Rev. 9-72

Adopted

~~PROPOSED~~ REGULATIONS

FOR THE

PROCESSING OF FEEDLOT PERMITS

BY THE COUNTIES

AND THE

MINNESOTA POLLUTION CONTROL AGENCY

SW-56 Applicability, Definitions and General Conditions for Processing of Feedlot Permits. Severability and Variances.

Applicability

These are regulations and standards the provisions of which govern the processing of permits for Livestock Feedlots, Poultry Lots and Other Animal Lots by the MPCA and designated County officials under the supervision and review of the Minnesota Pollution Control Agency

Definitions

1. "Animal Unit" - A unit of measure used to compare differences in the production of animal wastes which has as a standard the amount of waste produced on a regular basis by a slaughter steer or heifer. For purposes of these regulations, the following equivalents apply:

		Animal Units
(1)	Slaughter steer or heifer	1
(1)	Mature dairy cow	1.4
(1)	Swine over 55 pounds	.4
(1)	Sheep	.1
(1)	Turkey	.018
(1)	Chicken	.01
(1)	Duck	.2

2. "Designated County Feedlot Pollution Control Officer" is a county employee or other person approved by the County Board, who should be knowledgeable in agriculture and who is designated by resolution of the County Board to receive and process feedlot, poultry lot and other animal lot permit applications.

3. "Modified" - Change in the operation of an animal feedlot which would affect the generation or disposal of animal waste.

4. "Addendum" - Document specifying additions to or change in conditions of a Livestock Feedlot, Poultry Lot or Other Animal Lot permit due to the modification of said Livestock Feedlot, Poultry Lot or Other Animal Lot.

General Conditions

All Livestock Feedlots, Poultry Lots and Other Animal Lots shall be located and operated in a manner that precludes potential pollution hazards to the land, air or waters of the state except where corrective and protective measures approved by the Agency are taken. These regulations outline how Agency approval of animal facilities shall be obtained in the form of a permit for existing and new operations.

Severability

If any provision of these regulations or the application thereof to any person or circumstances is held to be invalid, such invalidity shall not affect other provisions or application of any other part of such regulations or any other regulations which can be given effect without the invalid provision of application, and to this end the provisions of all regulations and the various applications thereof are declared to be severable.

Variances

Where upon written application of the responsible person or persons the Agency finds that by reason of exceptional circumstances strict conformity with any provisions of the regulation contained herein would cause undue hardship, would be unreasonable, impractical or not feasible under the circumstances, the Agency may permit a variance from these regulations upon such conditions and within such time limitations as it may prescribe for prevention, control or abatement of land, air or water pollution in harmony with the intent of the State and any applicable Federal laws.

SW-57 PROCESSING OF ANIMAL FEEDLOT PERMITS BY A COUNTY

(1) Pursuant to Minnesota Laws 1973, Chapter 573, Minnesota Counties may engage in the processing of animal feedlot permits. "Processing" may, at the option of the county board, include issuing, denying, modifying, imposing conditions upon, or revoking permits in accordance with these regulations.

(2) Any Minnesota county desiring to assume responsibility for processing animal feedlot permits must:

(a) Submit to the Pollution Control Agency a certified copy of a resolution adopted by the county board requesting permission to initiate an animal feedlot permit processing system in the county. Such resolution must be accompanied by a brief statement describing the manner in which the county will implement the permit processing procedures and indicating whether the county will issue, deny, modify, impose conditions upon, or revoke permits under their processing plan.

(b) Receive written approval from the Minnesota Pollution Control Agency authorizing the processing of animal feedlot permits within the county.

(3) Each Minnesota county processing animal feedlot permits shall designate a county feedlot pollution control officer as having the primary responsibility for the feedlot permit program and charge him with the following duties:

(a) Distribute to applicants permit application forms made available through the Minnesota Pollution Control Agency;

(b) Provide, where requested, necessary assistance to applicants to insure that application forms are properly completed. (This includes, for example, the attachment of certain maps, plans, and specifications required under SW-53.)

(c) Following receipt and examination of completed application forms, indicate in writing, to the Minnesota Pollution Control Agency, whether or not the proposed animal feedlot facility will comply with all applicable state and local laws and regulations.

(d) Indicate where it is determined that a proposed facility will not, as planned, meet the requirements of state and local law, those respects in which a variance would be required for the issuance of a permit. A determination of non-compliance may include a variance request with a written recommendation for or against the variance. Where the recommendation supports a variance, the county official must indicate what pollution control devices have been proposed and enclose plans or design specification with the application.

Sw-58 ISSUANCE, MODIFICATION, OR IMPOSITION OF CONDITIONS UPON PERMITS BY COUNTIES

(1) Those counties desiring to do so, may, pursuant to their approved permit processing plan, issue, modify, or impose conditions upon animal feedlot permits. For purposes of this regulation, "issuance of an animal feedlot permit" means delivery and cosigning of an animal feedlot permit approved by the Pollution Control Agency or the granting of a permit by a county board where the Pollution Control Agency has not acted on a permit application within 15 days of notification of intent to issue a permit by a designated county official.

(2) A permit shall be required for all livestock feedlots, poultry lots and other animal lots which, after April 16, 1971:

(a) Began operation;

(b) Expanded existing operation by increasing the number of animal units;

(c) Modified existing operation or constructed new facilities; (but did not increase animal units)

(d) changed ownership. (but did not increase animal units)

The location requirements of SW-54 (2) do not apply to permits issued under (c) and (d) above.

(3) If the county determines that any livestock feedlot, poultry lot or other animal lots, whether or not it existed prior to April 16, 1971, is in fact polluting or constitutes a potential pollution hazard to the land, air or waters of the state, the Agency shall be notified and the county may require the feedlot operator to submit an application for a permit containing plans for pollution abatement. Where the county has notified the Agency of a potential pollution hazard, it shall also notify the Agency as to whether or not the operator has been informed of the requirement for a feedlot permit and pollution control plans under SW-53.

(4) All permit applications shall include the following:

(a) A completed permit application form; (the permit application should be for the maximum number of animals the operator has facilities provided for)

(b) A map or aerial photograph of the area showing all homes, wells, buildings, lakes, ponds, watercourses, wetland, dry runs, rock out croppings, roads and applicable details and shall indicate the general topography with contours and drainage patterns. A north arrow shall be drawn on the scale shown, and a location insert map be included;

(c) A plan indicating operational procedures, the location and specifications of animal waste collections, storage and/or treatment facilities, land used for the disposal of animal wastes, and the quantity and type of waste to be removed from the site.

(5) In order for the county to issue a permit:

(a) The Minnesota Pollution Control Agency must receive written notification of the intention of the county to issue a permit. Such notification must include the completed permit application together with all applicable details as described in section 4 above;

(b) The Agency shall within 15 days after receipt of written notification of intent to issue a permit review the permit and suspend, modify, disapprove or approve the issuance of said permit. If the Agency fails to act within 15 days, the county board may take action which shall be final, subject to appeal to the district court.

(c) Upon Agency approval of the permit, the permit and display certificate shall be returned to the county for issuance to the operator.

(6) In order for a county to modify or impose conditions upon a permit:

(a) The county shall notify the Minnesota Pollution Control Agency in writing of its intention to modify or impose conditions upon an animal feedlot permit.

(b) A copy of the permit together with the intended modifications and conditions shall be forwarded to the Agency for review. The Agency shall either approve or reject the recommended modifications or conditions. The Agency may also suggest alternative modifications or conditions.

(c) The county must receive Minnesota Pollution Control Agency approval of the proposed modifications or conditions.

SW - 59 REVOCATION OF PERMITS BY COUNTIES

(1) Those counties desiring to do so, may, pursuant to their permit processing authority revoke animal feedlot permits.

(2) In order for a county to revoke a permit:

(a) A copy of the permit application or permit together with a written justification for revocation must be submitted to the Pollution Control Agency for review. The Agency shall approve or reverse the revocation.

(b) The county must receive written approval of the permit revocation from the Pollution Control Agency.

(c) Where a revocation has been approved by the Pollution Control Agency, the applicant must be informed in writing by the county of the reasons for denial or revocation.

(d) A revocation of a permit by a county shall be without prejudice to the applicant's right to an appearance before the Pollution Control Agency within 90 days, or for filing a further or new application with the county after revisions are made to meet objections specified as reasons for revocation.

SW-60 DENIAL OF PERMITS BY COUNTIES

(1) In the case of permit denial by a county official the applicant shall be informed in writing

(a) of the reasons for denial;

(b) that if the applicant feels the permit denial is unreasonable, an informal appeal may be made to the Division of Solid Waste;

(c) that a denial shall be without prejudice to the applicant's right to an appearance before the Agency within 90 days, or for filing a further application after revisions are made to meet objections specified as reasons for denial. The applicant shall have the right to an appeal pursuant to Minnesota Statutes, Chapter 15.

SW-61 REQUIRED RECORDS

(1) The county shall maintain on file a copy of all correspondence and material relating to feedlot permits processed by the county. A copy of the permit and the permit application shall be included. The original permit application shall be on file with the Agency.

(2) Prior to any major change in a feedlot operation an addendum to the original permit shall be applied for describing the change, and when approval given, the addendum shall then be filed with the original permit.

(3) When the ownership and/or management of a permitted operation is changed, the county and state records will be changed upon notification. The new operator will be subject to the conditions of the existing permit unless an approved addendum is added to the permit.

STATE OF MINNESOTA
POLLUTION CONTROL AGENCY

In the Matter of Livestock Feedlots, Poultry Lots and Other Animal Lots; Authorizing Counties to Exercise Permit Processing Powers in Conjunction with Minnesota Pollution Control Agency Procedures; Proposed Regulation SW-56, SW-57, SW-58, SW-59, SW-60 and SW-61.

ORDER FOR HEARING

Pursuant to its powers and duties under Minnesota Statutes, 1971, chapters 115 and 116, and Minnesota Laws 1973, chapter 573, the Minnesota Pollution Control Agency deems it necessary to receive and review testimony and evidence upon the proposed regulation captioned above.

NOW, THEREFORE, IT IS ORDERED THIS 6th DAY OF SEPTEMBER, 1973, that a public hearing on the above captioned proposals be held beginning at 1:00 p.m. on Thursday, October 25, 1973, in the Laboratory School Auditorium of Bemidji State College, Bemidji, and continuing at 10:00 a.m. on Friday, October 26, 1973, in the National Guard Armory at 1716 Eighth Street North, St. Cloud and continuing at 1:00 p.m. on Thursday, November 1, 1973, in the National Guard Armory, South Fourth Street and West College Drive, Marshall, and continuing at 10:00 a.m. on Friday, November 2, 1973, in the Blue Earth-Nicollet Electrical Coop Building, South Highway 169, Mankato, and continuing at 10:00 a.m. on Friday, November 9, 1973, in the Board Room of the Minnesota Department of Health Building, 717 Delaware Street, S.E., Minneapolis.

IT IS FURTHER ORDERED, that notice of said hearing be given to all representatives of associations or other interested groups or persons who have registered their names with the Secretary of State for that purpose and to any other parties deemed appropriate by the Agency.

Harold D. Field, Jr.
Chairman

STATE OF MINNESOTA

COUNTY OF HENNEPIN

MINNESOTA POLLUTION CONTROL AGENCY

MPCA EXH 4

10-25-73 J.T.K.

In the Matter of Livestock Feedlots, Poultry Lots and Other Animal Lots; Authorizing Counties to Exercise Permit Processing Powers in Conjunction with Minnesota Pollution Control Agency Procedures; Proposed Regulation SW-56, SW-57, SW-58, SW-59, SW-60 and SW-61.

NOTICE OF HEARING

NOTICE IS HEREBY GIVEN that public hearings will be held by the Minnesota Pollution Control Agency or by one or more of its authorized representatives pursuant to Minnesota Statutes 1971, Chapter 15, and Minnesota Laws 1973, Chapter 573, beginning at 1:00 p.m. on Thursday, October 25, 1973, in the Laboratory School Auditorium of Bemidji State College, Bemidji, and continuing at 10:00 a.m. on Friday, October 26, 1973, in the National Guard Armory at 1716 Eighth Street North, St. Cloud and continuing at 1:00 p.m. on Thursday, November 1, 1973, in the National Guard Armory, South Fourth Street and West College Drive, Marshall, and continuing at 10:00 a.m. on Friday, November 2, 1973, in the Blue Earth-Nicollet Electrical Coop Building, South Highway 169, Mankato, and continuing at 10:00 a.m. on Friday, November 9, 1973, in the Board Room of the Minnesota Department of Health Building, 717 Delaware Street, S.E., Minneapolis, for the purpose of receiving and considering testimony and evidence bearing upon the above-entitled matter.

The hearing will be limited to discussion of matters pertinent to the proposed regulations. The hearing will continue until all interested parties have had an opportunity to be heard.

Testimony or other evidence to be submitted for consideration should be pertinent to the matter at hand and may be presented either orally or in writing at the hearing, or by mailing to the Agency at the address given below, allowing adequate time so that the information can be entered into the record prior to adjournment of the hearing. Written testimony may also be submitted within 20 days following adjournment of the hearing.

Those interested in the present or future control of wastes from livestock feedlots, poultry lots and other animal lots are requested to state how such interests will be affected by the proposed regulations. Other interested parties are urged to report on their knowledge of any pertinent situation or conditions and how such interests may be affected by the proposed regulations.

The proposed regulations are on file in the offices of the Agency at 717 Delaware Street, S.E., Minneapolis, Minnesota, 55440, and available for review in said office during regular office hours, 8:00 a.m. to 4:30 p.m., Monday through Friday.

Questions and comments to James A. Bosch, Chief, Section of Agricultural Wastes, Solid Waste Division, Minnesota Pollution Control Agency, 717 Delaware Street, S.E., Minneapolis, Minnesota, 55440, (612) 296-5581.

PROPOSED REGULATIONS

FOR THE

PROCESSING OF FEEDLOT PERMITS

BY THE COUNTIES

AND THE

MINNESOTA POLLUTION CONTROL AGENCY

DRAFT
August 22, 1973

SW-56 Applicability, Definitions and General Conditions for Processing of Feedlot Permits. Severability and Variances.

Applicability

These are regulations and standards the provisions of which govern the processing of permits for Livestock Feedlots, Poultry Lots and Other Animal Lots by the MPCA and designated County officials under the supervision and review of the Minnesota Pollution Control Agency

Definitions

1. "Animal Unit" - A unit of measure used to compare differences in the production of animal wastes which has as a standard the amount of waste produced on a regular basis by a slaughter steer or heifer. For purposes of these regulations, the following equivalents apply:

		Animal Units
(1)	Slaughter steer or heifer	1
(1)	Mature dairy cow	1.4
(1)	Swine over 55 pounds	.4
(1)	Sheep	.1
(1)	Turkey	.018
(1)	Chicken	.01
(1)	Duck	.2

2. "Designated County Feedlot Pollution Control Officer" is a county employee or other person approved by the County Board, who should be knowledgeable in agriculture and who is designated by resolution of the County Board to receive and process feedlot, poultry lot and other animal lot permit applications.

3. "Modified" - Change in the operation of an animal feedlot which would affect the generation or disposal of animal waste.

4. "Addendum" - Document specifying additions to or change in conditions of a Livestock Feedlot, Poultry Lot or Other Animal Lot permit due to the modification of said Livestock Feedlot, Poultry Lot or Other Animal Lot.

General Conditions

All Livestock Feedlots, Poultry Lots and Other Animal Lots shall be located and operated in a manner that precludes potential pollution hazards to the land, air or waters of the state except where corrective and protective measures approved by the Agency are taken. These regulations outline how Agency approval of animal facilities shall be obtained in the form of a permit for existing and new operations.

Severability

If any provision of these regulations or the application thereof to any person or circumstances is held to be invalid, such invalidity shall not affect other provisions or application of any other part of such regulations or any other regulations which can be given effect without the invalid provision of application, and to this end the provisions of all regulations and the various applications thereof are declared to be severable.

Variances

Where upon written application of the responsible person or persons the Agency finds that by reason of exceptional circumstances strict conformity with any provisions of the regulation contained herein would cause undue hardship, would be unreasonable, impractical or not feasible under the circumstances, the Agency may permit a variance from these regulations upon such conditions and within such time limitations as it may prescribe for prevention, control or abatement of land, air or water pollution in harmony with the intent of the State and any applicable Federal laws.

SW-57 PROCESSING OF ANIMAL FEEDLOT PERMITS BY A COUNTY

(1) Pursuant to Minnesota Laws 1973, Chapter 573, Minnesota Counties may engage in the processing of animal feedlot permits. "Processing" may, at the option of the county board, include issuing, denying, modifying, imposing conditions upon, or revoking permits in accordance with these regulations.

(2) Any Minnesota county desiring to assume responsibility for processing animal feedlot permits must:

(a) Submit to the Pollution Control Agency a certified copy of a resolution adopted by the county board requesting permission to initiate an animal feedlot permit processing system in the county. Such resolution must be accompanied by a brief statement describing the manner in which the county will implement the permit processing procedures and indicating whether the county will issue, deny, modify, impose conditions upon, or revoke permits under their processing plan.

(b) Receive written approval from the Minnesota Pollution Control Agency authorizing the processing of animal feedlot permits within the county.

(3) Each Minnesota county processing animal feedlot permits shall designate a county feedlot pollution control officer as having the primary responsibility for the feedlot permit program and charge him with the following duties:

(a) Distribute to applicants permit application forms made available through the Minnesota Pollution Control Agency;

(b) Provide, where requested, necessary assistance to applicants to insure that application forms are properly completed. (This includes, for example, the attachment of certain maps, plans, and specifications required under SW-53.)

(c) Following receipt and examination of completed application forms, indicate in writing, to the Minnesota Pollution Control Agency, whether or not the proposed animal feedlot facility will comply with all applicable state and local laws and regulations.

(d) Indicate where it is determined that a proposed facility will not, as planned, meet the requirements of state and local law, those respects in which a variance would be required for the issuance of a permit. A determination of non-compliance may include a variance request with a written recommendation for or against the variance. Where the recommendation supports a variance, the county official must indicate what pollution control devices have been proposed and enclose plans or design specification with the application.

SW-58 ISSUANCE, MODIFICATION, OR IMPOSITION OF CONDITIONS UPON PERMITS BY COUNTIES

(1) Those counties desiring to do so, may, pursuant to their approved permit processing plan, issue, modify, or impose conditions upon animal feedlot permits. For purposes of this regulation, "issuance of an animal feedlot permit" means delivery and cosigning of an animal feedlot permit approved by the Pollution Control Agency or the granting of a permit by a county board where the Pollution Control Agency has not acted on a permit application within 15 days of notification of intent to issue a permit by a designated county official.

(2) A permit shall be required for all livestock feedlots, poultry lots and other animal lots which, after April 16, 1971:

(a) Began operation;

(b) Expanded existing operation (an increase in number of animal units);

(c) Modified existing operation or constructed new facilities;

(d) changed ownership.

(3) If the county determines that any livestock feedlot, poultry lot or other animal lot, whether or not it existed prior to April 16, 1971, is in fact polluting or constitutes a potential pollution hazard to the land, air or waters of the state, the Agency shall be notified and the county may require the feedlot operator to submit an application for a permit containing plans for pollution abatement. Where the county has notified the Agency of a potential pollution hazard, it shall also notify the Agency as to whether or not the operator has been informed of the requirement for a feedlot permit and pollution control plans under SW-53.

(4) All permit applications shall include the following:

(a) A completed permit application form;

(b) A map or aerial photograph of the area showing all homes, wells, buildings, lakes, ponds, watercourses, wetland, dry runs, rock out croppings, roads and applicable details and shall indicate the general topography with contours and drainage patterns. A north arrow shall be drawn on the scale shown, and a location insert map be included;

(c) A plan indicating operational procedures, the location and specifications of animal waste collections, storage and/or treatment facilities, land used for the disposal of animal wastes, and the quantity and type of waste to be removed from the site.

(5) In order for the county to issue a permit:

(a) The Minnesota Pollution Control Agency must receive written notification of the intention of the county to issue a permit. Such notification must include the completed permit application together with all applicable details as described in section 4 above;

(b) The Agency shall within 15 days after receipt of written notification of intent to issue a permit review the permit and suspend, modify, disapprove or approve the issuance of said permit. If the Agency fails to act within 15 days, the county board may take action which shall be final, subject to appeal to the district court.

(c) Upon Agency approval of the permit, the permit and display certificate shall be returned to the county for issuance to the operator.

(6) In order for a county to modify or impose conditions upon a permit:

(a) The county shall notify the Minnesota Pollution Control Agency in writing of its intention to modify or impose conditions upon an animal feedlot permit.

(b) A copy of the permit together with the intended modifications and conditions shall be forwarded to the Agency for review. The Agency shall either approve or reject the recommended modifications or conditions. The Agency may also suggest alternative modifications or conditions.

(c) The county must receive Minnesota Pollution Control Agency approval of the proposed modifications or conditions.

SW - 59 REVOCATION OF PERMITS BY COUNTIES

(1) Those counties desiring to do so, may, pursuant to their permit processing authority revoke animal feedlot permits.

(2) In order for a county to revoke a permit:

(a) A copy of the permit application or permit together with a written justification for revocation must be submitted to the Pollution Control Agency for review. The Agency shall approve or reverse the revocation.

(b) The county must receive written approval of the permit revocation from the Pollution Control Agency.

(c) Where a revocation has been approved by the Pollution Control Agency, the applicant must be informed in writing by the county of the reasons for denial or revocation.

(d) A revocation of a permit by a county shall be without prejudice to the applicant's right to an appearance before the Pollution Control Agency within 90 days, or for filing a further or new application with the county after revisions are made to meet objections specified as reasons for revocation.

SW-60 DENIAL OF PERMITS BY COUNTIES

(1) In the case of permit denial by a county official the applicant shall be informed in writing

(a) of the reasons for denial;

(b) that if the applicant feels the permit denial is unreasonable, an informal appeal may be made to the Division of Solid Waste;

(c) that a denial shall be without prejudice to the applicant's right to an appearance before the Agency within 90 days, or for filing a further application after revisions are made to meet objections specified as reasons for denial. The applicant shall have the right to an appeal pursuant to Minnesota Statutes, Chapter 15.

SW-61 REQUIRED RECORDS

(1) The county shall maintain on file a copy of all correspondence and material relating to feedlot permits processed by the county. A copy of the permit and the permit application shall be included. The original permit application shall be on file with the Agency.

(2) Prior to any major change in a feedlot operation an addendum to the original permit shall be applied for describing the change, and when approval given, the addendum shall then be filed with the original permit.

(3) When the ownership and/or management of a permitted operation is changed, the county and state records will be changed upon notification. The new operator will be subject to the conditions of the existing permit unless an approved addendum is added to the permit.

STATE OF MINNESOTA
MINNESOTA POLLUTION CONTROL AGENCY
AFFIDAVIT

State of Minnesota)
ss
County of Hennepin)

James A. Bosch being duly sworn deposes and says:

1. That he is an employee of the Pollution Control Agency of the state of Minnesota.

2. That on the 14th day of September, 1973, he went to the Secretary of State's office for the state of Minnesota and requested a current list of all representatives of associations or other interested groups or persons who had registered their names with the Secretary of State for the promulgation of rules pursuant to M.S. 15.0412.

3. That on the 14th day of September, 1973, in response to the above request, the Secretary of State provided him with such a list, a copy of which is attached hereto and incorporated by reference.

James A. Bosch

James A. Bosch

Subscribed and sworn to before me this 14th day of September, 1973 at Minneapolis, Minnesota.

Lila Holmdahl

STATE OF MINNESOTA

COUNTY OF RAMSEY

MINNESOTA POLLUTION

CONTROL AGENCY

In the Matter of Livestock Feedlots; Poultry Lots and Other Animal Lots; Authorizing Counties to Exercise Permit Processing Powers in Conjunction with Minnesota Pollution Control Agency. Procedures; Proposed Regulations SW-56, SW-57, SW-58, SW-59, SW-60 and SW-61.

STATEMENT OF NEED

The above-captioned regulations are new regulations of the Minnesota Pollution Control Agency. They do not amend but rather supplement existing Solid Waste Regulations SW-51 through SW-55 relating to animal feedlots.

The need to adopt these new regulations arises in the first instance due to a statutory mandate. Minn. Laws 1973, ch. 573, Section 1 provides in pertinent part:

> The pollution control agency, by January 1, 1974, and in the manner provided by chapter 15, shall adopt rules governing the issuance and denial of permits for livestock feedlots, poultry lots or other animal lots pursuant to this section. These rules shall apply both to permits issued by counties and to permits issued by the pollution control agency directly.

What is perhaps more important in terms of the need for these rules than the above-quoted legislative directive is the reason for the adoption of the Act which contains the directive. In February and March of 1972, meetings sponsored by the MPCA and the University of Minnesota Agricultural Extension Service were

held at seven locations throughout the state. Rural Minnesotans were asking two questions at these meetings: (1) Why does it take so long to process our feedlot permits? and (2) Why do we have to go all the way to Minneapolis to discuss our animal feedlot problems? In an attempt to bring about a more decentralized feedlot program and hopefully one more responsive to local needs, the Agency staff contacted several persons knowledgeable in the field of animal feedlot regulation and familiar with administrative problems of the state program. These efforts resulted in the drafting of S.F. No. 1505.

Minn. Laws 1973, ch. 573 (S.F. No. 1505) was sponsored by rural legislators and supported by the Association of Minnesota Counties and the Farm Bureau. Farmers and local officials had asked these spokesmen to work with the pollution control agency to accomplish two things: (1) increase the speed with which feedlot permits are issued; and (2) increase local input in the administration of animal facility regulations. These themes were repeated during committee hearings on S.F. No. 1505 as senators and representatives echoed the views of their rural constituents.

Finally, it is estimated that there are approximately 100,000 animal feedlots in the state of Minnesota. It is patently clear that without the cooperative efforts of counties, it will be impossible for the state to maintain an effective animal feedlot permitting program.

MINNESOTA POLLUTION CONTROL AGENCY

GRANT J. MERRITT
Executive Director

Dated: December 18, 1973

STATEMENT OF COMPLIANCE WITH

MANUAL OF RULE MAKING PROCEDURES

I, Special Assistant Attorney General Jack Van de North, do hereby declare that I have examined the proposed rules and all related documents and that, based on them and my personal familiarity with the applicable procedures, the Manual of Rule Making Procedures has been followed.

John B Vandenberg

Special Assistant Attorney General

Dated: December 6, 1973

STATE OF MINNESOTA

COUNTY OF RAMSEY

MINNESOTA POLLUTION

CONTROL AGENCY

In the Matter of Livestock Feedlots; Poultry Lots and Other Animal Lots; Authorizing Counties to Exercise Permit Processing Powers in Conjunction with Minnesota Pollution Control Agency Procedures; Proposed Regulations SW-56, SW-57, SW-58, SW-59, SW-60 and SW-61.

FINDINGS OF FACT

The above-entitled matter came on for hearing before the Minnesota Pollution Control Agency on Thursday, October 25, 1973 at 1:00 p.m. in the Laboratory School Auditorium of Bemidji State College, Bemidji, and continued on Friday, October 26, 1973, in the National Guard Armory, in St. Cloud, and continued on Thursday, November 1, 1973, in the National Guard Armory in Marshall, and continued on Friday, November 2, 1973, in the Blue Earth-Nicollet Electrical Co-op Building, in Mankato, and continued on Friday, November 9, 1973, in the Board Room of the Minnesota Department of Health Building in Minneapolis. This hearing was held after proper notice required by Minn. Stat. Section 15.0412 (1971) was served upon all persons, associations and other interested groups registered with the Secretary of State for that purpose.

After affording interested persons an opportunity to present written and oral data, statements, and arguments, having

heard all of the testimony, having considered all of the evidence adduced and upon the records, files and proceedings herein, we find the following facts supporting adoption of the proposed new regulations relating to the processing of animal feedlot permits by counties:

1. These regulations relating to the issuance of animal feedlot permits by counties are proposed in the context of the overall philosophy of the Solid Waste Division of the Minnesota Pollution Control Agency with respect to the control of animal feedlots. This philosophy is summarized in the preamble to existing feedlot regulations:

> An adequate supply of healthy livestock, poultry and other animals is essential to the wellbeing of Minnesota citizens and the nation. They provide our daily source of meat, milk, eggs and fiber. Their efficient, economic production must be the concern of all consumers if we are to have a continued abundance of high-quality, wholesome food and fiber at reasonable prices.
>
> However, livestock, poultry and other animals produce wastes which may, when improperly stored, transported or disposed of, affect Minnesota's environment. Where such wastes could add to air, water or land pollution, they must be controlled.

(P.C.A. Exhibit No. 5)

2. There has been in the past dissatisfaction with the speed with which state issued feedlot permits have been processed. (Mankato transcript p. 20). The concensus of both the state and local officials working with the feedlot permitting program is that the proposed Solid Waste Regulations SW-56 through SW-61

will reduce the processing time for feedlot permits. The reason for this opinion is that fewer incomplete permit applications will be submitted to the PCA for its review because of the assistance of county officials in the preparation of those applications. (Public Exhibit No. 1, Letter of Benton County Zoning Administrator, Paul Schneider dated October 26, 1973.)

3. The proposed regulations will increase local input into the state-wide feedlot regulation program. Participation by counties in the program is possible at two levels. First, it is anticipated that a majority of counties will begin participation by assisting farmers in the proper submission of adequately completed permit application forms; second, after a time during which a county has become more familiar with the feedlot probram, it will then be possible for a county to participate in a greater degree in the feedlot program by actually issuing feedlot permits and by imposing conditions on said permits. (Mankato transcript p. 12, and Bemidji transcript p. 33.) Through their participation at either level, Minnesota counties will have an opportunity to fashion a feedlot program which is particularly well suited to the needs of the farmers in their area. (Bemidji transcript p. 71, remarks of Mr. Gary Lochner, Lake of the Woods County.)

4. The proposed regulations will strengthen the state-wide animal feedlot program by enhancing the possibility for uniform application of certain minimum standards contained in existing regulations on a state-wide basis. This will be

accomplished through increased awareness of local officials and through them increased awareness of applicable state regulations by farmers within their jurisdiction. (Minneapolis transcript pp. 17-18.)

5. The Agricultural Waste Section of the Minnesota Pollution Control Agency, which has the primary responsibility for administration of a state-wide feedlot permitting program, consists of only two people. There are in excess of 100,000 feedlots within the State of Minnesota. There is a need to increase the number of persons with a knowledge of agricultural problems who are involved in the administration of the feedlot program. It is anticipated that the involvement of counties in the feedlot program will accomplish this end. (Public Exhibit No. 2, Statement of the Minnesota Farm Bureau Federation.)

6. By increasing the participation of local officials in the feedlot permit program, these proposed regulations will do much to resolve conflicts which occasionally arise as a result of local building and zoning ordinances (Public Exhibit No. 1).

7. The proposed regulations will do much to resolve ambiguities which apparently exist under the present feedlot regulations with respect to who does and who does not require an animal feedlot permit. (Marshall transcript pp. 20-26, and Bemidji transcript pp. 45-48). The matter of which facilities are required to be permitted becomes particularly important at the time when ownership of the facility changes. For this reason, the proposed

regulations specifically address themselves to the question of requiring permits at the time of ownership changes. (Bemidji transcript p. 54-55.)

8. The proposed regulations will allow county residents and local officials to focus on one county official as the person responsible for initiating the permit application procedures. In the past, although the cooperation of various state and federal agencies has been appreciated, there has been some confusion. (Mankato transcript p. 18, remarks of Mr. Arthur Stone, Brown County Zoning Administrator.) It has also been suggested that in order for this designated county official to have all the authority necessary to adequately carry out his feedlot responsibilities, it may be necessary in some instances for the state to designate him as their agent. (Public Exhibit No. 5, remarks of Hennepin County Environmental Chief, Luther D. Nelson.)

STATE OF MINNESOTA

COUNTY OF RAMSEY

MINNESOTA POLLUTION

CONTROL AGENCY

In the Matter of Livestock Feedlots; Poultry Lots and Other Animal Lots; Authorizing Counties to Exercise Permit Processing Powers in Conjunction with Minnesota Pollution Control Agency Procedures; Proposed Regulations SW-56, SW-57, SW-58, SW-59, SW-60 and SW-61.

ORDER ADOPTING RULES

The above-entitled matter came on for hearing before the Minnesota Pollution Control Agency beginning at 1:00 p.m. on Thursday, October 25, 1973, in the Laboratory School Auditorium of Bemidji State College, Bemidji, and continuing at 10:00 a.m. on Friday, October 26, 1973, in the National Guard Armory at 1716 Eighth Street North, St. Cloud and continuing at 1:00 p.m. on Thursday, November 1, 1973, in the National Guard Armory, South Fourth Street and West College Drive, Marshall, and continuing at 10:00 a.m. on Friday, November 2, 1973, in the Blue Earth-Nicollet Electrical Co-op Building, South Highway 169, Mankato, and continuing at 10:00 a.m. on Friday, November 9, 1973, in the Board Room of the Minnesota Department of Health Building, 717 Delaware Street, S.E., Minneapolis, after proper notice required by Minn. Stat. Section 15.0412 (1971) was served upon all persons, associations and other interested groups registered with the Secretary of State for that purpose.

After affording interested persons an opportunity to present written and oral data, statements and arguments, having heard all of the testimony, having considered all of the evidence adduced and upon the records, files and proceedings herein, and applicable statutory standards or criteria, and having confirmed the need for the above-captioned rules.

NOW, THEREFORE, IT IS ORDERED that these rules, identified as Minn. Regs. SW-56, SW-57, SW-58, SW-59, SW-60 and SW-61, are adopted this 18th day of December, 1973, pursuant to authority vested in us by Minn. Laws 1973, ch. 573.
