MINNESOTA STATE REGULATIONS

Notice of filing by the Commissioner of Administration

We have received on this date, stamped and filed 2 copies of Rules and Regulations pertaining to the Pollution Control Agency
(Agency or Board)

Regulation No. APC 19 (new)

Subject: Permits for Indirect Sources

Department of Administration
Publication, Central Services Division
Documents Section
140 Centennial Office Building
St. Paul, Minnesota 55155

APC-19 - PERMITS FOR INDIRECT SOURCES.

(a) Definitions

(1) "Indirect Source" : A facility, building, structure, or installation which attracts or may attract mobile source activity that results in emissions of a pollutant for which there is a state standard. Such indirect sources include, but are not limited to:

(aa) Highways and roads.

(bb) Parking facilities.

(cc) Retail, commercial and industrial facilities.

(dd) Recreation, amusement, sports and entertainment facilities.

(ee) Airports.

(ff) Office and government buildings.

(gg) Apartment and condominium buildings.

(hh) Education facilities.

(2) "Associated Parking Area" : A parking facility or facilities owned or operated in conjunction with an indirect source.

(3) "To Commence Construction" : To engage in a continuous program of construction including site clearance, grading, dredging, or land filling specifically designed for an indirect source in preparation for the fabrication, erection, or installation of the building components of the indirect source. For the purpose of this paragraph, interruptions resulting from acts of God, strikes, litigation, or other matters beyond the control of the owner shall be considered in determining whether a construction or modification program is continuous.

(4) "To Commence Modification" : To engage in a continuous program of modification, including site clearance, grading, dredging, or land filling in preparation for a specific modification of the indirect source.

(5) "Highway Project" : The development proposal of a highway of substantial length between between logical termini (major crossroads, population centers, major traffic generators, or similar major highway control elements) as normally included in a single location study or multi-year highway improvement program.

(6) "Metropolitan Area" : The city limits of Duluth and all contiguous incorporated areas in Minnesota; the city limits of Moorhead and all contiguous incorporated areas in Minnesota; the city limits of St. Cloud and all contiguous incorporated areas; Rochester and all area within the boundaries of Olmsted County; and the Twin Cities metropolitan area including Anoka, Carver, Dakota, Hennepin, Ramsey, Scott and Washington counties.

(b) Permit Required

No person shall cause or allow the construction of any of the following without first obtaining a permit to do so from the Agency:

Parking Facilities

(1) Any new parking facility, or other new indirect source with an associated parking area, which has a new parking capacity of 2,000 cars or more.

(2) Any modified parking facility, or any modification or an associated parking area, which increases parking capacity by 1,000 cars or more, or which increases total parking capacity to 2,000 cars or more.

Highways

(3) Any new highway project wholly within or partially within a metropolitan area with an anticipated average annual daily traffic volume of 20,000 or more vehicles per day within 10 years of the

completion of construction.

(4) Any modified highway project which will increase average annual daily traffic volume by 10,000 or more vehicles per day within 10 years after completion of the modification.

Airports

(5) Any new or modified airport construction which will result in the generation of more than 1,000,000 passengers per year on regularly scheduled air carriers and commercial charter flights within 10 years after completion of construction.

(6) Where an indirect source is constructed or modified in increments which individually are not subject to review under this regulation, and which are not part of a program of construction or modification in planned incremental phases approved by the Agency, all such increments commenced after December 31, 1974, or after the latest approval hereunder, whichever date is most recent, shall be added together for determining the applicability of this regulation.

Other Sources

(7) Any indirect source which will generate mobile sources in a quantity that preparation of an assessment as set forth in Appendix A of this regulation and provided for in Section (d) indicates that a permit is required.

(c) Exemptions

The following indirect sources are exempt from the requirement to obtain a permit:

Existing Sources

(1) Indirect sources which are in operation on the effective date of this regulation.

Sources Under Construction

(2) Indirect sources for which construction has commenced prior to January 1, 1975.

Parking Facilities

(3) Any new parking facility, or other new indirect source with an associated parking area, which has a new parking capacity of fewer than 1,000 cars.

(4) Any modified parking facility, or any modification of an associated parking area, which increases parking capacity by fewer than 500 cars, provided that the conditions of Section (b)(2) are not exceeded.

Airports

(5) Any new or modified airport construction which will result in the generation of fewer than 500,000 passengers per year on regularly scheduled air carriers and commercial charter flights within 10 years after completion of construction.

Highways

(6) Highway projects which are wholly outside a metropolitan area.

Other Sources

(7) Indirect sources constructed as part of the Minnesota Implementation Plan to Achieve Carbon Monoxide Ambient Air Quality Standards, specifically the parking ramps constructed by the City of Minneapolis on the fringe of the Minneapolis Central Business District.

(d) Assessment

For all indirect sources not described in Section (b) or Section (c), the necessity for an indirect source permit shall be determined according to the assessment procedure set forth in Appendix A

to this regulation. No person shall cause or allow the construction of an indirect source for which an assessment is required until the assessment has been completed to the satisfaction of the Director. The Director shall make a determination on whether a permit application is required within seven days of receipt of a satisfactory assessment. If the Director determines that a permit application is required, such applications shall be made in accordancd with Section (c).

(e) Permit Application

Construction or modification of any indirect source subject to this regulation shall not commence until a permit is issued by the Agency or until a determination is made by the Director in accordance with Section (d) that a permit application need not be made. Application for a permit shall be made in accordance with provisions of this section. Every application shall be accompanied with a copy of any draft or final environmental impact statement which has been prepared pursuant to the National Environmental Policy Act (42 U.S.C. 4321), or a copy of any environmental assessment or environmental impact statement submitted to the Minnesota Environmental Quality Council.

(1) For all indirect sources subject to this regulation, other than highway projects:

(aa) The name and address of the applicant.

(bb) A map showing the location of the site of indirect source and the topography of the area.

(cc) A description of the proposed use of the site, including the normal hours of operation of the facility, and the general types of activities to be operated therein.

(dd) A site plan showing the location of associated parking areas, points of motor vehicle ingress and egress to and from the site and

its associated parking areas, and the location and height of buildings on the site.

(ee) An identification of the principal roads, highways, and intersections that will be used by motor vehicles moving to or from the indirect source.

(ff) An estimate, as of the first year after the date the indirect source will be substantially complete and operational, of the average daily traffic volumes, maximum traffic volumes for one-hour and eight-hour periods, and vehicle capacities of the principal roads, highways, and intersections identified pursuant to subsection (1)(ee) located within one-fourth mile of all boundaries of the site.

(gg) Availability of existing and projected mass transit to service the site.

(hh) Where approval is sought for indirect sources to be constructed in incremental phases, the information required by this section shall be submitted for each phase of the construction project.

(ii) Any additional information or documentation that the Director or Agency deem necessary to determine the air quality impact of the indirect source, including the submission of measured air quality data for carbon monoxide at the proposed site prior to construction or modification.

(2) For airports:

(aa) An estimate of the average number and maximum number of aircraft operations per day by type of aircraft during the first, fifth, and tenth years after the date of expected completion.

(bb) A description of the commercial, industrial, residential and other development that the applicant expects will occur within three miles of the perimeter of the airport within the first five and the first ten years after the date of expected completion.

(cc) Expected passenger loadings at the airport.

(dd) The information required under subsections (1)(aa) through (ii) of this section.

(3) For highway projects:

(aa) A description of the average and maximum traffic volumes for one, eight, and 24-hour time period expected within 10 years of date of expected completion.

(bb) An estimate of vehicle speeds for average and maximum traffic volume conditions and the vehicle capacity of the highway project.

(cc) A map showing the location of the highway project, including the location of buildings along the right-of-way.

(dd) A description of the general features of the highway project and associated right-of-way, including the approximate height of buildings adjacent to the highway.

(ee) Any additional information or documentation that the Director deems necessary to determine the air quality impact of the indirect source, including the submission of measured air quality data for carbon monoxide at the proposed site prior to construction or modification.

(ff) The information required under subsections (1)(aa) through (ii) of this section.

(4) The air quality monitoring requirements of this section shall be limited to carbon monoxide, and shall be conducted for a period of not more than 14 days.

(f) Standards for Issuance

(1) For indirect sources other than highway projects, the Agency shall approve an application to construct or modify if it determines that the indirect source will not:

(aa) Violate any control strategy of the Minnesota Implementation Plan to Achieve National Ambient Air Quality Standards; or,

(bb) Violate state standards for carbon monoxide in any region or portion thereof.

(2) The Agency shall make the determination pursuant to this section by evaluating the anticipated concentration of carbon monoxide at reasonable receptor or exposure sites which will be affected by the mobile source activity expected to be attracted by the indirect source. Such determination may be made by using traffic flow characteristic guidelines published by the Environmental Protection Agency which relate traffic demand and capacity considerations to ambient carbon monoxide impact by use of appropriate atmospheric diffusion models, or by any other reliable analytic method. The applicant may submit with his application the results of an appropriate diffusion model or any other reliable analytic method, along with the technical data and information supporting such results. Any such results and supporting data submitted by the applicant shall be considered by the Agency in making a determination pursuant to this section.

(3) For all highway projects subject to this regulation, the Agency shall not grant a permit to construct or modify if it determines that the indirect source will:

(aa) Cause a violation of any control strategy of the Minnesota Implementation Plan to Achieve National Ambient Air Quality Standards; or

(bb) Cause or exacerbate a violation of the state standards for carbon monoxide in any region or portion thereof. The determination pursuant to this section shall be made by evaluating the anticipated concentration of carbon monoxide at reasonable receptor or exposure sites

which will be affected by the mobile source activity expected on the highway for the ten-year period following the expected date of completion according to the procedures specified in Section (f)(2) of this regulation.

(4) The determination of the air quality impact of a proposed indirect source "at reasonable receptor or exposure sites" shall mean such locations where people might reasonably be exposed for time periods consistent with the state ambient air quality standards for the pollutants specified for analysis pursuant to this section.

(g) Permit Procedure

(1) Within 20 days after receipt of an application or addition thereto, the Director shall advise the owner or operator of any deficiency in the information submitted in support of the application. In the event of such a deficiency, the date of receipt of the application for the purpose of subsection (2) of this section shall be the date on which all required information is received by the Agency.

(2) Within 30 days after receipt of a complete application, the Director shall:

(aa) Make a preliminary determination whether the application for an indirect source permit should be approved, approved with conditions in accordance with section (h) of this regulation, or disapproved;

(bb) Make available to the public in at least one location in the affected Minnesota Development Region a copy of all materials submitted by the owner or operator, a copy of the Director's preliminary determination, and a copy or summary of other materials, if any, considered by the Director in making the preliminary determination; and,

(cc) Notify the public, by prominent advertisement in a newspaper of general circulation in each Minnesota Development Region in which the proposed indirect source would be constructed, of the opportunity for written public comment on the information submitted by the owner or operator and the Director's preliminary determination on the approvability of the indirect source.

(3) A copy of the notice required pursuant to this section shall be sent to the applicant and to officials and agencies having cognizance over the location where the indirect source will be situated, as follows: Local air pollution control agencies, the chief executive of the city and county, and the Regional Development Commission in the Minnesota Development Region in which the indirect source is located.

(4) Public comments submitted in writing within 30 days after the date such information is made available shall be considered by the Agency in making its final decision on the application. No later than 10 days after the close of the public comment period, the applicant may submit a written response to any comments submitted by the public. The Agency shall consider the applicant's response in making its final decision. All comments shall be made available for public inspection in at least one location in the Minnesota Development Region in which the indirect source would be located.

(5) The Agency shall take final action on an application within forty-five days after the close of the public comment period. The Agency shall notify the applicant in writing of its approval, conditional approval, or denial of the application, and shall set forth its reasons for conditional approval or denial. Such notification shall be made available for public inspection in at least one location in the region in which the indirect source would be located.

(6) The Agency may extend each of the time periods specified in this section for a period not to exceed 30 days or such other periods as agreed to by the applicant. Nothing herein, however, shall preclude the Agency from extending any of these time periods for an appropriate length of time if it decides to hold a public hearing or public meeting on any permit application, or if an environmental impact statement on the indirect source is prepared.

(h) Permit Conditions

(1) Whenever an indirect source as proposed by an owner or operator's application would not be permitted to be constructed for failure to meet the tests set forth pursuant to Section (f) of this regulation, the Agency may impose reasonable conditions on an approval related to the air quality aspects of the proposed indirect source so that such source, if constructed or modified in accordance with such conditions, could meet the tests set forth pursuant to Section (f) of this regulation. Such conditions may include, but not be limited to:

(aa) Binding commitments to roadway improvements or additional mass transit facilities to serve the indirect source secured by the owner or operator from governmental agencies having jurisdiction thereof;

(bb) Binding commitments by the owner or operator to specific programs for mass transit incentives for the employees and patrons of the source; and,

(cc) Binding commitments by the owner or operator to construct, modify, or operate the indirect source in such a manner as may be necessary to achieve the traffic flow characteristics published by the Environmental Protection Agency pursuant to Section (f)(2) of this regulation.

(2) The Agency may specify that any items of information provided in an application for approval related to the operation of an indirect source which may affect the source's air quality impact shall be considered permit conditions.

(3) Notwithstanding the provisions relating to modified indirect sources contained in Section (b) of this regulation, the Agency may condition any approval by reducing the extent to which the indirect source may be further modified without resubmission for approval under this section.

(4) No owner or operator shall construct an indirect source except in accordance with the permit as approved by the Agency, and no owner or operator shall construct and operate an indirect source except in accordance with conditions imposed by the Agency under this section. Subsequent modification to an approved indirect source may be made without applying for permission pursuant to this regulation only where such modification would not violate any condition imposed pursuant to this section and would not be subject to the modification criteria set forth in Section (b) of this regulation.

(5) Approval to construct or modify shall become invalid if construction or modification is not commenced within 24 months after receipt of such approval. The Agency may extend such time period upon a satisfactory showing that an extension is justified. The applicant may apply for such an extension at the time of initial application or at any time thereafter.

(6) Approval to construct or modify shall not relieve any owner or operator of the responsibility to comply with all local, state and federal regulations.

(7) The Permittee shall allow the Agency, or any authorized employee or agent of the Agency, when authorized by law and upon presen-

tation of proper credentials, to enter upon the property of the permittee for the purpose of obtaining information or examining records or conducting surveys or investigations pertaining to the installation or operation of the indirect source covered by the permit.

(8) The Permittee shall, when requested by the Agency, submit such information and reports which are relevant to the control of pollution regarding the operation of the indirect source covered by the permit.

(9) The Agency may prescribe other permit conditions related to the maintenance of carbon monoxide standards.

(i) Circumvention

No person shall circumvent the requirements of this regulation by causing or allowing a pattern of ownership or development to occur over a geographic area which, except for the pattern of ownership or development, would otherwise require an indirect source permit.

(k) Ambient Standards

Regardless of whether a permit is required for the indirect source, no owner or operator of an indirect source shall cause or allow a violation of any ambient air quality standard.

- - - - - - - - - - -

APPENDIX A (attached)

rmg

APPENDIX A

The air quality assessment required in paragraph (d) will require the following information and procedure:

(1) Information:

(a) The highest existing peak daily traffic count on any segment of any public road or highway located within one-fourth mile from any point on the property line of the indirect source. This public road or highway is the busiest roadway to be affected by the modification or construction and is hereinafter referred to as the "busiest roadway." [$q_e(24)$]

(b) The highest projected peak daily traffic attracted to the proposed indirect source construction or modification occurring at any time during the one-year period immediately following the construction or modification. [$q_p(24)$]

(c) The highest projected peak daily traffic on the busiest roadway during the one-year period immediately following the construction or modification, not including traffic attracted to the proposed indirect source. [$q_r(24)$]

(d) Compute the maximum expected one-hour traffic volumes $q_e(1)$, $q_p(1)$, $q_r(1)$, where:

$$q_e(1) = .12\ q_e(24)$$
$$q_p(1) = .12\ q_p(24)$$
$$q_r(1) = .12\ q_r(24)$$

(e) Compute the maximum expected eight-hour traffic volumes $q_e(8)$, $q_p(8)$, $q_r(8)$, where:

$$q_{e(8)} = .6\ q_{e(24)}$$
$$q_{p(8)} = .6\ q_{p(24)}$$
$$q_{r(8)} = .6\ q_{r(24)}$$

(2) Procedure:

(a) STEP 1: Comparison of Existing Air Quality to the One-Hour Standard.

If $q_{e(1)}$ is greater than or equip to 2,500 vehicles per hour, a permit application is required and completion of the remaining steps is not required; if it is less, go to STEP 2.

(b) STEP 2: Comparison of Existing Air Quality to the Eight-Hour Standard.

If $q_{e(8)}$ is greater than or equal to 5,000 vehicles per eight hours, a permit application is required and completion of the remaining steps is not required; if it is less, go to STEP 3.

(c) STEP 3: Comparison of Projected Air Quality to the One-Hour Standard.

If $q_{r(1)} + q_{p(1)}$ is greater than or equal to 5,000 vehicles per hour, a permit application is required and completion of the remaining step is not required; if it is less, then go to Step 4.

(d) STEP 4: Comparison of Projected Air Quality to the Eight-Hour Standard.

If $q_{r(8)} + q_{p(8)}$ is greater than or equal to 7,500 vehicles per eight-hours, a permit application is required. If it is less, then no permit application is required.

STATE OF MINNESOTA

COUNTY OF RAMSEY

MINNESOTA POLLUTION

CONTROL AGENCY

In the Matter of the
Adoption of Minnesota
Regulation APC-19 Relating
to Permits for Indirect
Sources

ORDER FOR

HEARING

To effectively implement Minn. Stat. §§ 116.07 subd. 4a and 116.081 (1971) and to comply with federal law, the Minnesota Pollution Control Agency deems it necessary to consider adoption of the proposed regulation captioned above pursuant to authority vested in the Agency by law. The Agency authorized the holding of a public hearing by resolution passed on June 18, 1974.

NOW, THEREFORE, IT IS ORDERED this 6th day of September, 1974, that a public hearing on the proposed regulation captioned above be held in the Board Room of the offices of the Minnesota Pollution Control Agency, 1935 W. County Road B-2, Roseville, Minnesota, on October 10, 1974, commencing at 9:30 a.m. and continuing until all interested persons, representatives, organizations, or groups have had an opportunity to be heard.

IT IS FURTHER ORDERED that notice of said hearing be given to all representatives of associations or other interested groups or individuals who have registered their names with the Secretary of State for that purpose.

Dated this 6th day of September, 1974.

MINNESOTA POLLUTION

CONTROL AGENCY

In the Matter of the
Adoption of Minnesota
Regulation APC-19 Relating
to Permits for Indirect
Sources

NOTICE OF

HEARING

NOTICE IS HEREBY GIVEN that a public hearing will be held pursuant to Minnesota Statutes, sections 15.0412 and 116.07 subd. 4a and 116.081, and pursuant to requirements of federal law, in the above-entitled matter in the Board Room of the offices of the Minnesota Pollution Control Agency in the City of Roseville, Minnesota, 1935 W. County Road B-2, on Thursday, October 10, 1974, commencing at 9:30 a.m. and continuing until all interested persons, representatives and organizations have had an opportunity to be heard concerning the adoption of the proposed regulation captioned above, by submitting oral or written data, statement, comments or arguments. All testimony shall be given under oath or affirmation. Statements may be mailed to the Agency at the address below for submission into the record at any time prior to closing of the record. The record will remain open for at least 20 days beyond the close of the hearing.

The Agency proposes to adopt a regulation establishing a permit requirement for construction or modification of certain indirect sources. Indirect sources are defined as "a facility, building, structure, or installation, or combination thereof, which causes or may cause mobile source activity that results in emissions of a pollutant for which there is a State or national ambient air quality standard." Examples of indirect sources are highways and roads, parking lots and garages, shopping centers, recreational centers, and amusement parks, sport stadiums, airports, and commercial and industrial developments. The proposed regulation establishes a permit requirement for certain large indirect sources and exempts other small indirect sources. Indirect sources of a size in between are required to go through an assessment procedure to determine whether a permit is required. Certain modifications to indirect sources may also require a permit or an assessment. The proposed regulation sets forth methods for determining whether an indirect source will interfere with maintenance of ambient air quality standards. Information which must be submitted with a permit application is also included in the regulation. A permit procedure which provides for public input and input from local planning agencies like the Metropolitan Council prior to Agency action on a permit.

application is proposed in the regulation. Finally, the regulation proposes permit conditions and a monitoring requirement.

A copy of the proposed regulation may be obtained by contacting Mr. Ron Way, Division of Air Quality, Minnesota Pollution Control Agency, 1935 W. County Road B-2, Roseville, Minnesota, 55113 (612-296-7281). Copies will also be available at the hearing. This regulation is a proposed regulation only and is subject to alteration or modification as the Agency deems necessary and appropriate from its consideration of all the evidence adduced at the public hearing and all statements and exhibits entered into the record.

Dated this 16th day of September, 1974.

STATE OF MINNESOTA

COUNTY OF RAMSEY

In the Matter of the Adoption of
Minnesota Regulation APC 19
Relating to Permits for Indirect Sources

CERTIFICATE

I hereby certify that the attached 4 sheets 379 labels constitute the complete list of persons, associations, and other interested groups who as of 2:30 o'clock p.m., this 4th day of September, 1974, have requested pursuant to Minn. Stat. §15.0412 subd. 4 (1971), that their names be placed on file with the Secretary of State for the purpose of receiving notice of public hearing on proposed rules on the subject captioned above.

SECRETARY OF STATE

Arlen I. Erdahl

Relating to Permits for
Indirect Sources

AFFIDAVIT OF SERVICE

BY REGULAR MAIL

I, Ruth M. Gross, being first duly sworn on oath, depose and say that:

1) I am an employee of the Minnesota Pollution Control Agency on a full-time basis;

2) On the 6th day of September, 1974, in the City of Roseville, County of Ramsey, State of Minnesota, I served the attached Notice of Hearing upon each of the individuals and organizations named on the attached lists by depositing in the United States mail, with postage prepaid, envelopes containing a true and correct copy of said Notice, addressed to those names and addresses on the attached list.

Ruth M. Gross

RUTH M. GROSS

Subscribed and sworn to
before me,
this 9th day of September, 1974,
at Roseville, Minnesota.

STATE OF MINNESOTA

COUNTY OF RAMSEY

MINNESOTA POLLUTION

CONTROL AGENCY

In the Matter of the
Adoption of Minnesota
Regulation APC-19 Relating
to Permits for Indirect
Sources

NOTICE OF

HEARING

NOTICE IS HEREBY GIVEN that a public hearing will be held pursuant to Minnesota Statutes, sections 15.0412 and 116.07 subd. 4a and 116.081, and pursuant to requirements of federal law, in the above-entitled matter in the Board Room of the offices of the Minnesota Pollution Control Agency in the City of Roseville, Minnesota, 1935 W. County Road B-2, on Thursday, October 10, 1974, commencing at 9:30 a.m. and continuing until all interested persons, representatives and organizations have had an opportunity to be heard concerning the adoption of the proposed regulation captioned above, by submitting oral or written data, statement, comments or arguments. All testimony shall be given under oath or affirmation. Statements may be mailed to the Agency at the address below for submission into the record at any time prior to closing of the record. The record will remain open for at least 20 days beyond the close of the hearing.

The Agency proposes to adopt a regulation establishing a permit requirement for construction or modification of certain indirect sources. Indirect sources are defined as "a facility, building, structure, or installation, or combination thereof, which causes or may cause mobile source activity that results in emissions of a pollutant for which there is a State or national ambient air quality standard." Examples of indirect sources are highways and roads, parking lots and garages, shopping centers, recreational centers, and amusement parks, sport stadiums, airports, and commercial and industrial developments. The proposed regulation establishes a permit requirement for certain large indirect sources and exempts other small indirect sources. Indirect sources of a size in between are required to go through an assessment procedure to determine whether a permit is required. Certain modifications to indirect sources may also require a permit or an assessment. The proposed regulation sets forth methods for determining whether an indirect source will interfere with maintenance of ambient air quality standards. Information which must be submitted with a permit application is also included in the regulation. A permit procedure which provides for public input and input from local planning agencies like the Metropolitan Council prior to Agency action on a permit

application is proposed in the regulation. Finally, the regulation proposes permit conditions and a monitoring requirement.

A copy of the proposed regulation may be obtained by contacting Mr. Ron Way, Division of Air Quality, Minnesota Pollution Control Agency, 1935 W. County Road B-2, Roseville, Minnesota, 55113 (612-296-7281). Copies will also be available at the hearing. This regulation is a proposed regulation only and is subject to alteration or modification as the Agency deems necessary and appropriate from its consideration of all the evidence adduced at the public hearing and all statements and exhibits entered into the record.

Dated this 11th day of September, 1974.

STATE OF MINNESOTA

COUNTY OF RAMSEY

MINNESOTA POLLUTION

CONTROL AGENCY

In the Matter of the Adoption
of APC 19 requiring a Permit
for Certain Indirect Sources

STATEMENT OF NEED

The above-captioned regulation is a new regulation for the Minnesota Pollution Control Agency. The need to adopt the regulation arises for the following reasons:

1. "Indirect Sources" are defined as facilities which induce mobile sources (automobiles) which emit a pollutant for which there is a state or national ambient air quality standard. Numerous reports, most recently a three-volume report by the National Academy of Sciences submitted to the Senate Subcommittee on Environmental Pollution in October, 1974, have identified automotive pollutants as a serious health hazard. The National Academy of Sciences report stated that one-tenth to one-fourth of the total health hazard imposed by present air pollution is attributable to automotive emissions.

2. The above-referenced National Academy of Sciences report also concluded that ambient air quality standards adopted by the U.S. Environmental Protection Agency (hereinafter EPA) pursuant to the Clean Air Act were justified from both an economic and health standpoint. Minnesota's standards pertaining to automotive emissions (carbon monoxide, hydrocarbons, nitrogen oxide and photochemical oxidants) are based on the national standards promulgated by the EPA.

3. EPA has concluded (39 Fed. Reg. 25292) that various types of indirect sources, including shopping centers and sports stadiums, have a definite adverse impact on ambient carbon monoxide levels, to the extent that ambient air quality standards may be violated.

4. In January, 1972, Minnesota submitted to the EPA the state's Implementation Plan to Achieve National Ambient Air Quality Standards. The plan was approved, but subsequently rejected on March 8, 1973, along with all other state implementation plans because of the lack of control strategies to maintain air quality standards in accordance with the Clean Air Act by preventing the construction of indirect sources which would cause a violation of an ambient air quality standard.

5. On February 25, 1974, the EPA promulgated regulations for all states which provided that a permit from the EPA Administrator was required before construction could begin on certain indirect sources. On July 9, 1974, the EPA amended its regulation. Presently, a permit is required from the federal government for certain indirect sources which commence construction after January 1, 1975.

6. The states are required by federal regulation to provide for the preconstruction review of certain indirect sources as a part of the state implementation plan. Upon adoption of a state regulation which is adequate to maintain air quality standards through review of these indirect sources and prevention of

construction, if necessary to maintain standards, EPA will approve the regulation and withdraw the federal indirect source regulation.

MINNESOTA POLLUTION

CONTROL AGENCY

In the Matter of the Adoption
of APC 19 requiring a Permit
for Certain Indirect Sources

FINDINGS OF FACT

The above-entitled matter came on for hearing before the Minnesota Pollution Control Agency (hereinafter Agency) on the 29th day of November, 1973, at 9:00 a.m. and again on the 10th day of October, 1974, at 9:30 a.m. in the Board Room of the Agency offices, 1935 W. County Road B-2, Roseville, Minnesota, after proper notice required by Minnesota Statute §15.0412 (1971) was served upon all persons, associations and other interested groups registered with the Secretary of State for that purpose.

After affording all interested persons an opportunity to present written and oral data, statements and arguments, having considered all of the testimony, having considered all evidence adduced and upon the records, files and proceedings herein, the Agency finds the following:

1. Pursuant to Minn. Stat. §116.07 subd 2 (1971), the Minnesota Pollution Control Agency has adopted Minnesota Regulation APC 1, which provides ambient air quality standards in Minnesota for carbon monoxide, hydrocarbons and nitrogen oxides, pollutants emitted by mobile sources, and for photochemical oxidants, a pollutant caused by emissions from mobile sources. The United States Environmental Protection Agency (EPA) has also promulgated ambient air quality standards for these pollutants. These standards are justified from both health and economic standpoints, a fact

underscored in a three-volume report by the National Academy of Sciences to the Senate Public Works Committee in October, 1974.

2. Certain indirect sources such as highways, shopping centers, parking facilities, sports stadiums and other similar facilities which attract a large number of mobile vehicles, could jeopardize maintenance of air quality standards for the above-named pollutants.

3. The Clean Air Act requires that all ambient air quality standards be achieved and maintained. EPA requires that the states provide for the preconstruction review of indirect sources and the prevention of construction of such sources, if necessary to maintain ambient air quality standards (40 C.F.R. §51.18 (1973)). EPA has disapproved the Minnesota Air Quality Implementation Plan because it fails to provide for the review of indirect sources (40 C.F.R. §52.22 (1973)).

4. EPA regulations, promulgated on February 25, 1974 (39 Fed. Reg. 7270 et seq.) and amended on July 9, 1974 (39 Fed. Reg. 25292), require that certain indirect sources receive approval from EPA prior to construction. The regulations are effective in Minnesota (40 C.F.R. §52.1225). Owners and operators of indirect sources in Minnesota now receive approval from EPA prior to construction or major modification of indirect sources. However, Minnesota may adopt and enforce its own indirect source regulation, provided that the regulation is approved by EPA.

5. EPA will not give its approval and will not allow construction or major modification of an indirect source if the source will violate ambient air quality standards.

6. EPA has expressed reservations about the adequacy of available analytical techniques to accurately describe the impact of a specific indirect source on ambient air quality concentrations of photochemical oxidant and nitrogen oxide. Until the uncertainty is removed, regulations pertaining to indirect sources must be limited to consideration of the effect of the indirect source on carbon monoxide levels, for which analytical techniques are accepted and results are accurate.

7. Major metropolitan areas, of course, have the largest number of motor vehicles and these are the areas in which the ambient air quality standards are in most jeopardy of being violated. Therefore, it is appropriate to review smaller size indirect sources which are proposed for major metropolitan areas than those proposed for other areas.

8. The number of vehicle trips generated by the indirect source combined with the existing number of vehicle trips is an important factor in assessing air quality impacts of proposed indirect sources. Therefore, an assessment procedure based on trip generation is appropriate to determine whether a proposed source may cause a violation of standards, even though the source is not of sufficient size to make permit application mandatory. An assessment procedure will reduce the number of mandatory permit applications and at the same time determine which sources may

cause violations of air quality standards.

9. Some sources are of such size that a permit application is mandatory to enable a review of the air quality impact of the source. The EPA has determined that permit application is mandatory for the following parking areas: (a) in a metropolitan area, those with capacity for 1,000 vehicles or more, (b) outside a metropolitan area, those with capacity for 2,000 vehicles or more, and (c) modifications that will provide for 1,000 new spaces or more. There are areas within metropolitan areas where existing mobile activity is low. Parking areas with capacity for 2,000 vehicles or more may cause a violation of air quality standards, and a permit application is required. Parking areas with capacity for 1,000 vehicles or more, but less than 2,000 vehicles, may cause a violation of standards under certain conditions, and an assessment of such areas must be made. Modifications that will add to existing parking areas capacity for more than 1,000 vehicles may cause a violation of air quality standards, and a permit application is required. Modifications which add spaces for 500 vehicles or more but less than 1,000 vehicles may cause a violation of standards under certain conditions and an assessment must be made.

10. Highways and roadways in a metropolitan area which induce more than 20,000 vehicle trips per average day, and modifications which induce an additional 10,000 trips per average day, may cause a violation of air quality standards and a permit application is mandatory.

11. Mobile vehicles attracted to airport facilities may cause a violation of air quality standards. EPA has determined that airports with 50,000 or more operations by commercial airliners or which generate 1,600,000 or more passengers per year must apply for a permit. One million airline passengers per year may generate 12,500 average-day vehicle trips, a number sufficiently high to jeopardize air quality standards and thus a permit application must be made. Modifications to airport facilities that will generate an additional 500,000 passengers per year may cause a violation of standards under certain conditions and an air quality assessment must be made.

12. Indirect sources cannot be phased or developed in a manner such that the intent of the regulation is subrogated even though each phase of the development may not by itself require a permit application. The objective of the regulation is to maintain air quality standards.

13. Public participation is important to the Agency in developing its decision on whether a permit application should be approved. An effective method of encouraging public participation is through notification of the public by making available all information pertaining to an application for an indirect source permit in a location in the affected Minnesota Development Region. Additional public notice, including mailings to appropriate officials and newspaper advertisements in the affected region, will precede any public hearings that may be ordered on any application.

14. Conditions of permits are required to assure that an indirect source will be operated in a manner that air quality standards will be maintained.

15. Regardless of the size of an indirect source, the owner or operator is responsible for complying with ambient air quality standards.

CERTIFICATE OF AGENCY'S

AUTHORIZING RESOLUTION

I, Grant J. Merritt, do hereby certify that I am the Executive Director of the Minnesota Pollution Control Agency, an agency duly authorized under the laws of the State of Minnesota, and that a resolution was adopted at the meeting of the Agency duly and properly called and held on the 18th day of June, 1974; that a quorum was present at said meeting; that the resolution was passed by a majority of those present; that the resolution is set forth in the minutes of said meeting and has not been rescinded or modified; that the resolution authorized the Minnesota Pollution Control Agency staff to call a public hearing for the purpose of promulgating APC 19, a regulation relating to permits for indirect sources, and to perform all acts necessary to the holding of said hearing.

I further certify that a resolution was adopted at the meeting of the Agency duly and properly called and held on the 9th day of July, 1973; that a quorum was present at said meeting; that the resolution was passed by a majority of those present; that the resolution is set forth in the minutes of said meeting and has not been rescinded or modified; that the resolution authorized the Minnesota Pollution Control Agency staff to call a public hearing for the purpose of promulgating amendments to provide a permit requirement for indirect sources and to perform all acts necessary to the holding of said hearing.

IN WITNESS WHEREOF, I have hereunto subscribed my name this 30th day of December, 1974.

CERTIFICATE OF AGENCY'S

ADOPTION OF RULES RESOLUTION

I, Grant J. Merritt, do hereby certify that I am the Executive Director of the Minnesota Pollution Control Agency, an agency duly authorized under the laws of the State of Minnesota, and that the following is a true, complete, and correct copy of a resolution adopted at a meeting of the Agency duly and properly called and held on the 17th day of December, 1974; that a quorum was present at said meeting; that said resolution is set forth in the minutes of said meeting and has not been rescinded or modified.

> RESOLVED, that Minnesota Regulation APC 19 dated December 17, 1974, be and it hereby is approved and adopted, pursuant to authority vested in the Minnesota Pollution Control Agency by Minn. Stat. §§116.07 subds. 4 and 4a (1971). And to accept the Findings of Fact, Conclusions and Recommendations.

IN WITNESS WHEREOF, I have hereunto subscribed my name this 22nd day of January, 1975.
