. Works on ward. Medicine continued.
March 9-1886 - For two weeks has been stupified, doing no work, mind much more confused than before. June 4-'86 - Three fits last month. Rather confused & present. No work. KBr continued. Sept. 6'86 - Fits both diurnal and nocturnal, mostly the latter. 8 fits during daytime last month.
Jan. 4-1887 - About the first of November KBr was discontinued at his request. He soon began to suffer from fits his mind was affected and he became ugly, contrary and violent. Nov. 25th KBr. was renewed, and since then he has gradually been improving, tho' he is not yet as bright as at last note. Does no work. Apr. 4-1887 - No fits reported last month, but probably has frequent attacks of petit mal "sensations of a fits as he calls it". Does no work. KBr continued.
Apr. 18-1887 - KBr increased to gr. XC daily.
July 25-1887 - Medicine was recently discontinued for a few days at patients request; fits came on at once, and medicine was resumed under disguised form. Fits became much rarer under increase of KBr, but his temper seems to be growing more irritable.
Sept. 28-1887 - KBr gr. XC daily continued. Fits very infrequent.
Jan. 6-1888 - No change noticeable, except that he seems less talkative and writes rather fewer letters. Mch. 27-'88 - Two fits reported last month. Does no work except to take care of his room.
June 26-1888 - Seldom speaks unless addressed; is inclined to sullenness of manner, easily irritated, sensitive. No fits reported last month. KBr continued.
Sept. 27-1888 - For one or two days since last note patient's mind became more confused than at any time for nearly four years past - singing & quite noisy. Improved at once on free cathartic. Bodily health good. Fits still infrequent. KBr continued.
Jan. 14-1889 - No special change. Does no work. No fits reported last month.
Apr. 27-1889 - No change. No fits last month.
July 23-1889. Last month had fit on B.R. and came near being run over by cars. Fought violently when attempt was made to remove him but knew nothing of it next day. Is somewhat changed in appearance much of time recently. Bodily health excellent.
April-14-1890. Patient seems better. Has done a great deal of writing lately.
July 16/90 Health good. Has had but 2 or 3 recognised fits in past 6 months. After effects have been slight. Patient reports feeling but slightly worse for them. Walks on ward. Talks well. — Continued on p 181.

Duration,	5 months (?)
No. of attack,	Unknown.
No. of admission,	1st here.
Age at first attack,	Unknown.
Time of leaving,	
Time in Hospital,	
Result,	

This patient was admitted to the St Peter Asylum April 6th 1883 & was transferred here Sep. 1st 1883. The account given of him as to his conduct at the former hospital is as follows:— "Patient "comes with incomplete history – has no friends – Obstinate – "Stupid & Speechless. Had a convulsion about 2 mos ago – only one "we have noticed – For a time ate poorly & was generally run down – "Habits. Filthy at times and Shiftless – cannot be induced to talk "or care for himself."

Oct-12 – No change whatever in his condition.

Dec. 10-1884 – About a month ago pounded Alp. Mac- shall badly and threatened the supervisor. No medecine. Within last ten months has been somewhat less melancholy – emerged suddenly from his stupor and became very talkative and excitable for a time. Usually quiet and thinks he is immensely wealthy.

Feb. 27-1885 – Occasionally gets ugly, but no special change. No medicine.

May 29-1885 – Same note still true.

Sept 3-1885 – Works quite steadily on the farm and does not talk so much – No medicine.

Nov. 24-1885 – Very furiously violent once shortly after last note. Since then he has been quiet and well behaved, working daily outside. No medicine. No change, except that he has little to say.

March 5-86 – Worked steadily in the engine room all the firemen began to be afraid of him. No special change. No medicine. June 7-86 Well behaved since last note. Works outside daily

Sept. 6-1886 – No change noticeable. Works daily with the farmers.

Jan. 7-1886 – Does no work. Says rather less about his delusions. Has gained much flesh. Became very violent once last fall while working with the farmers, because he imagined a teamster was usurping his (patient's) authority. No medicine. Is as strong a man as there is in the hospital.

Apr. 7-1887 – No special change. Has not been violent since last note.

July 27-1887 – Mental and bodily condition unchanged. Does no work.

Oct. 28-1887 – Has worked some – excavating. Bodily health good. No change in mind or habits. Delusions of wealth continue.

Jan. 6-1888 – No change. Feb. 27-'88 – No special change. Works daily with the farmers.

June 26-1888 – Works daily with the farmers. Delusions of wealth continue. Degenerates himself with buckles bits of tin, &c. Is probably the strongest man on the place.

Sept. 27-1888 – No change. Works daily with the farmers.

Jan. 14-1889 – Last notes still hold good. April 22-'89 – No change. Works on ward.

July 23-1889 – Works daily outside. No change mentally or physically.

April-14-1890 – Health good. Always has lots of money & makes out extravagant offers. July 16/90 Health good. Works on lawn. Conduct as usual. Nov 27/90 No change. Works around grounds. Feb-20-91. No material change. Works as usual. Health good, eats & sleeps well. June 3-91 Has been working in Bakery for some time when he makes himself very useful. Good health, always pleasant & trustworthy. Aug 6-91. Now working in Bakery. Speaks sometimes of going home. No change in mental condition.

Dec – 1st 1891. Secondary Dementia. Bodily health good. Quiet & tidy in habits. Owes 76 in city, Supt. Works with special fireman. Talks to himself at times. Very quiet & good natured.

Feb – 17 – 92 No change whatever. [weighs 170 Good appetite and color and is gaining flesh. Bowels regular and tongue clean. Talks freely, coherent and to all. Walks out and about the grounds at will and moves promptly.] May – 28 – '92 Works well & willingly. Dresses & cares for self. Eats well. Sept-6-92. Weighs 170; eats well and regularly & sleeps well. Talks freely & is clean and tidy when asked to be. Works well & willingly. Dresses and cares for self. is clean and tidy. Nov 1 – Gr Wt 180 Works in the bakery & mind talks some. Mar 20 Wt 174 Health good.

May 31 93. He is a good patient, always willing to work at present he is working in bakery. He is in best of health.

July 31 " " No change. Sept 2 93. Is a very quiet patient. Works in bakery every day. Health good

Oct 6 93. No change. Dec 31/93. Patient's condition does not seem to change any from month to month. Works well & intelligently, every day, in the bakery. Seems quite contented. Health good.

Jany 31/94. No change to report. Still works daily in the bakery. Feb. March & to Apl. 30/94. He is a quiet, harmless patient. Keeps just about the same from month to month & from year to year. Works faithfully, each day, in the bakery. Carries a packet of papers & every night, will ask some one to keep a record of time that he works. Health is good. Habits are cleanly.

May 11th 94 is quiet & well behaved, works in Bakery, has delusions about wealth imagines that he also pay for his work & frequently asks that a record be kept of his time. Health good. June 30th 94 The same. July 27-94 No change.

Correspondent,	—		

This man was admitted to St. Peter- Oct 13th 1879- & was transferred to this place Sep. 1. 1883. Conduct since admission at St. Peters: "Pt was maniacal "when admitted- Had been quite well for several months until the first of "83, then became excited again- Is more somewhat improved-" Special delusions." Delusion of persecution- Hallucinations etc." "When excited is seldom violent- is exceedingly obscene- Masturbates" Habits- "Good Generally".

Sep. 18th. Complains of chronic constipation & functional heart disturbance. Treatment. Tr. Digitalis & Rheum. Twice daily. Sep. 21. This treatment has been discontinued- R. Iron & Quinine tonic- twice daily.

Oct. 12. 1883. Works in kitchen- No medicine.

March 1. 1884. Physical health good- In kitchen right along- No medicine- Said some time ago that his paroxysms are very rare & that he has a weeks warning before they come on: He also stated that he knew when- he had had, had weakened his mind somewhat: No medicine- No paroxysms since he has been here.

Mch 31. Asked for some medicine- for palpitation of heart: R/ Tr Digitalis ℥ss Aq. ad ℥ij Sig ℥ss T.I.D. Quite obscene.

Dec. 10-1884. Still works in kitchen; neat and well behaved. No medicine

Feb. 28-1885- Has taken a little digitalis for supposed heart trouble, but nothing but palpitation discernable. No change. Still in kitchen.

May 28-1885- No change. Enjoys and takes part in out door sports & gymnastics. No medicine.

Aug-28-1885- No Change- Always cheerful and rational

Dec. 7-1885- Troubled some by insomnia. No special change

March 8-1886- No special change. No medicine, except Digitalis for palpitation.

June 5-1886- About the middle of last month became more decidedly maniacal than at any time since admission- probably one of his paroxysms. Began by nervousness & restlessness, neglecting his work; then refused to take medicine which he had asked for. He then became uneasy, wandered over to town several times, was ugly and cranky and saucy. Is now improving and much better. Is kept on the ward. Has had Convallaria & Digitalis for palpitation before his paroxysm.

Aug. 23-1886- No special change. Silly in action, incoherent in speech; often morose or saucy. No work. No medicine. Masturbates frequently. Aug. 31-86 R/ Tonic Elixir B.D.S.

Jan. 5-1887- Very gradually improved during October and November and became quite rational about the 10th of December and has continued well since. Is now working in the kitchen. Medicine discontinued about the middle of last month.

Apr. 5-1887- Still about as at last note. No medicine. Works in kitchen.

July 20-1887- No change. Works daily in the kitchen. No medicine.

Sept. 28-1887- Last notes still hold good. Jan. 6'88- No change

Mch 27-1888- No change. Recently asked for medicine for heart disease, and was given a little Digitalis. Buys fruit, nuts, etc, & sells about the house. Is much interested in quack advertisements. June 26-1888- No special change.

Sept. 27-1888- No change. Still has parole of town & farm guards.

Jan. 14-1889- No change. April 27-89- No change.

July 23-1889- Still predisposing to go to the green house. No change.

Apr. 14-1890- Doing a good deal of business- Health fair- Works in kitchen-

July 16/90. Has on one or two occasions complained of dyspepsia. Health good. Works.

Nov 27/90 Recently complained of waking during night about 1 or 2 o'clock not being able to sleep again. Was given a few doses of hypnotics. Reports that he sleeps fairly well now. Health seems good. Works selling finish.

Feby 10/91 Has not complained of insomnia for some time. Health good. Has parole & peddles fruit etc around wards.

July 23/91 No change. Health good. Dec 11/91 Complains of dyspepsia.

Jany 1/92 Complains of pain over heart. Wants Digitalis.

Feby 2/92 Complained a good deal early last month about pain about heart. Was also somewhat troubled with insomnia. Bodily health seems good. Patient is free in conversation, talks calmly & coherently. Has parole & goes about institution peddling. Is apparently fearful at times of a relapse into his former spells. Apl 4/92 Wt 142 pounds. Apl 9/92. Claims he is sleeping poorly and was given hypnotic last night. May 5/92. Weight 149 lbs. Pulse 88. May 16/92. Complains a great deal of being troubled with insomnia & has been complaining for some time. A hypodermic was ordered him for this evening but Mr B refused

Correspondent,	Judge of. P.		

This patient was admitted to St Peter June 17th 1869 – transferred here Sept. 1883. Conduct at St Peter since admission:- "Had antipathies "towards wife – Walks up + down ward talking to self. Does little if any "work now. Worked out of doors for a long time. Lies about doing nothing" – Special delusions." Occasionally takes to his bed under pretext of being sick "Expresses but few delusions – Converses incoherently –"

Habits. "Generally good – Clean + neat."

Dec. 10-1884. Does nothing but lounge and eat. No change since admission. No medicine. Feb. 28-1885 – No change. No medicine.

Feb. 17-1885 – Had been running down since last note and to-day was too sick to leave his bed. Attendant stated for first time that for last few weeks he had been in the habit of vomiting daily and speaking of pain over his stomach, but that he made no complaint unless questioned. His looks were pale and cachectic. Found this a.m. him groaning and crying out in the greatest distress and pain, and the night watch reported him thus during the previous night. Pulse 120-130. Rx gr ½ Morph. at 10 a.m., but it failed to relieve his sufferings. Rx gr ½ Morphine at about 11 o'clock, which quieted him. Pulse very feeble. Rx gtt xv Tr. Digitalis with brandy and ordered milk diet with brandy. In afternoon abdomen found swollen and hard; little or no intestinal resonance, and dullness over most of abdomen. Could not learn of his having had movement of bowels, but attdt stated he had passed his urine. Rx injection ʒj Ol. Terebinth. + ʒj Ol. Ricini with 1 oz water. This failed to produce a movement, as it was repeated just before supper. During afternoon catheterized him, but obtained no urine to speak of. During the evening he got up several times and passed copious stools in his vessel. Found him there on the vessel at about 9.30 p.m., cold and too feeble to get back into bed. He was replaced in bed, and stimulants administered. At 10.15 the night watch found him again out of bed in the same position, dead. During the day he had vomited dark grumous matter.

Autopsy held next day – the 18th. Abdomen had become much bloated by gas in the peritoneal cavity and in the intestines. A pint or two of dark, bloody serum was found in the abdominal cavity. The intestines were nearly empty (except of gas), barring a few masses of mingled feces in the colon. At the pyloric end of the stomach, posterior side, a large scirrhous cancer was found, perforating the walls of the stomach. The pancreas and surrounding lymphatics were found infiltrated with cancerous matter, and the stomach was adherent to the posterior wall of the abdomen. The stomach contained a quantity of grumous matter (or blood.) The pancreas was very dense and hard. The liver small and soft

Died.

Patient admitted to St Peter Nov 3rd & 4th 1869 – & transferred to this hospital Sep. 1. 1893. Conduct at St. Peter, since admission. Walks "about, gesticulating wildly – Never eats meat – only dry bread & "uncooked vegetables." Says he is fighting witches." "He has been insane for years" Special Delusions – "of witches, abuse &c." Patient "cannot "hear. Wants to work out of doors constantly." Hears "but little clothing summer or winter." Habits. "Good."

Oct – 1. 1883. For some time has been allowed to work around the building – on parole.

Dec. 11 – 1884. Worked outside & in kitchen till November last & now on A. & E. Repairs clothes in ward now. No clothes at night except a blanket. When outside ate all his meat and other victuals raw. Says he owns this place. Wants more economy in the running of the hospital. His raw vegetables proved too much for him during the fall and he had a severe attack of indigestion. No medicine.

Feb. 28 – 1885 – No change. No work. No medicine.

May 28 – 1885 – No change. No medicine. Works daily in tailor shop.

July 24 – 1885 – No change – About July 25th made so much trouble in kitchen and storeroom that was not allowed out for several weeks.

Oct. 7 – 1885 – Works daily in tailor shop. No change.

March 8 – 1886 – No change. Works daily. No medicine.

June 5 – 1886 – No special change. No medicine. Works still in basement.

Sept. 2 – 1886 – Last notes still hold good.

Jan. 5 – 1887 – No change noticeable. Does no work.

Apr. 5 – 1887 No change. Works in the basement, takes care of sick &c. No medicine.

July 20 – 1887 No change. Works daily on the ward. Is kept out of the basement on account of his amorous propensities. No medicine.

Sept. 28 – 1887 – No change whatever. Is exceedingly industrious.

Sept. 27 – 1888 – Works daily, mending clothing. No change in mind or body.

June 26 – 1888 – No change. Sept. 27 – 1888 – No change.

Jan. 14 – 1889 – No change. April 27 – 89 – No change, except that he frequently refuses to work. July 23 – 1889. Very rational and occasionally of quarrelsome disposition. Recently made unprovoked attacks on an old patient whom he thought was the devil. Physical health good.

April – 14 – 1890 – Health good – Works in reading-room at Annex – Habits the same July 16/90 No change. Health good. Nov 27/90 No change.

Feb 25 – 91. No notable change. Health good. Works same as ever.

June 3 – 91. Works constantly in tailor shop. Good health. No change.

Aug 6 – 91. Last note holds good.

Dec. 1 – 1891. Dementia. Fair health. Dirty but tidy in dress. Color 68 hand and regular. Works in grinding room at times. No appearance of other patient. Every morning cleans himself by persistently his hand wash this tongue and rubbing his head and arms with the towel hard. Feb – 15 – 92. No special change either. Eats heartily. Works as usual in clothes room and is usually fairly contented but of late has had very much annoyed by the fact that as he says he works all the time and so many of the other patients are idle.

May – 28 – 92 Weighs 153½. eats well, is polite. Walks evenly & moderately to self attendance only when spoken to. Works and obeys words promptly. Works well & willingly. Dresses & cares for self, tidy & orderly.

July – 9 – 92. Appeared weak and short of breath. Was transferred to Ca and put in bed. Physical signs showed diminished expansion of left half of chest, weak respiratory murmurs and dullness on percussion. Diagnosis: Effusion of left pleural cavity.

July – 10 – 92. 7 a.m. Pulse 116; Respiration 27; Temperature 100.2. 36 ℥ of serum was aspirated. Respiration less labored. Coughs but little and does not expectorate much. Walks to closet. Appetite is fair and has had one evacuation of the bowels.

July – 11 – 92. 6 a.m. P. 108; R. 34; T. 99.4. Has been to the closet several times, and the stools are rather loose. The breathing is laborious. 5:45 P.m. P. 108; R. 32; T. 101.4.

July – 12 – 92. 6 a.m. P. 110; R. 34; T. 100.2. Washed himself in his room, and says he feels better. Eats with relish. Coughs frequently, but does not expectorate. Walks to closet frequently. 7 P.m. P. 28; R 36; T. 101.6. He was aspirated again.

July – 13 – 92. 6 a.m. P. 112; R 36; T. 100.2. Eats well, slowly and with relish. He is timid about his side and will not allow examination. 7 P.m. P. 116; R. 34; T. 100.2.

July – 14 – 92. 6 a.m. P. 120; R. 34; T. 99.8. His feet are edematous. He eats little, but relishes what he eats. 5:30 P.m. P. 114; R. 34 T. 101.8.

July – 15 – 92. 6 a.m. P. 110; R. 36; T. 100. Has better appetite and better cough. 6 P.m. P. 116; R. 36; T. 100.

July – 16 – 92. 6 a.m. P. 104; R. 38; T. 99.4. Says he feels better, has less oedema of feet and looks better. 7 P.m. P. 104; R. 38; T. 101.8

This man was admitted to St. Peter Sep. 26-1883 & transferred here Sep. 6th 1. 1883.

Conduct & Habits since admission at St. Peter. "Maniacal, violent, "destructive noisy & filthy. Incoherent in every way. Improved "for a time & then became worse. Sleepless at times. Talks to "self. Extravagant ideas. perfectly contented. Sleeps alone. Is "generally in restraint."

Special Delusions:- "Concerning religion. Imagines himself a "Supreme being. or one high in authority."

During the night of July 10th 1883. he killed the man who was sleeping in the same room with him by fracturing his skull with a cudgel. He gave as the reason for his act, that his victim had killed 15 people & he felt it his duty to put him out of the way. He was brought here. with restraints on.

Sep. 6th - Is quiet - No medicine - no restraints.

" 18th - Has informed the supervisor that he masturbates regularly.

Dec. 11-1884. Filthy, untidy and lazy. Masturbates. attempts & runs away. Is becoming more and more demented. Thinks some one wants to kill him and sees fire in his room. Tried to kill his attendant early last spring with a knife. Escaped a year ago last fall and was brought back by the supervisor after an exciting chase. No medicine. Jan 8-85. Wired.

Feb. 25-1885 - Ugly, masturbates. To-day attacked asst Ward with a knife and was bound some about the face. No marked change.

April 11-1885 - Smashed a transom and crawled out and tried to elope while the other patients were out walking. Brought back by D. Filicks.

June 1-1885 - Filthy, usually ugly and quarrelsome. No work. No medicine. Escaped the other day and was found in the attic.

Sept 11-1885 - Is more quiet - Otherwise no change. Dec. 10 85 - No change.

March 9-1886 - No noticeable change. Usually sullen and silent. Habits ugly.

June 4-1886 - Last notes still bed ridd.

Aug. 31-1886 - No special change. No work. No medicine.

Jan. 4-1886 - No special change. No work. No medicine.

Jan. 5-1887 - Still as at last note.

July 26-1887 Not reported dirty. Seems a little less sullen. Delusions continue. Has not been violent in a long time. Speech abrupt & incoherent.

Sept. 28-1887 - Remains peaceable. Always incoherent and deluded. Bodily health good.

Jan. 6-1888 - No change. March. 29-1888 - Still no change.

June 26-1888 - No noticeable change. Sept 27 88 - No change since last note.

Jan. 14-1889 - No change whatever. Apr 2 - 89 - No special change.

July 23-1889. Is often dirty. Does no work; stands with eyes cast down & closed. Is stupid and very demented. Physical health good.

April -14-1890 - Delusions as in last note. Does nothing except eat. Has his ugly Low Cut. expression on his face. Has not been violent of late.

July 10/91. No change. Recently a little more threatening. July 13/92 No change.

Jany 21/92 Weight to day 153 lbs. Pulse 72 Temp. (F) 98.2. Appetite is good. Health good. Talks none; goes out walking; dresses self; is destructive.

Mar 3/92. Weight 153 pounds. Pulse 84.

Apl 4/92. Weight 151 pounds.

May 3/92. Weight 152 pounds. Pulse 74

June 3/92. Weight 158½ pds. Pulse 72.

July 5/92. Weight 157 pounds. Pulse 72. Always quiet at night.

July 25/92. Transferred today to St Peter.

Transfered to St. P.

Aug – 14 – 92. 6 a.m. P. 98; R. 26; T. 99.2. Is getting strong again. 6 P.m. P. 92; R. 28; T. 99.6.

Aug – 15 – 92. 6 a.m. P. 96; R. 28; T. 99.4. Was transferred to the annex where he ordered things about in his tailor-shop and resumed his work there.

Sept – 6 – 92. Weighs 141, has irregular appetite and is pale. He talks only when spoken to, and can not then be understood due to his foreign language, and he can not speak the american language. He never goes out, but walks about the ward a little, although he spends most of the time at work in the tailor-shop; where he works well, and on Sunday as well as week days. He dresses and cares for self, and is clean, tidy and good-natured.

(See Page 156).

Pa ... d to St. Peter Dec. 13th 1882 – He had been admitted there ... but eloped and "wandered away as far as St Cloud." He was ... transferred to Rochester Sep. 1. 1883.

Conduct & Habits at St Peter – Since admission. "Quiet, silent, indifferent; slipshod, but not filthy. When first admitted was very devotional – reading and praying constantly – Lately has grown more demented."

Special Delusions. "Religious delusions concerning self. Thought his people were all here (St Peter) & begged to be allowed to see them."

Dec. 10 – 1884. Likes music and is fond of dancing in the ward. Talks to himself and sometimes becomes very noisy. Untidy. Physical health always good. Has been in this condition ever since admission. No medicine.

Feb. 28 – 1885 – No change whatever. Does no work.
May 28 – 1885 – No change. No medicine. Is quite a jig dancer.
Aug. 28 – 1886 – No more talkative and noisy, but not more sane. No medicine. Dec. 7 – 1885 – No special change.
March 8 – 1886 – No change. No work. No medicine
June 5 – 1886 – Last notes still hold good. Still dances.
Sept. 2 – 1886 – No change noticeable.
Jan. 5 – 1887 – No change whatever. Does no work. No medicine
Apr. 5 – 1887 – Last notes still hold good.
July 21 – 1887 – Continues the same; talks to self, walks up and down the ... e, brandishing his arms; does no work and takes no interest in anything except jig-dancing. Bodily health always good. No medicine.

Sept. 28 – 1887 – Bodily health good. Mentally is as he was at last note.

Jan. 6 – 1888 – No change whatever. March 27 – 1888 – Still no change

June 26 – 1888 – Becoming more profane and obscene in his sayings, and more loud, also. Bodily health good. Does no work. No medicine.

Sept. 27 – 1888 – Quieter than at last note; otherwise no change in mind or habits

Jan. 14 – 1889 – No special change during the last quarter. Bodily health good.

Apr. 27 – 1889 – No special change. July 23 – 1889. Will does any work. Often mutters to self and pronounces maledictions against some unknown. Is often profane when alone. Bodily health good. Often is insolent and disinclined to follow directions.

April – 14 – 1890 – Behavior the same – Health fair – Quiet –

July 16/90 Health fair. Talks some; no work, no medicine.

Nov 27/90 – No change. Feb 25 – 91. Previous notes still hold good. No work, no medicine. June 2 – 91. No change. Had a row with some patient sometime ago & had his head cut. Wound sewed up by Dr. with good results. Aug 6 – 91 Lies around ward, doing no work and never speaking unless he is addressed.

December 1 – 1891. Dementia Secundum. Good health. Fairly clean and tidy in habits. No work whatever. Sits or stands generally in one place all of the time, never saying anything but sometimes sings softly to himself. Of a violent temper & irritable disposition.

Feb – 10 – 92. No change whatever. Quiet as usual.

May – 25 – 92 { Weight 135 lbs. Good appetite and color. Talks freely to self, noisily, profane and incoherent at times. Walks and sits about ward, never silently. Is noisy by his dress clothing. Dresses self, but is slovenly and ugly.

Sept 6 – 92. { Weight 137, has good appetite and good color. Talks noisily, incoherently and constantly to self; walks and much but is prompt. Dresses self, is slovenly, but good-natured. Has delusions. Dancing, talking & singing.

Nov. 1 – 92 – Weight 142 – Health good – He is occasionally restless at night; during the day he sits around on a bench with his hands in his pants; he is quiet, occasionally the attendant plays the violin & he dances a clog –, talks but little when spoken to; occasionally he gets restless & walks around the hall. He does no work & is slouchy in appearance. Feb. 6 – 93 – Weight 142 – health good, is fairly quiet & causes no trouble. takes no medicine. May 6 – 93 He got his arm broken near the shoulder joint, – he was moved to C & the arm put up in a plaster cast. June 1st 93 – Has been doing very well.

May 31. 93. He is very noisy at times dancing & singing most of the time. He does no work. Health apparently good.

July 31. 93 Trans'd to Fergus Falls with Condition unchanged –

Result,	
	{Johannes Magnusson (father) Apelegarden – Glassbruk Gnesta Socken, Sweden

Patient admitted to St Peter Aug 17. 1874 – Transferred here Sep. 1. 1883.

"Before admission" at St Peter. "Had delusions & a passion for self-destruction.

Habits:– "Simple Minded – Generally quiet & worked out daily – "Had an occasional excitement – Good – Industrious – Gives "no trouble – At times is suspicious of others. Says little. Mind addressed richly."

Special Delusions – "In regard to self & others. Has money in bank &c

Dec. 11–1884. As soon as admitted went to work in laundry for a little while. During summer worked on the farm. Last winter worked in engine room & works there now. Physical health good. Mental condition and habits as above. No medicine.

Feb. 28–1885 – Same as above. May 28, '85. Mentally and physically the same. Now working outside; worked in engine room till recently.

Aug. 30th 1885 – Works steadily. No medicine. Dec. 7'85 – As at last note.

March 8–1886 – No change. No medicine. Still works in boiler-room.

June 5–1886 – No change. Works daily with the farmers. No medicine.

Sept. 2–1886 – No change. Works daily outside. No medicine.

Jan. 5–1887 – Works with the firemen. No change in bodily or mental condition.

Apr. 5–1887 – Last notes still hold good.

July 21–1887 – Still works in the engine room. No noticeable change.

Sept. 28–1887 – No change in habits or condition of mind. Is at present idle on account of a bad erysipelas of foot.

Jan. 5–1888 – Works in coal room regularly. Bodily health good. No medicine.

Feb. 27–1888 – Last note still hold good.

June 26–1888 – No special change. Works daily in the coal room.

Sept. 27–1888 – No change whatever. Jan. 14–89 – No change noticeable.

Apr. 27–1889 – No change. Sept. 30–1889. Working in engine room. Is materially unaltered. April-14-1890. Has been well except for a few days in Nov. when he had a scarlatinous rash. He went to bed. Had a boil also. Has done no work since.

July 16/90 Is on B 3; quiet, demented. No work, no medicine.

Nov 27/90. At annex. No change.

Dec. 1–1891. Secondary Dementia. Good health. Dirty and untidy in habits. Pulse–68 firm and regular. Works daily in engine room. A good patient in general. Dr Segerway was awhile looked in writing of Mates for trips ending Nov 90. Said this mate holds good for all the times which Sole stayed since then. Has never been sick a day and has shown no change in mental condition.

Feb–10–92. No change. Works in engine room and coal house as usual and is in as good health as he generally is. Still dirty and untidy. Says but little. Appetite medium, eats plain. Talks only when spoken to. Does work and is strong. Sounds well, has melancholy. Dresses & comes for self, but is slovenly.

May–25–92. Weighs 165, eats well and regularly, and works well. Talks industriously and but very little. Walks well and is prompt. Works well. Dresses & comes for self, is generally natural, but is slovenly.

Sept–6–92 well and is prompt. Works well. Dresses & comes for self, is generally natural, but is slovenly.

Nov. 10–92 – Wt 175 Health good – works daily – causes no trouble

Mch–6–93 Wt 162 – Health fair no change Nov 1 Wt 168 Works up and down the ward is restless talks none is clean and does no work causes no trouble (Last note a mistake or notes before wrong) Mar 6 Wt 133 Does no work.

May 31 93. He is a very quiet, harmless patient rather untidy in his dress & does no work. Health apparently good

July 2. No change Sept 2 93 A quiet harmless patient rather dirty in habits & untidy in dress. He does no work. Health good Nov 2 93 No change Nov 22 93 A quiet & inoffensive patient sits in one place & talks to himself. He does no work. Health apparently good Dec 26 93 No change Jany 24 94 Same. – Feby–March & April 30/94. There is no change whatever to note in either his conduct, behavior, mental or physical condition for several months; never speaks; health is apparently good – (Patient was successfully vaccinated on April 15th) – May 22nd 94 He is a quiet, harmless patient, sits or stands in one place most of the time, never speaks, habits rather dirty & dress untidy, general health good, does no work. June 26th 94 Same as former note. July 27 No change. Aug. to Oct 30 94 Is quiet & inoffensive, does a little work on ward, seldom speaks, is clean & neat, health good. Nov. 94 Sits in one place, seldom speaks, does no work, health good. – April 30/95. Above not fully deserves patient up to date. May, June & to July 31/95. No special change during the quarter. Patient has been quiet & stupid; is stubborn; does no work; seldom speaks. Habits clean; health good. Aug Sept & Oct 31/95. No change noted, in any way; to work; health seems good. Nov 1 95. Wt 156 lbs. Pulse 100. Nov Dec & to Jany 31/96. No change during the period. Health good.

May '97. Summary Notes by Dr Phelps. Feb. 1 '96 to May '97. Patient is almost exactly the same as in preceding years. Is somewhat stubborn. Keeps himself fairly neat & tidy: at times talks to himself.

Correspondent,	Judge of Probate.		

This man was admitted to St. Peter – July 11. 1882 & was (Sept. 1. 1883) transferred to this hospital: The following is the account of his Conduct since admission, Special Delusions, Habits &c – which comes to us from the 1st Hospital: – "Was in constant fear of being hanged. Walked "up and down the ward constantly – & – when his feet became so swollen "and inflamed" that he could not walk" – crawled on his knees. Never "violent. Is now quiet, but still has delusions of personal injury. "Stands looking out of windows, waiting for his summons to execution. "Complains of abuse – Says he is forced to eat and keep clean. Wants "to be let alone – Habits Good – General Health – fair."

Oct – 22nd – Very desirous to go away – Says he is shamefully abused – Managed to pick the lock of his room (no A2. E) a few nights ago & is therefore removed to C.4.E. – For the last few days has refused food – A wooden wedge was used this a.m. – & he was forcibly fed – Now he says that if he had not eaten he would have been given his liberty.

Dec – 1. Still has to be obliged to eat by the attendants – Depressed – No medicine

March – 1. 1884. Much improved mentally & physically – Is quite fat. Eats better – though he perhaps would not eat so well if he were not afraid of being forced – No medicine beyond a cathartic – very rarely – and treatment for an attack of diarrhoea last month. Works inside building.

Ap. 22. Allowed to go away, on trial, alone. Much better. Since admission here has manifested no delusion about hanging. Says he did not eat because when he ate much at St. Peter he was told that if he did not eat so much he would get well & go home.

Discharged
June 11. 1884

– Albert Felber –

(Continued from Page 153)

Dec 22/92. For some time past has been up & around as usual, working daily in the Tailor-Shop. Seems fond & actively well. Last night, however, was taken quite sick – seemed to have a chill. – T(e) 106.8. Was transferred to the "Sick Ward" & put to bed. Pm. T(e) 103.2. R 24. Pulse 118. Was given medicine. Dec 23/92. Restless for 2 hours, sleeping 6 hours last night. Given medicine during the night. Am. Pulse 122 R 30. T(e) 103.2. appetite good. Bowels moved. Pm. P. 116 R 28 T(e) 104. Dec 24/92. Was restless for 3 hours, sleeping 5 hours, last night. Am. Pulse 120 R 32 T(e) 104. – Medicine given to reduce temperature. Pm. Pulse 120 R 32 T(e) 103.4. Dec 25/92. Restless for one hour. Sleeping 7 hours, last night. 2 am. Pulse 112. Am. Pulse 126 R 32 T(e) 102.8. Bowels moved this morning. Was given Tinc. digitalis ℥ii; vinum potum ℥iv – m. sig. ℥iv every 4 hours. – Pm. Pulse 122 R 32 T(e) 104. Dec 26/92. Seemed quiet, Sleeping 5 hours last night. Pulse, during the night, ranged from 118 to 96. Refused his medicine. Am. Pulse 120 R 32 T(e) 102.6 Coughs a little; expectoration white & nearly mucous. Pm. Pulse 122 R 32 T(e) 104. Bowels have moved. Wt today, in underclothing, 135 pds. Dec 27/92. Last night, was restless for 4 hours, sleeping 4 hours. Coughed considerably during the night. Pulse was from 112 to 104. Am. Pulse 110 R 32 T(e) 100.6. Bowels moved. Pm. Pulse 126 R 32 T(e) 104. Bowels moved again. Dec 28/92. Restless for 7 hours, sleeping but 2 hours, last night. Coughed a good deal. Pulse 124 to 116. Am. Pulse 124 R 32 T(e) 103. Has had a number of coughing spells – Also has diarrhoea. Pm. Pulse 130 R 36 T(e) 103.8. Dec 29/92. Slept but 1 hour, being restless nearly all last night. Greatly disturbed by his cough. Pulse ranged from 110 to 106. Am. Pulse 128 R 38 T(e) 101.6 – Was given Balsam Peru ℥ii, Syrup tolu ℥iss. opt. frumenti ad ℥iv. m. sig. ℥ii every 2 hours – Pm. P. 135 R 42. T 102. Dec 30/92. Last night, slept only 1 hour – Was restless & coughing the greater part of the night. Had also some severe breathing spells. Pulse ranged from 124 to 132 during the night. – Bowels moved. Am. Pulse 129 R 48 T(e) 100. Pm. Pulse 122 R 56 T(e) 102.4. Dec 31/92. Was restless all last night, sleeping now. Pulse 126 to 130, taken, as usual, at regular intervals. Stomach would not retain medicine; had some severe spells of coughing & breathing during the night. Bowels moved. Am. Pulse 134 R 50 T(e) 102. Diarrhoea continues. Ate no breakfast this morning. Pm. Pulse 124 R 56 T(e) 102.4. Jany 1/93. Restless for 9 hours, sleeping but 1 hour last night. Pulse 116 to 136. Left his bed. Sad. Sound had coughing spells. Was very weak & exhausted. Died at 4 PM today.

Although patient had not fully regained his weight prior his last sickness, (in August), yet he was quite strong and said he felt well – up to the night on which he was taken sick, and even on the 22d December he did not want to go to bed. He suffered no pain and was sick but 10 days, during which time, however, he lost in weight and strength very rapidly, and, along towards the last, had severe breathing spells.

Remains were placed in vault for burial here in the spring.

Dec. 11-1889. Worked in the ice last winter and on the farm last summer & fall and on the dam & west wing sewers. Always melancholy and says nothing. Has to be shown how to do anything to which he is put to work. No change mentally. No medicine.
Feb. 28-1884 – Mental condition unchanged. Minds the socks for the whole ward and has done so for a long time. During the latter half of January one day he suddenly said he was sick; temp. 101½, p. 136; ord. to bed. R. Spirit. et Dig. and Emplast. Sinapis on chest, for pain there. Remained in bed about a week, suffering apparently from muscular rheumatism.
May 28-1885 – No change. No medicine. Still minds socks on ward.
Aug 30 – No change – works on ward and sometimes outside.
Dec. 7-1885 – Sick in bed with pain in chest for last few days. Has been just as at last note but not this (March 8-1886 – No special change. No medicine.
June 5-1886 – Works some in kitchen and with the farmers, and minds stockings on the ward. No change mentally nor physically. No medicine.
Sept. 2-1886 – No change. No medicine. Works daily as above described.
Jan. 5-1887 – No change. Does a little mending. No medicine.
Apr. 5-1887 – Last notes still hold good.
July 21-1887 – Works daily in the hall with the farmers. No change in condition.

Brought in disease

DETAILED HISTORY OF SICKNESS OF MR. Johnson Nelson #1
DIAGNOSIS . Feb 1893

Correspondent,	Judge of Probate. John Johnson. Lake Park, Becker Co. Minn.		

Nelson Johnson was admitted to St Peters June 1. 1870 – Transferred to 2nd Hospital Sept 1. 1883 – Conduct at St Peters since admission: – "Incoherent, emotional & forgetful. Improved at first, then became worse. Sitting about listlessly – Works daily in kitchen when well. Cries easily & is a very sorrowful looking subject"
Special Delusions: "None except Fear." Habits – Good"

Dec. 11-1884. Worked in the ice last winter and on the farm last summer & fall and on the dam & west wing sewer. Always melancholy and says nothing. Has to be shown how to do anything to which he is put to work. No change mentally. No medicine
Feb. 28-1884 Mental condition unchanged. Mends the socks for the whole ward and has done so for a long time. During the latter half of January one day he suddenly said he was sick; temp. p. 101½, p. 136; ord. to bed. R. Quin. et Dig. and Emplast. Sinapis on chest, for pain there. Remained in bed about a week, suffering apparently from muscular rheumatism.
May 28-1885 – No change. No medicine. Still mends socks on ward.
Aug 20 – No change – works on ward and sometimes outside.
Dec. 7-1885 – Sick in bed with pain in chest for last few days. Has been just as at last note but for this.
March 8-1886 – No special change. No medicine
June 5-1886 – Works some in kitchen and with the farmers and mends stockings on the ward. No change mentally nor physically. No medicine.
Sept. 2-1886 – No change. No medicine. Works daily as above denoted.
Jan. 5-1887 – No change. Does a little mending. No medicine.
Apr. 5-1887 – Last notes still hold good.
July 21-1887 – Works daily in the hall & with the farmers. No change in condition of mind or of body. No medicine. Sept. 28-87 – No change.
Jan. 6-1888 – No change whatever. Sept. 27-1888 – No change. Works daily outside and
June 26-1888 – Works daily on the ward. No medicine. No change.
Sept. 27-1888 – Works daily outside. Bodily health good. Mental condition unchanged.
Jan. 14-1889 – No change. Apr. 27-89 No special change, except he does no work
July 23-1889 – Works daily outside. Bodily health good. No change.
April 17-1890 – In fair health, altho is rather thin & pale. Sits stupidly & quiet on bench; smiles dully when addressed & seems to attempt some reply. but usually not intelligibly. Clean & rather neat. No work; no medicine
July 16/90 No change. Walks daily outside. Nov 27/90 No change.
Feb. 25-91. No change. Works as well as ever. Feb 4 shows his right foot quite stiff. No work at present. June 2-91. Is working out doors daily now. Good health. No change.
Aug 6-91. Works daily in garden. No change.
December 1-1891. Dormitory. Good health. Dirty and untidy. Calm & unimmunicative & soft. Very quiet and inoffensive. Does no work. Answers questions but rarely speaks unless spoken to.
Feb 15-92. No change since last note. Quiet as usual. Will be sent out & work in garden when weather becomes suitable.
May 25-92 – He works well – No Change. Sept. 6-92 Weight 117. No Change.
Jan 14/93. Legs are edematous & today were found very much swollen. Jan 17/93. Swelling is increasing and patient was today put to bed. Remained there quietly, was put up on infusion of digitalis & whisky, vomited at times. Bowels were regular. Appeared to regain some of his lost strength & there was an improvement in his condition. Feb 6/93. Has recently taken a turn for the worse and was today transferred to C., the 8 Sick Ward. Feb 9/93. Wt, in underclothing, 109½ pds. Feb 16/93. Wt today, in underclothing, 110½ pds. Feb 24/93. Wt, in underclothing, 109½ pds. March 2/93. Wt, in underclothing, 107 pds (loss of 2½ pds) – Mar 11/93. Wt, in underclothing, 108 pds. Since his transfer to this ward, patient was, for the first 10 nights or so, somewhat restless & uneasy, sleeping only 4, 5 or 6 hours each night; since then, has been more quiet & restful & almost uniformly sleeping 8 hours each night. He still confined to his bed, and lies there quietly. There has been some cough, at times; appetite has been fairly good & bowels regular. Has vomited considerably, at times.
May 31 93. He is a quiet harmless patient perfectly at his dress stands up a good deal of the time and runs to the water closet every few minutes. He appears to be in poor health. Sept 30 93 No change. Sept 29 93 & quiet, harmless patient, rather dirty in habits & widely at times, stands a one place most of the time. He does no work. Appears to be in poor health. Oct 5 93 No change Nov 22 93 & quiet & inoffensive patient usually stands in alcove near water closet & makes frequent trips & closet & stains in urinating. He talks a little when questioned but his voice is hoarse & scarcely above a whisper. Seems to be in poor health. Dec 28 93 No change Jany 31 94 No change. Feb 28 94. A quiet & inoffensive patient: usually stands in alcove & runs to water-closet every few minutes; shows & groans when micturating. He does no work. March 31/94. No noticeable change. April 14/94. Has put to bed today. –
April 29/94 Patient still confined to his bed at this date.

Correspondent,	Chas Lindermann. Woodbury – Washington Co. – Minn.		

This man was admitted to the first Hospital July 24. 1883. & was transferred here Sep. 1. 1883.

Conduct at St. Peter since admission. "Quiet at times. Tries to "get away & becomes very much disturbed if opposed: Noisy nights, "shouting out of windows. Has not attempted suicide."

Special Delusions. "Imagines he is to be injured."

Habits: "Good"

"Has failed physically since admission – (at St P.) Complains "constantly of frontal headache and rheumatic pains."

Sep. 6th Says he has been deaf for many years – We have to shout to make him understand.

Oct. 22nd – Addicted to tearing his clothes.

Dec. 11 – 1884. Often asks to go home; is lazy. Physical health good. Has ceased tearing his clothes. Thinks he has been confined unjustly. No change mentally. No medicine.

Delusions of partiesoutside shouting at him.

Feb. 28 – 1885 – No special change. No medicine. No work.

May 28 – 1885 – No change. No medicine. No work.

Aug – 28 – 1885 – No change – no medicine. Dec. 7 – 85 – Last note holds good.

March 8 – 1886 – No special change. Does no work. No medicine.

June 5 – 1886 – Lately has been grubbing with the farmers. No change mentally nor physically.

Sept. 2 – 1886 – Does no work. No medicine. No special change

Jan. 5 – 1887 – No change. No work. No medicine

Apr. 5 – 1887 – No special change. At present has a facial erysipelas.

July 21 – 1887 – Erysipelas lasted but a few days. He now in good bodily health. Condition of mind remains the same. Does no work.

Sept 28 – 1887 – No special change. No medicine.

Jan. 6 – 1888 – Is in a condition of good humored dementia. Speaks only when spoken to.

Apr. 27 – 1888 – No change whatever. June 26 – 1888 – No noticeable change.

Sept. 27 – 1888 – No change. Bodily health good. Does no work. No medicine.

Jan. 14 – 1889 – Last note still hold good. Apr. 27 – 89 – No change.

July 23 – 1889. Does no work. Seems well contented & in good health.

April – 14 – 1890. Keep same – No complaints – no cares – contented.

July 16/90. Does not complain as he used to. No work. No medicine.

Nov 27/90. No change. Feb 25 – 91. No work no medicine.

Now inclined to be untidy than formerly. June 3 – 91. No work or medicine. Clean and tidy. Is bed ridden if interfered with.

Aug – 91. Never speaks unless addressed and then only in grunts. No work, no medicine.

Dreamy Tax – 1 – 1891. Secondary Dementia. Good health. Fairly clean and tidy. Quiet & inoffensive. Sits in one place most of the time. Seldom speaks. Does no work. No medicine.

Outlet 67 – soft and irregular. Is subject to spells of nervousness and is at times incontinent during which times he is taken noisy. Walking & around and talking fondly.

Feb. 18 – 92. No change. Very peculiar and strange in actions.

May – 28 92 { Weight 154, has fair appetite and is gale. Talks only when spoken to. Walks very little, and moves slowly. Dresses and cares for self in clean and tidy.
Weights 149; eats well and rapidly, sick is gale. Talks seldom and only when spoken to. Sleeps restless.

Sept. 6 – 92. Does not eat is sleep. Sits in one place. Dresses self, but is slovenly.

Nov. 11 – 92 Wt 156 – Health good – sits quietly on a bench most of the time – is clean – will have none. Talks very little & that is incoherent – goes walking

Mch. 6 – 93 Wt 157 – Health good.

May 31. 93. He is a quiet harmless patient. Does a little work as ward. Health good.

July – no change. Sept. 2. 93 A quiet harmless patient, does no work. Health good. Oct 5. 93 No change.

Oct 29. 93. He has been visited by friends. No change – continues Nov. 28. 93 A quiet & inoffensive patient sits in one place most of the time and never speaks. He has spells of a nervous nature & shakes and trembles as if he had the ague. Otherwise he appears to be in good health. He does no work.

Dec. 28. 93. No change. Jany 31. 94 No change. Feb – March & to April 30th 94. A quiet & inoffensive patient; sits in one place most of the time, and seldom speaks. He still has fits of nervousness, at times, & it is with difficulty that he keeps from falling off his seat. Does no work. Health is apparently good. (Patient was successfully vaccinated April 24th). May 29th 94 Is a kind of a stupid sort of a patient, sits in one place most of the time, never speaks, seems to be in good health, is fairly neat. June 28th & July 27th 94 No change. Aug. 1st & Oct 31st 94 Is quiet & inoffensive, sits in one place most of the time & seldom speaks, has nervous spells in which he trembles violently & catches hold of seat for support. He does no work, habits clean, is tidy, health good. Nov. 94 quiet, no work, has spells of nervousness in which he will shake as if with ague, & will grasp seat for support. April 20th 1895. Still an eleven described May June & to July 31/95. Above note, for several months back, still holds good. – Aug Sept & to Oct 31/95. No change noticable, during the quarter: never speaks: no work: still subject to those "nervous twitching spells".

This patient was admitted to St Peter Sep. 30th 1879. He was transferred to this hospital Sep 1st 1883.

Conduct at St Peter since admission: — "Patient was excited for several months after admission — afterwards settled into Dementia, with occasional paroxysms of excitement.

Special Delusions - "Of Persecution. Has some Homicidal tendencies.

Habits. "Shiftless & untidy. Will not speak."

Dec. 11-1884. Always muttering and lounging about the ward. Noisy at times, and speaks incoherently. Shiftless and untidy still. No medicine.

Feb. 28-1885 - No special change. No medicine. No work

May 28-1885 - No change. No medicine. No work.

Aug. 30-1885 No change. Dec. 7-'85 - Works on hall and outside

No change mentally nor physically.

March 8-1886 - No change. Works daily on the hall. No medicine.

June 5-1886 - No change. Works outside with the farmers - grubbing.

Sept 2-1886 - No change. No medicine. Works still with the farmers.

Jan. 5-1887 - Still works outside. No change. No medicine.

Apr. 5-1887 - No special change. No medicine. Still works with the teamsters. Has a slight erysipelas of face.

July 21-1887 - Bodily health good. No change in mental condition. Works daily with the farmers. Sept. 28-1887 - Has been working steadily with the farmers. No change in mind, body or habits

Jan. 6-1888 - No change. Deluded. Actions peculiar and speech incoherent

Mch. 27-1888 - No special change. Works a good deal in the coal house. June 26-1888 - Works some outside. Is in detached ward. No change. Sept. 27-1888 - No noticeable change. Works some outside. No medicine. Jan. 14-1889 - No change. Works daily outside. Apr. 27-'89 - No change. Does no work. July 29-1889. Works outside almost daily. Good bodily health. Mentally unchanged. April-14-1890 - Works well - Fat & healthy.

July 16/90 Quiet. Reticent. Health good. Works outside, No medicine

Nov 27/90. No change. Feb-20-91 No change noticable. Good worker. Not very neat in personal habits.

June 3-91 Works daily out doors. Stares at pictures on ward. Fairly clean and tidy. Good health. Aug 6-91. No change.

Decem ber 1-1891. Dementia. Good health. Dirty and untidy. Pulse 76, soft & intermitting. Works daily with special fireman. Quite noisy at times but is usually a harmless. Always picks up any little articles that he may come across. A good worker.

Feb - 15 - 92. No change. Good health as usual. Still works in basement.

May - 25 - 92 (weight 164; appetite, appetizer; even good. Helps to self & tidies freely usually quiet & cohorent. Goes out much, moves promptly. Works well & willingly. Dresses & comes for self, is clean & tidy. Is noisy) weight 155. Eats well & faithfully and sleeps well. Talks coherently and only when spoken to. Goes out Sept - 6 - 92. and is prompt. Works well. Dresses & comes for self, is clean and tidy. He has delusions.

Nov 1 - 92 Works outside is slovenly and dirty talk. none Feb 20 - 93 Wt 154

May 31 93. He has a queer habit of backing up to the walls & pillars as he passes them. Otherwise quiet & orderly works in ward & room most of the time. Health good. July 31 93. No change. Sept 29 93 Aged & feeble, troublesome at times, rather untidy in dress, works a little in ward. Health good. Has been visited by relatives Nov 93 He is a quiet and inoffensive patient, has a habit of backing up & touching pillars & doors as he goes by them. He usually carries a quid in his mouth composed of tobacco, paper, leaves & grass. He works on farm. Health apparently good. Dec 28 93 No change. Jany 31 94 He does no work at present, there is no change. Feb - March & to April 30 94. A harmless patient. When in ward, sits in the one place & looks out of window; occasionally bursting forth into "spells" of loud talking & swearing. Carries his usual "quid" in his mouth. Still has the peculiar habit of backing up against pillars & doors, when passing them. Works out in farm most of the time. Health apparently good. (Patient was vaccinated on March 27th, but unsuccessfully). May 29th 94 He is generally quiet & inoffensive, works on farm most of the time, talks a little but incoherently, has a habit of touching pillars & doors as he passes them. He usually carries a ball of rags, sticks & pebbles. Habits clean, dress rather untidy, health good. June 29th No change July 27th 94 No change. Aug 1st to Oct 31st 94 He is generally quiet & inoffensive, does a little work on ward, backs up to pillars & ward furnishings as he goes by them, talks a good deal, but incoherently, puts small sticks & stones in mouth until cheeks bulge out, is clean - but untidy, health good. Worked outside in September. — Nov 94 quiet, works outside, usually carries a "quid" composed of sticks, stones, & bits of paper that he picks up. Seldom speaks. April 30/95 - Above is a good description of patient to date. May June & to July 31/95. No change noticeable, either mentally or physically. During the quarter. Habits clean; health good. Aug Sept & to Oct 31/95. No change, for the quarter. Attends [illegible] actively & gesticulates wildly. — Works outside. Health is good.

Predisposing cause,	Not hereditary.	Result,	Died – Epilepsy.
Correspondent,	Sam'l Matthews. (Bro) Mayor of) Stillwater.		

This patient was admitted to the 1st Minn. Hospital. June 9th 1883, & was transferred to this place Sep 1. 1883. The following is the account from the former hospital, of his, Conduct since admission, Special Delusions – Habits &c: — Is "full of delusions — now of a "pleasing kind – At times is troublesome, irritable, demanding his "liberty. Has some ataxic symptoms in locomotion. Has "delusions in regard to himself. Is extravagant & confidant of his "abilities. Has convulsions, epileptoid in charac= "=ter, with temporary paralysis or clonic spasms following. The "fits come on about once in one or two months, and he is confined "to his bed for 24 – 48 hours. Has gradually grown worse "since admission."

Sep. 6th. Is continually spitting all over the floor. Sep 22. Is disgustingly careless & filthy – Ordered tonic & Belladonna ℥ to attempt to control the apparent over secretion of salivary glands) – Often strapped in restraining chair – Not because of violence but because is is such a nuisance – Oct 9th Belladonna discontinued – The drug does not seem to affect his salivary glands as hoped – Hence he is supplied with a limited allowance of water he spits less than usual.

Nov. 2nd Some days ago destroyed furniture &c in his room on A & E. So notes on B & C.

Nov. 9. Right ear shrivelled – has evidently had hæmatoma. Left ear has at present a slight traumatic hæmatoma – A few days ago there was some slight inflammation (non-traumatic) in it – but this subsided. The salivary secretion is not nearly so excessive as formerly.

Nov. 25 – Opened an abscess of left forearm – Full of pus – Absorb cotton dressing.

Jan – 1884 No special change – Gradually becoming worse – No fits – R. J. Tonies.

March 13. 1884 – Badly scalded some time ago in a bath. The accident occurred through a careless attendant – Both buttocks & both heels were scalded – He was put to bed & suitable dressings applied – & morphia, pro re nata, given to quiet pain & irritation. A camisole was kept on as he tore off the dressings. He is now nearly well. His left Ear is much shrivelled – & he is deaf – cannot hear unless spoken to in a loud tone – Always good natured – If spoken to answers in quite a bright manner – Disgustingly filthy & requires a camisole, he is so destructive. He was allowed to get up from bed yesterday – having been in bed for some time from scalds – R. J. Tonies –

March 26. 1884. Died about 9.30 this morning – On the 23rd inst he had an epileptic seizure about 11 pm, & next morning the night watchman found him "breathing very hard." This was about 2 am – At 6 am he was found out of bed on the floor in a "hard fit." From that time till his death he never regained consciousness fully, the fits being frequent. Efforts were made to arouse him – Chloral & Potassium Bromide (in solutions of Amyl. Nitrite) were given, & stimulants – The remedies partially aroused him for a time, but he became worse & unable to swallow.

Ap. 1. 1884. His brother was informed of his death, but no answer being received, remains were buried here – Today the brother came here – (it appears he had been absent & did not receive the information about the patients death till some time after he ought to have done) had had the remains exhumed, taking them away with him for reinterment elsewhere.

Died.

This patient — a coloured man — was admitted to the St. Peter hospital Mch 21. 1883 — & was transfered to this hospital Sep. 1. 1883.

Conduct at St. Peter since admission: "Generally quiet & gentlemanly. "Has occasional paraxysms of violence & is then maniacal and "destructive.

Special Delusions. "Imagined he was followed by detectives — also "had Hallucinations of Hearing.

Habits. "Cleanly — not particularly industrious. Am inclined "to think him a masturbator" (St. Jones)

Sep. 6th. Seems to be getting on very well. Quiet & works on ward.

Sep. 22nd Never speaks unless spoken to — very willing, & obliging — Works on ward.

Oct. 29 — Complains of occasional palpitations of heart — & of emesis at meal times — for the latter ordered Lactated Pepsin — 2grs at each meal.

Nov. 2 — Asked to go home this a.m. When asked why he did not talk more, said some one "shuts him off". Said some time ago that he had been committed to St. Peter for killing a man — although (he said) he had killed no one.

Dec. 11 — 1884. Has tried to depreciate since last note. No change mentally nor physically. No medicine. Feb. 28-1885 — Perhaps a little less depressed, but no marked change. Had a cough which ceased on treatment.

May 28-1885 — No marked change. Seems to have no delusions; plays ball. No medicine.

Aug. 30-1885 — No change — Has occasional headaches — Says heart is dizzy all the time.

Nov. 24-85 — Has had several times since last note with headache & palpitation for a day or so at a time. Palpitations bothers him much.

Dr. Digitalis given when he complains of it. No change mentally. Still depressed, does no work. Mch. 8-1886 — Showing his delusions more plainly; thinks his brother is coming for him; fills pockets with sticks and stones; masturbates; contrary & has to be forced to change his clothes.

June 5-1886 — No change. No work. No medicine.

Aug. 31-1886 — No change noticeable

Jan. 5-1887 — No special change. Has worked some on the ward.

Apr. 5-1887 — No change. No work. No medicine.

July 21-1887 — No marked change. Plays pool a good deal. Does no work except a little shaving. Bodily health good. No medicine.

Sept. 28-1887 — No change noticeable.

Dec. 7-1887 — Was remand on trial to-day by a friend, Ben White.

Discharged
Aug. 8-1888.
J. of Prov. and Consp. notified.

This man was admitted to St Peter Aug. 3. 1881. and was transferred here Sept. 1. 1883. The account of him, which comes to us from the former hospital is as follows:—

Conduct since admission. "At times violent and abusive. Imagines "himself wealthy & potential. Talks rapidly in French or German— "demanding his liberty & rights.

Special Delusions. "Of fear — also of his superiority.

Habits. "Good. Seldom troublesome during night."

Dec. 11-1884. Is cross and irritable; finds fault with his clothing, but is untidy. Thinks he is perfectly sane. Refused to work ever since admitted. Physical health good. No medicine. Feb. 23-'85. No change

June 1-1885 — No change. No work. No medicine.
Sept-10-1885 — No change. Dec-10-1885 — No change. No medicine.
March 8-1886 — No change. No work. No medicine
June 4-1886 — No special change. Untidy and morose still. No work. No medicine.
Sept. 7-1886 — Last note still hold good.
Jan. 4-1887 — No special change, unless that he is growing more untidy in dress
Apr. 6-1887 — No change noticeable. No work. No medicine.
July 25-1887 — Lazy, untidy and very irritable. Bodily health good.
Sept. 20-1887 — Seems a trifle less irritable, otherwise no change.
Jan. 6-1888 — No special change. March 27-'88 — No change
June 26-1888 — No special change since last note
Sept. 27-1888 — Still the same. Does no work. No medicine.

Jan. 14-1889 — No special change. Quiet, orderly, untidy, demented.
April 27-1889 — No change. Is perhaps less robust than a year or two ago.
July 30-1889. Does not work. A few weeks ago was confined to bed with pain in abdomen and obstinate constipation. This was overcome by enemata and Ol. Ricini in large and frequent doses. The trouble lasted only a few days. Is now in good physical health.
April-14-1890. Big & healthy — Had sore eyes last Fall. Irritable if stirred up. July 16/90 No change. Does not notice the new surroundings.
Nov 27/90 No change. 2-27-91 No change. Irritable. Will not notice any one or anything. Untidy & inclined to be dirty in habits.
June 3-91. No change. No work or medicine. Very untidy and at times noisy & restless. Aug 6-91 Same old thing. Walks up and down ward talking to self. Health good, not work.
December-1-1891. Second any Dementia. Good health. Fairly clean and tidy. Pulse 76 soft and irregular. Is a very noisy and restless patient. Constantly walking up and down the ward if allowed, talking to himself. So at times quite inclined to be ugly. Does no work.
Feb-15-92. No change. Has noisy spells as usual, good health and no work.
May. 28-'92 { Weight 161, eats well, has good color. Bowels regular and tongue clean. Talks freely, noisily in- coherents and to self. Eyes and mind strong. Works reluctantly. Dresses & cares for self. Clean & tidy.
Sept-6-92 { Weight 155, irregular appetite; eats rapidly; good color. Talks incoherently and only when spoken to of Has not much is strength. Works little. Dresses self, but is slovenly. Is different in spirit.
Nov. 11-92. Wt 161 - Health good - does no work. Mch. 6-93. Wt 171 - Health good Talks some May 31. 93 He is very stubborn, noisy at times talks to himself a good deal & inclined to fight. He does no work. Health good. July 31 93. No change. Sept 1 93 A harmless patient, walks the floor a good deal & talks to himself, makes characters on the wall, & tabby with his fingers. He does no work. Health good Oct 5 93 No change in condition Nov 24/93. A harmless patient, talks a great deal and sometimes noisily, traces imaginary characters on the air with his fingers. He does no work. Health apparently good Dec 28 93 No change Jan 31. 94 Same Feb - March & to April 30/94. There is no noticeable change in his condition or during this period. May 29th 94 Is generally quiet & inoffensive, much given to walking the floor & talking to himself also making motions as if drawing figures on wall. He does no work, habits clean, dress rather untidy, health apparently good. June 29th & July 28th No change. Aug Sept & Oct 94 Is inoffensive, talks incessantly, does no work, traces patterns on wall with fingers, is clean & neat, health good. Nov. 94 Is quiet, no work, talks to himself, traces figures on walls, April 20th 1895. Keeps uniformly the same: has not changed any for years. May June & to July 31/95. Always about the same. Quiet: doing no work. Talks to himself a great deal & gesticulates: Habits Clean: Health good. Aug Sept & to Oct 31/95. During this period, there has been no change to report, in any way. Health apparently good — Nov 4/95. Wt 154 lbs. Dec & to Jany 31/96. During this period, no change noticeable. Has done no work. Health is apparently good.

The man was admitted to St Peter Dec 12. 1883 & was transferred to the 2nd Minn. Hospital for Insane Sept. 1. 1883.
The following account is given of him at St Peter:— "Patient "has no history. He was found wandering about, unable to give "an account of himself. At first would say no- "thing about himself & was very much depressed. "Has improved & is now confiding in his manner. Works on ward. "Always quiet and neat in personal appearance."
Dec. 1. 1884. No special change mentally nor physically since admission. Worked on farm during summer; now works on the wards. No medicine.
Feb. 28-1885- No change. No medicine. No work.
May 28-1885- No change. No medicine. No work.
Aug. 29-1885. - No change - No medicine - no work
Dec. 1. 1885 - Last note still true.
March 8-1886 - No special change. Works daily on the ward. No medicine.
June 5-1886 - No change. No medicine. Works daily in the dining-room
Sept 2-1886 - No change in mental or bodily condition. Does little work.
Jan. 5-1887 - No special change. Works daily on the ward
Apr. 5-1887 - Last notes still held good
July 21-1887 - Working for some days past with the farmers, before that worked daily on the ward. Bodily health good. No medicine. Sept. 28-1887 - No change whatever. Works daily on the ward and outside. Bodily health good.
Jan. 6-1888 - No noticeable change. Always silent & depressed (or demented?)
Feb. 27-1888 - No change in mental condition. Bodily health good. Works on ward.
June 26-1888 - Last notes still hold good. Sept. 27 88 - No change.
Jan. 14-1889 - No change, except that he does no work. Quiet, orderly; demented.
Apr. 27-1889 - Works daily on the ward, otherwise no change.
July 29-1889. Still working on ward daily. Good physical health.
Apr. 3/90 In fair health. Works in dining room. Clean, orderly; somewhat careless in dress. Never talks; no medicine - July 16/90 No change. Health fair. Nov 27/90 No change.
Feb 25-91. Still no noticable difference from description given in previous note. Works still in dining room when he is very useful.
Jan 2-91. No change. Works as usual in dining room. Good health. Fairly clean & tidy. Aug-6-91 Works daily no change.
December 1-1891. Secondary Dementia. Fair bodily health. Fairly clean & tidy. Pulse 76, soft and regular. Right eye and hand has scar. Works in dining room.
Feb 15-1892. No change. Good health. Works in dining room and performs usual duties. Good appetite and color, and clean tongue. Walks out much and moves promptly; works well and willingly. Dresses self, but is slovenly, eats and smells self and is ugly. Spells of urinating on floor.
May-25-'92
Sept-6-92. Weighs 137, eats well and looks well. Talks none. Goes out, walks about ward, is clean and works well and willingly. Dresses and cares for self is clean and tidy. Nov 1-92 Wt 136 Never talks is slouchy. Sleeps well. Health fair. March 20-93 Wt 139 Has never worked. May 27 93. He is a quid, harmless patient. Sits in one place all the time seldom speaks work a little on ward. Health apparently good
July 31. 93. Transferred to Fergus Falls.

Correspondent,	R. K. Tifft (Father), 77½ ~~Stillwater.~~ Cedar St.,		Syracuse N.Y.

This young man was admitted to the 1st Hospital May 16. 1882 - & transferred to Rochester Sep. 1. 1883. The following description of his Conduct & since admission, Special Delusions & Habits, comes to us from the St. Peter Hospital

"Generally quiet. Works on ward and out of doors. At times is "emotional; complains of everyone, &, if touched, imagines he was struck. "Full of business & extravagant delusions. Writes incoherently. Has "Delusions of Self-importance. Demands Extras. Magnifies every- "-thing, and, if favoured or flattered, is supremely happy. "In the Spring had a convulsion resembling cerebral Hemorrhage. "Made a fair recovery in about 14 days. Occasionally takes "to his bed for a day or two, when he thinks he has not been treated "just right"

Sep. 18. Works on ward & outside.

Dec. 11-1884. About a month after last note he stole the superintendents keys - "that he might go to St. Peter's" from which "he had received a magnetic message saying that Dr. Bartlett wanted him." Was kept in for a while, but since then has worked out and done the errands summer and up to date. No medicine (except tonic for the first three months after admission). Thinks he is Governor of Minnesota & trusted worker.

Feb. 28-1885 - Worked out till froze his feet; now works on ward. No change.

May 28-1885 - No change. No medicine. Works on farm.

Aug 29-1885 - Works steadily - no medicine

Dec. 7-1885. No special change. Works daily outside with exceptions.

March 6-1886 - No change. Works daily outside. No medicine.

May 21-1886 - No special change. Troubled some by pains in various parts and imagines he is on the road to death. Has had some Sodium Salicylate for rheumatic pains.

Sept. 4-1886 - No special change. Worries very much about small bodily ailments. Recently eloped, but changed his mind and returned a few hours later.

Jan. 7-1887 - No special change. Is doing no work now. Was sick in bed a day or so in November.

Apr. 7-1887 - No special change in mind or body. Eloped early last month and was returned from Loyola by P. Scanlon, two days later. Manifests a disposition to wander off, so is not allowed to work outside any longer.

July 25-1887 - No special change. Is again at work with the farmers.

Sept. 28-1887 - No change except that he has gained flesh. Occasionally spends a night in the basement, appearing next day as usual.

Jan. 6-1888 - No material change. Works still with the farmers.

Feb. 27-1888 - No change. Works daily on the ward. Bodily health good.

June 26-1888 - Last notes still hold good. Is subject to paroxysms of melancholy during which he is apt to elope or hide himself in the basement of the

Sept. 27-1888 - Eloped once since last note; frequently complains of pain & is still depressed.

Dec. 13-1888 - Patient has been in bed since Oct. 26. At first he complained of pain over lower end of sternum; then of pain in his larynx or upper end of trachea; later he complained of pain in any part suggested to him; imagined a little girl had come out of his nostrils; no definite information could be obtained from him; his temperature rose irregularly, sometimes with a hectic flush on his cheeks; diarrhoea, preceded by jaundice and white, clayey stools, set in, and was very obstinate, resisting treatment. Dullness over whole of r. apex was made out, with gurgling râles and almost entire absence of respiration; increase of vocal resonance also. The diarrhoea would cease only to begin again. He slowly lost strength, while there was no special increase of his symptoms. Last night he suffered from dyspnoea, and this morning was unable to swallow and spoke with difficulty. He died rather suddenly between 9.10 and 10 o'clock a.m. After death a considerable amount of foul smelling, purulent-looking fluid escaped from his anus.

Died

Whole No.	527	No. for year,	29
Residence,	Red Wing – Goodhue Co.	Insane Relations,	None.
Date of Admission,	Sep. 2nd. 1883.	Cause,	"? Injury to head 6 or 7 years ago."
How sent,	Judge of P. N.C. Werner.	Form,	Epileptic Mania.
Sex,	Male.	Accompany bodily disorder,	None. (except, of course, Epilepsy)
Age,	22.	Suicidal or not,	Not.
Civil condition,	Single.	Date of attack,	Few days ago.
Children,	Father, Daniel Saunders, was a patient here.	Duration,	Some days.
Occupation,	Labourer.	No. of attack,	Paroxysmal.
Degree of education.	Common.	No. of admission,	1st.
Profession of religion,	Was an Episcopalian.	Age at first attack,	17.
Habits,	Intemperate & Immoral.	Time of leaving,	Died
Nativity,	Hay Creek – Goodhue Co.	Time in Hospital,	
Predisposing cause,	Not hereditary.	Result,	
Correspondents,	Mrs. Daniel Saunders (Mother) c/o Jacob Schmitz Red Wing. & Mrs. J.A. Adams (sister) Red Wing.		

This patient was brought here by Deputy Sheriff. P.D. Lundquist of Red Wing, & with the following history: –

His attack began 5 years ago with an epileptic seizure – Since that time he has had attacks the "Latter part of each month, lasting from "3 days to 2 weeks." He has been under Medical treatment for 3 months at Red Wing & was treated by "Several physicians" before going there – but without result. Six or seven years ago he had a blow on the head (or rather "an injury on the head"). His insanity is manifested on "no subjects in particular" – and he has "no disposition to injure others."

Sep. 2nd. On admission he seemed quiet & perfectly stupid – but next morning he became fearfully violent. Restraint became necessary. He refused medicine – & at last it had to be given by force. One injection Hyoscyamine solution – mx (mx = gra 1/10) was given him subcutaneously – Bromide of Potass. 40 grains Chloral Hydrate 30grs for sleeping dose, when necessary – With his hands loose it takes 3 or 4 men to manage him – He is very strong, & not only bites but fights with chair &c. Evening of Sep. 5th – he got free from the wristlets & beat his room-mate over the head with a bucket – On that occasion & on one or two others the attendants had to strike in self defence.

He has delusions about himself & others – He gave as his reason for beating his room-mate that the latter was going to bury him after his death. He is now (Sep. 7) in the "crib" & has been for about 36 hours

He also has restraints on – Treatment. Potassii Bromidi gra xl – Bis in die. Has had one dose Olei Jig. gtt. ii.

Sep 18. Having been in the cot & wearing restraints for several days was removed into B.I. still wearing wristlets – These were soon removed – & he is now very quiet & well behaved. Plays base-ball regularly. Treatment Potass Brom. gr. xxx. B.I.D. Sept 22. Complains of constipation.

Oct – 11th. Every now & then requires restraint, & quieting doses of Chloral – Between whiles behaves well – but has delusions regarding self & others – Thought he had tape worms, about time ago – He was given a powerful cathartic to prove he was wrong – & he has not talked tape worms since.

Oct – 13 – Varicocele (left side) discovered. At present it requires no special treatment. Oct 16 – To Rhei – with Bromide – B.I.D.

Oct – 27 – To Rhei discontinued – Complains of high coloured & scanty urine – This found to be a delusion – Full of delusions about his bodily health.

Oct – 31 – Severe epileptic seizure this p.m. – after dancing in at Rhein's dance in chapel.

Nov. 4 – Another fit – 12 m. today

Nov. 11. Violent & restrained. Ordered ½ gr Antim et Potass Tartras – to be repeated every hour till nauseated.

Dec. 1 – No special change – Bromide continued.

March – 1 – 1884 – Fits rare – Is never in restraint now – Has several times attacked an attendant who has responded with interest & this seems to have had a good effect on him – Was wired for Mastin Button, but the wire caused such coughing & inflammation (he probably tried to masturbate with the wire in) that it was taken out – Goes to dances in chapel & enjoys himself – Is incoherent – Has delusions – Once thought he had tape worms – (for which he was given a placebo) – Then had a lump in his side – He has varicocele – To Bromide

June – 1 – Fits very frequent lately – Bromide discontinued for a few days – & will be resumed by – to allow it to regain its effect. Rarely violent & then restrained – Pupils dilated – Is well nourished. Still micturates pains in side &c – Is on B.I.D.

Sep – 1 – Fits at intervals – but not frequent – Bromide continued – Violent at times –

" 11 – Visited by sister & her husband – They thought he looked very well – but that his mind was much worse – He told them several of his relatives & friends were living here – mentioning them by name.

Oct – 1. Recently attacked another patient – Wolke – thought was going to draw a gun on him on ball ground – badly bruising his face with his boot, which he took off & used as a club.

" 10 – Visited by Father Wolke, bro – in law & sister (the 2 last not those who were here last time) – Is savvy at night at times.

Dec. 11 – 1884. Has been on two tears since last note – one very recently. Attacked attendant a couple of weeks since. Has continued on Bromide ever since last note, but says it is poison and refuses to take it. Has been in the cribb part of a day & has had to be restrained once. Is savvy at night and sleeps soundly. Is free from delusions. Recently refused to go out walking as the ground was so full of magnetism. Is said to masturbate

Feb. 27 – 1885 – (No special change) but slight spells seem less violent and less frequent

May 31 – 1885 – Slight and more treacherous than at last note. Frequently violent. KBr continued

Sept – 12 – 1885 – Has made trouble on ward several times. Otherwise the same.

Dec 9 – 1885 – Still treacherous. Medicine continued. 7 fits last month.

Feb. 20 – 1886 – No change. Has had right hand in splint for last 2 – 3 months

June 5 – 1886 – Fits reported. 4 days last month. Has been violent once since last note

Sept. 6 – 1886 – Fits reported 17 days last month. No special change

Jan. 4 – 1887 – Fits on 14 days last month. Still liable to be violent. Has treacherous. Has various fleeting delusions. Medicine continued. Feb. 1 – Fits 12 in January.

Apr. 5 – 1887 – Fits nearly every day. No change in disposition and habits. Once more is usually kept in restraint during the day. Apr 18 – KBr increased to gr xx ter die.

July 26 – 1887 – Fits reported two days last month. Has been out of restraint some weeks past

Sept. 28 – 1887 – Violent once since last note without provocation. No fits reported last month. KBr gr xxx t.i.d. continued

Jan. 6 – 1888 – Little restraint used since last note. Bodily health good.

April 27 – 1888 – Fits as fits last month. Has not been violent lately.

June 26 – 1888 – Fits reported two days last month. Has been behaving well. Is growing quite demented. Sept 27 – 1888 – Five fits last month. No restraint one day.

Jan. 14 – '89 – Shows shells of violence recently. Is dirty in chair. Had fit last month. (Continued on Poles 168)

Predisposing cause,	Hard work & frequent child-bearing	Result,	Recovered.
Correspondent,	{Carl Hendrickson (Husband) Hartland — Freeborn Co. Minn}		

This woman was brought here by a Deputy Sheriff of Freeborn Co — She has the following history: —

Her insanity was first manifested "at home by praying & making a great "noise". It is now evidenced on the subject of "Religion". The cause is said to be "Fright or excitement." "Her oldest daughter unexpectedly "gave birth to a child, and during the excitement she became deranged "as she seems at this time." Before her attack commenced she was "very religious". She was also "broken down by hard work "and frequent child bearing." She has shown a disposition to injure others "from sudden passion". Her youngest child is 4 years old — Since the time of its birth she has been worried — out of health & not, as before stated, "very religious." The date of her attack is not given — nor is its duration — The deputy sheriff said she was quiet in day time — but excited & terrified at night.

When admitted she was quiet — spoke rationally — but seemed inclined to weep — She looked thin, pale, & worn. Says her daughter's confinement was 4 weeks ago — so I have recorded date of attack accordingly.

Patient states — she has a peculiar nervous feeling come over her about bed-time every night — so tonight was given Chloral gr xx. Potass Brom — gr xx.

Sep. 8th. Cathartic — Last night slept well. Treatment Iron & Cinchona tonic.

" 18th. For a few days tonic was discontinued & Cascara Sagrad. (Fl. ℈x ℈ss) given — in order to regulate bowels. The tonic is now resumed.

Sep. 22. Iron & cinchona discontinued. Ordered — R. Acid Hydrocyan. ♏xxx — Liquor. Strychnia, Sol. Bismuth Citratis — āā ♏ss — Aq. ad ♏i. M ft Sig. gtt xij — B.I.D — ante cibum — This mixture

is given as a general tonic & to relieve dyspepsia (occasioned by distress & pain in epigastrium &c) —

Oct. 11 — Has required sleeping doses occasionally — but not lately — Short while ago much trouble at night — delusions of fear — fancied someone was going to hurt or kill her &c — & would get under the bed in terror — She seems improved in this respect — & she looks more cheerful in the day — at one time used to sit wringing her hands & crying — saying she had done some wrong &c — she does not seem to do this now.

Oct. 20 — Special tonic discontinued — Was taking Mist. ferri et Cinch — B.I.D. Said today she wished very much to go home — Works a little on wards.

Oct. 29 — Works in Laundry.

Dec. 1 — Nothing special to note — Tr. tonics.

Jan. 1 — 1884 — Has been visited by husband & daughter within the last few weeks.

March 1 — 1884 — Has improved physically & mentally, but is still depressed — Works on [illegible] ward. R.I. Tonics continued.

Apr. 18. Allowed to go home with husband on trial.

Discharged

June — 11 — 1884.

This patient was brought her by - Sheriff. Bogard. of Winona Co.
He has the following History: —
His attack has been "nearly continuous" for 10 or 12 years - & is "Chronic" & "Paroxysmal." It is manifested by his "wandering about nights, threatening "to do harm &c." He is "temperate except when he can buy beer". Has shown a disposition to injure others, "usually from passion". Has no disposition to filthiness, destructiveness &c. Has never been confined.
He seems to be well nourished.
Sep. 18. Works outside - No medicine.
Dec - 1 - Good natured - Quite fat - No medicine indicated -
Mch - 1 - 1884 - Same as last note - Seems demented.
June 1 - No change - No medicine - Tried to run away some time ago, but was caught before he had gone many hundred yards.
Works outside every day - Has been moved from B 4 to B 3 E.
Feby - 10 - While out working today in garden - eloped.
Sep - 1 - Has been heard from as doing well.

Discharged.
Sep - 10 - 1884

Ike Saunders (continued.)

Mch. 29 - 1889 - Just quieting down after a period of several days of excitement, when he raved and fought and had to be restrained in the chair. Left hematoma auris.
Oct - 15 - 1890. Lay in bed for several days this Summer. Nothing seemed the matter with him.
Feby 10/90 Health medium. In bed one day; probably from depression following a fit. Very ugly & quarrelsome at times; attacks attendants & fellow patients. Has to be shut up occasionally. Fits occur occasionally. May 9/91 Seen by Dr in fit. Fell; almost no convulsion. Cyanotic.
May 11/91 Has a fit & was ugly; bit attendants finger.
July 13/91 Fits occur occasionally. Ugly as usual. Jany 9/92 Had a fit in night.
Jany 13/92 Was some noisy last night. Jany 21/92 Weight 162. Pulse 76.
Appetite good; bodily health quite good. Has some acne. Has rupture.
Talks to himself, is profane & incoherent. Reads. Goes out walking; dresses & cares for self. Is ugly & gets into fights. Attacks attendants.
Feby 12/92 Slept but 4 hours & was noisy the balance of the night.
Feby 21/92 Slept but 1½ hours & was noisy balance of the night; unusual.
Mch 3/92 Weight 160 lbs. Pulse 72. April 4/92. Wt. 158 pounds. May 3/92. Wt. 164 pds. Pulse 78. Four fits at night have been reported during past 2 months. Has occasionally been noisy at night. June 3/92. Wt. 165 pds. Pulse 84. July 6/92. Wt. 160 pds. Pulse 74.
Aug 3/92. Wt. 160½ pds. Pulse 90. Aug 17/92. Is rather rarely noisy at night, usually sleeping well. Occasional nocturnal fits are reported. Usually passes a restless noisy night, on the night preceding or following the one on which the fit occurs. Is also frequently reported by the supervisor for disorderly conduct. Rises up occasionally and strikes the one most handy, be he patient or attendant. At times is viciously ugly. Bodily Health good. Recently transferred to C3 Aug 20/92. Was ugly & put in seclusion to day. Sep 5/92. Wt 161 pds Pulse 68. Sep 10/92. Has been rather unusually ugly lately & has been in seclusion several times. Sep 23/92. Was excited to day & had to be secluded. Oct 4/92. Wt 156½ pds. Pulse 76.
Nov 2/92. Wt 157 pds. Pulse 67. Dec 5/92. Wt 154 pds. Pulse 92. Jan 3/93. Wt 158 pds. Pulse 78.
Jan 6/93. Is probably the beginning of more attacks on patients than any one of our patients. Fits are very infrequent. Bodily Health fairly good. Quite often noisy at night for a few hours. Feb 3/93. Wt 157 pds. Pulse 92. March 2/93 Wt 157 pds. Pulse 90.
April 4/93. Wt 149½ pds. Pulse 68. April 26/93. During February & March was unusually pugnacious & ugly, fighting fellow-patients. During past 3 months has been rather infrequently noisy for a short time at night (reported on 7 nights only). Fits are infrequent.
May 30/93 Very severe convulsion during night. Fell out of his bed & bruised his forehead. 31st Severe convulsions. Appetite very good. Fed a ball. Sitting in dining room. Bowels regular. Cough none. Phys. condition very good. Behavior Past time very good, bathes usually. Spells lasting from one to 6 days & quite frequent. Sleeps a great deal during the day. Injuries received by falling out of bed. Talk incoherent, Seclusion none, Visits none, Habits neat. Struck Wm McBride on the head

Predisposing cause,	Hereditary.	Result,	Unimproved.
Correspondent,	John I. Thorne (Uncle) Hastings.		

This patient was brought here by his uncle — Mr. J. L. Thorne of Hastings. He presents the following history: —

For a considerable length of time he expected promotion in his occupation — which promotion never came. About 6 m.s ago he began to loaf — & would not work at all — was at times gloomy & despondent about the hopes for promotion. It seems probable that this idleness & despondency were the first symptoms of his attack. His attack is said to have commenced about 4 weeks ago. Its character is described as "partially depressed." Mr. J. L. Thorne — states that he has had an hallucination of sight — (thought he saw a balloon & called peoples attention to it), that he has delusions as to himself & others, gives absurd & incorrect answers to questions & is somewhat incoherent.

He has been very intemperate — drinking beer mostly. He is not destructive but "cannot control his natural movements" — (This last is supposed to refer to his bowels & bladder). He manifested no peculiarities before his attack. No restraint or medical treatment has been resorted to.

When admitted it was found that he could not walk — & was paraplegic — (His history stated he had no bodily infirmity). Mr. Thorne stated that the paralysis came on gradually & commenced about 3 weeks ago.

Patient is dark & has an Israelitish appearance — he looks rather thin & sallow.

Sep. 18. Treatment. Strychnia Sulph. gra 1/32. B.I.D. Galvanic current 17 cells descending — P. Pole in lumbar region — N. Pole to lower limbs — Also Primary & Secondary Faradic current to lower limbs — Gals. current daily — The Faradic occasionally — Sensibility of skin much diminished — Scarcely feels a powerful Faradic (2nd) current. The compass points 2 or 2½ inches apart, pressed down, he feels as one point — lightly pressed he does not feel the prick at all. Ordered to walk round ward 2 or 3 times daily supported by two men — Still has power to move some extremities but if he attempts to walk — falls at once. Has Delusions — always — when asked how his legs are — says he walked down town "this morning."

Oct. 11 - 1883 - Improved mentally & physically — Can now walk a few yards alone — Talks somewhat more sensibly — Says this paralysis first attacked him 2 years ago — when in the express car of the train — Sometimes could not move from his chair & suddenly would feel all right again — get up & walk. Galvanic current now applied, about every other day — The Faradic (secondary) current occasionally.

Oct. 25. Much better — Walks about ward — Sensibility of skin has not improved like the power of motion — Could not get knee-jerk yesterday — & kicking of feet was not felt — He feels the battery (both currents) better than he did, however.

Dec. 1 - Improving — Treatment same as before —

March 1 - 1884. Battery has been discontinued — Strychnia still given Last January had a bad axillary abscess (left side) — which had to be opened.

June 1. Walks round outside — a little lame. Quiet — rational — good natured — No delusions — Strychnia still given.

Sep. 1 — All treatment has been discontinued for some time — Out on parole nearly all the time — Relatives refuse to do anything for him.

" 25th I hear he has recently been talking some nonsense about his having been appointed by the Superintendent to spy out & watch the doings of another patient here — & that he fooled this patient drinking beer regularly.

Dec. 11 - 1884. Since last note has been left in as he vomited off his fur. Had an opportunity & go home, but "preferred to winter here." Has delusions concerning his future conduct. Mentally he is about the same. He takes no medicine.

Feb. 28 - 1885 — Perhaps a little more crazy lately, but no special change. No medicine.

May 29 - 1885. Apparently perfectly rational. Lazy and indifferent. No medicine.

July 27 - 1885 — About the same. Does no work — Appears rational but lazy.

Sept. 7 - 1885 — No change. No medicine

March 8 - 1886 — No change (mentally or physically, except that for a week past he has worked some.

June 11 - 1886 — No change. Lazy as ever. Spends much time playing "Solitaire."

Aug. 31 - 1886 — No change noticeable.

Jan. 5 - 1887 — No change. No work. Has delusions, manifested in a letter he was with difficulty induced to write. No medicine.

April 4 - 1887 — No change noticeable.

July 21 - 1887 — No change. Does no work. Has parole of the grounds.

Sept. 28 - 1887 — No change whatever. Does no work except to take care of room. Badly healthy and. No medicine. Parole continued.

Jan. 6 - 1888 — No change whatever. Feb. 2 - 1888 Still no change.

June 26 - 1888 — No change. Spends his time walking about, getting geological specimens &c.

Aug. 3 - 1888 — Sitting up after a three weeks' confinement in bed by a mild attack of typhoid fever. Pulse now 112, but other symptoms have ceased. Has been on special diet.

Sept. 1 - 1888 — Pulse has continued rapid, is now 108 - 112. Other symptoms have not returned. Has been in bed since Sept. 1st. Last note Oct. 8 - 88.

Sept. 27 - 1888 — Pulse remains rapid, but patient walks about outside on parole. Specials discontinued. Oct. 8-88 — Pomeroy Elixir discontinued.

Jan. 14 - 1889 — No change whatever.

Apr. 11 - 1889 — Went back to Hastings alone, on trial

— Discharged —

Predisposing cause,	Not Hereditary.	Result,	Recovered.
Correspondent,	John McGovern (Father) – Box 97. Rochester Minn. (Kalmar.)		

This patient was brought here by two officers from the City of Rochester – & with the following history:—

for a long time has been troubled with dyspepsia – Two years ago began to lose flesh & became melancholic – About a month ago became manifestly insane – "violent – disposition to destroy furniture; "whatever comes in his way." His attack is "acute – continuous for "two months". This morning (13th Sep) – "he attempted to kill a man". His brother states that 3 years ago – before he became dyspeptic – he had an attack of mania of short duration, from which he recovered – That all his life he has been headstrong & hot tempered, but most moral (he has been closely watched) & temperate – also very religious. He is clean in his habits – He has been confined & taken care of by his family for some time –

His brother further states that his present attack dates from the recent Cyclone –

Sep. 18. Visited by brother day or two ago. Is well nourished – Complained today of constipation & had done of Magnes. Sulph.

Sep. 21. Tried to elope – Is said to talk foolishly at times –

Oct – 11 – Since last note, tried to elope while out walking, & attacked attendants with a club; he was put in the exit for some hours. Was twice visited by sister & brother since last recently. Sister says that he has had more than one previous attack; that the first was when he was 15 – & supposed (no proofs) to have been caused by a fall; further, that during an attack he was treated beneficially with Bromide of Potass. He wrote a letter some time ago – which was far more insane, than from his acts & language one would think him capable of writing. Is somewhat pugnacious & inclined to get into trouble with other patients. Was somewhat troubled with insomnia when first here and on one or two occasions required Bromide & Chloral – After this he slept well up to a few days ago – He now requires Chloral – Regular heat – = ment now is Rx Potass Brom gra xxx. N.J.D.

Oct – 13 – Again troubled with insomnia – ordered Chloral – pro re natâ.

" 16 – Is now taking Tr. Rhei – 3.3.3 – with bromide – as he complains of constipation – The night watch = man says he sleeps better than he says he does – & rarely gives him the dose of Chloral put up for him.

Oct – 26 – No Chloral for some time – Complains of constipation – ordered Calomel & Jalap – a a gr x.

Tr. Rhei discontinued – Ext. Cascar. Virid. in its stead.

Oct – 27 – Visited by brothers & sister – became very much excited – Has a delusion that he is being drugged – so as to weaken his mind & oblige him to remain here –

Night watch says he does not sleep well – ordered Chloral occasionally –

Nov. 1 As he has delusions about being drugged – & objects to doses not with regular medicines – 15 to 20 grs Chloral now given with Bromide in the evening – Nov 11 – Cathartics discontinued.

March – 1 – 1884. Since last note has improved very much. No insomnia for a long time – Bromide has been discontinued – Is sometimes troubled with constipation requiring cathartics. Receives frequent visits from father, sister, & other relatives & friends – Is quiet & well behaved – When his father visits him he becomes excited, saying he will get even for having been sent here – & will be revenged on attendants, whom he accuses of having hit him with a neck yoke when he tried to elope. He has never been incoherent since he came here, but has been very excitable, seeming to have an exaggerated idea of his powers & attainments & prone to boasting – He was also very quick tempered – In all these respects he has improved.

March 29. 1884. Allowed to go home with father & sister on trial.

Discharged.

June – 11 – 1884.

Predisposing cause,		Result,	Recovered
Correspondent,	Mrs O Johnson (wife) - Millersburg - Rice Co Minn. Aug. Mortinson Forbault.		

This man was brought here by Deputy Sheriff. S.C Dunham —
He has the following history:
About 10 years ago "a gun was discharged or burst near his head" + he was deaf for a while." Last Xmas-Yes" he came down with "inflammatory rheumatism" + was "in bed 6 weeks." He first manifested symptoms of insanity about 5 weeks ago — A month ago he was sent to the Hastings hospital at Saint Paul where he remained 4 weeks. It is also stated that he was under Dr Cox's care at Northfield — but no particulars are known of this — His attack is described as "Depressed" — He has delusions: — fear of being kidnapped — + wants to run away — He "talks foolishly" —

Oct 11th. 1883. Is profoundly depressed — will scarcely speak. Never does this except when addressed + then in a whisper — Eats + sleeps well — Is fairly well nourished — No medicine.

Oct 25. It is said that he speaks a little occasionally — When asked how he is, his reply is invariably "Bout de same".

Feb 14. 1884. Visited today by wife + child — Wife says his name is "Elof" — It was thought the Yes is still profoundly depressed — + today is about the first time he has spoken above a whisper for months — He weeds a great deal. Occasionally he has done something prompt — Does no work — Rarely speaks unless addressed. Is well behaved — + clean + neat — No medicines. Complains of some rheumatic pain in one of his wrists.

Feb 15 Again visited by wife, child + a neighbour.

March 1 — No special change — Rather thin.

June 1. Is slightly improved — Has worked in blacksmith shop — but there being no work there now is to work outside — Has taken tonics for several months now.

Dec. 11 — 1884. Tonic discontinued. Was visited by wife during the summer. Is becoming more demented and broods over his confinement. Does a little work on the wards. Had a "bilious attack" during the summer.

Feb 1 '85 No special change. No medicine. Works on yard and goes walking.

May 1885. Has had two attacks of rheumatism since last note. Thought physicians were trying to kill him. Suffered from pain in lower part of chest and dyspnoea. Pulse very slow — 52. Vomited. Is now up and doing light work outside. Has spells of dizziness and shaking of head. Is now on tonic. Has taken Na Salyc., Na Hb O3, & c for Rheumat.

May 25 85. Has been doing light work on the lawn. To-day was allowed to go home alone on trial.

Discharged
Nov. 1 — 1885.
Judge of Prob. and Friends notified.

Correspondent,	Peter Anderson. Houston P.O. Houston Co. Minn.		

This patient was brought here by the Sheriff of Houston Co. Her history – which is vague & mixed – is as follows:–

The supposed cause of her attack is, "Congenital Imbecility." Its form is "Chronic". In answer to the question, when were the first symptoms of the disease manifested & in what way? we have:– "from birth general debility." This is not the first attack. Others occurred "every day or two."

Insanity is now manifested by "loss of faculty." She has shown a disposition to injure others from sudden passions, & is addicted to destroying her clothing. In reply to the question as to peculiarities of temper, religious impressions before her insanity appeared – the reply answers is "No."

As to any accompanying bodily disease the reply is "Yes" – & then it is said that she has not been subject to any bodily disease.

No restraint or confinement has been employed. She has been under medical care "without effect."

On admission it was observed that she had partial paralysis of the right side. R. Magnes. Sulph. ℥i.

Patient well nourished but flabby looking – ordered Fr. Gent Co. & Calumb. Tonic & three times daily before meals.

Oct. 9. Tonic discontinued.
" 10. No appetite – complains of being cold & then hot – given doses of salts followed by quinine.
Oct. 22 – Last few days appetite very bad – had to be fed – Is now taking Vin. Ferri. et Cinchon. B.S.D.

March 1 – 1884 – No special change – Quite fat – Helps take care of other patients, in a small way.

June 1 – Every now & then goes to bed for a day or two, – the paralysis being worse & patient unable to walk – But she soon gets better & able to get around. Has taken no medicine for several months now

December 20 – '84 – No special change. No medicine.
March 13 – 1885 – No special change – No medicine. Does nothing.
June 18 – 1885 – Last note still true. Sept. 25 – 85 – No change. No medicine
Nov. 30 – 85 – No particular change. No medicine. Habits clean.
March 1 '86 – Not reported dirty. No medicine.
May 28 '86 – Had one attack of erysipelas this spring. No change mentally.
Aug. 31 – 1886 – No change in bodily or mental condition until about Aug. 19th, when she went to bed and remained there till a day or two since. Had some fever, but no definite trouble could be made out. Habits clean. Does no work.
Jan. 17 – 1887 – No change since last note. No medicine.
Apr. 20 – 1887 – Bodily health not as good. Is quite weak and often goes to bed for a few hours. July 15 – 1887 – Remains about as at last note. Has headaches frequently and rheumatism of hip joint, which prevents her from walking much. Sept. 28 – 1887 – No special change.
Jan. 6 – 1888 – No change noticeable – Apr. 6 – 1888. No change. No medicine needed this quarter – June 20 – 1888. No change. Occasionally in bed for a few hours. Oct – 4 – 1888. No chang – in any respect. Feb. 17 – 1889 No change in any respect. May – 13 – 1889 – No improvement – Demeanor in appearance – July – 23 – 1889 – Patient is doing well – Health quite good – As stupid as ever.
March 2 – 90 No change – Stupid – Sits still most of the time will speak when spoken to but otherwise does not talk. May 28 '90 Very quiet clean healthy pretty good – No work.
Oct 29 – 1890 Health generally good – Sometimes cries with pain in the stomach. Very quiet can not get her to talk much
Nov 24 – 1890 No change in any way Jan 26 – 1891 Health generally good. No mental change May 25 – 1891 Health the same often found crying when she says she has pain in her stomach
Oct 5 – 1891 Bodily health as usual – No mental change.
Nov 14 – 1891 Bodily health not very good Has spells of crying when she complains of pain in her stomach In good flesh Ordinarily sets very quietly on the ward Talks incoherently when addressed Always whispers in a way that is difficult to understand
Jan 30 – 1892 No change
Feb 23 – 1892 No change in any way
1892 30 Aug General health seems to be good – though at times has spells of crying when she says she

Predisposing cause,	Not Heredity.	Result,	Discharged. Improved.
Correspondent,	John Arndt (Mustad) or John Anderson (Father)	Newhouse.	Houston Co. Minn.

This patient was brought here by Deputy Sheriff Gregson - brother of the Sheriff of Houston Co. He has the following History: — The supposed cause of the attack is "Chronic organic disease" - & he has "Chronic Hepatitis". Under head of particulars supposed to have a bearing on the case, we have: "Pericarditis and Hepatitis and Masturbation". The form of the attack is "Chronic". It was first manifested "6 years ago" and is "Paroxysmal". It is now manifested by "Jealousy with intent to injure his parents". His disposition to injure others has been from "Premeditation". He has attempted suicide "by the use of a knife", & his propensity to commit suicide is still active "at times". He manifested no peculiarities before his attack commenced. He has never been confined. He has been under medical treatment, but "without effect".

The patient is fairly nourished - has some jaundice, shown by yellowness of the eyes. He says his heart does not trouble him unless he is excited - It has an abnormally strong impulse but the sounds seem clear - He says, he first masturbated when 16 years of age - claims he has not done so for some little time now - Says his parents were "bad", always "quarrelling & fighting" & did not train him up in the way he should go.

Oct. 29 - Very yellow appearance of eyes - complains of constipation - Ordered Calomel & Jalap - & R. Acid Nitro-Mur. Mxiij. Tr Gentian Co fʒi - to be taken in water 3 times daily before meals. Does not seem to improve mentally -.

Nov. 5. Having been discovered masturbating - was today Restrained.

March - 1 - 1884 - Improved - Plays violin in hospital orchestra & R. tonics.

June - 1. For several weeks has been badly depressed - Very religious - Has begged to be castrated - Denies having masturbated for a long time - cannot discover that he does so. Occasionally jaundice becomes worse & he is given Nitro Hydro Chloric Acid with Tr. Gent: Co. with good effect.

The present depression began with an attack of jaundice, which yielded to treatment. R - Tonics - Tinct. Ferri et Cinchonæ - fʒi; Bismuth. June. 6 - 1884 - Was taken out to work today to brighten him up - & he seized the opportunity to elope.

Sep. 1 - 1884 - Has been reported from home as doing well & his friends have requested his discharge.

Discharged.

Sep. - 10 - 1884.

K. L. Gilbertson. (from p. 146.) Aug. 22 '94 to quiet & inoffensive, works in Bakery, has delusions about wealth & thinks he is getting paid for his work. Talks a little, but incoherently, is clean & neat. health good. Sept 26 '94 has been kept inside for past two weeks on ac of sore eyes. no further change. Oct. 30 94 Eyes much improved. has resumed work. Nov '94 Works in Bakery, has delusions about money, frequently asks for his pay, is clean & neat. health good. Dec '94 No work since 9th on ac of sore finger. Jan 29 '95 has acquired habit of picking toes 2 years, keeps them in bruised & bleeding condition. April 2 and 1895. Went to work in bakery again. Health good. Has delusions as above stated. May June & to July 31/95. Patient keeps about same, all the time. Quiet: works in bakery: has delusions about wealth & imagines that he receives pay for his work. Habit clean. Health good. Aug Sept 4 to Oct 31/95. There has been no noticeable change during the quarter. Still holds to his delusions. Works in the bakery, steadily. Health good. (During latter part of August, he was troubled with a large abscess on neck, but during September this healed up.) Nov 4/95. Wt 171 lbs. Oct 64. Nov Dec & to May 31/96. During this quarter, no change noticeable: habits clean: works in bakery: health seems to be good. - May 1 '97 Dunnyway Nurses Notes by Dr. Phelps. Feb 1/96 to May 1/97. Patient about same as for many years past. has worked a good deal of time in bakery: In April '96 patient had inflammation of face & erysipelas, on account of which he was in bed for about a week on the Infirmary & was then transferred to the Annex. & soon after went back to work in bakery: behavior good: talks of delusions as usual but they are not troublesome.

Correspondent,	G.S. Chamberlain (son) Faribault.		

This man was brought here by his son – G.S. Chamberlain – & with the following history:– Insanity first manifested 6 or 8 weeks ago by "morbid apprehensions of his own "health, business &c". He had no peculiarities before the attack – He used to be intemperate – but has been temperate for last 2 years – Always moral. His attack is "Chronic & depressed". He is now "fearful of being hung, shot &c" & has "illusions". He is not filthy or destructive, & has no disposition to injure others. "Has never had any injury to head or been subject to any bodily disease." Has been blind about 5 years – gradually getting worse – He can see to walk about – Mr G.S. Chamberlain says he has suffered from insomnia for last 15 years – & that he has taken "Bromides" off & on" for about a years – His scalp is covered with an eruption probably caused by the Bromides – Mr G.S.C. also states that his brother – son of the patient – was insane for a short time & was confined in College Hospital Minneapolis and in St Peter – but is now perfectly well; and that Aunt of patient – Æt. 82 – is "childish."

The patient has never been restrained. He has been under medical treatment (Tonics & sedatives some, but no effect) – Taken Bromidia for sleeplessness & wakefulness for a year, as required, with good effect.

He is rather thin – not well nourished – His son says he has been very irregular as to eating &c.

Oct. 11th says he is often constipated – & is troubled with heat & dizziness of the head – Has had one cathartic of Calomel & Jalap – Ordered sleeping draught of Chloral 20 grs – Also Elixir Ferri et Cinchona – B.I.D.

Oct. 16. Excited at night – Hears people speaking to him & imagines there are men in his room to kill him – Complains of constipation. Ordered Ext. Cascar. Sag. fl. with tonic – B.I.D.

Oct. 22nd – Sleeps about 3 hours a night – without Chloral – Ordered one good dose of Chloral once a week – Oct. 24. Ext. Casc. Sag. fl. discontinued.

Oct 27. Says that at night he has hallucinations of sight – sees children &c. He states that he knows these are not real, & believes they depend on his head being wrong – but that they annoy him very much – Says he is not troubled with constipation now – but his sleep is no better.

Dec. 1. 1883. Becoming demented – Emaciated – Tr. Tonics –

Jan 1. 1884. Very thin & weak – Seems cold – Moved from B 1 E to B 3 E in order to keep him warmer – Has had to be fed for some weeks past.

Jan. 9. Has been in bed now for some days – Before he was put to bed his feet were edematous – but the swelling having subsided has left them red & covered with scales – His arms are also covered with scales – He cannot last over a few hours – has no pulse at the wrist – Cold – Respiration gasping.

10. a.m – Died.

The friends were communicated with by telegram – and his son, (Mr G.S.C.) today, 10th Jan, removed the remains.

Died

Predisposing cause,	Not hereditty.	Result,	Recovered.
Correspondent,	Chris - Nelson - (Brother)	Rasson -	Dodge Co. Minn.

This man was brought here by County Commissioners - W.A. Winston, accompanied by his brother & others - He has the following history :—
"Has been in the habit of drinking hard for the last year" - One of his friends states that the last 3 months of the year ought to be excepted - as during this period he was not allowed to have liquor. His attack is described as "acute". It was first manifested by "Insomnia" and "loss of Appetite" - These symptoms have recurred very few weeks since Jan. 1st. During these paroxysms he will scarcely speak - & does not work - He has shown some disposition to be violent "by knocking over "Chairs & pushing his Mother away from him." Further, it is thought that he has "contemplated suicide; has a rope hid away, also" it is thought "a razor." He neither destructive nor filthy. Insanity manifested "on no particular subject". These paroxysms last from "2 days to a week". Between the paroxysms he behaves well & goes out working - but is unnaturally quiet & evidently not quite himself.
Has never been subject to any bodily disease & has never been restrained. Has never been under medical care - he refused it from the first. He is well nourished
Oct 12. Given Cathartic, Calomel & Jalap. Oct. 15 - Dose of salts.
Oct - 16 - Slight icteroide appearance of eyes - ordered 3 drops of pure Nitro-mur. acid, freely diluted, 3 times daily, before meals.
Oct - 24 - Nitro-Hydrochloric acid discontinued - R. Elix. Ferri et Cinchona - f3i - B.I.D.
Nov. 13. Has improved since admission till last day or two, but is now as bad as ever - Masturbation suspected - Was today blistered.
Dec - 1. Depressed - takes little or no notice when spoken to - Very sullen
R. Jones -
Mch - 1 - 1884 - No special change - For some time has been taking 30 grs Chloral twice a week - as he was troubled with Insomnia. Has had visits from his friends (last November) - & from brother (last December) - & in July he was visited by father & brother in law.
R. Jones
June - 1 - Seems a little brighter - Plays Checkers with other patients - No medicine now for a long time. Is on B.I.D.
June - 28 - Has made marked & rapid improvement. Was today allowed to go home on trial -

Discharged.
Sep - 10 - 1884.

Predisposing cause,	? Hereditty.	Result,	Died. Pneumonia.
Correspondent,	Patrick Flaherty — (Father) — Rosemont — Dakota Co. Minn.		

This child was brought here by his father — and with the following history. — He has been earning his own living since 10 years of age — Mother dead & father with large family knew he knew what to do with — Education neglected. Two years ago began to have fits — (evidently grand-mal) — No cause for these is known — He has been treated by various physicians — apparently without effect — Sometimes has 4 or 5 fits a day.

His insanity is manifested on "no particular subject." He has no disposition to injure himself, or others, to be filthy or destructive. He exhibited no peculiarities previous to his first epileptic seizure. Has been subject to "no" bodily disease. He has never been restrained — No other particulars are known.

His father on being asked why he had his son sent here said it was because the boy had fits, so home was none to take care of him. He is well nourished.

Oct 12 - Has had several fits since admission — Passed urine in bed during the night — Ordered Potass Bromidum & Tr Belladonnae: also 3 drops Tr Cantharid. B.I.D.

Oct. 16 - Does not now wet his bed, as formerly.

Oct. 22 - Only 2 fits yesterday — Previous to yesterday 4 or 5 fits a day — Says he was under treatment by Dr. Wheaton, at St Joseph's Hospital, Saint P. Paul, for some time — Says also that when under treatment by Drs. Reeves & Turner of St Paul, he was nearly 3 months without an attack —

Oct. 24 Tr. Cantharid — & Belladon. discontinued.

Oct. 26. Fits at meal times usually — At dinner time today warded off an attack by inhalation of Amyl Nitrite —

Oct. 27. One fit today only one yesterday — the Nitrite of Amyl being used at meal times.

Nov. 4. No fits for some days — Does not know whether he has any at night — Nitrite of Amyl discontinued.

Nov. 5 Another fit at dinner today — Amyl Nitras resumed.

" 11. Has some febrile symptoms — Having taken a calomel purge is now taking quinine —

" 15. For the last few days has been complaining of pain in left side — & stiff neck — Says now that the pain has moved from side to left shoulder — Given a Seidlitz powder & a dose of quinine & Dover powder (regular quinine treatment discontinued); Also an ounce bottle of Stokes' Expectorant & Belladonna plasters — on side & shoulder — Complains of cough —

" 16 — Pain now in side again — Has left shoulder

" 17 — Pain in left side & shoulder — increased on pressure — R. Mustard plasters over seat of pain — left skin is red — Complains of loss of appetite.

" 20 — Feels better — Constipated — R. pil. Comp. Cathart.

" 22 — Still troubled with pain — R. Liniment — Alloco formis.

" 23 — Says he feels very sick — ordered to bed — Physical examinations seems to show dulness — localized pleurisy — with fluids.

" 25 — Some cough — Occasionally slight rust colour in sputa.

" 26 — Still complains of constipation — No improvement in other respects.

" 27 — Thinks he had a fit last night — but is not certain.

" 28 — Says he is in pain all over — No rust colour in sputa — Pulse 100.

" 30 — Delirious — Ate no supper — R. Tr. aconiti. Mx 4th Tr Belladonnae Mx. Gfits Athoris Nit — f3j — repeat every 3 hours till 4 doses have been taken.

Dec. 1. Had a fit this a.m. Did not rest well. So rather low — Pulse slightly remittent. Ordered — f3iij — of Tinct Vini Gall — in 8 oz of milk — To take a little every hour or two — at night — f3j of brandy, was ordered to be given in a cup of milk.

" 2 — Very low — Feet cold & nails blue — Hot water bottles ordered. R. Quin. Sulph gr iv — Acid sulph — aromat. Mxx — Spt. Frumenti ad f3j — Sw. water I.S.D. before meals — Whiskey & milk repeated. Little or no cough — absence of this perhaps due to Bromide — so it is now discontinued. Respiration 24. Later — Little or no air is entering the lungs below the apices. The muscles of the arms &c — seem rigid — Whiskey & milk repeated.

" 3 — A.M. Gnashes on teeth & lips — Slight cough — Pulse a little stronger. P.M. Pulse & Respirations rapid — but pulse seems strong — Skin feels to arms — Is perspiring freely. R. Potass Sulph. gra vj — Spts Frumenti f3j, 3ss make into an emulsion — Repeat in two hours — So Comatose.

" 4 — Died at 1.5 a.m. Father was telegrafted to today —

Autopsy 14 hours after death — The thorax was opened & a superficial examination of its viscera made — There were no signs of pleurisy — The heart seemed full of blood — The lungs were fearfully engorged. The only part of the lungs which seemed normal was the apex of the Right one — The loosen lobes of the left lung was of a dark blue colour & completely hepatized — & there was no crepitation whatever in it — All the rest of the lungs was in various stages of hepatization.

Dec. 6. Father came today and decided to have the remains buried by the State — This was accordingly done this a.m.

— Died —

Predisposing cause,		Result,	Improved.
Correspondent,	Thos. Jelinck (Father). Tirba – Rickland Co – Wis.		

This man was brought here by Sheriff Bogart of Winona Co – He has the following incomplete history: –

"Tuesday Oct 9th – complained of being sick – left house – prayed constantly – His "attention could not be secured" & he was "very noisy". This is probably his first attack, – "so far as is known". It is described as "acute". He has shown no disposition to injure others or himself, or to be destructive or filthy – There is "no history" of any peculiarities before the attack. As to bodily disorder, he has "evidently derangement of secretions". His insanity is now manifested by his praying "vehemently", not wishing "to remain in house &c" – The only restraint he has been subjected to during this attack was his detention one night in jail. Nothing further is known of him, except that he has had no medical attention.

Mr Bogart said that, on admission here he had eaten nothing for 2 days.

On admission, he began at once to pray, on his knees – After a little he was forced to sit down – he became quiet & answered one or two questions in broken English & German. His voice was very hoarse – & complained of pain in the chest – He refused to eat till the gag was used & then he ate with apparent relish – Was ordered a hot baths, & Chloral Hyd = =drates gra XX. He is of very dark complexion, and rather thin.

Oct-12. Refused food & drink – Shouting "Ach, Ach" – continually – In the afternoon given subcutaneous injection of Hyoscyamine m XV – Immediately afterwards it was discovered that his bladder was immensely distended – The prepuce (rather long & tight) being pulled back his urine flowed in a full stream – Spasmodic stricture relieved by the hyoscyamine. Some milk was given him, & 2 drops Oleum Tigli – (It ought to be added that this a.m. he was ordered another hot baths & cold water on head) In the evening passed catheter; when instrument was partly in, urine flowed in full stream – 30gtts of Chloral & 3xl Hyos f3j given.

Oct-13. Tr croton oil, given yesterday, acted during night – Patient passed faeces in bed – This evening, patient passed urine freely in bed – All the urinary troubles probably due to patient's indifference to calls of nature. Chloral gr XXX – T. Hyos. f3j.

Oct-16. Much quieter – Attends to calls of nature –

Oct-22nd – Somewhat depressed – Is now taking – Elix – Ferri et Quiniae f3j – Quin Sulph gri – T. N.D. Acute cubeus – Oct-25 – Seems better – Does a little work on ward.

Oct 26. Visited by brother in law – who agreed to take him home – Oct-27 – Was allowed to go home with brother-in-law to Wisconsin – He was depressed but seemed in a fair way to recover – having improved wonderfully since admission.

Discharged.

Dec – 5 – 1883.

Is quietly behaved part of the time but is more often in his ugly and violent "spells". Talks incoherently. Habits are neat. On the whole, no improvement is noticed. March 1 94. Wt 151 1/2 lbs (Has lost considerably during past month, without apparent cause; has not complained of any ill feeling). Pulse 80. (Mar 31 94) Appetite good; bowels regular. 6 Convulsions reported during month. Recently received some bruises on ear, in a fight. Has been engaged in 3 fights during month. No improvement. April 1 94. Wt 152 1/2 lbs. Pulse 66. April 15 94. Is having a noisy, ugly spell today. April 26 94 Vaccinated. April 30 94. About the same from month to month; still has noisy ugly & violent spells, when he will fight savagely & is very hard to control. Convulsions still occur. No improvement to note.

Predisposing cause,		Result;	Improved.
Correspondent,	John Cowan (Grandfather) (or) Sheriff Barton } Faribault.		

This patient was brought here by Sheriff Barton - He has the following history: - His residence is at Claremont; - but at the time of his committal to the Asylum he was in the gaol at Faribault, awaiting his trial for ~~burglary~~, so comes from Rice Co. The Sheriff says he has been in prison 5 or 6 times, + is a hard citizen.

As to his habits: "He says" he has been "temperate + moral, but others say he is in the habit of drinking". Masturbation is the "suspected" cause of the attack, which is described as "acute". It was first manifested "2 or 3 weeks ago, thought he was going to suffocate". He had a similar attack "2 years + over ago; used Richmond's nervine". "He was confined to jail 2 years ago for a similar attack, forged an order for clothes". His attack is now manifested by his "despoying things". He has not shown any disposition to injure others, but "was trying to fix an iron rod - possibly to hurt some one with." He has attempted suicide, by hanging himself with a sheet, 11th inst. He was cut down, black in the face. As to bodily disease; he "fell off a freight car 3 years ago + hurt his head" - At present he "complains of dyspepsia, tremulous". Restraint has been employed; he "has been in jail 3 times at least." As to length of time he has been confined, we have: "10 or 15 days, three or months or so; this time since 15th "August 1883". In reply to the usual questions about medical treatment, the answer is: "Yes - Dr Nelson gave an opiate + Bromides of Potash - would not take the Bromide."

Particulars bearing on the case: "Rather a hard citizen generally, propensity to pilfer always."

It is considered, from the above peculiarly lucid descriptions, that the patient is the subject of Chronic mania, continuous for the past 2 years - + what have been described as 2 separate attacks, are simply the disease showing itself more plainly on those 2 occasions.

Oct. 14 - Quinia 3j Magnes. Sulph.
" 15 - At bed time this P.M. ~~escaped~~ threw window of his room, the wire guard of which had been carelessly left unfastened
March 1 - 1884 - Has not been heard from again. - Discharged - Mch: 5th 1884.

Lena Anderson - from 172

1883 Aug 30 has pain in abdomen - Generally sits very quietly on the ward Does not walking and riding
Mch 23 '93 No work, is quiet - usually, crying spells & at times is destructive, appetite good, general health good,
May 10 "93 At times is quite violent - destroying clothes, but usually sits very quietly upon the ward, does not seem to notice anything that is going on.
July 19 93 Appetite good Goes walking. does not go riding because it makes her sick Gen health good.
Aug 15 93 Examination by Dr Phelps today, brought out the following; pupils dilated: tongue, effort to put out; spasmodic movement. Left foot, acts best. Reflexes exaggerated. Incoordination. Choreiform movement of hand; Generic movements in effort to do something. All muscles act same way. Heart normal. - Articulation, one or 2 words at a time; can't talk along; mentally, half-imbecile. Diagnosis. A Cortical change. Slight in character, such as produces choreiform or athetoid movements. Sept 15/93 Is quiet. Habits clean. At times can not walk. Appetite good. Oct 7 1/93 No change. Jany. 2/3. 94 Received on Co Seems to have difficulty in breathing Face very flushed and red. was quiet & slept all night. Very much better a Jany 24 94. Bowels moved back on same a Jany 25. 94 and rose up at 8 o'clock, on wood on Jany 26th at 1 PM. For details see nurse's records. May 2 94 Appetite good Is quiet most of the time Has crying spells every 2 or 3 days. Will some times tear her clothes Wears strong dresses. It is quite difficult for her to walk at times. Clean in habits Goes walking It makes her sick to ride. Gen health good.
June 21. 94. Appetite Good Sometimes has crying spells, otherwise quiet. Clean in habits Goes walking. It makes her sick to ride Gen health good Sept. 1 94 Appetite good. Clean in habits Quiet in behavior. Goes walking Gen health good. Jany 2 1895 Appetite good Clean in habits Quiet most of the time. Has crying spells on an average of once a week Gen health good. Goes walking but at riding as it usually makes her sick. March, April and May 95 No change in any way. June 4 Menstruates June 27. Appetite good. Clean General health good. Quiet. Goes walking but not riding Complains that it makes her sick. Aug 6 No change. Sept 4 Physical examination made today - General nutrition poor Appetite is variable Bowels regular Heart sounds are normal Lungs seem normal. Oct 10 Quiet in behavior. Appetite fair Clean in habits Talks some Goes riding + walking. Nov 5 Appetite is fair Clean in habits Quiet in behavior Goes walking. Jan. 20 Appetite good: clean. Usually quiet: has occasional crying spells: at times is not able to walk: General health fair: takes out door exercise. Mar. 20 Appetite good - Clean in habits Has crying spells often otherwise is quiet General health good. Takes out door exercise. Mar. 26 Apr. 4 May 18 Menstruates
June 30 1896 Summary Notes by Dr J L Phelps: - Quiet Health Good. habits clean + tidy: menstr. regular. Takes out door exercise: quiet: rather thin + emaciated: Feb 29 Has hysterically disturbed spells: will cry + make a good deal of fuss at times: May 97 no change. July 98 Lungs + heart Examined: Quiet nutrition impaired: Chest concave: chest expansion very fair. Resp 30. Heart sounds quite rapid: tumultuous: Pulse 120.

Correspondent,	Mrs Philip Heintz (wife) (or) Philip Heintz (Son?) } Rochester.		

This patient was brought here by City Marshall Kalb of Rochester — He has the following history: —

He has had numerous attacks of insanity, which lasted "from 5 days to 5 months." The first symptoms were manifested "many years" ago, "after a drunk." It is not stated in what way his disease is now manifested. His attack is described as "acute melancholia". He has shown a disposition to injure others "from sudden passion". Suicide has not been attempted, "but threats have been made". He "destroys clothing, but nothing else." He manifested no peculiarities before the attack appeared — He has never been subject to bodily disease of any kind, nor received any injury to his head. He has never been restrained, confined, or under medical treatment.

On admission he was obviously the worse for liquor; he cried & wanted to be allowed to go home to his family — He is a short, thick-set man, & well nourished.

Oct 22 - Very anxious to go home — Says he is all right & will never drink again &c &c — Very anxious about his "business" (His son says he has neglected it for 5 weeks) — Has occasionally been whimpering & crying because he was obliged to stay here.

" 23 - ℞ - Quin Sulph - gra xxxij — Acid Sulph. aromat. ℥ss xxxij — ℥ss Gent Co ad ℥iv. M. Sig: ℥ss - B.I.D.

Nov. 2 - Trional & Bromide — discontinued. ℞ Tr. Ferri et Cinchon - ℥ss - B.I.D.

" 7. Bonds discontinued -

Nov. 12. Left for home — he's a nuisance with them — on trial.

" 30. Having taken to drinking again & become unbearable at home, he was today returned — (brought by Mr Kalb.) — On his readmission he was very drunk.

Jan. 7. Has been working daily in carpenter shop since his return. — Was today allowed to go home again on trial.

Discharged.
June-11. 1884

Continuation of History of Albert Craig from p. 535 & 136. 179

Jany 1-1890 Vomited considerable all day. ℞ Castor oil ℥j; Ol. terebinth ℥j by rectum Pulse intermittent, but fair vol & strength. 10 P.M. Passage from bowels. Followed by rectal injection of oil & turpentine Jany 2-1890. Pulse 80. intermittent; had 2 or 3 passages from bowels, last diarrhoal, first hard scibulous. Tr. Opii continued in 30 to 40 drop doses every 4 hrs Jany 6-90. has diarrhoea; not gaining strength; has not vomited for 2 days. Pulse 100 intermittent, rather small, tongue coated; eats fairly well. Paregoric was added to Op. mixture Jany 7-90. Pulse 104, irregular, not good. Slight passage from bowels & some gas. Abdomen very tympanitic. ℞ Ol. Ricin ℥j, Ol. Terebinth ℥j & ℞ turpentine stupes. 8 P.M. quite free passage from bowels. Pulse intermittent & soft. ℞ Brandy & milk every 3 hrs. Jany 8- Pulse intermittent weak. Had a free passage. disinclined to eat. Flour gruel. Brandy & milk at night. Jany 9- P-80- intermittent, but stronger. Passage from bowels. Jany 10-90. Pulse 100, some intermittent; passage last night; no vomiting. Jany 11- P. fair. One desirable movement; no vomiting; abdominal distension less. Jany 12- P. 90, regular & strong. Jany 13. P. 92. slightly intermittent, rather small & soft. Jany 14- Has involuntary discharges from bowels. ℞ Pil. Plumbi Acetat. gr. ½ nocte. S. One every 3 hrs. Involuntary discharges continued; vomited once. Pulse quite regular & fair. Patient feels weak & eats poorly, and is much emaciated. Whiskey & milk given during night. Jany 15-90. Involuntary passages continue. Pulse very intermittent & poor. Discharge serous & large. 8 P.M. By advice of Dr K. gave rectal injection of 2 or 3 grants of hot water, 114° F in vessel. ℞ Tr. Op. continued adding Tr. Op. camph. Jany 16. Bowels relieved since injection. Pulse 90-96. Irregular, fair. Respiration 16. full, deep. Temp axillary 98⅖. Tongue coated white, dry. Vomited during latter part of day ℞ Cerii Oxalat. gr ½ Bismuth Subnitrat gr xl, S. repeated until vomiting ceases. Jany 17- 2:30 P.M. Has been vomiting; no passages from bowels. Pain & soreness in abdomen continues. Pain in swallowing, hence refuses food unless urged much. Pulse 90. quite regular & fair. Jany 18/90. Pulse 98- regular. 2 passages in bed. vomited some, not much this am.; eats little. Jany 19- Pulse 100 regular & strong no passage from bowels since yesterday am. Jany 20. Pulse 104, smaller; involuntary discharges from bowels; not as serous as on previous occasion. Given rectal injection of hot water. Jany 21- Pulse 104, weak & small. Swallowing very painful. Respir. slow & easy; vomited ℞ Cerii Oxalat & Bismuth Subnitrat. Jany 22- Had 2 thin watery passages from bowels, very offensive. Pulse 106, small. No vomiting. Jany 23. Pulse 106, very small; refuses to eat. Had hot water injection yesterday PM. Bowels continue to move. Jany 24/90. Has cutaneous hyperaesthesia; complains of pain if left in one position for a short time. Has to be turned in bed. Complains of difficulty in breathing; retches up whatever is swallowed. Pulse rapid, weak & irregular. Jany 25- Very low & weak. Food comes up almost without vomiting.

Jany 26 - 1890. Died.

Autopsy. Patient very much emaciated. Examination of lungs & pleura negative. Heart valves & aorta show incipient atheroma.

Continuation of History of Albert Craig. pp. 55 & 179.

Sack of hernia opened & found empty of both gut or mentum, and showed no inflamatory process. Opening up peritneal cavity was difficult owing to numerous adhesions of mentum & intestines to the anterior abdominal parietes. Peritoneum showed a general inflamatory process, most marked in the hypogastric & two iliac regions & in the pelvic cavity. Peritoneum higher up was in better condition, altho showing inflamatory reaction.

In the hypogastric & pelvic regions there were evidences of a high degree of inflamation, the parts being much thickened, (especially the great mentum & mesentery), extensive adhesions in such a shape that the mass seemed hopelessly disentangled the. Pockets of pus were found in the adhesions & pus in the dependent parts of peritoneal cavity. Whole mass was in of a black hue & very rotten (exam was made 2 days after death, body having been kept in cold mortuary). Several feet of the small intestine, begin at farther end, about 2 ft from ileo caecal valve & was involved in the worst mass of adhesions & was black in hue & very rotten, tearing on the fingers. The condition of things was such that it was impossible to determine the original condition of things, whether the hernia was reduced en bloc & there had been originally this or other intestinal obstruction for first few days or whether there first occurred a simple inflamation going on to such lengths - or whether there had been traumatism in reduction - One consulting physician was held the opinion that patient had forced the hernia back & that this produced

the haemorrhage & subsequent trouble. Cause of death was plainly peritonitis. Brain showed slight changes.

Nov 27/90. In several weeks past has had fits quite frequently, as often as one & two a day. Patient has not been ugly after them; has been rather silly & at times noisy; walking hall singing & whistling; has claimed to be as well as usual. Does not lose flesh. Is rather better at present.

Jany 3/91 Had a fit in night. Feels sore.

Jany 28/91 Had a hard fit yesterday afternoon.

Feby 10/91 Has eaten good. Eat. Conduct as usual. Occasionally a little ugly after a fit. May 5/91 Complains of a cold, cough & coryza.

May 19/91. Sick a bed to day. Got up at 6pm. Feels sore. May 27/91 Given a dose of salts.

June 6/91. Has two fits repeated in the night. AM. Is in bed; ate no breakfast. Pulse 102, Resp. accel. T(R) 100.2 Has bodies on lips; is dull, stupid; given medicine Pm No fits noted until during forenoon { rec'd June 8- 1891 } until 11:20 Am. 12M. Has four fits in last 40 minutes. Given hypodermic of Hyoscin, Pilocarp and Apomorphine, with some Spartein. 1:30 Pm Rectal injection of potassium bromide (3ij). Is cumatose. P.116. Has one fit about every 15 minutes. 2:15 pm Given another hypodermic of Hyosc, Pilocarp & Apomorphine. 2:18 - Has had 13 fits. P.126. There has been no effected of the hypodermics noted. 2:39. PM - P. 138 T(R) 102.6°F. Patient has between distinct fits, 2 or 3 spells of more pronouncedly clonic ones, rapid breathing, accompanied by some rigidity & irregular movements of limbs. These are doubtless imperfect fits. Convulsions begin with spell of quick & absence of respiration for about 15 seconds, gradual opening of eye lids, turning of head to the left, & at this point the beginning of convulsive movements. 3:15 Pm P118. 3:33 Pm Pulse 120.

See Page 137.

MARY A SPECKMAN:

OCT.31st'92 Appetite good, sleep good, menstruation absent, bowels regular, behavior quiet, talks quite sensibly at times. NOV 15 fits almost daily, does not frequently fall while in fit, health good. NOV. 30th Appetite and sleep good, bowels regular, behavior quiet, talks but little. Dec.31st Appetite good, no work, behavior quiet, sleeps well, fits almost every day. Feb. 28th'93 Appetite good, no work, behavior quiet, sleeps well, fits almost daily. Mch 31, appetite good, behavior quiet, talks incoherent, fits every day. Pulse normal, physical condition good. May 19th Has fits nearly every day, seem to be light, does not fall as a rule, does not work, very quiet, goes out walking. May 31st Appetite good, behavior quiet, fits often.

July 7th, appetite good, cleanly in habits, behavior violent at times, talk rational. July 28th Appetite good, behavior quiet, fits nearly every day, irritable at times, talks incoherent, goes riding and walking, general health good. Aug. 30th about same as last month. Sept'93 appetite good, behavior quiet, does not work much fell in fit and cut head.

Oct. 30th'93 appetite good, behavior quiet, talks but little, fits almost daily but very light; bowels regular.

Nov. 30th'93 No change from above note.

Dec.31st'93 Appetite good, behavior quiet, sleeps well, bowels regular, has very light fits, seldom falls. Jan.31st'94 appetite good, very quiet, does not talk much, clean, bowels regular, has fits daily. Feb.28th'94 Behavior very quiet, sleeps well, appetite good, bowels regular, has fits often -never hard. MCH.31st'94 Appetite good, behavior quiet, clean in habits, sleeps well, bowels regular. APR. 7th'94 was visited by friends. APR.30th'94 Behavior about the same, has fits quite often but very light, talks some of home, bowels regular. MAY 2nd'94 on C-2, large sores on limbs, a watery fluid discharging from sores constantly. Sore washed in Bichloride; during her stay on ward patient enjoyed a good appetite rested pretty well at night, sat up on ward, May 13th -sore almost healed. For particulars see Nurse's record. MAY 31st'94 Appetite good, quiet on ward. June 1st'94 Appetite good, is quiet on hall, July 1st'94 same as above, has fits very frequently, sleeps well, is clean talks of her home and children. July 4th'94 received company, is very quiet in behavior, Aug. 9th'94 transferred to C-2- Aug. 31st, appetite is fairly good, tidy in habits, goes out walking, talks quite sensibly.

9:50 AM. Died. Brothers who had been notified of patients danger, had arrived & were present at his death bed.
Remains removed. No autopsy.

Died

Mary Ann Beckman:-

May 18/92. Patient has had no spell of especial consequence. Was moved down to C-3, as was becoming dirty in some of her habits. Usually looks tidy, however, and makes no trouble. Fits & general condition about as in the past.
Sept 1st 92 Is of late very quiet, moved up to C-8 as cold weather comes on, for fear of getting burned on the heater. No change in any respect.

C.L.ZIMMERMAN?:- May 30th'93 Appetite very good, eats in room, bowels regular, talk most always abusive, but can talk rationally at times.
June 3rd'93 Weight 153 lbs., pulse 78.
June 30th'93 Appetite good, suspicious about the food, and says it is drugged, and often eats nothing but bread and hot water. Eats in his room. Complains of being weak, tried working out doors, but gave it up. Has been out walking several times, something unusual for him. Visited by friend June 16th, refused to speak to him, no other notes of value to report.
July 2nd '93 Weight 151.5, pulse 90.
July 31st No change to report this month.
Aug. 1st '93 Weight 153, pulse 96
11th Refused food, believes it poisoned
12th Changed his mind, and made up for what he had lost.
31st Physical condition ~~xxxx~~ good, noisy during day remains in his room most of the time.
Sept. 2nd Weight 151 1/2 pulse 80,
30th Physical condition good, visited by friend but refused to talk to him October '93 1st weight 154 1/2 pulse 96.
31st Appetite very good, physical condition fair, remains in his room abusing everyone.

Carried to Transfer Book "A" page 16

MARY THOMPSON:
SEPT.30th'92 Eats and sleeps well, very quiet. OCT.5th fell and produced collar fracture. NOV.21st Arm is about well, no change. Has been considerable swellingof hand. DEC.1st Eats and sleeps good stays in her room most of the time, behavior good, hand is now so can use it, but will not try much. The stiffness about the wrist slowly passes away. Jan.4th'93 Appetite good, always very clean in habits, behavior quiet & natural. Feb.18'93, has quite a cough of late, has several times before had cough of this kind, she is asthmatic at times. Feb.27th'93 appetite good, does no work, behavior quiet, sleeps well.
March 30th'93 Appetite good, habits clean, behavior quiet, talk quite sensible. April 30th'93 No change. May 10th'93 very pleasant in manner, talks willingly and quite sensibly, not able to work any.
May 29th'93 Sore on right arm beginning May 28th. May 30th'93 Arm quite swollen and red, dressed daily, seems better this morning.
June 30th Appetite good, cleanly in habits, behavior quite rational, talks quite sensible, stays in room most of the time, lip continues sore started as a cold-sore which continued to ulcerate, looks some like Epithelioma. July 6th Lip improves only a little, always about the same. July 23rd Received on C-2 Aug. 8th On the ward sitting up to day, for first time since coming on C-2, appatite good, soils her bandages when she eats, as the food does not stay in her mouth very good. Aug. 12th Grows stronger, and moves around the hall some, appetite very good, does not talk much. Sept. 1st'93 (See type-writer report) Removed to A-1.
Sept. 30th'93 Appetite good, habits clean, behavior quiet, talk sensible no complaints. Oct. 30th'93 Eats and sleeps well, appearance pleasant.
Nov.29th'93 Appetite good, is pleasant and talks quietly and sensibly, lately helps a little with the dining-room work.
Dec. 30th'93 appetite very good, behavior quiet, clean in habits, helps a little in dining-room, talks quite sensibly, no complaints.
Jan.30th'94 Eats and sleeps well, clean in habits, behavior quiet, works a little on ward, does not seem to change any. Feb. 27th'94 appetite good, is quiet and clean, in habits, talks quite sensibly, works on ward. MCH. 29th'94 Appetite good, sleeps well, is quiet and talks quite sensible; no complaints, transferred to A-3-W. APR. 30th'94 Appetite good, sleeps well, quiet in behavior weakminded, works in Employee's Dining Room, coughs some at times. MAY 28th'94 Appetite good, sleeps well, behavior quiet, clean in habits, works on ward. ✓178 Mrs O'Connell, patient has been upon C3 and E1, is in fair health, unchanged in any especial way.
✓237 M.C.Cook, Patient remains steadily on C1, has been for the last month or two in her quiet spell, talks in a weak, listlessway, refuses to move to another ward.
✓197 316 Mary larson; stays on B4, good health, received last month (Nov) a black eye; is occasionally quarelsome
✓57o Eliz. Ash, remains at Annex, does no work, talks intelligibly in a shrewd way, but is all full of odd, erratic ideas and is somewhat perverse in behav or.
✓ 575 Miss Potter; on B4 usually quiet, good health, works some, no change
2666 Amanda Nelson,

✓CWoehrle, 3o64; stays at Annex, gradually during past month has become more demented, sits in untidy way head thrown back, blowing bubbles from mouth and very silly.
✓3111 A Feskel patient at Annex, health good, does not show exophthalmic signs now.
✓3117 L Judd; still at Annex, mental state unchanged, mildly despondent, rarely talks, though if asked questions can answer them intelligi ly
✓315o Katie Casey; on B1 for the past few months health good, quite desponant, sits in melancholy way in room nearly all of the while.
✓3165 Mary Maloney, on C4 very perverse, and apparantly vicious in talk and behavior. Does not seem to fail much.
✓3171 E Stebbins, has been somewhat in poorer health the past mo. and has been taking tonic. Mental state about the same.
✓3328 Mrs. A Hyman, Sept. 5th Uterus Curretted and complained some of pain next day but otherwise felt well. Lay quite quietly in bed, had fair appetite from the first and recovery was uninterupted.
✓3369 L Jordan In addition to other notes Nov. 2nd operation of removing ~~hemorrx~~ haemorhoids. Was given Ether and Haemorrhoids ~~[illegible]~~ With cat gut was put to bed and got along well, complaining some of pain in therectum during the second day, but otherwise seeming quite comfortable. Details found in nurses notes on file.
✓3412 A Welch; in addition to the other notes Nov. 2nd, operation for removal of growth in Urethra; Etherized, and Cureted out, recovered easily from the operation, slept quite well , had gair appetite, ; for details see n rses notes on file.
✓208 Pauline Lind; In addition to notes, Sept. 12th on sick ward; bowels badly swolen, vomiting refusing to eat and drink, seemed to be suffering Sept. 13 quite restless, although more quiet on hall.
Sept. 15th has Diorrhoea.
" 19th was moved off sick ward again, having seemingly had only a bowel disturbance, from which with careful nursing she has recovered.
Oct. 1st patient on s ck ward again.
" 5th has had some stomach trouble again, which has not amounted to very much, for details see nurses notes on file.
472 Mary Thompson. July 9th '92
July 26th Operation for removal of Epithelioma of lip; by Drs Mayo.
27th No especial trouble about operation, patient doing fairly well.
28th lip noticed turning gangrenous about noon, and by night had quite a bad odor.
Oct. 29th whole chin swolen, lip black and ulcerating
July 31st, some pain appears better, charcoal dusted on room Peroxide used and other treatment.
Aug. 7th would is cleaning up, gangrene having separated.
Aug. 13th patient off sick ward, for details see nurses notes on file.

P. L. Zimmerman,
January 1894.

Date

31 Behavior remains in his room all day swearing or singing, does not wish anyone to speak to him, has illusions and delusions, Habits neat, no improvement noticed.

Charles L. Zimmermann - from p 40.

Nov 24/90 Visited to day his son. Nov 27/90 On C3. is quieter; not abusive lately. Clean, neat. Feby 11/91 occasionally talkative & abusive. Usually quiet. Works. Health good. Feby 18/91 See attached letter (on p 40). Full of delusions. July 4/91. Visited by a friend.
July 13/91 Health good. Usually quiet. On C3. Clean. Works.
Nov 21/91 Visited by a friend. Feby 5/92 Wt 159½ lbs. Appetite; health fairly good. Speaks much to self; noisily, profanely. Usually only when spoken to, does he address others. Remains on ward; walks but little; works well & willingly. Is noisy talking loudly & singing. Cares for self, clean, tidy. Is ugly & fights.
March 3/92 Weighs 159 pounds. Is quiet at night.
Apl 4/92. Weight 153½ pounds. Apl 15/92. Has written quite a number of letters recently, full of incoherence and delusions (see attached samples). May 3/92. Weight 168 pounds.
June 3/92. Wt. 158 pounds. Pulse 86. July 6/92. Wt. 151½ pounds. Pulse 80. Augt 3/92. Wt. 152 pds.
Aug 16/92. Quiet and sleeps well, uniformly. Walks well. Talks almost incessantly to himself, very vulgarly & complainingly. Bodily health fairly good. Weight fluctuates some.
~~Sept 1st 92 Patient remains in the same room with her sister, but is not as active as she is~~ see p.
Sep 5/92. Wt 151 pds. Sep 13/92. Visited to day by friends. Oct 4/92. Wt 155½ pds. Nov 2/92. Wt 150 pounds. See attached letter, written at this date, full of vulgar language, complaining of bitter persecution;
Dec 5/92. Wt 155 pds. Pulse 80. Jan 3/93. Wt 155½ pds. Pulse 94. Jan 5/93. Works; keeps his room avoiding the officers; never goes out walking; health good. Feb 3/93. Wt 157 pds. March 2/93 Wt 158 pds. Pulse 94. April 4/93. Wt 156 pds. April 26/93. Lives in his room when not working in dining-room - avoids all the officers.

from page 111

Mary Thompson.

Feb 22. 92 Patient seems stronger. Sloughing shows a complete through all its thickness where the Erysipelas was & with exact, limiting edges. It is a peculiar & rapid action having a phlegmonous appearance, dotting the arm in 20 or 8 large patches, which have rapidly gone on to disintegration.
Feb 29" Has progressed quite favorably since last note. Arm dressed twice a day. Pill out & from way back into the arm, leaving bone bare.
May 18" Went on to fair recovery from the above. The dressing, however, had to be continued for about 2 mos, as the whole arm was burned & abscesses, slight in form, kept discharging from around the original sloughs.
Sept. 1st 92 Patient remains on the same ward room with her sister, but is not so active as she is. Is not willing to work. General health, however, has been fairly good.

May 25-1891 Since last note has changed considerably. For about three months has refused to take any medicine. Says she has been poisoned by the medicine she has taken and by reason the fact that she ever took any. Has had a great many delusions of late concerning Indians. Thinks they are coming to kill her or some other people will get in and kill her. Sits and moans and cries a great deal. She is much thinner. Never has a day of cheerfulness. Never smiles and takes no interest in anything. Does not go to chapel and can hardly get her to go out riding. Has had no fit lately. Has taken no Bromide for the 3 months.

Oct 5-1891 Bodily health much improved. Runs quite flesby. Takes no medicine. Is more cheerful. Attends quite pleasant. Goes to sewing room and sews carpet rags nearly every day.

Nov 21-1891 Has had three fits of late. Fleshy. Eats well. Works in sewing room. Her work does not amount to much. Busies herself making dolls clothes &c.

Jan 8-1892 Went to bed sick to day.

Jan 28-1892 General health and good. Works in sewing room. Quiet and cheerful of late.

Feb 23-1892 Still continues cheerful most of the

Oct 6- 1891 Bodily health much improved. Runs quite flesby. Takes no medicine. She is more cheerful. At times quite pleasant. Goes to sewing room and sews carpet rags nearly every day.

Nov 24 1891 Has had three fits of late. Fleshy. Eats well. Works in sewing room tho. her work does not amount to much. Busies herself making dolls clothes etc.

Jan 8 1892 Went to bed sick to day.

Jan 28- 1892 General health now good. Works in sewing room. Quiet and cheerful of late.

Feb 23- 1892 Still continues cheerful most of the time. Goes to the entertainments, dances etc. Takes quite a good deal of interest in things. Says she wants to go home in the spring. Does not have any delusions now.

May 10- 1892 During the past month has had two fits. Generally quiet but changeable. At times scolds. Works a little in sewing room. Fleshy and looks well.

1892 Aug. 20 Had two fits this A. M.

" Sept 10 Had a fit this A. M.

" Sept 26 Goes to sewing room at times. Imagines she does a good deal. Most spends most of the time in making dolls clothes and things. Not to not amount to anything. Changeable in disposition. Very easily excited and made angry when she will scold in a very loud and unreasonable manner.

Dec. 30th Had three fits to day. Dec. 31st Had one fit to day.

Feb 6th 93 Went to bed sick with neuralgia in her face.

Was moved up to W ward where she has been steadily ever since. Is occasionally quite noisy & troublesome there. Full of vulgar & mean talk. Does not seem to fail very rapidly. Nurses records are kept which cover the whole time & are herewith attached.
Aug. 18. 1892. Died today - Nurses note and progress through gradual failure will be found attached -
