SPECIAL LIMITING CONDITIONS

The completion of an appraisal which would reflect our opinion of the market value of this property under present conditions is impossible. This situation is occasioned by the fact that the owner of the property consistently and repeatedly refused to give permission either to the St. Paul Port Authority or ourselves to enter the property and make an inspection of the land and buildings and take measurements. Under these circumstances we informed the Real Estate Consultant of the St. Paul Port Authority that it would be impossible for us to complete the appraisal that had been requested from us. The Real Estate Consultant for the Port Authority thereafter requested that we provide them with a report which would give them some description of the property and a rough estimate of what the value might possibly be by our viewing the property from the outside perimeter of the lot lines. We have attempted to comply with this request and our findings are set out in the report.

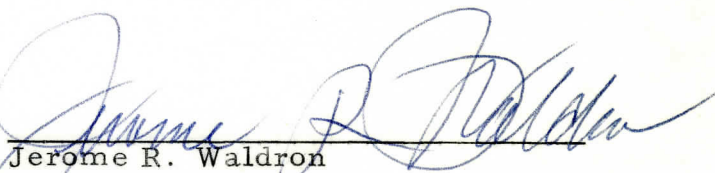

We wish to emphasize that without making an actual inspection of the property it is impossible for us to give an accurate opinion of market value and this report does not indicate market value and that this is a report and not an appraisal. In submitting this report we make no warranties as to the accuracy of any findings or opinions set forth therein. We are willing to submit an appraisal of this property in proper form and substance when the St. Paul Port Authority can obtain permission for us from the owner to enter the property and make a thorough inspection. Upon making an inspection the estimated valuations shown in our report may be materially changed.

These Special Limiting Conditions apply to all the properties and land covered by the description Project Area 1-A, Parcel No. 180, 180A, 180B, 180C, 180D, 180E, 180F, 180G, 180H, 180I, 180J.
