STATE OF MINNESOTA

DEPARTMENT OF NATURAL RESOURCES

In the Matter of the Proposed Adoption of the Rules of the Commissioner of Natural Resources Governing the Use of Watercraft on Tanners Lake (82-115), Washington County, Minnesota; Designating a Speed Limit, as Provided by Minnesota Statutes 1971, Section 361.26

FINDINGS OF FACT

CONCLUSIONS AND

ORDER

In accordance with applicable statutes, a public hearing was held concerning the above matter in the Oakdale Village Hall, Oakdale, Minnesota, on Monday, July 23, 1973, at approximately 7:30 p.m. Mr. Michael J. Hambrock, Hydrologist of the Department of Natural Resources, was appointed by the Commissioner of Natural Resources as referee to conduct the hearing.

Mr. Donald A. Kannas, Special Assistant Attorney General, appeared as legal counsel on behalf of the State of Minnesota.

The matter having been duly heard and all evidence and arguments having been considered, the Commissioner of Natural Resources now makes the following:

FINDINGS OF FACT

1. Tanners Lake (82-115) has a total water surface area of about 73 acres, located within the Villages of Oakdale and Landfall in section 31, T. 29N., R. 21 W., Washington County, Minnesota.

2. Tanners Lake (82-115) has a maximum length of o.6375 miles, a maximum width of o.2625 miles, an average width of o.1875 miles and 1.69 miles of shoreline.

3. On December 28, 1971 the Village Council of the Village of Oakdale unanimously passed a resolution requesting that the Commissioner of Natural Resources establish regulations relating to the use of watercraft on Tanners Lake (82-115) as provided under Minnesota Statutes 1971, Section 361.26.

4. On January 15, 1973 the Board of County Commissioners of Washington County unanimously passed a resolution concurring with the December 28, 1971 resolution of the Oakdale Village Council.

5. There are two (2) village operated public swimming beaches on Tanners Lake both of which are delineated by appropriate marker buoys and are heavily used by residents of the area.

6. There are five (5) public accesses on Tanners Lake and one (1) private access which is open to the general public. These public access points are not presently controlled in any way.

7. There are forty-four (44) riparian property owners on Tanners Lake. These riparian property owners keep and/or use twenty-three (23) motorized and twelve (12) nonmotorized watercraft on this lake.

8. The Minnesota Department of Natural Resources prepared and distributed five hundred (500) questionaires to the Villages of Landfall and Oakdale in February, 1973. These questionaires were given to residents of the Tanners Lake area by the Villages of Landfall and Oakdale in order to ascertain the current level and type of resident use of Tanners Lake. Eighty (80) of these questionaires were returned to the Department of Natural Resources, representing a return of sixteen (16) percent.

9. The survey of area residents indicated that 72.3% of the residents responding to the questionaire used Tanners Lake at least once a week. The remaining 27.7% of those responding indicated that they used this lake at less frequent intervals.

10. The survey of area residents indicated that 69.3% of those responding most often took part in low-speed (less than 10 miles per hour) activities on Tanners Lake (27.5% fishing, 34.1% swimming and 7.7% low-speed pleasure boating). 27.5% of those responding indicated that they most often took part in high-speed (over 10 miles per hour) activities on Tanners Lake (18.7% waterskiing and 8.8% high-speed pleasure boating). The remaining 3.3% of those responding indicated that they most often took part in activities unrelated to the matter being considered (i.e. ice fishing, snowmobiling and duck feeding).

11. The survey of area residents indicated that 51.3% of those responding used motorized watercraft on Tanners Lake (21.8% fishing boats, 24.4% runabouts, 1.7% pontoon boats, 0.8% motorized canoes, 2.5% other motorized watercraft). The remaining 48.7% of those responding indicated that they used nonmotorized watercraft on Tanners Lake (12.6% canoes, 25.2% rowboats, 5.0% sailboats, 3.4% inflatable boats, 2.5% other nonmotorized watercraft).

12. The survey of area residents indicated that 58.0% of those who said they use motorized watercraft on Tanners Lake own and/or use motors of less than 20 horsepower. The remaining 42.0% indicated they own and/or use motors larger than 20 horsepower.

13. The survey of area residents indicated that 54.0% of those responding most often used Tanners Lake between 3:00 pm and 9:00 pm. 25.8% of those responding indicated that they most often used this lake between 12:00 Noon and 3:00 pm and the remaining 20.2% indicated that they most often used this lake between 9:00 pm and 12:00 Noon.

14. The survey of area residents indicated that those responding most often used Tanners Lake on the Following days of the week: Monday - 11.8%,Tuesday - 8.7%, Wednesday - 9.4%, Thursday - 7.9%, Friday - 11.0%, Saturday - 25.2% and Sunday - 26.0%.

15. The survey of area residents indicated that 68.8% of those responding felt that there are water safety problems on Tanners Lake. 13.0% of those responding indicated that they felt there were no water safety problems on this lake and the remaining 18.2% indicated that although they felt there were no current water safety problems on Tanners Lake, the potential for such problems is present.

16. A compilation of outdoor recreation space standards made by the United States Department of the Interior indicates that motorized watercraft, including waterski boats, require approximately twenty (20) acres of water surface per boat for safe operation. Based on this criteria Tanners Lake (area 73 acres) could safely accomodate 3.65 motorized watercraft.

17. Based upon the physical dimensions of Tanners Lake a motorized watercraft operating at a speed of five (5) miles per hour would traverse the maximum length of this lake in 7 minutes and 39 seconds, the maximum width in 3 minutes and 9 seconds, the average width in 2 minutes and 15 seconds, and completely circumnavigate the lake at its greatest perimeter in 22 minutes and 48 seconds.

18. Based upon the physical dimensions of Tanners Lake a motorized watercraft operating at a speed of ten (10) miles per hour would traverse the maximum length of this lake in 3 minutes and 49 seconds, the maximum width in 1 minute and 34 seconds, the average width in 1 minute and 7 seconds and completely circumnavigate the lake at its greatest perimeter in 10 minutes and 8 seconds.

19. Based upon the physical dimensions of Tanners Lake a motorized watercraft operating at a speed of twenty (20) miles per hour would traverse the maximum length of this lake in 1 minute and 55 seconds, the maximum width in 47 seconds, the average width in 34 seconds, and completely circumnavigate the lake at its greatest perimeter in 5 minutes and 4 seconds.

20. Based upon the physical dimensions of Tanners Lake a motorized watercraft operating at a speed of thirty (30) miles per hour would traverse the maximum length of this lake in 1 minute and 16 seconds, the maximum width in 31 seconds, the average width in 22 seconds, and completely circumnavigate the lake at its greatest perimeter in 3 minutes and 23 seconds.

21. Tanners Lake experiences periodic heavy use by motorized watercraft with an many as eleven (11) motorized waterski boats having been present on the lake at one time. The Village of Oakdale estimates that as many as thirty (30) motorized and ten (10) nonmotorized watercraft have been used on Tanners Lake during a single peak-use day.

22. During the last eight (8) years there have been two (2) reported accidents involving watercraft on Tanners Lake. These reports were filed with the Washington County Sheriff's Office. The County Sheriff's Office and several area residents also claim that there have

been several unreported accidents and numerous near-misses on Tanners Lake during this same period.

Pursuant to the foregoing Findings of Fact, the Commissioner of Natural Resources makes the following

CONCLUSIONS

I. That the unrestricted use of motorized watercraft on Tanners Lake (82-115) constitutes a hazard to public safety, particularly in view of the physical dimensions and level of recreational use of this lake.

II. That the promulgation of regulations relating to the use of watercraft on the waters of Tanners Lake (82-115) under the authority granted by Minnesota Statutes 1971, Section 361.26 would be in the public interest.

III. That in order to promote the widest possible use and enjoyment of Tanners Lake (82-115) by all of the people, now and in the future, and to promote safety for persons and property in connection with the use of the waters of Tanners Lake (82-115), the speed of all motorized watercraft using said lake should be restricted to a maximum of ten (10) miles per hour, to be in effect at all times.

Based upon the foregoing Findings of Fact and Conclusions, the Commissioner of Natural Resources now makes the following

ORDER

Rule NR251 governing the use of watercraft on Tanners Lake, County of Washington, State of Minnesota, a true copy of which is attached to the original of this Order, is hereby promulgated and adopted pursuant to the authority vested in me by Minnesota Statutes, Sections 15.0412 and 361.26.

Dated this 7th day of January, 1974.
